IMPORTANT – EEA RETAIL INVESTORS - If the Final Terms in respect of any Instruments includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Instruments are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a "**retail investor**" means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; (ii) a customer within the meaning of Directive (EU) 2016/97, as amended (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the EU Prospectus Regulation. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the Instruments or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Instruments or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

Notwithstanding the above paragraph, in the case where the Final Terms in respect of any Instruments includes a legend entitled "Prohibition of Sales to EEA Retail Investors" but where the Issuer subsequently prepares and publishes a key information document under the EU PRIIPs Regulation in respect of such Instruments, then following such publication, the prohibition on the offering, sale or otherwise making available the Instruments to a retail investor as described in the above paragraph and in such legend shall no longer apply.

IMPORTANT – UK RETAIL INVESTORS - If the Final Terms in respect of any Instruments includes a legend entitled "Prohibition of Sales to UK Retail Investors", the Instruments are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a "**retail investor**" means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (the "**EUWA**") and the regulations made under the EUWA; (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000, as amended (the "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of UK domestic law by virtue of the EUWA and the regulations made under the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of UK domestic law by virtue of the EUWA and the regulations made under the EUWA (the "**UK Prospectus Regulation**"). Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of UK domestic law by virtue of the EUWA and the regulations made under the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Instruments or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Instruments or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

Notwithstanding the above paragraph, in the case where the Final Terms in respect of any Instruments includes a legend entitled "Prohibition of Sales to UK Retail Investors" but where the Issuer subsequently prepares and publishes a key information document under the UK PRIIPs Regulation in respect of such Instruments, then following such publication, the prohibition on the offering, sale or otherwise making available the Instruments to a retail investor as described in the above paragraph and in such legend shall no longer apply.

INVESTORS SHOULD NOTE THAT BANK OF AMERICA CORPORATION IS NOT LICENSED TO OPERATE AS A BANK IN ITALY.

General:

Form and Transfer of Instruments:

Global Instruments and Clearing Systems

Generally, each Tranche of Instruments (other than CMU Notes and Korean Notes) will at all times be represented by a global warrant, a global certificate or a global note in registered form (the "**Global Instrument**"), as applicable.

Generally, each Global Instrument which is to be issued into and transferred through accounts at Euroclear Bank SA/NV ("**Euroclear**") and/or Clearstream Banking, S.A. ("**Clearstream, Luxembourg**") will be deposited on the issue date specified in the applicable Final Terms with: (a) in the case of Instruments (other than Notes intended to be held under the New Safekeeping Structure (the "**NSS**")), a common depository (the "**Common Depository**") (which shall at all times be an entity located outside the United Kingdom) for Euroclear and/or Clearstream, Luxembourg or (b) in the case of Notes intended to be held under the NSS for Euroclear, Clearstream, Luxembourg, a common safekeeper (the "**Common Safekeeper**").

Rule 144A Instruments which are to be issued into and transferred through accounts at The Depository Trust Company ("**DTC**" and, together with Euroclear, Clearstream, Luxembourg, the "**Clearing Systems**" and each a "**Clearing System**") will be constituted by a Global Instrument which will be registered in the name of a nominee for DTC and held by the Principal Paying Agent or Principal W&C Instrument Agent, as applicable, as custodian for DTC.

CREST Depository Interests

In certain circumstances, investors may also hold interests in the Notes through Euroclear UK & Ireland Limited (formerly CREST Co Limited) ("**CREST**") through the issuance of dematerialised depository interests (i.e. securities without any physical document of title which are distinct from the Notes), held, settled and transferred through CREST (the "**CDIs**"), representing the interests in the relevant Notes underlying the CDIs. CDIs are independent securities constituted under English law and transferred through CREST and will be issued by CREST

Depository Limited pursuant to the global deed poll dated 25 June 2001 (as subsequently modified, supplemented and/or restated) (the "**CREST Deed Poll**"). Neither the Notes nor any rights attached to the Notes will be issued, settled, held or transferred within the CREST system other than through the issue, settlement, holding or transfer of CDIs. Holders of CDIs (the "**CDI Holders**") will not be entitled to deal directly in the Notes and, accordingly, all dealings in the Notes will be effected through CREST in relation to the holding of CDIs. Investors should note that the CDIs are the result of the CREST settlement mechanics and are not the subject of this Offering Circular.

CMU Notes

Generally, each Tranche of CMU Notes will at all times be represented by a global note in registered form ("**CMU Global Registered Note**").

Generally, each CMU Global Registered Note will be deposited on the issue date specified in the applicable Final Terms with a sub-custodian for the Central Moneymarkets Unit Service ("**CMU**") operated by the Hong Kong Monetary Authority.

So long as the CMU Notes are represented by the CMU Global Registered Note and the CMU Global Registered Note is held by a sub-custodian of the CMU, transfers of beneficial interests in the CMU Notes may be effected only through the records maintained by the CMU and its participants in accordance with the rules and operating procedures of the CMU and its participants.

For these purposes, "**CMU Notes**" means any Tranche of Notes issued in registered form and deposited with a sub-custodian for the CMU in accordance with all applicable Hong Kong laws, regulations and rules.

Korean Notes

In certain circumstances, Notes will be electronically registered in uncertificated and dematerialised book-entry form with the Korea Securities Depository (the "**KSD**") in accordance with all applicable Korean laws, regulations and rules (each such Series of Notes, the "**Korean Notes**"). Under applicable Korean Regulations, Korean Notes are not permitted to be issued in definitive, certificated form.

Title to Korean Notes will be transferred through the KSD.

Status of the Instruments:

The Instruments (other than Secured Instruments) issued by MLBV will constitute direct, unsubordinated, unconditional and unsecured obligations of MLBV and rank equally among themselves and rank equally (subject to such exceptions as are from time to time provided by applicable laws) with all other present and future direct, unsubordinated, unconditional and unsecured indebtedness (in the case of Notes) or obligations (in the case of W&C Instruments) of MLBV.

The Notes issued by BofA Finance will constitute unsecured and unsubordinated obligations of BofA Finance and will rank equally in right of payment with all other unsecured and unsubordinated obligations of BofA Finance from time to time outstanding, except obligations that are subject to any priorities or preferences by law.

BofA Finance is a finance subsidiary and has no operations other than those related to the issuance, administration and repayment of its debt securities that are guaranteed by BAC. In addition, BofA Finance will have no assets available for distributions to holders of Notes issued by BofA Finance if they make claims in respect of such Notes in a bankruptcy, resolution or similar proceeding. Accordingly, any recoveries by such holders will be limited to those available under BAC's guarantee of such Notes. Holders of Notes issued by BofA Finance will have recourse only to a single claim against BAC and its assets under BAC's guarantee of the Notes, and holders of the Notes should accordingly assume that in any bankruptcy, resolution or similar proceeding, they would not have any priority over, and should be treated equally with, the claims of all other unsecured and unsubordinated obligations of BAC, including claims of holders of unsecured senior debt securities issued by BAC.

The Notes issued by BAC will constitute unsecured and unsubordinated obligations of BAC and will rank equally in right of payment with all of BAC's other unsecured and unsubordinated obligations from time to time outstanding, except obligations, including deposit liabilities, that are subject to priorities or preferences by law.

Because BAC is a holding company, BAC's right to participate in any distribution of assets of any subsidiary upon such subsidiary's liquidation or reorganisation or otherwise is subject to the prior claims of creditors of that subsidiary, except to the extent BAC may itself be recognised as a creditor of that subsidiary. Accordingly, BAC's obligations under its Notes will be structurally subordinated to all existing and future liabilities of its subsidiaries, and claimants should look only to BAC's assets for payments. In addition, the BAC Notes will be unsecured and therefore in a bankruptcy or similar proceeding will effectively rank junior to BAC's secured obligations to the extent of the value of the assets securing such obligations.

The Secured Instruments constitute direct, limited recourse, unsubordinated and secured obligations of MLBV and rank equally among themselves.

Status of the Guarantees:

The obligations of the Guarantor under the Guarantees, save for such exceptions as may be provided by applicable laws and regulations or judicial order, will rank *pari passu* in right of payment with its other present and future unsecured and unsubordinated obligations.

Because BAC is a holding company, BAC's right to participate in any distribution of assets of any subsidiary upon such subsidiary's liquidation or reorganisation or otherwise is subject to the prior claims of creditors of that subsidiary, except to the extent BAC may itself be recognised as a creditor of that subsidiary. Accordingly, BAC's obligations under the Guarantees will be structurally subordinated to all existing and future liabilities of its subsidiaries, and claimants should look only to BAC's assets for payments. In addition, the Guarantees will be unsecured and therefore in a bankruptcy or similar proceeding will effectively rank junior to BAC's secured obligations to the extent of the value of the assets securing such obligations.

Approval, listing and admission to trading:	Application has been made to the Luxembourg Stock Exchange for Instruments (other than in respect of Korean Notes) issued under the Programme during the 12 months from the date of this Offering Circular to be admitted to trading on the Luxembourg Stock Exchange's Euro MTF market and to be listed on the Official List of the Luxembourg Stock Exchange. Notes may be listed and/or admitted to trading on such other or further exchange(s) and/or market(s) as determined by the relevant Issuer.
Governing Law:	The Instruments issued by MLBV, and any non-contractual obligations arising out of or in connection with them, will be governed by, and construed in accordance with, English law. Notes issued by BAC and BofA Finance will be governed by, and construed in accordance with, the laws of the State of New York, United States. Each Guarantee will be governed by, and construed in accordance with, the laws of the State of New York, United States.
Rating:	The Programme has no rating. If any issue of Notes under the Programme is to be rated, the rating of such Notes will be specified in the applicable Final Terms. Any such rating is not a recommendation to buy, sell or hold securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.
Selling Restrictions:	There are restrictions on the offer, sale and transfer of the Instruments in the United States, the EEA (including Austria, Denmark, Finland, France, Greece, Italy, Luxembourg, the Netherlands, Poland and Spain), the United Kingdom, Argentina, Bahamas, Bermuda, Brazil, Cayman Islands, Chile, China, Colombia, Costa Rica, Dubai International Finance Centre, Dominican Republic, El Salvador, Guatemala, Guernsey, Honduras, Hong Kong, Israel, Jamaica, Japan, Jersey, Mauritius, Mexico, New Zealand, Nicaragua, Oman, Panama, Paraguay, Peru, Philippines, Portugal, Qatar, Singapore, South Africa, South Korea, St. Kitts and Nevis, Switzerland, Taiwan, Thailand, Turkey, United Arab Emirates, Uruguay and Venezuela, and such other restrictions as may be required in connection with the offering and sale of a particular Series of Instruments, including the restrictions in connection with the offering and sale of Low Exercise Price Warrants that are linked to a share or an index listed on an exchange in certain jurisdictions including China, Indonesia, Taiwan, Thailand and Vietnam (see "Offering and Sale").
Risk Factors:	In the course of conducting their business operations, BAC and its subsidiaries (together, the " Group "), including MLBV and BofA Finance, are exposed to a variety of risks, some of which are inherent in the financial services industry and others of which are more specific to their own businesses, and that are material for purposes of assessing the risks associated with investing in the Instruments. See "Risk Factors" for more information regarding these risks. POTENTIAL INVESTORS MUST REVIEW THE APPLICABLE FINAL TERMS TO ASCERTAIN WHAT THE RELEVANT REFERENCE ITEM(S) ARE AND TO SEE HOW THE CASH SETTLEMENT AMOUNT, FINAL REDEMPTION AMOUNT OR ENTITLEMENT, AS THE CASE MAY BE, PAYABLE AND/OR DELIVERABLE ON THE INSTRUMENTS AND ANY INTEREST PAYMENTS (IN THE CASE OF NOTES) OR ANY ADDITIONAL

AMOUNT PAYMENTS (IN THE CASE OF W&C INSTRUMENTS) ARE DETERMINED AND WHEN SUCH AMOUNTS ARE PAYABLE AND/OR DELIVERABLE, AS THE CASE MAY BE, BEFORE MAKING ANY DECISION TO PURCHASE ANY INSTRUMENTS.

Additional risks and uncertainties not presently known to any of BAC (in its capacity as Issuer and in its capacity as Guarantor, with respect to Instruments other than Secured Instruments), BofA Finance or MLBV or that any of BAC (in its capacity as Issuer and in its capacity as Guarantor, with respect to Instruments other than Secured Instruments), BofA Finance or MLBV currently believes to be immaterial could also have a material impact on their respective businesses, results of operations and financial conditions or the relevant Instruments. The Final Terms in respect of an issue of Instruments may contain additional Risk Factors in respect of such Instruments. Prospective investors should also read the detailed information set out elsewhere in this Offering Circular and reach their own views prior to making any investment decision.

1. **Risk Factors Relating to the Relevant Issuer's and (with respect to the Instruments other than Secured Instruments) the Guarantor's Ability to Fulfil Their Respective Obligations Under the Relevant Instruments or the Guarantees, as applicable**

BAC is the ultimate parent company of the Bank of America group of companies (BAC and its consolidated subsidiaries, the "**Group**"). BofA Finance and MLBV are part of the Group.

BofA Finance is a finance vehicle whose principal purpose is to provide BAC and/or BAC's other subsidiaries with financing by issuing debt securities to investors and lending the net proceeds therefrom to BAC and/or those subsidiaries. MLBV is a finance vehicle whose principal purpose is to raise debt or enter into financial contracts to assist the financing activities of its affiliates. Accordingly, neither BofA Finance nor MLBV has any trading assets or generates any significant net income.

The payment and non-cash delivery obligations under Instruments issued by MLBV (other than in respect of Secured Instruments, CMU Notes and Korean Notes) under the Programme are guaranteed unconditionally and irrevocably pursuant to the MLBV Guarantee. The payment obligations under the Notes issued by BofA Finance under the Programme are guaranteed unconditionally and irrevocably pursuant to the BofA Finance Guarantee. The payment and non-cash delivery obligations under the CMU Notes issued by MLBV under the Programme are guaranteed unconditionally and irrevocably pursuant to the CMU Notes Guarantee. The payment obligations under the Korean Notes issued by MLBV under the Programme are guaranteed unconditionally and irrevocably pursuant to the Korean Notes Guarantee. As a result, if the Guarantor's financial condition were to deteriorate, the value of such Instruments (other than Secured Instruments) may be adversely affected and BofA Finance, MLBV and investors in such Instruments (other than Secured Instruments) may suffer direct and materially adverse consequences. Accordingly, prospective investors in such Instruments (other than Secured Instruments) should review, *inter alia*, the factors below regarding BAC, the Group (as defined above) and the Group's businesses and industry, which may affect the relevant Issuer's ability to repay its obligations and BAC's ability to fulfil its obligations under the applicable Guarantee.

Payments on the Instruments are subject to the credit risk of the relevant Issuer and (other than in respect of Secured Instruments) BAC, in its capacity as the Guarantor, and actual or perceived changes in the relevant Issuer's or BAC's creditworthiness are expected to affect the value of the Instruments (other than Secured Instruments).

The amounts payable or deliverable on the Instruments at maturity, redemption, settlement, expiration or exercise are dependent upon the ability of the relevant Issuer and (other than in respect of Secured Instruments) BAC, in its capacity as the Guarantor, to repay (or deliver, as applicable) their respective obligations on the applicable maturity date, redemption date, settlement date, expiration date or exercise

date. If the relevant Issuer and (other than in respect of Secured Instruments) BAC, in its capacity as the Guarantor, are not able to fulfil their respective obligations under the Instruments to Holders, investors will be unsecured (other than in respect of Secured Instruments) and will not have the protection of the FDIC, the U.S. Deposit Insurance Fund, the UK Financial Services Compensation Scheme or any other government or governmental agency, or insurance protection scheme in any jurisdiction. In such case, the return on the Instruments (other than Secured Instruments) will be reduced and may be zero. This will be the case even if the value of the Reference Item increases (or decreases, as the case may be) after the pricing date. No assurance can be given as to what the financial condition of the relevant Issuer or (other than in respect of Secured Instruments) BAC, in its capacity as the Guarantor, will be on the applicable maturity date, redemption date, settlement date, expiration date or exercise date. If the relevant Issuer and (other than in respect of Secured Instruments) BAC, in its capacity as Guarantor, become unable to meet their respective obligations under the Instruments at maturity, redemption, settlement, expiration or exercise, investors may not receive the amounts payable or deliverable under the terms of the Instruments.

Furthermore, the value of the Instruments (other than Secured Instruments) is expected to be affected, in part, by investors' general appraisal of the relevant Issuer's or BAC's creditworthiness and actual or anticipated changes in the relevant Issuer's or BAC's credit ratings prior to the maturity date, redemption date, settlement date, expiration date or exercise date may adversely affect the value of the Instruments (other than Secured Instruments). Such perceptions are generally influenced by the ratings accorded to BAC's outstanding securities by standard statistical rating services. A reduction (or anticipated reduction) in the rating, if any, accorded to outstanding debt securities of BAC by one of these rating agencies could result in a reduction in the trading value of the Instruments (other than Secured Instruments). As the return on the Instruments depends upon factors in addition to the ability of the relevant Issuer or (other than in respect of Secured Instruments) BAC, in its capacity as the Guarantor, to pay its respective obligations, an improvement in these credit ratings will not reduce the other investment risks related to such Instruments. A credit rating is not a recommendation to buy, sell, or hold any of the Instruments and may be subject to suspension, change, or withdrawal at any time by the assigning rating agency.

BofA Finance is a finance subsidiary and, as such, has no independent assets, operations or revenues

BofA Finance is a finance subsidiary of BAC, has no operations other than those related to the issuance, administration and repayment of its debt securities that are guaranteed by BAC, including the Notes, and is dependent upon BAC and/or BAC's other subsidiaries to meet its obligations under the Notes in the ordinary course. However, BofA Finance will have no assets available for distributions to holders of its Notes if they make claims in respect of such Notes in a bankruptcy, resolution or similar proceeding. Accordingly, any recoveries by such holders in respect of such claims in any such proceeding will be limited to those available under BAC's guarantee of such Notes, and any obligations under that guarantee will rank equally in right of payment with all other unsecured and unsubordinated obligations of BAC, except obligations that are subject to any priorities or preferences by law, and senior in right of payment to BAC's subordinated obligations. Holders of the Notes will have recourse only to a single claim against BAC and its assets under BAC's guarantee of the Notes, and holders of the Notes should accordingly assume that in any bankruptcy, resolution or similar proceeding, they would not have priority over, and should be treated equally with, the claims of all other unsecured and unsubordinated obligations of BAC, including claims of holders of unsecured senior debt securities issued by BAC.

2. Risk Factors Relating to BAC and the Group and to the Group's Businesses and Industry

When used in this Offering Circular, and as required by the context, "BAC" may refer to Bank of America Corporation individually, Bank of America Corporation and its consolidated subsidiaries or certain of Bank of America Corporation's subsidiaries or affiliates, individually or collectively.

In the course of conducting its business operations, BAC is exposed to a variety of risks, some of which are inherent in the financial services industry and others of which are more specific to BAC's own businesses. Material risk factors, of which BAC is aware, that could affect BAC's businesses, results of operations and financial condition are described in the BAC 2023 Annual Report under the caption "*Item 1A. Risk Factors*". Additional factors that could affect BAC's businesses, results of operations and financial condition are discussed in the BAC 2023 Annual Report under the heading "*Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations*" and the BAC

31 March 2024 Quarterly Report under the heading "Item 2. Management's Discussion and Analysis of Financial Conditions and Results of Operations".

Any risk factor described in the BAC 2023 Annual Report or in any of BAC's other SEC filings could by itself, or together with other factors, materially adversely affect BAC's liquidity, cash flows, competitive position, business, reputation, results of operations, capital position or financial condition, including by materially increasing BAC's expenses or decreasing BAC's revenues, which could result in material losses

BAC's ability to make payments and, if applicable, non-cash delivery obligations under its Guarantees or the BAC Notes will depend upon its receipt of funds from its subsidiaries, and applicable law and regulations, and actions taken under BAC's resolution plan, could restrict the ability of its subsidiaries to transfer such funds

BAC is a holding company and conducts substantially all of its operations through its subsidiaries. BAC's ability to make payments and, if applicable, non-cash delivery obligations under its Guarantees or the BAC Notes, as applicable, depends upon its receipt from its subsidiaries of dividends and other distributions, loans, advances and other payments. Any inability of these subsidiaries to pay dividends or make payments to BAC may adversely affect its cash flow and financial condition. Many of these subsidiaries, including bank and broker-dealer subsidiaries, are subject to laws that restrict dividend payments or authorise regulatory bodies to block or reduce the flow of funds from those subsidiaries to BAC or to its other subsidiaries. In addition, BAC's bank and broker-dealer subsidiaries are subject to restrictions on their ability to lend or transact with affiliates and to minimum regulatory capital and liquidity requirements. Lower earnings in BAC's subsidiaries can reduce the amount of funds available to BAC as a holding company. Adverse business and economic conditions could affect BAC's businesses and results of operations, including changes in interest and currency exchange rates, illiquidity or volatility in areas where we have concentrated credit risk, and a failure in or breach of our operational or security systems or infrastructure. Intercompany arrangements BAC has entered into in connection with its resolution planning could restrict the amount of funding available to it from its subsidiaries under certain adverse conditions, as described below under "—A resolution under BAC's preferred single point of entry resolution strategy could materially adversely affect BAC's liquidity and financial condition and BAC's ability to pay its obligations on its securities and its ability to make payments and, if applicable, non-cash delivery obligations under the Guarantees or the BAC Notes, as applicable." These restrictions could prevent BAC's subsidiaries from paying dividends or making other distributions to BAC or otherwise providing funds to BAC that it needs in order to make payments and, if applicable, non-cash delivery obligations under its Guarantees or the BAC Notes, as applicable. In addition, BAC's right to participate in any distribution of assets of any of its subsidiaries upon such subsidiary's liquidation or otherwise, will be subject to the prior claims of creditors of that subsidiary, except to the extent that any of BAC's claims as a creditor of such subsidiary may be recognised.

A resolution under BAC's single point of entry resolution strategy could materially adversely affect BAC's liquidity and financial condition and BAC's ability to pay its obligations on its securities and its ability to make payments and, if applicable, non-cash delivery obligations under the Guarantees or the BAC Notes, as applicable

BAC, as the parent holding company, is required periodically to submit a plan to the FDIC and the Federal Reserve Board describing BAC's resolution strategy under the U.S. Bankruptcy Code in the event of material financial distress or failure. BAC's preferred resolution strategy is a "single point of entry" ("SPOE") strategy, whereby only BAC (the parent holding company) would file for bankruptcy under the U.S. Bankruptcy Code. Certain key operating subsidiaries would be provided with sufficient capital and liquidity to operate through severe stress and to enable such subsidiaries to continue operating or be wound down in a solvent manner following a BAC bankruptcy. BAC has entered into intercompany arrangements governing the contribution of most of its capital and liquidity to these key subsidiaries. As part of these arrangements, BAC has transferred most of its assets (and has agreed to transfer additional assets) to a wholly-owned holding company subsidiary in exchange for a subordinated note. Certain of BAC's remaining assets secure its ongoing obligations under these intercompany arrangements. The wholly-owned holding company subsidiary also has provided BAC with a committed line of credit that, in addition to its cash, dividends and interest payments, including interest payments BAC receives in respect of the subordinated note, may be used to fund its obligations. These intercompany arrangements include provisions to terminate the line of credit and forgive the subordinated note and require BAC to contribute its remaining financial assets to the wholly-owned holding company subsidiary if its projected

liquidity resources deteriorate so severely that its resolution becomes imminent, which could adversely affect BAC's liquidity and ability to meet its obligations on its securities, including the BAC Notes and the Guarantees. In addition, BAC's preferred resolution strategy could result in holders of BAC's securities, including the BAC Notes and the Guarantees, being in a worse position and suffering greater losses than would have been the case under a bankruptcy proceeding or other resolution scenarios or plans.

Under Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "**Financial Reform Act**"), when a global systemically important banking organisation ("**G-SIB**"), such as BAC, is in default or danger of default, the FDIC may be appointed receiver to conduct an orderly liquidation of such institution. In the event of such appointment, the FDIC could, among other things, invoke the orderly liquidation authority, instead of the U.S. Bankruptcy Code, if the Secretary of the U.S. Department of Treasury makes certain financial distress and systemic risk determinations. In 2013, the FDIC issued a notice describing its preferred "single point of entry" strategy for resolving a G-SIB. Under this approach, the FDIC could replace BAC with a bridge holding company, which could continue operations and result in an orderly resolution of the underlying bank, but whose equity would be held solely for the benefit of BAC's creditors. The FDIC's "single point of entry" strategy may result in holders of BAC's securities, including the BAC Notes or the Guarantees suffering greater losses than would have been the case under a bankruptcy proceeding or a different resolution strategy. If BAC is resolved under the U.S. Bankruptcy Code or the FDIC's orderly liquidation authority, third-party creditors of BAC's subsidiaries may receive significant or full recoveries of their claims, while holders of BAC's securities, including the BAC Notes and the Guarantees, could face significant or complete losses.

If BAC enters a resolution proceeding, holders of BAC's debt securities, including the BAC Notes, and equity securities would be at risk of absorbing BAC's losses

If BAC enters a resolution proceeding under either the U.S. Bankruptcy Code or Title II of the Financial Reform Act, BAC's losses would be imposed first on holders of BAC's equity securities and thereafter on the holders of BAC's unsecured debt, including the BAC Notes, and some or all of such securities could be significantly reduced or eliminated as a result of such resolution proceeding.

Under BAC's SPOE resolution strategy, and the single point of entry strategy preferred by the FDIC under Title II of the Financial Reform Act, the value that would be distributed to holders of BAC's unsecured debt, including the BAC Notes, may not be sufficient to repay all or part of the principal amount and interest on such debt, and holders of such debt could receive no consideration at all under these resolution scenarios. Either of these resolution strategies could result in holders of BAC's debt securities being in a worse position and suffering greater losses than would have been the case under a different resolution strategy. Although SPOE is BAC's preferred resolution strategy, neither BAC nor a bankruptcy court would be obligated to follow BAC's SPOE strategy. Additionally, the FDIC is not obligated to follow its single point of entry strategy to resolve BAC under Title II of the Financial Reform Act. For more information regarding the financial consequences of any such resolution proceeding, see "Bank of America Corporation – Financial Consequences to Unsecured Debtholders of Single Point of Entry Resolution Strategy".

BAC is subject to the Federal Reserve Board's final rules requiring U.S. global systemically important organisations ("G-SIBs") holding companies to maintain minimum amounts of long-term debt meeting specified eligibility requirements

Under the rules of the Federal Reserve Board relating to total loss-absorbing capacity (the "**TLAC Rules**"), BAC, as a U.S. G-SIB, is required to, among other things, maintain minimum amounts of unsecured external long-term debt satisfying certain eligibility criteria ("**eligible LTD**") and other loss-absorbing capacity for the purpose of absorbing BAC's losses in a resolution proceeding under either the U.S. Bankruptcy Code or Title II of the Financial Reform Act. Any senior long-term debt issued must include terms required by the TLAC Rules in order to qualify as eligible LTD. Actions required to comply with the TLAC Rules could impact BAC's funding and liquidity risk management plans.

BAC's obligations on the BAC Notes and under the Guarantees will be structurally subordinated to liabilities of BAC's subsidiaries

Because BAC is a holding company, its right to participate in any distribution of the assets of any subsidiary (including each of BofA Finance and MLBV) upon such subsidiary's liquidation or

reorganisation or otherwise, is subject to the prior claims of creditors of that subsidiary, except to the extent that BAC may itself be recognised as a creditor of that subsidiary. As a result, BAC's obligations under the BAC Notes or under the Guarantees will be structurally subordinated to all existing and future liabilities of BAC's subsidiaries, and claimants under the BAC Notes or the Guarantees should look only to BAC's assets for payment. Further creditors of BAC's subsidiaries recapitalised pursuant to BAC's resolution plan generally would be entitled to payment of their claims from the assets of the subsidiaries, including BAC's contributed assets. In addition, any obligations of BAC under the BAC Notes and the Guarantees will be unsecured and, therefore, in a bankruptcy or similar proceeding, will effectively rank junior to BAC's secured obligations to the extent of the value of the assets securing such obligations.

Holders of the BAC Notes and claimants under the Guarantees could be at greater risk of being structurally subordinated if BAC sells or conveys all or substantially all of its assets to one or more of its majority-owned subsidiaries

If BAC sells or conveys all or substantially all of its assets to one or more direct or indirect majority-owned subsidiaries of BAC, the subsidiary or subsidiaries will not be required to assume BAC's obligations under the BAC Notes or the Guarantees, and BAC will remain the sole obligor on such BAC Notes and the Guarantees. In such event, creditors of any such subsidiary or subsidiaries would have additional assets from which to recover on their claims while holders of BAC Notes and claimants under the Guarantees would be structurally subordinated to creditors of such subsidiary or subsidiaries with respect to such assets.

The U.S. banking regulators have adopted rules mandating the inclusion of contractual stay provisions in certain financial contracts, which are intended to mitigate the risk of destabilising closeouts of such contracts on the resolution of BAC and its subsidiaries. The inclusion of these provisions into the Instruments could materially adversely affect the rights of Holders against the relevant Issuer, the Guarantor or, in the case of Secured Instruments, the Secured Instruments Collateral Provider in a resolution scenario

In the fall of 2017, the Federal Reserve Board, the FDIC and the U.S. Office of the Comptroller of the Currency issued rules ("**QFC Stay Rules**") designed to improve the resolvability and resilience of U.S. G-SIBs and the U.S. operations of foreign G-SIBs, by mitigating the risk of destabilising closeouts of qualified financial contracts ("**QFCs**") in resolution. BAC and its subsidiaries, including BofA Finance, MLBV and MLI as the Secured Instruments Collateral Provider, are "covered entities" subject to the QFC Stay Rules. Certain of the Instruments, the Guarantee and the Collateral Transaction Documents for Secured Instruments may qualify as QFCs.

The QFC Stay Rules seek to eliminate impediments to the orderly resolution of a G-SIB both in a scenario where resolution proceedings are instituted by the U.S. regulatory authorities under the U.S. Federal Deposit Insurance Act or the Orderly Liquidation Authority under Title II of the Financial Reform Act ("**OLA**") (together, the "**U.S. Special Resolution Regimes**"), as well as in a scenario where the G-SIB is resolved under ordinary insolvency proceedings under applicable bankruptcy or insolvency laws. To address this, the QFC Stay Rules require covered entities to ensure that their QFCs subject to the QFC Stay Rules (i) contain an express contractual recognition of the statutory stay-and-transfer provisions of the U.S. Special Resolution Regimes and (ii) do not contain cross-default rights against the covered entity based on an affiliate becoming subject to any type of insolvency proceeding or restrictions on the transfer of any related credit enhancements (including a guarantee) issued by an affiliate of the covered entity following that affiliate's entry into insolvency proceedings.

Acknowledgement of U.S. Special Resolution Regimes

To address the QFC Stay Rules requirements, the Instruments contain an express contractual recognition that in the event the Issuer, the Guarantor or, in the case of Secured Instruments, the Secured Instruments Collateral Provider becomes subject to a proceeding under a U.S. Special Resolution Regime, the transfer of the Instruments, the Guarantees or the Collateral Transaction Documents will be effective to the same extent as the transfer would be effective under such U.S. Special Resolution Regime. In addition, the Instruments contain an express contractual recognition that in the event the Issuer, the Guarantor, the Secured Instruments Collateral Provider or any of their affiliates becomes subject to a proceeding under a U.S. Special Resolution Regime, default rights against the Issuer, the Guarantor or the Secured Instruments Collateral Provider with respect to the Instruments, the Guarantees or the Collateral Transaction Documents are permitted to be exercised to no greater extent than they could be exercised

under such U.S. Special Resolution Regime. For this purpose, "default rights" include the right to terminate, liquidate or accelerate a QFC or demand payment or delivery thereunder, and may, therefore, include the right of a Holder to exercise an American Style Warrant or to exercise an Investor Put.

Under current law, BAC, as a Delaware corporation and U.S. entity, and its subsidiary, BofA Finance LLC, as a Delaware limited liability company and U.S. entity, are eligible to be placed into proceedings under OLA if certain determinations are made by the applicable U.S. regulatory authorities. However, MLBV, and MLI, as the Secured Instruments Collateral Provider, are not eligible to be placed into proceedings under the U.S. Special Resolution Regimes as each is a non-U.S. entity. For more information, please see the risk factors "*A resolution under BAC's single point of entry resolution strategy could materially adversely affect BAC's liquidity and financial condition and BAC's ability to pay its obligations on its securities and its ability to make payments and, if applicable, non-cash delivery obligations under the Guarantees or the BAC Notes, as applicable*" and "*If BAC enters a resolution proceeding, holders of BAC's debt securities, including the BAC Notes, and equity securities would be at risk of absorbing BAC's losses,*" "Resolution Planning" on page 6 of the BAC 2023 Annual Report on Form 10-K, "Insolvency and the Orderly Liquidation Authority" on page 6 of the BAC 2023 Annual Report on Form 10-K and the risk factors under the caption "*Item 1A Risk Factors – Liquidity*" on pages 9 to 11 of the BAC 2023 Annual Report on Form 10-K.

If an investor is in any doubt about the effect of any proceedings under a U.S. Special Resolution Regime on such Instruments, such investor should take advice from such professional advisers as it deems necessary.

In an Insolvency, there may be a transfer of the Guarantees and other Credit Enhancements and cross-default rights may be eliminated

The Instruments explicitly provide that the Guarantees and the Collateral Transaction Documents may be transferred to another entity as transferee upon or following the Guarantor or the Secured Instruments Collateral Provider becoming subject to a resolution, restructuring, reorganisation or similar proceeding (an "**Insolvency Proceeding**"). This is not limited to a proceeding under a U.S. Special Resolution Regime, and would also include, for example, a proceeding under Chapter 11 of the U.S. Bankruptcy Code. It is possible, although not required, that in connection with a resolution or restructuring of the Guarantor or the Secured Instruments Collateral Provider, the Guarantor or the Secured Instruments Collateral Provider (or the relevant insolvency official) may seek to transfer certain of its guarantee or other credit support obligations to another entity.

In addition, the Secured Instruments explicitly provide that a Holder will not be permitted to exercise any default right with respect to any Secured Instrument or the related Collateral Transaction Documents that is related, directly or indirectly, to an affiliate of the Issuer becoming subject to an Insolvency Proceeding. This would include an Insolvency Proceeding with respect to the Secured Instruments Collateral Provider. However, there is an exception to this limitation where the default right arises as a result of (i) the Issuer becoming subject to an Insolvency Proceeding, (ii) the Issuer not satisfying a payment or delivery obligation pursuant to such Secured Instrument, or (iii) the failure of the Secured Instrument Collateral Provider, or any transferee thereof, to satisfy a payment or delivery obligation pursuant to the Collateral Transaction Documents or any other credit enhancement that supports the Secured Instrument. After an affiliate of the Issuer becomes subject to an Insolvency Proceeding, a Holder seeking to exercise a default right against the Issuer with respect to the Secured Instrument or the Collateral Transaction Documents shall have the burden of proof, by clear and convincing evidence, that the exercise of such a default right is permitted thereunder. For this purpose, the definition of default right would not include an on-demand termination right, such as the exercise of an American Style Warrant or an Investor Put.

Holders may be affected by the risk that the obligations of the Guarantor or the Secured Instruments Collateral Provider may be transferred to another entity in the event the Guarantor or the Secured Instruments Collateral Provider enters into resolution, restructuring or similar proceedings or that the obligations of the Guarantor under the Guarantees or the Secured Instruments Collateral Provider under the Collateral Transaction Documents will not be transferred to another entity while other liabilities and assets of the Guarantor or the Secured Instruments Collateral Provider are transferred in connection with such measures

Investors should be aware that the taking of resolution measures with respect to the Guarantor or the Secured Instruments Collateral Provider or even the suggestion of the potential taking of resolution measures in respect of the Guarantor or the Secured Instruments Collateral Provider could have a material adverse effect on the rights of Holders, and could lead to a loss of some or all of the investment. Holders may not be able to anticipate the exercise of any resolution measures and will have very limited rights to challenge such measures, even where such measures have resulted in the transfer of the Guarantees or the Collateral Transaction Documents.

3. Risks Relating to the Instruments Generally

Investors risk losing all of their investment in the Instruments

Potential investors should be aware that depending on the terms of the relevant Instruments (i) they may receive no or a limited amount of interest, (ii) payments may occur at a different time than expected and (iii) except in the case of Instruments that are structured to pay a minimum amount equal to (or nearly equal to) the amount invested on the maturity date/settlement date, they may lose all or a substantial portion of their investment if the value of the Reference Item(s) does not move in the anticipated direction.

Investors in Instruments, which are structured to pay a minimum amount equal to (or nearly equal to) the amount invested on the maturity date/settlement date, may still be subject to loss of some or all of their investment if the relevant Issuer and (if applicable) the Guarantor are subject to bankruptcy or insolvency proceedings or some other event occurs which impairs the ability of each to meet its obligations under the Instruments and (if applicable) the Guarantees. An investor may also lose some or all of its investment if it seeks to sell the relevant Instruments prior to their scheduled maturity or settlement, and the sale price of the Instruments in the secondary market is less than the initial investment or the relevant Instruments are subject to certain adjustments in accordance with the terms and conditions of such Instruments that may result in the scheduled amount to be paid or asset(s) to be delivered upon redemption or settlement being reduced to or being valued at an amount less than an investor's initial investment.

The Instruments may not be a suitable investment for all investors

Each potential investor in the Instruments must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (a) have sufficient knowledge and experience to evaluate the Instruments, the merits and risks of investing in the Instruments and the information contained or incorporated by reference in this Offering Circular or any applicable supplement and all the information contained in the applicable Final Terms;
- (b) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Instruments and the impact the Instruments will have on its overall investment portfolio;
- (c) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Instruments, including Instruments with amounts payable in one or more currencies, or where the Settlement Currency or Specified Currency of the Instruments is different from the potential investor's currency;
- (d) have knowledge of and access to appropriate analytical resources to analyse quantitatively the effect (or value) of any redemption, cap, floor, or other features of the Instruments, and the resulting impact upon the value of the Instruments;
- (e) understand thoroughly the terms of the Instruments and be familiar with any relevant indices and financial markets; and
- (f) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Instruments are complex financial instruments. A potential investor should not invest in Instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how such Instruments will perform under changing conditions, the resulting effects on the value of those Instruments and the impact this investment will have on the potential investor's overall investment portfolio.

In addition, an investment in Index Linked Instruments, Share Linked Instruments, GDR/ADR Linked Instruments, FX Linked Instruments, Commodity Linked Instruments, Fund Linked Instruments, Inflation Linked Instruments, Credit Linked Instruments, Saudi Share Linked Warrants, Preference Share Linked Notes or other Reference Item Linked Instruments, may entail significant risks not associated with investments in conventional securities such as debt or equity securities, including, but not limited to, the risks set out in "*Risks Relating to the Structure of a Particular Issue of Instruments*" below.

The Instruments (other than Secured Instruments) are unsecured obligations

Save in respect of Secured Instruments (in respect of which see "*Risks related to Secured Instruments*" below), the Instruments issued by MLBV constitute direct, unsubordinated, unconditional and unsecured obligations of MLBV and rank equally among themselves and rank equally (subject to exceptions as are from time to time provided by applicable laws) with all other present and future direct, unsubordinated, unconditional and unsecured indebtedness or obligations, as applicable, of MLBV.

The Notes issued by BAC will be unsecured and unsubordinated obligations of BAC and will rank equally with all of BAC's other unsecured and unsubordinated obligations from time to time outstanding, except obligations, including deposit liabilities, that are subject to any priorities or preferences by law.

The Notes issued by BofA Finance will constitute unsecured and unsubordinated obligations of BofA Finance and will rank equally with all other unsecured and unsubordinated obligations of BofA Finance from time to time outstanding, except obligations that are subject to any priorities or preferences by law.

The obligations of the Guarantor under the Guarantees, save for such exceptions as may be provided by applicable laws and regulations or judicial order, will rank *pari passu* with its other present and future unsecured and unsubordinated obligations.

The yield on the Instruments may be less than the yield on a conventional debt security of comparable maturity

Any yield that an investor may receive on the Instruments, which could be negative, may be less than the return an investor would earn if the investor purchased a conventional debt security with the same maturity date. As a result, an investment in the Instruments may not reflect the full opportunity cost to an investor when factors that affect the time value of money, such as inflation, are considered.

Movements in the level or price of a Reference Item will affect the performance of the Instruments

The level or price of the Reference Item may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices and the timing of changes in the relevant level or price of the Reference Item. This may affect the actual yield to investors, even if the average level or price of the Reference Item during the life of the Instruments is consistent with investors' expectations. In general, the earlier the change in the level or price of the Reference Item, the greater the effect on the yield of the Instruments.

Leverage will magnify the effect of changes in the Reference Item

If the formula used to determine any amount payable and/or non-cash consideration deliverable contains a multiplier or leverage factor, then the percentage change in the value of the Instrument will be greater than any positive and/or negative performance of the Reference Item(s). Any Instruments which include such multiplier or leverage factor represent a very speculative and risky form of investment since any change in the value of the Reference Item(s) carries the risk of a correspondingly higher change in the value of the Instruments.

For Tranche Portfolio CLNs, the Implicit Portfolio Size of the Reference Portfolio is likely to be significantly larger than the nominal amount of the Notes. Accordingly, the credit risk of investors in the Notes in relation to the Reference Portfolio is leveraged. The value of such Notes may be more volatile, and credit losses in respect of such Notes may be greater than would be the case in the absence

of such leverage. The value of such Notes may also be adversely affected by changes in the relative value of different tranches of credit risk on the Reference Portfolio. Such relative value changes may occur as a result of, for example, changes in assumptions used by market participants to model the credit risk of the Reference Portfolio, as well as changes in the supply of and demand for credit protection in relation to each such tranche.

A postponement of valuation or determination due to a Market Disruption Event and Disrupted Day may have an adverse effect on the value of the Instruments

If the Instruments include provisions dealing with the occurrence of a Market Disruption Event or a failure of an exchange or related exchange to open on a Valuation Date, an Averaging Date or a Pricing Date and the Calculation Agent determines that a Market Disruption Event or such failure has occurred or exists on any relevant date, any consequential postponement of the relevant date or any alternative provisions for valuation provided in the Instruments may have an adverse effect on the value of the Instruments or of any amounts payable under the Instruments.

The occurrence of a Payment Disruption Event may lead to a delayed and/or reduced payment

If a Payment Disruption Event is applicable to an Instrument, as specified in the applicable Final Terms, then, in the event that the Calculation Agent determines, in its sole discretion, that a "**Payment Disruption Event**" has occurred or is likely to occur, then the relevant exercise or payment date (as applicable) in respect of the Instruments may be postponed to a date falling five Business Days (or such other date as may be determined by the Calculation Agent and notified to Holders) after the date on which the Payment Disruption Event is no longer occurring. No accrued interest will be payable in respect of any such postponement and no Event of Default in respect of the Instruments will result from such postponement. Partial payments or physical delivery of (i) Shares in lieu of cash settlement of Share Linked Instruments or (ii) Fund Shares in lieu of cash settlement of Index Linked Instruments (where "Physical Settlement" is specified as applicable to the Index Linked Conditions in the relevant Final Terms) may, in the relevant Issuer's sole discretion, be made during such period (after deduction for any expenses). In the event that a Payment Disruption Event is still continuing on the date which is one year after the last date on which amounts are due under the Instruments (the "**Payment Event Cut-Off Date**"), then (1) such final payment date shall be extended to the Payment Event Cut-Off Date and (2) the remaining amounts payable under the Instruments shall be deemed to be zero and the relevant Issuer shall have no obligations whatsoever under the Instruments. Therefore, in a case where Payment Disruption Event is specified as applicable in the applicable Final Terms, the Holder could lose all or part of its investment in the Instruments.

In the event that the relevant Issuer satisfies its obligation to make a cash payment by the delivery of Shares or Fund Shares (as the case may be) following the occurrence of a Payment Disruption Event, Holders may be unable to sell such Shares or Fund Shares (as the case may be), or may be unable to sell them at a price equal to the cash payment that would have been payable but for the occurrence of the Payment Disruption Event.

The occurrence of a CNY Payment Disruption Event may lead to a delayed and/or reduced payment or payment in another currency

If a CNY Payment Disruption Event is applicable to an Instrument, as specified in the applicable Final Terms, then, in the event that the Calculation Agent determines, in its sole discretion, that any of the following events has occurred or is likely to occur: (i) an event that makes it impossible or impractical for the relevant Issuer to convert any amounts in CNY due in respect of the Instruments in the general CNY foreign exchange market in the relevant CNY Settlement Centre(s), (ii) an event that makes it impossible or impractical for the relevant Issuer to deliver CNY between accounts inside the relevant CNY Settlement Centre(s) or from an account inside the relevant CNY Settlement Centre(s) to an account outside the relevant CNY Settlement Centre(s) or from an account outside the relevant CNY Settlement Centre(s) to an account inside the relevant CNY Settlement Centre(s), or (iii) the general CNY foreign exchange market in the relevant CNY Settlement Centre becomes illiquid as a result of which the relevant Issuer cannot obtain sufficient CNY in order to satisfy its payment obligations (in whole or in part) under the Instruments (each, a "**CNY Payment Disruption Event**"), then the relevant exercise or payment date (as applicable) in respect of the Instruments may be postponed to a date falling five Business Days (or such other date as may be determined by the Calculation Agent and notified to Holders) after the date on which the CNY Payment Disruption Event is no longer occurring. No accrued interest will be payable

in respect of any such postponement and no Event of Default in respect of the Instruments will result from such postponement. In the event that a CNY Payment Disruption Event is still continuing on the Payment Event Cut-Off Date, then (1) such final payment date shall be extended to the Payment Event Cut-Off Date and (2) the remaining amounts payable under the Instruments shall be deemed to be zero and the relevant Issuer shall have no obligations whatsoever under the Instruments. Therefore, in a case where a CNY Payment Disruption Event is relevant as specified in the applicable Final Terms, the Holder could lose all or part of its investment in the Instruments. If "Payment of Equivalent Amount" is applicable to an Instrument, as specified in the applicable Final Terms, the relevant Issuer may make payment of the equivalent amount of the relevant Interest Amount, Fixed Coupon Amount, Final Redemption Amount, Additional Amount, Cash Settlement Amount or other amount payable under the Instruments in another currency as specified in the applicable Final Terms.

Risks relating to Instruments denominated in CNY

All payments in CNY under the Instruments will be made solely by credit or transfer to a CNY account maintained by the payee with a bank in the CNY Settlement Center in accordance with the prevailing rules and regulations and in accordance with the Conditions. The relevant Issuer shall not be required to make payment by any other means (including in any other currency or in bank notes, by check or draft or by transfer to a bank account in the People's Republic of China (excluding the Hong Kong Special Administrative Region, the Macau Special Administrative Region and Taiwan) ("**PRC**") or anywhere else other than the CNY Settlement Center).

CNY is not completely freely convertible at present. The PRC government continues to regulate conversion between CNY and foreign currencies despite the significant reduction over the years by such government of its control over routine foreign exchange transactions under current accounts. However, remittance of CNY by foreign investors into the PRC for purposes such as capital contributions, known as capital account items, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities on a case-by-case basis and subject to a strict monitoring system. Regulations in the PRC on the remittance of CNY into the PRC for settlement of capital account items are developing gradually.

There is only limited availability of CNY outside the PRC, which may affect the liquidity of the Notes and the Issuer's ability to source CNY outside the PRC to fulfil its payment obligations under the Notes. As a result of the restrictions by the PRC government on cross-border CNY fund flows, the availability of CNY outside the PRC is limited. While the People's Bank of China (the "**PBoC**") has entered into agreements on the clearing of CNY business with financial institutions in a number of financial centres and cities (the "**CNY Clearing Banks**") including, but not limited to, Hong Kong and are in the process of establishing CNY clearing and settlement mechanisms in several other jurisdictions (the "**Settlement Arrangements**"), the current size of CNY-denominated financial assets outside the PRC is limited. There are also restrictions imposed by the PBoC on CNY business participating banks in respect of cross-border CNY settlement, such as those relating to direct transactions with PRC enterprises. CNY business participating banks do not have direct CNY liquidity support from the PBoC. The CNY Clearing Banks only have access to onshore liquidity support from the PBoC for the purpose of squaring open positions of participating banks for limited types of transactions, including open positions resulting from conversion services for corporations relating to cross-border trade settlement. The relevant CNY Clearing Bank is not obliged to square for participating banks any open positions as a result of other foreign exchange transactions or conversion services and the participating banks will need to source CNY from outside the PRC to square such open positions.

Although it is expected that the offshore CNY market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that no new PRC regulations will be promulgated or the Settlement Arrangements with the CNY Clearing Banks will not be terminated or amended in the future which will have the effect of restricting availability of CNY offshore. The limited availability of CNY outside the PRC may affect the liquidity of Notes denominated in CNY. To the extent the Issuer is required to source CNY in the offshore market to service the Notes, there is no assurance that the Issuer will be able to source such CNY on satisfactory terms, if at all.

The value of CNY against foreign currencies fluctuates and is affected by changes in the People's Republic of China and international political and economic conditions and by many other factors. For example, in August 2015, the PBoC implemented changes to the way it calculates the midpoint against

the U.S. dollar to take into account market-maker quotes before announcing the daily midpoint. This change, among others that may be implemented, may increase the volatility in the value of CNY against other currencies. As a result, foreign exchange fluctuations between investor's home currency and CNY may affect investors who intend to convert gains or losses from the sale or redemption of the Instruments into their home currency.

The PRC government has gradually liberalised the regulation of interest rates in recent years. Further liberation may increase interest rate volatility. Instruments denominated in CNY may carry a fixed interest rate. Consequently, the trading price of such CNY Instruments will vary with fluctuations in interest rates. A holder of Instruments denominated in CNY may receive less than the amount invested if it seeks to sell the Instruments prior to their scheduled maturity and the sale price of the Instruments in the secondary market is less than the investor's initial investment.

If a Currency Substitution Event with respect to the Instruments occurs, adjustments may be made to the economic terms of the Instruments which may result in a reduced investment return

In the event of a Currency Substitution Event, the relevant Issuer may (a) make adjustments to the economic terms of the relevant Instruments, including, without limitation, to the exercise, settlement, valuation, calculation and payment terms or (b) redeem or settle the Instruments early on such day as shall be notified to the Holders at an early redemption amount or early settlement amount that accounts for the Currency Substitution Event. Any such action may reduce the value of the Instruments and may result in the amounts paid or non-cash consideration delivered under the Instruments being less than what would have been paid or delivered if the adjustments had not been made or the early redemption or settlement had not occurred, and may be less, or significantly less, than the initial investment.

The relevant Issuer may make certain modifications to the Instruments without the consent of the Holders

The Conditions provide that the relevant Agent and the relevant Issuer may, without the consent of Holders, agree to (i) any modification or amendment (subject to certain specific exceptions) of the Instruments or the New York Law Agency Agreement or the English Law Agency Agreement (as applicable) (each as defined in the "Terms and Conditions of the Notes") which is not, in the opinion of the relevant Issuer, prejudicial to the interests of the Holders or (ii) any modification or amendment of the Instruments or the New York Law Agency Agreement or the English Law Agency Agreement (as applicable) which is of a formal, minor or technical nature or is made to correct a manifest error or proven error or to comply with mandatory provisions of law. In the event of such a modification or amendment, a Holder will have no recourse, other than to attempt to sell its affected Instruments, even if such Holder disagrees with such modification or amendment, or such modification or amendment has an adverse effect on the affected Instruments.

Certain modifications to Instruments of a Series may be made with the consent of specified majorities of the relevant Holders, and will be binding on all such Holders

The applicable Agency Agreement and the Conditions contain provisions for calling meetings of Holders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Holders, including Holders who did not attend and vote at the relevant meeting and Holders who voted in a manner contrary to the majority.

The applicable Agency Agreement and the Conditions also contain provisions that allow Holders to consider certain matters affecting their interests generally through a written consent of the Holders. These provisions permit defined majorities to bind all Holders, including Holders who did not vote on the written consent and Holders who voted in a manner contrary to the majority on the relevant written consent.

At meetings of Holders and in a written consent of the Holders, the decision of the requisite majority will bind all relevant Holders, even if such Holder disagrees with such decision, or such modification or amendment has an adverse effect of the affected Instruments, and any nonconsenting Holder will have no recourse, other than to attempt to sell its affected Instruments.

There may be conflicts of interest between the relevant Issuer, the Guarantor (if applicable), the relevant Dealer and/or their respective Affiliates and the Holders

The relevant Issuer, the Guarantor (if applicable), the relevant Dealer and/or any of their respective Affiliates or agents may engage in activities (including financial or other business transactions) that may result in conflicts of interests between their and their respective Affiliates' or agents' financial interests on the one hand and the interests of the Holders on the other hand. In the ordinary course of their business activities, the relevant Issuer, the Guarantor (if applicable), the relevant Dealer and/or any of their respective Affiliates or agents may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. These investments and securities activities may involve securities and/or instruments of the relevant Issuer, the Guarantor (if applicable) or their Affiliates and could influence secondary trading (if any) in such securities and/or instruments, or otherwise could be adverse to the interests of a beneficial owner of such securities and/or instruments. The relevant Dealer or its Affiliates that have a lending relationship with the relevant Issuer and/or the Guarantor (if applicable) routinely hedge their credit exposure to the relevant Issuer and/or the Guarantor (if applicable) consistent with their customary risk management policies. The relevant Dealer or its Affiliates may also make investment recommendations and/or publish or express independent research views in respect of the Reference Item(s) underlying any Instruments or other instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such Reference Item(s) or instruments.

In addition, the relevant Issuer, the Guarantor (if applicable), the relevant Dealer and/or their Affiliates may also engage in trading activities (including hedging activities) related to the Reference Item(s) underlying any Instruments and other instruments or derivative products based on or related to the Reference Item(s) underlying any Instruments for their proprietary accounts or for other accounts under their management. These trading activities may present a conflict of interest between Holders of the Instruments and the interests of the relevant Issuer, Guarantor (if applicable), the relevant Dealer or their respective affiliates, as applicable. These trading activities, if they influence the price/value of the Reference Item(s) underlying the Instruments or secondary trading (if any) in the Instruments, could be adverse to Holders' interests as an owner of such Instruments. The relevant Issuer, the Guarantor (if applicable), the relevant Dealer and/or any of their respective Affiliates or agents may also issue other derivative instruments in respect of the Reference Item(s) underlying Instruments. The relevant Issuer, the Guarantor (if applicable), the relevant Dealer and/or any of their respective Affiliates or agents may also act as underwriter in connection with future offerings of Shares or other securities related to an issue of Instruments or may act as financial adviser to certain companies whose Shares or other securities are included in a basket of Shares or other securities or which are reference entities, or in a commercial banking capacity for any such companies. Such activities could present certain conflicts of interest, could influence the prices of such Shares or other securities and could adversely affect the value of such Instruments.

From time to time during the term of any Instruments and in connection with the determination of the payments on the Instruments, the relevant Issuer or its Affiliates also may enter into hedging transactions or adjust or close out existing hedging transactions. The relevant Issuer or its Affiliates also may enter into hedging transactions relating to other Instruments that the relevant Issuer may issue, some of which may have returns calculated in a manner related to that of a particular Series of Instruments. The relevant Issuer or its Affiliates will price these hedging transactions with the intent to realise a profit, considering the risks inherent in these hedging activities, whether the value of the Instruments increases or decreases. However, these hedging activities may result in a profit that is more or less than initially expected, or could result in a loss.

Where the Instruments are offered to third parties, as the Dealer(s) and any distributors act pursuant to a mandate granted by the relevant Issuer and they receive fees on the basis of the services performed and the outcome of the placement of the Instruments, potential conflicts of interest could arise.

In addition, unless otherwise specified in the applicable Final Terms, the Calculation Agent is an Affiliate of the relevant Issuer and the Guarantor (if applicable) and in such capacity may make certain determinations and calculate amounts payable or deliverable to Holders. The Calculation Agent may make such determinations using data which is not easily obtainable by a Holder of the Instruments. Under certain circumstances, the Calculation Agent, as an Affiliate of the relevant Issuer and the Guarantor (if applicable), and its responsibilities as calculation agent for the Instruments could give rise to potential conflicts of interest between the Calculation Agent and the Holders. As BAC controls the Calculation Agent, potential conflicts of interest could arise. None of the relevant Issuer, the Guarantor (if applicable)

or any of their Affiliates will have any obligation to consider the interests of the Holders in taking any action that might affect the value of the Instruments.

In addition, if the Instruments are linked to a proprietary index, such index will generally be developed, owned, calculated and maintained by MLI, BofASE or their respective Affiliates, which would be responsible for the composition, calculation and maintenance of such index. Potential conflicts of interest may exist in the internal teams and divisions of MLI, BofASE or their respective Affiliates. For example, one team may calculate and publish the level of the proprietary index, while another team within the organisation may issue or promote/sell products linked to such index or the underlying index components. In addition, a further team within the organisation may have trading positions in or relating to instruments and assets to which the performance of the proprietary index is directly or indirectly linked (including any underlying index component). In addition, the relevant Issuer, the Guarantor (if applicable), MLI, BofASE or their respective Affiliates may be active and significant participants in, or act as market maker in relation to, a wide range of markets for currencies, commodities, securities and derivatives. Such activities may be undertaken on such a scale as to affect, either temporarily or on a longer term basis, the price of such investments which may impact adversely the level of the proprietary index and therefore, the value of, and returns on, the Instruments. None of the relevant Issuer, the Guarantor (if applicable), the relevant Dealer, MLI, BofASE or their respective agents or Affiliates will have any duty or obligation to take into account any impact on the performance of the proprietary index when effecting transactions in such markets. In addition, MLI or BofASE as the index sponsor and index calculation agent, or Affiliates of MLI or BofASE may enter into transactions referencing or relating to the proprietary index with one or more counterparties or may engage in proprietary trading in such index or securities, options, futures, derivatives or other instruments relating to such proprietary index or the underlying index components (including such trading as it or its Affiliates deems appropriate in their sole and absolute discretion to hedge its market risk with respect to such proprietary index or any transaction relating to such index) for their accounts, for business reasons, or for other accounts under its or their management. MLI or BofASE, as index sponsor, and its Affiliates may enter into such hedging transactions with a view to a profit or other financial gain. In addition, any such trading may affect the level of the proprietary index and consequently, the amounts payable or deliverable under any Instrument referencing or relating to such index. Such trading may be effected at any time, including on or near determination, setting, resetting or other calculation dates for the proprietary index or the underlying index components, or the pricing, setting or resetting of any other valuation dates for any Instrument linked to such index.

Any additional risk factors relating to additional conflicts of interest with respect to a specific Series of Instruments will be specified in the applicable Final Terms.

The secondary market price of the Instruments may be less than the Issue Price

Investors should note that, in certain circumstances immediately following the issue of the Instruments or at any time prior to maturity, the secondary market price of the Instruments may be less than the Issue Price, reflecting the fees to be paid to distributor(s) included in the Issue Price, hedging and other costs for the Instruments, if applicable, changes to the relevant Issuer's or (if applicable) the Guarantor's credit spreads and changes in the level of the Reference Item. These factors, together with various credit, market and economic factors over the term of the Instruments, are expected to reduce the price at which an investor may be able to sell the Instruments in any secondary market and will affect the value of the Instruments in complex and unpredictable ways. See also "There may be conflicts of interest between the relevant Issuer, the Guarantor (if applicable) and/or their respective Affiliates and Holders" above.

A Holder may not receive the Entitlement relating to a Physical Delivery Instrument if it fails to deliver the required notice and pay Expenses relating to such Physical Delivery Instrument

In order to receive the Entitlement in respect of a Physical Delivery Note, the holder of such Note must (i) duly deliver to the Clearing System and/or Paying Agents, as specified in the Final Terms, a duly completed Asset Transfer Notice on or prior to the relevant time on the Cut-Off Date and (ii) pay the relevant Expenses. As used in the Conditions, "Expenses" includes any applicable depositary charges, transaction or exercise charges, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes arising from the redemption, exercise and settlement (as applicable) of such Instruments and/or the delivery of the Entitlement.

In order to receive the Entitlement in respect of a Physical Delivery W&C Instrument, the holder of such W&C Instrument must (i) deliver or send to the Clearing System and/or Paying Agents, as specified in the Final Terms, (a) a duly completed Exercise Notice on or prior to the relevant time on the Expiration Date (in the case of a Warrant) or (b) a duly completed Collection Notice on or prior to the relevant time on the Cut-Off Date (in the case of a Certificate) and (ii) pay the relevant Expenses.

Failure by a Holder properly to complete and deliver an Asset Transfer Notice, Exercise Notice or Collection Notice, as the case may be, or to procure that its agent does so on its behalf, may result in such notice being treated as null and void. This may result in a delay in delivery of the Entitlement, or the relevant Issuer being unable to deliver the Entitlement. Failure to pay the Expenses will have the same consequences to a Holder.

In the case of Physical Delivery Instruments, settlement may be delayed or made in cash if certain events arise

In the case of Physical Delivery Instruments (other than Credit Linked Instruments), if a Settlement Disruption Event occurs or exists on the Maturity Delivery Date (in the case of Notes) or Settlement Date (in the case of W&C Instruments), settlement will be postponed until the next date on which no Settlement Disruption Event occurs. The relevant Issuer in these circumstances has the right to pay the Disruption Cash Settlement Price in lieu of delivering the Entitlement. Such a determination may have an adverse effect on the value of the relevant Instruments. In addition, if "Failure to Deliver due to Illiquidity" is specified as applicable in the applicable Final Terms, and in the opinion of the Calculation Agent it is impossible or impracticable to deliver some or all of the Relevant Assets comprising the Entitlement when due as a result of illiquidity in the market for the Relevant Assets, the relevant Issuer has the right to pay the Failure to Deliver Settlement Price in lieu of delivering those Relevant Assets. Any Disruption Cash Settlement Price or Failure to Deliver Settlement Price may be significantly less than Holders expected to receive prior to such Settlement Disruption Event or Calculation Agent determination.

Holders have no claim against any Reference Item(s), and the return on a Reference Item Linked Instrument, if any, may be less than the return on an investment directly in the Reference Item(s)

An Instrument will not represent a claim against any Reference Item(s) and, in the event of any loss, a Holder will not have recourse under an Instrument to any Reference Item(s). If a Reference Item is comprised of the same asset as a Collateral Asset in respect of a Series of Secured Instruments, a Holder may have recourse to such Collateral Asset under the relevant Secured Instruments (see the risk factors set out in the section entitled "Risks relating to Secured Instruments"). The investment return on the Instruments, if any, may be less than a comparable investment directly in the Reference Item(s), or the components included in any Reference Item(s). In contrast to an investment in the Instruments, a direct investment in the Reference Item(s) or the components of the Reference Item(s) would allow an investor to receive the full benefit of any appreciation or depreciation, as the case may be, in the value of such Reference Item(s) or these components.

The Guarantor has the option to vary settlement under the MLBV Guarantee and the CMU Notes Guarantee

In relation to Physical Delivery Instruments (other than Secured Instruments and CMU Notes) issued by MLBV, under the MLBV Guarantee, and to Physical Delivery Notes that are also CMU Notes issued by MLBV, under the CMU Notes Guarantee, the Guarantor has the right at all times to elect not to deliver or procure delivery of the Entitlement to the holders of such Physical Delivery Instruments or such Physical Delivery Notes, but in lieu thereof to pay an amount in cash equal to the Guaranteed Cash Settlement Amount specified in the applicable Final Terms. Such cash payment will constitute a complete discharge of the Guarantor's obligations in relation to such Physical Delivery Instruments or such Physical Delivery Notes, as applicable. As of the date of this Offering Circular, the Guarantor would plan to elect to satisfy any of its obligations under the MLBV Guarantee or the CMU Notes Guarantee by payment of the applicable Guaranteed Cash Settlement Amount.

The relevant Issuer may have the right to vary settlement

If so indicated in the applicable Final Terms for Instruments issued by BAC or MLBV, the relevant Issuer has an option to vary settlement in respect of the Instruments. If exercised by the relevant Issuer, Physical

Delivery Instruments may be cash settled or Cash Settled Instruments may be physically settled. Exercise of such option may affect the value of the Instruments.

In the case of illegality as determined by the relevant Issuer, and to the extent permitted by applicable law, the relevant Issuer may redeem or cancel the Instruments, as applicable

If the relevant Issuer determines that the performance of (a) either its obligations under the Instruments (other than Secured Instruments, CMU Notes and Korean Notes) or the obligations of BAC under the MLBV Guarantee, (b) either its obligations under the CMU Notes or the obligations of BAC under the CMU Notes Guarantee or (c) either its obligations under the Korean Notes or the obligations of BAC under the Korean Notes Guarantee has or will become illegal in whole or in part for any reason, then the relevant Issuer may redeem or cancel the Instruments, as applicable. Additionally, in the case of W&C Instruments in respect of which the applicable Final Terms specify that the "LEPW Conditions" shall be applicable, MLBV may cancel the relevant W&C Instruments if it determines that (i) after taking commercially reasonable efforts or steps, MLBV, BAC or any of their respective Affiliates, is unable to comply or ensure compliance with any applicable laws, rules, regulations, governmental orders, directions or requirements of governmental or regulatory authorities which are applicable to the relevant W&C Instruments or are applicable to MLBV, BAC or such relevant Affiliates as a result of having issued the relevant W&C Instruments, including any requirements as to an investor's eligibility to acquire or continue to hold the relevant W&C Instruments, or (ii) MLBV, BAC or any of their respective Affiliates has suffered, will or is likely to suffer regulatory sanction, penalty, reputational harm or other material adverse consequence in connection with the issuance of the relevant W&C Instruments and/or the performance of its obligations under the W&C Instruments.

If, in the case of illegality and to the extent permitted by applicable law, the relevant Issuer redeems or cancels the Instruments, then the relevant Issuer will, in the case of Notes, redeem each Note at the Early Redemption Amount together (if appropriate) with interest accrued to (but excluding) the date of redemption, or in the case of W&C Instruments, pay an amount to each Holder determined by reference to the fair market value of each Instrument, in each case, less hedging costs, which may be less than the purchase price of the Instruments and may in certain circumstances be zero.

It is not possible to predict whether or not a circumstance giving rise to the right to redeem or cancel the Instruments early for illegality reasons may occur and so lead to circumstances in which the Issuer is able to elect to redeem or cancel the Instruments, and if so whether or not the Issuer will elect to exercise such option to redeem or cancel the Instruments.

A United States federal withholding tax may be imposed on payments made by the relevant Issuer with respect to the Instruments to certain holders

A 30 per cent. United States withholding tax may be imposed on certain payments made by a foreign financial institution that enters into an agreement with the United States Department of the Treasury (the "U.S. Treasury") to collect and provide to the U.S. Treasury substantial information regarding United States account holders, including certain account holders that are foreign entities with United States owners, with such institution. An Instrument may constitute an account for these purposes.

Pursuant to U.S. Treasury regulations, the 30 per cent. United States withholding tax may be imposed on (i) United States source payments made by the relevant Issuer or any Paying Agent with respect to the Instruments and (ii) non-United States source payments made after the second anniversary of the date of publication in the United States Federal Register of final regulations defining the term "foreign passthru payment" by the relevant Issuer or any Paying Agent with respect to the Instruments in each case to "recalcitrant holders", which are generally holders that do not comply with the relevant Issuer's request for information to enable it to comply with the tax legislation, and to non-compliant foreign financial institutions. In the event withholding is required under the legislation, neither the relevant Issuer nor any Paying Agent will pay any Additional Tax Amounts with respect to the amount so withheld.

A United States withholding tax may be imposed on certain payments made to MLBV in which case MLBV may be entitled to redeem or cancel the Instruments prior to maturity

A 30 per cent. United States withholding tax may be imposed on certain United States source payments made to a foreign financial institution, unless such institution enters into an agreement with the U.S. Treasury to collect and provide to the U.S. Treasury substantial information regarding United States

account holders, including certain account holders that are foreign entities with United States owners, with such institution. An Instrument may constitute an account for these purposes.

If MLBV determines in good faith that it has, or there is a substantial likelihood that it will, become subject to withholding imposed on a payment made to it on account of MLBV's inability to comply with the legislation's reporting requirements (provided that such inability to comply with the reporting requirements is attributable to non-compliance by any Holder of such Instruments (or a foreign withholding agent (if any) in the chain of custody of payments made to the Holders) with MLBV's requests for certifications or identifying information), it may redeem or cancel the Instruments held by non-compliant and compliant Holders at their Early Redemption Amount (in the case of Notes) or at their Early Settlement Amount (in the case of W&C Instruments).

United States federal tax may be withheld from payments with respect to Instruments that are treated as "dividend equivalents". This may have an adverse effect on the value and liquidity of the Instruments. In addition, if any payment with respect to Instruments would be treated as a "dividend equivalent", the relevant Issuer would be entitled to redeem or cancel the Instruments at any time prior to maturity, settlement, expiration or exercise

A "dividend equivalent" payment is treated as a dividend from sources within the United States and such payments generally would be subject to a 30 per cent. United States withholding tax if paid to a United States Alien holder. Under U.S. Treasury regulations issued pursuant to Code Section 871(m), payments or deemed payments with respect to equity-linked instruments ("ELIs") that are "specified ELIs" may be treated as dividend equivalents if such specified ELIs reference an interest in a United States "underlying security," which is generally any interest in an entity taxable as a corporation for United States federal income tax purposes if a payment with respect to such interest could give rise to a United States source dividend. Specified ELIs generally do not include (1) ELIs issued prior to 1 January 2025 that are not delta-one instruments or (2) ELIs that are treated as referencing a "qualified index." However, it is possible that Instruments could be treated as deemed reissued for United States federal income tax purposes upon the occurrence of certain events affecting the reference asset or the Instruments, and following such occurrence the Instruments could be treated as subject to withholding on dividend equivalent payments.

A qualified index is a passive index that (1) is based on a diverse basket of publicly traded securities, (2) is widely used by numerous market participants, and (3) meets certain specific requirements set forth in the applicable Treasury regulations. The qualified index determination is made on the first business day of the calendar year in which the ELI is issued. If, in connection with the purchase of an ELI that references an index, a taxpayer enters into one or more transactions that reduce exposure to components of the index, the ELI is not treated as referencing a qualified index.

If any payments are treated as dividend equivalents subject to withholding, the relevant Issuer (or an applicable withholding agent) would be entitled to withhold taxes without being required to pay any Additional Tax Amounts with respect to amounts so withheld. In that case, actual payments on the Instruments may be substantially less than the amounts specified in their terms.

In addition, if any payment with respect to the Instruments (or any payment with respect to a direct or indirect hedging arrangement entered into by the relevant Issuer or any of its Affiliates relating to the Instruments) would be treated as a dividend equivalent, the relevant Issuer would be entitled to redeem or cancel the Instruments, in whole, but not in part, at any time prior to maturity, settlement, expiration or exercise at their Early Redemption Amount (in the case of Notes) or Early Settlement Amount (in the case of W&C Instruments), as determined by the Calculation Agent in its discretion. These amounts could be significantly less than the holder's initial investment, and could be as low as zero.

The value of the Instruments could be adversely affected by a change in English law or administrative practice or by a change in New York law

The Conditions of the Instruments issued by MLBV are based on English law in effect as at the date of issue of the relevant Instruments. The Conditions of the Notes issued by BAC and BofA Finance and the Guarantees are based on the laws of the State of New York in effect as at the date of issue of the relevant Instruments. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice or change to the laws of the State of New York, as

applicable, after the date of issue of the relevant Instruments and any such change could materially adversely impact the value of, or the amounts paid under, any Instruments affected by it.

Transfers of Rule 144A Instruments are restricted

Issue and transfers of Rule 144A Instruments issued by MLBV may be made only to purchasers in the United States or to, or for the account or benefit of, U.S. persons that have executed and delivered an Investor Representation Letter for the benefit of the Dealer, MLBV and the Guarantor pursuant to which such purchaser must certify, among other things, that such purchaser is a QIB who is also a QP. A transfer or attempted transfer of any Rule 144A Instrument which does not comply with the applicable transfer restrictions shall be absolutely null and void *ab initio* and shall vest no rights in the purported transferee.

4. Risks Relating to Notes

Events for which acceleration rights under the Notes of BAC and MLBV may be exercised are more limited than those available pursuant to the terms of the relevant Issuer's outstanding senior debt securities issued prior to 1 January 2017

In response to the TLAC Rules, BAC, among other things, limited the circumstances under which the payment of the principal amount of senior debt securities (including the BAC Notes issued under the Programme on or after 24 January 2017) can be accelerated by the holders (unless specified otherwise in the applicable Final Terms). MLBV also limited the circumstances under which the payment of the principal amount of the MLBV Notes issued under the Programme on or after 24 January 2017 can be accelerated by the holders (unless specified otherwise in the applicable Final Terms).

All or substantially all of BAC's outstanding senior debt securities issued prior to 1 January 2017, including BAC's outstanding senior notes issued under the Programme prior to 24 January 2017, and MLBV's outstanding senior notes issued prior to 24 January 2017, including outstanding senior notes issued by MLBV under the Programme prior to such date (the "**Pre-2017 Senior Debt Securities**"), provide acceleration rights for non-payment or bankruptcy. The Pre-2017 Senior Debt Securities issued by BAC also provide acceleration rights if BAC defaults in the performance of its covenants in those senior debt securities or the applicable indenture or agency agreement. The Pre-2017 Senior Debt Securities issued by MLBV also provide acceleration rights if the Guarantor defaults in the performance of its covenants in the applicable guarantee or the applicable agency agreement. In addition, the Pre-2017 Senior Debt Securities issued by BAC do not require a 30-day cure period before a non-payment of principal becomes an event of default and acceleration rights become exercisable with respect to such non-payment.

However, payment of the principal amount of Notes of BAC and MLBV issued on or after 24 January 2017:

- may be accelerated only (i) if the relevant Issuer defaults in the payment of the principal of or interest on those Notes and, in each case, the default continues for a period of 30 days, or (ii) upon the relevant Issuer's voluntary or involuntary bankruptcy and, in the case of the relevant Issuer's involuntary bankruptcy, the default continues for a period of 60 days; and
- may not be accelerated, in the case of BAC Notes, if BAC defaults in the performance of any other covenants contained in the BAC Notes or the applicable agency agreement; and
- may not be accelerated, in the case of MLBV Notes, if the Guarantor defaults in the performance of any other covenants contained in the applicable guarantee or the applicable agency agreement.

As a result of these differing provisions, if BAC, in the case of BAC Notes, or the Guarantor, in the case of MLBV Notes, breaches or otherwise defaults in the performance of a covenant (other than a payment covenant) that is applicable both to the Notes of BAC and MLBV and the Pre-2017 Senior Debt Securities, the Pre-2017 Senior Debt Securities would have acceleration rights that would not be available to the holders of Notes of BAC and MLBV. In addition, if BAC fails to pay principal when due with respect to the BAC Notes and the Pre-2017 Senior Debt Securities, an event of default would occur immediately with respect to the Pre-2017 Senior Debt Securities (and the exercise of acceleration rights

could proceed immediately in accordance with the provisions of the applicable agency agreement as in effect at the time of their issuance), while the holders of the BAC Notes must wait for the 30-day cure period to expire before such non-payment of principal becomes an Event of Default and any acceleration rights are triggered with respect to such non-payment. Any repayment of the principal amount of Pre-2017 Senior Debt Securities following the exercise of acceleration rights in circumstances in which such rights are not available to the holders of the relevant Notes of BAC and MLBV, could adversely affect the relevant Issuer's ability to make timely payments on the relevant Notes of BAC and MLBV thereafter.

Failure by a Holder to pay instalments in respect of Partly Paid Notes may result in the Holder losing all of his investment

BAC, BofA Finance or MLBV may issue Notes where the issue price is payable in more than one instalment. Failure to pay BAC, BofA Finance or MLBV, as the case may be, any subsequent instalment could result in a Holder losing all of his investment.

Notes for which the Specified Currency is other than U.S. Dollars permit the Issuer to make payments in U.S. Dollars if the Issuer determines the Specified Currency is unavailable

The terms of any Notes for which the Specified Currency is other than U.S. Dollars provide that the Issuer has the right to make a payment in U.S. Dollars instead of the Specified Currency, if at or about the time when the payment on the Notes comes due, the Specified Currency is subject to unavailability resulting from convertibility, transferability, market disruption, or other conditions affecting its availability because of circumstances beyond the Issuer's control, as set out in Condition 8(B) (*Unavailability of Currency*) of the Terms and Conditions of the Notes. These circumstances could include the imposition of exchange controls, economic sanctions or the Issuer's inability to obtain the Specified Currency because of a disruption in the currency markets for the Specified Currency, or unavailability because the Specified Currency is no longer used by the government of the relevant country or for settlement of transactions by public institutions of or within the international banking community. In addition, if the Specified Currency for a Note has been replaced by a new currency, the Issuer will have the option to choose whether it makes payments on such Note in the replacement currency or in U.S. dollars. In either case, the exchange rate used to make payments in U.S. Dollars may be based on limited information and would involve significant discretion on the part of the Issuer's exchange rate agent that will determine the amount of U.S. Dollars to be paid, and which may be an affiliate of the Issuer. As a result, the value of the payment in U.S. Dollars may be less than the value of the payment that would have been received in the Specified Currency if the Specified Currency had been available, which could adversely affect the value of, return on and market for the affected Notes. The exchange rate agent generally will not have any liability for its determinations. Any payment in respect of Notes so made in U.S. dollars where the required payment is in an unavailable Specified Currency will not constitute an Event of Default.

An investor may bear currency exchange risk in a lawsuit for payment on a Note denominated or payable in a currency other than U.S. Dollars

The Notes will be governed by New York law. Under Section 27 of the New York Judiciary Law, a state court in the State of New York rendering a judgment on Notes denominated or payable in a Specified Currency other than U.S. Dollars would be required to render the judgment in the Specified Currency.

In turn, the judgment would be converted into U.S. Dollars at the exchange rate prevailing on the date of entry of the judgment. Consequently, in a lawsuit for payment on the Notes, a Noteholder would bear currency exchange risk until judgment is entered, which could be a long time. In courts outside of New York, Noteholders may not be able to obtain judgment in a Specified Currency other than U.S. Dollars. For example, a judgment for money in an action based on Notes denominated in a Specified Currency other than U.S. Dollars in many other U.S. federal or state courts ordinarily would be enforced in the United States only in U.S. Dollars. The date and method used to determine the rate of conversion of the Specified Currency into U.S. Dollars will depend on various factors, including which court renders the judgment.

The conversion of the Specified Currency into U.S. Dollars in any such case, could result in the value of the relevant payment in U.S. Dollars being less than it would have been if payment had been made in the applicable Specified Currency, which, in turn, could adversely affect the return on and value of the affected Notes.

Notes may be subject to optional redemption by the relevant Issuer, which may limit their market value

An optional redemption feature of Notes is likely to limit their market value. During any period when the relevant Issuer may elect to redeem Notes, the market value of those Notes may be impacted by the price at which they can be redeemed. This also may be true prior to any redemption period.

It is more likely that the relevant Issuer may be expected to redeem Notes when its comparable cost of borrowing is lower than the interest rate on the Notes. At those times, a Holder generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Notes issued at a substantial discount or premium may be volatile

The market value of Notes issued at a substantial discount from, or premium to, their principal amount may fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the Notes, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Notes issued by BofA Finance and MLBV will not have the benefit of any cross-default or cross-acceleration with other indebtedness of BofA Finance or MLBV, as applicable, or BAC; events of bankruptcy or insolvency or resolution proceedings relating to BAC and covenant breach by BAC will not constitute an event of default with respect to the guaranteed Notes of BofA Finance or MLBV

Notes issued by BofA Finance and MLBV will not have the benefit of any cross-default or cross-acceleration with other indebtedness of BofA Finance or MLBV, as applicable, or BAC. In addition, events of bankruptcy or insolvency or resolution or similar proceedings relating to BAC will not constitute an event of default with respect to the Notes of BofA Finance or MLBV that are guaranteed by BAC. Furthermore, it will not constitute an event of default with respect to the Notes of BofA Finance or MLBV if the guarantee thereof by BAC ceases to be in full force and effect for any reason. Therefore, events of bankruptcy or insolvency or resolution or similar proceedings relating to BAC (in the absence of any such event occurring with respect to BofA Finance or MLBV) will not permit the Notes of BofA Finance or MLBV to be declared due and payable. In addition, a breach of a covenant by BAC (including, for example, a breach of BAC's covenants with respect to mergers or the sale of all or substantially all its assets), will not permit the Notes of BofA Finance or MLBV to be declared due and payable. The value investors receive on these Notes may be significantly less than what they otherwise would have received had the Notes been declared due and payable immediately upon certain events of bankruptcy or insolvency or resolution or similar proceedings relating to BAC or the breach of a covenant by BAC or upon BAC's Guarantee ceasing to be in full force and effect.

5. Risks relating to Exchangeable Notes***The Company to which the underlying Shares relate will not have participated in the preparation of the applicable Final Terms or in establishing the terms of the Exchangeable Notes***

The Company will not have participated in the preparation of the applicable Final Terms or in establishing the terms of the Exchangeable Notes, and none of MLBV as Issuer, the Guarantor or any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning the Company contained in such Final Terms or in the documents from which such information was extracted. Neither MLBV nor the Guarantor controls the Company and neither is responsible for any disclosure made by the Company. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the adequacy, accuracy or completeness of the publicly available information described in this paragraph or in any applicable Final Terms) that would affect the trading price of the relevant Share(s) will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning the Company could affect the trading price of the Shares and therefore the trading price of the Exchangeable Notes or amounts payable thereunder.

Exchangeable Notes may be redeemed prior to their Maturity Date

The Exchangeable Note Conditions provide that the Exchangeable Notes are redeemable at MLBV's option in certain limited circumstances. In such circumstances, an investor may be compelled to exercise its Exchange Rights earlier than it might otherwise have chosen to do so.

In addition, upon the occurrence of a Nationalisation or Delisting or, if specified as applicable in the relevant Final Terms, a Change in Law or if option contracts in respect of the Shares are traded on Eurex or an Alternative Options Exchange and certain events occur as a result of which such option contracts are settled in accordance with the Eurex Corporate Actions Procedures or the corporate actions procedures of an Alternative Options Exchange, as the case may be, for example following the occurrence of a significant corporate action by the Company, MLBV will be obliged to or, following the occurrence of a Change in Law where specified in the applicable Final Terms, MLBV may elect to redeem the Exchangeable Notes early.

Potential investors should consider reinvestment risk in light of other investments available at that time.

Risks attached to the exercise of the Exchange Right

Investors should be aware that the Exchangeable Notes that may be redeemed at the option of the Noteholder during certain times at the Cash Amount bear additional risk. The value of the Cash Amount will vary depending on the performance during certain specified periods of the underlying Shares, over which MLBV has no control, and therefore the Cash Amount may be lower or substantially lower than the value of the Exchangeable Notes when they were initially purchased or when the Exchange Rights were exercised.

There is a limited period during which the Noteholders may exercise Exchange Rights

A Noteholder will have the right to require his or her Exchangeable Notes to be redeemed by MLBV in accordance with the Exchangeable Note Conditions, upon which, MLBV will procure that the exchanging Noteholder receives a Cash Amount (such amount based on the prevailing volume-weighted average price of the Shares during a specified period following the relevant Exchange Date). The Exchange Right may only be exercised by a Noteholder during limited periods and subject to the satisfaction of any applicable Exchange Conditions, each as described in Exchangeable Note Condition 7 (*Exchange of Exchangeable Notes*). If the Exchange Rights are not exercised by Noteholders during an applicable Exchange Period and/or any applicable Exchange Condition is not satisfied, the Exchangeable Notes will be redeemed at their Final Redemption Amount on the Maturity Date (unless previously redeemed or purchased by MLBV, the Guarantor or any of their respective Affiliates) pursuant to the Conditions, which will be calculated by reference to the price of the Shares at the relevant time.

Holders of Exchangeable Notes have limited anti-dilution protection

The Exchange Price at which the Exchangeable Notes will be redeemed will be adjusted if there is a payment of a dividend which affects such Shares, but only in the situations and only to the extent provided under the Exchange Note Conditions.

There is no requirement that there should be an adjustment for every other corporate or other event that may affect the value of the Shares. Events in respect of which no adjustment is made may adversely affect the value of the Shares and, therefore, adversely affect the value of the Exchangeable Notes.

In particular, to the extent specified as applicable in respect of any series of Exchangeable Notes, as long as there are option contracts in respect of the Shares traded on Eurex and under the Eurex Corporate Actions Procedures there is an adjustment made by Eurex to such options contracts, there will be an adjustment of the Exchange Price to reflect the adjustments effected by Eurex following a corporate action, other than a Dividend, Nationalisation or Delisting or, if specified as applicable in respect of any series of Exchangeable Notes, a Change in Law.

Additionally, to the extent specified as applicable in respect of any series of Exchangeable Notes, if option contracts in respect of the Shares are not traded on Eurex but are traded on an alternative options exchange, the Calculation Agent will adjust the Exchange Price to reflect any adjustment effected in respect of any options contracts by such alternative options exchange following a corporate action, other

than a Dividend, Delisting or Nationalisation or, if specified as applicable in respect of any series of Exchangeable Notes, a Change in Law.

Furthermore, upon the occurrence of a Nationalisation and/or a Delisting, MLBV shall, and upon the occurrence of Change in Law (if applicable), MLBV may elect to, redeem all but not some only of the Exchangeable Notes outstanding at the Automatic Early Redemption Amount, and no adjustment shall be made to the Exchange Price.

To the extent that an adjustment (or no adjustment as the case may be) is made to the Exchange Price upon the occurrence of any corporate action in accordance with the Exchange Note Conditions applicable to any series of Exchangeable Notes, such adjustment (or lack of adjustment as the case may be) may have a material adverse impact on the price or value of the Exchangeable Notes and may materially adversely impact the level of any applicable Cash Amount, Automatic Early Redemption Amount or Final Redemption Amount.

Holders of Exchangeable Notes bear the risk of fluctuation in the price of the Shares

The market price of the Exchangeable Notes is expected to be affected by fluctuations in the market price of the Shares, and it is impossible to predict whether the price of the Shares will rise or fall. The share price of listed companies can be highly volatile and their shares may have limited liquidity at certain times. In addition, equity market conditions may affect the price and market liquidity of Shares regardless of the performance of the Company. Equity market conditions are affected by many factors, such as such as interest and price levels on the capital markets, currency developments, the political factors and company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy, changes in investor sentiment towards particular market sectors and the demand for and supply of capital. Trading in the Shares by other investors, such as large purchases or sales of the Shares, may also affect the Share Price. Accordingly, the market price of Shares (and therefore, the Cash Amount receivable on any exercise of the Exchange Rights or any Automatic Early Redemption Amount or Final Redemption Amount) may not reflect the underlying value of the Company's investments. The Company's results and prospects from time to time may be below the expectations of market analysts and investors. Any decline in the market price of the underlying Shares at any time may accordingly have an adverse effect on the market price of the Exchangeable Notes and may have a corresponding negative impact on any Cash Amount, Automatic Early Redemption Amount or Final Redemption Amount payable in respect of the Exchangeable Notes. These factors are not within MLBV's or the Guarantor's control and may result in a decline in the value of the Exchangeable Notes.

In addition, for the purposes of calculating the Cash Amount payable on any exercise of Exchange Rights, the Exchange Date by reference to which the relevant Cash Amount is calculated will, unless otherwise specified in the applicable Final Terms, be the Business Day immediately following the last day of the Exchange Period in which the Exchange Right was exercised. If so, Noteholders will be exposed to any decline in the market price of the Shares between the Exchange Notice Delivery Date and the Exchange Date, which decline may have a corresponding negative impact on the Cash Amount payable in respect of such Exchangeable Notes.

Holders of Exchangeable Notes will not receive physical Shares and will have no shareholder rights

Holders of the Exchangeable Notes upon exercise of their Exchange Rights will not receive any Shares and will not have any voting rights, nor any right to receive dividends or other distributions or any other rights with respect to such Shares. Neither MLBV nor the Guarantor is required under the Conditions to deliver any Shares at any point.

Exchangeable Notes do not represent a claim against or an investment in the Company and investors will not have any right of recourse under the Exchangeable Notes to the Company or the Shares. Exchangeable Notes are not in any way sponsored, endorsed or promoted by the Company and the Company has no obligation to take into account the consequences of its actions for any Noteholders. Accordingly, the Company may take any actions in respect of such Shares without regard to the interests of the investors in the Exchangeable Notes, and any of these actions could adversely affect the market value of the Exchangeable Notes and may adversely impact the value of any Cash Amount, Automatic Early Redemption Amount or Final Redemption Amount payable in respect of the Exchangeable Notes.

6. Risks Relating to Korean Notes

There may be delay in transfers of Korean Notes

Holders may only transfer their holdings of Korean Notes to an entity that is a "financial institution" for purposes of the U.S. Foreign Account Tax Compliance Act (Section 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended) and the Common Reporting Standard contained in Part II.B of the Standard for Automatic Exchange of Financial Account Information in Tax Matters approved by the Council of the Organisation for Economic Co-Operation and Development on 15 July 2014, as amended from time to time (each, a "**Tax Financial Institution**"). Each Holder will be required to undertake: (i) to procure that, prior to transferring its holding of Korean Notes, the transferee provides Tax Documentation (as defined in the Korean Notes Product Supplement) applicable to such transferee to MLBV, the Guarantor or a party designated by MLBV or the Guarantor (a "**Designated Party**") and (ii) that it shall not transfer its holding of Korean Notes until it has received confirmation from MLBV, the Guarantor or such Designated Party as to the sufficiency of such Tax Documentation, including confirmation that the transferee has identified itself as a Tax Financial Institution.

Accordingly, any delay in (x) a transferee providing Tax Documentation to MLBV, the Guarantor or a Designated Party or (y) MLBV, the Guarantor or a Designated Party confirming the sufficiency of Tax Documentation, could result in a delay in the transfer of the Korean Notes from a Holder to such transferee.

7. Risks Relating to W&C Instruments***Certain factors affecting the value and trading price of W&C Instruments***

Either (1) in the case of Cash Settled W&C Instruments, the Cash Settlement Amount or (2) in the case of Physical Delivery W&C Instruments, the value of the Entitlement less (in the case of Warrants) the Exercise Price (the "**Physical Settlement Value**") at any time prior to expiration (in the case of a Warrant) or exercise (in the case of a Certificate) is typically expected to be less than the trading price of such W&C Instruments at that time. The difference between the trading price and the Cash Settlement Amount or the Physical Settlement Value, as the case may be, will reflect, among other things, the "time value" of the W&C Instruments. The "time value" of the W&C Instruments will depend partly upon the length of the period remaining to expiration (in the case of a Warrant) or exercise (in the case of a Certificate) and expectations concerning the price or level of the Reference Item(s). W&C Instruments offer hedging and investment diversification opportunities but also pose some additional risks with regard to interim value. The interim value of the W&C Instruments varies with the price or level of the Reference Item(s), as well as by a number of other interrelated factors, including those specified herein.

Before exercising W&C Instruments, Holders should carefully consider, among other things, (i) the trading price of the W&C Instruments, (ii) the price or level and volatility of the Reference Item(s), (iii) the time remaining to expiration (in the case of a Warrant) or exercise (in the case of a Certificate), (iv) in the case of Cash Settled W&C Instruments, the probable range of Cash Settlement Amounts, (v) any change(s) in interim interest rates and dividend yields if applicable, (vi) any change(s) in currency exchange rates and (vii) any related transaction costs.

An optional exercise or mandatory early exercise feature in W&C Instruments is likely to limit their market value. In the case of an optional exercise feature, during any period when MLBV may elect to exercise W&C Instruments, the market value of those W&C Instruments generally will not rise substantially above the price at which they can be exercised. This also may be true prior to any exercise period. In the case of a mandatory early exercise feature, if the relevant Mandatory Early Exercise Event occurs the W&C Instruments will be exercised prior to their originally designated exercise or expiration date. Potential investors should be aware that in certain circumstances, an optional exercise or mandatory early exercise of the W&C Instruments by MLBV may result in a loss of all or a substantial portion of their investment.

In the case of Secured Instruments, the market value of the Secured Instruments will be affected by, among other things, the Collateral Assets which secure the relevant Series of W&C Instruments.

There are no Events of Default in relation to W&C Instruments other than Secured Instruments

Other than in respect of Secured Instruments, the Conditions of the W&C Instruments do not provide for any events of default. If MLBV defaults on any obligation under the W&C Instruments prior to the

Settlement Date, Holders of Instruments other than Secured Instruments will be able to claim against the Guarantor under the MLBV Guarantee, but will have no right to declare all of the remaining obligations of MLBV in respect of the relevant Series of W&C Instruments to be immediately due and payable.

8. Risks Relating to Warrants

There will be a time lag between the time a Holder gives instructions to exercise and the time the applicable Cash Settlement Amount relating to such exercise is determined, and such time lag could decrease the Cash Settlement Amount

In the case of any exercise of Warrants, there will be a time lag between the time a Holder gives instructions to exercise and the time the applicable Cash Settlement Amount (in the case of Cash Settled Warrants) relating to such exercise is determined. Any such delay between the time of exercise and the determination of the Cash Settlement Amount will be specified in the Conditions of the W&C Instruments. However, such delay could be significantly longer, particularly in the case of a delay in exercise of Warrants arising from any daily maximum exercise limitation (in the case of American Style Warrants), the occurrence of a Market Disruption Event or failure of an exchange or related exchange to open (if applicable) or following the imposition of any exchange controls or other similar regulations affecting the ability to obtain or exchange any relevant currency in the case of FX Linked Warrants or other Warrants in respect of which "Exchange Rate" is specified to be applicable in the applicable Final Terms. The applicable Cash Settlement Amount may change significantly during any such period between exercise and determination of the Cash Settlement Amount, and such movement or movements could decrease the Cash Settlement Amount of the Warrants being exercised and may result in such Cash Settlement Amount being zero.

Holders may have to tender a specified number of Warrants at any one time in order to exercise

If so indicated in the applicable Final Terms, a Holder must tender or hold a specified number of Warrants at any one time in order to exercise. Thus, Holders with fewer than the specified minimum number of Warrants will either have to sell their Warrants or purchase additional Warrants, incurring transaction costs in each case, in order to realise their investment. Furthermore, holders of such Warrants incur the risk that there may be differences between the trading price of such Warrants and the Cash Settlement Amount (in the case of Cash Settled Warrants) or the Physical Settlement Value (in the case of Physical Delivery Warrants (as defined below)) of such Warrants. Therefore it may cost an investor more to purchase additional Warrants than the value of the increase in the Cash Settlement Amount or Physical Settlement Value, as the case may be, attributable to such additional Warrants.

The number of American Style Warrants exercisable on any date other than the Expiration Date may be limited to a maximum number

In the case of American Style Warrants, if so indicated in the applicable Final Terms, the relevant Issuer will have the option to limit the number of American Style Warrants exercisable on any date (other than the Expiration Date) to the maximum number specified in the applicable Final Terms and, in conjunction with such limitation, to limit the number of American Style Warrants exercisable by any person or group of persons (whether or not acting in concert) on such date. In the event that the total number of American Style Warrants being exercised on any date (other than the Expiration Date) exceeds such maximum number and the relevant Issuer elects to limit the number of American Style Warrants exercisable on such date, a Holder may not be able to exercise on such date all American Style Warrants that such Holder desires to exercise. In any such case, the number of American Style Warrants to be exercised will be reduced until the total number of American Style Warrants exercised on that date no longer exceeds the maximum, such American Style Warrants being selected at the discretion of the relevant Issuer or in any other manner specified in the applicable Final Terms. Unless otherwise specified in the applicable Final Terms, the American Style Warrants tendered for exercise but not exercised on such date will be automatically exercised on the next date on which American Style Warrants may be exercised, subject to the same daily maximum limitation and delayed exercise provisions.

9. Risks Relating to the Market Generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk that may have an impact on an investment in the Instruments.

Many factors will determine the price of the Instruments in the secondary market and such market may be illiquid

It is not possible to predict the price at which Instruments will trade in the secondary market or whether such market will be liquid or illiquid. Each Issuer may, but is not obliged to, list or admit to trading an issue of Instruments on a securities exchange or market. If the Instruments are not listed or admitted to trading on any securities exchange or market, pricing information for the Instruments may be more difficult to obtain and the liquidity of the Instruments may be adversely affected. If the relevant Issuer does list or admit to trading an issue of Instruments, there can be no assurance that at a later date, the Instruments will not be delisted or that trading on such securities exchange or market will not be suspended. In the event of a de-listing or suspension of listing or trading on a securities exchange or market, the relevant Issuer will use its reasonable efforts to list or admit to trading the Instruments on another securities exchange or market, unless it concludes it would be unduly burdensome to do so. Also, in the case of American Style Warrants to the extent Warrants of a particular issue are exercised, the number of Warrants of such issue outstanding will decrease, resulting in a diminished liquidity for the remaining Warrants of such issue. A decrease in the liquidity of an issue of Warrants may cause, in turn, an increase in the volatility associated with the price of such issue of Warrants.

The relevant Issuer cannot assure holders of the Instruments that a trading or secondary market for their Instruments will develop or, if one develops, it will be maintained.

The relevant Issuer, the Guarantor (if applicable), or any of BAC's Affiliates may, but is not obliged to, at any time purchase Instruments at any price in the open market or by tender or private treaty for their own account for business reasons or in connection with their hedging arrangements. Any Instruments so purchased may be held or resold or surrendered for cancellation. The relevant Issuer, the Guarantor (if applicable), or any of BAC's Affiliates may, but is not obliged to, be a market-maker for an issue of Instruments. Even if the relevant Issuer or such other entity is a market-maker for an issue of Instruments, the secondary market for such Instruments may be limited and any market-maker may discontinue making a market for such Instruments at any time without giving notice. These activities may affect the price of such obligations or securities in a manner that would be adverse to a Holder's investment in the Instruments. The relevant Issuer, the Guarantor (if applicable) and BAC's Affiliates have not considered, and are not required to consider, the interests of investors as Holders in connection with entering into any of the above mentioned transactions.

The market value of the Instruments may be less than the principal amount of the Instruments. The market for, and market value of, the Instruments may be affected by a number of factors. These factors include:

- (a) the complexity and volatility of the Reference Item(s) or formula or other basis of reference applicable to the Instruments;
- (b) the method of calculating amounts payable, including any dividend rates or yield or other securities or financial instruments applicable to the securities payable and/or deliverable, or other consideration, if any, in respect of the Instruments;
- (c) the time remaining to the expiration (in the case of Warrants), exercise (in the case of Certificates) or redemption (in the case of Notes) of the Instruments;
- (d) the aggregate amount or number of Instruments outstanding;
- (e) the redemption, repayment or settlement features of the Instruments;
- (f) the value of other securities linked to the Reference Item(s) or formula or other basis of reference applicable to the Instruments;
- (g) the level, direction and volatility of market interest rates generally;
- (h) the general economic conditions of the capital markets, as well as geopolitical conditions and other financial, political, regulatory and judicial events that affect the financial markets generally, may affect the value of the Reference Item(s) and the Instruments;
- (i) any market-making activities with respect to the Instruments; and

- (j) the possibility that investors may be unable to hedge their exposure to risks relating to their Instruments.

In addition, certain Instruments may be designed for specific investment objectives or strategies and, therefore, may have a more limited secondary market and experience more price volatility. Holders may not be able to sell such Instruments readily or at prices that will enable them to realise their anticipated yield. No investor should purchase Instruments unless such investor understands and is able to bear the risk that such Instruments may not be readily saleable, that the value of such Instruments will fluctuate over time, that such fluctuations may be significant and that such investor may lose all or a substantial portion of the purchase price of the Instruments.

Often, the only way to obtain liquidity in respect of a Holder's investment in an issue of Instruments prior to maturity will be to sell such Instruments. At that time, there may be a very illiquid market for the Instruments or no market at all. For Instruments that have specific investment objectives or strategies, the applicable trade market may be more limited, and the price may be more volatile, than for other Instruments. Holders may not be able to sell such Instruments readily or at prices that will enable them to realise their anticipated yield. To the extent that an issue of Instruments is or becomes illiquid, an investor may have to exercise such Instruments (in the case of American Style Warrants) or wait until the Exercise Date (in the case of European Style Warrants or Certificates) or the Maturity Date (in the case of Notes) of such Instruments to realise value. If an investor sells its Instruments prior to exercise (in the case of American Style or European Style Warrants or Certificates) or prior to maturity (in the case of Notes), it may lose some or all of its investment. No investor should purchase Instruments unless such investor understands and is able to bear the risk that such Instruments may not be readily saleable, that the value of such Instruments will fluctuate over time, that such fluctuations may be significant, and that such investor may lose all or a substantial portion of the purchase price of the Instruments.

Investors may be subject to foreign exchange exposure and the Instruments may become subject to exchange controls

In the case of Cash Settled Instruments, the relevant Issuer will pay the Cash Settlement Amount (in the case of W&C Instruments) or Final Redemption Amount (in the case of the Notes) in respect of the Instruments in the Settlement Currency or Specified Currency specified in the applicable Final Terms. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Settlement Currency or Specified Currency, as applicable (the "**Settled Currency**"). These include the risk that exchange rates may significantly change (including changes due to devaluation of the Settled Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Settled Currency would decrease (i) the Investor's Currency-equivalent yield on the Instruments, (ii) the Investor's Currency equivalent value of the Cash Settlement Amount or Final Redemption Amount (as applicable) in respect of the Instruments and/or (iii) the Investor's Currency equivalent market value of the Instruments, as applicable. These risks generally depend on factors over which the relevant Issuer and (if applicable) Guarantor have no control, such as economic and political events and the supply of and demand for the relevant currencies in the global markets. In recent years, exchange rates between many currencies have been highly volatile. This volatility may continue and could spread to other currencies in the future.

Government and monetary authorities may impose exchange controls (as some have done in the past) that could adversely affect an applicable exchange rate. Consequently, investors in Instruments which are not denominated in the Investor's Currency will bear the risk that their investment may be adversely affected by these types of events.

The relevant Issuer will not adjust Instruments denominated or payable in a currency other than the Investor's Currency to compensate for changes in foreign currency exchange rates.

Except as described in this Offering Circular, the relevant Issuer will not make any adjustment in or change to the terms of any Instruments denominated or payable in currencies other than the Investor's Currency for changes in the foreign currency exchange rate for the relevant Specified Currency for any Instruments, including any devaluation, revaluation, or imposition of exchange or other regulatory controls or taxes, or for other developments affecting the relevant currency or currencies. Consequently,

investors in Instruments denominated or payable in currencies other than the Investor's Currency will bear the risk that their investment may be affected adversely by these types of events.

Government policy can adversely affect currency exchange rates and an investment in an Instrument denominated or payable in a currency other than the Investor's Currency

Currency exchange rates either can float or be fixed by sovereign governments. Governments or governmental bodies, including the European Central Bank, may intervene from time to time in their economies to alter the exchange rate or exchange characteristics of their currencies. For example, a central bank may intervene to devalue or revalue a currency or to replace an existing currency. In addition, a government may impose regulatory controls or taxes to affect the exchange rate of its currency or may issue a new currency or replace an existing currency. As a result, the amounts payable on and rate of return of an Instrument with a Settled Currency other than the Investor's Currency could be affected significantly and unpredictably by governmental actions. Even in the absence of governmental action directly affecting currency exchange rates, political or economic developments in the country or region issuing the Settled Currency for an Instrument with a Settled Currency other than the Investor's Currency or elsewhere could result in significant and sudden changes in the exchange rate between the Investor's Currency and the Settled Currency. Changes in exchange rates could affect the value of such Instruments as participants in the global currency markets move to buy or sell the Settled Currency of Investor's Currency in reaction to these developments.

If a governmental authority imposes exchange controls or other conditions, such as taxes on the exchange or transfer of the Settled Currency, there may be limited availability of the Settled Currency for payment on the Instruments denominated in such currency at their maturity or on any other payment date. In addition, the ability of a Holder to move currency freely out of the country in which payment in the currency is received or to convert the currency at a freely determined market rate could be limited by governmental actions.

In certain circumstances the relevant Issuer will not be obliged to maintain the listing of Instruments which are specified as being listed in the applicable Final Terms

When the relevant Issuer specifies in the applicable Final Terms that a Series of Instruments is to be admitted to trading on the Euro MTF market operated by the Luxembourg Stock Exchange and admitted to listing on the Official List of the Luxembourg Stock Exchange and/or listed or admitted to trading by any other relevant stock exchange or market, the relevant Issuer expects, but is not obliged, to maintain such listing of the Instruments on such exchange(s) or market(s). Changed circumstances, including changes in listing requirements, could result in a suspension or removal of any such listing, or cause the relevant Issuer to conclude that continued listing of the Instruments on such exchange(s) or market(s) is unduly burdensome.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to determine whether and to what extent (i) Instruments are legal investments for it, (ii) Instruments can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Instruments. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Instruments under any applicable risk-based capital or similar rules.

Holding CREST Depository Interests

Investors may hold the Instruments through CREST. CREST allows Holders to hold instruments in a dematerialised form rather than holding physical instruments. Instead of issuing physical instruments, CREST issues CDIs, representing the interests in the relevant Instruments underlying the CDIs (the "**Underlying Instruments**"). CDI Holders will hold, or have an interest in, a separate legal instrument and will not be the legal owners of the Instruments. The rights of CDI Holders to the Instruments are represented by the relevant entitlements against CREST Depository Limited (the "**CREST Depository**") on behalf of which CREST International Nominees Limited (the "**CREST Nominee**") holds interests in the Instruments. Accordingly, rights under the Instruments cannot be enforced by CDI Holders directly against the relevant Issuer; instead they must be enforced indirectly through CREST and certain

companies acting as intermediary depositaries and custodians. The enforcement of rights under the Instruments will be subject to the local law of the relevant intermediaries. This could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Instruments in the event of any insolvency or liquidation of any of the relevant intermediaries, in particular where the Instruments held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries. If such risk should materialise, Holders may receive reduced payments under the Instruments and may not recover their investment in full or at all, which could pose a material risk for Holders.

CDIs are constituted under English law and transferred through CREST and will be issued by the CREST Depository pursuant to the CREST Deed Poll. The rights of the CDI Holders will be governed by the arrangements between CREST, Euroclear, Clearstream, Luxembourg and the relevant Issuer, including the CREST Deed Poll. Potential investors should note that the provisions of the CREST Deed Poll, the CREST Manual issued by Euroclear UK & Ireland (including the CREST International Manual dated 14 April 2008) as amended, modified, varied or supplemented from time to time (the "**CREST Manual**") and the CREST Rules contained in the CREST Manual applicable to the CREST International Settlement Links Service (the "**CREST Rules**") contain indemnities, warranties, representations and undertakings to be given by CDI Holders, and limitations on the liability of the CREST Depository. CDI Holders are bound by such provisions and may incur liabilities resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the amounts originally invested by them. As a result, the rights of, and returns received by, CDI Holders, may differ from those of holders of Instruments which are not represented by CDIs. This could have an adverse effect on the payments received under the Instruments by Holders.

In addition, CDI Holders may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service (the "**CREST International Settlement Links Service**"). These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the Instruments through the CREST International Settlement Links Service.

Potential investors should note that the Issuers, the Guarantor, the Dealers, the Agents or the Registrar will not have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations. The CDIs are not the subject of this Offering Circular.

10. **Risks Relating to the Structure of a Particular Issue of Instruments**

A wide range of Instruments may be issued under the Programme. A number of these Instruments may have features which contain particular risks for potential investors. Set out below is a description of the most common features.

(a) **General risks relating to Reference Item Linked Instruments**

Reference Item Linked Instruments will represent an investment linked to the economic performance of the relevant Reference Item(s) and potential investors should note that the return (if any) on their investment in such Instruments will depend upon the performance of such Reference Item(s). Potential investors should also note that whilst the market value of such Instruments is linked to such Reference Item(s) and will be influenced (positively or negatively) by such Reference Item(s), any change in the market value of such Instruments may not be comparable to changes in the market value of the Reference Item(s). It is impossible to predict how the market value of the relevant Reference Item(s) will vary over time. In addition, in contrast to a direct investment in the relevant Reference Item(s), such Instruments represent the right to receive payment or delivery, as the case may be, of the Cash Settlement Amount(s), the Final Redemption Amount(s) or the Entitlement, as the case may be, as well as periodic payments of interest or additional amounts (if specified in the applicable Final Terms), all or some of which and the value of which will be determined by reference to the performance of the relevant Reference Item(s) but which are likely to differ from and may be less than the return on a direct investment in the same Reference Items(s).

As the amounts payable and/or non-cash consideration deliverable in respect of Reference Item Linked Instruments are linked to the performance of the relevant Reference Item(s), a purchaser of such an Instrument must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the relevant Reference Item(s). Assuming all other factors are held constant, the lower the value of such an Instrument and the shorter the remaining term to expiration (in the case of a Warrant), exercise (in the case of a Certificate) or redemption (in the case of a Note), the greater the risk that purchasers of such Instrument will lose all or part of their investment.

Depending on the terms of the relevant Instruments, Reference Item Linked Instruments may be redeemed/settled on the maturity date/settlement date at an amount that is equal to (or nearly equal to), greater than or less than the amount invested. Except for Reference Item Linked Instruments that are structured to redeem/settle at a minimum amount on the maturity date/settlement date, investors in Reference Item Linked Instruments may risk losing their entire investment if the value of the relevant Reference Item(s) does not move in the anticipated direction. Regardless of the terms of the Instrument, all payments thereon are subject to the relevant Issuer's and (if applicable) the Guarantor's credit risk and their respective ability to pay their relevant obligations on the applicable payment dates.

POTENTIAL INVESTORS MUST REVIEW THE APPLICABLE FINAL TERMS TO ASCERTAIN WHAT THE RELEVANT REFERENCE ITEM(S) ARE AND TO SEE HOW THE CASH SETTLEMENT AMOUNT, FINAL REDEMPTION AMOUNT OR THE ENTITLEMENT, AS THE CASE MAY BE, AND ANY INTEREST PAYMENTS (IN THE CASE OF NOTES) OR ANY ADDITIONAL AMOUNT PAYMENTS (IN THE CASE OF W&C INSTRUMENTS) ARE DETERMINED AND WHEN SUCH AMOUNTS ARE PAYABLE AND/OR DELIVERABLE, AS THE CASE MAY BE, BEFORE MAKING ANY DECISION TO PURCHASE ANY INSTRUMENTS.

Risks relating to Instruments which are linked to emerging market Reference Item(s)

Where the terms and conditions of the Instruments reference one or more emerging market Reference Item(s), investors in such Instruments should be aware that the political and economic situation in countries with emerging economies or stock markets may be undergoing significant evolution and rapid development, and such countries may lack the social, political and economic stability characteristics of more developed countries, including a significant risk of currency value fluctuation. Such instability may result from, among other things, authoritarian governments, or military involvement in political and economic decision-making, including changes or attempted changes in governments through extra-constitutional means; popular unrest associated with demands for improved political, economic or social conditions; internal insurgencies; hostile relations with neighbouring countries; and ethnic, religious and racial disaffections or conflict. Certain of such countries may have in the past failed to recognise private property rights and have at times nationalised or expropriated the assets of private companies. As a result, the risks from investing in those countries, including the risks of nationalisation or expropriation of assets, may be heightened. In addition, unanticipated political or social developments may affect the values of a Reference Item investment in those countries. The small size and inexperience of the securities markets in certain countries and the limited volume of trading in securities may make the emerging market Reference Item(s) illiquid and more volatile than investments in more established markets. There may be little financial or accounting information available with respect to local issuers, and as a result it may be difficult to assess the value or prospects of the Reference Item(s).

The relevant Issuer may redeem early or settle a Series of Instruments if an Additional Disruption Event occurs, causing the investor to lose some or all of its investment in such Series of Instruments

If Additional Disruption Events are specified as applicable in the Final Terms for the applicable Series of Instruments of the relevant Issuer, and one or more Additional Disruption Event occurs with respect to that Series of Instruments, the relevant Issuer may, in its sole and absolute discretion, cause the early redemption or settlement of such Series of Instruments in accordance with the applicable Conditions. If the relevant Issuer elects to redeem early or settle the Instruments as a result of an Additional Disruption Event, the amount payable or other consideration deliverable to the Holders may be significantly less than the investor's initial investment, and may be as low as zero. Additional Disruption Events include, among others, as specified in the applicable Final Terms and described in the applicable Conditions, (1) Change in Law, (2) Increased Cost of Hedging and (3) Hedging Disruption.

(b) Risks associated with baskets comprised of various components as Reference Items

Exposure to performance of basket and its components

Where the Instruments are linked to or reference a basket of assets, the investors in such Instruments are exposed to the performance of such basket. The investors will bear the risk of the performance of each of the basket components. See, as applicable, the risk factors set out in the sections entitled "Risks relating to Index Linked Instruments", "Risks relating to Share Linked Instruments", "Risks relating to GDR/ADR Linked Instruments", "Risks relating to FX Linked Instruments and other Instruments in respect of which "Exchange Rate" is specified to be applicable", "Risks relating to Commodity Linked Instruments", "Risks relating to Fund Linked Instruments", "Risks relating to Inflation Linked Instruments", "Risks relating to Credit Linked Instruments" and "Risks relating to Saudi Share Linked Warrants".

A high correlation of basket components may have a significant effect on amounts payable

Some Instruments are linked to baskets of Reference Items where the performance of such Reference Items tends to move in the same direction, or correlate, as a result of changes in market conditions, such as a change in interest rates. Correlation of basket components indicates the level of interdependence among the individual basket components with respect to their performance. If, for example, all of the basket components originate from the same sector and the same country, a high positive correlation may generally be assumed. Past rates of correlation may not be determinative of future rates of correlation: investors should be aware that, though basket components may not appear to be correlated based on past performance, it may be that they suffer the same adverse performance following a general downturn or other economic or political event. Where the basket components are subject to high correlation, any move in the performance of the basket components will exaggerate the performance of the Instruments.

The negative performance of a single basket component may outweigh a positive performance of one or more other basket components

Investors in Instruments must be aware that even in the case of a positive performance of one or more basket components, the performance of the basket as a whole may be negative if the performance of the other basket components is negative to a greater extent, subject to the Conditions of the relevant Instruments.

A small basket, or an unequally weighted basket, will generally leave the basket more vulnerable to changes in the value of any particular Reference Item

The performance of a basket that includes a smaller number of Reference Items will generally, subject to the terms and conditions of the relevant Instruments, be more affected by changes in the value of any particular Reference Item included therein than a basket that includes a greater number of Reference Items.

The performance of a basket that gives greater weight to some Reference Items will generally, subject to the terms and conditions of the relevant Instruments, be more affected by changes in the value of any such particular Reference Item included therein than a basket that gives relatively equal weight to each Reference Item.

A change in composition of a basket may have an adverse effect on basket performance

Where the Instruments grant the Calculation Agent the right, in certain circumstances, to adjust the composition of the basket, investors should be aware that any replacement basket component may perform differently from the original basket component, which may have an adverse effect on the performance of the basket which will in turn have an adverse effect on the value of the Instruments.

(c) Risks relating to Instruments linked to certain References Item(s)**(i) Risks relating to Index Linked Instruments*****Factors affecting the performance of Indices may adversely affect the value of the Instruments***

Indices are comprised of a synthetic portfolio of shares, bonds, currency exchange rates, commodities, property or other assets, and as such, the performance of an Index is dependent upon the performance of components of such Index, which may include interest rates, currency developments, political factors,

market factors such as the general trends in capital markets or broad based indices and (in the case of shares) company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy. If an Index does not perform as expected, this will materially and adversely affect the value of Index Linked Instruments.

Returns on the Instruments do not reflect a direct investment in underlying shares or other assets comprising the Index

The return payable on Instruments that reference Indices may not reflect the return a potential investor would realise if it actually owned the relevant assets comprising the components of the Index or owned a different form of interest in the relevant Index. For example, if the components of the Indices are shares, Holders will not receive any dividends paid or distributions made on those shares and will not participate in the return on those dividends or distributions unless the relevant Index takes such dividends into account for purposes of calculating the relevant level. Similarly, Holders will not have any voting rights in the underlying shares or any other assets which may comprise the components of the relevant Index. Accordingly, Holders of Instruments that reference Indices as Reference Items may receive a lower payment upon redemption/settlement of such Instruments than any return such Holder would have received if it had invested in the components of the Index directly or other comparable instruments linked to the Index.

Holdings may receive physical delivery of Fund Shares of one or more Index-Related ETFs in lieu of payment of cash amounts

Where "Physical Settlement" is specified as applicable to the Index Linked Conditions in the relevant Final Terms, the relevant Issuer may redeem the Index Linked Instruments at their maturity by delivering Fund Shares of one or more Index-Related ETFs to the investor. In such case, the investors will receive such Fund Shares rather than a monetary amount upon maturity. Holders will, therefore, be exposed to such Index-Related ETFs and the risks associated with such Fund Shares. The investor should not assume that he or she will be able to sell such Fund Shares for a specific price after the redemption/settlement of the Instruments, and in particular not for the purchase price of the Index Linked Instruments. Under certain circumstances the Fund Shares may only have a very low value or may, in fact, be worthless, in which case see "Investors risk losing all of their investment in the Instruments" above. Holders may also be subject to certain documentary or stamp taxes in relation to the delivery and/or disposal of such Fund Shares. The holding of such Fund Shares instead of the Instruments may adversely affect the Holder's tax position.

A change in the composition or discontinuance of an Index could adversely affect the market value of the Instruments

The sponsor of any Index can add, delete or substitute the components of such Index or make other methodological changes that could change the level of one or more components. The changing of components of any Index may affect the level of such Index as a newly added component may perform significantly worse or better than the component it replaces, which in turn may affect the payments made by the relevant Issuer to the Holders of the Index Linked Instruments. The sponsor of any such Index may also alter, discontinue or suspend calculation or dissemination of such Index. The sponsor of an Index will have no involvement in the offer and sale of the Index Linked Instruments and will have no obligation to any Holder of such Instruments. Accordingly, the sponsor of an Index may take any actions in respect of such Index without regard to the interests of the Holder of the Instruments, and any of these actions could adversely affect the market value of the Index Linked Instruments.

Exposure to Index Modification, Index Cancellation, Index Disruption, Administrator/Benchmark Event and correction of Index levels

The Calculation Agent has broad discretion to make certain determinations and adjustments, to replace the original Reference Item with another and/or to cause early redemption/settlement of the Instruments, any of which may be adverse to Holders in connection with Index Modification, Index Cancellation, Index Disruption and Administrator/Benchmark Event. The Calculation Agent may determine that the consequence of any such event is to make adjustments to the Instruments, or to replace such Index with another or to cause early redemption/settlement of the Instruments. The Calculation Agent may (subject to the terms and conditions of the relevant Instruments) also amend the relevant Index level due to

corrections in the level reported by the Index Sponsor. The consequences of such amendments could adversely affect the market value of the Index Linked Instruments.

There are additional risks in relation to "Proprietary Indices" or "Strategies"

See "There may be conflicts of interest between the relevant Issuer, its Affiliates and the Holders" above.

There are additional risks in relation to Commodity Indices

See "Additional risks in relation to the "rolling" of commodity futures contracts (including commodity futures contracts which are components of a Commodity Index)" below.

Specific risks relating to Index Linked Instruments in respect of which the applicable Final Terms specify that the "LEPW Conditions" shall be applicable

Holder of Index Linked Instruments in respect of which the applicable Final Terms specify that the "LEPW Conditions" shall be applicable should note that all payments made by MLBV will be made subject to deductions to account for any costs and taxes which a hypothetical broker dealer, directly or indirectly, could incur in connection with any hedging arrangements which such hypothetical broker dealer could make in order to hedge such Index Linked Instruments.

Further, certain Index Linked Instruments in respect of which the applicable Final Terms specify that the "LEPW Conditions" shall be applicable ("**Index Linked LEPWs**"), the issuance, sale, transfer and/or holding of which may be subject to laws and regulations of the relevant jurisdiction in which the underlying index of such Index Linked LEPWs is listed and traded ("**Relevant Jurisdiction**"). Purchasers of such Index Linked LEPWs are required to comply with the applicable laws and regulations of the Relevant Jurisdiction.

In order to ensure compliance with these laws and regulations, each purchaser of the relevant Index Linked LEPWs is deemed to represent, warrant, agree and undertake on an ongoing basis its full compliance with the relevant selling restrictions and transfer restrictions applicable to the Relevant Jurisdiction set out in the "Offering and Sale" section of this Offering Circular, and agree and undertake to provide any additional disclosure or information that MLBV, MLI, BAC and/or their respective affiliates reasonably deem necessary or appropriate in order to comply with the regulations or requests from any governmental or regulatory authorities of the Relevant Jurisdiction from time to time.

Failure of any Holder to comply with the relevant selling restrictions or transfer restrictions applicable to the Relevant Jurisdiction and/or failure to provide MLBV and/or its affiliates promptly with the information described above and/or execute any document that MLBV, MLI, BAC and/or their respective affiliates reasonably deem necessary or appropriate in order to comply with the regulations or requests from any governmental or regulatory authorities of the Relevant Jurisdiction from time to time (each an "**LEPW Non-compliance Event**") will, if LEPW Non-compliance Event is specified as applicable in the Final Terms for the relevant Index Linked LEPWs, be an Additional Disruption Event which gives MLBV the right to make appropriate adjustments to the Terms and Conditions of the relevant Index Linked LEPWs or cancel such Index Linked LEPWs early.

Furthermore, if Regulatory Order is specified as applicable in the Final Terms for the relevant Index Linked LEPWs, in the event that a governmental or regulatory authority of the Relevant Jurisdiction has requested MLBV, MLI and/or their respective affiliates or agent to terminate or modify the relevant Index Linked LEPWs, any Applicable Hedge Positions or any Related Hedging Arrangement relating thereto, or otherwise imposes material requirements on the foregoing, the Guarantee, the holders or related documents, an Additional Disruption Event will occur which gives MLBV the right to make appropriate adjustments to the Terms and Conditions of the relevant Index Linked LEPWs or cancel such Index Linked LEPWs early.

Any adjustment and/or early termination of the relevant Index Linked LEPWs may result in the loss of some or all of the purchaser's investment.

Further, the adjustment and/or early termination right applies to the entire series of the relevant Index Linked LEPWs. Any breach by a single Holder may trigger adjustment and/or early termination of the entire series of such Index Linked LEPWs. Holders who are not in breach will also be affected as their

holdings in the same series of such Index Linked LEPWs will be subject to adjustment and/or early termination caused by the breach of such other Holder.

There are additional risks in relation to Index-Linked Contracts

Holders of Index Linked Instruments in respect of which the applicable Final Terms specify that the "Additional Terms and Conditions for Index-Linked Contracts" shall be applicable should note that they are exposed to the performance of the Index-Linked Contracts which, in turn, will be driven by the level of the underlying Index.

There will be a correlation between the level of an Index and the price at which an Index-Linked Contract trades on the relevant futures or options exchange, and Holders will therefore be exposed to the performance of the Index.

However, Holders should also be aware that the expectations of dealers in Index-Linked Contracts of the level of the Index on the date(s) on which the settlement amount of an Index-Linked Contract is determined may also have an impact on the price of Index-Linked Contracts on the Index. For example, if the expectation of dealers in options contracts is that the level of the Index will be lower on a future date when the settlement amount of the options contract is to be determined than the current level of the Index, this may result in the price of the options contract falling (in the case of a call option) or rising (in the case of a put option) even where the current level of the Index is rising. Moreover, because the settlement amount of many options contracts is a multiple of the difference between the level of the Index on a future date and the strike, a relatively small change in the level of an Index may result in a proportionately much larger change in the price of the options contract.

If the expectation of dealers in futures contracts is that the settlement price of the Index on the date(s) on which the settlement amount of the futures contract is determined will be lower than the forward price of the Index specified in the contract, this may result in the price of the futures contract falling (in the case of buyers of the futures contract) or rising (in the case of sellers of the futures contract) even where the current level of the Index is rising. Moreover, because the settlement amount of many futures contracts is a multiple of the difference between the settlement price and the forward price, a relatively small change in the level of an Index may result in a proportionately much larger change in the price of the futures contract.

Instruments are not sold or promoted by an Index or the sponsor of such Index

Instruments linked to an Index are not sponsored, endorsed, sold, or promoted by such Index or the sponsor of such Index. The sponsor of an Index makes no representation whatsoever, whether express or implied, either as to the results to be obtained from the use of such Index or the levels at which such Index stands at any particular time on any particular date. Neither an Index nor sponsor of such Index shall be liable (whether in negligence or otherwise) to any person for any error in such Index. A sponsor of an Index is under no obligation to advise any person of any error in such Index. A sponsor of an Index does not make any representation whatsoever, whether express or implied, as to the advisability of investing or assuming any risk in connection with the Instruments linked to such Index.

The relevant Issuer, BAC and BAC's Affiliates are not liable for the actions or omissions of the sponsor of an Index, any information concerning an Index, the performance of such Index or use thereof in connection with the Instruments

None of the relevant Issuer, BAC and any of BAC's Affiliates is liable to the Holders of Instruments for any act or failure to act by a sponsor of an Index in connection with the calculation, adjustment, or maintenance of such Index. Although the Calculation Agent will obtain information concerning an Index from publicly available sources it believes reliable, it will not independently verify this information. Accordingly, no representation, warranty, or undertaking (express or implied) is made and no responsibility is accepted by the relevant Issuer, BAC, any of BAC's Affiliates or the Calculation Agent as to the accuracy, completeness, and timeliness of information concerning such Index. In addition, none of the relevant Issuer, BAC, any of BAC's Affiliates and the Calculation Agent makes any representation whatsoever, whether express or implied, as to the performance of any Index which is linked to the Instruments, any data included in, or omitted from, such Index, or the use of such Index in connection with the Index Linked Instruments.

(ii) Risks relating to Share Linked Instruments***No issuer of the relevant Share(s) will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Share Linked Instruments***

No Share Company or Companies will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Share Linked Instruments and none of the relevant Issuer, the Guarantor (if applicable) and any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning any such Share Company or Companies contained in such Final Terms or in the documents from which such information was extracted. Neither the relevant Issuer nor the Guarantor (if applicable) controls any Share Company or Companies and are not responsible for any disclosure, misstatements or omissions made by any Share Company or Companies. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the adequacy, accuracy or completeness of the publicly available information described in this paragraph or in any applicable Final Terms) that would affect the trading price of the relevant Share(s) will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such Share Company or Companies could affect the trading price of the Share(s) and therefore the trading price of the Instruments or amounts paid or delivered under the Instruments.

In respect of Shares which are Stapled Shares, the risks described above also apply to Component Shares or, as the case may be, Component Share Companies and, unless the context otherwise requires, should be read as if references to a "Share" or "Share Company" were references to a "Component Share" or "Component Share Company".

Factors affecting the performance of Shares may adversely affect the value of the Share Linked Instruments

The performance of Shares is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors and company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy. These factors are not within the relevant Issuer's or (if applicable) the Guarantor's control and may result in a decline in the value of the Instruments.

 Holders have no claim against the Share Company or Companies or recourse to the Shares

Share Linked Instruments do not represent a claim against or an investment in any Share Company or Companies and investors will not have any right of recourse under the Share Linked Instruments to any such company or the Shares. Share Linked Instruments are not in any way sponsored, endorsed or promoted by any Share Company or Companies and such companies have no obligation to take into account the consequences of their actions for any Holders. Accordingly, the Share Company or Companies may take any actions in respect of such Share without regard to the interests of the investors in the Share Linked Instruments, and any of these actions could adversely affect the market value of the Share Linked Instruments.

In respect of Shares which are Stapled Shares, the risks described above also apply to Component Shares or, as the case may be, Component Share Companies and, unless the context otherwise requires, should be read as if references to a "Share" or "Share Company" were references to a "Component Share" or "Component Share Company".

Determinations made by the Calculation Agent in respect of Potential Adjustment Events, Merger Events, Tender Offers, (save in respect of Component Shares) De-listings, Nationalisations, Announcement Events, Insolvencies, (in the case of Shares that are Stapled Shares) De-stapling Events and Additional Disruption Events may have an adverse effect on the value of the Share Linked Instruments

Upon determining that a Potential Adjustment Event, Merger Event, Tender Offer, (save in respect of a Component Share) De-listing, Nationalisation, Announcement Event, Insolvency, (in the case of a Share that is a Stapled Share) De-stapling Event or Additional Disruption Event has occurred in relation to an underlying Share or, in respect of any Share that is a Stapled Share, a Component Share, or Share Company or Component Share Company (as the case may be), the Calculation Agent has broad

discretion to make certain determinations to account for such event including to (i) make adjustments to the terms of the Share Linked Instruments and/or (ii) (in the case of a Merger Event, Tender Offer, De-listing, Nationalisation, Announcement Event, Insolvency, De-stapling Event or Additional Disruption Event) cause early redemption/settlement of the Share Linked Instruments, any of which determinations may have an adverse effect on the value of the Share Linked Instruments. In particular, in the event that the Share Linked Instruments are early settled/redeemed, the amount payable to Holders may be significantly less than the investor's initial investment, and may be as low as zero.

If Announcement Event is specified to be applicable, the Calculation Agent may exercise the broad discretions described in the paragraph above based on a public announcement by the Share Company or Component Share Company (as the case may be) or a third party of an intention to take an action or enter into a transaction that would, if taken or consummated prior to final valuation of the Share Linked Instruments, constitute a Merger Event, Tender Offer, De-Listing, Nationalisation or De-stapling Event, regardless of whether the action or transaction is taken or consummated prior to final valuation of the Share Linked Instruments or at all.

Potential Adjustment Events include (a) a sub-division, consolidation or re-classification of the Shares or, in respect of any Share that is a Stapled Share, Component Shares, (b) an extraordinary dividend, (c) a call of the Shares or Component Shares (as the case may be) that are not fully paid, (d) a repurchase by the Share Company or Component Share Company (as the case may be), or an affiliate thereof, of the Shares or Component Shares (as the case may be), (e) a separation of rights from the Shares or Component Shares (as the case may be), (f) any event having a dilutive or concentrative effect on the value of the Shares or Component Shares (as the case may be), or (g) in respect of any Share that is a Stapled Share, the making of any amendment or supplement to the terms of the Stapled Share Principles. Additional Disruption Events include (1) a change in applicable law since the Trade Date that makes it illegal to hold, acquire or dispose of the Shares or Component Shares (as the case may be) or more expensive for the relevant Issuer to hedge its obligations under the relevant Share Linked Instruments, (2) an insolvency filing by or on behalf of any issuer of the relevant Share(s) or Component Shares (as the case may be), (3) Increased Cost of Hedging and (4) Hedging Disruption.

Holders may receive physical delivery of Shares in lieu of payment of cash amounts

Where the Share Linked Instruments include the right of the relevant Issuer, subject to the fulfilment of a particular condition, to redeem the Share Linked Instruments at their maturity by delivering Shares to the investor, the investors will receive such Shares rather than a monetary amount upon maturity. Holders will, therefore, be exposed to the Share Company or Companies and the risks associated with such Shares. The investor should not assume that he or she will be able to sell such Shares for a specific price after the redemption/settlement of the Instruments, and in particular not for the purchase price of the Share Linked Instruments. Under certain circumstances the Shares may only have a very low value or may, in fact, be worthless, in which case see "Investors risk losing all of their investment in the Instruments" above. Holders may also be subject to certain documentary or stamp taxes in relation to the delivery and/or disposal of such Shares. The holding of such Shares instead of the Instruments may adversely affect the Holder's tax position.

Holders will have no voting rights and may have no right to receive dividends or distributions in respect of the relevant Shares or Component Shares (as the case may be)

Except as provided in the relevant Conditions in relation to Physical Delivery Instruments, Holders of Share Linked Instruments will not have voting rights or any other rights with respect to the relevant Shares or Component Shares (as the case may be) to which such Share Linked Instruments relate.

Unless the "Dividend Conditions" are applicable for Share Linked Instruments, Holders of Share Linked Instruments will not have rights to receive dividends or distributions. As a result, the return on the Share Linked Instruments may not reflect the return an investor would realise if the investor actually owned those relevant Shares and received the dividends paid or other distributions made in connection with them.

Specific risks relating to Shares which are Stapled Shares

A Share which is a Stapled Share comprises a number of Component Shares and is traded on the relevant Exchange as if it were a single security. Each of the Component Shares may not be traded or transferred

separately. Stapled share structures can be complex and any distributions payable may be made up of several components with different tax, legal or other consequences. There may be limited liquidity in a Stapled Share in the secondary market. These factors may all affect the value of a Stapled Share, and in turn, may adversely affect the value of and return on the Share Linked Instruments with such Stapled Share as a Reference Item.

Specific risks relating to Share Linked Instruments in respect of which the applicable Final Terms specify that the "LEPW Conditions" shall be applicable

Share Linked Instruments in respect of which the applicable Final Terms specify that the "LEPW Conditions" shall be applicable are linked to the value of specified Shares during a specified period. If cash dividends are declared and paid on such Shares during such specified period, Holders of such Share Linked Instruments shall receive such amounts, less deductions for local taxes (including withholding taxes). Holders of such Share Linked Instruments should note that they will not acquire any interest in or right to acquire the relevant Shares, and will not in any way have any rights with respect to the relevant Shares (including voting rights). There is no obligation on MLBV or any of its Affiliates to purchase, sell, hold, deliver, pledge or transfer any such Shares. In addition, the Additional Amount(s) and/or the Cash Settlement Amount (if any) due to Holders of such Share Linked Instruments will generally be payable in a currency other than the currency in which the relevant Shares are denominated; as a result, the returns to Holders will be subject to exchange rate risk as well.

Holders of such Share Linked Instruments should note that following the occurrence of any Potential Adjustment Event, the Calculation Agent may make certain determinations in respect of such Share Linked Instruments, such as the issue of additional Share Linked Instruments to Holders or the issue to Holders of new Share Linked Instruments linked to the relevant Share or the share capital or other securities of another company created as a result of a spin-off or other similar transaction relating to the relevant Share Company or the distribution of a cash amount to Holders or the adjustment of the terms and conditions of such Share Linked Instruments, in each case, to account for the diluting or concentrative effect of such Potential Adjustment Event. Holders of such Share Linked Instruments should note that none of MLBV, the Guarantor (if applicable) and any of their respective affiliates are in a position to advise or give assurance to the Holders as to the impact to the economic, legal or tax position of such Holders as a result of such determinations or actions to the Holders. Holders of such Share Linked Instruments should consult their own business, accounting, regulatory, legal, tax and other professional advisers with respect to any consequences or considerations (whether relating to tax or otherwise) which may be relevant to or which may result from any such determinations or actions.

Holders of such Share Linked Instruments should also note that all payments made by MLBV (other than additional amounts) will be made subject to deductions to account for any costs and taxes which a hypothetical broker dealer, directly or indirectly, could incur in connection with any hedging arrangements which such hypothetical broker dealer could make in order to hedge such Share Linked Instruments.

The Share Linked Instruments may give exposure to a specified China A share traded through the China Connect Service. Holders of such Share Linked Instruments should also note the specific risks relating to China Connect Share LEPW set out in the paragraph below.

Specific Risks relating to Share Linked Instruments in respect of which the applicable Final Terms specify that the "LEPW Conditions" and "China Connect Share LEPW Conditions" shall be applicable

Share Linked Instruments in respect of which the applicable Final Terms specify that the "LEPW Conditions" and "China Connect Share LEPW Conditions" shall be applicable are linked to the value of specified A shares traded through "China Connect". "China Connect" refers to the Shanghai-HK Connect and/or the Shenzhen-HK Connect as the case may be. China Connect is a securities trading and clearing links programme, initially developed by the Shanghai Stock Exchange ("SSE"), the Stock Exchange of Hong Kong Limited ("SEHK"), the China Securities Depository and Clearing Corporation and the Hong Kong Securities Clearing Company Limited for the establishment of mutual market access between SSE and SEHK ("**Shanghai-HK Connect**"). Shanghai-HK Connect is a platform for foreign investors to invest in eligible A shares listed and traded on the SSE. Following the launch of the Shanghai-HK Connect in November 2014 and the joint announcement made by the China Securities Regulatory Commission ("CSRC") and the Securities and Futures Commission ("SFC") on 16 August 2016, a

similar securities trading and clearing links programme for giving mutual market access between the Shenzhen Stock Exchange ("SZSE") and the SEHK has been launched ("**Shenzhen-HK Connect**"). Shenzhen-HK Connect extends the current arrangements of Shanghai-HK Connect by linking up the SZSE and the SEHK. Shenzhen-HK Connect is a platform for foreign investors to invest in eligible A shares listed and traded on the SZSE. MLBV or its Affiliates may (but are not obliged to) hedge MLBV's obligations under such Share Linked Instruments through China Connect.

China Connect has some unique features and restrictions, including (without limitation) daily quota restrictions, eligibility criteria for A shares that can be traded through China Connect, and restrictions on the ability of an investor to take up certain types of rights issuances through China Connect, and restrictions on investor eligibility for trading A shares listed on the ChiNext Market of the SZSE ("**ChiNext Shares**") through the Shenzhen-HK Connect. Trading through China Connect is also subject to the laws, regulations, rules and guidelines published or applied by the exchanges, clearing systems and regulators in Hong Kong and the PRC which provide services in relation to and/or regulate activities relating to China Connect ("**China Connect Rules**").

China Connect has been launched since 2014 and is subject to further development. There is no assurance as to whether or how such developments may affect an investment in securities traded through China Connect. Also, the interpretation and application of the China Connect Rules is untested and there is uncertainty as to how they will be applied.

Holders of such Share Linked Instruments should note that these potential restrictions and uncertainties relating to China Connect may trigger a Hedging Disruption, a Potential Adjustment Event or an Additional Disruption Event, or may lead to adjustments to the terms or early termination of such Share Linked Instruments, and any disruption to or early closure of China Connect may trigger a Market Disruption Event, all as provided for in the China Connect Share LEPW Conditions.

Additional risks associated with investing in Instruments linked to ChiNext Share

ChiNext is a board market of SZSE for innovative enterprises and other growing start-ups. The rules and regulations regarding securities traded on ChiNext are less stringent in terms of profitability and share capital than those in respect of the SZSE Main Board Market or the SZSE SME Board Market. As such, securities traded on ChiNext will be subject to higher market volatility than securities traded on the Main Board Market or the SME Board Market of SZSE. Holders of Instruments linked to ChiNext Share will be exposed to a higher underlying market volatility.

Currently, the Rules of SEHK restrict the buying and selling of ChiNext Shares traded through the Shenzhen-HK Connect to institutional professional investors (as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong) ("**Institutional Professional Investors**") only. Accordingly, purchase of any Instruments over ChiNext Share will be limited to Institutional Professional Investors only.

Trading of China A shares through China Connect may be subject to laws and regulations in the PRC and Hong Kong (each a "**Relevant Jurisdiction**"). Further, any purchase, offer or sale of LEPWs linked to ChiNext Shares traded through China Connect ("**ChiNext Share LEPW**") will be subject to ChiNext Share Connect Selling Restrictions as set out in the "Offering and Sale" of this Offering Circular.

In order to ensure compliance with these laws and regulations, each purchaser of a ChiNext Share LEPW is deemed to represent, warrant, agree and undertake its full compliance with the ChiNext Share Connect Selling Restrictions set out in the "Offering and Sale" of this Offering Circular. Failure of any Holder to comply with the ChiNext Share Connect Selling Restrictions (an "**LEPW Non-compliance Event**") will be an Additional Disruption Event which gives MLBV the right to make appropriate adjustments to the Terms and Conditions of such LEPWs or cancel such LEPWs early.

Furthermore, in the event that a governmental or regulatory authority of any Relevant Jurisdiction has requested MLBV, MLI and/or their respective affiliates or agent to terminate or modify the LEPWs, any Applicable Hedge Positions or any Related Hedging Arrangement relating thereto, or otherwise imposes material requirements on the foregoing, the Guarantee, the holders or related documents, an Additional Disruption Event will occur which gives MLBV the right to make appropriate adjustments to the Terms and Conditions of the LEPWs or cancel the LEPWs early.

Any adjustment and/or early termination of the LEPWs may result in the loss of some or all of the purchaser's investment.

Further, the adjustment and/or early termination right applies to the entire series of the LEPWs. Any breach by a single Holder may trigger adjustment and/or early termination of the entire series of the LEPWs. Holders who are not in breach will also be affected as their holdings in the same series of LEPWs will be subject to adjustment and/or early termination caused by the breach of such other Holder.

Specific risks relating to Share Linked Instruments linked to a share listed and/or traded on a stock exchange in a jurisdiction (a "Relevant Jurisdiction") in respect of which the applicable Final Terms specify that the "LEPW Conditions" shall be applicable ("LEPW")

In respect of LEPWs issued by MLBV, the issuance, sale, transfer and/or holding of such LEPWs may be subject to laws and regulations in the Relevant Jurisdiction. Purchasers of LEPWs are required to comply with the applicable laws and regulations of the Relevant Jurisdiction.

In order to ensure compliance with these laws and regulations, each purchaser of a LEPW is deemed to represent, warrant, agree and undertake on an ongoing basis its full compliance with the relevant selling restrictions and transfer restrictions applicable to the Relevant Jurisdiction set out in the "Offering and Sale" section of this Offering Circular, and agree and undertake to provide any additional disclosure or information that MLBV, MLI, BAC and/or their respective affiliates reasonably deem necessary or appropriate in order to comply with the regulations or requests from any governmental or regulatory authorities of the Relevant Jurisdiction from time to time.

Failure of any Holder to comply with the relevant selling restrictions or transfer restrictions applicable to the Relevant Jurisdiction and/or failure to provide MLBV and/or its affiliates promptly with the information described above and/or execute any document that MLBV, MLI, BAC and/or their respective affiliates reasonably deem necessary or appropriate in order to comply with the regulations or requests from any governmental or regulatory authorities of the Relevant Jurisdiction from time to time (each an "**LEPW Non-compliance Event**") will, if LEPW Non-compliance Event is specified as applicable in the Final Terms for the applicable Series of LEPW, be an Additional Disruption Event which gives MLBV the right to make appropriate adjustments to the Terms and Conditions of the LEPWs or cancel the LEPWs early.

Furthermore, if Regulatory Order is specified as applicable in the Final Terms for the applicable Series of LEPW, in the event that a governmental or regulatory authority of the Relevant Jurisdiction has requested MLBV, MLI and/or their respective affiliates or agent to terminate or modify the LEPWs, any Applicable Hedge Positions or any Related Hedging Arrangement relating thereto, or otherwise imposes material requirements on the foregoing, the Guarantee, the holders or related documents, an Additional Disruption Event will occur which gives MLBV the right to make appropriate adjustments to the Terms and Conditions of the LEPWs or cancel the LEPWs early.

Any adjustment and/or early termination of the LEPWs may result in the loss of some or all of the purchaser's investment.

Further, the adjustment and/or early termination right applies to the entire series of the LEPWs. Any breach by a single Holder may trigger adjustment and/or early termination of the entire series of the LEPWs. Holders who are not in breach will also be affected as their holdings in the same series of LEPWs will be subject to adjustment and/or early termination caused by the breach of such other Holder.

(iii) **Risks relating to GDR/ADR Linked Instruments**

Exposure to risk that redemption amounts do not reflect direct investment in the shares underlying the Depositary Receipts

There are important differences between the rights of holders of ADRs or GDRs (ADRs and GDRs, together, "**Depositary Receipts**") and the rights of holders of the stock of the issuer of underlying shares represented by such Depositary Receipts. A Depositary Receipt is a security that represents capital stock of the relevant underlying share issuer. The relevant Deposit Agreement for the Depositary Receipt sets out the rights and responsibilities of the Depositary (being the issuer of the Depositary Receipt), the underlying share issuer and holders of the Depositary Receipt which may be different from the rights of holders of the underlying shares. For example, the underlying share issuer may make distributions in

respect of its underlying shares that are not passed on to the holders of its Depositary Receipts. Any such differences between the rights of holders of the Depositary Receipts and holders of the underlying shares of the underlying share issuer may be significant and may materially and adversely affect the value of the relevant GDR/ADR Linked Instruments.

Exposure to the risk of non-recognition of beneficial ownership of the underlying shares represented by Depositary Receipts and therefore generally do not include dividends

The legal owner of the underlying shares represented by Depositary Receipts is the custodian bank which at the same time is the issuing agent of the Depositary Receipts. Depending on the jurisdiction under which the Depositary Receipts have been issued and the jurisdiction to which the custodian agreement is subject, it is possible that the corresponding jurisdiction would not recognise the purchaser of the Depositary Receipts as the actual beneficial owner of the underlying shares. Particularly in the event that the custodian becomes insolvent or that enforcement measures are taken against the custodian, it is possible that an order restricting free disposition could be issued with respect to the underlying shares represented by Depositary Receipts or that such shares are realised within the framework of an enforcement measure against the custodian. If this is the case, the holder of the Depositary Receipt loses the rights under the underlying shares and the GDR/ADR Linked Instruments would become worthless. See "Investors risk losing all of their investment in the Instruments" above.

Potential exposure to risks of emerging markets

Depositary Receipts often represent shares of underlying share issuers based in emerging market jurisdictions. In such case, there are risks relating to GDR/ADR Linked Instruments linked to Depositary Receipts which represent such underlying shares. See "Risks relating to Instruments which are linked to emerging market Reference Item(s)" above.

Adjustment to the terms and conditions or replacement of the Reference Item following certain corporate events in relation to the underlying shares represented by Depositary Receipts may materially and adversely affect the value of the Instruments

Following certain corporate events specified in the terms and conditions of the relevant GDR/ADR Linked Instruments relating to the underlying shares represented by Depositary Receipts or the relevant issuer of such underlying shares, such as a merger where the relevant company is not the surviving entity, the amount Holders of GDR/ADR Linked Instruments will receive, if any, at maturity of such Instruments may be adjusted by the Calculation Agent or the affected underlying shares and Depositary Receipts may be replaced by another Reference Item. The occurrence of such corporate events and the consequential adjustments may materially and adversely affect the value of the GDR/ADR Linked Instruments.

Holders of Instruments are exposed to changes in the rate of exchange between the currency of the Depositary Receipt and the underlying share

Where the currency of the Depositary Receipt is different from that of the underlying share, represented by a Depositary Receipt, Holders of Instruments linked to such Depositary Receipt may be exposed not only to the performance of the Depositary Receipt but also to the performance of the relevant foreign currency of the underlying share, which cannot be predicted. See "Factors affecting the performance of the relevant foreign exchange rate may adversely affect the value of the Instruments" below.

(iv) Risks relating to FX Linked Instruments and other Instruments in respect of which "Exchange Rate" is specified to be applicable

Factors affecting the performance of the relevant foreign exchange rate may adversely affect the value of the Instruments

In the case of FX Linked Instruments or any other Instruments in respect of which "Exchange Rate" is specified to be applicable in the applicable Final Terms, any changes to the foreign exchange rate(s) to which such Instruments are linked will affect the nature and value of the investment return on such Instruments. The performance of foreign exchange rates is dependent upon the supply and demand for currencies in the international foreign exchange markets, which are subject to international and domestic political factors, economic factors (including inflation rates in the countries concerned, interest rate differences between the respective countries), economic forecasts, currency convertibility and safety of

making financial investments in the currency concerned, speculation and measures taken by governments and central banks. Measures taken by governments and central banks include, without limitation, imposition of regulatory controls or taxes, issuance of a new currency to replace an existing currency, alteration of the exchange rate or exchange characteristics by devaluation or revaluation of a currency or imposition of exchange controls with respect to the exchange or transfer of a Specified Currency that would affect exchange rates and the availability of a Specified Currency which would affect the return on such an Instrument or the ability of the relevant Issuer to make delivery in the Specified Currency.

BAC is a major foreign exchange dealer and is subject to conflicts of interest

Investors should note that BAC and its Affiliates (including Merrill Lynch International) are regular participants in the foreign exchange markets and in the ordinary course of their business may effect transactions for their own account or for the account of their customers and hold long and short positions in currencies and related derivatives, including in the currencies of the relevant foreign exchange rate(s). Such transactions may affect the relevant foreign exchange rate(s) and the market price, liquidity or value of the Instruments and could be adverse to the interests of Holders. Neither BAC nor any of its Affiliates has any duty to enter into such transactions in a manner which is favourable to Holders.

Currencies of emerging markets jurisdictions pose particular risks

Instruments (including FX Linked Instruments) which expose the investor to emerging market currencies may experience greater volatility and less certainty as to the future levels of such emerging market currencies or their rate of exchange as against other currencies. See "Risks relating to Instruments which are linked to emerging market Reference Item(s)" above.

(v) Risks relating to Commodity Linked Instruments

An investment in Commodity Linked Instruments entails significant risks in addition to those associated with investments in a conventional debt security.

Ownership of the Commodity Linked Instruments will not entitle an investor to any rights with respect to any futures contracts or Commodities included in or tracked by the Reference Item(s)

An investor will not own or have any beneficial or other legal interest in, and will not be entitled to any rights with respect to, any of the Commodities or commodity futures contracts included in such Reference Item(s). Neither the relevant Issuer nor the Guarantor (if applicable) will invest in any of the Commodities or commodity futures contracts included in such Reference Item(s) on behalf or for the benefit of the Holders.

Factors affecting the performance of Commodities may adversely affect the value of the Commodity Linked Instruments; Commodity prices may be more volatile than other asset classes

The prices of Commodities may be volatile and may fluctuate substantially if, for example, natural disasters or catastrophes, such as hurricanes, fires, or earthquakes, affect the supply or production of such Commodities. Commodity prices also fluctuate due to general macro-economic forces and general market movements. The price of Commodities may also fluctuate substantially if conflict or war affects the supply or production of such Commodities. If any amount payable in respect of an Instrument is linked to the price of a Commodity, any change in the price of such Commodity may result in the reduction of the amount of such payment in respect of an Instrument. The reduction in the amount payable on the redemption/settlement of the Instrument may result, in some cases, in a Holder receiving a smaller sum on redemption/settlement of the Instrument than the amount originally invested in such Commodity Linked Instrument.

Commodity Linked Instruments may reference physical commodities or commodity contracts, and Commodity Indices may include commodity contracts that are not traded on regulated exchanges

Commodities comprise both (i) "physical" commodities, which need to be stored and transported, and which are generally traded at a "spot" price, and (ii) commodity contracts, which are agreements either to (a) buy or sell a set amount of an underlying physical commodity at a predetermined price and delivery period (which may be referred to as a delivery month), or to (b) make and receive a cash payment based on changes in the price of the underlying physical commodity.

Commodity Indices are typically based solely on futures contracts traded on regulated futures exchanges; however, a Commodity Index may include over-the-counter contracts traded on trading facilities outside the United States that are subject to lesser degrees of regulation or, in some cases, no substantive regulation. Accordingly, trading in such contracts, and the manner in which prices and volumes are reported by the relevant trading facilities, may not be subject to the provisions of, and the protections afforded by, the applicable regulations governing regulated futures exchanges. As a result, the trading of contracts on such facilities and the inclusion of such contracts in a Commodity Index may be subject to certain risks not presented by most exchange-traded futures contracts, including risks related to the liquidity and price histories of the relevant contracts, and any Instruments which reference any such commodity contracts may have reduced liquidity or greater price volatility or be subject to more extensive market disruptions.

Commodity Linked Instruments which are linked to commodity futures contracts may provide a different return from Commodity Linked Instruments linked to the relevant physical commodity and will have certain other risks

The price of a futures contract on a commodity will generally be at a premium or at a discount to the spot price of the underlying commodity. This discrepancy is due to such factors as (i) the need to adjust the spot price due to related expenses (e.g., warehousing, transport and insurance costs) and (ii) different methods being used to evaluate general factors affecting the spot and the futures markets. In addition, and depending on the commodity, there can be significant differences in the liquidity of the spot and the futures markets. Accordingly, Commodity Linked Instruments which are linked to commodity futures contracts may provide a different return from Commodity Linked Instruments linked to the relevant physical commodity.

Investments in futures contracts involve certain other risks, including potential illiquidity. A holder of a futures position may find that such position becomes illiquid because certain commodity exchanges limit fluctuations in such futures contract prices pursuant to "daily limits". Once the price of a particular futures contract has increased or decreased by an amount equal to the daily limit, positions in the contract can neither be taken nor liquidated unless holders are willing to effect trades at or within the limit. This could prevent a holder from promptly liquidating unfavourable positions and subject it to substantial losses. Futures contract prices in various commodities occasionally have exceeded the daily limit for several consecutive days with little or no trading. Any such losses in such circumstances could have a negative adverse effect on the return of any Commodity Linked Instruments the Reference Item of which is the affected futures contract. There can be no assurance that any such disruption or any other force majeure (such as an act of God, fire, flood, severe weather conditions, act of governmental authority or a labour dispute or shortage) will not have an adverse effect on the value of or trading in the Reference Item(s), or the manner in which it is calculated, and therefore, the value of the Instruments.

In the case of a direct investment in commodity futures contracts, the invested capital may be applied in whole or in part by way of collateral in respect of the future claims of the respective counterparties under the commodity futures contracts. Such capital will generally bear interest, and the interest yield will increase the return of the investor making such direct investment. However, Holders of Instruments linked to the price of commodity futures contracts do not participate in such interest yields from the hypothetical fully collateralised investment in commodity futures contracts.

Additional risks in relation to the "rolling" of commodity futures contracts (including commodity futures contracts which are components of a Commodity Index)

Commodity contracts have a predetermined expiration date, which is the date on which trading of the commodity contract ceases. Holding a commodity contract until expiration will result in delivery of the underlying physical commodity or the requirement to make or receive a cash settlement. Alternatively, "rolling" the commodity contracts means that the commodity contracts that are nearing expiration (the "**near-dated commodity contracts**") are sold before they expire and commodity contracts that have an expiration date further in the future (the "**longer-dated commodity contracts**") are purchased. Investments in commodities apply "rolling" of the component commodity contracts in order to maintain an ongoing exposure to such commodities.

"Rolling" can affect the value of an investment in commodities in a number of ways, including:

- (i) **The investment in commodity contracts may be increased or decreased through "rolling":** Where the price of a near-dated commodity contract is greater than the price of the longer-dated commodity contract (the commodity is said to be in "backwardation"), then "rolling" from the former to the latter will result in exposure to a greater number of the longer-dated commodity contract being taken. Therefore, any loss or gain on the new positions for a given movement in the prices of the commodity contract will be greater than if one had synthetically held the same number of commodity contracts as before the "roll". Conversely, where the price of the near-dated commodity contract is lower than the price of the longer-dated commodity contract (the commodity is said to be in "contango"), then "rolling" will result in exposure to a smaller number of the longer-dated commodity contract being taken. Therefore, any gain or loss on the new positions for a given movement in the prices of the commodity contract will be less than if one had synthetically held the same number of commodity contracts as before the "roll".
- (ii) **Where a commodity contract is in contango (or, alternatively, backwardation) it may be expected to (though it may not) have a negative (or, alternatively, positive) effect over time:** Where a commodity contract is in "contango", the price of the longer-dated commodity contract will generally be expected to (but may not) decrease over time as it nears expiry. In such event, rolling is generally expected to have a negative effect on an investment in the commodity contract. Where a commodity contract is in "backwardation", the price of the longer-dated commodity contract will generally be expected to (but may not) increase over time as it nears expiry. In such event, the investment in the relevant commodity contract can generally be expected to be positively affected.

Commodity indices are indices which track the performance of a basket of commodity contracts on certain commodities, depending on the particular index. The weighting of the respective commodities included in a commodity index will depend on the particular index, and is generally described in the relevant index rules of the index. Commodity indices apply "rolling" of the component commodity contracts in order to maintain an ongoing exposure to such commodities. Specifically, as a commodity contract is required to be rolled pursuant to the relevant index rules, the commodity index is calculated as if exposure to the commodity contract was liquidated and exposure was taken to another (generally longer-dated) commodity contract for an equivalent exposure. Accordingly, the same effects as described above with regard to "rolling" on the value of a Commodity Reference Item also apply with regard to the index level of a Commodity index.

Legal and regulatory changes relating to the Commodities may lead to adjustment to, or early redemption or settlement of, the Commodity Linked Instruments, and could adversely affect the return on and value of the Commodity Linked Instruments

The legal and regulatory regimes of Commodities in many jurisdictions, including, in particular, the United States and Europe, may change in ways that could increase the level of regulation of markets and market participants, reduce liquidity, increase market volatility and increase the costs of participating in the commodity or futures markets which could negatively affect an interest in Commodity Linked Instruments.

In the United States, the regulation of commodity transactions is subject to ongoing modification by governmental and judicial action. For example, the U.S. Commodity Futures Trading Commission ("CFTC") has interpreted the Dodd-Frank Wall Street Reform and Consumer Protection Act (the "**Dodd-Frank Act**"), which was enacted in July 2010, to require the CFTC to impose limits on the size of positions that can be held by market participants in futures contracts and OTC derivatives on certain physical commodities. The CFTC's rules providing for such position limits have been, and may in the future be, subject to litigation challenging their validity, the potential final outcome of which cannot be known at this time. While the ultimate scope and effect of any final and implemented position limit rules are not yet known, these limits will likely restrict the ability of many market participants to trade in the commodities markets to the same extent as they have in the past, including affecting their ability to enter into or maintain hedge positions in the applicable commodity or futures contracts. These rules and various other legislative and regulatory requirements may, among other things, reduce liquidity, increase market volatility, and increase costs in these markets. These consequences could adversely affect the applicable Reference Item and the Commodity Linked Instruments.

In addition, other governmental or regulatory bodies (such as the European Commission) have proposed or may propose in the future legislation or regulations containing restrictions similar to those

contemplated by the Dodd-Frank Act, or other legislation or regulations containing other restrictions that could adversely impact the liquidity of, and increase the costs of, participating in the commodities markets. In Europe, the European Market Infrastructure Regulation ("**EMIR**") and its accompanying technical standards, as well as MiFID II and its implementing measures, seek to address concerns in relation to the monitoring of counterparty credit risk of OTC derivatives market participants, transparency and liquidity in financial markets. For example, under the recast MiFID II and the accompanying Markets in Financial Instruments Regulation ("**MiFIR**"), there are requirements to establish position limits on trading commodity derivatives. The implementing regulations and technical standards are currently subject to review and consultation and the scope of the final rules remains unclear.

Any such changes to the legal and regulatory regime in relation to Commodities may adversely affect the relevant Issuer's obligations in respect of any underlying or hedging transactions in relation to the Commodity Linked Instruments, or may make it unlawful or infeasible, in whole or in part, for any reason for the relevant Issuer to access the commodity markets for purposes of managing commodity market risk, which may lead to adjustment to, or early redemption/settlement of, the Commodity Linked Instruments. In the event of an early redemption/settlement, any early settlement amount or early redemption amount may be less than the purchase price of the Commodity Linked Instruments, and may be zero.

In addition, any such changes to the legal and regulatory regime in relation to Commodities could have an adverse impact on the price of a Commodity, or the return on a Commodity Index, and the return on and value of the Commodity Linked Instruments.

Data sourcing and calculation risks associated with a Commodity Index and the commodity contracts underlying a Commodity Index may adversely affect the value of the Commodity Index

The closing level of a Commodity Index or the prices of commodity contracts underlying such Commodity Index will be calculated based on price data that are subject to potential errors in data sources or other errors that may affect the closing levels published by the relevant sponsor of a Commodity Index or the prices published by the relevant price source(s) for such underlying commodity contracts, as applicable. Also, there may be errors in any other data sourced by the sponsor of a Commodity Index. Such errors could adversely affect the closing level of the Commodity Index on any given day, which could in turn have an adverse effect on the value of the Instruments and any amount payable under the Instruments. There can be no assurance that any error or discrepancy on the part of any data source or sponsor will be corrected or revised or that the sponsor of a Commodity Index will incorporate any such correction or revision into the calculation of such Commodity Index. None of the sponsor of a Commodity Index, the Issuers and the Guarantor makes any representation or warranty, express or implied, as to the correctness or completeness of that information or takes any responsibility for the accuracy of such data or the impact of any inaccuracy of such data on the relevant level of such Commodity Index, or on the value of any commodity contracts included in such Commodity Index.

(vi) Risks relating to Fund Linked Instruments

No Fund will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Fund Linked Instruments

No Fund will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Fund Linked Instruments and none of the relevant Issuer, the Guarantor (if applicable) and any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning any such Fund contained in such Final Terms or in the documents from which such information was extracted. Neither the relevant Issuer nor the Guarantor (if applicable) controls any Fund or is responsible for any disclosure, misstatements or omissions made by any Fund. Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the adequacy, accuracy or completeness of the publicly available information or in any applicable Final Terms) that would affect the net asset value of a unit (or fund interest) in the relevant Fund(s) or, the share price of the Fund Shares of the relevant Exchange Traded Fund(s) ("**ETFs**"), will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such Fund could affect the net asset value of a unit (or fund interest) in such Fund, or the share price of the Fund Shares of such ETFs, and therefore the trading price of the Instruments or amounts paid or delivered under the Instruments.

A Fund may be subject to Fund Events which may adversely impact the value of Fund Linked Instruments

If certain events specified as Fund Events occur, the Calculation Agent may replace the Fund by other Funds and thereafter the amount payable in respect of the Fund Linked Instruments will depend on and be calculated by reference to the performance of an alternate asset. This may have a considerable impact on the value of the Fund Linked Instruments and the amount payable in respect of the Fund Linked Instruments. Alternatively, any determination dates and payment dates may be changed by the Calculation Agent, or the amount paid per Fund Linked Instrument may be based on the only cash amounts that an investor in the fund actually received, which might be as low as zero.

Risk from composition and changes to a Fund

The management company of a Fund can, without regard to the interests of the investors in the Fund Linked Instruments, add, delete or substitute any Funds by reference to which the value of a Fund is calculated or make other methodological changes that could change the investment profile of a Fund. The management company may also determine to discontinue a Fund. If a Fund is discontinued, it may be replaced by other assets and/or the Fund Linked Instruments may be redeemed or exercised early.

In the event that a Fund is materially modified or permanently cancelled or the management company fails to calculate or announce the net asset value of a Fund, the Calculation Agent either will make such adjustments to any variable, calculation methodology, valuation, settlement, payment terms or any other terms and conditions of the Fund Linked Instruments as the Calculation Agent determines appropriate to account for the effect on the Fund Linked Instruments of such events, or may redeem or exercise the Fund Linked Instruments early. Any of these decisions or determinations may adversely impact the value of the Fund Linked Instruments. In the event that the Fund Linked Instruments are early settled/redeemed, the amount payable to an investor may be less than the investor's initial investment, and may be as low as zero.

Funds may be subject to transfer restrictions and illiquidity

Funds and the assets thereof may be subject to transfer restrictions arising by way of applicable securities laws or otherwise. Such restrictions may mean that purchasers of the Fund Linked Instruments are not entitled to acquire interests in the Funds directly. Holders of units or shares in a Fund may have the right to transfer or withdraw their investment in the Funds only at certain times and upon completion of certain documentary formalities and such rights may be subject to suspension or alteration. These circumstances may affect the net asset value of the Funds in question. Potential investors should familiarise themselves with the features of the Funds in this regard.

Events which affect the value of a Fund will affect the value of Fund Linked Instruments

The occurrence of any of the following events could materially and adversely affect the value of shares or units in a Fund, and have a consequent material and adverse effect on the value of Fund Linked Instruments:

- *Valuation:* The valuation of Funds is generally controlled by the management company of the Fund. Valuations are performed in accordance the terms and conditions governing the Fund. Such valuations may be based upon the unaudited financial records of the Fund and any accounts pertaining thereto. Such valuations may be preliminary calculations of the net asset values of the Fund and accounts. The Fund may hold a significant number of investments which are illiquid or otherwise not actively traded and in respect of which reliable net asset values may be difficult to obtain. In consequence, the management company may vary certain quotations for such investments held by the Fund in order to reflect its judgement as to the fair value thereof. Therefore, valuations may be subject to subsequent adjustment upward or downward. Uncertainties as to the valuation of Fund assets and/or accounts may have an adverse effect on the net asset value of the Fund where such judgements regarding valuations prove to be incorrect.
- *Trading charges:* The performance of a Fund will be affected by the charges incurred thereby relating to the investments of such Fund. The Fund may engage in short-term trading which

may result in increased turnover and associated higher than normal brokerage commissions and other expenses.

- *Legal and regulatory changes:* Future changes to applicable law or regulation may be adverse to a Fund.
- *Investment risk:* All investments risk the loss of capital and/or the diminution of investment returns. A Fund may utilise (*inter alia*) strategies such as short-selling, leverage, securities lending and borrowing, investment in sub-investment grade or non-readily realisable investments, uncovered options transactions, options and futures transactions and foreign exchange transactions and the use of concentrated portfolios, each of which could, in certain circumstances, magnify adverse market developments and losses.
- *Illiquidity:* A Fund may make investments in markets that are volatile and/or illiquid and it may be difficult or costly for positions therein to be opened or liquidated.
- *Performance risk:* No assurance can be given relating to the present or future performance of a Fund. The performance of a Fund is dependent on the performance of the management company thereof. Certain management companies may utilise analytical models upon which investment decisions are based. No assurance can be given that these persons will succeed in meeting the investment objectives of the Fund, that any analytical model used thereby will prove to be correct or that any assessments of the short-term or long-term prospects, volatility and correlation of the types of investments in which the Funds have invested or will invest will prove accurate.
- *Effect of exchange rates and exchange controls:* The net asset value of a Fund could be adversely affected not only by hedging costs and changes in exchange rates, but also by local exchange control regulations and other limitations, including currency exchange limitations and political and economic developments in the relevant countries.
- *Market risks:* The markets in which a Fund invests may prove to be highly volatile from time to time as a result of, for example, sudden changes in government policies on taxation and currency repatriation or changes in legislation relating to the value of foreign ownership in companies, and this may affect the net asset value at which a Fund may liquidate positions to meet repurchase requests or other funding requirements.
- *Hedging risks:* A Fund may in certain cases employ various hedging techniques to reduce the risk of investment positions. A substantial risk remains, nonetheless, that such techniques will not always be available and when available, will not always be effective in limiting losses. A Fund may take substantial unhedged positions.
- *Interest rate risks:* The values of securities held by a Fund (or by any underlying Fund) tend to be sensitive to interest rate fluctuations and unexpected fluctuations in interest rates could cause the corresponding net asset values of a Fund's positions to move in directions which were not initially anticipated. To the extent that interest rate assumptions underlie the hedge ratios implemented in hedging a particular position, fluctuations in interest rates could invalidate those underlying assumptions and expose a Fund to losses.
- *Absence of regulation:* A Fund will generally not be regulated under the laws of any country or jurisdiction. As a result, certain protections of such laws (which, among other things, may require investment companies to have disinterested directors, require securities to be held in custody and segregated, regulate the relationship between the investment company and its adviser and mandate investor approval before fundamental investment policies may be changed) do not apply to a Fund. This absence of regulation may adversely affect the performance of a Fund.
- *Suspension of trading:* A securities exchange typically has the right to suspend or limit trading in any instrument traded on that exchange. A suspension could render it impossible for a Fund to liquidate positions and thereby expose a Fund to losses.

- *Dependence on key individuals:* The success of a Fund is dependent on the expertise of its managers. The loss of one or more individuals could have a material adverse effect on the ability of a Fund manager to direct a fund's portfolio, resulting in losses for a Fund and a decline in the value of a Fund. Indeed, certain fund managers may have only one principal, without whom the relevant Fund manager could not continue to operate.
- *Experience of Fund managers:* Certain Funds may be managed by investment managers who have managed hedge funds for a relatively short period of time. The previous experience of such investment managers is typically in trading proprietary accounts of financial institutions or managing unhedged accounts of institutional asset managers or other investment firms. As such investment managers do not have direct experience in managing Funds or hedge funds, including experience with financial, legal or regulatory considerations unique to Fund management, and there is generally less information available on which to base an opinion of such managers' investment and management expertise, investments with such investment managers may be subject to greater risk and uncertainty than investments with more experienced Fund managers.
- *Risk of fraud:* There is a risk that a Fund manager could divert or abscond with the assets, fail to follow agreed-upon investment strategies, provide false reports of operations or engage in other misconduct.
- *Performance compensation payable to Fund managers:* The performance-based compensation paid to a Fund manager is typically calculated on a basis that includes unrealised appreciation and may consequently be greater than if such compensation were based solely on realised gains. Each Fund generally calculates its own performance compensation based on its individual performance, irrespective of increases in the overall value of the Fund. Furthermore, when the Fund is rebalanced and an unprofitable underlying asset is removed, the loss carried forward by such Fund's trading is eliminated for purposes of calculating subsequent performance compensation due to the Fund manager of any replacement underlying asset. Thus, there may be substantial incentive compensation due to the relevant Fund manager even during a period when the portfolio of assets is incurring significant losses.
- *Concentration risk:* As many hedge funds have the authority to concentrate their investments in securities of a single issuer or industry, the overall adverse impact on one or more components of the fund, and correspondingly on the value of the Fund, of adverse movements in the value of such securities could be considerably greater than if the Fund were not permitted to concentrate their investments. Moreover, a number of hedge funds included as components in a Fund might accumulate substantial positions in the same or related instruments at the same time. As information regarding the actual investments made by such funds is not generally available, the management company will be unable to identify any such accumulations, which could expose the relevant Fund to the risk of sudden and severe declines.
- *Risks of leverage:* A Fund may borrow without limitation and typically utilises various lines of credit and other forms of leverage. In addition, certain of a Fund's investment strategies (primarily those utilising derivative instruments) may involve indirect forms of leverage. While leverage presents opportunities for increasing a Fund's total return, it increases the potential risk of loss as well. Any event which adversely affects the value of an investment by a Fund is magnified to the extent that such investment is leveraged. Leverage can have a similar effect on issuers in which a Fund invests. The use of leverage by a Fund could result in substantial losses which would be greater than if leverage had not been used. A Fund's assets may be further leveraged or hedged by the use of derivatives. In addition, investments of a fund may include investments in partnerships and other pooled investment vehicles, which themselves employ leverage to a significant extent. Such investments are subject to the same leverage risks as described above and a Fund could lose its entire investment. As a general matter, the banks and dealers that provide financing to a fund can apply essentially discretionary margin, haircut, financing and security and collateral valuation policies. Changes by banks and dealers in these policies may result in large margin calls, loss of financing and forced liquidations of positions at disadvantageous net asset values.
- *Non-deductible taxes:* As Funds may be resident in so-called off-shore jurisdictions, which have not entered into any double taxation conventions with other countries, any income of such Fund

may be subject to taxation in the countries of origin. As such withholding taxes are non-deductible due to the fact that such Funds are not subject to income taxation in their countries of residence, the Fund's net income may be reduced which may have a negative impact on the performance of such Fund.

- *Investment criteria:* It may be difficult to specify precisely or comprehensively the strategies of a Fund. As a result, it may not sometimes be clear whether or not a Fund fulfils the investment criteria set out in its offering document.
- *Risks of equity investments:* The investment orientation of a Fund may be based to a significant extent on equity investments. Investment in equity securities to aggressively seek capital appreciation is speculative and is generally perceived to encompass greater risks than those involved in connection with an investment in debt securities of comparable issuers.
- *Risks of fixed income investments:* A Fund may invest in fixed income securities and, therefore, may be exposed to the risk of default by the issuers of such securities. Such default may result in delays in payment, or non-payment of interest or principal when due. Furthermore, the net asset value of fixed income securities may also fluctuate with changes in prevailing interest rates and/or in the creditworthiness of the issuer, and these fluctuations may result in a loss of capital by a Fund.
- *Risks of collective investment schemes:* Some Funds may invest in other collective investment schemes. Investment in schemes of this type may afford the investor less transparency in respect of the ultimate assets of the scheme.
- *Large transactions:* Large subscriptions and redemptions may result in the liquidation or dilution of fund assets that may affect the net asset value of such Fund.
- *Emerging markets:* A Fund may invest in securities of governments of, or companies domiciled in, less-developed or emerging markets. See "Risks relating to Instruments which are linked to emerging market Reference Item(s)" above. Custody arrangements in such countries may also present enhanced risk.
- *Risks of repos:* A Fund may use repurchase agreements. Under a repurchase agreement, a security is sold to a buyer and at the same time the seller of the security agrees to buy back the security at a later date at a higher net asset value. In the event of a bankruptcy or other default of the transferor of securities in a repurchase agreement, a Fund could experience delays in liquidating the underlying securities and losses, including possible declines in the value of the collateral during the period while it seeks to enforce its rights thereto; possible subnormal levels of income and lack of access to income during this period and the expenses of enforcing its rights. In the case of a default by the transferee of securities in a repurchase agreement, the management company bears the risk that the transferee may not deliver the securities when required.
- *Risks of currency speculation:* A Fund may engage in exchange rate speculation. Foreign exchange rates have been highly volatile in recent years. The combination of volatility and leverage gives rise to the possibility of large profit but also carries a high risk of loss. In addition, there is counterparty credit risk since foreign exchange trading is done on a principal to principal basis.
- *Risks of commodity futures:* Commodity futures prices can be highly volatile. As a result of the low margin deposits normally required in futures trading, an extremely high degree of leverage is typical of a futures trading account. As a result, a relatively small price movement in a futures contract may result in substantial losses to the investor. Like other leveraged investments, a futures transaction may result in losses in excess of the amount invested.
- *Risks of derivative instruments:* A Fund may use derivative instruments, such as collateralised debt obligations, stripped mortgage-backed securities, options and swaps. There are uncertainties as to how the derivatives market will perform during periods of unusual price volatility or instability, market illiquidity or credit distress. Substantial risks are also involved in borrowing and lending against such instruments. The prices of these instruments are volatile,

market movements are difficult to predict and financing sources and related interest rates are subject to rapid change. One or more markets may move against the positions held by a Fund, thereby causing substantial losses. Most of these instruments are not traded on exchanges but rather through an informal network of banks and dealers. These banks and dealers have no obligation to make markets in these instruments and may apply essentially discretionary margin and credit requirements (and thus, in effect, force a Fund to close out its relevant positions). In addition, such instruments carry the additional risk of failure to perform by the counterparty to the transaction. Government policies, especially those of the Federal Reserve Board and non-U.S. central banks, have profound effects on interest and exchange rates which, in turn, affect prices of derivative instruments. Many other unforeseeable events, including actions by various government agencies and domestic and international political events, may cause sharp market fluctuations.

- *Risks of short selling:* A Fund may sell securities short. Short selling exposes a Fund to theoretically unlimited risk due to the lack of an upper limit on the price to which a security may rise. Short selling involves the sale of borrowed stock. If a stock loan is called, the short seller may be forced to repurchase the stock at a loss. In addition, some traders may attempt to profit by forcing short sellers to incur a loss. Traders may make large purchases of a stock that has been sold short. The large purchases are intended to drive up the stock price, and cause the short sellers to incur losses. By doing this, the traders hope that the short sellers will limit their losses by repurchasing the stock and force the stock price even higher.
- *Risks of arbitrage:* The use of arbitrage strategies by a Fund in no respect should be taken to imply that such strategies are without risk. Substantial losses may be incurred on "hedge" or "arbitrage" positions, and illiquidity and default on one side of a position may effectively result in the position being transformed into an outright speculation. Every arbitrage strategy involves exposure to some second order risk of the market, such as the implied volatility in convertible bonds or warrants, the yield spread between similar term government bonds or the net asset value spread between different classes of stock for the same underlying firm. Further, there are few examples of "pure" arbitrage Funds. Most Funds also employ limited directional strategies which expose them to market risk.
- *Credit risk:* Many of the markets in which a Fund effects its transactions are "over-the-counter" or "inter-dealer" markets. The participants in these markets are typically not subject to credit evaluation and regulatory oversight as are members of "exchange based" markets. To the extent that a Fund invests in swaps, derivatives or synthetic instruments, or other over-the-counter transactions in these markets, such Fund may take a credit risk with regard to parties with which it trades and also may bear the risk of settlement default. These risks may differ materially from those involved in exchange-traded transactions, which generally are characterised by clearing organisation guarantees, daily marking-to-market and settlement, and segregation and minimum capital requirements applicable to intermediaries. Transactions entered into directly between two counterparties generally do not benefit from these protections, which in turn may subject a Fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract or because of a credit or liquidity problem. Such "counterparty risk" is increased for contracts with longer maturities when events may intervene to prevent settlement. The ability of a Fund to transact business with any one or any number of counterparties, the lack of any independent evaluation of the counterparties or their financial capabilities, and the absence of a regulated market to facilitate settlement, may increase the potential for losses.
- *Risks relating to controlling stakes:* A Fund may take controlling stakes in companies. The exercise of control over a company imposes additional risks of liability for environmental damage, product defects, failure to supervise and other types of related liability.
- *Price volatility:* The market price of Fund Linked Instruments may be volatile and may depend on the time remaining to the redemption date or settlement date (as applicable) and the volatility of the price of Fund share(s) or unit(s). The price of Fund share(s) or unit(s) may be affected by the economic, financial and political events in one or more jurisdictions, including factors affecting the exchange(s) or quotation system(s) on which any units in the Fund or Funds may be traded.

As the shares of certain Funds may only be redeemable on certain dates, there is a risk of delays or defaults in payment

The shares of a Fund may only be redeemable on certain redemption dates, subject to the prescribed notice period in respect of such Fund. This gives rise to a time delay between the execution of an order for redemption and payment of the proceeds on such redemption. If the Fund becomes insolvent following the date on which a redemption order would have to be notionally placed or the Calculation Agent determines that the relevant Fund would fail to pay to any shareholder in cash the full redemption proceeds owing to them if they redeemed their shares on the relevant date, an adjustment may be made by the Calculation Agent when calculating the return on the Instruments to the net asset value per share of the relevant Fund, thereby reducing the return on the Instruments.

In the case of Fund Linked Instruments linked to ETFs, if the Calculation Agent determines that an event giving rise to a Disrupted Day has occurred at any relevant time, any such determination may have an effect on the timing of valuation and consequently the value of the Instruments and/or may delay settlement in respect of the Fund Linked Instruments. Potential investors should review the relevant Conditions and the applicable Final Terms to ascertain whether and how such provisions apply to the Fund Linked Instruments.

In the case of Fund Linked Instruments linked to ETFs, following the declaration by the ETF of the occurrence of any Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical relevant Fund Shares and, if so, will (i) make the corresponding adjustment, if any, to any of the terms of the relevant Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate to account for that diluting or concentrative effect and (ii) determine the effective date of that adjustment. Such adjustment may have an adverse effect on the value and liquidity of the affected Fund Linked Instruments.

In addition, in the case of Fund Linked Instruments linked to ETFs, if a Merger Event, Tender Offer, De-Listing, Material Underlying Event, Nationalisation or Insolvency occurs in relation to any Fund Share, the relevant Issuer in its sole and absolute discretion may take the action described in (i) or (ii) below:

- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the relevant Conditions and/or the applicable Final Terms to account for the Merger Event, Tender Offer, De-Listing, Material Underlying Event, Nationalisation or Insolvency and determine the effective date of that adjustment. Such adjustment may have an adverse effect on the value and liquidity of the affected Fund Linked Instruments; or
- (ii) redeem or cancel, as applicable, all of the Fund Linked Instruments. In the event of such redemption or cancellation the amount payable to an investor may be less than the investor's initial investment, and may be as low as zero.

The Instruments are not sold or promoted by any ETF Party

The Instruments are not regulated, sponsored, endorsed, underwritten, guaranteed, sold, marketed, or promoted by any ETF issuer or its affiliates (including for sake of clarity, any underwriters, custodians, and distributors) or the sponsor or owner of any underlying index or other component (each an "ETF Party"). No ETF Party has passed on, or makes any representation, warranty, or guarantee, to the owners of the Instruments or any member of the public regarding, the suitability, advisability, results to be obtained, or legality, of investing in the Instruments, or as to the Instruments' descriptions, disclosures, or disclaimers. No ETF Party has any obligation or liability in connection with the operation, marketing, trading or sale of the Instrument. Third party trademarks are property of their respective owners.

NO ETF PARTY MAKES ANY WARRANTIES AND BEARS NO LIABILITY (WHETHER IN NEGLIGENCE OR OTHERWISE) WITH RESPECT TO THE INSTRUMENTS, OR ANY UNDERLYING ETF, INDEX, OR OTHER COMPONENT, (INCLUDING WITHOUT LIMITATION: THEIR QUALITY, ACCURACY, TIMELINESS, COMPLETENESS; FOR ERRORS, OMISSIONS, UNAVAILABILITY, OR INTERRUPTIONS THEREIN; AS TO MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE OR USE), OR FOR

ANY DIRECT, SPECIAL, PUNITIVE, INDIRECT, INCIDENTAL, CONSEQUENTIAL DAMAGES, OR LOST PROFITS.

(vii) Risks relating to Inflation Linked Instruments

A relevant consumer price index or other formula linked to a measure of inflation to which the Instruments are linked may be subject to significant fluctuations that may not correlate with other indices. Any movement in the level of the index may result in a reduction of the interest payable on the Instruments, and in the case of Instruments with a settlement/redemption amount linked to inflation, in a reduction of the amount payable on settlement/redemption which in some cases could be less than the amount originally invested.

The timing of changes in the relevant consumer price index or other formula linked to the measure of inflation comprising the relevant index or indices may affect the actual yield to investors on the Inflation Linked Instruments, even if the average level is consistent with their expectations.

An index to which interest payments on an Inflation Linked Instrument and/or the redemption amount of an Inflation Linked Instrument are linked is only one measure of inflation for the relevant jurisdiction, and such index may not correlate perfectly with the rate of inflation experienced by Holders in such jurisdiction.

(viii) Risks relating to Credit Linked Instruments

General risks relating to Credit Linked Instruments

The Issuers may issue Credit Linked Instruments where the amount payable is dependent upon whether certain events ("**Credit Events**") have occurred in respect of one or more Reference Entity/Entities and, if so, on the value of certain specified assets of such Reference Entity/Entities or where, if one or more Credit Events have occurred, on redemption the relevant Issuer's obligation is to deliver certain specified assets.

Holders of any such Credit Linked Instruments should be aware that depending on the terms of the Credit Linked Instruments (i) they may receive no or a limited amount of interest or additional amounts, (ii) the payment of the redemption amount, interest or additional amounts or delivery of any specified assets may occur at a different time than expected and (iii) they may lose all or a substantial portion of their investment.

The market price of Credit Linked Instruments may be volatile and will be affected by, amongst other things, the time remaining to the redemption date or settlement date, as applicable, prevailing credit spreads and the creditworthiness of the Reference Entity/Entities which in turn may be affected by the economic, financial and political events in one or more jurisdictions. Risks relating to Credit Linked Instruments may be correlated or compounded and such correlation and/or compounding may result in increased volatility in the value of such Instruments and/or in increased losses for holders of such Instruments.

Actions of Reference Entities (for example, merger or demerger or the repayment or transfer of indebtedness) may adversely affect the value of any Credit Linked Instruments. The views of market participants and/or legal counsel may differ as to how the terms of market standard credit default swaps, and the corresponding terms of any Credit Linked Instruments, should be interpreted in the context of such actions, or such terms may operate in a manner contrary to the expectations of market participants and/or adversely to the interests of holders of any Credit Linked Instruments. Holders of any Credit Linked Instruments should be aware that the Reference Entities to which the value of such Instruments are exposed, and the terms of such exposure, may change over the term of such Instruments. Reference Entities may not be subject to regular reporting requirements under Luxembourg securities laws and may report information in accordance with different disclosure and accounting standards. Consequently, the information available for such Reference Entities may be different from, and in some cases less than, the information available for entities that are subject to the reporting requirements under the Luxembourg securities laws. None of the relevant Issuer, the Guarantor (if applicable), the Calculation Agent and any of their respective affiliates make any representation as to the accuracy or completeness of any information available with respect to the Reference Entities.

Holders may be affected by Credit Events that occur before the Issue Date

Holders of Credit Linked Instruments may suffer a loss of some or all of their investment if one or more Credit Events occur on or after the Credit Event Backstop Date (which may fall prior to the Issue Date). None of the Calculation Agent, the relevant Issuer, the Guarantor (if applicable) and any of their respective affiliates has any responsibility to avoid or mitigate the effects of a Credit Event that has taken place prior to the Issue Date.

There may be increased risks associated with Nth-to-Default Instruments

Where the Credit Linked Instruments are Nth-to-Default Instruments, the relevant Credit Linked Instruments will be subject to redemption in full as described above upon the occurrence of a Credit Event in relation to the Nth Reference Entity in relation to which an Event Determination Date has occurred. With Nth-to-Default Instruments, the credit risk to holders of the Instruments may be increased as a result of, amongst other things, the concentration of Reference Entities in a particular industry sector or geographic area, or the exposure of the Reference Entities to similar financial or other risks.

There may be increased risks associated with Tranche Portfolio CLNs

If a Credit Event occurs in respect of a Reference Entity that results in an Incurred Loss Amount, the Outstanding Principal Amount of the Credit Linked Notes shall be reduced by the sum of the lesser of: (a) the Outstanding Principal Amount; and (b) the relevant Settlement Amount, which amount may be at a considerable discount to par and could be zero and interest will cease to accrue from the immediately preceding Interest Payment Date with respect to an amount equal to the relevant Settlement Amount with respect to such Reference Entity and Credit Event.

If following the occurrence of a Credit Event, the Outstanding Principal Amount of the Credit Linked Notes is reduced to zero, the Credit Linked Notes will be redeemed early. An investor therefore risks losing all of its principal and interest.

Further, if on an Interest Determination Date, the Calculation Agent determines that a potential Credit Event has occurred or a Credit Event has occurred which, in either case, could result in the determination of an Incurred Loss Amount, then interest shall be deferred in an amount which would have accrued on the Reference Entity Notional Amount of the relevant affected Reference Entity until the actual Settlement Amount can be determined and, in such cases, any interest which would have been paid had the relevant potential Credit Event or Credit Event been determined in the same Interest Period shall be paid on a deferred basis on the Interest Payment Date following the date on which the relevant Settlement Amount has been determined.

Since payment under the Credit Linked Notes is linked to the credit of the Reference Portfolio, Holders will be exposed to the credit risk of the Reference Entity to the full extent of the principal amount of their Credit Linked Notes. Holders will have no right to vote or exercise any other right or remedy with respect to any Reference Entity or any of its obligations.

The relevant Issuer, the Guarantor (if applicable), the Dealer(s) and the Calculation Agent have no duty to disclose use of non-public information with respect to any Reference Entity

The relevant Issuer, the Guarantor (if applicable), the Dealer(s), the Calculation Agent or any of their respective Affiliates may have acquired, or during the term of the Credit Linked Instruments may acquire, non-public information with respect to the Reference Entity/Entities that they may not disclose. Potential investors must therefore make an investment decision based upon their own due diligence and purchase the Credit Linked Instruments in the knowledge that non-public information which the relevant Issuer, the Guarantor (if applicable), the Dealer(s), the Calculation Agent or any of their respective Affiliates may have will not be disclosed to investors. None of the relevant Issuer, the Guarantor (if applicable), the Dealer(s), the Calculation Agent and any of their respective Affiliates is under any obligation (i) to review on the Holders' behalf, the business, financial conditions, prospects, creditworthiness, status or affairs of the Reference Entity/Entities or conduct any investigation or due diligence into the Reference Entity/Entities or (ii) other than as may be required by applicable rules and regulations relating to the Credit Linked Instruments, to make available (a) any information relating to the Instruments or (b) any non-public information they may possess in respect of the Reference Entity/Entities.

An investor has no rights with respect to the Reference Entity in respect of any Credit Linked Instruments

None of the Issuer, the Guarantor (if applicable) or the Dealer have the ability to control or predict the actions of the Reference Entity, including actions that could affect the value of any Credit Linked Instruments. No amounts paid with respect to the Credit Linked Instruments will be paid to the Reference Entity; the Reference Entity will not be involved in the offering of the Credit Linked Instruments in any way; and the Reference Entity will not have any obligation to consider any investor's interest as a Holder of the Credit Linked Instruments in taking any actions that might affect the value of the Credit Linked Instruments. As a Holder of the Credit Linked Instruments, an investor will not have voting rights, rights to receive distributions or any other rights or remedies with respect to any obligations of the Reference Entity.

A Credit Event may occur even if the relevant Issuer does not suffer any loss

The relevant Issuer's obligations in respect of Credit Linked Instruments are irrespective of the existence or amount of the relevant Issuer's and/or any Affiliates' credit exposure to a Reference Entity and the relevant Issuer and/or any Affiliate need not suffer any loss nor provide evidence of any loss as a result of the occurrence of a Credit Event.

Risks relating to Physical Settlement

Where the Credit Linked Instruments provide that the applicable Settlement Method is "Physical Settlement", or a Fallback Settlement Event has occurred and the Fallback Settlement Method is "Physical Settlement", the relevant Issuer may determine that the specified assets to be delivered are either (a) assets which (i) for any reason (including, without limitation, failure of the relevant clearing system or due to any law, regulation, court order or market conditions or the non-receipt of any requisite consents with respect to the Delivery of assets which are loans) it is impossible or illegal to deliver on the specified settlement date or (ii) it is impracticable to Deliver on the specified settlement date because (1) the relevant holder(s) has not taken any action that is deemed necessary by the Calculation Agent to enable such Delivery or (2) the holder(s) has failed to provide know-your-customer information sign and deliver relevant transfer documentation and/or confidentiality agreement, pay a fee to the agent to effect the transfer and/or provide any other information or documentation or make any other payment (including taxes) specified under the terms of the relevant specified asset or as is customary to provide in respect of such specified asset or (b) assets which the relevant Issuer and/or any Affiliate and/or agent has not received under the terms of any transaction and/or trading position entered into by the relevant Issuer and/or such Affiliate and/or agent to hedge the relevant Issuer's obligations in respect of the Credit Linked Instruments.

Any such determination may delay settlement in respect of the Credit Linked Instruments and/or cause the obligation to deliver such specified assets to be replaced by an obligation to pay a cash amount which, in either case, may affect the value of the Credit Linked Instruments and, in the case of payment of a cash amount, will affect the timing of the valuation of such Credit Linked Instruments and as a result, the amount payable on redemption. Potential investors should review the relevant Conditions and the applicable Final Terms to ascertain whether and how such provisions should apply to the Credit Linked Instruments.

In the case of Physical Settlement, where the Reference Obligation is a loan, in order for the Delivery of the loan (or an interest in the loan) to be effected, the Reference Obligation must be capable of being transferred to the Holder in accordance with its terms and the Holders must have the capacity to hold such loan (or loan interest).

In the event that a Governmental Intervention Credit Event or certain Restructuring Credit Events which, in each case, constitute an Asset Package Credit Event occurs, the assets that may be delivered to the Holders may include the Asset Package received or retained by a Relevant Holder in place of the Prior Deliverable Obligation or Package Observable Bond in connection with such Asset Package Credit Event. Such Asset Package may be comprised of illiquid assets and/or may be worth significantly less than the original Prior Deliverable Obligation or Package Observable Bond prior to such Asset Package Credit Event. If the Relevant Holder is offered, receives and retains nothing, the Asset Package shall be deemed to be zero. In these circumstances, Holders may lose all or a substantial portion of their investment.

Risks relating to Cash Settlement

If the applicable Settlement Method is "Cash Settlement", or a Fallback Settlement Event has occurred and the Fallback Settlement Method is "Cash Settlement", then, following the occurrence of a Credit Event, the Calculation Agent will be required to seek quotations in respect of selected obligations of the affected Reference Entity. Such quotations may not be available, or the level of such quotations may be substantially reduced as a result of illiquidity in the relevant markets or as a result of factors other than the credit risk of the affected Reference Entity (for example, liquidity constraints affecting market dealers). Accordingly, any quotations so obtained may be significantly lower than the value of the relevant obligation which would be determined by reference to (for example) the present value of related cashflows. Quotations may be deemed to be zero in the event that no such quotations are available. This could result in a lower or zero recovery rate for investors in such Instruments.

If the relevant Issuer has discretion to choose the portfolio of obligations to be valued or delivered following a Credit Event in respect of a Reference Entity, it is likely that the portfolio of obligations selected will be obligations of the Reference Entity with the lowest market value that are permitted to be selected pursuant to the terms of any relevant Credit Linked Instruments. This could result in a lower recovery value and hence greater losses for investors in such Instruments.

Risks relating to Auction Settlement

If, in relation to any Credit Linked Instruments, "Auction Settlement" is applicable, and a Credit Derivatives Determinations Committee publishes auction settlement terms in respect of a Reference Entity (and the relevant seniority of the Reference Obligation), then the Calculation Agent will determine the Auction Settlement Amount in accordance with such auction settlement terms. The losses determined pursuant to a market auction process may be greater than the losses which would have been determined in the absence of the auction. In particular, the auction process may be affected by technical factors or operational errors which would not otherwise apply or may be the subject of actual or attempted manipulation. Auctions may be conducted by ISDA or by a relevant third party. None of the Calculation Agent, the relevant Issuer, the Guarantor (if applicable) and any of their respective affiliates has any responsibility for verifying that any auction price is reflective of current market values for establishing any auction methodology or for verifying that any auction has been conducted in accordance with its rules. If the Dealer, the relevant Issuer, the Guarantor (if applicable), the Calculation Agent or any of their respective Affiliates participates in any auction for the purposes of such an auction, then it will do so without regard to the interests of the holders of the Credit Linked Instruments. Such participation may have a material effect on the outcome of the relevant auction. Where the terms of any Credit Linked Instruments state "M(M)R Restructuring" to be applicable and the relevant Credit Event is an M(M)R Restructuring, several concurrent but separate Auctions may occur with respect to such Reference Entity and such Credit Event. In certain circumstances, the relevant Issuer may apply specific Parallel Auction Settlement Terms notifying Holders of the relevant Instruments. The Auction Final Price may be based on one or more obligations of the Reference Entity having a final maturity date different from the Restructured Bond or Loan and this may affect the Auction Settlement Amount determined in respect of the Credit Linked Instruments. In the event of a Governmental Intervention Credit Event or certain Restructuring Credit Events which constitute an Asset Package Credit Event, the Auction Final Price may be determined by reference to the value of the Asset Package received or retained by a Relevant Holder in place of the Prior Deliverable Obligation or Package Observable Bond in connection with such Asset Package Credit Event. Such Asset Package may be worth significantly less than the original Package Observable Bond prior to such Asset Package Credit Event and may result in a significantly lower Auction Settlement Amount being payable to the Holders than would have been the case following the relevant Credit Event had the Auction Final Price been determined only by reference to Deliverable Obligations.

Settlement of Credit Linked Instruments may not occur until six months or more after a Credit Event

In accordance with the Credit Linked Note Conditions and Credit Linked W&C Conditions, settlement of Credit Linked Instruments may occur up to six months or more after a Credit Event. The date for settlement will be determined in accordance with the Credit Linked Note Conditions, Credit Linked W&C Conditions and the relevant Final Terms. During this period holders will be exposed to settlement risk (including, without limitation, credit risk of the Issuer and, other than in the case of Secured Instruments, the Guarantor, liquidity risk, legal risk and certain market risks). See risk factors "*Risk Factors Relating to the Relevant Issuer's and (with respect to the Instruments other than Secured*

Instruments) the Guarantor's Ability to Fulfil Their Respective Obligations Under the Relevant Instruments", "Risk Factors Relating to BAC and the Group and to the Group's Businesses and Industry" and "Risks Relating to the Market Generally" above for further detail on these dimensions of settlement risk.

Unwind costs may be deducted from the amounts payable to Holders of Credit Linked Instruments

Investors should note that amounts paid or delivered in respect of any Credit Linked Instruments may take into account Unwind Costs which are determined by the Calculation Agent to be equal to all costs, expenses, taxes and duties, incurred by the relevant Issuer and/or any of its Affiliates and/or agents in connection with the redemption or cancellation of the Credit Linked Instruments and the related termination, settlement or re-establishment of any hedge or related trading position.

The determinations of the Calculation Agent are binding on Holders

The determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent shall (in the absence of manifest error) be final and binding on the relevant Issuer, the Guarantor (if applicable) and the holders. In performing its duties pursuant to the Credit Linked Instruments, the Calculation Agent shall act in its sole and absolute discretion. In making any determinations expressed to be made by it, for example as to substitute Reference Obligations or Successors, the Calculation Agent is under no obligation to consider the interests of the relevant Issuer, the Guarantor (if applicable) or the Holders. If the Final Terms specify that "Calculation Agent Determination" is applicable, the relevant Issuer and the Calculation Agent may, but will not be required to apply any DC Resolution to any Credit Linked Instruments unless the Calculation Agent notifies the relevant Issuer that any DC Resolution shall apply to such Credit Linked Instruments.

Holders should note that the Calculation Agent may modify the terms of any Credit Linked Instruments without the consent of the Holders of such Instruments to account for any DC Resolution.

Risks relating to the Credit Derivatives Determinations Committees

The institutions represented on the Credit Derivatives Determinations Committee owe no duty to the holders of Credit Linked Instruments and have the ability to make determinations that may materially affect the holders of Credit Linked Instruments. The Credit Derivatives Determinations Committee will be able to make determinations without action or knowledge of the holders of Credit Linked Instruments. Holders of Credit Linked Instruments will have no role in the composition of the Credit Derivatives Determinations Committee. Separate criteria apply with respect to the selection of dealer and non-dealer institutions to serve on the Credit Derivatives Determinations Committee and the holders of Credit Linked Instruments will have no role in establishing such criteria. In addition, the composition of the Credit Derivatives Determinations Committee will change from time to time in accordance with the DC Rules, as the term of an institution may expire or an institution may be required to be replaced. To the extent applicable, the Credit Linked Instruments will be subject to the determinations made by such selected institutions in accordance with the DC Rules.

Holders of Credit Linked Instruments will have no recourse against either the institutions serving on the Credit Derivatives Determinations Committee or any external reviewers. Institutions serving on the Credit Derivatives Determinations Committee and the external reviewers, among others, disclaim any duty of care or liability arising in connection with the performance of duties or the provision of advice under the DC Rules, except in the case of gross negligence, fraud or wilful misconduct. Furthermore, the institutions on the Credit Derivatives Determinations Committee do not owe any duty to the holders of Credit Linked Instruments and the holders of Credit Linked Instruments will be prevented from pursuing claims with respect to actions taken by such institutions under the DC Rules.

Holders of Credit Linked Instruments should also be aware that institutions serving on the Credit Derivatives Determinations Committee have no duty to research or verify the veracity of information on which a specific determination is based. In addition, the Credit Derivatives Determinations Committee is not obligated to follow previous determinations and, therefore, could reach a conflicting determination on a similar set of facts. If the relevant Issuer, the Guarantor (if applicable) or the Calculation Agent or

any of their respective Affiliates serve as a member of the Credit Derivatives Determinations Committee at any time, then they will act without regard to the interests of the holders of Credit Linked Instruments.

Holders of Credit Linked Instruments are responsible for obtaining information relating to deliberations of the Credit Derivatives Determinations Committee. Notices of questions referred to the Credit Derivatives Determinations Committee, meetings held to deliberate such questions and the results of binding votes will be published on the ISDA website and none of the relevant Issuer, the Guarantor (if applicable), the Calculation Agent and any of their respective affiliates shall be obliged to inform the holders of Credit Linked Instruments of such information (other than as expressly provided in respect of such Instruments).

Holders of Credit Linked Instruments should also be aware that following the occurrence of a Credit Event Resolution Request Date in respect of a Reference Entity, any obligation of the relevant Issuer to redeem or cancel or otherwise settle any such Instruments or pay any amount in respect thereof may be suspended until the occurrence of a DC Credit Event Announcement, a DC No Credit Event Announcement or a DC Credit Event Question Dismissal.

Risks relating to the Physical Settlement Matrix

Holders of Credit Linked Instruments should be aware that the terms applicable to each Reference Entity incorporate the terms of the Physical Settlement Matrix for the Transaction Type specified in respect of such Reference Entity.

Risks relating to Short Credit Linked W&C Instruments

Holders of Short Credit Linked W&C Instruments should be aware that under the terms of such Credit Linked Instruments the Holders are purchasing credit protection on the relevant Reference Entity/Entities and consequently they may only receive a payout where such Short Credit Linked W&C Instruments are exercised following the occurrence of a Credit Event. If no Credit Event occurs during the life of the Short Credit Linked W&C Instruments then such Short Credit Linked W&C Instruments shall expire worthless unless otherwise provided in the terms of such Short Credit Linked W&C Instruments. In certain circumstances where an M(M)R Restructuring Credit Event has occurred, Holders may be entitled to deliver a Credit Event Notice to the relevant Issuer. None of the relevant Issuer, the Guarantor, the Calculation Agent and any of their respective affiliates shall have any obligation to inform the Holders at any time when they may be entitled to deliver such Credit Event Notice.

Risks relating to amendments in accordance with market convention or otherwise

Calculation Agent's powers to amend terms without Holders' consent

Holders should note that the Calculation Agent may (but shall not be obliged to) from time to time, without obtaining their consent or consulting them:

- (i) amend fundamental credit-linked provisions (including but not limited to the applicable Transaction Type, Credit Events, Deliverable Obligation Category, Deliverable Obligation Characteristics and deliverability, Reference Obligation, Successor and other provisions) in the Credit Linked Note Conditions and Credit Linked W&C Conditions or other provisions of the Instruments to correspond with those specified as applicable for a particular Reference Entity in the most recently published ISDA Credit Derivatives Definitions, ISDA Credit Derivatives Physical Settlement Matrix version, SRO List and/or prevailing trading standards applicable to such Reference Entity;
- (ii) amend any provision of the Credit Linked Note Conditions, Credit Linked W&C Conditions or the Instruments to incorporate and/or reflect further or alternative documents from time to time published by ISDA with respect to credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees which the Calculation Agent determines are necessary to reflect market practice for credit derivative transactions; and/or
- (iii) in circumstances where a Reference Entity has proposed an exchange of all or substantially all of the obligations of such Reference Entity into cash, securities and/or other assets, elect to make certain amendments to any provision of the Credit Linked Note Conditions, the Credit Linked

W&C Conditions or the Instruments to reflect or account for such exchange, regardless of the credit derivatives definitions or trading standards applicable to such Reference Entity, as set out in Credit Linked Note Condition 26 (*Change in Market Convention*) and Credit Linked W&C Condition 24 (*Change in Market Convention*).

(ix) **Risks relating to Saudi Share Linked Warrants**

No issuer of the relevant Share(s) will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Saudi Share Linked Warrants

No issuer of the relevant Share(s) will have participated in the preparation of the applicable Final Terms or in establishing the terms of the Saudi Share Linked Warrants and none of MLBV, the Guarantor and any Dealer will make any investigation or enquiry in connection with such offering with respect to any information concerning any such issuer of Shares contained in such Final Terms or in the documents from which such information was extracted. Neither MLBV nor the Guarantor controls any issuer of the relevant Share(s) or is responsible for any disclosure made by any issuer of the relevant Share(s). Consequently, there can be no assurance that all events occurring prior to the relevant issue date (including events that would affect the adequacy, accuracy or completeness of the publicly available information described in this paragraph or in any applicable Final Terms) that would affect the trading price of the relevant Share(s) will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning such an issuer of relevant Share(s) could affect the trading price of the Share(s) and therefore the trading price of the Saudi Share Linked Warrants or amounts paid or delivered under the Saudi Share Linked Warrants.

Exposure to value of Shares and notional liquidation of the Shares over a valuation period

Saudi Share Linked Warrants are issued at a price linked to the value of the underlying Shares on particular trading days during a fixing period. On settlement a Holder will not receive the principal amount of its investment but instead will receive an amount calculated as the weighted average sale price of the Shares over a valuation period commencing on the Valuation Date (or such other price as may be specified in the applicable Final Terms) less deductions for local taxes (if any) and other costs which would have been incurred had the Shares been held by a Saudi resident investor directly and less deductions for any other taxes and costs associated with MLBV's hedging position. The valuation period will be the number of days commencing on/and including the valuation date that would have been required for a holder of the Shares to complete the sale of the equivalent position on the securities exchange on which such Shares are primarily traded. Depending on the performance of the Shares, the value of the Shares at settlement may be substantially lower than when the Saudi Share Linked Warrants were initially purchased. There is no assurance that the Cash Settlement Amount on settlement will be equal to or more than the purchase price of the Saudi Share Linked Warrants. In the worst case, the Saudi Share Linked Warrants may settle at zero, exposing investors to the full loss of their initial investment. If investors have any doubt on the risk level implied, they should consult a professional investment adviser. Further, generally returns to investors in Saudi Share Linked Warrants will be payable in U.S. Dollars or another currency other than the currency in which the Shares are denominated. Changes in the rate of exchange between the currency in which the underlying Shares are denominated and that in which returns are payable to Holders will affect the return to investors. See "Exposure to changes in the rate of exchange between the currency of the Shares and Settlement Currency" below.

Factors affecting the performance of Shares may adversely affect the value of the Saudi Share Linked Warrants

The performance of Shares is dependent upon macroeconomic factors, such as interest and price levels on the capital markets, currency developments, political factors and company-specific factors such as earnings position, market position, risk situation, shareholder structure and distribution policy. These factors are not within MLBV's or the Guarantor's control and may result in a decline in the value of the Saudi Share Linked Warrants. Neither MLBV nor the Guarantor makes any representation or warranty about, or guarantee of, the performance of the Shares. Past performance of the Shares cannot be considered to be either a guarantee of, or necessarily a guide to, future performance. The value of the Shares may go down as well as up during the term of the Saudi Share Linked Warrants. Saudi Share Linked Warrants are linked to Shares listed in an emerging market which may make the Shares less liquid and more volatile than investments in more established markets. See "Risks relating to Instruments which are linked to emerging market Reference Item(s)" above.

Exposure to changes in the rate of exchange between the currency of the Shares and Settlement Currency

Where the currency of the Shares is different from that of the Settlement Currency, Holders of Saudi Share Linked Warrants linked to such Shares may be exposed not only to the performance of the Shares but also to the performance of the relevant foreign currency of the Shares, which cannot be predicted. Saudi Share Linked Warrants may be linked to the Saudi Arabian Riyal which may experience volatility and uncertainty as to its future levels or its rate of exchange as against other currencies (including the Settlement Currency). See "Risks relating to Instruments which are linked to emerging market Reference Item(s)" and "Factors affecting the performance of the relevant foreign exchange rate may adversely affect the value of the Instruments" above.

Holdings have no claim against the issuer of the relevant Share(s) or recourse to the Shares or the Hedge Positions

Saudi Share Linked Warrants do not represent a claim against or an investment in any issuer of the relevant Share(s) and investors will not have any right of recourse under the Saudi Share Linked Warrants to any such company or the Shares or MLBV's Hedge Positions. Saudi Share Linked Warrants are not in any way sponsored, endorsed or promoted by any issuer of the relevant Share(s) and such companies have no obligation to take into account the consequences of their actions for any Holders. Accordingly, the issuer of a Share may take any actions in respect of such Share without regard to the interests of the investors in the Saudi Share Linked Warrants, and any of these actions could adversely affect the market value of the Saudi Share Linked Warrants.

Determinations made by the Calculation Agent in respect of Potential Adjustment Events, Merger Events, Tender Offers, De-listings, Nationalisations, Insolvencies and Additional Disruption Events may have an adverse effect on the value of the Saudi Share Linked Warrants

Upon determining that a Potential Adjustment Event, Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency or Additional Disruption Event has occurred in relation to an underlying Share or Share Company, the Calculation Agent has broad discretion to make certain determinations to account for such event including to (i) make adjustments to the terms of the Saudi Share Linked Warrants, (ii) distribute additional Instruments or cash payments to Holders and/or (iii) (in the case of a Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency or Additional Disruption Event) cause early settlement of the Saudi Share Linked Warrants, any of which determinations may have an adverse effect on the value of the Saudi Share Linked Warrants.

Potential Adjustment Events include (a) a sub-division, consolidation or re-classification of the Shares, (b) an extraordinary dividend, (c) a call of the Shares that are not fully paid, (d) a repurchase by the issuer, or an affiliate thereof, of the Shares, (e) a separation of rights from the Shares or (f) any event having a dilutive or concentrative effect on the value of the Shares. Additional Disruption Events include (a) a trading failure and (b) if specified to be applicable in the applicable Final Terms, (i) a change in applicable law since the Trade Date that makes it (A) illegal to hold, acquire or dispose of the Shares or (B) more expensive for MLBV to hedge its obligations under the relevant Saudi Share Linked Warrants, (ii) an insolvency filing by or on behalf of any issuer of the relevant Share(s) and/or (iii) a disruption or increased cost of hedging.

Holdings will have no voting rights in respect of the relevant Shares

Holders of Saudi Share Linked Warrants will not have voting rights or any other rights with respect to the relevant Shares to which such Saudi Share Linked Warrants relate.

(x) Risks relating to Secured Instruments

Holdings of Secured Instruments do not have recourse to the Guarantees

The Secured Instruments will be limited recourse obligations of MLBV secured by a separate Collateral Pool for each Series and will not be obligations or responsibilities of, or guaranteed by, the Guarantor or any other person or entity. Therefore a Holder of Secured Instruments will not be able to claim under the terms of the Guarantees against the Guarantor for any unpaid amounts and any such shortfall will not constitute an unsecured claim by such Holder of Secured Instruments against the Guarantor.

Limitations of the Security Interest under each Deed of Charge

The security granted by the Secured Instruments Collateral Provider under each Deed of Charge is a security interest over (i) the Collateral Account in which the Collateral Assets are held (although investors should note the remaining provisions of this section relating to Collateral Assets held through a clearing system) and does not extend to any interest or distributions paid on such Collateral Assets (to the extent such amounts are not held in the relevant Collateral Account) and (ii) the Secured Instruments Collateral Provider's rights under the Charged Documents, to the extent those rights relate to the relevant Series of Secured Instruments.

No security interest will be granted by the Secured Instruments Collateral Provider over any of its rights under any agreement under which it acquires any Collateral Assets (including, without limitation, any hedging agreements). This means that the Security Agent will not have the ability to compel the Secured Instruments Collateral Provider to enforce its rights (or to enforce such rights on behalf of the Secured Instruments Collateral Provider) under any agreement against a counterparty to such agreement.

The Collateral Assets will be secured in favour of the Secured Parties pursuant to a fixed charge which is intended to create a security interest in the Collateral Assets in favour of the Secured Parties to secure MLBV's obligations in respect of the relevant Series of Secured Instruments. However, where the Collateral Assets are held through a clearing system (either directly or through a sub-custodian), the interests which the Collateral Agent will hold and which are traded in the clearing system are not the physical Collateral Assets themselves but a series of contractual rights against such clearing system. These rights consist of (a) the Collateral Agent's rights as a participant against the clearing system, (b) the rights of the clearing system against the common depository and (c) the rights of the common depository against the Secured Instruments Collateral Provider of the Collateral Assets. As a result, where the Collateral Assets are held in a clearing system, the security in respect of a Series of Secured Instruments may take the form of an assignment of the Secured Instruments Collateral Provider's rights against the Collateral Agent under the relevant Triparty Account Control Agreement rather than a charge over the Collateral Assets themselves.

A court may characterise the security created under a Deed of Charge as a floating charge rather than a fixed charge

Notwithstanding that the Collateral Provider purports to create a "fixed" charge over the collateral under the Deed of Charge, there is a risk that a court would characterise it as a "floating" charge. The distinction between a fixed charge and a floating charge depends on a number of factors, including the extent of the control exercised over the collateral by the collateral taker. It is a mixed question of fact and law. If a fixed charge is recharacterised as floating charge, the claims of (a) the unsecured creditors of the Collateral Provider in respect of that part of the chargor's net property which is ringfenced under the Insolvency Act 1986 (the "**Insolvency Act**") and (b) certain statutorily defined preferential creditors of the Collateral Provider, would have priority over the rights of the Security Agent to the proceeds of enforcement of the relevant Collateral Assets. As a result, the full amount of the proceeds of enforcement of the relevant Collateral Assets may not be available to pay holders of the Secured Instruments, resulting in a loss for investors.

A failure to register the security created under a Deed of Charge could mean that it is void against a liquidator, administrator or creditor of the Secured Instruments Collateral Provider

In accordance with section 859A of the Companies Act 2006, relevant particulars of the Deed of Charge (together with a certified copy of the relevant instrument) must be delivered to the Registrar of Companies for registration within 21 days beginning with the date after the day on which the relevant security is created, failing which the security will be void against a liquidator, administrator and any creditor of the Secured Instruments Collateral Provider, except where the Deed of Charge constitutes a "financial collateral arrangement" under the Financial Collateral Arrangements (No. 2) Regulations 2003 (the "**Financial Collateral Regulations**"), in which case the registration requirement is disapplied pursuant to the Financial Collateral Regulations. Uncertainty in respect of the meaning of key terms in the Financial Collateral Regulations including "possession" and "control" means that there is a legal risk that a court would not characterise the security granted under the Deed of Charge as a financial collateral arrangement. If the Deed of Charge were not to be registered in accordance with section 859A of the Companies Act and did not constitute a financial collateral arrangement under the Financial Collateral Regulations, investors would be exposed to the potentially severe consequences of a failure to register.

Holders are exposed to the operational risks related to the collateral arrangements and the structure of the Collateral Accounts

The Collateral Agent may, to the extent permitted in accordance with the terms of the Custodian Agreement and the relevant Triparty Account Control Agreement entered into with the Secured Instruments Collateral Provider, hold certain cash and/or securities sub-accounts with other custodial entities ("**sub-custodians**"). Collateral Assets which, pursuant to the terms of the Secured W&C Instruments Conditions, the Custodian Agreement and the relevant Triparty Account Control Agreement, are to be held with the Collateral Agent in a Collateral Account may therefore in practice be held by the Collateral Agent in sub-accounts with sub-custodians. Where the Collateral Assets are held by a sub-custodian on behalf of the Collateral Agent, they will be held pursuant to separate agreements which may vary in relation to any particular sub-custodian and which may not be governed by English law. Security interests in respect of the Collateral Assets also may be created pursuant to separate agreements which may not be governed by English law. A sub-custodian, securities depository or clearing system may have a lien or rights of set-off with respect to the Collateral Assets held with them in relation to any of their fees and/or expenses. If such fees and/or expenses are not paid, such sub-custodian, securities depository or clearing system may exercise such lien or rights of set-off and this may adversely affect the amounts that are available for distribution to Holders.

The Collateral Agent shall exercise reasonable care in selecting and continuing to use a sub-custodian in each relevant country in light of customary or established rules, practices and procedures then prevailing in each such country, but shall otherwise have no responsibility with respect to the performance by such sub-custodian (other than a sub-custodian that is an affiliate of the Collateral Agent) of its duties or in the event of its insolvency or dissolution. Accordingly, a Holder of Secured Instruments will be exposed to, amongst other things, the risk of any potential operational disruption or any other adverse impact related to the Collateral Agent and any sub-custodian (including disruption caused by any insolvency proceedings which may be commenced in respect of the Collateral Agent and/or any such sub-custodians).

Neither MLBV nor any Holder shall be entitled to enforce a Triparty Account Control Agreement or the Custodian Agreement or to proceed directly against the Collateral Agent or the Custodian to enforce the terms of the relevant Triparty Account Control Agreement or the Custodian Agreement, as applicable. Neither the Collateral Agent nor the Custodian has any liability to MLBV or any Holder as to the consequence of any actions taken by the Collateral Agent or Custodian, as applicable.

The Collateral Assets may be insufficient to pay all amounts due to Holders of the Secured Instruments

The security provided for a Series of Secured Instruments is limited to the Collateral Assets constituting the Collateral Pool applicable to such Series. The amount of Collateral Assets constituting such Collateral Pool will depend on, amongst other things, in respect of the Secured Instruments issued (a) under the Additional Terms and Conditions for Secured Static/Floating Instruments set out in Annex 13 of the Offering Circular ("**Secured Static/Floating Instruments Conditions**"), the MTM Collateral Specified Percentage and the Static Collateral Specified Percentage specified in the applicable Final Terms and (b) under the Additional Terms and Conditions for Secured Fully Floating Instruments set out in Annex 14 to the Offering Circular ("**Secured Fully Floating Instruments Conditions**"), the Collateralisation Percentage specified in the applicable Final Terms and/or whether or not "Collateral Valuation at Nominal Value" is specified in the applicable Final Terms. There is no guarantee that the Collateral Assets will be sufficient to ensure that, following enforcement of a Deed of Charge, the amounts available for distribution or the value of the Collateral Assets available to be delivered by the Security Agent will be sufficient to pay all amounts due to a Holder of Secured Instruments in respect of the relevant Series of Secured Instruments (see "*Shortfall on Realisation of Collateral Assets and Limited Recourse of Holders of Secured Instruments*"). In addition the claim of a Holder of Secured Instruments may differ from the value of the Collateral Assets due to the application and distribution of proceeds on enforcement in accordance with the Order of Priority specified in the applicable Final Terms or if Collateral Assets are liquidated and realised by the Security Agent or the Disposal Agent on its behalf rather than being physically delivered due to a Physical Delivery of Collateral Assets Disruption Event (see Secured Static/Floating Instruments Conditions 6.7 and 6.10 and Secured Fully Floating Instruments Conditions 6.6 and 6.9).

A lack of diversification of Collateral Assets in a Collateral Pool may impact the value of the Collateral Assets

If the Secured Static/Floating Instruments Conditions apply to a Series of Secured Instruments, the Collateral Assets in the Collateral Pool on which such Series of Secured Instruments are secured in respect of (a) the MTM Collateral Assets, may be limited to one or a few assets or types of assets depending on the relevant Eligibility Criteria, and (b) the Static Collateral Assets, if comprising of a single debt security, will be limited to one type of asset or, if comprising of a basket of debt securities, will be limited to a few assets of the same type.

If the Secured Fully Floating Instruments Conditions apply to a Series of Secured Instruments, the Collateral Assets in the Collateral Pool on which the Series of Secured Instruments are secured may be limited to one or a few assets or types of assets depending on the relevant Eligibility Criteria.

Low diversification of Collateral Assets in a Collateral Pool may increase the risk that the value of Collateral Assets deliverable on early redemption or early settlement (if physical settlement is applicable) and that the proceeds of realisation of the Collateral Assets may be less than the sums due to the relevant Holder of Secured Instruments under the relevant Secured Instruments. If the Collateral Pool is comprised of a limited number of different types of assets, any depreciation in the value of such assets and the realisation or delivery, as the case may be, of the Collateral Assets in the corresponding Collateral Pool will have a proportionally larger impact on any shortfall as the amount recovered in respect of the Collateral Assets on their sale will be dependent on the then-current market value of a smaller range of Collateral Assets.

None of MLBV, the Secured Instruments Collateral Provider, the Security Agent or the Collateral Agent is under any obligation to ensure that any relevant Eligibility Criteria provide for the diversification of Collateral Assets in a Collateral Pool.

Collateral Assets may be illiquid

Depending on the relevant Eligibility Criteria, certain of the Collateral Assets may not be admitted to trading on any public market and may be illiquid and not easily realisable in certain market circumstances. Where there is limited liquidity in the secondary market relating to Collateral Assets, in the event of enforcement the Security Agent, or the Disposal Agent on its behalf, may not be able to readily sell such Collateral Assets to a third party or may only be able to sell such Collateral Assets at a discounted value.

Potential correlation between the value of the Collateral Assets and the creditworthiness of certain entities

Depending on the Eligibility Criteria applicable to a Series of Secured Instruments, the Collateral Assets relating to such Series could be composed of assets whose value may be positively correlated with the creditworthiness of MLBV and the Secured Instruments Collateral Provider in that adverse economic factors which apply to one may apply to the others, or the default or decline in the creditworthiness of one may itself adversely affect the others.

Where the value of the Collateral Assets is positively correlated with the creditworthiness of MLBV and the Secured Instruments Collateral Provider, for example where the Collateral Assets consist of securities (such as debt or equities) issued by other financial institutions, a default by MLBV in relation to its obligations under the Secured Instruments may be associated with a fall in the value of Collateral Assets securing such Secured Instruments.

Difference between the calculation of Marked-to-Market Derivative Hedge Value and Secured Instrument Market Value and calculation of a Secured Instrument's value for other purposes

The Marked-to-Market Derivative Hedge Value is the market value of the Derivative Hedge in respect of the Secured Instruments to which the Secured Static/Floating Instruments Conditions apply, as determined by the Secured Instruments Valuation Agent as the present value of the future payment obligations of the Issuer under such Secured Instruments minus the present value of the future cash flows of the Static Collateral Assets that secure such Secured Instruments, taking into account such factors as the Secured Instruments Valuation Agent considers to be appropriate in its discretion, including without limitation:

- (a) spot and forward market prices or values for the underlying asset(s) of the Derivative Hedge and other relevant economic variables (including, without limitation, interest rates and, if applicable, exchange rates) at the relevant time;
- (b) the correlation between the market prices or value of the underlying asset(s) of the Derivative Hedge and other relevant economic variables at the relevant time;
- (c) historic and implied volatility of the market prices or value of the underlying asset(s) of the Derivative Hedge;
- (d) the remaining time until expiry of the Derivative Hedge;
- (e) internal pricing models;
- (f) prices at which other market participants might bid for options or other instruments similar to the Derivative Hedge; and
- (g) the valuation using relevant economic variables of the cash flows and/or coupon payments of the Static Collateral Assets that secure such Secured Instruments.

The Derivative Hedge hedges part of MLBV's payment obligations under the Secured Instruments. However, there may be a difference between the sum of the Marked-to-Market Derivative Hedge Value plus the nominal amount of the Secured Instruments and the value of the Secured Instrument as determined for other purposes, including, without limitation, any determination as to its Cash Settlement Amount.

The Secured Instrument Market Value is the market value of the relevant Secured Instrument to which the Secured Fully Floating Instruments Conditions apply, which will take into account MLBV's creditworthiness and will be determined by the Secured Instruments Valuation Agent by reference to such factors as the Secured Instruments Valuation Agent considers to be appropriate including, without limitation:

- (a) market prices or values for any underlying asset(s) to which the Secured Instruments are linked and other relevant economic variables (such as interest rates and, if applicable, exchange rates) at the relevant time;
- (b) the remaining term of the Secured Instruments until their scheduled maturity and final redemption or scheduled exercise and final settlement, as applicable;
- (c) internal pricing models; and
- (d) prices at which other market participants might bid for securities similar to the Secured Instruments.

There may be a difference between the Secured Instrument Market Value and the value of the Secured Instrument as determined for other purposes, including, without limitation, any determination as to its Cash Settlement Amount.

The value of the Collateral Assets in a Collateral Pool may decline prior to any adjustment

If the Secured Static/Floating Instruments Conditions apply to a Series of Secured Instruments, on each Collateral Test Date, the Collateral Agent shall verify whether (a) the Pool Aggregate Nominal Amount is greater than or equal to the Static Collateral Specified Percentage of the Required Static Collateral Nominal Amount for a Collateral Pool (the "**Static Collateral Test**") and (b) the Collateral Value is greater than or equal to the MTM Collateral Specified Percentage of the Required Collateral Value for a Collateral Pool (the "**MTM Collateral Test**").

If the Secured Fully Floating Instruments Conditions apply to a Series of Secured Instruments, on each Collateral Test Date, the Collateral Agent shall verify whether the Collateral Value is greater than or equal to the Required Collateral Value for a Collateral Pool (the "**Collateral Test**").

Where it is not possible to provide such verification or the Static Collateral Test, the MTM Collateral Test or the Collateral Tests, as applicable, are not met, the Secured Instruments Collateral Provider may be required to deliver, or procure the delivery of, additional or replacement Collateral Assets to the Collateral Account such that after such adjustment of Collateral Assets, the Static Collateral Test, the MTM Collateral Test or the Collateral Test, as applicable, will be satisfied. Prior to such adjustment, the Holders of Secured Instruments will be exposed to a decline in the Pool Aggregate Nominal Amount or the Collateral Value, as applicable, and there is also a risk that the Collateral Assets may not meet the relevant Eligibility Criteria.

Substitution of Collateral Assets may affect the value of the Collateral Assets in a Collateral Pool

If the Secured Static/Floating Instruments Conditions apply to a Series of Secured Instruments, the Secured Instruments Collateral Provider may withdraw and/or replace MTM Collateral Assets from any Collateral Account provided that following such adjustment the applicable MTM Collateral Test continues to be satisfied. Neither the Issuer nor the Secured Instruments Collateral Provider are entitled to withdraw and/or replace Static Collateral Assets, provided that the Secured Instruments Collateral Provider may withdraw from the relevant Collateral Account an aggregate nominal amount of Static Collateral Assets equal to (a) in respect of Secured Instruments that are Secured Notes, the total aggregate principal amount of Non-Waived Instruments that are converted into Waived Instruments or (b) in respect of Secured Instruments that are Secured W&C Instruments, the sum of the Notional Amount of each Non-Waived Instrument that is converted into a Waived Instrument, if, following such withdrawal, (x) the Collateral Test continues to be satisfied, and (y) if the Eligible Static Collateral Assets specified in the Final Terms are a Basket of Eligible Debt Securities, the aggregate nominal amount of each Eligible Debt Security is equal to the percentage weighting for each such Eligible Debt Security within the Basket of Eligible Debt Securities, as specified in the applicable Final Terms.

If the Secured Fully Floating Instruments Conditions apply to a Series of Secured Instruments, the Secured Instruments Collateral Provider may withdraw and/or replace Collateral Assets from any Collateral Account provided that following such adjustment the applicable Collateral Test continues to be satisfied.

The Secured Instruments Collateral Provider may give instructions for the substitution of MTM Collateral Assets or Collateral Assets, as applicable, any number of times over the term of the Secured Instruments and is not required to obtain the consent of any other party prior to effecting the proposed substitution of MTM Collateral Assets or Collateral Assets, as applicable. Until any further adjustments to the MTM Collateral Assets or Collateral Assets, as applicable, have occurred, the value of the MTM Collateral Assets or Collateral Assets held in a Collateral Account securing a Series of Secured Instruments may be less than it would have been were it not for the substitution of the MTM Collateral Assets or Collateral Assets, as applicable. Also, in spite of the contractual restrictions on the Secured Instruments Collateral Provider's ability to withdraw and/or replace MTM Collateral Assets, Static Collateral Assets and Collateral Assets, there are no practical restrictions on the Secured Instruments Collateral Provider's ability to withdraw assets from the scope of the security.

MLBV may early redeem or cancel and early settle the Secured Instruments upon a Collateral Disruption Event

Secured Instruments will be subject to Collateral Disruption Events, including, but not limited to: (a) the Secured Instruments Collateral Provider being unable to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) or futures or option contracts it deems necessary to obtain Collateral Assets, or (ii) freely realise, recover, remit, receive, re-patriate or transfer the proceeds of any such transaction(s) or asset(s) or futures or option contract(s) or any relevant hedge positions relating to the Collateral Assets; (b) the Secured Instruments Collateral Provider incurring a material increase in certain costs related to (a)(i) and (a)(ii); or (c) MLBV is unable to find a substitute or replacement Collateral Arrangement Party or Security Agent. This may increase the possibility (in comparison with Instruments which are not secured) of the Secured Instruments being early redeemed or cancelled and settled early. Upon the occurrence of a Collateral Disruption Event, MLBV may, in its sole and absolute discretion, redeem or cancel and settle, as applicable, all of the relevant Secured Instruments (a) in respect of Secured Instruments to which the Secured Static/Floating Instruments Conditions apply, at their Early Redemption/Settlement Amount (CDE) and, where Physical Delivery of Static Collateral Assets is specified to apply in the applicable Final Terms, deliver the Entitlement (CDE);

or (b) in respect of Secured Instruments to which the Secured Fully Floating Instruments Conditions apply, at their Early Redemption/Settlement Amount.

Further, following the early redemption or cancellation and early settlement, as applicable, of the Secured Instruments, a Holder of Secured Instruments may not be able to reinvest the redemption or settlement proceeds at an equivalent rate of return to the Secured Instruments being redeemed or settled and may only be able to do so at a significantly lower rate or in worse investment conditions. Potential investors should consider reinvestment risk in light of other available investments at the time they contemplate investing in Secured Instruments.

The Secured Instruments will be automatically early redeemed or cancelled and settled early upon a Collateral Trigger Event

Under the Secured Static/Floating Instruments Conditions, if "Collateral Trigger Event" is specified to be applicable in the applicable Final Terms, the relevant Secured Instruments will be subject to early redemption or cancellation following the occurrence of a Collateral Trigger Event. The Secured Instruments Valuation Agent shall determine that a Collateral Trigger Event has occurred if, at any time during business hours on a London business day during the relevant observation period, the value of a Secured Instrument of the relevant series is (a) if "less than the Collateral Trigger Level" is specified in the applicable Final Terms, less than the Collateral Trigger Level or (b) if "less than or equal to the Collateral Trigger Level" is specified in the applicable Final Terms, less than or equal to the Collateral Trigger Level. The Collateral Trigger Level will be specified in the applicable Final Terms. Upon the occurrence of a Collateral Trigger Event, MLBV will cancel and settle all of the relevant Secured Instruments at their Early Redemption/Settlement Amount (CTE) and, where "Physical Delivery of Static Collateral Assets" is specified to apply in the applicable Final Terms, deliver the Entitlement (CTE).

The value of the relevant Secured Instrument will be determined by the Secured Instruments Valuation Agent as an amount equal to the sum of (x) the intra-day market value of the portion of the option that relates to such Secured Instrument and (y) the intra-day market value of the relevant Static Collateral Assets that relate to such Secured Instrument, by reference to such factors as the Secured Instruments Valuation Agent considers appropriate in its discretion. As MLBV and the Secured Instruments Valuation Agent are affiliates, a potential conflict of interest may arise between the Secured Instruments Valuation Agent and the Holders of Secured Instruments in respect of these determinations. See "Potential Conflicts of Interest between Holders of Secured Instruments, the Secured Instruments Collateral Provider and the Secured Instruments Valuation Agent" below.

If a Collateral Trigger Event has occurred the value of all or some of the Collateral Assets forming the Collateral Pool will have lost a substantial proportion of their value. Therefore on early cancellation of the Instruments as a result of such Collateral Trigger Event, the Early Redemption/Settlement Amount (CTE) payable or Entitlement (CTE) deliverable may be significantly less than the investor's initial investment.

In addition, if a Collateral Trigger Event is specified to be applicable in the applicable Final Terms, it may increase the possibility (in comparison with Instruments which are not secured) of the Secured Instruments being redeemed or cancelled and settled early, as applicable. Following such early redemption or cancellation and early settlement, as applicable, a Holder of Secured Instruments may not be able to reinvest the redemption or settlement proceeds at an equivalent rate of return to the Secured Instruments being redeemed or settled and may only be able to do so at a significantly lower rate or in worse investment conditions. Potential investors should consider reinvestment risk in light of other available investments at the time they contemplate investing in Secured Instruments.

The Secured Instruments will be automatically early redeemed or cancelled and settled early upon a MTM Trigger Event

Under the Secured Fully Floating Instruments Conditions, if "MTM Trigger Event" is specified to be applicable in the applicable Final Terms, the relevant Secured Instruments will be subject to early cancellation following the occurrence of a MTM Trigger Event. The Secured Instruments Valuation Agent shall determine that a MTM Trigger Event has occurred if, at any time between 5.00 a.m. Sydney time to 5.00 p.m. New York City time (or such other times specified in the applicable Final Terms) on a business day during the relevant observation period, the market value of a Secured Instrument of the relevant series is (a) if "less than the MTM Trigger Level" is specified in the applicable Final Terms, less

than the MTM Trigger Level or (b) if "less than or equal to the MTM Trigger Level" is specified in the applicable Final Terms, less than or equal to the MTM Trigger Level. The MTM Trigger Level will be specified in the applicable Final Terms. Upon the occurrence of a MTM Trigger Event, MLBV will redeem or cancel and settle all of the relevant Secured Instruments at their Early Redemption/Settlement Amount.

The market value of the relevant Secured Instrument will be determined by the Secured Instruments Valuation Agent by reference to such factors as the Secured Instruments Valuation Agent considers appropriate in its discretion. Given that MLBV and the Secured Instruments Valuation Agent are affiliates, a potential conflict of interest may arise between the Secured Instruments Valuation Agent and the Holders of Secured Instruments in respect of these determinations. See "Potential Conflicts of Interest between Holders of Secured Instruments, the Secured Instruments Collateral Provider and the Secured Instruments Valuation Agent" below.

If a MTM Trigger Event has occurred the Secured Instruments will have lost a substantial proportion of their value. Therefore on early cancellation of the Secured Instruments as a result of such MTM Trigger Event, the Early Redemption/Settlement Amount payable may be significantly less than the investor's initial investment.

In addition, if "MTM Trigger Event" is specified to be applicable in the applicable Final Terms, it may increase the possibility (in comparison with Instruments which are not secured) of the Secured Instruments being early redeemed or cancelled and settled early, as applicable. Following such early redemption or cancellation and early settlement, as applicable, a Holder of Secured Instruments may not be able to reinvest the redemption or settlement proceeds at an equivalent rate of return to the Secured Instruments being redeemed or settled and may only be able to do so at a significantly lower rate or in worse investment conditions. Potential investors should consider reinvestment risk in light of other available investments at the time they contemplate investing in Secured Instruments.

Investors are exposed to the credit risk of the issuer(s) of the Static Collateral Assets

In respect of Secured Instruments to which the Secured Static/Floating Instruments Conditions apply, the value of the Secured Instruments is expected to be affected by the creditworthiness of an issuer of the Static Collateral Assets and actual or anticipated changes in the credit ratings of an issuer of the Static Collateral Assets.

In respect of Secured Instruments to which the Secured Static/Floating Instruments Conditions apply, Collateral Disruption Events also include certain events which are indicative of a default or material decline in the creditworthiness of an issuer of the Static Collateral Assets. In such circumstances, upon any early redemption or cancellation and early settlement of Secured Instruments by MLBV, it is likely that the market value of the Static Collateral Assets will be low and may be zero, thereby having a material adverse impact on the returns to investors. Therefore, such Secured Instruments explicitly bear the credit risk of an issuer of the Static Collateral Assets and any guarantor of such issuer's obligations under the Static Collateral Assets.

The market value of a Secured Instrument may be affected negatively when the probability of, or the market's perception of the probability of, a Collateral Disruption Event occurring in respect of an issuer of the Static Collateral Assets increases, even if a Collateral Disruption Event does not actually occur.

No investigations, searches or other enquiries have been made by or on behalf of the Issuer, the Secured Instruments Collateral Provider or the Security Agent in respect of the Static Collateral Assets or an issuer or any guarantor of the Static Collateral Assets. No representations or warranties, express or implied, have been given by the Issuer, the Secured Instruments Collateral Provider or the Security Agent or any other person on their behalf in respect of the Static Collateral Assets or an issuer or any guarantor in respect of the Static Collateral Assets. Investors should conduct their own investigation and analysis with respect to the creditworthiness of an issuer and any guarantor of the Static Collateral Assets.

An issuer or any guarantor of the Static Collateral Assets may be a publicly reporting company and financial and other information with respect to the issuer or any guarantor may be available from publicly available sources. Publicly available information in relation to an issuer or any guarantor of the Static Collateral Assets may be incomplete, inaccurate or misleading. None of MLBV, the Secured Instruments Collateral Provider or the Security Agent gives any assurance as to the accuracy or completeness of any

information available with respect to an issuer or any guarantor of the Static Collateral Assets or that all events that would affect the creditworthiness of an issuer or any guarantor of the Static Collateral Assets have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of, or failure to disclose, material future events concerning the issuer or any guarantor of the Static Collateral Assets could affect its creditworthiness and therefore the market value of the Secured Instruments, the likelihood of a Collateral Disruption Event occurring and the resulting Early Redemption/Settlement Amount (CDE) or, if "Physical Delivery of Static Collateral Assets" is specified to be applicable in the applicable Final Terms, the value of the Static Collateral Assets delivered to Holders.

Risks related to an Acceleration Event and enforcement of the security following a Secured Instrument Event of Default

If a Secured Instrument Event of Default has occurred and is continuing with respect to any Series of Secured Instruments, then any Holder may, at its option, send an Acceleration Notice to MLBV and the relevant Instrument Agent. If Holders of at least 33 per cent. (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of such Non-Waived Instruments (which, unless notified in writing by the Issuer and/or its Affiliates to the Secured Instruments Collateral Provider, shall not include any Secured Instruments held by the Issuer or its Affiliates) and if any such default is not waived or cured by the Issuer in accordance with the relevant Secured Instruments Conditions, an Acceleration Event shall occur in respect of such Series of Secured Instruments.

The relevant Instrument Agent will as soon as reasonably practicable after the occurrence of an Acceleration Event notify the Security Agent of the occurrence of such Acceleration Event and such notification shall be deemed to be an instruction to the Security Agent to, among other things, enforce the security constituted by the relevant Deed of Charge (an "**Acceleration Instruction**"). If the Security Agent receives an Acceleration Instruction, the Security Agent shall (acting in accordance with such Acceleration Instruction), among other things, deliver a Collateral Enforcement Notice to MLBV, the Secured Instruments Collateral Provider and the relevant Instrument Agent upon which all Secured Instruments in respect of which such Collateral Enforcement Notice is served will become immediately due and repayable at their applicable Early Redemption/Settlement Amount.

No Holder shall be entitled to enforce the relevant Deed of Charge or to proceed directly against the Secured Instruments Collateral Provider to enforce the other provisions of a Charged Document unless the Security Agent, having become bound to so enforce or proceed, fails so to do within a reasonable time and such failure is continuing or the Security Agent is prevented from enforcing the relevant Deed of Charge by any court order. If a Holder becomes so entitled, then such Holder shall not be entitled to enforce the relevant Deed of Charge or Charged Document in the United Kingdom.

Where the Collateral Assets consist of debt securities, shares or other tradable securities, liquidation of all the Collateral Assets simultaneously may increase the risk that the proceeds of realisation of the Collateral Assets may be less than the sums due to the relevant Holder of Secured Instruments under the relevant Secured Instruments because liquidation of all the Collateral Assets in the Collateral Pool at the same time could, in particular market circumstances, lead to a reduction in the market value of some or all of the Collateral Assets.

In addition, following the realisation of the Collateral Assets, an investor may not be able to reinvest any redemption or settlement proceeds or, where applicable, any Collateral Assets that it receives at an equivalent rate of return to the Secured Instruments that have become immediately due and payable following the occurrence of an Acceleration Event and may only be able to do so at a significantly lower rate or in worse investment conditions. Potential investors should consider reinvestment risk in light of other available investments at the time they contemplate investing in Secured Instruments.

Limitations on the entitlement of a Holder of Secured Instruments on enforcement and subordination to payment of expenses and other payments

If the Secured Static/Floating Instruments Conditions apply to a Series of Secured Instruments, following the enforcement of the relevant Deed of Charge, the rights of a Holder of Secured Instruments to be paid amounts from the proceeds of such enforcement and the realisation of the related Collateral Assets will

be limited to the applicable Early Redemption/Settlement Amount and, where Physical Delivery of Static Collateral Assets is applicable, the delivery of the Entitlement.

If the Secured Fully Floating Instruments Conditions apply to a Series of Secured Instruments, and, following the enforcement of the relevant Deed of Charge, each Secured Instrument's share of the proceeds of enforcement (following payment of the Secured Parties ranking above the Holders in the Order of Priority) is greater than the Early Redemption/Settlement Amount, then the rights of a Holder of Secured Instruments to be paid amounts from the proceeds of such enforcement and the realisation of the related Collateral Assets (or, where "Physical Delivery of Static Collateral Assets" is applicable, the market value of Collateral Assets that a Holder is entitled to receive delivery of) will be limited to: (a) where "NV Collateralisation" or "Max (NV, MV) Collateralisation" is specified to be applicable in the applicable Final Terms, the greater of: (i) the product of (A) the Collateralisation Percentage, multiplied by (B) in respect of Secured Instruments that are Secured Notes, the aggregate principal amount or, in respect of Secured Instruments that are Secured W&C Instruments, the Notional Amount, of the Non-Waived Instruments; and (ii) the Early Redemption/Settlement Amount; and (b) where "MV Collateralisation" or "Min (NV, MV) Collateralisation" is specified to be applicable in the applicable Final Terms, the applicable Early Redemption/Settlement Amount.

Following the early redemption or settlement of the Secured Instruments, a Holder of Secured Instruments may not be able to reinvest the settlement proceeds at an equivalent rate of return to the Secured Instruments being redeemed or settled and may only be able to do so at a significantly lower rate or in worse investment conditions. Potential investors should consider reinvestment risk in light of other available investments at the time they contemplate investing in Secured Instruments.

A Holder's entitlement on enforcement and realisation of the related Collateral Assets will be subordinated to and therefore rank behind claims relating to any amounts payable to Secured Parties ranking prior to the Holder of Non-Waived Instruments in accordance with the Order of Priority specified in the applicable Final Terms and any rights of preference existing by operation of law.

Shortfall on Realisation of Collateral Assets, Limited Recourse of a Holder of Secured Instruments and inadequacy of collateral

The security provided for a Series of Secured Instruments is limited to the Collateral Assets constituting the Collateral Pool applicable to such Series together with the Secured Instruments Collateral Provider's right, benefit, interest and title, present and future, in, under and to the Charged Documents (to the extent they relate to such Series). The value realised for the Collateral Assets in the relevant Collateral Pool or, where (a) in the event that the Secured Static/Floating Instruments Conditions apply to a Series of Secured Instruments, "Physical Delivery of Static Collateral" is applicable, and (b) in the event that the Secured Fully Floating Instruments Conditions apply to a Series of Secured Instruments, Physical Delivery of Collateral Assets on Enforcement is applicable, the value of the Collateral Assets delivered, upon enforcement of the relevant Deed of Charge may be less than the amounts due to a Holder of Secured Instruments in respect of the relevant Series of Secured Instruments and as a result, investors may lose all or a substantial portion of their investment. The level of risk will particularly depend on the Eligibility Criteria and, if the Secured Fully Floating Instruments Conditions apply to a Series of Secured Instruments on the collateralisation method (either MV Collateralisation, NV Collateralisation, Max (MV, NV) Collateralisation or Min (MV, NV) Collateralisation) as specified in the applicable Final Terms).

The Collateral Assets may suffer a fall in value between the time at which the relevant Deed of Charge becomes enforceable and the time at which the Collateral Assets are realised in full or, where (a) in the event that the Secured Static/Floating Instruments Conditions apply to a Series of Secured Instruments, Physical Delivery of Static Collateral Assets on Enforcement is applicable, and (b) in the event that the Secured Fully Floating Instruments Conditions apply to a Series of Secured Instruments, Physical Delivery of Collateral Assets on Enforcement is applicable, the Collateral Assets are delivered. In extraordinary circumstances, the Collateral Assets forming part of the Collateral Pool available at the time at which a Deed of Charge becomes enforceable could lose all or a substantial proportion of their value by the time of realisation and distribution or delivery, as applicable. Moreover, the security created in respect of the Secured Instruments may be unperfected for a variety of reasons, including the failure to make required filings and, as a result, Holders may not have priority over other creditors as anticipated.

If there is any shortfall in amounts due to a Holder of Secured Instruments in accordance with the Secured Instruments Conditions then such Holder of Secured Instruments shall have no further claim against MLBV, the Secured Instruments Collateral Provider or the Security Agent in respect of such amounts which remain unpaid following enforcement of the relevant Deed of Charge (including, for the avoidance of doubt, payments of redemption amounts or settlement amounts or additional amounts in respect of the Secured Instruments). In such a scenario, as the Guarantees are not applicable to Secured Instruments, a Holder of the Secured Instruments will have no further claim against any entity in respect of any shortfall in amounts due to it.

If physical delivery of Collateral Assets applies on enforcement and a Physical Delivery of Collateral Assets Disruption Event occurs or exists, there may be a delay in delivery of the Collateral Assets or the Collateral Assets may be sold in lieu of delivery

If the Secured Static/Floating Instruments Conditions apply to a Series of Secured Instruments and Physical Delivery of Static Collateral Assets is specified to be applicable, upon enforcement of a Deed of Charge, the Security Agent will not sell, or cause to be sold, the Static Collateral Assets (unless there is a Physical Delivery of Collateral Assets Disruption Event or to the extent required in order to pay any amounts payable to Secured Parties ranking prior to the Holders in accordance with the Order of Priority specified in the applicable Final Terms that have not been met by the sale of MTM Collateral Assets) but will procure delivery of the Static Collateral Assets to each Holder of Secured Instruments in the manner set out in the Secured Static/Floating Instruments Conditions.

If the Secured Fully Floating Instruments Conditions apply to a Series of Secured Instruments and Physical Delivery of Collateral Assets is specified in respect of a Series of Secured Instruments, upon enforcement of a Deed of Charge, the Security Agent will not sell, or cause to be sold, the Collateral Assets (unless there is a Physical Delivery of Collateral Assets Disruption Event or to the extent required in order to pay any amounts payable to Secured Parties ranking prior to the Holders of Secured Instruments in accordance with the Order of Priority specified in the applicable Final Terms) but will procure delivery of the Collateral Assets to each Holder of Secured Instruments in the manner set out in the Secured Fully Floating Instruments Conditions.

If, in the opinion of the Disposal Agent, delivery of all or some of the Static Collateral Assets or Collateral Assets, as applicable, forming part of the Entitlement is not practicable by reason of a Physical Delivery of Collateral Assets Disruption Event having occurred or continuing on any Collateral Delivery Date, then settlement will be postponed until the next Collateral Business Day on which there is no Physical Delivery of Collateral Assets Disruption Event. If delivery of any of the Static Collateral Assets or Collateral Assets, as applicable, forming part of the Entitlement is not possible due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event for a period of greater than 20 Collateral Business Days, the Disposal Agent will sell or realise the undeliverable Static Collateral Assets or Collateral Assets, as applicable, in lieu of physical settlement. The amount received by a Holder of Secured Instruments following such sale of Static Collateral Assets or Collateral Assets, as applicable may be lower than the amount which a Holder of Secured Instruments would have received if the relevant Static Collateral Assets or Collateral Assets, as applicable, had been delivered to it and the Holder of Secured Instruments held the relevant Static Collateral Assets or Collateral Assets, as applicable, to the maturity date of such assets or sold such assets at a different point in time.

Risk of a delay in the realisation of the Collateral Assets in the event of the insolvency of the Security Agent or any Collateral Arrangement Party

The insolvency of MLBV will constitute a Secured Instrument Event of Default, which may trigger early redemption or settlement of any Secured Instruments issued by MLBV. In these circumstances, or in the event of the insolvency of the Security Agent or any Collateral Arrangement Party, the realisation of the Collateral Assets may be delayed either by the appointment of an insolvency administrator or other insolvency official in relation to the relevant party or by measures ordered by a competent court.

In addition, in the case of an insolvency of a member of the Group, it is possible that MLBV, the Secured Instruments Collateral Provider and the Secured Instruments Agent that are members of the Group may also each be insolvent. Such circumstances may lead to a delay in the administrative processes involved in the realisation of the Collateral Assets. However, as the entities responsible for the enforcement of the Deed of Charge and the realisation of the Collateral Assets, namely the Custodian, the Collateral Agent, the Security Agent and the Disposal Agent are not part of the Group, the impact of any insolvency of a

member of the Group on such enforcement and realisation should be less material than it would have been if the Custodian, the Collateral Agent, the Security Agent and/or the Disposal Agent were part of the Group.

The initial Custodian, the initial Collateral Agent, and the initial Security Agent are affiliates of one another and it is possible that the Disposal Agent will also be an affiliate, and in the event of the insolvency of one such entity it is possible that another of those entities may also be insolvent. Such circumstances may lead to a delay in the realisation of the Collateral Assets. The Custodian Agreement, Triparty Account Control Agreement, and the Security Agency Agreement will contain provisions permitting the replacement of the Custodian, Collateral Agent, and Security Agent, as applicable, in certain circumstances, including following insolvency, as further provided in such agreements and the Secured Instrument.

If there is a delay in the realisation of the Collateral Assets due to the insolvency of any of these entities, such Collateral Assets could depreciate in value resulting in a shortfall in the amounts returned to Holders of Secured Instruments.

Potential Conflicts of Interest between Holders of Secured Instruments, the Secured Instruments Collateral Provider and the Secured Instruments Valuation Agent

As the Secured Instruments Collateral Provider and the Secured Instruments Valuation Agent are the same legal entity and are affiliates of MLBV, potential conflicts of interest may arise between the Secured Instruments Collateral Provider, the Secured Instruments Valuation Agent and the Holders of Secured Instruments, including with respect to the making of certain determinations and the exercise of certain discretions (including as to the calculation of and determinations relating to (a) the Marked-to-Market Derivative Hedge Value, (b) in respect of Secured Instruments to which the Secured Static/Floating Instruments Conditions apply: (i) the MTM Collateral Specified Percentage of the Required MTM Collateral Value; (ii) the Static Collateral Specified Percentage of the Required Static Collateral Nominal Amount; and (iii) (if applicable) a Collateral Trigger Event or a MTM Trigger Event, and (c) in respect of Secured Instruments to which the Secured Fully Floating Instruments Conditions apply: (i) the Secured Instrument Market Value; and (ii) the Required Collateral Value). In addition, whilst the Secured Instruments Collateral Provider and the Secured Instruments Valuation Agent are obliged to carry out their duties and functions in good faith and in a commercially reasonable manner, neither the Secured Instruments Collateral Provider nor the Secured Instruments Valuation Agent acts or will act as a fiduciary or as an advisor to the Holder of Secured Instruments in respect of their duties as Secured Instruments Collateral Provider and Secured Instruments Valuation Agent, respectively.

A failure by the Security Agent or the Disposal Agent to perform its obligations following an Acceleration Event may adversely affect the amount the Holders of the Secured Instruments may recover

Following a Secured Instruments Event of Default and subsequent Acceleration Event, the Security Agent will (acting in accordance with an Acceleration Instruction) enforce the security under the relevant Deed of Charge upon the delivery of a Collateral Enforcement Notice and will give instructions to the Disposal Agent to: (a) liquidate and realise the Collateral Assets in the Collateral Pool which secures a Series of Secured Instruments and subsequently distribute the relevant Collateral Enforcement Proceeds Share to the relevant Holders of Secured Instruments or (b) where, in respect of Secured Instruments to which the Secured Static/Floating Instruments Conditions apply, Physical Delivery of Static Collateral Assets is specified as applicable in the applicable Final Terms or where, in respect of Secured Instruments to which the Secured Fully Floating Instruments Conditions apply, Physical Delivery of Collateral Assets is specified as applicable in the applicable Final Terms, arrange for delivery of the relevant Entitlement to the relevant Holder of Secured Instruments, in each case in accordance with the Order of Priority.

A failure by the Security Agent or the Disposal Agent to perform its obligations with respect to the Collateral Assets or to perform its obligations in a timely or efficient manner may adversely affect the realisation of the Collateral Assets and the amount distributable or deliverable to Holders of Secured Instruments. Accordingly, in the event of a Secured Instruments Event of Default and subsequent Acceleration Event, the amount that Holders of the Secured Instruments recover may be adversely affected.

The Security Agent may be entitled not to act following an Acceleration Event if it believes that it will be unable to recover certain amounts or is not indemnified and/or secured or pre-funded by the Holders

Following a Secured Instruments Event of Default and subsequent Acceleration Event (as notified to the Security Agent upon receipt of an Acceleration Instruction), the Security Agent shall be under no obligation to take any action to liquidate or realise any Collateral Assets, if (a) in the event that it is directed by the requisite percentage of Holders of the Secured Instruments to effect such liquidation or realisation in accordance with the exact provisions of an Acceleration Instruction (the form of which is scheduled to the English Law Agency Agreement) it reasonably believes that it would not be able to recover Security Agent Amounts (being amounts incurred by it in respect of exceptional duties) or would experience an unreasonable delay in doing so; or (b) in the event that it is directed by a Secured Party to effect such liquidation or realisation other than in accordance with the exact provisions of an Acceleration Instruction (the form of which is scheduled to the English Law Agency Agreement) it has not been indemnified and/or secured and/or prefunded to its satisfaction by the Holders of the Secured Instruments.

In any such event, the Security Agent may decide not to take any action and such inaction will not constitute a breach by it of its obligations under the Security Agency Agreement, the Deed of Charge or the Secured Instruments Conditions. Consequently, if applicable, the Holders of the Secured Instruments would have to either arrange for such indemnity and/or security and/or pre-funding, accept the consequences of such inaction by the Security Agent or appoint a replacement Security Agent. Holders of at least 33 per cent., in respect of Secured Notes, in aggregate principal amount or, in respect of Secured W&C Instruments, in aggregate Notional Amount or by number (as applicable), of Non-Waived Instruments outstanding may remove the Security Agent and appoint a replacement Security Agent. Holders of the Secured Instruments should be prepared to bear the costs associated with any such indemnity and/or security and/or pre-funding and/or the consequences of any such inaction by the Security Agent and/or the replacement of the Security Agent. Such inaction by the Security Agent will not entitle Holders of the Secured Instruments to take action in the United Kingdom directly against the Secured Instruments Collateral Provider to pursue remedies for any breach by the Secured Instruments Collateral Provider of the Deed of Charge, the Secured Instruments Conditions or Charged Documents. Any consequential delay in the liquidation or realisation of the Collateral Assets may adversely affect the amount distributable or deliverable to Holders of Secured Instruments.

No Fiduciary duties

In performing their duties under the Programme, none of the Secured Instruments Collateral Provider, the Custodian, the Collateral Agent, the Secured Instruments Valuation Agent or the Disposal Agent will act as a fiduciary or as an advisor to the Holders of Instruments in respect of their respective duties and do not act as a trustee for the Holders of Instruments. In performing its role under the Programme, the Security Agent does not act as an advisor to or fiduciary or trustee for the Holders of the Secured Instruments (either as a Series or individually) or any other party and nothing in any of the documents relating to the Programme shall be interpreted to constitute the Security Agent as a trustee or fiduciary of the Issuer, the Secured Instruments Collateral Provider, the Holders of the Secured Instruments or any other party.

(xi) Risks relating to Preference Share Linked Notes

Factors affecting the performance of the Preference Share Underlyings may adversely affect the value of the Preference Share Linked Notes

The relevant Issuer may issue Preference Share Linked Notes where the amount payable on redemption is determined by reference to the changes in the value of the preference shares (the "**Preference Shares**") issued by Preface Holdings Limited (the "**Preference Share Issuer**"). The Preference Shares will be linked to the economic performance of an underlying reference item or items including shares, indices, funds or exchange traded funds or baskets of shares, indices, funds or exchange traded funds (each a "**Preference Share Underlying**" and together, the "**Preference Share Underlyings**") and the value of the Preference Shares may fluctuate up or down depending on the performance of the relevant Preference Share Underlyings as set out in the Private Placement Memorandum of the relevant issue of Preference Shares (see "*Description of the Preference Share Issuer and the Preference Shares*" for details) and as specified in the applicable Final Terms. If, as a result of the performance of the Preference Share

Underlyings, the performance of the Preference Shares is negative, the value of the Preference Share Linked Notes will be adversely affected. Purchasers of Preference Share Linked Notes risk losing all or a part of their investment if the value of the Preference Shares declines.

Preference Share Linked Notes may be subject to early redemption

Preference Share Linked Notes will be subject to early redemption if (i) an Early Redemption Event occurs, or (ii) Redemption at the Option of the Issuer is specified as "Applicable" in the applicable Final Terms and the Issuer gives notice to the Noteholders that it will redeem the Preference Share Linked Notes. In these circumstances the Issuer may redeem the Preference Share Linked Notes at (i) the Early Redemption Amount or (ii) the Optional Redemption Amount (as applicable). Following such early redemption, a Holder of Preference Share Linked Notes may not be able to reinvest the redemption proceeds at an equivalent rate of return to the Preference Share Linked Notes being redeemed and may only be able to do so at a significantly lower rate or in worse investment conditions. Potential investors should consider reinvestment risk in light of other available investments at the time they contemplate investing in Preference Share Linked Notes.

The taxation applicable to Preference Share Linked Notes may be subject to change

The basis and rate of taxation in respect of Preference Share Linked Notes and reliefs depend on each investor's individual circumstances and could change at any time. This could have a negative impact on the return of the Preference Share Linked Notes. Prospective investors should seek their own independent tax advice as to the possible tax treatment of redemption payments (such term including early or final redemption) received on Preference Share Linked Notes prior to investing.

Exposure to the Preference Share Underlyings

The Preference Share Underlyings may include, shares, indices, funds or exchange traded funds or baskets of shares, indices, funds or exchange traded funds, as may be determined by the Preference Share Issuer and specified in the Private Placement Memorandum of the relevant issue of Preference Shares. The composition of the relevant Preference Share Underlyings may be designed to change over time as a result of performance or other factors.

Prospective investors shall consider the risk factors set out in "Risks Relating to the Structure of a Particular Issue of Instruments" in respect of the risks involved in investing in Reference Item Linked Instruments. In considering these risk factors, prospective investors shall construe each reference to an Instrument as a reference to the Preference Shares and the relevant references to Reference Items as references to the Preference Share Underlyings of the same asset class.

Conflicts of interest may arise when Merrill Lynch International acts in different roles in respect of the Preference Share Linked Notes and Preference Shares

Merrill Lynch International is appointed by the Preference Share Issuer to act as calculation agent in respect of each class of Preference Shares. The calculation agent in respect of the Preference Shares has wide discretionary powers under the terms and conditions of the Preference Shares. For example, upon the occurrence of certain events relating to the Preference Share Issuer, the Preference Share Underlyings or the hedging arrangements in respect of the Preference Share Linked Notes and/or the Preference Shares, the calculation agent may determine that the Preference Shares shall be early redeemed. An early redemption of the Preference Shares will result in an Early Redemption Event occurring under the Preference Share Linked Notes and that may result in prospective investors receiving less than their initial investments.

Merrill Lynch International will also act as structuring agent in respect of the Preference Shares and arranger in respect of the Preference Share Linked Notes. In performing such roles, Merrill Lynch International may enter into hedging arrangements in respect of the Preference Share Linked Notes and the Preference Shares as a principal. Merrill Lynch International may thus acquire positions in the Preference Share Underlyings and its interests may not necessarily align with the interests of prospective investors.

Merrill Lynch International is an Affiliate of the relevant Issuer and the Guarantor. By virtue of the different roles performed by it, potential conflicts of interest may arise when Merrill Lynch International acts in such capacities. Please see the risk factor headed "There may be conflicts of interest between the

relevant Issuer, the Guarantor (if applicable), the relevant Dealer and/or their respective Affiliates and the Holders" for additional details.

11. Risks Relating to Floating Rate Notes

(a) Risks Relating to Floating Rate Notes and Notes That Bear Interest by Reference to a Reference Rate or SOFR, SONIA or TONA

The following discussion of risks relates to Floating Rate Notes and Notes that bear interest by reference to a Reference Rate or SOFR, SONIA or TONA (together, "Reference Rate Notes").

Reference Rate Notes bear additional risks

If the Notes bear interest by reference to a Reference Rate for some or all of the term of the Notes, there will be additional significant risks not associated with a conventional fixed-rate note. These risks include fluctuation of the interest rates and the possibility that investors will receive an amount of interest that is lower than expected, which could affect the market value of an investment in such Reference Rate Notes. The Issuer has no control over a number of factors, including economic, financial, and political events, that are important in determining the existence, magnitude, and longevity of market volatility and other risks and their impact on the value of, or payments made on, the Reference Rate Notes. Volatility of rates may adversely impact the return on or market value of such Reference Rate Notes.

The Issuer or its affiliates may publish research reports that could affect the market value of the Reference Rate Notes

The Issuer or one or more of its affiliates, at present or in the future, may publish research reports with respect to movements in interest rates generally or any Reference Rate that may be used for the Reference Rate Notes. This research may be modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding the Reference Rate Notes. Any of these activities may adversely affect the market value of the Reference Rate Notes.

The unavailability of certain Reference Rates may result in the effective application of a fixed rate of interest for the applicable Reference Rate Notes.

In the event that (i) any Reference Rate other than TORF or any Swap Rate or (ii) any Applicable RFR that is used in the calculation of a Compounded Daily Reference Rate, in each case as described in the Terms and Conditions of the Notes, is unavailable on any date of determination, but the applicable provisions for a replacement rate (if any) have not been triggered, the last published level of such Reference Rate or Applicable RFR or, in certain cases, the applicable Reference Rate for the previous Interest Period (depending on the terms and conditions for such Reference Rate), may be used as the Reference Rate for such date of determination. Furthermore, in the event that (i) any Reference Rate other than a Swap Rate or (ii) any Applicable RFR other than SOFR that is used in the calculation of a Compounded Daily Reference Rate is unavailable and the applicable provisions for a replacement rate have been triggered, but a replacement rate cannot be determined under such provisions, then the last available rate may be used as the base rate under the final fallback provisions, which may result in the effective application of a fixed rate of interest for the applicable Reference Rate Notes based on such last available rate.

Regulation of certain "benchmark" rates may adversely affect the value of, return on and trading market for Reference Rate Notes that bear interest by reference to such rates

Previously, certain interest rates which are deemed to be "benchmark" rates have been the subject of national, international and other regulatory guidance, reform and other actions. This has resulted in regulatory reform and changes to existing benchmarks. Such reform of benchmarks includes Regulation (EU) 2016/11 (as amended, the "**EU Benchmarks Regulation**") and Regulation (EU) 2016/11 as it forms part of UK domestic law by virtue of the EUWA and the regulations made under the EUWA (the "**UK Benchmarks Regulation**", together with the EU Benchmarks Regulation, the "**Benchmarks Regulations**"), which apply to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU and the UK, respectively. The Benchmarks Regulations are applicable to BBSW, EURIBOR, EUR EURIBOR ICE Swap Rate®, GBP SONIA ICE Swap Rate®, U.S. Dollar SOFR ICE Swap Rate®, Tokyo Swap Rate (for swaps referencing TONA) and the Applicable RFRs. Among other things, the Benchmarks Regulations (i) require benchmark

administrators to be authorised or registered (or, if non-EU-based or non-UK based, to be subject to an equivalent regime or otherwise recognised or endorsed) and (ii) prevent certain uses by EU and UK supervised entities, as applicable, of benchmarks of administrators that are not authorised or registered (or if non EU-based or UK-based, as applicable, not deemed equivalent or recognised or endorsed). The Benchmarks Regulations could have a material impact on any Reference Rate Notes referencing a benchmark, in particular, if the methodology or other terms of the benchmark are changed in order to comply with the requirements of the Benchmarks Regulations. Such changes could, amongst other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the relevant benchmark.

In addition, in the future, benchmark rates, including BBSW, EURIBOR, the Constant Maturity Swap rates and the Applicable RFRs, could be subject to further regulatory scrutiny, reform efforts and/or other actions. Any such regulatory scrutiny, reform efforts and/or other actions could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with applicable regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain "benchmarks", trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the elimination, discontinuance or obsolescence of certain "benchmarks". Following the implementation of reforms, the manner of administration of benchmarks may change, with the result that they may perform differently than in the past, or the benchmark could be eliminated or discontinued entirely, or there could be other consequences that cannot be predicted. Even prior to the implementation of any changes, uncertainty as to the nature of potential alternative reference rates and as to the nature and effect of potential changes to such benchmark may adversely affect such benchmark during the term of the relevant Notes, as well as the value of, the return on and/or trading market for Notes linked to such benchmark. Any of the foregoing consequences could have a material adverse effect on the Rate of Interest on, value of, return on and trading market for any Notes linked to such a "benchmark" rate.

Historical rates are not an indication of future rates

In the past, the certain Reference Rates that may be used for the Reference Rate Notes have experienced significant fluctuations. Investors should note that historical levels, fluctuations and trends of the Reference Rates are not necessarily indicative of future levels. Any historical upward or downward trend in the applicable Reference Rate is not an indication that such Reference Rate is more or less likely to increase or decrease at any time. Future levels of a Reference Rate may bear little or no relation to the historical actual or historical indicative Reference Rate data. Prior observed patterns, if any, in the behaviour of market variables and their relation to the Reference Rate, such as correlations, may change in the future. In addition, to the extent that any pre-publication historical data is published with respect to a Reference Rate, production of such historical indicative data inherently involves assumptions, estimates and approximations. No future performance of any Reference Rate may be inferred from any of the historical actual or historical indicative Reference Rate data.

(b) Risks relating to BBSW Notes

The following discussion of risks relates to Floating Rate Notes and Notes that bear interest by reference to BBSW ("BBSW Notes").

Regulation, reform and the actual or potential discontinuation of BBSW may adversely affect the return on, value of and market for affected BBSW Notes.

Interest rate benchmarks (such as BBSW) have been and continue to be the subject of national and international regulatory guidance and proposals for reform in Australia and internationally. These reforms may cause such benchmarks to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. Any such consequence as it relates to BBSW could have a material adverse effect on the BBSW Notes.

In Australia, examples of reforms that are already effective include the replacement of the Australian Financial Markets Association ("AFMA") as BBSW administrator with the Australian Securities Exchange, changes to the methodology for calculation of BBSW, and amendments to the Corporations Act 2001 (Cth) made by the Treasury Laws Amendment (2017 Measures No. 5) Act 2018 (Cth) which, among other things, enable the Australian Securities and Investment Commission ("ASIC") to make rules relating to the generation and administration of financial benchmarks. On 6 June, 2018, ASIC

designated BBSW as a "significant financial benchmark" and made the ASIC Financial Benchmark (Administration) Rules 2018 and the ASIC Financial Benchmarks (Compelled) Rules 2018.

Although many of the Australian reforms were designed to support the reliability and robustness of BBSW, it is not possible to predict with certainty whether, and to what extent, BBSW will continue to be supported or the extent to which related regulations, rules, practices or methodologies may be amended going forward. This may cause BBSW to perform differently than it has in the past, and may have other consequences which cannot be predicted. For example, it is possible that these changes could cause BBSW to cease to exist, to become commercially or practically unworkable, or to become more or less volatile or liquid. Any such changes could have a material adverse effect on the BBSW Notes.

If a Temporary Disruption Event occurs with respect to BBSW, BBSW will be determined in accordance with alternative methods, and if a Permanent Discontinuation Trigger and related Permanent Fallback Effective Date occur with respect to BBSW, the applicable Fallback Rate for BBSW may not be a suitable replacement for BBSW.

On 13 September 2021, the Reserve Bank of Australia (the "RBA") announced its requirement that floating rate notes issued on or after 1 December 2022, referencing BBSW must contain at least one "robust" and "reasonable and fair" fallback rate for BBSW if it permanently ceases to exist.

The AFMA published the "AFMA Fallback Language Template for Floating Rate Notes" on 1 November 2022 (the "AFMA Market Guidelines") for voluntary use in contracts that reference BBSW to assist market participants to meet the requirements of the RBA's updated criteria. The fallback provisions relating to BBSW set forth in Additional Note Condition 4(d) are based on the AFMA Market Guidelines (the "BBSW Fallback Provisions"). The BBSW Fallback Provisions distinguish between temporary and permanent triggers affecting BBSW. If a Temporary Disruption Trigger occurs in respect of the BBSW, the Rate of Interest for any day on which that Temporary Disruption Trigger is continuing will be the Rate of Interest determined, in the first instance, with preference given to the Administrator Recommended Rate (which is a rate formally recommended for use as the replacement for BBSW by the administrator of such rate). The second preference will be given to the Supervisor Recommended Rate (which is a rate formally recommended for use as the replacement for BBSW by the supervisor of the administrator for BBSW). Finally, preference will be given to the Final Fallback Rate.

The terms of the BBSW Notes provide for a waterfall of alternative rates to be used to determine the Rate of Interest on the BBSW Notes if a Permanent Discontinuation Trigger and a related Permanent Fallback Effective Date occur with respect to BBSW. The first alternative rate to BBSW in the waterfall is the AONIA Rate, which is equal to Compounded Daily AONIA plus the Adjustment Spread (each as defined in the BBSW Fallback Provisions). Investors should be aware that, while BBSW is a forward-looking term rate based on observed bid and offer rates for Australian prime bank eligible securities (which rates may incorporate a premium for credit risk), AONIA is an overnight, risk free cash rate and, if the AONIA Rate is the applicable Fallback Rate, will be applied to calculate interest by compounding observed rates in arrear at or near the end of the applicable Interest Period and adding the Adjustment Spread (which may be positive or negative or zero). The second alternative rate to BBSW in the waterfall is the RBA Recommended Fallback Rate, which is the rate (inclusive of any spreads or adjustments) recommended as the replacement for AONIA by the Reserve Bank of Australia and is applicable when a permanent Fallback Effective Date occurs with respect to AONIA. If the RBA Recommended Rate is not available at the time of a Permanent Discontinuation Trigger with respect to AONIA and related Permanent Fallback Effective Date, or if an RBA Recommended Rate is available at such time and a Permanent Discontinuation Trigger and related Permanent Fallback Effective Date subsequently occur with respect to it, the next alternative rate in the waterfall is the Final Fallback Rate, which is the rate determined by the Issuer or its designee (after consulting with the Issuer) as a commercially reasonable alternative for the Applicable Benchmark Rate taking into account all available information that, in good faith, the Issuer or its designee (after consulting with the Issuer) considers relevant, together with (without double counting) such spread adjustment (which may be a positive or negative value or zero) that is customarily applied to the relevant successor rate or alternative rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for AONIA-linked floating rate notes at such time. Uncertainty with respect to market conventions related to the calculation of these BBSW fallback rates and whether any alternative reference rate is a suitable replacement or successor for BBSW may adversely affect the return on, value of and market for the BBSW Notes.

There can be no assurance that the characteristics of any of the alternative rates for AONIA will be similar to those of BBSW, or that any such alternative rate will produce the economic equivalent of BBSW as a reference rate for interest on an applicable Series of BBSW Notes. Although the BBSW Fallback Provisions provide for the Issuer or its designee (after consulting with the Issuer) to make certain term and spread adjustments to the applicable Fallback Rate in order to produce an industry-accepted replacement rate for BBSW, such adjustments will not necessarily make the alternative rate equivalent to BBSW.

In addition to the spread adjustments that the Issuer or its designee (after consulting with the Issuer) may make to an applicable Fallback Rate, the terms of the BBSW Notes expressly authorize the Issuer or its designee, after consulting with the Issuer, in connection with implementation of an applicable Fallback Rate to make certain changes to the terms and provisions of the applicable Series of BBSW Notes with respect to, among other things, the determination of Interest Periods and the timing and frequency of determining rates and making payments of interest and other administrative matters. The application of an Applicable Benchmark Rate, including any spread adjustment that may be made to such rate by the Issuer or its designee (after consulting with the Issuer), and any implementation by the Issuer or its designee (after consulting with the Issuer) of any other applicable changes to the terms and provisions of a Series of BBSW Notes in connection with the implementation of an applicable Fallback Rate, could result in adverse consequences to the Rate of Interest or the amount of interest payable on the applicable Series of BBSW Notes, which could adversely affect the return on, value of and market for such Notes and the price at which investors may be able to sell such Notes.

Moreover, certain determinations, decisions and elections with respect to the applicable Fallback Rate, any term or spread adjustments to the applicable Fallback Rate, and any other changes to the terms and provisions of an applicable Series of BBSW notes in connection with the implementation of an applicable Fallback Rate, or the occurrence or non-occurrence of a Permanent Discontinuation Trigger, may require the exercise of discretion and the making of subjective judgments by the Issuer or its designee (after consulting with the Issuer). Any determination, decision or election made by the Issuer or its designee pursuant to the BBSW Fallback Provisions will, if made by the Issuer, be made in the Issuer's sole discretion and, if made by the Issuer's designee, be made after consultation with the Issuer and, in each case, will become effective without consent from the investors in the affected Series of BBSW Notes or any other party. The Issuer may designate an entity to make any determination, decision or election that the Issuer has the right to make in connection with the BBSW Fallback Provisions. Any designee that the Issuer may appoint in connection with these determinations, decisions or elections may be the Issuer's affiliate. When performing such functions, potential conflicts of interest may exist between the Issuer, its designee and investors in the applicable Series of BBSW Notes and making such potentially subjective determinations may adversely affect the return on, value of and market for the applicable Series of BBSW Notes. All determinations by the Issuer or its designee in the Issuer's or its discretion will be conclusive for all purposes and binding on the Issuer and investors in the applicable Series of BBSW Notes absent manifest error. Investors should consult their own independent advisors and make their own assessment about the potential risks imposed by BBSW reforms and the potential for BBSW to be discontinued in making any investment decision with respect to any BBSW Notes.

(c) Risks Relating to EURIBOR Notes

The following discussion of risks relates to Floating Rate Notes and Notes that bear interest by reference to the Euro Interbank Offered Rate ("EURIBOR Notes").

EURIBOR is subject to the Benchmarks Regulations. See the discussion of the risks in the risk factor *"Regulation of certain "benchmark" rates may adversely affect the value of, return on and trading market for Reference Rate Notes that bear interest by reference to such rates."*

EURIBOR has been reformed such that it is based on a hybrid methodology. On 13 September 2018, the working group on euro risk-free rates recommended the new euro short-term rate ("€STR") as the new risk free rate for the euro area. €STR was published for the first time on 2 October 2019. In addition, in response to regulatory scrutiny and applicable legal requirements, the European Money Markets Institute ("EMMI"), as administrator of the Euro Interbank Offered Rate ("EURIBOR"), conducted a series of consultations on a proposed reformed hybrid methodology for EURIBOR. In July 2019, EMMI published its EURIBOR Benchmark Statement setting forth its reformed hybrid methodology and received regulatory authorisation for the continued administration of EURIBOR. Although EURIBOR has been reformed in order to comply with the terms of the EU Benchmarks Regulation, its future remains

uncertain. It is not known how long EURIBOR will continue in its current form. Any of these developments could have a material adverse effect on the value and the return on EURIBOR Notes.

The euro risk-free rate working group for the euro area has published a set of guiding principles and high level recommendations for the fallback provisions in, among other things, new euro denominated cash products (including floating-rate debt securities) referencing EURIBOR. The guiding principles indicate, among other things, that continuing to reference EURIBOR in relevant contracts (without robust fallback provisions) may increase the risk to the euro area financial system. On 11 May 2021, the euro risk-free rate working group published its recommendations on EURIBOR fallback trigger events and €STR-based fallback rates. €STR has a different methodology and other important differences from EURIBOR and has little historical track record and may be subject to changes in its methodology.

In order to address the effect of any discontinuance of EURIBOR, EURIBOR Notes include certain fallback provisions. With respect to any series of EURIBOR Notes, if the Issuer or its designee, after consulting with the Issuer, determines that a General Benchmark Transition Event and related General Benchmark Replacement Date have occurred with respect to EURIBOR, the applicable General Benchmark Replacement will replace EURIBOR for all purposes relating to such Notes. See the discussion of risks in the risk factor "*Risks relating to General Benchmark Transition Provisions Set Forth in Additional Note Condition 4(a)*" below. This may, among other things, result in the application of backward-looking €STR compounded in arrears, whereas EURIBOR is expressed on the basis of a forward-looking term and includes a risk element based on interbank lending.

Furthermore, if EURIBOR is discontinued or ceases to be published, there can be no assurances that the Issuer and other market participants will be adequately prepared for such discontinuance or cessation, which may have an unpredictable impact on contractual mechanics (including, but not limited to, the interest rate with respect to particular series of EURIBOR Notes), among other adverse consequences.

(d) **Risks relating to TORF Notes**

The following discussion of risks relates to Floating Rate Notes and Notes that bear interest by reference to TORF ("TORF Notes").

The information regarding TORF that QUICK Benchmarks Inc., the administrator of TORF, makes publicly available may be limited

On its website, the Quick Benchmarks, Inc. ("**Quick**") provides a link to a third-party website that provides historical Tokyo Term Risk Free Rate ("**TORF**") rates on a daily basis for the preceding 180 days and a weekly basis for the preceding year. In order to obtain historical TORF rates from earlier periods, users must request such information from Quick. As a result, an investor may find it more difficult to obtain historical TORF data than data relating to certain other reference rates. In addition, the historical TORF data available through such third-party website may be published on a delayed basis. In addition, Quick may make changes to the rate information or other rate information that it makes publicly available.

TORF is a new rate with a limited history, and the future performance of TORF cannot be predicted based on historical performance or other available information

The daily publication of TORF began on a prototype basis on 9 October 2020 and on a production basis (i.e., for use in transactions) on 26 April 2021, and, therefore, it has a limited history. All TORF rate information relating to dates prior to 26 April 2021 is prototype rate information, which Quick published only as a reference to be used for preparation of the future administrative framework of TORF and was not intended for use in financial contracts. The future performance of TORF cannot be predicted based on the very limited historical and prototype data that is available. Future levels of TORF may bear little or no relation to the historical actual or historical indicative TORF data. Prior observed patterns, if any, in the behaviour of market variables and their relation to TORF, such as correlations, may change in the future. While some pre-publication historical TORF rate data have been released by Quick, production of such historical indicative TORF data inherently involves assumptions, estimates and approximations. No future performance of TORF may be inferred from any of the historical actual or historical indicative TORF data. Hypothetical or historical performance data are not indicative of, and have no bearing on, the potential performance of TORF.

In addition, the methodology Quick uses to calculate TORF relies on input data from a small number of institutions, which may lead to a delay of publication of TORF. According to Quick's website, data for calculating TORF is provided by reporting brokers designated by Quick. According to the most recent available information on Quick's website, there are three reporting brokers. In order to calculate TORF, at least two reporting brokers must report data to Quick. Quick may delay the publication of TORF until 6:30 p.m. Tokyo time if, for any reason, the number at least two reporting brokers do not report such data. If only one or no reporting brokers report data to Quick by 5:30 p.m. Tokyo time, the previous day's TORF will be published as TORF for the relevant day by 6:30 p.m. Tokyo time. In addition, the methodology relies on data from OIS market, so depending on the sufficiency of market liquidity of the underlying Overnight Index Swap ("**OIS**") market, it may impair the robustness of TORF as a financial benchmark.

In addition, because TORF is a new rate with limited history, it may be less robust than more established benchmarks. On 15 March 2023, JBA TIBOR Administration published its paper "Results of Public Consultation on fallback issues for JBA TIBOR" (the "**JPY TIBOR Fallbacks Paper**") in which it discussed the suitability of TORF as a potential fallback rate to the JPY TIBOR Rate. The JPY TIBOR Fallbacks Paper reported that certain market participants expressed concerns with the suitability of TORF as a fallback rate for JPY TIBOR, stating "the liquidity and transaction volume of the underlying markets of TORF are extremely low, resulting in a significantly limited amount of market data for the rate calculation. In many cases, TORF continues to rely on the previous day's data, instead of the market data of current day. As long as such situation continues, uncertainty as a benchmark in terms of the reliability and robustness remains for [TORF]." On 31 May 2023, Quick published its paper "Result of a Periodic Review of TORF Operational Framework" (the "**Results of TORF Review**") in which Quick concluded that TORF maintains required representativeness as an interest rate benchmark but also identified a number of trends that raise questions regarding TORF's robustness and reliability. In the Results of TORF Review, Quick compared historical TORF rates against historical Japan Securities Clearing Corporation ("**JSCC**") published settlement rates, which are the rates used by JSCC to calculate margins for OIS transactions and are calculated by obtaining quotes from information vendors and broker dealers. The maximum and average difference between TORF for one-, three- and six-month tenors and JSCC published settlement rates for the corresponding tenors increased in 2022 as compared to 2021, with the maximum and average difference for the one-month tenors being particularly prominent. Although there are methodological differences between TORF and JSCC published settlement rates, which may contribute to some of the differences in published rates, the increasing differences between the two rates could indicate potential issues with TORF's representativeness of JPY OIS market. In addition, the Results of TORF Review indicates that Quick frequently is not able to calculate one-, three- and six-month TORF based on transaction data from the current day, resulting in re-publication of the official rate for the previous day as the official rate for the succeeding day. In the calculation of TORF, Quick does not use indicative quotes not based on the premise of transactions, and only uses rates based on actual transactions or the premise of transactions. Therefore, re-publication of the previous day's official rate occurred more often in 2022 than in 2021: 94.3% of 2022 publication dates for one-month TORF (as compared to 73.8% of publication dates in 2021), 45.1% of publication dates for three-month TORF (as compared to 44.0% of publication dates in 2021) and 43.4% of publication dates for six-month TORF (as compared to 39.3% of publication dates in 2021). Further, the Results of TORF Review states that the percentage of transactions by reporting brokers (i.e., the brokers reporting OIS swap data used in the calculation of TORF) as a percentage of the overall one-, three- and six-month JPY OIS market declined in 2022 as compared to 2021 (approximately 30% in 2022 as compared to approximately 40% in 2021), could indicate potential issues with TORF's representativeness of JPY OIS market. In addition, the Results of TORF review identified certain instances in which reporting brokers failed to report execution rates or quote data to Quick in accordance with Quick's established procedures. Certain of these events were determined to have an impact on the official published TORF rates. If any of these issues or trends persist or increase, the reliability and robustness of TORF may be questioned. In light of trends and factors identified in the JPY TIBOR Fallbacks Paper and the Results of TORF Review, it appears there is meaningful risk that TORF may be modified or discontinued, which could have an adverse impact on the liquidity for the affected Notes.

See the discussion of risks in the risk factor "*Risks relating to General Benchmark Transition Provisions Set Forth in Additional Note Condition 4(a)*" below for a discussion of the General Benchmark Transition Provisions that would be applicable if TORF is discontinued. In this regard, as of the date of this Offering Circular, no General Benchmark Replacement or General Benchmark Replacement Adjustment have

been identified with respect to TORF, and there is uncertainty with respect to such General Benchmark Replacement and General Benchmark Replacement Adjustment and when they may be identified.

The composition and characteristics of TORF are not the same as those of JPY LIBOR, and TORF is not expected to be a comparable substitute or replacement for JPY LIBOR

In Japan, there are several candidates for alternative reference rates to replace the London interbank Offered Rate for Japanese yen ("**JPY LIBOR**"), which ceased publication following 31 December 2021, and one of such candidates is TORF. The composition and characteristics of TORF are not the same as JPY LIBOR and TORF is not the economic equivalent of JPY LIBOR. While JPY LIBOR included the cost of bank credit risk since it was calculated based on the submissions of panel banks of rates they can borrow unsecured funds in the interbank market, TORF is a risk free rate since it is a benchmark calculated based on the uncollateralised overnight call rate which involves almost no credit risk of financial institutions. The main characteristic of TORF is that it does not rely on rates provided by panel banks but uses Japanese yen OIS transaction rates. A Japanese yen OIS transaction is, according to Quick, a transaction where the value of the compounded uncollateralised overnight call rate is used to pay the floating interest rate or variable interest rate and swapped with a fixed rate. As a result, there can be no assurance that TORF will perform in the same way as JPY LIBOR would have at any time, including, without limitation, as a result of changes in interest and yield rates in the market, bank credit risk, market volatility or global or regional economic, financial, political, regulatory, judicial or other events. For the same reasons, TORF is not expected to be a comparable substitute or replacement for JPY LIBOR.

TORF may be modified or discontinued, which could adversely affect the return on, value of or market for the TORF Notes

Quick (or any successor administrator) may make methodological or other changes that could change the value of TORF, including changes related to the method by which TORF is calculated, eligibility criteria applicable to the transactions used to calculate TORF, or timing related to the publication of TORF. In addition, TORF is published by Quick based on data received from sources other than the Issuer, and the Issuer has no control over the methods of calculation, publication schedule, rate revision practices or availability of TORF. If the manner in which TORF is calculated is changed, that change may result in a reduction of the amount of interest payable on the TORF Notes, which may adversely affect the trading prices of the TORF Notes. The administrator of TORF may withdraw, modify, amend, suspend or discontinue the calculation or dissemination of TORF in its sole discretion and without notice and has no obligation to consider the interests of investors in the TORF Notes in calculating, withdrawing, modifying, amending, suspending or discontinuing TORF. For purposes of the formula used to calculate interest with respect to the TORF Notes, TORF in respect of a particular Interest Period will not be adjusted for any modifications or amendments to TORF data that Quick (or any successor administrator) may publish after the Calculation Agent has determined TORF for such Interest Period.

There can be no guarantee that TORF will not be modified or discontinued in a manner that is materially adverse to an investor in the TORF Notes. If the manner in which TORF is calculated is changed or if TORF is discontinued, that change or discontinuance could reduce or otherwise negatively impact the amount of interest that accrues on the TORF Notes, which could adversely affect the return on, value of and market for the TORF Notes.

The secondary trading market for TORF Notes may be limited

As of the date of this Offering Circular, the Issuer is not aware of TORF having been widely used as a reference rate for floating-rate or other types of notes, and it may not be widely used as such in the future. As a result, as of the date of this Offering Circular, very little or no market exists for Japanese yen-denominated notes using TORF as a reference rate. If TORF does not prove to be widely used as a benchmark in securities that are similar or comparable to the TORF Notes, the trading price of the TORF Notes may be lower than those of debt securities with interest rates based on rates that are more widely used.

The market continues to develop in relation to TORF as a reference rate for floating rate and other types of notes

The market continues to develop in relation to TORF as a base rate as an alternative to JPY LIBOR. In particular, market participants may use an alternative reference rates based on TONA, including for

example a compounded average of TONA calculated in arrears, as well as the TONA Averages and TONA Index published by the Quick. In addition, the Tokyo Interbank Offered Rate ("**TIBOR**"), an existing reference rate, is expected to continue to be used by market participants. The market or a significant part thereof may adopt a TONA-based rate or TIBOR. If the market adopts a TONA-based rate, TIBOR or another reference rate, that would likely adversely affect the market price of the TORF Notes.

(e) **Risks relating to KRW CD 91 Rate Notes**

*The following discussion of risks relates to Floating Rate Notes and Notes that bear interest by reference to the KRW CD 91 Rate, being the rate for Korean won certificates of deposit with a 91-day maturity (including ones with a maturity between 80 and 100 days) ("**KRW CD 91 Rate Notes**").*

The long-term future of the KRW CD 91 rate is uncertain

The KRW CD 91 Rate is calculated based on the basic yield data of the Korean won certificates of deposit issued by Korean banks with credit rating of AAA or higher with a 91-day maturity (including ones with a maturity between 80 and 100 days) ("**KRW CD**") submitted by the top ten institutions designated by the Korea Financial Investment Association ("**KOFIA**") based on the volume of KRW CD traded during the immediately preceding year. It has been reported that the volume of KRW CD issuances has diminished in recent years, and the long-term future of the KRW CD 91 Rate is uncertain. On 26 February 2021, the Financial Services Commission of Korea (the "**FSC**") and the Bank of Korea announced that a market participant task force on benchmark interest rate reform had picked an overnight repo rate as the new KRW risk-free rate. Furthermore, on September 2021, the Financial Supervisory Service (the executive arm of the FSC) designated the Korea Overnight Financing Repo Rate (the "**KOFR**") as a critical benchmark which has been published by the Korea Securities Depository since November 2021 and announced on December 2021 that the FSC will try to have the CD rate replaced by the KOFR in the market in the medium to long term. However, at this time, there is uncertainty with respect to the future of the KRW CD 91 Rate, as well as when the KOFR or other rates may become market accepted alternatives to the KRW CD 91 Rate, and it is difficult to predict the effect of any such uncertainty or alternatives on the KRW CD 91 Rate. Any of these developments could have a material adverse effect on the value and the return on the KRW CD 91 Rate Notes.

(g) **Risks relating to the Applicable RFRs Generally**

*The following discussion of risks relates to Floating Rate Notes and Notes for which Compounded Daily is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined. With respect to such Notes, the applicable Reference Rate will be calculated by reference to SOFR, SONIA or TONA (each, an "**Applicable RFR**"), in accordance with the Additional Note Conditions that are specified in Annex 17 and the applicable Final Terms to be applicable to the applicable Reference Rate and Notes bearing interest by reference thereto.*

The Applicable RFRs may be more volatile than other benchmark or market rates

Daily changes in the Applicable RFRs have, on occasion, been more volatile than daily changes in other benchmark or market rates during corresponding periods. In addition, although changes in the Compounded Daily Reference Rates generally are not expected to be as volatile as changes in the Applicable RFRs upon which such rates are based on a daily basis, the return on, value of and market for the Notes bearing interest by reference to a Compounded Daily Reference Rate may fluctuate more than floating-rate debt securities with interest rates based on less volatile rates.

The market continues to develop in relation to the Applicable RFRs as reference rates for floating rate and other types of Notes

The market continues to develop in relation to the Applicable RFRs as reference rates in the capital markets as alternatives to the relevant interbank offered rates. In particular, market participants and other relevant working groups are still exploring alternative reference rates based on the Applicable RFRs. For example, the administrators of SOFR, SONIA and TONA (or authorised market participants) have published compounded indices and/or compounded averages based on such rates. In addition, Quick Corp. publishes TORF, which seeks to measure the market's forward expectation of an average TONA over a designated term and could be used as an alternative to other reference rates based on TONA.

TORF was recommended by the Cross-Industry Committee on Japanese Yen Interest Rate Benchmarks as the first option to replace JPY LIBOR in fallback provisions for floating-rate debt securities linked to JPY LIBOR.

The relevant market or a significant part thereof may adopt an application of an Applicable RFR that differs significantly from that set out in the applicable Final Terms and the Additional Note Conditions for a particular Series of Notes. The Issuer may in the future also issue Notes referencing an Applicable RFR that differ materially in terms of interest determination when compared with any previous Notes referencing such Applicable RFR. The development of the Applicable RFRs as interest reference rates for the relevant bond markets, and the continued development of potentially competing rates – whether based on the Applicable RFRs or otherwise – as well as continued development of the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any Notes that reference an Applicable RFR issued under the Programme from time to time.

As of the date of this Offering Circular, there are multiple market conventions with respect to the implementation of the Applicable RFRs as reference rates for Floating-Rate Notes or other securities. The manner of adoption or application of Applicable RFRs in the relevant bond markets may differ materially compared with the application and adoption of Applicable RFRs in other markets, such as the derivative and loan markets. Investors should carefully consider how any mismatch between the adoption of such Applicable RFRs in the bond, loan and derivatives markets may impact any hedging or other financial arrangement which they may put in place in connection with any acquisition, holding or disposal of Notes referencing an Applicable RFR.

The Applicable RFRs may be modified or discontinued, which could adversely affect the return on, value of or market for such Notes.

The Applicable RFRs, which will be used in the calculation of a Compounded Daily Reference Rate, as so stated in the applicable Final Terms and the applicable Terms and Conditions, and the RFR Compounded Indices, which will be used in the calculation of a Compounded Daily Reference Rate as so stated in the applicable Final Terms and the applicable Terms and Conditions, are published by third-party administrators based on data received by such administrators from sources other than the Issuer, and the Issuer has no control over the methods of calculation, publication schedule, rate revision practices or availability of such Applicable RFRs and RFR Compounded Indices at any time.

The applicable administrator of an Applicable RFR may make methodological or other changes that could change the value of such Applicable RFR, including changes related to the method by which such Applicable RFR is calculated, eligibility criteria applicable to the transactions used to calculate the Applicable RFR, or timing related to the publication of the Applicable RFR (which may include withdrawing, suspending or discontinuing the calculation or dissemination of the Applicable RFR). In addition, the applicable administrator of an Applicable RFR may make any or all of these changes in its sole discretion and without notice, and it has no obligation to consider the interests of investors in any Notes referencing such Applicable RFR in calculating, withdrawing, modifying, amending, suspending or discontinuing such Applicable RFR. There can be no guarantee that the Applicable RFRs will not be modified or discontinued in a manner that is materially adverse to an investor in a Series of Notes with a Compounded Daily Reference Rate that is determined by reference to such Applicable RFR. If the manner in which an Applicable RFR is calculated is changed or if an Applicable RFR is discontinued, that change or discontinuance could reduce or otherwise negatively impact the amount of interest that accrues on an applicable Series of Notes with a Compounded Daily Reference Rate that is determined by reference to such Applicable RFR, which could adversely affect the return on, value of and market for such Series of Notes.

For purposes of the formula used to calculate interest with respect to a Series of Notes with a Compounded Daily Reference Rate that is determined by reference to an Applicable RFR, the Applicable RFR in respect of a particular date will be adjusted for any modifications or amendments to Applicable RFR data that the applicable administrator of such Applicable RFR may publish after the interest rate for that day has been determined in accordance with the Terms and Conditions of the Notes.

Any failure of an Applicable RFR to gain or maintain market acceptance could adversely affect the return on or value of a Series of Notes with a Compounded Daily Reference Rate that is determined

by reference to such Applicable RFR and result in a limited secondary trading market for such Series of Notes.

As overnight risk free cash rates, the Applicable RFRs do not measure bank-specific credit risk and, as a result, are less likely to correlate with the unsecured short-term funding costs of banks. This may mean that market participants would not consider the Applicable RFRs a suitable substitute or successor for the relevant interbank offered rates (such as LIBOR or BBSW), which may, in turn, lead to lessened market acceptance of the Applicable RFRs. As of the date of this Offering Circular, limited or no market precedent exists for securities that use rates based on TONA as the reference rate.

To the extent an Applicable RFR does not gain market acceptance as a benchmark for floating-rate notes, or to the extent such market acceptance declines, the return on and value of a Series of Notes with a Compounded Daily Reference Rate that is determined by reference to such Applicable RFR and the price at which investors can sell such Notes in the secondary market could be adversely affected. In addition, investors in such a Series of Notes may not be able to sell such Notes at all or may not be able to sell such Notes at prices that will provide them with a yield comparable to similar investments that continue to have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk. Further, investors wishing to sell any securities linked to an Applicable RFR in the secondary market will have to make assumptions as to the future performance of such Applicable RFR during the interest payment period in which they intend the sale to take place. As a result, investors may suffer from increased pricing volatility and market risk.

(h) Risks relating to TONA Notes

The following discussion of risks relates to Floating Rate Notes and Notes that bear interest by reference to TONA ("TONA Notes").

The information regarding TONA that the Bank of Japan makes publicly available may be limited

On its website, the Bank of Japan makes available certain information relating to the uncollateralised overnight call rate (also referred to as the Tokyo Overnight Average Rate ("TONA")), including certain information relating to the sources of input data for TONA and how such data is collected and analysed to produce TONA. However, the Bank of Japan does not publish a detailed methodology describing such input data and analysis, its policies and procedures relating to the collection of input data and production of TONA, or how such policies and procedures may change in the future. As a result, investors in the TONA Notes may find it more difficult to obtain information relating to TONA than certain other reference rates.

The composition and characteristics of TONA are not the same as those of JPY LIBOR, and TONA is not expected to be a comparable substitute or replacement for JPY LIBOR

In December 2016, the Japanese Study Group on Risk-Free Reference Rates announced TONA as its preferred risk-free rate for Japanese Yen. The composition and characteristics of TONA are not the same as those of JPY LIBOR. TONA measures the rates of transactions settled on the same day as the trade date and maturing the following business day in the uncollateralised call money market. TONA represents the weighted average of call rates for uncollateralised overnight transactions in Japanese Yen. TONA is not the economic equivalent of JPY LIBOR. While TONA currently is an overnight rate, JPY LIBOR was a forward-looking rate that represents interbank funding for a specified term. As a result, there can be no assurance that TONA will perform in the same way as JPY LIBOR would have at any time, including, without limitation, as a result of changes in interest and yield rates in the market, bank credit risk, market volatility or global or regional economic, financial, political, regulatory, judicial or other events. For the same reasons, TONA is not expected to be a comparable substitute or replacement for JPY LIBOR. In addition, any failure of TONA to gain market acceptance could adversely affect the value of and market for the affected Notes.

(i) Risks relating to SOFR Notes

The following discussion of risks relates to Floating Rate Notes and Notes that bear interest by reference to SOFR ("SOFR Notes").

The selection of a SOFR Benchmark Replacement could adversely affect the return on, value of or market for affected SOFR Notes

If the Issuer or its designee, after consulting with the Issuer, determines that a SOFR Benchmark Transition Event and related SOFR Benchmark Replacement Date have occurred with respect to SOFR, the applicable SOFR Benchmark Replacement will replace the then-current SOFR Benchmark (which will be a rate based on SOFR at the original issue date of the relevant SOFR Notes) for all purposes relating to such SOFR Notes. If a particular SOFR Benchmark Replacement or SOFR Benchmark Replacement Adjustment cannot be determined, then the next-available SOFR Benchmark Replacement or SOFR Benchmark Replacement Adjustment will apply. These replacement rates and adjustments may be selected or formulated by (i) the SOFR Benchmark Replacement Relevant Governmental Body (such as the ARRC), (ii) the International Swaps and Derivatives Association, Inc. ("**ISDA**") or any successor thereto or (iii) in certain circumstances, the Issuer or its designee (which may be the Issuer's affiliate), after consulting with the Issuer.

In addition, the terms of the SOFR Notes expressly authorise the Issuer or its designee (which may be the Issuer's affiliate), after consulting with the Issuer, in connection with a SOFR Benchmark Replacement to make SOFR Benchmark Replacement Conforming Changes with respect to, among other things, the determination of Interest Periods and the timing and frequency of determining rates and making payments of interest and other administrative matters. The application of a SOFR Benchmark Replacement and SOFR Benchmark Replacement Adjustment, and any implementation of SOFR Benchmark Replacement Conforming Changes, could result in adverse consequences to the Rate of Interest or amount of interest payable on the SOFR Notes, which could adversely affect the return on, value of and market for such SOFR Notes and the price at which investors may be able to sell such SOFR Notes.

Moreover, certain determinations, decisions and elections with respect to the SOFR Benchmark Replacement and any SOFR Benchmark Replacement Conforming Changes, or the occurrence or non-occurrence of a SOFR Benchmark Transition Event, may require the exercise of discretion and the making of subjective judgments by the Issuer or its designee (after consulting with the Issuer). Any determination, decision or election made by the Issuer or its designee pursuant to the SOFR benchmark transition provisions set forth in Additional Note Condition 4(c) will, if made by the Issuer, be made in its sole discretion and, if made by the Issuer's designee, be made after consultation with the Issuer and, in each case, will become effective without consent from the holders of the affected SOFR Notes or any other party. The Issuer may designate an entity to make any determination, decision or election that the Issuer has the right to make in connection with the SOFR benchmark transition provisions set forth in Additional Note Condition 4(c). Any designee that the Issuer may appoint in connection with these determinations, decisions or elections may be the Issuer's affiliate. When performing such functions, potential conflicts of interest may exist between the Issuer, its designee and investors in the SOFR Notes and making such potentially subjective determinations may adversely affect the return on, value of and market for the SOFR Notes. All determinations by the Issuer or its designee in the Issuer's or the designee's discretion will be conclusive for all purposes and binding on the Issuer and investors in the applicable SOFR Notes absent manifest error.

Further, (i) the composition and characteristics of any SOFR Benchmark Replacement for a Series of SOFR Notes will not be the same as those of the applicable SOFR rate for a Series of SOFR Notes, the SOFR Benchmark Replacement will not be the economic equivalent of SOFR, there can be no assurance that the SOFR Benchmark Replacement will perform in the same way as SOFR would have at any time and there is no guarantee that the SOFR Benchmark Replacement will be a comparable substitute for SOFR (each of which means that a SOFR Benchmark Transition Event could adversely affect the return on, value of and market for the applicable Series of SOFR Notes), (ii) any failure of the SOFR Benchmark Replacement to gain market acceptance could adversely affect the relevant Series of SOFR Notes, (iii) the SOFR Benchmark Replacement may have a very limited history and the future performance of the SOFR Benchmark Replacement may not be able to be predicted based on historical performance, (iv) the secondary trading market for debt securities linked to the SOFR Benchmark Replacement may be limited and (v) the administrator of the SOFR Benchmark Replacement may make changes that could change the value of the SOFR Benchmark Replacement or discontinue the SOFR Benchmark Replacement and would not have any obligation to consider the interests of investors in the relevant Series of SOFR Notes in doing so.

(j) Risks Relating to Swap Rate Notes

The following discussions of risks relate to Floating Rate Notes for which the applicable Final Terms specify EUR EURIBOR ICE Swap Rate®, GBP SONIA ICE Swap Rate®, U.S. Dollar SOFR ICE Swap

Rate[®], Tokyo Swap Rate (for swaps referencing TONA), the KRW CMS Rate or the Constant Maturity Swap Rate (such rates together, the "**Swap Rates**") to be the Reference Rate (such Notes, the "**Swap Rate Notes**").

Certain of the following discussions of risks relate to sub-categories of Swap Rate Notes, including Floating Rate Notes for which the applicable Final Terms specify the Reference Rate to be:

- GBP SONIA ICE Swap Rate[®], U.S. Dollar SOFR ICE Swap Rate[®] or Tokyo Swap Rate (for swaps referencing TONA) (such rates, together, the "**RFR Swap Rates**" and such Notes, the "**RFR Swap Rate Notes**");
 - GBP SONIA ICE Swap Rate[®], U.S. Dollar SOFR ICE Swap Rate[®] or EUR EURIBOR ICE Swap Rate[®] (such rates together, the "**ICE Swap Rates**" and such Notes, the "**ICE Swap Rate Notes**");
 - Tokyo Swap Rate (for swaps referencing TONA) (such rate, "**TONA TSR**" and such Notes, "**TONA TSR Notes**");
 - EUR EURIBOR ICE Swap Rate[®] (such rate, the "**EUR ICE Swap Rate**" and such Notes, "**EUR ICE Swap Rate Notes**"); and
 - KRW CMS Rate (such rate, the "**KRW CMS Rate**" and such Notes, the "**KRW CMS Rate Notes**")
 - Constant Maturity Swap Rate for the Specified Currency specified in the applicable Final Terms (each such rate, a "**Specified CMS Rate**" and such Notes, "**Specified CMS Rate Notes**").
- (i) Risks Relating to RFR Swap Rate Notes

The following discussion of risks relates to RFR Swap Rate Notes. Investors should carefully consider the following discussion of risks before investing in any such Notes.

The RFR Swap Rates are new benchmarks, and the future performance of the RFR Swap Rates cannot be predicted based on the limited historical information available.

ICE Benchmark Administration ("**IBA**") began publication of the U.S. Dollar SOFR ICE Swap Rate[®] on 8 November, 2021 and the GBP SONIA ICE Swap Rate[®] on 14 December, 2020. On 28 October, 2021, the Refinitiv Benchmark Services (UK) Limited ("**RBSL**") announced publication of TONA TSR, for available tenors, as a production benchmark. As a result, there is limited historical information on which to evaluate the performance of the RFR Swap Rates or on which to base a prediction as to their future performance, which may bear little or no relation to such limited information. The limited historical information is not necessarily indicative of the future performance of the RFR Swap Rates or the value of the RFR Swap Rate Notes, and any historical upward or downward trend in the level of the RFR Swap Rates during any period is not an indication that the level of the applicable benchmark is more or less likely to increase or decrease over the term of the applicable RFR Swap Rate Notes. The actual future levels of the RFR Swap Rates may be lower than any available historical data, and this could adversely affect the return on, value of and market for the affected Notes. An investment in the RFR Swap Rate Notes may involve more risk than investing in Notes linked to benchmarks or indices with established performance records, where a longer history of performance may be available so that investors have more information on which to base an investment decision.

The composition of the RFR Swap Rates is not the same as the U.S. Dollar LIBOR ICE Swap Rate[®], the Sterling LIBOR ICE Swap Rate[®] or the Tokyo Swap Rate (for swaps referencing 6-month JPY interbank offered rates from London banks) (together, the "LIBOR Swap Rates**"), as applicable, and the RFR Swap Rates are not expected to be a comparable substitute or replacement for the LIBOR Swap Rates.**

The composition of the RFR Swap Rates is not the same as the LIBOR Swap Rates, and the RFR Swap Rates are not expected to be a comparable substitute or replacement for the LIBOR Swap Rates.

The U.S. Dollar LIBOR ICE Swap Rate[®] seeks to represent the mid-price for the semi-annual fixed leg of an interest rate swap where the floating leg is based on three-month U.S. dollar LIBOR payable

quarterly, calculated on the basis of a 360-day year consisting of twelve 30-day months. The U.S. Dollar SOFR ICE Swap Rate® seeks to represent the annual fixed leg of an interest rate swap where the floating leg is based on a compounded average of the daily SOFR administered by the Federal Reserve Bank of New York (the "New York Fed") (or any successor administrator) compounded in arrears for twelve months payable annually using standard market conventions, calculated on the basis of the actual number of days elapsed, with a year presumed to comprise 360 days.

The Sterling LIBOR ICE Swap Rate seeks to represent the mid-price for the semi-annual fixed leg of an interest rate swap where the floating leg is based on three-month or six-month Sterling LIBOR payable quarterly, calculated on the basis of a 360-day year consisting of twelve 30-day months. The SONIA ICE Swap Rate seeks to represent the annual fixed leg of an interest rate swap where the floating leg is based on a compounded average of the daily SONIA administered by the BOE (or any successor administrator) compounded in arrears for twelve months payable annually using standard market conventions, calculated on the basis of the actual number of days elapsed, with a year presumed to comprise 360 days.

RBSL ceased publication of the Tokyo Swap Rate (for swaps referencing 6-month JPY interbank offered rates from London banks) ("**JPY LIBOR TSR**") following 30 December, 2021. Prior to its cessation, JPY LIBOR TSR measured the fixed leg of a swap referencing 6 month JPY LIBOR, determined using input data from a panel of seven banks. The Tokyo Swap Rate (for swaps referencing TONA) is a benchmark rate for OIS referencing TONA, and differs in significant respects from JPY LIBOR TSR. TONA, the rate referenced in the swap transactions that Tokyo Swap Rate (for swaps referencing TONA) is designed to represent, measures the rates of transactions settled on the same day as the trade date and maturing the following business day in the uncollateralised call money market. TONA represents the weighted average of call rates for uncollateralised overnight transactions in Japanese yen.

The composition and characteristics of the SOFR, SONIA and TONA rates described above and underlying the RFR Swap Rates are not the same as those of three-month U.S. dollar LIBOR, three-month Sterling LIBOR or six-month JPY LIBOR, as applicable, nor are such SOFR, SONIA and TONA rates the economic equivalent of three-month U.S. dollar LIBOR, three-month Sterling LIBOR or six-month JPY LIBOR, as applicable. Thus, the RFR Swap Rates have been designed with respect to swap transactions referencing rates that differ in significant respects from the rates referenced in the swap transactions with respect to which the LIBOR Swap Rates were designed. As a result, the Rate of Interest on and value of the RFR Swap Rate Notes may perform differently over time from the manner in which the interest rate and value of debt securities with comparable terms and provisions that were linked to the applicable LIBOR Swap Rates would have performed. In addition, any failure of the RFR Swap Rates to gain market acceptance could adversely affect the value of and market for the affected Notes.

The secondary trading market for the RFR Swap Rate Notes may be limited.

Publication of the RFR Swap Rates began recently, and, as of the date of this Offering Circular, use of these rates as reference rates for floating-rate notes is limited. In addition, the RFR Swap Rates may not be widely used as such in the future. If the RFR Swap Rates do not prove to be widely used as a benchmark in securities that are similar or comparable to the RFR Swap Rate Notes, a trading market for the Swap Rate Notes may fail to develop or be maintained, and the trading price of the Swap Rate Notes may be lower than those of debt securities with rates of interest based on rates that are more widely used.

(ii) *Risks Relating to ICE Swap Rate Notes*

The following discussion of risks relates to ICE Swap Rate Notes.

A lack of input data may impact IBA's ability to calculate and publish the ICE Swap Rates for one or more tenors.

The input data for the ICE Swap Rates is based on swaps referencing SOFR, SONIA or EURIBOR, as applicable, as the floating leg. The ICE Swap Rates are dependent on receiving sufficient eligible input data, from the trading venue sources identified by IBA in accordance with the "Waterfall" methodology for each applicable ICE Swap Rate tenor. The ability of the applicable trading venues to provide sufficient eligible input data in accordance with the Waterfall methodology depends on, among other things, there being a liquid market in swap contracts referencing SOFR, SONIA or EURIBOR, as applicable, on such trading venues, which in turn depends, among other things, on there being a liquid market in loans, floating rate debt securities and other financial contracts referencing SOFR, SONIA or

EURIBOR, as applicable. Because SOFR's and SONIA's use as a reference rate for financial contracts began relatively recently and the related market for SOFR and SONIA-based swaps is relatively new, there is limited information on which to assess potential future liquidity in SOFR and SONIA-based swap markets or in the market for SOFR and SONIA-based financial contracts more generally. In addition, although EURIBOR has been reformed in order to comply with the terms of the EU Benchmarks Regulation, its future remains uncertain. It is not known how long EURIBOR will continue in its current form and there is uncertainty with regards to the future liquidity in EURIBOR-based swap markets or in the market for EURIBOR-based financial contracts more generally. If the market for SOFR, SONIA and EURIBOR-based swap contracts is not sufficiently liquid, or if the liquidity in such market proves to be volatile, this could result in the inability of IBA to calculate the ICE Swap Rates on certain occasions, which could materially adversely affect the reliability of ICE Swap Rates, and could adversely affect the return on and value of the ICE Swap Rate Notes and the price at which you are able to sell such Notes in the secondary market, if any. In addition, if SOFR, SONIA or EURIBOR does not maintain market acceptance for use as reference rates for U.S. dollar, sterling or euro-denominated financial contracts, as applicable, uncertainty about SOFR, SONIA or EURIBOR may adversely affect the return on and the value of the ICE Swap Rate Notes.

The information regarding the ICE Swap Rates that IBA makes publicly available is limited.

Certain information and materials relating to the ICE Swap Rates are available on IBA's website at <https://www.theice.com/iba/ice-swap-rate> (including any successor or replacement source, the "**ICE Swap Rate® Website**"). IBA does not make publicly available historical rates for the ICE Swap Rates and has not indicated whether such information will become publicly available in the future. Furthermore, the Issuer has no information on which to base any expectation that any such information will become publicly available in the future. In order to access such information, an investor in the ICE Swap Rate Notes will need to obtain a paid subscription to an IBA service such as Bloomberg Professional Services. In addition, if IBA (or any successor administrator) changes its practices and makes additional rate information available in the future, there can be no assurance that IBA (or any such successor administrator) would continue the practice of making such information publicly available. As a result of this limited publicly available information, it may be difficult for an investor to determine the applicable ICE Swap Rate for a specific date or dates, which could have an adverse impact on the liquidity for the affected Notes.

(iii) *Risks Relating to TONA TSR Notes*

The following discussion of risks relates to TONA TSR Notes.

A lack of input data may impact RBSL's ability to calculate and publish TONA TSR for one or more tenors.

Because TONA TSR is a new reference rate, all potential limitations of such rate are not known. However, RBSL has identified certain potential limitations on TONA TSR. RBSL has stated that determination of TONA TSR is dependent on receiving sufficient input data—consisting of (i) dealer quotes taken from Tradeweb, a dealer-to-client trading platform, and (ii) indicative rates for spot starting TONA OIS contracts cleared by the JSCC taken from two inter-dealer brokers, (Tradition and TP ICAP) and Tradeweb (composite rates)—from the input data sources for each applicable TONA TSR tenor. In this regard, RBSL has stated that the ability of the dealer-to-client trading platforms and inter-dealer brokers to provide accurate input data relies on there being a liquid market in TONA OIS contracts and, in addition, that technical problems or extreme market events may lead to insufficient input data for determination of TONA TSR. In addition, RBSL has stated that, in order for TONA TSR to be a reliable reference rate for TONA OIS rates both of the following conditions should be satisfied: (i) there is liquidity in the market for TONA OIS cleared by JSCC and (ii) the input data from the sources (Tradeweb, Tradition and TP ICAP) are representative of this TONA OIS liquidity. If either of such conditions is not satisfied, this could materially adversely affect the reliability of TONA TSR. The existence of a liquid market for TONA OIS contracts depends, among other things, on there being a liquid market in loans, floating rate notes and other financial contracts referencing TONA. Because TONA's use as a reference rate for financial contracts began relatively recently and the related market for TONA-based OIS is relatively new, there is limited information on which to assess potential future liquidity in TONA-based OIS markets or in the market for TONA-based financial contracts more generally. If the market for TONA-based OIS contracts is not sufficiently liquid, or if the liquidity in such market proves to be volatile, this could result in the inability of RBSL to calculate TONA TSR on

certain occasions and could adversely affect the return on and value of the TONA TSR Notes and the price at which an investor in the TONA TSR Notes is able to sell the TONA TSR Notes in the secondary market, if any. In addition, if TONA does not achieve and maintain market acceptance for use as reference rates for Japanese yen-denominated financial contracts, uncertainty about TONA may adversely affect the return on and the value of the TONA TSR Notes.

The information regarding TONA TSR that RBSL makes publicly available is limited.

Certain Information and materials relating to TONA TSR are available on the website of London Stock Exchange Group plc (the indirect parent company of RBSL) ("LSEG") at <https://www.lseg.com/en/ftse-russell/benchmarks/tokyo-swap-rate> (including any successor or replacement source, the "**TONA TSR Website**"). Hyperlinks to additional pages on the TONA TSR Website or other portions of LSEG's website that provide additional information are available in certain of such information and materials. As of the date of this Offering Circular, RBSL does not make publicly available historical rates for TONA TSR and has not indicated whether such information will become publicly available in the future. Furthermore, the Issuer has no information on which to base any expectation that any such information will become publicly available in the future. In order to access such information, an investor in the TONA TSR Notes will need to obtain a paid subscription to an LSEG service such as Refinitiv Eikon. In addition, if RBSL/LSEG (or any successor administrator) changes its practices and makes additional rate information available in the future, there can be no assurance that RBSL/LSEG (or any such successor administrator) would continue the practice of making such information publicly available. As a result of this limited publicly available information, it may be difficult for an investor in the TONA TSR Notes to determine the Rate of Interest on the TONA TSR Notes for a specific date or dates.

(iv) *Risks Relating to EUR ICE Swap Rate Notes*

The following discussion of risks relates to EUR ICE Swap Rate Notes.

Regulation, reform and the actual or potential discontinuation of EURIBOR may adversely affect the return on, value of and market for EUR ICE Swap Rate Notes.

The EUR EURIBOR ICE Swap Rate® is designed to represent the fixed rate of interest payable on a hypothetical interest rate swap whose floating leg is based on three- or six-month EURIBOR. EURIBOR has been reformed such that it is based on a hybrid methodology. On 13 September 2018, the working group on euro risk-free rates recommended the €STR ("€STR") as the new risk free rate for the euro area. €STR was published for the first time on 2 October 2019. In addition, in response to regulatory scrutiny and applicable legal requirements, the EMMI, as administrator of EURIBOR, conducted a series of consultations on a proposed reformed hybrid methodology for EURIBOR. In July 2019, EMMI published its EURIBOR Benchmark Statement setting forth its reformed hybrid methodology and received regulatory authorisation for the continued administration of EURIBOR. Although EURIBOR has been reformed in order to comply with the terms of the EU Benchmarks Regulation, its future remains uncertain. It is not known how long EURIBOR will continue in its current form. At this time, there is still uncertainty as to what rate or rates may become market accepted alternatives to EURIBOR, and it is impossible to predict the effect of any such alternatives on the value of EURIBOR, and therefore, the values of, and the method of calculating, the EUR EURIBOR ICE Swap Rate®. Any of these developments could have a material adverse effect on the value and the return on the EUR ICE Swap Rate Notes.

(v) *Risks Relating to KRW CMS Rate Notes*

The following discussion of risks relates to KRW CMS Rate Notes.

Regulation, reform and the actual or potential discontinuation of the 91-day Korean won CD rate for the applicable Specified CMS Rate may adversely affect the return on, value of and market for KRW CMS Rate Notes

Over the past decade, certain interest rates, such as LIBOR and EURIBOR, which are deemed to be "benchmark" rates have been the subject of national, international and other regulatory guidance, reform and other actions. This has resulted in regulatory reform and changes to—and cessation of—many existing benchmarks. In addition, in many markets new benchmark reference rates, such as SOFR,

SONIA and TONA, have increasingly been adopted as replacements for LIBOR, EURIBOR and other benchmarks that previously were market standard rates.

The 91-day Korean won certificate of deposit ("CD") rate is the floating rate leg for swap transaction upon which the KRW CMS Rate is based, is uncertain. It has been reported that the volume of Korean won CD transactions has diminished in recent years, and that the long-term future of the 91-day Korean won rate is uncertain. On 26 February 2021, the Korea Financial Services Commission ("FSS") and the Bank of Korea announced that a market participant task force on benchmark interest rate reform had picked an overnight repo rate as the new risk-free rate. Furthermore, the FSS designated on September 2021, the Korea Overnight Financing Repo Rate ("KOFR") as a critical benchmark which has been published by the Korea Securities Depository since November 2021 (<http://www.kofr.kr>) and announced on December 2021 that the FSS will try to have the CD rate replaced by KOFR in the market in the medium to long term. However, at this time, there is uncertainty with respect to the future of the 91-day Korean won CD rate, as well as when KOFR or other rates may become market accepted alternatives to the CD rate, and it is impossible to predict the effect of any such uncertainty or alternatives on the value of the KRW CMS Rate, and therefore, the values of, and the method of calculating, the KRW CMS Rate. Any of these developments could have a material adverse effect on the value and the return on the KRW CMS Rate Notes.

Publicly available information regarding the bid and ask rates from which the KRW CMS Rate is calculated is limited

The KRW CMS Rate is calculated as the arithmetic mean of the bid and ask rates for a Korean won deliverable interest rate swap with a term of the Specified Maturity (quoted on an Actual/365 (Fixed) day count basis) where the floating leg is based on the 91-day Korean won CD rate, as provided by Tullett Prebon Information and appearing on Bloomberg Page "GDCO 4572 33". Tullett Prebon Information does not make publicly available any historical rate information with respect to the KRW CMS Rate, or any information relating to the data/information that is used to calculate or determine the bid and ask rates that it provides to Bloomberg, the sources from which such data/information is obtained, how it calculates such bid and ask rates, or its publication practices with respect thereto. A paid subscription to an information services provider such as Bloomberg is required to obtain historical rate information relating to the bid and ask rates upon which the KRW CMS Rate is based. As a result of this extremely limited publicly available information, it may be difficult for an investor in the KRW CMS Rate Notes to analyse potential risks relating to such rate or determine the Rate of Interest on the KRW CMS Rate Notes for a specific date or dates.

The KRW CMS Rate is not an administered rate and is not subject to regulation

Certain swap rate benchmarks, such as the ICE Swap Rates and TONA TSR, are administered by regulated benchmark administrators such as IBA and RBSL. Such swap rate benchmarks are subject to regulation under applicable law, including the UK Benchmarks Regulation and EU Benchmarks Regulation. Regulated swap rate benchmarks generally must be calculated pursuant to a methodology and meet certain standards relating to, among other matters, methodology, representativeness, input data and governance and oversight. Neither the KRW CMS Rate nor the bid and ask rates from which the KRW CMS rate is calculated are administered by a regulated benchmark administrator, and they are not subject to regulation. As a result, Tullett Prebon Information, the provider of the bid and ask rates from which the KRW CMS Rate is calculated has wide discretion with respect to the methodology it uses to calculate such bid and ask rates, the data/information that it uses to calculate or determine such bid and ask rates, the sources from which it obtains such data/information and other matters. As a result, it is possible that the KRW CMS Rate may be less robust, less representative and/or more susceptible to manipulation than regulated benchmarks published by regulated benchmark administrators. In addition, the KRW CMS Rate may be more easily influenced by a single transaction or price quotation or small number of transactions or price quotations than typically would be the case for a regulated swap rate benchmark administered by a regulated benchmark administrator. These factors may make performance of the KRW CMS Rate more unpredictable, which could have a material adverse effect on the value and the return on the KRW CMS Rate Notes.

(vi) *Risks Relating to Specified CMS Rate Notes*

The following discussion of risks relates to Specified CMS Rate Notes.

The Specified CMS Rate may be a new rate and, if so, the composition and characteristics might not be the same as other swap rates for the Specified Currency.

The Specified CMS Rate specified in the applicable Final Terms may have existed for a limited amount of time prior to issuance of the applicable Specified CMS Rate Notes. In such a case, there may be very limited historical information on which to evaluate the performance of such Specified CMS Rate or on which to base a prediction as to its future performance, which may bear little or no relation to such limited information. The very limited historical information will not necessarily be indicative of the future performance of such Specified CMS Rate or the value of the Specified CMS Rate Notes, and any historical upward or downward trend in the level of such Specified CMS Rate during any period will not be an indication that the level of such rate is more or less likely to increase or decrease over the term of the applicable Series of Specified CMS Rate Notes. The actual future levels of a Specified CMS Rates may be lower than any available historical data, and this could adversely affect the return on, value of and market for the affected Specified CMS Rate Notes. An investment in Specified CMS Rate Notes may involve more risk than investing in Notes linked to benchmarks, rates or indices with established performance records, where a longer history of performance may be available so that investors have more information on which to base an investment decision.

If Specified CMS Rate is specified in the applicable Final Terms to be the Reference Rate, there may already be one or more swap rates used for the Specified Currency ("**Existing Swap Rates**"). The composition and characteristics of a Specified CMS Rate may not be the same as any Existing Swap Rates for the Specified Currency, and the Specified CMS Rate may not be the economic equivalent, or a comparable substitute or replacement for, such Existing Swap Rates.

The Existing Swap Rate(s) with respect to a Specified CMS Rate may seek to represent a rate that differs in significant respects from the rate underlying swap transactions that such Specified CMS Rate seeks to measure. For example, a Specified CMS Rate may seek to represent the fixed rate leg of an interest rate swap where the floating leg is based on a risk-free rate, whereas the Existing Swap Rate may seek to measure the fixed rate leg of an interest rate swap where the floating leg is based on a forward-looking term rate that includes a credit risk component. In addition, the Existing Swap Rate may refer to different day count and payment conventions from those referred to by the applicable Specified CMS Rate. Thus, it is possible that a Specified CMS Rate will have been designed with respect to swap transactions that differ in fundamental and significant respects from the rate referenced in the swap transactions with respect to which the Existing Swap Rates were designed. As a result, the Rate of Interest on and value of Specified CMS Rate Notes may perform differently over time from the manner in which the interest rate and value of debt securities with comparable terms and provisions that were linked to the Existing Swap Rates would perform.

Regulation, reform and the actual or potential discontinuation of the floating rate leg for the applicable Specified CMS Rate may adversely affect the return on, value of and market for Specified CMS Rate Notes.

Over the past decade, certain interest rates, such as LIBOR and EURIBOR, which are deemed to be "benchmark" rates have been the subject of national, international and other regulatory guidance, reform and other actions. This has resulted in regulatory reform and changes to many existing benchmarks. In addition, in many markets new benchmark reference rates, such as SOFR, SONIA and TONA, have increasingly been adopted as replacements for LIBOR, EURIBOR and other benchmarks that previously were market standard rates. At this time, there is still uncertainty as to the floating rate leg with respect to a Specified CMS Rate, and what rate or rates may become market accepted alternatives to existing rates, and it is impossible to predict the effect of any such uncertainty or alternatives on the value of the Specified CMS Rate, and therefore, the values of, and the method of calculating, the Specified CMS Rate. Any of these developments could have a material adverse effect on the value and the return on the Specified CMS Rate Notes.

The information regarding the Specified CMS Rate that the Designated Constant Maturity Swap Administrator or the Designated Constant Maturity Swap Provider, as applicable, makes publicly available may be extremely limited.

Certain Information and materials relating to the Specified CMS Rate may be available on the website of the Designated Constant Maturity Swap Administrator or the Designated Constant Maturity Swap Provider, as applicable. Any such information that is made available may be extremely limited. For

example, such website may not provide historical rate information with respect to the Specified CMS Rate and may not provide any information relating to the data/information that is used to calculate or determine the Specified CMS Rate, the sources from which such data/information is obtained, how the Specified CMS Rate is calculated, and publication practices with respect thereto. A paid subscription to an information services provider such as Bloomberg or Refinitiv may be required to obtain historical rate information relating to the applicable Specified CMS Rate. In addition, if the Designated Constant Maturity Swap Administrator or the Designated Constant Maturity Swap Provider, as applicable, does provide any information relating to the applicable Specified CMS Rate, such Designated Constant Maturity Swap Administrator or the Designated Constant Maturity Swap Provider may change its practices in the future and cease providing such information. If the publicly available information relating to the applicable Specified CMS Rate is limited, it may be difficult for an investor in the Specified CMS Rate Notes to analyse potential risks relating to such rate or determine the Rate of Interest on the Specified CMS Rate Notes for a specific date or dates.

The Specified CMS Rate may not be an administered rate and may not be subject to regulation.

Certain swap rate benchmarks, such as the ICE Swap Rates and TONA TSR, are administered by regulated benchmark administrators such as IBA and RBSL. Such swap rate benchmarks are subject to regulation under applicable law, including the UK Benchmarks Regulation and EU Benchmarks Regulation. Regulated swap rate benchmarks generally must be calculated pursuant to a methodology and meet certain standards relating to, among other matters, methodology, representativeness, input data and governance and oversight. The Specified CMS Rate may not be administered by a regulated benchmark administrator and may not be subject to regulation. As a result, the publisher or provider of Specified CMS Rate may have wide discretion with respect to the methodology it uses to calculate such Specified CMS Rate, the data/information that it uses to calculate or determine the Specified CMS Rate, the sources from which it obtains such data/information and other matters. As a result, it is possible that an applicable Specified CMS Rate may be less robust, less representative and/or more susceptible to manipulation than regulated benchmarks published by regulated benchmark administrators. In addition, depending on the methodology used by the publisher or provider of an applicable Specified CMS Rate and the liquidity of the market for swaps that such Specified CMS Rate is designed to measure, such Specified CMS Rate may be more easily influenced by a single transaction or price quotation or small number of transactions or price quotations than typically would be the case for a regulated swap rate benchmark administered by a regulated benchmark administrator. These factors may make performance of an applicable Specified CMS Rate more unpredictable, which could have a material adverse effect on the value and the return on the Specified CMS Rate Notes.

(vii) *Risk Relating to Swap Rate Notes*

The following discussion of risks relates to all Swap Rate Notes.

The Swap Rates may be modified or discontinued, which could adversely affect the return on, value of or market for the Swap Rate Notes.

The applicable administrator, publisher or provider for any Swap Rate (or any successor administrator) may make methodological or other changes that could change the value of an applicable Swap Rate, including changes related to the method by which such rate is calculated, eligibility criteria applicable to the transactions used to calculate such rate, including the trading venues for such transactions, or timing related to the determination or publication of such rate, or may cease the calculation or dissemination of such rate. Depending on the circumstances, such change or cessation could be implemented with little or no public notice or consultation. Any such changes may result in a reduction of the applicable Swap Rate and, in turn, reduce the amount of interest payable on the Swap Rate Notes, which may adversely affect the return on, value of and market for the Swap Rate Notes. In addition, the Swap Rates are determined by the applicable administrator based on data received from sources other than the Issuer, and the Issuer does not have any control over the methods of calculation, publication schedule, rate revision practices or availability of such data.

The Issuer or its affiliates may publish research reports that could affect the market value of the Swap Rate Notes.

The Issuer or one or more of its affiliates may, at present or in the future, publish research reports with respect to movements in interest rates generally, or certain Swap Rates specifically. This research may

be modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding Notes with Rates of Interest determined by reference to certain Swap Rates. Any of these activities may affect the market value of the Swap Rate Notes.

If the applicable Swap Rate does not appear on the applicable Relevant Screen Page at the Relevant Time, and a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have not occurred, the applicable Swap Rate will be determined by the Calculation Agent (which is one of the Issuer's affiliates) using alternative methods, which will involve the exercise of discretion by the Calculation Agent.

If the applicable Swap Rate does not appear on the Relevant Screen Page at the specified time on an applicable Interest Determination Date (for example, as a result of insufficient liquidity in the underlying applicable swap contracts market) and a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have not occurred with respect to the Swap Rate, the Calculation Agent will determine the Swap Rate for such applicable Interest Determination Date in its sole discretion, after consulting such sources as it deems comparable to the Designated Swap Rate Page or to the sources from which the administrator, publisher or provider of such rate obtains the swap rate input data used by the administrator, publisher or provider to calculate such rate, or any other source or data it determines to be reasonable (including, if applicable, the Swap Rate that was most recently published by the administrator of such rate) for the purpose of estimating such rate. This method of determining the Swap Rate may result in interest payments on the Swap Rate Notes that are higher than, lower than or that do not otherwise correlate over time with the interest payments that would have been made on the Swap Rate Notes if the Swap Rate had been published in accordance with the administrator, publisher or provider of such Swap Rate's (or any successor administrator's) usual policies and procedures governing the determination and publication of such rate and appeared on the Relevant Screen Page at the specified time. In addition, in determining the Swap Rate in this manner, the Calculation Agent may have economic interests that are adverse to the Holder's interests.

If a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date are determined to have occurred with respect to an applicable Swap Rate, the Constant Maturity Swap Replacement may not be a suitable replacement for such rate.

If the Issuer or its designee (after consulting with the Issuer) determines that a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have occurred with respect to the applicable Swap Rate, then the applicable Constant Maturity Swap Replacement will replace the Swap Rate for all purposes relating to the Swap Rate Notes in respect of such determination on such date and all determinations on all subsequent dates. The Constant Maturity Swap Replacement will be the alternate rate of interest that has been selected by the Issuer or its designee (after consulting with the Issuer) as an industry-accepted replacement for the applicable Swap Rate for floating-rate notes denominated in the same currency as such Swap Rate at such time, plus the applicable Constant Maturity Swap Replacement Adjustment (if any). After determination of the Constant Maturity Swap Replacement, or such substitute rate or substitute rate value, as applicable, interest on the Swap Rate Notes will no longer be determined by reference to the applicable Swap Rate, but instead will be determined by reference to the applicable Constant Maturity Swap Replacement. If the Issuer or its designee (after consulting with the Issuer) determines that there is no such replacement rate as of any applicable date of determination, then the Issuer or its designee (after consulting with the Issuer) will determine a substitute rate or substitute rate value to be used in place of the applicable Swap Rate for that date of determination after consulting such sources as the Issuer or its designee (after consulting with the Issuer) deems comparable to the sources (if any) on which such rate customarily was published by the administrator or provider, as applicable, of such Swap Rate or authorised distributors prior to the applicable Constant Maturity Swap Transition Event and Constant Maturity Swap Replacement Date or to the sources from which the administrator or provider, as applicable, of such rate obtains the swap rate input data used by the administrator or provider, as applicable to calculate or publish such rate or information, or any other source or data the Issuer or its designee (after consulting with the Issuer) determines to be reasonable (including, if applicable, the applicable Swap Rate that was most recently published by the administrator or provider of such rate) for the purpose of determining such substitute rate or substitute rate value.

There is no assurance that any Constant Maturity Swap Replacement will be similar to the initial stated Swap Rate in any respect as it is determined and published by the applicable administrator, publisher or provider of such Swap Rate as of the date of this Offering Circular, or that any Constant Maturity Swap

Replacement will produce the economic equivalent of such Swap Rate as a reference rate for determining the Rate of Interest on the Swap Rate Notes or otherwise be a suitable replacement or successor for such rate. In addition, it is possible that, at the time of the occurrence of a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date, no industry-accepted interest rate as a replacement for the applicable Swap Rate will exist and there may be disagreement regarding the selection of a replacement rate for such Swap Rate. Notwithstanding the foregoing, the determination of the Constant Maturity Swap Replacement will become effective without the consent of the Holders of the Notes of any other party. Use of the Constant Maturity Swap Replacement may result in interest payments on the Swap Rate Notes that are higher than, lower than or that do not otherwise correlate over time with the interest payments that would have been made on such Swap Rate Notes in the absence of a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date.

In addition, although the benchmark transition provisions set forth in Additional Notes Condition 4(b) provide for a Constant Maturity Swap Replacement Adjustment to be added to the Unadjusted Constant Maturity Swap Replacement, such Constant Maturity Swap Replacement Adjustment may be zero or negative, and there is no guarantee that the Constant Maturity Swap Replacement Adjustment (if any) will make the Unadjusted Constant Maturity Swap Replacement equivalent to the initial stated Swap Rate as it is calculated and published by the applicable administrator, publisher or provider of such Swap Rate as of the date of this Offering Circular.

(k) **Risks relating to Notes for Which Compounded Daily Is Specified in the Applicable Final Terms as the Manner in Which the Rate of Interest Is To Be Determined**

The following discussion of risks relates to Floating Rate Notes and Notes for which Compounded Daily is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined (including, for the avoidance of doubt, such Notes for which Index Determination is specified as the Determination Convention).

Where Compounded Daily is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Compounded Daily Reference Rate will be based on a compounded average of the Applicable RFR, which is relatively new in the marketplace.

Where Compounded Daily is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, for each Interest Period, the Rate of Interest on the relevant Series of Notes will be based on a compounded average of the Applicable RFR calculated as described in Additional Note Condition 3(b). For this and other reasons, the Rate of Interest on such a Series of Notes during any Interest Period may not be the same as the rate of interest on other investments bearing interest at a rate based on the Applicable RFR that use an alternative method to determine the applicable Rate of Interest. Further, if the Applicable RFR in respect of a particular date that is used to calculate the applicable Compounded Daily Reference Rate with respect to a Series of Notes is negative, the inclusion of the Applicable RFR in the calculation of the applicable Compounded Daily Reference Rate for the applicable Interest Period will reduce the Rate of Interest and the interest payable on such Series of Notes for such Interest Period.

The method for calculating a rate of interest based upon a Compounded Daily Reference Rate (for example, conditions relating to payment delays, observation periods/lookbacks and/or lockout/suspension periods) in market precedents varies. In addition, limited or no market precedent exists for securities that use certain Compounded Daily Reference Rates (in particular those based on TONA) as the reference rate. The variation in the market practice could adversely affect the return on, value of and market for Notes using a Compounded Daily Reference Rate. In addition, the specific formula and related Determination Conventions (for example, Payment Delay, Observation Period, Lag, Rate Cut-Off or Index Determination) used for a Series of Notes with a Compounded Daily Reference Rate that the Issuer may issue may not be widely adopted (or not be adopted at all) or may not continue to be utilized by other market participants. Adoption by the market of, or transition by the market to, a different calculation method from the formula and Determination Convention applicable to a particular Series of Notes with a Compounded Daily Reference Rate likely would adversely affect the market value of such Series of Notes.

In addition, if the Determination Convention with respect to a Note is specified in the applicable Final Terms to be Index Determination, the Compounded Daily Reference Rate will be determined by reference to one of the following compounded indices (as specified in the applicable Final Terms), each

of which began publication only recently: the SOFR Index (began publication 20 March, 2020), SONIA Compounded Index (began publication 3 August, 2020) or the TONA Compounded Index (began publication 15 March, 2021) (together, the "**RFR Compounded Indices**"). As of the date of this Offering Circular, the TONA Compounded Index has not been widely adopted by market participants, and it may not be widely adopted in the future. If the market adopts a different calculation method, it would likely adversely affect the market value of the applicable Series of Notes.

Interest payments due on a Series of Notes with a Compounded Daily Reference Rate will be determined only at the end of the relevant Interest Period.

Interest payments due on a Series of Notes with a Compounded Daily Reference Rate will be determined only at the end of the relevant Interest Period. Therefore, investors in any Series of Notes with a Compounded Daily Reference Rate will not know the amount of interest payable with respect to each Interest Period until shortly prior to the related Interest Payment Date, and it may be difficult for investors in such Notes to estimate reliably the amounts of interest that will be payable on each such Interest Payment Date at the beginning of or during the relevant Interest Period. In addition, some investors may be unwilling or unable to trade such Notes without changes to their information technology systems, both of which could adversely impact the liquidity and trading price of any Series of Notes with a Compounded Daily Reference Rate.

With respect to a Series of Notes with a Compounded Daily Reference Rate and for which the applicable Determination Convention is Payment Delay or Rate Cut-Off, it will not be possible to calculate accrued interest with respect to any period until after the applicable Rate Cut-Off Date or the end of such period, as applicable.

With respect to a Series of Notes with a Compounded Daily Reference Rate and for which the applicable Determination Convention is Payment Delay or Rate Cut-Off, because the Applicable RFR in respect of a given day generally will not be published until the Banking Day immediately following such day, it will not be possible to calculate accrued interest with respect to any period for such Notes until after the Rate Cut-Off Date or the end of such period, which may adversely affect the ability to trade such Notes in the secondary market.

With respect to a Series of Notes with a Compounded Daily Reference Rate using a Determination Convention for which a Rate Cut-Off Date is applicable, pursuant to the formula used to determine the applicable Compounded Daily Reference Rate for such Series of Notes for an applicable Interest Period, the Applicable RFR used in such calculation for any day from, and including, the applicable Rate Cut-Off Date to, but excluding, the relevant Interest Payment Date (or Maturity or Optional Redemption Date, if applicable) will be the Applicable RFR for the applicable Rate Cut-Off Date, determined in accordance with the provisions of the applicable Determination Convention.

The formula used to determine the Reference Rate for any Series of Notes with a Compounded Daily Reference Rate using the Payment Delay Determination Convention employs a Rate Cut-Off Date for the final Interest Period. In addition, the formula used to determine the Reference Rate for any Series of Notes with a Compounded Daily Reference Rate using the Rate Cut-Off Determination Convention employs, and the formula used to determine the Reference Rate for any Series of Notes with a Compounded Daily Reference Rate using the Lag Determination Convention may employ, if so specified in the applicable Final Terms, a Rate Cut-Off Date for each Interest Period with respect to such Notes.

A holder of any Series of Notes with a Compounded Daily Reference Rate using the Payment Delay Determination Convention will not receive the benefit of any increase in the level of the Applicable RFR on any date subsequent to the applicable Rate Cut-Off Date in connection with the determination of the interest payable with respect to the final Interest Period. A holder of any Series of Notes with a Compounded Daily Reference Rate using the Rate Cut-Off Determination Convention or, if the applicable Final Terms specifies that a Rate Cut-Off Date is applicable, the Lag Determination Convention, will not receive the benefit, in connection with the determination of the interest payable with respect to any Interest Period, of any increase in the level of the Applicable RFR on any date subsequent to the applicable Rate Cut-Off Date. The amount of interest that may otherwise be payable with respect to a particular Interest Period for an applicable Series of Notes may be reduced as a result of the application of an applicable Rate Cut-Off Date.

Holders of a Series of Notes with a Compounded Daily Reference Rate using the Payment Delay Determination Convention will receive payments of interest on a delayed basis.

The Interest Payment Dates for any Series of Notes with a Compounded Daily Reference Rate using the Payment Delay Determination Convention with respect to the determination of the Rate of Interest and interest payments will be two Business Days (or such other number of Business Days as the Issuer may specify in the applicable Final Terms) after the Interest Period Demarcation Date at the end of each Interest Period for such Series. This convention differs from the interest payment convention that has been used historically for floating-rate debt securities with rates of interest based on other benchmark or market rates, such as LIBOR, where interest typically has been paid on a fixed day that immediately follows the final day of the applicable Interest Period. As a result, holders of a Series of Notes with a Compounded Daily Reference Rate using the Payment Delay Determination Convention will receive payments of interest on a delayed basis as compared to traditional floating-rate debt securities without the Payment Delay Determination Convention in which they previously may have invested.

(1) Risks relating to General Benchmark Transition Provisions Set Forth in Additional Note Condition 4(a)

The following discussion of risks relates to Additional Note Condition 4(a) (Benchmark Replacement – General), which is applicable to the following types of Notes (such Notes, "General Benchmark Replacement Provision Notes"):

- (i) *Floating Rate Notes and Notes for which the Reference Rate specified in the applicable Final Terms is Compounded Daily SONIA, Compounded Daily TONA, EURIBOR, the KRW CD 91 Rate or TORF;*
- (ii) *Notes for which any of the Reference Rates identified in (i) above or SONIA or TONA is otherwise to be used in the calculation of any amounts due under such Notes; or*
- (iii) *Notes for which "Benchmark Replacement – General" provisions are specified to be applicable in the applicable Final Terms.*

The selection of a General Benchmark Replacement could adversely affect the return on, value of or market for affected Notes

If, with respect to a Series of General Benchmark Replacement Provision Notes, the Issuer or its designee, after consulting with the Issuer, determines that a General Benchmark Transition Event and related General Benchmark Replacement Date have occurred with respect to the General Benchmark set forth in the applicable Final Terms for such Series as of the Issue Date of such Series, the applicable General Benchmark Replacement will replace such General Benchmark for all purposes relating to such Notes. If a particular General Benchmark Replacement or General Benchmark Replacement Adjustment cannot be determined, then the next-available General Benchmark Replacement or General Benchmark Replacement Adjustment will apply. These replacement rates and adjustments may be selected or formulated by (i) the General Relevant Governmental Body, (ii) ISDA or any successor thereto or (iii) in certain circumstances, the Issuer or its designee (which may be the Issuer's affiliate), after consulting with the Issuer.

In addition, the terms of the General Benchmark Replacement Provision Notes expressly authorize the Issuer or its designee (which may be the Issuer's affiliate), after consulting with the Issuer, in connection with a General Benchmark Replacement to make General Benchmark Replacement Conforming Changes with respect to, among other things, the determination of Interest Periods and the timing and frequency of determining rates and making payments of interest and other administrative matters. The application of a General Benchmark Replacement and General Benchmark Replacement Adjustment, and any implementation of General Benchmark Replacement Conforming Changes, could result in adverse consequences to the Rate of Interest or amount of interest payable on the General Benchmark Replacement Provision Notes, which could adversely affect the return on, value of and market for such General Benchmark Replacement Provision Notes, and the price at which investors may be able to sell such General Benchmark Replacement Provision Notes.

Moreover, certain determinations, decisions and elections with respect to the General Benchmark Replacement and any General Benchmark Replacement Conforming Changes, or the occurrence or non-

occurrence of a General Benchmark Transition Event, may require the exercise of discretion and the making of subjective judgments by the Issuer or its designee (after consulting with the Issuer). Any determination, decision or election made by the Issuer or its designee pursuant to the general benchmark transition provisions set forth in Additional Note Condition 4(a) will, if made by the Issuer, be made in its sole discretion and, if made by the Issuer's designee, be made after consultation with the Issuer and, in each case, will become effective without consent from the Holders of the affected General Benchmark Replacement Provision Notes or any other party. The Issuer may designate an entity to make any determination, decision or election that the Issuer has the right to make in connection with the general benchmark transition provisions set forth in Additional Note Condition 4(a). Any designee that the Issuer may appoint in connection with these determinations, decisions or elections may be the Issuer's affiliate. When performing such functions, potential conflicts of interest may exist between the Issuer, its designee and investors in the General Benchmark Replacement Provision Notes and making such potentially subjective determinations may adversely affect the return on, value of and market for the General Benchmark Replacement Provision Notes. All determinations by the Issuer or its designee in the Issuer's or the designee's discretion will be conclusive for all purposes and binding on the Issuer and investors in the applicable General Benchmark Replacement Provision Notes absent manifest error.

Further, (i) the composition and characteristics of any General Benchmark Replacement for a Series of General Benchmark Replacement Provision Notes will not be the same as those of the General Benchmark set forth in the applicable Final Terms for such Series as of the Issue Date of such Series, the General Benchmark Replacement will not be the economic equivalent of such General Benchmark for a Series of General Benchmark Replacement Provision Notes, there can be no assurance that such General Benchmark Replacement will perform in the same way as such General Benchmark for a Series of General Benchmark Replacement Provision Notes would have at any time and there is no guarantee that the General Benchmark Replacement will be a comparable substitute for such General Benchmark for a Series of General Benchmark Replacement Provision notes (each of which means that a General Benchmark Transition Event could adversely affect the return on, value of and market for the applicable Series of General Benchmark Replacement Provision Notes), (ii) any failure of the General Benchmark Replacement to gain market acceptance could adversely affect the relevant Series of General Benchmark Replacement Provision Notes, (iii) the General Benchmark Replacement may have a very limited history and the future performance of the General Benchmark Replacement may not be able to be predicted based on historical performance, (iv) the secondary trading market for debt securities linked to the General Benchmark Replacement may be limited and (v) the administrator of the General Benchmark Replacement may make changes that could change the value of the General Benchmark Replacement or discontinue the General Benchmark Replacement and would not have any obligation to consider the interests of investors in the relevant series of General Benchmark Replacement Provision Notes in doing so.

DESCRIPTION OF THE COLLATERAL ARRANGEMENTS RELATING TO SECURED INSTRUMENTS

The following is a description of the security and collateral arrangements in relation to Instruments (such Instruments being hereinafter referred to as Secured Instruments) to which the Secured Instruments Conditions are specified as being applicable in the applicable Final Terms.

Terms used but not otherwise defined in this description shall have the meaning given to them in the relevant Secured Instruments Conditions.

1. General

MLBV may issue Secured Notes and Secured W&C Instruments. References herein to "**Issuer**" shall be to MLBV.

Each Series of Secured Instruments will be issued by the Issuer and will be secured by a segregated pool of collateral assets (the "**Collateral Assets**") provided by Merrill Lynch International in its capacity as Secured Instruments Collateral Provider (the "**Secured Instruments Collateral Provider**"). The Secured Instruments Collateral Provider has entered into a custody agreement with The Bank of New York Mellon, London Branch (in such capacity, the "**Custodian**"), which provides for the establishment of cash accounts and securities accounts in the name of the Secured Instruments Collateral Provider. For each Series of Secured Instruments, the Secured Instruments Collateral Provider shall instruct The Bank of New York Mellon, London Branch (in such capacity, the "**Collateral Agent**") to open segregated collateral accounts (each, a "**Collateral Account**") in accordance with the provisions of a triparty account control agreement to be entered into between the Secured Instruments Collateral Provider, the Collateral Agent and the Security Agent (as defined below) (each, a "**Triparty Account Control Agreement**"). Each Series of Secured Instruments will benefit from a deed of charge (each a "**Deed of Charge**"), which will be governed by and under the jurisdiction of English law, granted by the Secured Instruments Collateral Provider. Under each Deed of Charge, the Secured Instruments Collateral Provider will grant first ranking security over the Collateral Assets contained in the Collateral Account for the relevant Series of Secured Instruments. Secured Instruments may be issued under the (a) Additional Terms and Conditions for Secured Static/Floating Instruments set out in Annex 13 to the Offering Circular ("**Secured Static/Floating Instruments Conditions**"), pursuant to which the Collateral Assets will be separated into MTM Collateral Assets and Static Collateral Assets and (b) Additional Terms and Conditions for Secured Fully Floating Instruments set out in Annex 14 to the Offering Circular ("**Secured Fully Floating Instruments Conditions**" and, together with the Secured Static/Floating Instruments Conditions, the "**Secured Instruments Conditions**").

2. Appointment of a Security Agent

In relation to each Series of Secured Instruments, The Bank of New York Mellon has been appointed as security agent (the "**Security Agent**") and has undertaken to carry out the duties of Security Agent in respect of such Secured Instruments under a New York law governed security agency agreement entered into between, *inter alia*, the Issuers, the Secured Instruments Collateral Provider and the Security Agent (the "**Security Agency Agreement**").

In relation to each Series of Secured Instruments, the security granted under each Deed of Charge will be granted in favour of the Security Agent or any successor thereto on behalf of itself and the relevant Holders of the Secured Instruments and the other relevant Secured Parties (as defined in the relevant Secured Instruments Conditions) under the Security Agency Agreement.

In performing its role under the Programme, the Security Agent does not act as an advisor to or fiduciary or trustee for the Holders of the Secured Instruments (either as a Series or individually) or any other party and nothing in any of the documents relating to the Programme shall be interpreted to constitute the Security Agent as a trustee or fiduciary of the Issuer, the Secured Instruments Collateral Provider, the Holders of the Secured Instruments or any other party.

3. Nature of Collateral Assets

The Collateral Assets held in a Collateral Account and secured pursuant to a Deed of Charge are together referred to as the "**Collateral Pool**".

(a) **Secured Static/Floating Instruments Conditions**

In respect of Secured Instruments to which the Secured Static/Floating Instruments Conditions apply, a Collateral Pool shall be made up of (i) Static Collateral Assets and (ii) MTM Collateral Assets.

The Static Collateral Assets shall comprise of (x) a single debt security (an "**Eligible Debt Security**") or a basket of Eligible Debt Securities (a "**Basket of Eligible Debt Securities**") issued by the relevant entity or entities and having the ISIN(s) specified in the applicable Final Terms and (y) debt securities that satisfy all of the Eligibility Criteria (as defined below) applicable to a certain class or type of Eligible MTM Collateral Assets (as defined below) as specified in the applicable Final Terms. Such Static Collateral Assets are referred to as "**Eligible Static Collateral Assets**". The MTM Collateral Assets may comprise of:

- cash;
- debt securities (including, but not limited to, government bonds, corporate bonds, covered bonds and asset backed securities);
- equity securities, shares, units or interests in a fund; and/or
- any other negotiable financial instruments in book entry-form.

The MTM Collateral Assets must satisfy the eligibility criteria (the "**Eligibility Criteria**") specified in the applicable Final Terms relating to such Series of Secured Instruments. MTM Collateral Assets satisfying the relevant Eligibility Criteria are referred to as "**Eligible MTM Collateral Assets**".

The Eligibility Criteria specified in the applicable Final Terms will set out the criteria which must be met for MTM Collateral Assets to constitute Eligible MTM Collateral Assets and may include limitations on the type of MTM Collateral Assets that may be held, the maturity of the MTM Collateral Assets, the liquidity of the MTM Collateral Assets, requirements regarding the jurisdiction of the issuer of the MTM Collateral Assets or its guarantor or the credit rating of the obligor of the MTM Collateral Assets and/or any other limitations, restrictions and/or requirements concerning the MTM Collateral Assets as may be specified in the applicable Final Terms.

Notwithstanding the Eligibility Criteria specified to be applicable in the applicable Final Terms in respect of a Series of Secured Instruments, the Collateral Agent shall be obliged to refer only to the terms of the relevant Triparty Account Control Agreement in determining whether the MTM Collateral Assets comply with the eligibility criteria set out in the relevant Triparty Account Control Agreement.

(b) **Secured Fully Floating Instruments Conditions**

In respect of Secured Instruments to which the Secured Fully Floating Instruments Conditions apply, a Collateral Pool shall be made up of Collateral Assets comprising of:

- cash;
- debt securities (including, but not limited to, government bonds, corporate bonds, covered bonds and asset backed securities);
- equity securities, shares, units or interests in a fund; and/or
- any other negotiable financial instruments in book entry-form.

The Collateral Assets must satisfy the eligibility criteria (the "**Eligibility Criteria**") specified in the applicable Final Terms relating to such Series of Secured Instruments. Collateral Assets satisfying the relevant Eligibility Criteria are referred to as "**Eligible Collateral Assets**".

The Eligibility Criteria specified in the applicable Final Terms will set out the criteria which must be met for Collateral Assets to constitute Eligible Collateral Assets and may include limitations on the type of Collateral Assets that may be held, the maturity of the Collateral Assets, the liquidity of the Collateral Assets, requirements regarding the jurisdiction of the issuer of the Collateral Assets or its guarantor or the credit rating of the obligor of the Collateral Assets and/or any other limitations, restrictions and/or requirements concerning the Collateral Assets as may be specified in the applicable Final Terms.

Notwithstanding the Eligibility Criteria specified to be applicable in the applicable Final Terms in respect of a Series of Secured Instruments, the Collateral Agent shall be obliged to refer only to the terms of the relevant Triparty Account Control Agreement in determining whether the Collateral Assets comply with the eligibility criteria set out in the relevant Triparty Account Control Agreement.

4. **Segregation between Collateral Pools, Limited Recourse and Non-Petition**

By acquiring and holding Secured Instruments, Holders of the Secured Instruments will be deemed to acknowledge and agree that the obligations of the Issuer to the Holders of the Secured Instruments are limited in recourse to the Collateral Assets contained in the relevant Collateral Pool securing such Series of Secured Instruments. In particular, the Collateral Assets contained in any other Collateral Pool will not be available to pay amounts due in respect of any Secured Instruments which are not secured by that Collateral Pool. The Secured Instruments are not guaranteed by the Guarantor or any other entity and therefore Holders of the Secured Instruments will have no claim against the Guarantor or any other entity in respect of any such amounts owing to them which remain unpaid.

5. **Valuation of Collateral**

In order to ensure that a Series of Secured Instruments is collateralised in accordance with its terms, on each Issue Date and relevant Collateral Business Day (each such test date being a "**Collateral Test Date**"), the actual value of the Collateral Assets will be tested against the required value of the Collateral Assets to be held in the Collateral Accounts to secure the relevant Series of Secured Instruments, as determined in accordance with the provisions of the applicable Secured Instruments Conditions. Merrill Lynch International shall undertake the duties of Secured Instruments valuation agent (the "**Secured Instruments Valuation Agent**") under the terms of a valuation agency agreement (the "**Valuation Agent Agreement**"), pursuant to which it will determine values relating to the collateral and provide them to the Collateral Agent as described below:

(a) **Secured Static/Floating Instruments Conditions**

On the Collateral Business Day immediately preceding the Collateral Test Date, the Secured Instruments Valuation Agent will determine and will send to the Collateral Agent a Collateral Test Notice notifying it of the following: (a) in respect of the Static Collateral Assets, the Static Collateral Specified Percentage of the Required Static Collateral Nominal Amount; and (b) in respect of the MTM Collateral Assets, the MTM Collateral Specified Percentage of the Required MTM Collateral Value. On each Collateral Test Date, the Collateral Agent shall: (a) in respect of the Static Collateral Assets, determine the Pool Aggregate Collateral Nominal Amount and verify if such amount is greater than or equal to the Static Collateral Specified Percentage of the Required Static Collateral Nominal Amount (the "**Static Collateral Test**"); and (b) in respect of the MTM Collateral Assets, determine the Collateral Value of the MTM Collateral Assets in the Collateral Account and verify if such value is greater than or equal to the MTM Collateral Specified Percentage of the Required MTM Collateral Value (the "**MTM Collateral Test**").

(i) ***Static Collateral Assets***

(A) *Pool Aggregate Collateral Nominal Amount*

The Pool Aggregate Collateral Nominal Amount in respect of a Collateral Pool on a relevant date, is an amount, expressed in the currency specified in the applicable Final Terms (the "**Collateral Valuation Currency**"), equal to the aggregate nominal amount of the Static Collateral Assets held in the Collateral Account on the relevant date, as determined by the Collateral Agent.

(B) *Static Collateral Specified Percentage of the Required Static Collateral Nominal Amount*

The Static Collateral Specified Percentage of the Required Static Collateral Nominal Amount is the percentage, as specified in the applicable Final Terms, of, in respect of a Collateral Pool which secures a Series of Secured Instruments and any relevant date, (a) in respect of Secured Instruments that are Secured Notes, the total aggregate principal amount of the Non-Waived Instruments of such Series of Secured Instruments; and (b) in respect of Secured Instruments, that are Secured W&C Instruments, the sum of the Notional Amount of each Non-Waived Instrument of such Series of Secured Instruments, each as determined by the Secured Instruments Valuation Agent.

(ii) ***MTM Collateral Assets***

(A) *Collateral Value*

The Collateral Value is, in respect of a Collateral Pool and a Collateral Test Date, an amount, expressed in the Collateral Valuation Currency, equal to the sum of the Margin Value of each Eligible MTM Collateral Asset in such Collateral Pool on such Collateral Test Date, as determined by the Collateral Agent.

(B) *MTM Collateral Specified Percentage of the Required MTM Collateral Value*

The MTM Collateral Specified Percentage of the Required MTM Collateral Value is the percentage, as specified in the applicable Final Terms, of, in respect of a Collateral Pool and a Collateral Test Date, the greater of zero and the sum of each portion of the Marked-to-Market Derivative Hedge Value at the relevant time that relates to a Non-Waived Instrument of the relevant Series of Secured Instruments which are secured by such Collateral Pool, as determined by the Secured Instruments Valuation Agent.

(b) **Secured Fully Floating Instruments Conditions**

On the Secured Instrument Valuation Date for each Collateral Test Date, the Secured Instruments Valuation Agent will determine the Required Collateral Value and will send the Collateral Agent a Collateral Test Notice notifying it of such Required Collateral Value. On each Collateral Test Date, the Collateral Agent shall calculate the Collateral Value and verify if such value is greater than or equal to the Required Collateral Value (the "**Collateral Test**").

(i) ***Collateral Value***

Except if "Collateral Valuation at Nominal Value" is specified as applicable in the applicable Final Terms, the Collateral Value is an amount equal to the sum of the quotient of (a) the Market Value of each Eligible Collateral Asset, divided by

(b) the Margin Percentage applicable to each Eligible Collateral Asset, as determined by the Collateral Agent.

If "Collateral Valuation at Nominal Value" is specified as applicable in the applicable Final Terms, the Collateral Value shall be deemed to be equal to the total aggregate nominal value of the Collateral Assets constituting Eligible Collateral Assets, as determined by the Collateral Agent.

The Collateral Agent shall calculate the Collateral Value as of the relevant Collateral Valuation Time (as described below) in the Collateral Valuation Currency. Where the currency of denomination of a Collateral Asset is other than the Collateral Valuation Currency, the Secured Instruments Valuation Agent shall convert the value of such Collateral Asset (or other relevant values) at the relevant spot exchange rate or spot rates in accordance with such method and as at such time as the Secured Instruments Valuation Agent may select in its discretion, having regard to the then-current rates of exchange, and shall notify the Collateral Agent of such converted values.

(ii) ***Required Collateral Value***

The Required Collateral Value will be calculated by the Secured Instruments Valuation Agent on the Issue Date and on each Secured Instrument Valuation Date, as follows:

- (A) where "MV Collateralisation" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Instruments, the Required Collateral Value shall be equal to the product of (a) the Collateralisation Percentage, (b) the Secured Instrument Market Value and (c) the Relevant Number of Non-Waived Instruments of such Series;
- (B) where "NV Collateralisation" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Instruments, the Required Collateral Value shall be equal to the product of (a) the Collateralisation Percentage and (b) the total aggregate principal amount or nominal value, as applicable, of the Non-Waived Instruments of such Series;
- (C) where "Min (MV, NV) Collateralisation" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Instruments, the Required Collateral Value shall be equal to the lower of (a) the product of (1) the Collateralisation Percentage, (2) the Secured Instrument Market Value and (3) the Relevant Number of Non-Waived Instruments and (b) the product of (1) the Collateralisation Percentage and (2) the total aggregate principal amount or nominal value, as applicable, of the Non-Waived Instruments of such Series; or
- (D) where "Max (MV, NV) Collateralisation" is specified as being the Type of Collateralisation applicable in the applicable Final Terms relating to a Series of Secured Instruments, the Required Collateral Value shall be equal to the greater of (a) the product of (1) the Collateralisation Percentage, (2) the Secured Instrument Market Value and (3) the Relevant Number of Non-Waived Instruments and (b) the product of (1) the Collateralisation Percentage and (2) the total aggregate principal amount or nominal value, as applicable, of the Non-Waived Instruments of such Series.

"Relevant Number" means:

- (a) in respect of Secured Instruments that are Secured Notes, the aggregate principal amount outstanding of Non-Waived Instruments of a Series of

Description of the Collateral Arrangements relating to Secured Instruments

Secured Instruments divided by the specified denomination of each Non-Waived Instrument of such Series of Secured Instruments; and

- (b) in respect of Secured Instruments that are Secured W&C Instruments, the number of Non-Waived Instruments of such Series of Secured Instruments.

The Collateralisation Percentage relating to a Series of Secured Instruments will be specified in the applicable Final Terms and may specify a different Collateralisation Percentage in respect of different Collateral Test Dates.

6. **Adjustments to Collateral Pool and Collateral Agent Notice**

(a) **Secured Static/Floating Instruments Conditions**

If on the relevant Collateral Test Date the Collateral Agent determines that the Collateral Test is not satisfied, the Collateral Agent will promptly send to the Secured Instruments Collateral Provider a Collateral Agent Notice. On the date such Collateral Agent Notice is given, the Secured Instruments Collateral Provider will instruct the Collateral Agent to transfer sufficient additional Eligible MTM Collateral Assets or Eligible Static Collateral Assets (as applicable) into the relevant Collateral Account to satisfy the Collateral Test.

The Secured Instruments Collateral Provider will ensure that sufficient Eligible MTM Collateral Assets and Eligible Static Collateral Assets are Delivered into the relevant Collateral Account on or before each Collateral Test Date to satisfy the Collateral Test in respect of such Collateral Test Date for the relevant Series of Secured Instruments.

(b) **Secured Fully Floating Instruments Conditions**

If on the relevant Collateral Test Date the Collateral Agent determines that the Collateral Test is not satisfied, the Collateral Agent will promptly send the Secured Instruments Collateral Provider a Collateral Agent Notice. On the date such Collateral Agent Notice is given, the Secured Instruments Collateral Provider will instruct the Collateral Agent to transfer sufficient additional Eligible Collateral Assets into the relevant Collateral Account to satisfy the Collateral Test.

The Secured Instruments Collateral Provider will ensure that sufficient Eligible Collateral Assets are Delivered into the relevant Collateral Account on or before each Collateral Test Date to satisfy the Collateral Test in respect of such Collateral Test Date for the relevant Series of Secured Instruments.

7. **Waived Instruments**

In respect of all Secured Instruments held by the Issuer or its Affiliates, including but not limited to, in its capacity as market maker, the Issuer or its Affiliates will be deemed to have waived their rights (a) to receive the proceeds of realisation of the Collateral Assets securing such Series of Secured Instruments (and where "Physical Delivery of Static Collateral Assets" is specified as applicable in the applicable Final Terms, delivery of the Static Collateral Assets) following the enforcement of the relevant Deed of Charge and Charged Documents or the redemption or cancellation, as applicable, of such Series of Secured Instruments following the occurrence of a Collateral Asset Default and (b) to give an Acceleration Notice on the occurrence of a Secured Instrument Event of Default ("**Waived Instruments**").

As a consequence, when making various calculations under the Secured Instruments Conditions, including the Required MTM Collateral Value and the Required Static Collateral Nominal Amount (under the Secured Static/Floating Instruments Conditions) and the Required Collateral Value (under the Secured Fully Floating Instruments Conditions), the Secured Instruments Valuation Agent shall only take into account the value of the Secured Instruments that are not subject to such waiver (any such Secured Instruments being "**Non-Waived Instruments**").

8. **Collateral Substitution**

(a) **Secured Static/Floating Instruments Conditions**

The Secured Instruments Collateral Provider may, subject to the terms of the relevant Triparty Account Control Agreement, withdraw and/or replace MTM Collateral Assets from the relevant Collateral Account provided that following such adjustment the Collateral Test continues to be satisfied. The Secured Instruments Collateral Provider will send or cause to be sent a notice to the Collateral Agent specifying the adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any MTM Collateral Assets to be deposited and/or removed).

The Issuer and the Secured Instruments Collateral Provider shall not be entitled to withdraw and/or replace Static Collateral Assets from the relevant Collateral Account, on any day provided that the Secured Instruments Collateral Provider may on any Collateral Test Date withdraw from the relevant Collateral Account an aggregate nominal amount of Static Collateral Assets equal to the sum of the Notional Amount of each Non-Waived Instrument that is converted into a Waived Instrument if, following such withdrawal, (a) the Collateral Test continues to be satisfied, and (b) if the Eligible Static Collateral Assets specified in the applicable Final Terms are a Basket of Eligible Debt Securities, the aggregate nominal amount of each Eligible Debt Security is equal to the percentage weighting for each such Eligible Debt Security within the Basket of Eligible Debt Securities as specified in the applicable Final Terms.

(b) **Secured Fully Floating Instruments Conditions**

The Secured Instruments Collateral Provider may, subject to the terms of the relevant Triparty Account Control Agreement, withdraw and/or replace Collateral Assets from the relevant Collateral Account provided that following such adjustment the Collateral Test continues to be satisfied. The Secured Instruments Collateral Provider will send or cause to be sent a notice to the Collateral Agent specifying the adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any Collateral Assets to be deposited and/or removed).

9. **Early redemption or settlement following the occurrence of a Collateral Disruption Event**

(a) **Secured Static/Floating Instruments Conditions**

If the Secured Instruments Valuation Agent determines that a Collateral Disruption Event has occurred or is continuing, the Issuer may in its sole discretion redeem or cancel all of the relevant Secured Instruments at their the Early Redemption/Settlement Amount (CDE) or, if "Physical Delivery of Static Collateral Assets" is specified to be applicable in the applicable Final Terms, deliver Static Collateral Assets that make up the Entitlement (CDE) in accordance with the Secured Instruments Conditions. The Early Redemption/Settlement Amount (CDE) will be calculated on the basis of (i) if "Physical Delivery of Static Collateral Assets" is specified not to be applicable in the applicable Final Terms, the market value of the Derivative Hedge entered into by the Issuer and/or its Affiliates to hedge the Issuer's payment obligations plus the proceeds of the liquidation and realisation of the Static Collateral, less any of the hedge unwind costs of the Issuer and/or its Affiliates and costs of realising the Collateral Assets or (ii) if the applicable Final Terms specify "Physical Delivery of Static Collateral Assets" to be applicable, the market value of the Derivative Hedge entered into by the Issuer and/or its Affiliates to hedge the Issuer's payment obligations less any hedge unwind costs of the Issuer and/or its Affiliates and costs of realising the Collateral Assets.

Collateral Disruption Events are defined in the Secured Instruments Conditions and include, but are not limited to: (i) a Collateral Asset Default occurs or is continuing, as determined by the Secured Instruments Valuation Agent; or (ii) the Secured Instruments Collateral Provider being (A) unable, after using commercially reasonable efforts, to acquire the necessary Collateral Assets or (B) subject to materially increased costs in acquiring Collateral Assets; or (iii) the Issuer being unable, after using commercially reasonable efforts, to find a suitable substitute or replacement Collateral Arrangement

Party (as defined below) following the termination of the relevant agreements or resignation or removal, for any reason, of any Collateral Arrangement Party.

(b) Secured Fully Floating Instruments Conditions

If the Secured Instruments Valuation Agent determines that a Collateral Disruption Event has occurred or is continuing, the Issuer may in its sole discretion redeem or cancel all of the relevant Secured Instruments at the Early Redemption/Settlement Amount following the occurrence of a Collateral Disruption Event. The Early Redemption/Settlement Amount will be calculated on the basis of the fair market value of such Secured Instrument less any hedge unwind costs of the Issuer and/or its Affiliates.

Collateral Disruption Events are defined in the Secured Instruments Conditions and include, but are not limited to: (i) the Secured Instruments Collateral Provider being (A) unable, after using commercially reasonable efforts, to acquire the necessary Collateral Assets or (B) subject to materially increased costs in acquiring Collateral Assets; or (ii) the Issuer being unable, after using commercially reasonable efforts, to find a suitable substitute or replacement Collateral Arrangement Party (as defined below) following the termination of the relevant agreements or resignation or removal, for any reason, of any Collateral Arrangement Party.

For the avoidance of doubt, the occurrence of a Collateral Disruption Event will not constitute a Secured Instrument Event of Default.

10. Early redemption or settlement following the occurrence of a Collateral Trigger Event under the Secured Static/Floating Instruments Conditions

If a "Collateral Trigger Event" is specified to be applicable in the applicable Final Terms and the Secured Instruments Valuation Agent determines that a Collateral Trigger Event has occurred or is continuing, the Issuer shall redeem or cancel all of the relevant Secured Instruments at their Early Redemption/Settlement Amount (CTE) and, if "Physical Delivery of Static Collateral Assets" is specified to be applicable in the applicable Final Terms, deliver Static Collateral Assets that make up the Entitlement (CTE) (including payment of any Fractional Cash Amount (CTE)) in accordance with the Secured Instruments Conditions. The Early Redemption/Settlement Amount (CTE) will be calculated on the basis of (i) if "Physical Delivery of Static Collateral Assets" is specified not to be applicable in the applicable Final Terms, the intra-day market value of the Derivative Hedge entered into by the Issuer and/or its Affiliates to hedge the Issuer's payment obligations plus the proceeds of the liquidation and realisation of the Static Collateral, less any of the hedge unwind costs of the Issuer and/or its Affiliates and costs of realising the Collateral Assets or (ii) if the applicable Final Terms specify "Physical Delivery of Static Collateral Assets" to be applicable, the intra-day market value of the Derivative Hedge entered into by the Issuer and/or its Affiliates to hedge the Issuer's payment obligations less any hedge unwind costs of the Issuer and/or its Affiliates and costs of realising the Collateral Assets.

A Collateral Trigger Event shall have occurred if the Secured Instruments Valuation Agent determines that, at any time on a day during the relevant observation period, the value of a Secured Instrument of the relevant series is (a) if "less than the Collateral Trigger Level" is specified in the applicable Final Terms, less than the Collateral Trigger Level or (b) if "less than or equal to the Collateral Trigger Level" is specified in the applicable Final Terms, less than or equal to the Collateral Trigger Level. The Collateral Trigger Level will be specified in the applicable Final Terms. The value of the relevant Secured Instruments will be determined by the Secured Instruments Valuation Agent as an amount equal to the sum of (x) the intra-day market value of the portion of the Derivative Hedge that relates to such Secured Instruments and (y) the intra-day market value of the relevant Static Collateral Assets that relate to such Secured Instruments.

The intra-day market value of the Derivative Hedge and of the Static Collateral Assets shall be determined by the Secured Instruments Valuation Agent by reference to such factors as it considers to be appropriate in its discretion, including without limitation:

Description of the Collateral Arrangements relating to Secured Instruments

- (a) in respect of the Derivative Hedge, the present value of the future payment obligations of the Issuer under the relevant Secured Instruments minus the present value of the future cash flows of the Static Collateral Assets that secure such Secured Instruments, and taking into account:
 - (i) spot and forward market prices or values for the underlying asset(s) of the Derivative Hedge and other relevant economic variables (such as interest rates and exchange rates);
 - (ii) the correlation between the market prices or value of the underlying asset(s) of the Derivative Hedge and other relevant economic variables;
 - (iii) historic and implied volatility of the market prices or value of the underlying asset(s) of the Derivative Hedge;
 - (iv) the remaining time until expiry of the Derivative Hedge;
 - (v) internal pricing models; and
 - (vi) prices at which other market participants might bid for similar Derivative Hedge; and
 - (vii) the valuation using relevant economic variables of the cash flows and/or coupon payments of the Static Collateral Assets that secure such Secured Instruments.
- (b) in respect of the relevant Static Collateral Assets:
 - (i) bid prices (if available) for a nominal amount of such Static Collateral Assets equal to the minimum nominal amount that may be quoted for bids on the screen page specified in the applicable Final Terms; and
 - (ii) internal pricing models.

11. **Early redemption or settlement following the occurrence of a MTM Trigger Event under the Secured Fully Floating Instruments Conditions**

If a "MTM Trigger Event" is specified to be applicable in the applicable Final Terms and the Secured Instruments Valuation Agent determines that a MTM Trigger Event has occurred or is continuing, the Issuer shall redeem or cancel all of the relevant Secured Instruments at their Early Redemption/Settlement Amount in accordance with the Secured Instruments Conditions.

A MTM Trigger Event shall have occurred if the Secured Instruments Valuation Agent determines that, at any time between 5.00 a.m. Sydney time to 5.00 p.m. New York City time (or such other times specified in the applicable Final Terms) on a business day during the relevant observation period, the market value of a Secured Instrument of the relevant series is (a) if "less than the MTM Trigger Level" is specified in the applicable Final Terms, less than the MTM Trigger Level or (b) if "less than or equal to the MTM Trigger Level" is specified in the applicable Final Terms, less than or equal to the MTM Trigger Level. The MTM Trigger Level will be specified in the applicable Final Terms. The market value of a Secured Instrument shall be determined by the Secured Instruments Valuation Agent by reference to such factors as it considers to be appropriate in its discretion, including without limitation:

- (a) market prices or values for any underlying asset(s) to which the Secured Instruments are linked and other relevant economic variables (such as interest rates and, if applicable, exchange rates) at the relevant time;
- (b) the remaining term of the Secured Instruments until their scheduled exercise and final settlement;
- (c) internal pricing models; and

- (d) prices at which other market participants might bid for securities similar to the Secured Instruments.

12. **Default in provision of Collateral Assets**

A "**Required Collateral Default**" shall occur if, following receipt by the Secured Instruments Collateral Provider of a Collateral Agent Notice which indicates that the Collateral Test is not satisfied (or will not be satisfied after taking into account any adjustments specified in a Collateral Test Notice), the Secured Instruments Collateral Provider fails to instruct the Collateral Agent to transfer sufficient Collateral Assets into the Collateral Account and such failure results in the Collateral Test not being satisfied for one Collateral Business Day following delivery of such Collateral Agent Notice (when determining whether the Collateral Test has been so satisfied, only Collateral Assets which have actually been transferred to the relevant Collateral Account shall be taken into account).

Following the occurrence of a Required Collateral Default, the Collateral Agent will send a notice (a "**Required Collateral Default Notice**") to the Secured Instruments Collateral Provider and the Security Agent, specifying that a Required Collateral Default has occurred. The Secured Instruments Collateral Provider shall notify the Issuer of the Required Collateral Default Notice. The Security Agent shall as soon as reasonably practicable after receiving a Required Collateral Default Notice give notice to the relevant Instrument Agent and the relevant Instrument Agent will give notice as soon as reasonably practicable to all relevant Holders of the receipt of a Required Collateral Default Notice.

13. **Secured Instruments Events of Default**

The Secured Instruments are subject to various events of default (each a "**Secured Instrument Event of Default**"), including, but not limited to, (i) the Issuer's failure to pay Additional Tax Amounts and Cash Settlement Amounts or to deliver any Entitlement, (ii) insolvency proceedings against the Issuer, (iii) the occurrence of a Required Collateral Default, or (iv) a failure by the Issuer and/or the Secured Instruments Collateral Provider to comply with or perform its obligations under the Security Agency Agreement or the relevant Deed of Charge.

If a Secured Instrument Event of Default occurs and is continuing with respect to any Series of Secured Instruments, then any Holder may, at its option, send an Acceleration Notice through the relevant Clearing System to the relevant Instrument Agent. If the Holder(s) of at least 33 per cent. (a) in respect of Secured Instruments that are Secured Notes, in aggregate principal amount of such Non-Waived Instruments or (b) in respect of Secured Instruments that are Secured W&C Instruments, in aggregate Notional Amount or by number (as applicable), of such Non-Waived Instruments outstanding send Acceleration Notice(s) through the relevant Clearing System to the relevant Instrument Agent, and if any such default is not waived or cured in accordance with the Secured Instruments Conditions an "Acceleration Event" shall occur in respect of such Series of Secured Instruments.

The relevant Instrument Agent will as soon as reasonably practicable after the occurrence of an Acceleration Event send an instruction (an "**Acceleration Instruction**") to the Security Agent confirming that the Holders of at least 33 per cent. (a) in respect of Secured Instruments that are Secured Notes, in aggregate principal amount of the Non-Waived Instruments or (b) in respect of Secured Instruments that are Secured W&C Instruments, in aggregate Notional Amount or by number (as applicable) of the Non-Waived Instruments outstanding have delivered Acceleration Notices and thereby instructing the Security Agent to, *inter alia*, enforce the security constituted by the relevant Deed of Charge and distribute the proceeds (and, if applicable, physically settle the Entitlement), in each case, in accordance with its terms, the Secured Instruments Conditions and the Security Agency Agreement.

If the Security Agent receives an Acceleration Instruction, the Security Agent shall (acting in accordance with such Acceleration Instruction), *inter alia*, as soon as reasonably practicable, (i) deliver a Collateral Enforcement Notice to each of the Issuer, the Secured Instruments Collateral Provider and the relevant Instrument Agent, (ii) give notice to the relevant Instrument Agent of, *inter alia*, the occurrence of an Acceleration Event, upon which the relevant Instrument Agent

will give notice of the same to all relevant Holders, and (iii) appoint a Disposal Agent, if a Disposal Agent has not already been appointed.

14. Collateral Enforcement

(a) Secured Static/Floating Instruments Conditions

Following delivery of a Collateral Enforcement Notice, the Security Agent (acting in accordance with an Acceleration Instruction) shall enforce the security constituted by the relevant Deed of Charge relating to the relevant Collateral Pool in accordance with the terms thereof and the Secured Instruments Conditions and the terms of the Security Agency Agreement and will give instructions to the Disposal Agent to effect a liquidation and realisation of the Collateral Assets in the Collateral Pool which secures such Series of Secured Instruments: (i) by liquidating or realising all Collateral Assets in the Collateral Pool; or (ii) where "Physical Delivery of Static Collateral Assets" is specified to be applicable in the applicable Final Terms: (A) firstly, by liquidating or realising the MTM Collateral Assets in the Collateral Pool in accordance with the Secured Instruments Conditions; (B) secondly, to the extent the proceeds available following the liquidation and realisation of the MTM Collateral Assets in the Collateral Pool are insufficient to make payment of any amounts payable to the Secured Parties ranking prior to the Holders of the Non-Waived Instruments in accordance with the Order of Priority specified in the applicable Final Terms, by liquidating or realising an amount of Static Collateral Assets sufficient to make the remainder of such payments in accordance with Secured Instruments; and (C) thirdly, by liquidating or realising an amount of Static Collateral Assets to cover any outstanding hedge unwind costs; provided that, in the case of (B) and (C), if the Static Collateral Assets are a Basket of Eligible Debt Securities, the amount of each Eligible Debt Security liquidated or realised should be proportionate to the percentage weighting for each such Eligible Debt Security within the Basket of Eligible Debt Securities as specified in the applicable Final Terms.

The Security Agent (acting in accordance with an Acceleration Instruction) or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) will (i) liquidate or realise the MTM Collateral Assets and, if applicable, the Static Collateral Assets and distribute the relevant Collateral Enforcement Proceeds Share to the relevant Holders or (ii) where "Physical Delivery of Static Collateral Assets" is specified to be applicable in the applicable Final Terms, arrange for delivery of the Entitlement to the relevant Holders, in each case in accordance with the Order of Priority specified in the applicable Final Terms and the Secured Static/Floating Instruments Conditions.

(b) Secured Fully Floating Instruments Conditions

Following receipt of a Collateral Enforcement Notice, the Security Agent (acting in accordance with an Acceleration Instruction) shall enforce the security constituted by the relevant Deed of Charge relating to the relevant Collateral Pool in accordance with the terms thereof and the Secured Instruments Conditions and the terms of the Security Agency Agreement and will give instructions to the Disposal Agent to (i) liquidate or realise the Collateral Assets in the Collateral Pool and subsequently distribute the relevant Collateral Enforcement Proceeds Share to the relevant Holders or (ii) where "Physical Delivery of Collateral Assets" is specified to be applicable in the applicable Final Terms, arrange for delivery of the relevant Entitlement to the relevant Holders, in each case in accordance with the Order of Priority specified in the applicable Final Terms and the Secured Fully Floating Instruments Conditions.

15. Enforcement and realisation by Holders

No Holder shall be entitled to enforce a Deed of Charge or to proceed directly against the Secured Instruments Collateral Provider to enforce the other provisions of a Charged Document unless the Security Agent, having become bound to so enforce or proceed, fails so to do within a reasonable time and such failure is continuing or the Security Agent is prevented from enforcing a Deed of Charge by any court order. If a Holder becomes so entitled, then such

Holder shall not be entitled to enforce the relevant Deed of Charge or Charged Document in the United Kingdom.

If the Security Agent becomes bound to enforce a Deed of Charge or a Charged Document and fails to do so within a reasonable time and such failure is continuing or the Security Agent is prevented from enforcing a Deed of Charge by any court order, then, without prejudice to the paragraph above, Holder(s) of at least 33 per cent. (a) in respect of Secured Instruments that are Secured Notes, in aggregate principal amount of such Non-Waived Instruments or (b) in respect of Secured Instruments that are Secured W&C Instruments, in aggregate Notional Amount or by number (as applicable), of such Non-Waived Instruments outstanding may remove the Security Agent and appoint a replacement Security Agent in accordance with the Secured Instruments Conditions and the terms of the Security Agency Agreement.

Neither the Issuer nor any Holder shall be entitled to enforce a Triparty Account Control Agreement or the Custodian Agreement or to proceed directly against the Collateral Agent or the Custodian to enforce the terms of the relevant Triparty Account Control Agreement or the Custodian Agreement (as applicable). Neither the Collateral Agent nor the Custodian shall have any liability to the Issuer or any Holder as to the consequence of any actions taken by the Collateral Agent or Custodian (as applicable).

16. Physical Delivery of Collateral Assets Disruption Event

Where "Physical Delivery of Collateral Assets" is specified as applicable in the applicable Final Terms, in certain circumstances, if, in the opinion of the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent), delivery of all or some of the Static Collateral Assets (in respect of Secured Instruments to which the Secured Static/Floating Instruments Conditions apply) or the Collateral Assets (in respect of Secured Instruments to which the Secured Fully Floating Instruments Conditions apply) forming part of the Entitlement is not possible for a specified period of time, then the Security Agent, or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent), in lieu of physical settlement, may sell or realise such undeliverable Static Collateral Assets or Collateral Assets, as applicable, and deliver the proceeds thereof to Holders.

17. Replacement of Collateral Arrangement Parties

Each of the Collateral Transaction Documents contains, or will contain, provisions for the termination of such agreement and, as the case may be, the removal or replacement of the role of the relevant party appointed thereunder (each a "**Collateral Arrangement Party**"). Any such termination, removal and/or replacement will be effected in accordance with the provisions of such agreements and (other than in respect of the Custodian or the Collateral Agent) the Secured Instruments Conditions and may be effected without the consent of Holders. No such termination or removal shall be effective until a replacement entity has been appointed. The Secured Instruments Valuation Agent shall be required to give notice to Holders of any such termination, removal and/or replacement.

A replacement Collateral Arrangement Party may only be appointed when the following conditions are fulfilled: the replacement Collateral Arrangement Party (other than the replacement Custodian or Collateral Agent): (i) is an institution incorporated and in good standing in the United States of America or one of the States thereof or in a state which is, as at the date of the relevant Collateral Transaction Document, a member state of the European Union or the United Kingdom; (ii) has the requisite resources and legal capacity to perform the duties imposed upon the relevant existing Collateral Arrangement Party under the relevant Collateral Transaction Document and is a recognised provider of the services provided by such Collateral Arrangement Party; (iii) is legally qualified and has the capacity to act as successor to the relevant Collateral Arrangement Party on the terms of the relevant Collateral Transaction Document; and (iv) whose performance of its duties under the relevant Collateral Transaction Document will not cause the Issuer and/or Secured Instruments Collateral Provider to become subject to tax in any jurisdiction where such successor is incorporated, established, doing business, has a permanent establishment or is otherwise considered tax resident.

Description of the Collateral Arrangements relating to Secured Instruments

The Security Agency Agreement contains, or will contain, provisions for the termination of such agreement and the removal or replacement of the Security Agent appointed thereunder. Any such termination, removal and/or replacement will be effected in accordance with the provisions of the Security Agency Agreement and may be effected without the consent of Holders. No such termination or removal shall be effective until a replacement Security Agent has been appointed.

DESCRIPTION OF THE PREFERENCE SHARE ISSUER AND THE PREFERENCE SHARES

The following is an overview of the Preference Share Issuer and the Preference Shares.

1. **The Preference Share Issuer**

Preface Holdings Limited (the "**Preference Share Issuer**") is a Jersey private company and was incorporated under the Companies (Jersey) Law 1991 on 5 March 2020 (with registration number 131121). Preface Holdings Limited is governed by the laws of Jersey and has its registered office at 15 Esplanade, St Helier, Jersey JE1 1RB.

The sole business activity of the Preference Share Issuer is to (i) issue redeemable preference shares (the "**Preference Shares**") under its preference share programme (the "**Preference Shares Programme**"); and (ii) enter into hedging arrangements to hedge the exposure under the Preference Shares. Accordingly, the Preference Share Issuer does not have any trading assets and generates limited net income. The Preference Share Issuer does not have a credit rating.

As at the date of this Offering Circular, the Preference Share Issuer has two (2) ordinary shares in issue. The Preference Share Issuer may issue further shares with such rights or restrictions as may be determined by special resolution and the unissued shares for the time being in the capital of the Preference Share Issuer are at the disposal of the directors on such terms as they think proper. The ordinary shares of the Preference Share Issuer are held by Hawksford Nominees Jersey Limited (one (1) ordinary share) and Hawksford Fiduciaries Jersey Limited (one (1) ordinary share), each acting as a nominee of Hawksford Trustees Jersey Limited who serves as the trustee of The Preface Charitable Trust.

The Preference Shares may be offered and issued to investors pursuant to the terms agreed with the Preference Share Issuer. Merrill Lynch International acts as structuring agent in order to facilitate the offer and issue by the Preference Share Issuer of Preference Shares as well as calculation agent in respect of the Preference Shares. Other service providers act as registrar and corporate administrator to the Preference Share Issuer or in respect of the Preference Shares, as applicable.

A copy of the Preference Share Issuer's constitutional documents (the "**Articles of Association**") and the terms and conditions of the Preference Shares (as contained in the principal memorandum of the Preference Share Issuer relating to the issuance of Preference Shares (the "**Principal Memorandum**") and the relevant Supplemental Memorandum (as defined below) in respect of the Preference Shares) are available to investors in the Preference Share Linked Notes on written request (free of charge) from the registered office of the Preference Share Issuer and from the distributor of the relevant Preference Share Linked Notes.

2. **Documents for Inspection**

Copies of the Articles of Association will be available for inspection at the registered office of the Preference Share Issuer, in each case during normal business hours on any weekday (Saturdays, Sundays and public holidays excepted) for 14 days following the date of each Supplemental Memorandum (as defined below).

The Private Placement Memorandum can be obtained by any interested investors from Merrill Lynch International.

3. **Documents on Display**

Copies of the Principal Memorandum, any applicable Supplemental Memorandum relating to a series of Preference Shares, the Articles of Association and, after publication thereof, the annual accounts of the Preference Share Issuer may be obtained from the corporate administrator at its registered office (15 Esplanade, St Helier, Jersey JE1 1RB) on request.

4. **The Preference Shares**

Preference Shares may be issued from time to time by the Preference Share Issuer in a Series under the Preference Shares Programme. Each Series of Preference Shares may have different features which are set out in the Principal Memorandum and a Series specific supplemental memorandum (the "**Supplemental Memorandum**", and together with the Principal Memorandum, the "**Private Placement Memorandum**").

The Preference Shares issued under the Preference Shares Programme may pay an automatic early redemption amount, an early redemption amount, an optional redemption amount and, unless previously redeemed or cancelled, will pay a final redemption amount at maturity which may be linked to the performance of one or more Preference Share Underlyings which may include, but will not be limited to shares, indices, mutual funds or exchange traded funds, or baskets of shares or indices, mutual funds or exchange traded funds. The composition of the relevant Preference Share Underlyings may be designed to change over time as a result of performance or other factors.

The Supplemental Memorandum applicable to a particular Series of Preference Shares will specify the redemption amount(s) and when any such amount is payable and the terms based on which it is calculated.

The Preference Shares will not be exchangeable through CREST (or any other clearing system) and will not be listed or admitted to trading on any stock exchange. Therefore, no information relating to the past or future performance of the Preference Shares or their volatility will be available.

The Private Placement Memorandum also provides that the Preference Share Issuer may redeem the Preference Shares early if:

- (a) the performance of the Preference Share Issuer's obligations under the relevant Series of Preference Shares or any arrangements made to hedge the Preference Share Issuer's obligations under the Preference Shares or in respect of any hedging arrangements in relation to any Preference Share Linked Notes, has or will become, in whole or in part, unlawful, illegal or otherwise contrary to any present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative, judicial or regulatory authority or powers, or any change in the interpretation thereof that is applicable to the Preference Share Issuer or any of the Preference Share Issuer's Affiliates; or
- (b) an event has occurred and/or is existing that constitutes an early redemption event or is an event triggering an early redemption of the relevant Series of Preference Shares.

5. **The Preference Share Underlyings**

The performance of the Preference Shares depends on the performance of the Preference Share Underlying or Underlyings to which the relevant Preference Shares are linked.

Investors should review the relevant Private Placement Memorandum and other constitutional documents and consult with their own business, accounting, regulatory, legal, tax and other professional advisers with respect to any consequences or considerations (whether relating to tax or otherwise) which may be relevant to or which may result from investment in the Preference Share Linked Notes.

FORM OF THE INSTRUMENTS

Words and expressions defined in the "Terms and Conditions of the Notes", the "Terms and Conditions of the Cash Settled Exchangeable Notes" or "Terms and Conditions of the W&C Instruments", as applicable, shall have the same meanings in this Form of the Instruments.

Form of the Notes

Registered Notes

If the applicable Final Terms specify that Notes issued by MLBV are eligible for sale exclusively in the United States or to, or for the account or benefit of, U.S. persons (as defined below) pursuant to an exemption from the registration requirements of the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), the Notes sold (a) in the United States to qualified institutional buyers within the meaning of Rule 144A ("**Rule 144A**") under the Securities Act ("**QIBs**") who are also each a qualified purchaser (each a "**QP**") within the meaning of Section 3(c)(7) and as defined in Section 2(a)(51) of the U.S. Investment Company Act of 1940, as amended (the "**1940 Act**") and the rules thereunder or (b) to, or for the account or benefit of, U.S. persons who are QIBs and also QPs will be represented by a Rule 144A Global Note (the "**Rule 144A Global Notes**") which will be in registered form and either (i) deposited with the Principal Paying Agent as a custodian for, and registered in the name of a nominee of, The Depository Trust Company ("**DTC**"); or (ii) deposited with, and registered in the name of a nominee of, the Common Depository.

Unless otherwise indicated, as used in this Offering Circular, "**U.S. person**" has the meaning ascribed to it by Regulation S under the Securities Act. Notes which may be sold as described above to U.S. persons who are QIBs and also QPs in reliance on Rule 144A are referred to in this Offering Circular as "**Rule 144A Notes**", which term shall also include, where the context requires, Rule 144A Notes sold as described in the succeeding paragraph that are represented by a Regulation S/Rule 144A Global Note (as defined below).

If specified in the applicable Final Terms, Notes issued by MLBV may be sold (a) pursuant to Rule 144A (i) to persons in the United States who are QIBs and QPs or (ii) to or for the account or benefit of U.S. persons who are QIBs and also QPs and (b) in either case, concurrently outside the United States to non-U.S. persons pursuant to Regulation S. Such Notes will be represented by a Regulation S/Rule 144A Global Note (the "**Regulation S/Rule 144A Global Note**") which will be in registered form and deposited with, and registered in the name of a nominee for, the Common Depository for Euroclear and Clearstream, Luxembourg.

If Notes are to be issued into and transferred through accounts at Euroclear and/or Clearstream, Luxembourg or the CMU, and are not eligible for sale in the United States or to, or for the account or benefit of U.S. persons, such Tranche of Notes will be issued in registered form and will be represented by a global registered note (a "**Euroclear/CBL Global Registered Note**", in the case of Notes issued into Euroclear and/or Clearstream, Luxembourg or a "**CMU Global Registered Note**" in the case of Notes issued into the CMU, and together with the Rule 144A Global Notes, the Regulation S/Rule 144A Global Notes, the "**Global Notes**" and each, a "**Global Note**") or in definitive form ("**Definitive Registered Notes**") represented by individual note certificates ("**Individual Note Certificates**"), as the case may be, together with the attached or incorporated Terms and Conditions of the Notes and the applicable Final Terms. Each Euroclear/CBL Global Registered Note will be deposited on or around the relevant issue date with either (a) the Common Depository for Euroclear, Clearstream, Luxembourg or any other relevant clearing system, in the case of a Euroclear/CBL Global Registered Note not intended to be issued under the NSS, and registered in the name of a nominee of the Common Depository, or (b) the Common Safekeeper for Euroclear, Clearstream, Luxembourg or any other relevant clearing system, in the case of a Euroclear/CBL Global Registered Note intended to be issued under the NSS, and registered in the name of a nominee of the Common Safekeeper. Each CMU Global Registered Note will be deposited on or around the relevant Issue Date with a sub-custodian for the CMU and registered in the name of the Hong Kong Monetary Authority as operator of the CMU as a nominee for the CMU.

The NSS form allows Notes in registered form to be issued and held in a manner which will permit them to be recognised as eligible collateral for monetary policy of the central banking system for the euro (the "**Eurosystem**") and intra-day credit operations by the Eurosystem either upon their issue or at any other time prior to the applicable maturity date. However, such recognition will depend upon satisfaction of

the Eurosystem eligibility criteria. The European Central Bank (the "ECB") has published on its webpage information on its collateral eligibility criteria. Among other criteria, the information published by the ECB indicates that, effective as of 8 February 2018, unsecured debt instruments issued by credit institutions, or their closely-linked entities, such as BAC and BofA Finance, that are not established in the member states of the European Union are not Eurosystem eligible. Therefore, as of the date of this Offering Circular, the Notes issued by BAC and by BofA Finance will not be recognised as eligible collateral for Eurosystem monetary and intraday credit operations.

Beneficial interests in a Global Note will be exchangeable for Definitive Registered Notes represented by Individual Note Certificates if: (1) an Event of Default (as defined herein) occurs and is continuing, (2) either (a) in the case of Notes represented by Rule 144A Global Notes held through DTC, either DTC has notified MLBV that it is unwilling or unable to continue as a depository for such Rule 144A Global Notes held through DTC and no alternative clearing system is available, or DTC has ceased to be a "clearing agency" registered under the Exchange Act, and no alternative clearing system is available, or (b) in the case of Euroclear/CBL Global Registered Notes and other Notes registered in the name of a nominee of the Common Depository or in the case of CMU Global Registered Notes, the relevant Issuer has been notified that both Euroclear and Clearstream, Luxembourg or in the case of CMU Global Registered Notes, the CMU, have been closed for business for a continuous period of 14 calendar days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available, or (3) the relevant Issuer, after notice to the Principal Paying Agent or in the case of CMU Global Registered Notes, the CMU Lodging and Paying Agent, as applicable, determines to issue the Notes in definitive form. The relevant Issuer will give notice of any such event specified above to the Holders in accordance with Note Condition 14 (*Notices*).

Whenever the Global Note is to be exchanged for Individual Note Certificates, the relevant Issuer shall procure that Individual Note Certificates will be issued in an aggregate principal amount equal to the principal amount of the Global Note within five business days of the delivery by or on behalf of the registered holder of the Global Note, DTC or such other relevant clearing systems, to the Principal Paying Agent or in the case of CMU Global Registered Note, the CMU Lodging and Paying Agent, of such information as is required to complete and deliver such Individual Note Certificates (including, without limitation, the names and addresses of the persons in whose names the Individual Note Certificates are to be registered and the principal amount of each such person's holding) against the surrender of the Global Note at the specified office of the Principal Paying Agent or in the case of CMU Global Registered Note, the CMU Lodging and Paying Agent, as applicable.

Such exchange will be effected in accordance with the provisions of the New York Law Agency Agreement (in the case of Notes issued by BAC and BofA Finance), the English Law Agency Agreement (in the case of Notes (other than CMU Notes) issued by MLBV) or the CMU Agency Agreement (in the case of CMU Notes) and, in each case, the regulations concerning the transfer and registration of Notes scheduled thereto, and, in particular, shall be effected without charge to any holder, but against such indemnity as the Principal Paying Agent or the CMU Lodging and Paying Agent, as applicable, may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) Individual Note Certificates have not been delivered by 5.00 p.m. (London time) or 5.00 p.m. (Hong Kong time) in the case of CMU Notes on the thirtieth calendar day after they are due to be issued and delivered in accordance with the terms of the Global Note; or
- (b) any of the Notes represented by a Global Note (or any part of it) has become due and payable in accordance with the Terms and Conditions of the Notes or the date for final redemption of the Notes has occurred and, in either case, payment in full of the amount of principal falling due with all accrued interest thereon has not been made to the holder of the Global Note in accordance with the terms of the Global Note on the due date for payment,

then the Global Note (including the obligation to deliver Individual Note Certificates) will become void at 5.00 p.m. (London time) or, in the case of CMU Notes, 5.00 p.m. (Hong Kong time), on such thirtieth calendar day (in the case of (a) immediately above) or at 5.00 p.m. (London time) or, in the case of CMU Notes, 5.00 p.m. (Hong Kong time), on such due date (in the case of (b) immediately above) and the

holder of the Global Note will have no further rights thereunder (but without prejudice to the rights which the holder of the Global Note or others may have under the MLBV Notes Deed of Covenant (as defined under "Terms and Conditions of the Notes") or, in the case of CMU Notes, the CMU Notes Deed of Covenant (as defined under "Terms and Conditions of the Notes")). With respect to Notes issued by MLBV, under the MLBV Notes Deed of Covenant or the CMU Notes Deed of Covenant (as the case may be), persons shown in the records of Euroclear and/or Clearstream, Luxembourg or the CMU and/or any other relevant clearing system as being entitled to an interest in a Global Note will acquire directly against MLBV all those rights to which they would have been entitled if, immediately before the Global Note became void, they were entered in the Register as the holder of Notes in an aggregate principal amount equal to the principal amount of Notes they were shown as holding in the records of Euroclear and/or Clearstream, Luxembourg or the CMU and/or any other relevant clearing system. For the avoidance of doubt, Holders of Notes held through DTC are not entitled to the benefit of the direct rights under the MLBV Notes Deed of Covenant or the CMU Notes Deed of Covenant.

Korean Notes

The foregoing shall not apply to Korean Notes.

Korean Notes will be electronically registered in uncertificated and dematerialised book-entry form with the Korea Securities Depository in accordance with all applicable Korean laws, regulations and rules. Under applicable Korean Regulations, Korean Notes are not permitted to be issued in definitive, certificated form.

Form of the Warrants

Registered Warrants

If the applicable Final Terms specify that Warrants are eligible for sale exclusively in the United States or to, or for the account or benefit of, U.S. persons pursuant to an exemption from the registration requirements of the Securities Act, the Warrants sold (a) in the United States to QIBs who are also each a QP within the meaning of Section 3(c)(7) and as defined in Section 2(a)(51) of the 1940 Act and the rules thereunder or (b) to, or for the account or benefit of, U.S. persons who are QIBs and also QPs will be represented by a Rule 144A Global Warrant (the "**Rule 144A Global Warrant**") which will be in registered form and either (i) deposited with the Principal W&C Instrument Agent as a custodian for, and registered in the name of a nominee of, DTC; or (ii) deposited with, and registered in the name of a nominee of, the Common Depository.

Warrants which may be sold as described above to U.S. persons who are QIBs and also QPs in reliance on Rule 144A are referred to in this Offering Circular as "**Rule 144A Warrants**", which term shall also include, where the context requires, Rule 144A Warrants sold as described in the succeeding paragraph that are represented by a Regulation S/Rule 144A Global Warrant (as defined below).

If specified in the applicable Final Terms, the Warrants may be sold (a) pursuant to Rule 144A (i) to persons in the United States who are QIBs and QPs or (ii) to or for the account or benefit of U.S. persons who are QIBs and also QPs and (b) in either case, concurrently outside the United States to non-U.S. persons pursuant to Regulation S. Such Warrants will be represented by a Regulation S/Rule 144A Global Warrant (the "**Regulation S/Rule 144A Global Warrant**") which will be in registered form and deposited with, and registered in the name of a nominee for, the Common Depository.

If the Warrants are to be issued into and transferred through accounts at Euroclear and Clearstream, Luxembourg, and are not eligible for sale in the United States or to, or for the account or benefit of, U.S. persons, such Series of Warrants will on issue be constituted by a global warrant in registered form (the "**Euroclear/CBL Global Registered Warrant**", together with the Rule 144A Global Warrants and the Regulations S/Rule 144A Global Warrants, the "**Global Warrants**" and each, a "**Global Warrant**") which will be deposited with, and registered in the name of the nominee of, the Common Depository.

Each Rule 144A Global Warrant, Regulation S/Rule 144A Global Warrant and Euroclear/CBL Global Registered Warrant will be exchangeable in whole, but not in part, for individual warrant certificates ("**individual warrant certificates**") in a form to be agreed between the relevant Issuer and the Principal W&C Instrument Agent representing Warrants in definitive form ("**Definitive Registered Warrants**"), only upon the occurrence of an Exchange Event. For these purposes, "**Exchange Event**" means that (a)

in the case of Warrants represented by a Rule 144A Global Warrant held through DTC, either DTC has notified the Issuer that it is unwilling or unable to continue as a depository for that Rule 144A Global Warrant held through DTC and no alternative clearing system is available, or DTC has ceased to be a "clearing agency" registered under the Exchange Act, and no alternative clearing system is available, (b) in the case of Euroclear/CBL Global Registered Warrants and other Warrants registered in the name of a nominee of the Common Depository, the relevant Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 calendar days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available or (c) the relevant Issuer or the Guarantor has or will become subject to adverse tax consequences which would not be suffered were the Warrants held in definitive form. The relevant Issuer will give notice of any such Exchange Event to the Holders in accordance with W&C Instruments Condition 12 (*Notices*).

Whenever a Global Warrant is to be exchanged for individual warrant certificates, such individual warrant certificates shall be issued in equal number to the number of Warrants represented by the Global Warrant within five business days of the delivery, by or on behalf of the Holder, DTC or such other relevant clearing system, to the Principal W&C Instrument Agent of such information as is required to complete and deliver such individual warrant certificates (including, without limitation, the names and addresses of the persons in whose names the individual warrant certificates are to be registered and the number or nominal amount of each such person's holding) against the surrender of the Global Warrant at the specified office of the Principal W&C Instrument Agent.

Such exchange will be effected in accordance with the provisions of the English Law Agency Agreement and the regulations concerning the transfer and registration of Warrants scheduled thereto and, in particular, shall be effected without charge to any Holder, but against such indemnity as the Principal W&C Instrument Agent may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) individual warrant certificates have not been issued and delivered by 5.00 p.m. (London time) on the thirtieth calendar day after the date on which the same are due to be issued and delivered in accordance with the terms of the Global Warrant; or
- (b) the date for final settlement of the Warrants has occurred and payment in full of the amount due has not been made to the Holder on the due date for payment in accordance with the terms of the Global Warrant,

then the Global Warrant (including the obligation to deliver individual warrant certificates) will become void at 5.00 p.m. (London time) on such thirtieth calendar day (in the case of (a) immediately above) or at 5.00 p.m. (London time) on such due date (in the case of (b) immediately above) and the Holder of the Global Warrant will have no further rights thereunder (but without prejudice to the rights which the Holder of the Global Warrant or others may have under the W&C Instruments Deed of Covenant (as defined under "Terms and Conditions of the W&C Instruments")). Under the W&C Instruments Deed of Covenant, each Holder is entitled to exercise or enforce in respect of each Warrant held by him, the rights and obligations attaching to the relevant Warrant as set out in, and subject to, the W&C Instruments Deed of Covenant, the W&C Instruments Conditions and the applicable Final Terms issued in respect of such Warrants. For the avoidance of doubt, Holders of Warrants held through DTC are not entitled to the benefit of the direct rights under the W&C Instruments Deed of Covenant.

Form of the Certificates

Registered Certificates

If the applicable Final Terms specify that Certificates are eligible for sale exclusively in the United States or to, or for the account or benefit of, U.S. persons pursuant to an exemption from the registration requirements of the Securities Act, the Certificates sold (a) in the United States to QIBs who are also QPs within the meaning of Section 3(c)(7) and as defined in Section 2(a)(51) of the 1940 Act and the rules thereunder or (b) to, or for the account or benefit of, U.S. persons who are QIBs and also QPs will be represented by a Rule 144A Global Certificate (the "**Rule 144A Global Certificates**", together with the Rule 144A Global Warrants, the "**Rule 144A Global W&C Instruments**", and together with the

Rule 144A Global Notes, the "**Rule 144A Global Instruments**") which will be in registered form and either (i) deposited with the Principal W&C Instrument Agent as a custodian for, and registered in the name of a nominee of, DTC; or (ii) deposited with, and registered in the name of a nominee of, the Common Depositary.

Certificates which may be sold as described above to U.S. persons who are QIBs and also QPs in reliance on Rule 144A are referred to in this Offering Circular as "**Rule 144A Certificates**", (and together with the Rule 144A Warrants, the "**Rule 144A W&C Instruments**"), which term shall also include, where the context requires, Rule 144A Certificates sold as described in the succeeding paragraph that are represented by a Regulation S/Rule 144A Global Certificate (as defined below).

If specified in the applicable Final Terms, the Certificates may be sold (a) pursuant to Rule 144A (i) to persons in the United States who are QIBs and QPs or (ii) to or for the account or benefit of U.S. persons who are QIBs and also QPs and (b) in either case, concurrently outside the United States to non-U.S. persons pursuant to Regulation S. Such Certificates will be represented by a Regulation S/Rule 144A Global Certificate (the "**Regulation S/Rule 144A Global Certificate**", together with the Regulation S/Rule 144A Global Warrants, the "**Regulation S/Rule 144A Global W&C Instruments**", and together with the Regulation S/Rule 144A Global Notes, the "**Regulation S/Rule 144A Global Instruments**") which will be in registered form and deposited with, and registered in the name of a nominee for, the Common Depositary.

The Certificates are to be issued in registered form and will be represented by a global registered certificate ("**Euroclear/CBL Global Registered Certificates**", together with the Rule 144A Global Certificates and the Regulation S/Rule 144A Global Certificates, the "**Global Certificates**" and each, a "**Global Certificate**"), as specified in the applicable Final Terms. Each Global Registered Certificate will be deposited on or around the relevant Issue Date with, and registered in the name of the nominee for, the Common Depositary.

Each Global Certificate will be exchangeable in whole, but not in part, for individual certificates ("**individual certificates**"), representing Certificates in definitive form ("**Definitive Registered Certificates**" and, together with Definitive Registered Notes and Definitive Registered Warrants, "**Definitive Registered Instruments**"), if (a) in the case of Certificates represented by Rule 144A Global Certificates held through DTC, either DTC has notified the Issuer that it is unwilling or unable to continue as a depository for such Rule 144A Global Certificates held through DTC and no alternative clearing system is available, or DTC has ceased to be a "clearing agency" registered under the Exchange Act, and no alternative clearing system is available, (b) in the case of Global Registered Certificates and other Certificates registered in the name of a nominee of the Common Depositary, the relevant Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 calendar days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available and/or (c) in the case of Rule 144A Global Certificates and Regulation S/Rule 144A Global Certificates, the relevant Issuer or the Guarantor has or will become subject to adverse tax consequences which would not be suffered were the Certificates held in definitive form. The relevant Issuer will give notice of any such Exchange Event to the Holders in accordance with W&C Instruments Condition 12 (*Notices*).

Whenever a Global Certificate is to be exchanged for individual certificates, the relevant Issuer shall procure that individual certificates will be issued in number or nominal amount equal to the number or nominal amount of the Global Certificates then outstanding within five business days of the delivery, by or on behalf of the registered holder of the Global Certificate, DTC or such other relevant clearing system, to the Principal W&C Instrument Agent of such information as is required to complete and deliver such individual certificates (including, without limitation, the names and addresses of the persons in whose names the individual certificates are to be registered and the number or nominal amount of each such person's holding) against the surrender of the Global Registered Certificate at the specified office of the Principal W&C Instrument Agent.

Such exchange will be effected in accordance with the provisions of the English Law Agency Agreement and the regulations concerning the transfer and registration of Certificates scheduled thereto and, in particular, shall be effected without charge to any Holder, but against such indemnity as the Principal W&C Instrument Agent may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) individual certificates have not been delivered by 5.00 p.m. (London time) on the thirtieth calendar day after they are due to be issued and delivered in accordance with the terms of the Global Certificate; or
- (b) the date for final settlement of the Certificates has occurred and payment in full of all amounts due has not been made to the Holder of the Global Certificate on the due date for payment in accordance with the terms of the Global Certificate,

then the Global Certificate (including the obligation to deliver individual certificates) will become void at 5.00 p.m. (London time) on such thirtieth calendar day (in the case of (a) immediately above) or at 5.00 p.m. (London time) on such due date (in the case of (b) immediately above) and the Holder of the Global Certificate will have no further rights thereunder (but without prejudice to the rights which the holder of the Global Certificate or others may have under the W&C Instruments Deed of Covenant). Under the W&C Instruments Deed of Covenant, each Holder is entitled to exercise or enforce in respect of each Certificate held by him, the rights and obligations attaching to the relevant Certificate as set out in, and subject to, the W&C Instruments Deed of Covenant, the W&C Instruments Conditions and the applicable Final Terms issued in respect of such Certificates. For the avoidance of doubt, Holders of Certificates held through DTC are not entitled to the benefit of the direct rights under the W&C Instruments Deed of Covenant.

CREST Depository Interests

Following their delivery into a clearing system, interests in Instruments may be delivered, held and settled in CREST by means of the creation of CDIs representing the interests in the relevant Instruments. The CDIs will be issued by the CREST Depository to CDI Holders and will be governed by English law.

The CDIs will represent indirect interests in the interest of the CREST Nominee in the Instruments. Pursuant to the CREST Manual, Instruments held in global form may be settled through CREST, and the CREST Depository will issue CDIs. The CDIs will be independent securities, constituted under English law which may be held and transferred through CREST.

Interests in the Underlying Instruments will be credited to the CREST Nominee's account with Euroclear and the CREST Nominee will hold such interests as nominee for the CREST Depository which will issue CDIs to the relevant CREST participants.

Each CDI will be treated by the CREST Depository as if it were one Instrument, for the purposes of determining all rights and obligations and all amounts payable in respect thereof. The CREST Depository will pass on to CDI Holders any interest or other amounts received by it as holder of the Underlying Instruments on trust for such CDI Holder. CDI Holders will also be able to receive from the CREST Depository notices of meetings of holders of Instruments and other relevant notices issued by the Issuer.

Transfers of interests in Instruments by a CREST participant to a participant of Euroclear and/or Clearstream, Luxembourg will be effected by cancellation of the CDIs and transfer of an interest in such Underlying Instruments to the account of the relevant participant with Euroclear or Clearstream, Luxembourg.

The CDIs will have the same ISIN as the ISIN of the Underlying Instruments and will not require a separate listing on the Official List of the Luxembourg Stock Exchange.

Prospective subscribers for Instruments represented by CDIs are referred to Chapter 3 of the CREST Manual which contains the form of the CREST Deed Poll entered into by the CREST Depository. The rights of the CDI Holders will be governed by the arrangements between CREST, Euroclear and/or Clearstream, Luxembourg and the Issuer including the CREST Deed Poll (in the form contained in Chapter 3 of the CREST International Manual (which forms part of the CREST Manual)) executed by the CREST Depository. These rights may be different from those of holders of Instruments which are not represented by CDIs.

If issued, CDIs will be delivered, held and settled in CREST, by means of the CREST International Settlement Links Service. The settlement of the CDIs by means of the CREST International Settlement Links Service has the following consequences for CDI Holders:

1. CDI Holders will not be the legal owners of the Instruments. The CDIs are separate legal instruments from the Underlying Instruments to which they relate and represent an indirect interest in such Underlying Instruments.
2. The Underlying Instruments themselves (as distinct from the CDIs representing indirect interests in such Underlying Instruments) will be held in an account with a custodian. The custodian will hold the Underlying Instruments through a clearing system. Rights in the Underlying Instruments will be held through custodial and depository links through the appropriate clearing systems. The legal title to the Underlying Instruments or to interests in the Underlying Instruments will depend on the rules of the clearing system in or through which the Underlying Instruments are held.
3. Rights under the Underlying Instruments cannot be enforced by CDI Holders except indirectly through the intermediary depositories and custodians described above. The enforcement of rights under the Underlying Instruments will therefore be subject to the local law of the relevant intermediary. The rights of CDI Holders to the Underlying Instruments are represented by the entitlements against the CREST Depository which (through the CREST Nominee) holds interests in the Underlying Instruments. This could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Underlying Instruments in the event of any insolvency or liquidation of a relevant intermediary, in particular where the Underlying Instruments held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.
4. The CDIs issued to CDI Holders will be constituted and issued pursuant to the CREST Deed Poll. CDI Holders will be bound by all provisions of the CREST Deed Poll and by all provisions of or prescribed pursuant to the CREST Manual and the CREST Rules and CDI Holders must comply in full with all obligations imposed on them by such provisions.
5. Potential investors should note that the provisions of the CREST Deed Poll, the CREST Manual and the CREST Rules contain indemnities, warranties, representations and undertakings to be given by CDI Holders and limitations on the liability of the issuer of the CDIs, the CREST Depository.
6. CDI Holders may incur liabilities resulting from a breach of any such indemnities, warranties, representations and undertakings in excess of the money invested by them. The attention of potential investors is drawn to the terms of the CREST Deed Poll, the CREST Manual and the CREST Rules, copies of which are available from CREST.
7. Potential investors should note that CDI Holders may be required to pay fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the CDIs through the CREST International Settlement Links Service.
8. Potential investors should note that the Issuers, the Guarantor, the Dealers, the Agents, the Registrar or their respective advisers will not have any responsibility for the performance by any intermediaries or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations.

No beneficial owner of an interest in a Global Note will be able to transfer such interest, except as described above in Condition 2(B) (*Exchange and Transfer of Notes – Notes held in Euroclear and Clearstream, Luxembourg or the CMU*).

(D) *Exercise of Options or Partial Redemption in Respect of Notes*

In the case of an exercise of an Issuer Call or Investor Put in respect of, or a partial redemption of, a holding of Notes represented by a Global Note, the Registrar shall make such entries in the Register to reflect the exercise of such option or in respect of the balance of the holding not redeemed.

In the case of an exercise of an Issuer Call or Investor Put in respect of, or a partial redemption of, a holding of Definitive Registered Notes represented by a single Individual Note Certificate, a new Individual Note Certificate shall be issued to the Holder to reflect the exercise of such option or in respect of the balance of the holding not redeemed. In the case of a partial exercise of an option resulting in Definitive Registered Notes of the same holding having different terms, separate Individual Note Certificates shall be issued in respect of those Notes of that holding that have the same terms. New Individual Note Certificates shall only be issued against surrender of the existing Individual Note Certificate to the Principal Paying Agent.

(E) *Delivery of New Individual Note Certificates and Global Notes*

Each new Individual Note Certificate or Global Note to be issued pursuant to this Condition 2 (*Exchange and Transfer of Notes*) shall be available for delivery within three Business Days of receipt of the form of transfer and surrender of the Individual Note Certificate or Global Note, as applicable, for exchange. Delivery of the new Individual Note Certificate(s) or Global Note, as applicable, shall be made at the specified office of the Principal Paying Agent to whom delivery or surrender of such request for exchange, form of transfer, or Individual Note Certificate or Global Note shall have been made or, at the option of the Holder making such delivery or surrender as aforesaid and as specified in the relevant request for exchange, form of transfer or otherwise in writing, be mailed by uninsured post at the risk of the Holder entitled to the new Individual Note Certificate or Global Note (as applicable) to such address as may be so specified, unless such Holder requests otherwise and pays in advance to the Principal Paying Agent the costs of such other method of delivery and/or such insurance as it may specify.

(F) *Closed Periods*

No Holder may require the transfer of Notes to be registered:

- (a) during the period beginning on the Record Date and ending on the due date for redemption of, or payment of any Instalment Amount, or amount of interest, in respect of, that Note;
- (b) during the period beginning on the Record Date and ending on the date on which Notes may be called for redemption by the Issuer at its option pursuant to Condition 7(D) (*Redemption, Repayment and Repurchase – Redemption at the Option of the Issuer (Issuer Call)*);
- (c) after any such Note has been called for redemption;

- (d) during the period beginning on the Record Date and ending on the date fixed for any meeting of Noteholders, or any adjourned meeting of Noteholders;
- (e) during the period of seven calendar days ending on (and including) any Record Date; or
- (f) if the Registrar learns that the proposed transfer or exchange would violate any legend contained on the face of such Global Note or Individual Note Certificate.

Unless otherwise specified, as used herein "**Record Date**" means (i) in respect of any Definitive Registered Notes, the close of business (London time) or, in the case of CMU Notes, (Hong Kong time) on the 15th calendar day and (ii) in respect of any Global Notes, the close of business on the Relevant Clearing System Business Day, in each case, prior to the applicable due date for redemption of a Note, or the payment of any Instalment Amount or amount of interest in respect of a Note, or the date fixed for any meeting, or adjourned meeting, of holders of Notes, where "**Relevant Clearing System Business Day**" means a day on which the relevant clearing system through which the Notes are held is open for business.

For the avoidance of doubt, this Condition 2(F) (*Exchange and Transfer of Notes - Closed Periods*) shall not apply to or restrict the Issuer's ability to purchase an outstanding Series of Notes pursuant to Condition 7(L) (*Redemption, Repayment and Repurchase - Repurchases*).

(G) *Exchange or Transfer Free of Charge*

Exchange and transfer of Notes on registration, transfer, partial redemption, partial repayment, settlement or exercise of an option (as applicable) shall be effected without charge by or on behalf of the Issuer or the Principal Paying Agent, but upon payment by the Holder of any tax or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as the Principal Paying Agent may require).

3. **Status of the Notes and the Guarantees**

(A) *Status of the Notes and Guarantees*

Other than Secured Notes, the Notes issued by MLBV constitute direct, unsubordinated, unconditional and unsecured obligations of MLBV and rank equally among themselves and rank equally (subject to exceptions as are from time to time provided by applicable laws and regulations) with all other present and future direct, unsubordinated, unconditional and unsecured obligations of MLBV.

The Notes issued by BofA Finance will be unsecured and unsubordinated obligations of BofA Finance and will rank equally in right of payment with all of BofA Finance's other unsecured and unsubordinated obligations from time to time outstanding, except obligations that are subject to any priorities or preferences by law.

In respect of Notes issued by BofA Finance or MLBV, the obligations of the Guarantor under the relevant Guarantee, save for such exceptions as may be provided by applicable laws and regulations or judicial order, will rank *pari passu* with its other present and future unsecured and unsubordinated obligations.

The Notes issued by BAC will be unsecured and unsubordinated obligations of BAC and will rank equally in right of payment with all of BAC's other unsecured and unsubordinated obligations from time to time outstanding, except obligations, including deposit liabilities, that are subject to any priorities or preferences by law.

(B) *Terms of the Guarantees*

In accordance with, and subject to the terms of, the MLBV Guarantee, the Guarantor has unconditionally and irrevocably guaranteed to the holders of Notes (other than Secured Notes, CMU Notes and Korean Notes) issued by MLBV (i) the due and punctual

payment of any and all amounts payable by MLBV as obligor in respect of such Notes and (ii) subject as provided below, the due and punctual delivery of non-cash consideration deliverable by MLBV in respect of such Notes, if applicable, when and as the same shall become due and payable or when the same shall become due for delivery pursuant to the Conditions and to the extent provided in the MLBV Guarantee. In accordance with, and subject to the terms of, the CMU Notes Guarantee, the Guarantor has unconditionally and irrevocably guaranteed to the holders of CMU Notes issued by MLBV (i) the due and punctual payment of any and all amounts payable by MLBV as obligor in respect of such CMU Notes and (ii) subject as provided below, the due and punctual delivery of non-cash consideration deliverable by MLBV in respect of such CMU Notes, if applicable, when and as the same shall become due and payable or when the same shall become due for delivery pursuant to the Conditions and to the extent provided in the CMU Notes Guarantee. As more fully set forth in the MLBV Guarantee and the CMU Notes Guarantee, as applicable, the Guarantor shall at all times have the right, at its sole and unfettered discretion, to elect not to deliver or procure delivery of the Entitlement to the Holders of Physical Delivery Notes issued by MLBV when the same shall become due and deliverable, but, in lieu thereof, to pay an amount in cash equal to the Guaranteed Cash Settlement Amount. The "**Guaranteed Cash Settlement Amount**" in respect of each Note or CMU Note issued by MLBV means an amount calculated pursuant to the terms of, or as specified in, the applicable Final Terms (or, in respect of each Credit Linked Note, as set out in Credit Linked Note Condition 5 (*Physical Settlement*) of "Annex 9A – *Additional Terms and Conditions for Credit Linked Notes*") or, if not specified in the applicable Final Terms, an amount equal to the fair market value of the Entitlement in respect of such Note or such CMU Note on any date notified as such by the Guarantor to MLBV and the Calculation Agent, less the cost to MLBV and/or its Affiliates or agents of unwinding or adjusting any underlying or related hedging arrangements (including the cost of funding in respect of such hedging arrangements), all as determined by the Guarantor in its sole and absolute discretion. Any payment of the Guaranteed Cash Settlement Amount in lieu of the Entitlement shall constitute a complete discharge of the Guarantor's obligations in respect of such Physical Delivery Notes.

In accordance with, and subject to the terms of, the BofA Finance Guarantee, the Guarantor has unconditionally and irrevocably guaranteed to the holders of Notes issued by BofA Finance, the due and punctual payment of any and all amounts payable by BofA Finance as obligor in respect of the Notes issued by BofA Finance.

4. **Redenomination**

(A) *Redenomination*

If the country issuing the currency that is the Specified Currency or Settlement Currency, as applicable, for a Series of notes becomes, or announces its intention to become, a member state of the European Union which adopts the euro as its lawful currency in accordance with the Treaty Establishing the European Community, as amended from time to time (such treaty, the "**EC Treaty**" and such member state, a "**Participating Member State**"), the Issuer may, without the consent of the Noteholders on giving prior notice to the Principal Paying Agent, Euroclear and Clearstream, Luxembourg and at least 30 calendar days' prior notice to the Noteholders in accordance with Condition 14 (*Notices*), elect that, with effect from the Redenomination Date specified in the notice, the Notes shall be redenominated in euro.

The election will have effect as follows:

- (a) the Notes shall be deemed to be redenominated in euro in the denomination of €0.01 with a nominal amount for each Note equal to the nominal amount of that Note in the Specified Currency, converted into euro at the Established Rate, provided that, if the Issuer determines, with the agreement of the Principal Paying Agent, that the then market practice in respect of the redenomination in euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market

- practice and the Issuer shall promptly notify the Noteholders, the stock exchange (if any) on which the Notes may be listed, and the Paying Agents of such deemed amendments;
- (b) save to the extent that an Exchange Notice has been given in accordance with paragraph (d) below, the amount of interest due in respect of the Notes will be calculated by reference to the aggregate nominal amount of Notes presented for payment by the relevant holder and the amount of such payment shall be rounded down to the nearest €0.01;
 - (c) if Definitive Registered Notes are required to be issued after the Redenomination Date, they shall be issued at the expense of the Issuer, in the denominations of €1,000, €10,000, €100,000 and (but only to the extent of any remaining amounts less than €1,000 or such smaller denominations as the Principal Paying Agent may approve) €0.01 and such other denominations as the Principal Paying Agent shall determine and notify to the Noteholders;
 - (d) after the Redenomination Date, all payments in respect of the Notes, other than payments of interest (if any) in respect of periods commencing before the Redenomination Date, will be made solely in euro as though references in the Notes to the Specified Currency were to euro. Payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque; and
 - (e) if the Notes are Fixed Rate Notes and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on an Interest Payment Date, it will be calculated:
 - (i) in the case of the Notes represented by a Global Note, by applying the Rate of Interest to the aggregate outstanding nominal amount of the Notes represented by such Global Note; and
 - (ii) in the case of Definitive Registered Notes, by applying the Rate of Interest to the Calculation Amount,
 - (iii) and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

In connection with such redenomination, the Issuer, after consultation with the Principal Agent, may make such other changes to the Conditions applicable to the relevant Notes, including, without limitation, with respect to any Business Day, Day Count Fraction, or other conventions as it may decide, so as to conform them to the then market practice in respect of euro-denominated debt securities issued in the Euromarkets, which are held in international clearing systems.

Any such changes will not take effect until the next following Interest Payment Date (in the case of interest bearing Notes) or the specified date (in the case of Zero Coupon Notes), as applicable, after the Noteholders have been given notice in accordance with Condition 14.

The circumstances and consequences described in this Condition 4 and any resulting amendment to the Conditions of the Notes will not entitle any Noteholder (i) to any legal

remedy, including, without limitation, redemption, rescission, notice, repudiation, adjustment, or renegotiation of the Notes, or (ii) to raise any defence or make any claim (including, without limitation, claims of breach, force majeure, frustration of purpose, or impracticability) or any other claim for compensation, damages or any other relief.

 - (ii) in the case of Notes where the Accrual Period is longer than the Determination Period during which the Accrual Period ends, the sum of:
 - (A) the number of days in such Accrual Period falling in the Determination Period in which the Accrual Period begins divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year assuming interest were payable in respect of the whole of that year; and
 - (B) the number of days in such Accrual Period falling in the next Determination Period divided by the product of (x) the number of days in such Determination Period and (y) the number of Determination Dates (as specified in the applicable Final Terms) that would occur in one calendar year assuming interest were payable in respect of the whole of that year;

where:

"**Y₁**" is the year, expressed as a number, in which the first day of the Interest Period falls;

"**sub-unit**" means, with respect to any currency other than euro and U.S. Dollars, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro and U.S. Dollars, one cent.

(B) *Interest on Fixed Rate Notes*

Except as provided in the applicable Final Terms, each Fixed Rate Note bears interest on its outstanding principal amount from (and including) the Interest Commencement Date

at the rate(s) per annum equal to the Rate(s) of Interest. Interest will be payable in arrear on the Interest Payment Date(s) in each year up to (and including) the Maturity Date or any other date specified for redemption.

Except as provided in the applicable Final Terms, if a Fixed Coupon Amount is specified in the applicable Final Terms, the amount of interest payable in respect of each Note on each Interest Payment Date in respect of the Fixed Interest Period ending on (but excluding) such date will amount to the Fixed Coupon Amount as specified irrespective of any calculation based on the applicable Rate of Interest and any applicable Day Count Fraction (if any). Payments of interest on any Interest Payment Date will, if so specified in the applicable Final Terms, amount to the Broken Amount so specified.

If "**Unadjusted**" is specified in the applicable Final Terms with respect to any Interest Payment Date, any Interest Payment Date falling on a day which is not a Business Day will not be adjusted in accordance with any Business Day Convention, and the relevant Fixed Interest Period (as defined below) will accordingly not be adjusted. In such event, payment of any amounts will be made in accordance with the provisions of Condition 6(C) (*Payments – Payment Day*).

If "**Adjusted**" is specified in the applicable Final Terms with respect to any Interest Payment Date, any Interest Payment Date falling on a day which is not a Business Day will be adjusted in accordance with the Business Day Convention specified in the applicable Final Terms, and the relevant Fixed Interest Period will be adjusted accordingly. For these purposes, the provisions of Condition 5(C)(a) below relating to Business Day Conventions shall apply *mutatis mutandis* where "Business Day" has the meaning assigned to it in Condition 18 (*Business Days*).

As used in these Terms and Conditions, "**Fixed Interest Period**" means the period from (and including) an Interest Payment Date (or the Interest Commencement Date) to (but excluding) the next (or first) Interest Payment Date.

In respect of each Note while it is represented by a Global Note, the Interest Amount payable on such Interest Payment Date in respect of each Fixed Interest Period shall be calculated by the Calculation Agent by applying the Rate of Interest to the aggregate outstanding nominal amount of the Notes represented by such Global Note and in each case multiplying such product by the Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention.

If interest is required to be calculated for a period other than (i) a Fixed Interest Period or (ii) where an applicable Fixed Coupon Amount or Broken Amount is specified in the applicable Final Terms, interest shall be calculated in respect of any period by applying the Rate of Interest to:

- (i) in the case of Fixed Rate Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Fixed Rate Notes represented by such Global Note or, if they are Partly Paid Notes, the aggregate amount paid up; or
- (ii) in the case of Fixed Rate Notes in definitive form, the Calculation Amount;

and, in each case, multiplying such product by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding.

(C) *Interest on Floating Rate Notes, Index Linked Interest Notes, Share Linked Interest Notes, GDR/ADR Linked Interest Notes, FX Linked Interest Notes, Commodity Linked Interest Notes, Fund Linked Interest Notes and Inflation Linked Interest Notes*

(a) *Interest Payment Dates*

Each Floating Rate Note, Index Linked Interest Note, Share Linked Interest Note, GDR/ADR Linked Interest Note, FX Linked Interest Note, Commodity Linked Interest Note, Fund Linked Interest Note and Inflation Linked Interest Note bears interest on its outstanding nominal amount (or, if it is a Partly Paid Note, the amount paid up) from (and including) the Interest Commencement Date. Interest will be payable in arrear on the "**Interest Payment Date(s)**", which shall mean either:

- (i) the Specified Interest Payment Date(s) in each year specified in the applicable Final Terms; or
- (ii) if no Specified Interest Payment Date(s) is/are specified in the applicable Final Terms, each date which falls the number of months or other period specified as the Specified Period in the applicable Final Terms after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

Interest will be payable in respect of each "**Interest Period**" (which expression shall, in these Terms and Conditions, mean (except as otherwise provided in Additional Note Condition 3(b)(ii)(A) in Annex 17), the period from (and including) an Interest Payment Date (or the Interest Commencement Date, in the case of the initial Interest Period) to (but excluding) the next Interest Payment Date or the first Interest Payment Date, as the case may be, or, in the case of the final Interest Period, the redemption date (whether at maturity or any earlier redemption date)) (subject to adjustment (if applicable) as described below).

If "**Unadjusted**" is specified in the applicable Final Terms with respect to any Interest Payment Date, and such Interest Payment Date is not a Business Day, then such Interest Payment Date will not be adjusted in accordance with any Business Day Convention (and, consequently, the relevant Interest Period will not be adjusted). In such event, payments of interest due shall be made in accordance with the provisions of Condition 6(C) (*Payments - Payment Day*), with no additional interest accruing or payable as a result of the non-Business Day.

If (x) there is no numerically corresponding day in the calendar month in which an Interest Payment Date should occur or (y) "**Adjusted**" is specified in the applicable Final Terms with respect to any Interest Payment Date or Interest Period Demarcation Date (as defined in Additional Note Condition 3(b)(ii)(A) and applicable with respect to Series of Notes for which the Reference Rate is a Compounded Daily Reference Rate using "Payment Delay" as the Determination Convention (as defined in Additional Note Condition 3(b)(ii)(A)) and such Interest Payment Date or Interest Period Demarcation Date, as applicable, falls on a day which is not a Business Day, such Interest Payment Date or Interest Period Demarcation Date, as applicable, will be adjusted in accordance with the Business Day Convention specified in the applicable Final Terms (and, consequently, the relevant Interest Period will be adjusted). With respect to Series of Notes for which the Reference Rate is a Compounded Daily Reference Rate using the Payment Delay Determination Convention, if the scheduled final Interest Period Demarcation Date (which will be the Maturity Date or other redemption date falling on such final Interest Period Demarcation Date) falls on a day that is not a Business Day, such final Interest Period Demarcation Date (and the related Maturity Date or other redemption date falling on such final Interest Period Demarcation Date) will be postponed to such succeeding Business Day. In each case, interest will accrue to, but excluding, the adjusted Interest Payment

Date or adjusted Interest Period Demarcation Date, as the case may be. If the Business Day Convention specified is:

- (1) in any case where Specified Periods are specified in accordance with Condition 5(C)(a)(ii) above, the Floating Rate Convention, such Interest Payment Date (i) in the case of (x) above, shall be the last day that is a Business Day in the relevant month and the provisions of (B) shall apply *mutatis mutandis* or (ii) in the case of (y) above, shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event (A) such Interest Payment Date shall be brought forward to the immediately preceding Business Day and (B) each subsequent Interest Payment Date shall be the last Business Day in the month which falls the Specified Period after the preceding applicable Interest Payment Date occurred; or
- (2) the Following Business Day Convention, such Interest Payment Date shall be postponed to the next day which is a Business Day; or
- (3) the Modified Following Business Day Convention, such Interest Payment Date or Interest Period Demarcation Date shall be postponed to the next day which is a Business Day unless it would thereby fall into the next calendar month, in which event such Interest Payment Date or Interest Period Demarcation Date shall be brought forward to the immediately preceding Business Day; or
- (4) the Preceding Business Day Convention, such Interest Payment Date shall be brought forward to the immediately preceding Business Day,

where "**Business Day**" has the meaning assigned to it in Condition 18 (*Business Days*).

The applicable Reference Rate will be determined in accordance with Condition 5(C)(b)(i) or 5(C)(b)(ii), as applicable, specified in the applicable Final Terms, and the Additional Note Conditions that are specified in Annex 17 to be applicable with respect to such Reference Rate and Notes bearing interest by reference thereto and/or as specified in the applicable Final Terms.

(i) *Screen Rate Determination for Floating Rate Notes*

Where Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined with respect to a particular Series of Notes, except as otherwise provided pursuant to the applicable benchmark transition provisions set forth in Annex 17, the Rate of Interest for each Interest Period will be equal to the applicable Reference Rate (expressed as a percentage rate per annum) for the Specified Maturity and, if applicable, the Specified Currency for such Series of Notes, determined in accordance with Additional Note Condition 2 and such further Additional Note Conditions that are specified in Annex 17 and the applicable Final Terms to be applicable to the applicable Reference Rate and Notes bearing interest by reference thereto, multiplied by the Participation Rate, if any, plus or minus (as indicated in the

applicable Final Terms) the Margin, if any, all as determined by the Calculation Agent.

(ii) *Determination of Rate of Interest of Floating Rate Notes with a Compounded Daily Reference Rate*

Where Compounded Daily is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, except as otherwise provided pursuant to the applicable benchmark transition provisions set forth in Annex 17, the Rate of Interest for each Interest Period will be equal to the applicable Compounded Daily Reference Rate determined in accordance with Additional Note Condition 3 and such further Additional Note Conditions that are specified in Annex 17 and the applicable Final Terms to be applicable to the applicable Reference Rate and Notes bearing interest by reference thereto, multiplied by the Participation Rate, if any, plus or minus (as indicated in the applicable Final Terms) the Margin, if any, all as determined by the Calculation Agent.

(c) *Minimum or Maximum Rate of Interest*

If the applicable Final Terms specifies a minimum rate at which the Notes bear interest (a "**Minimum Interest Rate**") or a maximum rate at which the Notes bear interest (a "**Maximum Interest Rate**"), then the Rate of Interest shall in no event be greater than the Maximum Interest Rate or be less than the Minimum Interest Rate so specified.

(d) *Determination of Rate of Interest and Calculation of Interest Amounts*

The Calculation Agent, in the case of Floating Rate Notes, Index Linked Interest Notes, Share Linked Interest Notes, GDR/ADR Linked Interest Notes, FX Linked Interest Notes, Commodity Linked Interest Notes, Fund Linked Interest Notes and Inflation Linked Interest Notes, will, at or as soon as practicable after each time at which the Rate of Interest is to be determined, determine the Rate of Interest for the relevant Interest Period with respect to the applicable Note. In the case of Floating Rate Notes, Index Linked Interest Notes, Share Linked Interest Notes, GDR/ADR Linked Interest Notes, FX Linked Interest Notes, Commodity Linked Interest Notes, Fund Linked Interest Notes and Inflation Linked Interest Notes, the Calculation Agent will notify the Principal Paying Agent of the Rate of Interest for the relevant Interest Period as soon as practicable after calculating the same.

The Calculation Agent, in the case of Floating Rate Notes, Index Linked Interest Notes, Share Linked Interest Notes, GDR/ADR Linked Interest Notes, FX Linked Interest Notes, Commodity Linked Interest Notes, Fund Linked Interest Notes and Inflation Linked Interest Notes, will calculate the amount of interest (the "**Interest Amount**") payable on the Notes for the relevant Interest Period (unless the Interest Amount is specified in the applicable Final Terms, in which case the Interest Amount shall be such amount) by applying the Rate of Interest to:

- (i) in the case of Floating Rate Notes, Index Linked Interest Notes, Share Linked Interest Notes, GDR/ADR Linked Interest Notes, FX Linked Interest Notes, Commodity Linked Interest Notes, Fund Linked Interest Notes or Inflation Linked Interest Notes which are represented by a Global Note, the aggregate outstanding nominal amount of the Notes represented by such Global Note (or, if they are Partly Paid Notes, the aggregate amount paid up); or
- (ii) in the case of Floating Rate Notes, Index Linked Interest Notes, Share Linked Interest Notes, GDR/ADR Linked Interest Notes, FX Linked Interest Notes, Commodity Linked Interest Notes, Fund Linked Interest

Notes or Inflation Linked Interest Notes in definitive form, the Calculation Amount,

and, in each case, multiplying such product by the applicable Day Count Fraction, and rounding the resultant figure in accordance with Condition 6(G). Where the Specified Denomination of a Floating Rate Note, Index Linked Interest Note, Share Linked Interest Note, GDR/ADR Linked Interest Note, FX Linked Interest Note, Commodity Linked Interest Note, Fund Linked Interest Note or Inflation Linked Interest Note in definitive form is a multiple of the Calculation Amount, the Interest Amount payable in respect of such Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding. In such case, the Calculation Agent will notify the Principal Paying Agent of the Interest Amount for the relevant Interest Period as soon as practicable after calculating the same.

(e) *Notification of Rate of Interest and Interest Amounts*

The Principal Paying Agent and/or the Calculation Agent will cause the relevant Rate of Interest and Interest Amount for each Interest Period and the relevant Interest Payment Date to be notified to the Issuer and any securities or stock exchange on which the relevant Floating Rate Notes, Index Linked Interest Notes, Share Linked Interest Notes, GDR/ADR Linked Interest Notes, FX Linked Interest Notes, Commodity Linked Interest Notes, Fund Linked Interest Notes or Inflation Linked Interest Notes are for the time being listed as soon as reasonably practicable after their determination. In connection with any such Notes listed on any securities exchange, the Principal Paying Agent and/or the Calculation Agent will notify such securities exchange of the Rate or Interest, the Interest Payment Date and each Interest Amount no later than the first day of the commencement of each new Interest Period, or, in respect of the Notes for which the Reference Rate is a Compounded Daily Reference Rate, as soon as reasonably practicable after the determination of such Rate of Interest and the Interest Amount. Both the Interest Amount and the Interest Payment Date subsequently may be amended (and/or appropriate alternative arrangements made by way of adjustment) without prior notice in the event of an extension or shortening of the Interest Period in accordance with the provisions hereof. Any such amendment will be notified as soon as reasonably practicable to each securities or stock exchange (if the rules of such securities or stock exchange so require) on which the relevant Floating Rate Notes, Index Linked Interest Notes, Share Linked Interest Notes, GDR/ADR Linked Interest Notes, FX Linked Interest Notes, Commodity Linked Interest Notes, Fund Linked Interest Notes or Inflation Linked Interest Notes are for the time being listed and to the Noteholders in accordance with Condition 14 (*Notices*). In addition, if, with respect to a Series of Notes, a substitute, alternative or replacement rate with respect to the Reference Rate for such Series is determined pursuant to and in accordance with the applicable benchmark transition provisions (as defined in Condition 5(C)(b)), and as specified in the applicable Final Terms, the Issuer shall provide, or cause to be provided, as soon as practicable after such determination, notice of such substitute or alternative rate to the applicable Holders in accordance with Condition 14 (*Notices*).

(f) *Certificates to be final*

Except as otherwise provided in Additional Note Condition 3 set forth in Annex 17, all certificates, communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 5(C), whether by the Principal Paying Agent or, if applicable, the Calculation Agent, shall (in the absence of negligence, wilful default, bad faith, manifest error or proven error) be binding on the Issuer, the Guarantor (in the case of Notes issued by MLBV), the Principal Paying Agent, the Calculation Agent (if applicable), the other Paying Agents, the Registrar and all Noteholders and (in the absence of wilful default or bad faith) no liability to

the Issuer, the Guarantor (in the case of Notes issued by MLBV) or the Noteholders shall attach to the Principal Paying Agent or the Calculation Agent (if applicable) in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

(D) *Interest on Partly Paid Notes*

In the case of Partly Paid Notes (other than Partly Paid Notes which are Zero Coupon Notes), interest will accrue as aforesaid on the paid-up nominal amount of such Notes and otherwise as specified in the applicable Final Terms.

(E) *Cessation of Interest Accrual; Accrual of interest if Payment of Principal is Improperly Withheld or Refused*

Each Note (or in the case of the redemption of part only of a Note, that part only of such Note) will cease to bear interest (if any) from the date of its redemption unless, upon due presentation thereof, payment of principal is improperly withheld or refused. In such event, interest will continue to accrue until whichever is the earlier of:

- (a) the date on which all amounts due in respect of such Note have been paid and/or all assets deliverable in respect of such Note have been delivered; and
- (b) five calendar days after the date on which the full amount of the moneys payable in respect of such Note has been received by the Principal Paying Agent, and/or all assets in respect of such Note have been received by any agent appointed by the Issuer to deliver such assets to Noteholders and notice to that effect has been given to the Noteholders in accordance with Condition 14 (*Notices*),

provided that if:

- (c) "**Accrual of Interest upon Credit Event**" is specified as Not Applicable in the applicable Final Terms, each Note shall cease to bear interest from the Interest Payment Date immediately preceding the Event Determination Date, or if the Event Determination Date is an Interest Payment Date such Interest Payment Date (or, in the case of the Event Determination Date falling on or after the Scheduled Maturity Date (which is an Interest Payment Date), the Interest Payment Date immediately preceding the Scheduled Maturity Date) or, if the Event Determination Date falls prior to the first Interest Payment Date, no interest shall accrue on the Notes; or
- (d) "**Accrual of Interest upon Credit Event**" is specified as being Applicable in the applicable Final Terms, each Note shall cease to bear interest from the Event Determination Date.

(F) *Payment Disruption*

(a) *Occurrence of a Payment Disruption Event or a CNY Payment Disruption Event*

If the applicable Final Terms specifies "Payment Disruption Event" or "CNY Payment Disruption Event" to be applicable, then, in the event that the Calculation Agent, at any time and from time to time, determines in its sole discretion that a Payment Disruption Event or a CNY Payment Disruption Event, as the case may be, has occurred or is likely to occur, then the Calculation Agent shall as soon as practicable notify the Holders of the relevant Notes of the occurrence of such Payment Disruption Event or CNY Payment Disruption Event, as the case may be, in accordance with Condition 14 (*Notices*).

(b) *Consequences of a Payment Disruption Event*

Upon the occurrence of a Payment Disruption Event:

(i) *Postponement of relevant dates*

Subject to Condition 6(F)(e), the Issuer may postpone the Interest Payment Date, the Maturity Date or any other date on which the Notes may be redeemed or any amount would otherwise be due and payable in respect of the relevant Notes until five Business Days (or such other date as may be determined by the Issuer and notified to the Holders in accordance with Condition 14 (*Notices*)) after the date on which the Payment Disruption Event is no longer occurring (the "**Postponed Date**"). Noteholders shall not be entitled to further interest or other payment in respect of such postponement.

(ii) *Issuer's option to vary settlement*

Notwithstanding the Issuer's right to postpone the date(s) for payments and/or redemption in accordance with Condition 6(F)(b)(i), the Issuer may, if practicable (and to the extent lawful), and at the Issuer's sole and absolute discretion:

- (A) make payments due to be made in the Subject Currency in the Base Currency or in U.S. dollars or euros, converted from the Subject Currency into the Base Currency, U.S. dollars or euros, as applicable, at a rate reasonably selected by the Calculation Agent;
- (B) make payments due to be made in the Base Currency in the Subject Currency or in U.S. dollars or euros, disregarding any obligation to convert amounts into the Base Currency;

Any Partial Distribution made by the Issuer to the Holders will be calculated and/or determined by the Calculation Agent in its sole and absolute discretion and shall be paid and/or delivered to the Holders *pro rata* (as far as possible, subject to any necessary adjustments for rounding) to the proportion of the Notes of the same Series held by the relevant Holder. In the event that any Partial Distribution is made by the Issuer, the Calculation

Agent may, in its sole and absolute discretion, make any such corresponding adjustment to any variable relevant to the redemption or payment terms of the relevant Notes as it deems necessary and shall notify the relevant Holders thereof in accordance with Condition 14 (*Notices*).

Any payments or deliveries made in accordance with this Condition 6(F)(b)(ii) shall satisfy and discharge in full (in the case of payments or deliveries made in accordance with paragraphs (A) to (C)) and in part (in the case of Partial Distributions made in accordance with paragraph (D)) the Issuer's obligation to pay the Interest Amount, Fixed Coupon Amount, Final Redemption Amount or other amount in respect of which the Payment Disruption Event has arisen, and no further amounts shall be due and payable by the Issuer in respect thereof.

(c) *Consequences of a CNY Payment Disruption Event*

(i) *Postponement of relevant dates*

(ii) *Payment of Equivalent Amount*

If "Payment of Equivalent Amount" is specified to be applicable in the applicable Final Terms, and the Calculation Agent determines that a CNY Payment Disruption Event has occurred in relation to the Issuer's obligations under the relevant Notes to pay any Interest Amount, Fixed Coupon Amount, Final Redemption Amount or other amount in respect of the relevant Notes on the relevant Interest Payment Date, Maturity Date, or such other date on which any amount in respect of the relevant Notes shall be due and payable (such date, the "**Affected Payment Date**"), then the Issuer may, on giving notice to Holders in accordance with Condition 14 (*Notices*) as soon as practicable and in any event prior to the date on which the payment of the Equivalent Amount is due and payable to the Holders, make payment of the Equivalent Amount of the relevant Interest Amount, Fixed Coupon Amount, Final Redemption Amount or such other amount payable (if applicable) in full and final settlement of its obligations to pay such Interest Amount, Fixed Coupon Amount, Final Redemption Amount or other amount in respect of the relevant Notes.

Notwithstanding the foregoing:

(A) if both "Payment of Equivalent Amount" and "Date Postponement" are specified to be applicable in the applicable Final Terms, and if the Issuer decides to exercise its right of postponement pursuant to Condition 6(F)(c)(i) and payment of the Equivalent Amount pursuant to this Condition 6(F)(c)(ii), the Equivalent Amount in respect of the relevant Interest Amount, Fixed Coupon Amount, Final Redemption Amount or other amount (if applicable) in respect of the relevant Notes shall be due and payable on the Postponed Date instead of the Affected Payment Date; and

(B) if (x) only the "Payment of Equivalent Amount" is specified to be applicable in the applicable Final Terms, or (y) both "Payment of Equivalent Amount" and "Date Postponement" are specified to be applicable in the applicable Final Terms and the Issuer decides only

to exercise the right of payment of the Equivalent Amount pursuant to this Condition 6(F)(c)(ii) but not its right of postponement pursuant to Condition 6(F)(c)(i), then no Postponed Date shall apply and the Equivalent Amount in respect of the relevant Interest Amount, Fixed Coupon Amount, Final Redemption Amount or other amount (if applicable) in respect of the relevant Notes shall be due and payable on the Affected Payment Date.

(d) *Payments net of expenses*

Notwithstanding any provisions to the contrary, (a) any payments made in accordance with Condition 6(F)(b) or Condition 6(F)(c), as the case may be, shall be made after deduction of any costs, expenses or liabilities incurred or to be incurred by the Calculation Agent or Issuer in connection with or arising from the resolution of the relevant Payment Disruption Event(s) or CNY Payment Disruption Event(s), as the case may be, and (b) no interest shall be paid by the Issuer in respect of any delay which may occur in the payment of any amounts due and payable under the Notes as a result of the operation of Condition 6(F)(b) or Condition 6(F)(c), as the case may be.

(e) *Payment Event Cut-Off Date*

In the event that a Payment Disruption Event or a CNY Payment Disruption Event, as the case may be, is still occurring on the Payment Event Cut-Off Date, then the Interest Payment Date, the Maturity Date, or any other date on which any Interest Amount, Fixed Coupon Amount, Final Redemption Amount or other amount in respect of the relevant Notes shall be due and payable (as the case may be) for the relevant Notes shall be deemed to fall on the Payment Event Cut-Off Date. From and after any redemption date, if monies for the redemption of Notes shall have been made available for redemption on such redemption date, such Notes shall cease to bear interest, if applicable, and the only right of the holders of such Notes shall be to receive payment of the Early Redemption Amount and, if appropriate, all unpaid interest accrued to such redemption date.

(C) *Redemption for Tax Compliance Reasons*

MLBV may, at its option, redeem the Notes, in whole or in part, at any time prior to maturity, at their Early Redemption Amount, together, if appropriate, with accrued interest to (but excluding) the date fixed for redemption, if MLBV determines in good faith that it has, or there is a substantial likelihood that it will, become subject to withholding imposed on a payment made to it on account of MLBV's inability to comply with the reporting requirements imposed by the FATCA Provisions (as defined below), provided that such inability to comply with the reporting requirements is attributable to non-compliance by any Holder of such Notes (or a foreign withholding agent (if any) in the chain of custody of payments made to the Holders) with MLBV's requests for certifications or identifying information (such redemption, a "**Redemption for Tax Compliance Reasons**"). Upon a Redemption for Tax Compliance Reasons, Notes held by compliant Holders, in addition to those held by non-compliant Holders, may be redeemed.

Notice of intention to redeem Notes pursuant to this Condition 7(C) will be given in accordance with Condition 14 (*Notices*) not less than 30 calendar days nor more than 60 calendar days prior to the date fixed for redemption. From and after any redemption date, if monies for the redemption of Notes shall have been made available for redemption on such redemption date, such Notes shall cease to bear interest, if applicable, and the only right of the holders of such Notes shall be to receive payment of the Early Redemption Amount and, if appropriate, all unpaid interest accrued to such redemption date.

As used in these Terms and Conditions, the term "**FATCA Provisions**" means Sections 1471 through 1474 of the Code (or any successor provisions), any regulation, pronouncement, or agreement thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto whether currently in effect or as published and amended from time to time, and any intergovernmental agreement entered into in connection with the implementation of such provisions of the Code.

(D) *Redemption at the Option of the Issuer (Issuer Call)*

If Issuer Call is specified in the applicable Final Terms, the Issuer may, having given:

- (a) not less than 30 nor more than 60 calendar days' notice to the Noteholders in accordance with Condition 14 (*Notices*) (or such other period as is specified in the applicable Final Terms); and
- (b) not less than one London Business Day's notice to the Principal Paying Agent before giving notice as referred to in (a) above, unless a shorter period is acceptable to the Principal Paying Agent,

(which notices shall be irrevocable and shall specify the date fixed for redemption), redeem all or some only of the Notes then outstanding on any Optional Redemption Date and at the Optional Redemption Amount(s) specified in, or determined in the manner specified in, the applicable Final Terms together, if appropriate, with interest accrued to (but excluding) the relevant Optional Redemption Date. Any such redemption must be of a nominal amount not less than the Minimum Redemption Amount and/or not more than the Maximum Redemption Amount in each case as may be specified in the applicable Final Terms. In the case of a partial redemption of Notes, the Notes to be redeemed ("**Redeemed Notes**") will be selected individually by lot, in the case of Redeemed Notes represented by Individual Note Certificates, and in accordance with any applicable laws and the rules of Euroclear and/or Clearstream, Luxembourg (to be reflected in the records of Euroclear and Clearstream, Luxembourg as either a pool factor or a pro-rata reduction in nominal amount at their discretion), in the case of Redeemed Notes represented by a Global Note, not more than 60 calendar days' prior to the date fixed for redemption (such date of selection being hereinafter called the "**Selection Date**"). In the case of Redeemed Notes represented by Individual Note Certificates, a list of the serial numbers of such Redeemed Notes will be published in accordance with Condition 14 (*Notices*) not less than 30 calendar days prior to the date fixed for redemption. No exchange of the relevant Global Note will be permitted during the period from (and including) the Selection Date to (and including) the date fixed for redemption pursuant to this paragraph (D) and notice to that effect shall be given by the Issuer to the Noteholders in accordance with Condition 14 (*Notices*) at least five calendar days' prior to the Selection Date.

For the purposes of this Condition "New York Business Day" means day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in New York City.

(E) *Redemption at the Option of the Noteholders (Investor Put)*

If Investor Put is specified in the applicable Final Terms, upon the Holder of any Note giving to the Issuer in accordance with Condition 14 (*Notices*) not less than 30 nor more than 60 calendar days' notice (or such other notice period as is specified in the applicable Final Terms) the Issuer will, upon the expiry of such notice, redeem, subject to, and in accordance with, the terms specified in the applicable Final Terms, such Note on the Optional Redemption Date and at the Optional Redemption Amount together, if appropriate, with interest accrued to (but excluding) the Optional Redemption Date. It may be that before an Investor Put can be exercised, certain conditions and/or circumstances will need to be satisfied. Where relevant, the provisions detailing such conditions and/or circumstances to be satisfied will be set out in the applicable Final Terms.

If the Note is represented by an Individual Note Certificate and held outside Euroclear and Clearstream, Luxembourg, to exercise the right to require redemption of the Note the Holder of the Note must deliver at the specified office of the Principal Paying Agent at any time during normal business hours of the Principal Paying Agent falling within the notice period, a duly signed and completed notice of exercise (a "**Put Notice**") in the form (for the time being current) obtainable from the specified office of the Principal Paying Agent and in which the Holder must specify a bank account (or, if payment is required by cheque, an address) to which payment is to be made under this Condition 7 (*Redemption, Repayment and Repurchase*) accompanied by the relevant Individual Note Certificate(s) or evidence satisfactory to the Principal Paying Agent that the Individual Note Certificate(s) will, following delivery of the Put Notice, be held to its order or under its control.

If the Note is represented by a Global Note or is in definitive form and held through Euroclear or Clearstream, Luxembourg, to exercise the right to require redemption of the Note the Holder of the Note must, within the notice period, give notice to the Principal Paying Agent of such exercise in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg (which may include notice being given on its instruction

by Euroclear or Clearstream, Luxembourg or the Common Depositary or its nominee or common safekeeper, as the case may be, for them to the Principal Paying Agent by electronic means) in a form acceptable to Euroclear and Clearstream, Luxembourg from time to time and, if the Note is represented by a Global Note, at the same time present or procure the presentation of the relevant Global Note to the Principal Paying Agent for notation accordingly.

Any Put Notice or other notice given in accordance with the standard procedures of Euroclear and Clearstream, Luxembourg given by a Holder of any Note pursuant to this paragraph (E) shall be irrevocable except where, prior to the due date of redemption, an Event of Default has occurred and is continuing in which event such Holder, at its option, may elect by notice to the Issuer to withdraw the notice given pursuant to this paragraph (E) and instead to declare such Note forthwith due and payable pursuant to Condition 11 (*Events of Default and Rights of Acceleration*).

(F) *Exercise of Options or Partial Redemption in respect of Definitive Registered Notes*

See Condition 2(D) above for information about the issuance of new Individual Note Certificates in the event of an exercise of an Issuer Call or Investor Put in respect of, or a partial redemption of, a holding of Definitive Registered Notes.

(G) *Early Redemption Amounts*

The Early Redemption Amount shall be calculated as follows:

- (a) in the case of a Note (other than a Zero Coupon Note, an Index Linked Note, a Share Linked Note, a GDR/ADR Linked Note, an FX Linked Note, a Commodity Linked Note, a Fund Linked Note, an Inflation Linked Note, a Credit Linked Note or a Preference Share Linked Note) with a Final Redemption Amount equal to 100 per cent. of its outstanding nominal amount, at the Final Redemption Amount thereof;
- (b) in the case of a Note other than those described in sub-paragraph (a) above or sub-paragraphs (c) or (d) below, the Early Redemption Amount payable in respect of such Note shall be the amount specified in, or determined in the manner specified in, the applicable Final Terms or, if no such amount or manner is specified in the applicable Final Terms, its nominal amount, provided that if "Market Value less Associated Costs (no floor)" or "Market Value less Associated Costs (90 per cent. floor)" is specified in the applicable Final Terms as the Early Redemption Amount, the Early Redemption Amount in respect of each Note of the Specified Denomination shall be an amount determined by the Calculation Agent which on (i) in the case of redemption other than pursuant to Condition 11 (*Events of Default and Rights of Acceleration*), the second Business Day immediately preceding the due date for the early redemption of such Note, or (ii) in the case of redemption pursuant to Condition 11 (*Events of Default and Rights of Acceleration*), the due date for the early redemption of such Note, represents the fair market value of such Note (taking into account all factors which the Calculation Agent determines to be relevant) less Associated Costs, and provided that no account shall be taken of the financial condition of the Issuer which shall be presumed to be able to perform fully its obligations in respect of the Notes and provided further that, if "Market Value less Associated Costs (90 per cent. floor)" is specified in the applicable Final Terms as the Early Redemption Amount, in no event shall the Early Redemption Amount of each Note (in the case of an Instalment Note, when aggregated with the sum of any Instalment Amounts already paid in respect of such Note) be less than 90 per cent. of the Specified Denomination of such Note (or, in the case of a Partly Paid Note, 90 per cent. of the amount paid up in respect of such Note, or, in the case of a Zero Coupon Note, 90 per cent. of the Amortised Face Amount (as defined in sub-paragraph (c) below) of such Note);

- (c) in the case of a Zero Coupon Note (other than an Index Linked Note, a Share Linked Note, a GDR/ADR Linked Note, an FX Linked Note, a Commodity Linked Note, a Fund Linked Note, an Inflation Linked Note, a Credit Linked Note or a Preference Share Linked Note), at an amount (the "**Amortised Face Amount**") calculated in accordance with the following formula:

$$\text{Early Redemption Amount} = \text{RP} \times (1 + \text{AY})^y$$

where:

"**RP**" means the Reference Price; and

"**AY**" means the Accrual Yield expressed as a decimal; and

"**y**" is a fraction the numerator of which is equal to the number of days (calculated on the basis of a 360-day year consisting of 12 months of 30 days each) from (and including) the Issue Date of the first Tranche of the Notes to (but excluding) the date fixed for redemption or (as the case may be) the date upon which such Note becomes due and repayable and the denominator of which is 360,

or on such other calculation basis as may be specified in the applicable Final Terms; or

- (d) in the case of a Preference Share Linked Note, in accordance with the definition of "Early Redemption Amount" set out in Annex 15.

As used herein:

"**Associated Costs**" means, an amount per Note of the Specified Denomination equal to such Notes' *pro rata* share of the total amount of any and all costs associated or incurred by the Issuer or any Affiliate in connection with such early redemption, including, without limitation, any costs associated with unwinding any funding relating to the Notes and any costs associated with unwinding any hedge positions relating to the Notes, all as determined by the Calculation Agent in its sole discretion.

(H) *Automatic Early Redemption Event*

If Automatic Early Redemption is specified as applicable in the applicable Final Terms, then unless previously redeemed or purchased and cancelled, if an Automatic Early Redemption Event as specified in the applicable Final Terms occurs, the Issuer will give notice to Noteholders in accordance with Condition 14 (*Notices*) and the Notes will be redeemed in whole, but not in part, on the Automatic Early Redemption Date as specified in the applicable Final Terms at the Automatic Early Redemption Amount as specified in the applicable Final Terms.

(I) *Instalments*

Instalment Notes will be redeemed in the Instalment Amounts and on the Instalment Dates. In the case of early redemption, the Early Redemption Amount will be determined pursuant to paragraph (G) above.

(J) *Partly Paid Notes*

Partly Paid Notes will be redeemed, whether at maturity, early redemption or otherwise, in accordance with the provisions of this Condition 7 (*Redemption, Repayment and Repurchase*) and the applicable Final Terms.

(K) *Illegality*

In the event that the Issuer determines in good faith that (i) the performance of the Issuer's obligations under the Notes or that any arrangements made to hedge the Issuer's obligations under the Notes or (ii) in the case of Notes issued by BofA Finance or (other

than Secured Notes) MLBV, the performance by the Guarantor of any of its obligations under the Guarantee in respect of the Notes (except for Secured Notes), has or will become, in whole or in part, unlawful, illegal or otherwise contrary to any present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative, judicial or regulatory authority or powers, or any change in the interpretation thereof that is applicable to the Issuer and/or the Guarantor, the Issuer may (but will have no obligation), at its discretion, by giving, at any time, not less than 10 nor more than 30 calendar days' notice to Noteholders in accordance with Condition 14 (*Notices*) (which notice shall be irrevocable), elect that such Notes be redeemed, in whole but not in part, on the date specified by the Issuer, each Note being redeemed at the Early Redemption Amount together (if appropriate) with interest accrued to (but excluding) the date fixed for redemption.

(L) *Repurchases*

The Issuer, the Guarantor (in the case of Notes issued by BofA Finance or (other than Secured Notes) MLBV) or any of their affiliates may purchase at any time and from time to time outstanding Notes by tender, in the open market or by private agreement. Such Notes may be held, reissued, resold or, at the option of the Issuer or (if applicable) the Guarantor, surrendered to any Paying Agent for cancellation.

(M) *Cancellations*

All Notes which are redeemed will forthwith be cancelled. All Notes so cancelled and any Notes purchased and cancelled pursuant to paragraph (L) above shall be forwarded to the Principal Paying Agent and cannot be reissued or resold.

(N) *Late payment on Zero Coupon Notes*

If the amount payable in respect of any Zero Coupon Note upon redemption of such Zero Coupon Note pursuant to paragraphs (A), (B), (C), (D) or (E) above or upon its becoming due and repayable as provided in Condition 11 (*Events of Default and Rights of Acceleration*) is improperly withheld or refused, the amount due and repayable in respect of such Zero Coupon Note shall be the amount calculated as provided in paragraph (G)(c) above as though the references therein to the date fixed for the redemption or the date upon which such Zero Coupon Note becomes due and payable were replaced by references to the date which is the earlier of:

- (a) the date on which all amounts due in respect of such Zero Coupon Note have been paid; and
- (b) five calendar days after the date on which the full amount of the moneys payable in respect of such Zero Coupon Notes has been received by the Principal Paying Agent and notice to that effect has been given to the Noteholders in accordance with Condition 14 (*Notices*).

(O) *Regulatory Approvals*

The redemption, repayment or repurchase of any Note issued by BAC that is long-term debt satisfying certain eligibility criteria ("**eligible LTD**") under the final total loss-absorbing capacity rules of the U.S. Board of Governors of the Federal Reserve System (the "**Federal Reserve Board**") prior to its stated maturity date will require the prior approval of the Federal Reserve Board if after such redemption, repayment or repurchase BAC would fail to satisfy its requirements as to eligible LTD or total loss-absorbing capacity under such rules.

8. **Currency Substitution and Unavailability**

(A) *Occurrence of a Currency Substitution Event*

In the event that the Issuer and the Calculation Agent, in their discretion, determine that any Relevant Governmental Authority (as defined below) of a country, bloc of countries

or other applicable sovereign entity or entities (each, an "**Applicable Jurisdiction**") announces or in any event effects (whether pursuant to legislation enacted for such purpose in the Applicable Jurisdiction, in accordance with or in breach of applicable international treaties, or in any other manner) or (based on any publicly available information which the Issuer and the Calculation Agent reasonably consider relevant) there is a substantial likelihood that it will effect within the next 90 days, the replacement of the lawful currency (the "**Initial Currency**") of an Applicable Jurisdiction with a substitute currency ("**Substitute Currency**") (for the avoidance of doubt, including circumstances in which a country (a "**Departing Country**") within a bloc of countries in a currency union passes legislation (or a Relevant Governmental Authority thereof announces that it will pass legislation or otherwise seeks) to effect or does effect the withdrawal of such Departing Country from the currency bloc and the replacement of the currency of the currency union with another currency as the official currency of the Departing Country) (any such event being a "**Currency Substitution Event**"), and:

- (a) the calculation of amounts to be paid or assets to be delivered under any Note is linked to one or more Reference Item(s), and the currency by which the Reference Item(s) and/or any component(s) thereof is priced, quoted or traded is (or, in the Issuer's reasonable opinion is likely to be), as a result of the Currency Substitution Event, redenominated from the Initial Currency into the Substitute Currency; and/or
- (b) the calculation of amounts to be paid or assets to be delivered under any Note is linked to one or more floating rates of interest based on or related to amounts denominated in the Initial Currency; and/or
- (c) the Hedging Arrangements (as defined below) in respect of any Note have been materially adversely affected by (A) the Currency Substitution Event and/or (B) capital controls or other restrictions imposed by a Relevant Governmental Authority of the Applicable Jurisdiction, and the Hedging Party (as defined below) is unable, after using commercially reasonable efforts, to alter or modify the Hedging Arrangements and/or establish alternate Hedging Arrangements to fully account for the material adverse effect of (A) and/or (B) above,

then, unless otherwise provided in the applicable Final Terms, the Issuer and the Calculation Agent may, in their discretion:

- (x) make such adjustments, as shall be notified to each Holder of the relevant Notes, to the exercise, settlement, valuation, calculation, payment (including the Specified Currency and/or Settlement Currency) and/or any other Terms and Conditions of the Note as the Issuer determines appropriate to (i) (in all cases other than (c) above) preserve the economic terms of such Notes as of the Issue Date, including, without limitation, making any currency conversion necessary as part of any such adjustment based on the relevant official conversion rate or at an appropriate market rate of exchange determined by the Calculation Agent to be prevailing as of any relevant time and date, or (ii) (in the case of (c) above) account for the material adverse effect on the Hedging Arrangements and in order to effect a commercially reasonable result; or
- (y) redeem such Notes on such day as shall be notified to the relevant Holders at their Early Redemption Amount, which amount shall be the Market Value less Associated Costs (no floor) or the Market Value less Associated Costs (90 per cent. floor) as provided in Condition 7(G) and as specified in the applicable Final Terms together with (if appropriate) any accrued and unpaid interest (up to, but excluding, the date fixed for redemption).

For the avoidance of doubt, the circumstances and consequences described in this Condition 8 (*Currency Substitution and Unavailability*) and any resulting or alternative adjustments to the exercise, settlement, valuation, calculation, payment and/or any other Terms and Conditions of the Notes will not entitle any Holder of such Notes (A) to any legal remedy, including, without limitation, rescission, repudiation, or renegotiation of

the Notes, or (B) to raise any defence or make any claim (including, without limitation, claims of breach, force majeure, frustration of purpose, or impracticability) or any other claim for compensation, damages, or any other relief.

For the purposes of this Condition 8 (*Currency Substitution and Unavailability*):

"Hedging Arrangements" means any purchase, sale, entry into or maintenance of one or more (a) positions or contracts in securities, options, futures, derivatives or foreign exchange or (b) other instruments or arrangements (howsoever described) in order to hedge individually or on a portfolio basis the Issuer's obligations under any Note.

"Hedging Party" means, the Issuer or any of the Issuer's affiliate(s) or any entity (or entities) acting on the Issuer's behalf engaged in any underlying or hedging transactions relating to any Note and/or underlying market measure(s) in respect of the Issuer's obligations under the Note.

"Relevant Governmental Authority" means, in relation to any Applicable Jurisdiction, any *de facto* or *de jure* government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of such Applicable Jurisdiction.

(B) *Unavailability of Currency*

If, at or about the time of payment of any principal of, premium, if any, interest, or any other amounts payable with respect to any Series of Notes, the applicable Specified Currency or Settlement Currency, as applicable, for such Series is not legal tender for the payment of public and private debts in the country that issued such Specified Currency or Settlement Currency at the Issue Date of such Series of Notes or is otherwise unavailable to the Issuer, and such Specified Currency or Settlement Currency has been replaced by another currency that has become legal tender for the payment of public and private debts in such country (a **"Replacement Currency"**), any amount payable pursuant to such Series of Notes may be paid, at the Issuer's option, in the Replacement Currency or in U.S. Dollars, at a rate of exchange which takes into account the conversion, at the rate prevailing on the most recent date on which official conversion rates were quoted or set by the national government or other authority responsible for issuing the Replacement Currency, from the applicable Specified Currency or Settlement Currency to the Replacement Currency or to U.S. Dollars, if applicable, and, if necessary, the conversion of the Replacement Currency into U.S. Dollars at the rate prevailing on the date of such conversion. In this circumstance, the Issuer will appoint a financial institution to act as exchange rate agent for purposes of making the required conversions in accordance with prevailing market practice and the terms of the applicable Series of Notes and with any applicable arrangements between the Issuer and the exchange rate agent.

With respect to a Series of Notes that is not denominated in U.S. Dollars, if (a) the Specified Currency is unavailable or (b) as a result of current or proposed economic sanctions affecting banks in the country where the Specified Currency is recognised as the lawful currency, countermeasures to such sanctions or changes in the government of such country (each such event, a **"Decreased Availability Event"**), at a time of payment of any principal, premium, if any, interest, or any other amounts payable with respect to such Series of Notes, the availability to the Issuer or Guarantor of such Specified Currency from one or more sources in the international markets previously used by the Issuer or Guarantor for the purpose of such payment has decreased as compared to the availability of such Specified Currency as at the most recent Interest Payment Date immediately preceding the announcement or publicity regarding such Decreased Availability Event (or, in the case of the first Interest Payment Date, as applicable, as compared to the availability of such Specified Currency as at the Issue Date), and in the case of either (a) or (b) such Specified Currency has not been replaced, then, in either such case, the Issuer or Guarantor, as applicable, may satisfy its obligations to holders of such Series of Notes by making the relevant payment of principal, premium, if any,

interest, or any other amounts payable with respect to such Series of Notes on the date of payment in U.S. Dollars. The amount of such payment made in U.S. Dollars will be determined by an exchange rate agent to be appointed by the Issuer and/or the Guarantor on the basis of the market exchange rate, such rate being equal to the highest mid-exchange rate quotation in The City of New York received by the exchange rate agent at approximately 11:00 a.m., New York City time, on the second business day preceding the applicable payment date from three recognised foreign exchange dealers for the purchase by the quoting dealer of the Specified Currency for U.S. Dollars for settlement on the applicable payment date in a tradable amount consistent with accepted market practice.

One of the dealers providing quotations may be the exchange rate agent unless the exchange rate agent is an affiliate of the Issuer or the Guarantor. If no mid-exchange rate quotations are available, the exchange rate agent will determine the market exchange rate at its sole discretion in accordance with acceptable market practice and the terms of the applicable Series of Notes and with any applicable arrangements between the Issuer and/or the Guarantor, as applicable and the exchange rate agent.

The above provisions do not apply if the applicable Specified Currency for a Series of Notes is unavailable because it has been replaced by the euro, in which case Condition 4 (Redenomination) shall apply with respect to such Series.

Any payment made in U.S. Dollars or an applicable Replacement Currency as described above where the required payment is in an unavailable Specified Currency will not constitute an Event of Default.

The exchange rate agent to be appointed by the Issuer or the Guarantor may be one of the Issuer's or Guarantor's affiliates, and, from time to time after the initial appointment of an exchange rate agent, the Issuer and/or the Guarantor, as applicable, may appoint one or more different exchange rate agents for an applicable Series of Notes without consent from the holders of such Series of Notes and without notifying such holders of the change. The exchange rate agent will determine the applicable rate of exchange that would apply to a payment made in U.S. Dollars or a Replacement Currency in its sole discretion unless the applicable Final Terms state that any such determination requires the Issuer's or the Guarantor's approval. Absent manifest error, those determinations will be final and binding on holders of the applicable Series of Notes, the Principal Agent and the Issuer and Guarantor.

For purposes of this Condition 8(B), unless otherwise specified in the applicable Final Terms, the term "business day" means any weekday that is not a legal holiday in New York, New York or Charlotte, North Carolina and is not a day on which banking institutions in those cities are authorised or required by law or regulation to be closed.

9. Taxation

The Issuer or (in the case of Notes issued by BofA Finance or (other than Secured Notes) MLBV) the Guarantor will, subject to certain limitations and exceptions (set forth below), pay to a Noteholder who is a United States Alien or (in the case of Notes issued by MLBV) a Netherlands Non-resident (each as defined below) such additional amounts ("**Additional Tax Amounts**") as may be necessary so that every net payment of principal or interest or other amount with respect to the Notes or (in the case of Notes issued by BofA Finance or (other than Secured Notes) MLBV) the Guarantee after deduction or withholding for or on account of any present or future tax, assessment or other governmental charge imposed upon such Noteholder or by reason of the making of such payment, by the United States or the Netherlands (as applicable) or any political subdivision or taxing authority of or in the United States or the Netherlands (as applicable), as the case may be, will not be less than the amount provided for in the Notes or the relevant Guarantee (as applicable) to be then due and payable, as the case may be. Neither the Issuer nor (in the case of Notes issued by BofA Finance or (other than Secured Notes) MLBV) the Guarantor shall be required to make any payment of Additional Tax Amounts for or on account of:

- (a) any tax, assessment or other governmental charge which would not have been imposed but for (i) the existence of any present or former connection between such Noteholder (or between a fiduciary, settlor, beneficiary, member or shareholder of, or possessor of a power over, such Noteholder if such Noteholder is an estate, trust, partnership or corporation) and the United States or the Netherlands (as applicable), as the case may be, including, without limitation, such Noteholder (or such fiduciary, settlor, beneficiary, member, shareholder or possessor) being or having been a citizen or resident or treated as a resident of the United States or the Netherlands (as applicable), as the case may be, or being or having been present or engaged in a trade or business in the United States or the Netherlands (as applicable), as the case may be, or having or having had a permanent establishment in the United States or the Netherlands (as applicable), as the case may be, or (ii) the presentation of a Note for payment on a date more than 15 calendar days after the date on which such payment became due and payable or the date on which payment thereof is duly provided for, whichever occurs later;
- (b) any estate, inheritance, gift, sales, transfer, excise, wealth or personal property or any similar tax, assessment or other governmental charge;
- (c) any tax, assessment or other governmental charge imposed by reason of such Noteholder's past or present status as a personal holding company, foreign personal holding company, passive foreign investment company, private foundation, or other tax-exempt entity, or controlled foreign corporation for United States tax purposes or a corporation which accumulates earnings to avoid United States federal income tax;
- (d) any tax, assessment or other governmental charge which is payable otherwise than by withholding from payments of principal or interest or other amount with respect to the Notes;
- (e) any tax, assessment or other governmental charge imposed as a result of such Noteholder's past or present status as the actual or constructive owner of 10 per cent. or more of the total combined voting power of all classes of stock of the Issuer entitled to vote;
- (f) any tax, assessment or other governmental charge imposed as a result of such Noteholder being a bank receiving payments on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business;
- (g) any tax, assessment or other governmental charge which would not have been imposed but for the failure to comply with certification, information or other reporting requirements concerning the nationality, residence, identity or connection with the United States or the Netherlands (as applicable), as the case may be, of the Noteholder or of the beneficial owner of such Note, if such compliance is required by statute or by Regulation of the U.S. Department of the Treasury or of the relevant Netherlands authority (as applicable), as the case may be, as a precondition to relief or exemption from such tax, assessment or other governmental charge;
- (h) in the case of Notes issued by BAC or BofA Finance, any tax, assessment, or other government charge imposed on a payment of principal or interest (or any other payment) on any Note which is an Index Linked Note, Share Linked Note, GDR/ADR Linked Note, FX Linked Note, Commodity Linked Note, Fund Linked Note, Inflation Linked Note, Credit Linked Note, Preference Share Linked Note or Note linked to other Reference Item(s) and in respect of which the holder may not receive at least 90 per cent. of the Specified Denomination per Note (or, in the case of a Partly Paid Note, 90 per cent. of the amount paid up in respect of such Note or, in the case of a Zero Coupon Note, 90 per cent. of the Amortised Face Amount of such Note);
- (i) any tax, assessment, or governmental charge imposed solely because the payment is to be made by a particular Paying Agent or a particular office of a Paying Agent and would not be imposed if made by another agent or by another office of this agent;

- (j) any tax, assessment, or other governmental charge that is imposed or withheld by reason of the application of Sections 1471 through 1474 of the Code (or any successor provisions), any regulation, pronouncement, or agreement thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto, whether currently in effect or as published and amended from time to time, or any intergovernmental agreement entered into in connection with the implementation of such provisions of the Code;
- (k) any tax deducted, withheld or imposed in connection with the Dutch Withholding Tax Act 2021 (*Wet bronbelasting 2021*) as amended from time to time;
- (l) any tax, assessment, or other governmental charge that is imposed or withheld by reason of the payment being treated as a dividend or "dividend equivalent" for United States or Dutch tax purposes; or
- (m) any combination of paragraphs (a), (b), (c), (d), (e), (f), (g), (h), (i), (j), (k) and (l) above,

nor shall Additional Tax Amounts be paid to any United States Alien or Netherlands Non-resident (as applicable), as the case may be, which is a fiduciary or partnership or other than the sole beneficial owner of the Note to the extent a beneficiary or settlor with respect to such fiduciary or a member of such partnership or a beneficial owner of the Note would not have been entitled to payment of the Additional Tax Amounts had such beneficiary, settlor, member or beneficial owner been the holder of the Note.

The term "**United States Alien**" means any corporation, partnership, entity, individual, or fiduciary that is for United States federal income tax purposes (1) a foreign corporation, (2) a foreign partnership to the extent one or more of the members of which is, for United States federal income tax purposes, a foreign corporation, a non-resident alien individual, or a foreign estate or trust, (3) a non-resident alien individual, or (4) a foreign estate or trust.

The term "**Netherlands Non-resident**" means any individual, corporation, partnership or any other entity that for Netherlands tax purposes is a non-resident individual, non-resident corporation, non-resident partnership or any other non-resident entity.

10. **Prescription**

The Notes issued by MLBV will become void unless presented for payment or delivery within a period of ten years (in the case of principal) and five years (in the case of interest) after the Relevant Date (as defined below) therefor.

As used herein, the "**Relevant Date**" means the date on which such payment or delivery first becomes due, except that, if the full amount of any moneys payable has not been duly received by the Principal Paying Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Noteholders in accordance with Condition 14 (*Notices*).

For Notes issued by BAC and Notes issued by BofA Finance, under New York's statute of limitations generally, any legal action to enforce the payment obligations of the relevant Issuer or, in the case of Notes issued by BAC, delivery obligations, evidenced by such Notes and/or, in the case of Notes issued by BofA Finance, the payment obligations of the Guarantor evidenced by the BofA Finance Guarantee of such Notes must be commenced within six years after payment or, in the case of Notes issued by BAC, delivery, is due. Under New York's statute of limitations generally, the payment or delivery obligations of the Guarantor evidenced by the MLBV Guarantee of MLBV Notes must be commenced within six years after payment or delivery is due. Thereafter, such payment or delivery obligations will generally become unenforceable.

11. **Events of Default and Rights of Acceleration**

- (A) *Notes issued by MLBV*

The occurrence of one or more of the following events with respect to any Series of Notes issued by MLBV shall constitute an "**Event of Default**" with respect to such Series:

- (a) default shall be made in the payment of any amount of interest due in respect of any such Notes and the default continues for a period of 30 calendar days after the due date; or
- (b) default shall be made in the payment of any principal of any such Notes or in the delivery when due of the Entitlement in respect of any such Notes (in each case whether at maturity or upon redemption or otherwise), and such default continues for a period of 30 calendar days after the due date; or
- (c) MLBV shall fail to perform or observe any other term, covenant or agreement contained in the Terms and Conditions applicable to any of such Notes or in the English Law Agency Agreement for the period of 90 calendar days after the date on which written notice of such failure, requiring MLBV to remedy the same, first shall have been given to the Principal Paying Agent and MLBV by Holders of at least 33 per cent. of the aggregate principal amount of any such Notes outstanding; or
- (d) a court having jurisdiction in the premises shall have entered a decree or order granting relief with respect to MLBV in an involuntary proceeding under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, or appointing a receiver, liquidator, trustee, assignee, custodian or sequestrator (or similar official) of MLBV of all or substantially all of its property or for the winding up or liquidation of its affairs, and such decree or order shall have remained in force and unstayed for a period of 60 consecutive calendar days; or
- (e) MLBV shall institute proceedings for relief under any applicable bankruptcy, insolvency or any other similar law now or hereafter in effect, or shall consent to the institution of any such proceedings against it, or shall consent to the appointment of a receiver, liquidator, trustee, assignee, custodian or sequestrator (or similar official) of it or of all or substantially all of its property, or shall make an assignment for the benefit of creditors, or shall fail generally to pay its debts as they become due, or shall take any corporate action in furtherance of any of the foregoing; or
- (f) any other events of default specified for a Series of Notes in the Final Terms.

If an Event of Default shall occur and be continuing with respect to any Series of Notes issued by MLBV, then the Holders of at least 33 per cent. in aggregate principal amount of such Notes outstanding may, at their option, declare such Notes to be due and payable immediately at the Early Redemption Amount, together with interest, if any, accrued thereon by written notice to MLBV, the Guarantor (if applicable) and the Principal Paying Agent at its main office in London, and if any such default is not waived in accordance with Condition 11(E) or cured by MLBV or the Guarantor (if applicable), as the case may be, prior to receipt of such written notice, such Notes shall become and be immediately due and payable at the Early Redemption Amount, together with the interest, if any, accrued on such Notes.

An Event of Default will not occur and there will not be any right to accelerate payment of principal, the interest accrued, or any other amounts then payable thereon (and Additional Tax Amounts, if any) of any Series of Notes of MLBV as a result of a covenant breach by the Guarantor (if applicable).

(B) *Notes issued by BAC*

The occurrence of any of the following events with respect to any Series of Notes issued by BAC shall constitute an "Event of Default" with respect to such Series:

- (a) BAC shall fail to pay the principal amount of any of such Notes or in the delivery of the Entitlement when due whether at maturity or upon early redemption or otherwise, and continuance of such default for a period of 30 calendar days; or

- (b) BAC shall fail to pay any instalment of interest, other amounts payable, or Additional Tax Amounts on any of such Notes for a period of 30 calendar days after the due date; or
- (c) a court having jurisdiction in the premises shall enter a decree or order for relief in respect of BAC in an involuntary case or proceeding under any applicable bankruptcy, insolvency, reorganisation, or other similar law now or hereafter in effect, or appointing a receiver, liquidator, conservator, assignee, custodian, trustee, or sequestrator (or similar official) of BAC or for any substantial part of its property or ordering the winding-up or liquidation of its affairs and such decree or order shall remain unstayed and in effect for a period of 60 consecutive calendar days; or
- (d) BAC shall commence a voluntary case or proceeding under any applicable bankruptcy, insolvency, liquidation, receivership, reorganisation, or other similar law now or hereafter in effect, or shall consent to the entry of an order for relief in an involuntary case under any such law, or shall consent to the appointment of or taking possession by a receiver, liquidator, conservator, assignee, trustee, custodian, or sequestrator (or similar official) of BAC or for any substantial part of its property, or shall make any general assignment for the benefit of creditors, or shall admit in writing its inability to pay its debts as they become due or shall take any corporate action in furtherance of any of the foregoing; or
- (e) any other events of default specified for a Series of Notes in the Final Terms.

If an Event of Default occurs and is continuing with respect to any Series of Notes issued by BAC, then the Noteholders of at least 25.00 per cent. in aggregate principal amount of such Notes outstanding, by written notice to BAC, the Registrar and the Principal Paying Agent, may declare such Notes to be due and payable immediately at the Early Redemption Amount (together with accrued and unpaid interest (if any) to (but excluding) the date of repayment and Additional Tax Amounts (if any) thereon) and if any such Event of Default is not waived, in accordance with Condition 11(E), prior to or shall continue at the time of receipt of such written notice, such amounts shall become immediately due and payable. Upon payment of such amounts, all of BAC's obligations in respect of payment of principal of, interest on, or any other amounts then payable (and Additional Tax Amounts, if any) on such Notes shall terminate. Interest on overdue principal, interest or any other amounts then payable thereon (and Additional Tax Amounts, if any) shall accrue from the date on which such principal, interest or any other amounts then payable (and Additional Tax Amounts, if any) were due and payable to the date such principal, interest or any other amounts payable (and Additional Tax Amounts, if any) are paid or duly provided for, at the rate borne by such Notes (to the extent payment of such interest shall be legally enforceable).

There will not be any right to accelerate payment of principal, the interest accrued, or any other amounts then payable thereon (and Additional Tax Amounts, if any) of any Series of Notes issued by BAC other than as described in the preceding paragraph. In addition, for the avoidance of doubt, unless otherwise specified in the Final Terms and, unless contemplated by Condition 11(B)(a) or Condition 11(B)(b) and the preceding paragraph with respect to a Series of Notes issued by BAC, there shall not be any right to accelerate payment of principal, the interest accrued, or any other amounts then payable thereon (and Additional Tax Amounts, if any) of any Series of Notes issued by BAC as a result of the failure on the part of BAC to observe or perform any covenants or agreements on the part of BAC contained in such Series of Notes or the Agency Agreement. Further, for the avoidance of doubt, if an Event of Default as described in Condition 11(B)(e) is specified in the Final Terms for a Series of Notes issued by BAC, there will be no right to accelerate payment of principal, the interest accrued, or any other amounts then payable thereon (and Additional Tax Amounts, if any) of such Series of Notes on the terms described in the preceding paragraph unless such acceleration rights are granted specifically in the Final Terms for such Series of Notes.

(C) *Notes issued by BofA Finance*

The occurrence of any of the following events with respect to any Series of Notes issued by BofA Finance shall constitute an "Event of Default" with respect to such Series:

- (a) BofA Finance shall fail to pay the principal amount of any of such Notes when due whether at maturity or upon early redemption or otherwise, and continuance of such default for a period of 30 calendar days; or
- (b) BofA Finance shall fail to pay any instalment of interest, other amounts payable, or Additional Tax Amounts on any of such Notes for a period of 30 calendar days after the due date; or
- (c) a court having jurisdiction in the premises shall enter a decree or order for relief in respect of BofA Finance in an involuntary case or proceeding under any applicable bankruptcy, insolvency, reorganisation, or other similar law now or hereafter in effect, or appointing a receiver, liquidator, conservator, assignee, custodian, trustee, or sequestrator (or similar official) of BofA Finance or for any substantial part of its property or ordering the winding-up or liquidation of its affairs and such decree or order shall remain unstayed and in effect for a period of 60 consecutive calendar days; or
- (d) BofA Finance shall commence a voluntary case or proceeding under any applicable bankruptcy, insolvency, liquidation, receivership, reorganisation, or other similar law now or hereafter in effect, or shall consent to the entry of an order for relief in an involuntary case under any such law, or shall consent to the appointment of or taking possession by a receiver, liquidator, conservator, assignee, trustee, custodian, or sequestrator (or similar official) of BofA Finance or for any substantial part of its property, or shall make any general assignment for the benefit of creditors, or shall admit in writing its inability to pay its debts as they become due or shall take any corporate action in furtherance of any of the foregoing; or
- (e) any other events of default specified for a Series of Notes in the Final Terms.

If an Event of Default occurs and is continuing with respect to any Series of Notes issued by BofA Finance, then the Noteholders of at least 33.00 per cent. in aggregate principal amount of such Notes outstanding, by written notice to BofA Finance, the Guarantor, the Registrar and the Principal Paying Agent, may declare such Notes to be due and payable immediately at the Early Redemption Amount (together with accrued and unpaid interest (if any) to (but excluding) the date of repayment and Additional Tax Amounts (if any) thereon) and if any such Event of Default is not waived, in accordance with Condition 11(E), or cured by BofA Finance or the Guarantor, prior to or shall continue at the time of receipt of such written notice, such amounts shall become immediately due and payable. Upon payment of such amounts, all of BofA Finance's obligations in respect of payment of principal of, interest on, or any other amounts then payable (and Additional Tax Amounts, if any) on such Notes shall terminate. Interest on overdue principal, interest or any other amounts then payable thereon (and Additional Tax Amounts, if any) shall accrue from the date on which such principal, interest or any other amounts then payable (and Additional Tax Amounts, if any) were due and payable to the date such principal, interest or any other amounts payable (and Additional Tax Amounts, if any) are paid or duly provided for, at the rate borne by such Notes (to the extent payment of such interest shall be legally enforceable).

An Event of Default will not occur and there will not be any right to accelerate payment of principal, the interest accrued, or any other amounts then payable thereon (and Additional Tax Amounts, if any) of any Series of Notes of BofA Finance as a result of a covenant breach by the Guarantor.

- (D) At any time after any Series of Notes has become due and payable following a declaration of acceleration made in accordance with this Condition 11 and before a judgment or

decree for payment of the money due with respect to such Notes has been obtained by any Noteholder of such Notes, such declaration and its consequences may be rescinded and annulled upon the written consent of Noteholders of a majority in aggregate principal amount of such Notes then outstanding, or by resolution adopted by a majority in aggregate principal amount of such Notes outstanding present or represented at a meeting of Noteholders of such Notes at which a quorum is present, as provided in the applicable Agency Agreement, if:

- (i) (A) the Issuer has paid, or has deposited with the relevant clearing system, a sum sufficient to pay:
 - (1) all overdue amounts of interest on such Notes;
 - (2) the principal of such Notes which has become due otherwise than by such declaration of acceleration; or
- (B) in the case of Notes to be redeemed by physical delivery, the Issuer has delivered the relevant assets to any agent appointed by the Issuer to deliver such assets to the Noteholders; and
- (ii) all Events of Default with respect to such Notes, other than the non-payment of the principal of such Notes which has become due solely by such declaration of acceleration, have been cured or waived as provided in Condition 11(E) below.

No such rescission shall affect any subsequent default or impair any right consequent thereon.

- (E) Any default by the Issuer or (in the case of Notes issued by BofA Finance or (other than Secured Notes) MLBV) the Guarantor, other than the events described in Condition 11(A)(a), Condition 11(A)(b), Condition 11(B)(a) or Condition 11(B)(b), or Condition 11(C)(a) or Condition 11(C)(b) may be waived by the written consent of Noteholders of a majority in aggregate principal amount of such Notes then outstanding affected thereby, or by resolution adopted by a majority in aggregate principal amount of such Notes then outstanding present or represented at a meeting of Noteholders of such Notes affected thereby at which a quorum is present, as provided in the applicable Agency Agreement. Upon any such waiver, such default shall cease to exist, and any Event of Default arising therefrom shall be deemed to have been cured, for every purpose of the applicable Agency Agreement, but no such waiver shall extend to any subsequent or other default or impair any right consequent thereon.

12. Replacement of Notes

Should any Note be lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of the Principal Paying Agent upon payment by the claimant of such costs and expenses as may be incurred in connection therewith and on such terms as to evidence and indemnity as the Issuer may reasonably require. Mutilated or defaced Notes must be surrendered before replacements will be issued.

13. Paying Agents, Registrar and Calculation Agent

(A) Paying Agents and Registrar

The names of the initial Paying Agent and the Registrar and their initial specified offices are as set out at the end of these Terms and Conditions.

The Issuer and (in the case of Notes issued by BofA Finance or (other than Secured Notes) MLBV) the Guarantor are entitled to vary or terminate the appointment of any Paying Agent or the Registrar and/or appoint additional or other Paying Agents or Registrars and/or approve any change in the specified office through which any Paying Agent or Registrar acts, provided that:

- (a) there will at all times be a Principal Paying Agent and a Registrar (which, in the case of the Registrar, shall be an entity with a specified office outside the United Kingdom);
- (b) so long as the Notes are listed on any stock exchange or admitted to listing by any other relevant authority, there will at all times be a Paying Agent, which may be the Principal Paying Agent, with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange or other relevant authority;
- (c) there will at all times be a Paying Agent (which may be the Principal Paying Agent) in a jurisdiction within Europe other than any jurisdiction in which the Issuer, or, in the case of Notes issued by BofA Finance or (other than Secured Notes) MLBV, the Guarantor, is incorporated;
- (d) so long as there is any Tranche of CMU Notes outstanding, there will be at all times a CMU Lodging and Paying Agent; and
- (e) there shall at all times be a Calculation Agent.

Notice of any variation, termination, appointment or change in the Paying Agents or the Registrar will be given to the Noteholders in accordance with Condition 14 (*Notices*) provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such variation, termination or changes.

In acting under the applicable Agency Agreement, the Paying Agents and the Registrar act solely as agents of the Issuer and (in the case of Notes issued by BofA Finance or (other than Secured Notes) MLBV) the Guarantor and do not assume any obligation to, or relationship of agency or trust with, any Noteholders. The applicable Agency Agreement contains provisions permitting any entity into which any Paying Agent or the Registrar is merged or converted or with which it is consolidated or to which it transfers all or substantially all of its assets to become the successor paying agent or registrar, as applicable.

(B) *Calculation Agent*

In relation to each issue of Notes, the Calculation Agent (whether it be Merrill Lynch International, BofA Securities Europe SA or another entity) acts solely as agent of the Issuer and (in the case of Notes issued by BofA Finance or (other than Secured Notes) MLBV) the Guarantor and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Noteholders. All calculations and determinations made in respect of the Notes by the Calculation Agent shall be in its sole and absolute discretion (unless, in respect of the particular calculation or determination to be made, the Terms and Conditions provide that it shall be made in a "commercially reasonable manner"), in good faith, and shall (save in the case of negligence, wilful default or bad faith, manifest error or proven error) be final, conclusive and binding on the Issuer, (in the case of Notes issued by BofA Finance or (other than Secured Notes) MLBV) the Guarantor, the Paying Agents, and the Noteholders. The Calculation Agent shall promptly notify the Issuer and the Principal Paying Agent upon any such calculations and determinations, and (in the absence of negligence, wilful default or bad faith) no liability to the Issuer, (in the case of Notes issued by BofA Finance or (other than Secured Notes) MLBV) the Guarantor, the Paying Agents, the Noteholders shall attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

14. **Notices**

All notices regarding the Notes will be deemed to be validly given:

- (a) if, in respect of notices to Holders of Definitive Registered Notes, mailed to them at their respective addresses in the Register. Such notices will be deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing;
- (b) if, in respect of any Notes that are admitted to trading on the Luxembourg Stock Exchange's Euro MTF, and listed on the Official List, of the Luxembourg Stock Exchange, published on the website of the Luxembourg Stock Exchange (www.luxse.com). Any such notice will be deemed to have been given on the date of the first publication or, where required to be published in more than one newspaper, on the date of the first publication in all required newspapers; or
- (c) as otherwise specified in the applicable Final Terms.

Until such time as any Individual Note Certificates are issued, there may, so long as any Global Notes representing the Notes are held in their entirety on behalf of Euroclear and/or Clearstream, Luxembourg, as the case may be, be substituted for such publication in such newspaper(s) (as described in Condition 14(b)) the delivery of the relevant notice to Euroclear and/or Clearstream, Luxembourg, as applicable for communication by them to the Holders of the Notes and, in addition, for so long as any Notes are listed on a stock exchange or are admitted to trading by another relevant authority and the rules of that stock exchange or relevant authority so require, such notice will be published in a daily newspaper of general circulation in the place or places required by those rules. Any such notice shall be deemed to have been given to the Holders of the Notes on the day on which such notice was given to Euroclear and/or Clearstream, Luxembourg, as applicable.

Notices to be given by any Noteholder shall be in writing and given by lodging the same, together with, in the case of Definitive Registered Notes, the related Individual Note Certificate (if applicable), with the Principal Paying Agent. Whilst any of the Notes are represented by a Global Note, such notice may be given by any holder of a Note to the Principal Paying Agent through Euroclear and/or Clearstream, Luxembourg, as the case may be, in such manner as the Principal Paying Agent and Euroclear and/or Clearstream, Luxembourg, as the case may be, may approve for this purpose.

Until such time as any Individual Note Certificates are issued, so long as any Global Notes representing the CMU Notes are lodged with the CMU, all notices regarding such CMU Notes may be given by delivery to the CMU for communication by them to the Holders of the CMU Notes. Any such notice shall be deemed to have been given to the Holders of the CMU Notes on the day on which such notice is delivered to the CMU.

15. Meetings of Noteholders, Modification and Waiver

(A) Meeting of Noteholders

The applicable Agency Agreement contains provisions for convening meetings of the Holders of Notes of a particular Series to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of such Notes or any of the provisions of the applicable Agency Agreement.

(a) Notes issued by BAC and BofA Finance

In the case of Notes issued by BAC or BofA Finance, such a meeting may be convened by the relevant Issuer or the Guarantor (if applicable) and shall be convened by the relevant Issuer or the Guarantor (if applicable) if required in writing by the Noteholders holding not less than 10 per cent. in nominal amount of the Notes of the affected Series for the time being outstanding. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons present and holding or representing in the aggregate more than 50 per cent. in principal amount of the Notes of the affected Series for the time being outstanding, or at any adjourned meeting the percentage of the aggregate principal amount of the Notes expressly stated in the notice reconvening the adjourned

meeting, except that at any meeting the business of which includes the modification of certain provisions of the Notes (including modifying the date of maturity of the Notes or any date for payment of interest thereon, reducing or cancelling the amount of principal or the rate of interest payable in respect of the Notes or altering the currency of payment of the Notes except, in each case, in accordance with these Conditions), the quorum shall be one or more persons present and holding or representing not less than three-quarters in principal amount of the Notes of the affected Series for the time being outstanding, or at any adjourned such meeting one or more persons present and holding or representing not less than one-quarter in principal amount of the Notes of the affected Series for the time being outstanding.

An Extraordinary Resolution passed at any meeting of the Holders of the Notes of a particular Series shall be binding on all the Holders of Notes of such Series, whether or not they are present at the meeting.

An Extraordinary Resolution may also be effected in writing signed or electronically approved using the systems and procedures in place from time to time of a relevant clearing system by or on behalf of all the Noteholders.

(b) *Notes issued by MLBV*

In the case of Notes issued by MLBV, such a meeting may be convened by MLBV or the Guarantor (if applicable) and shall be convened by MLBV or the Guarantor (if applicable) if required in writing by the Noteholders holding not less than 33 per cent. in nominal amount of the Notes of the affected Series for the time being outstanding. An Extraordinary Resolution passed at any meeting of the Holders of the Notes of a particular Series shall be binding on all the Holders of Notes of such Series, whether or not they are present at the meeting.

An Extraordinary Resolution may also be effected in writing signed or electronically approved using the systems and procedures in place from time to time of a relevant clearing system by or on behalf of all the Noteholders.

(B) *Modification of Agency Agreements and Notes Without Noteholder Consent*

The Principal Paying Agent and the relevant Issuer may agree, without the consent of the Noteholders to:

- (a) any modification or amendment (except as mentioned above) of the Notes or the applicable Agency Agreement which is not, in the opinion of the Issuer, prejudicial to the interests of the Noteholders; or

- (b) any modification or amendment of the Notes or the applicable Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest or proven error or to comply with mandatory provisions of the law.

Any such modification or amendment shall be binding on the Noteholders and any such modification or amendment shall be notified to the Noteholders in accordance with Condition 14 (*Notices*) as soon as practicable thereafter.

16. **Further Issues**

The Issuer shall be at liberty from time to time without the consent of the Noteholders to create and issue further notes having terms and conditions the same as the Notes or the same in all respects save for the amount and date of the first payment of interest thereon and so that the same shall be consolidated and form a single Series with the outstanding Notes.

If the Issuer issues further Notes of the same Series during the initial 40-day restricted period applicable to the outstanding Notes of such Series, then such 40-day period will be extended until 40 calendar days after the later of the commencement of the offering of such further issue of Notes and the Issue Date of such further issue of Notes. In addition, if the Issuer issues further Notes of the same Series after the expiration of the 40-day restricted period, a new 40-day restricted period will be applied to such further issue of Notes without applying to the outstanding Notes. After the expiration of the new 40-day restricted period, all such Notes will be consolidated with and form a single Series with the outstanding Notes.

17. **Consolidation or Merger**

(A) *Notes issued by MLBV or BofA Finance*

The relevant Issuer or the Guarantor (if applicable) may not consolidate with, or sell or convey all or substantially all of its assets to, or merge with or into any other entity, other than in the case of the Guarantor, a sale or conveyance of all or substantially all of its assets to one or more Subsidiaries (as defined below), unless (i) (a) in the case of the relevant Issuer, either the relevant Issuer shall be the continuing company, or the successor entity (if other than the relevant Issuer) shall expressly assume the due and punctual payment of all amounts or delivery of all assets, as the case may be, (including Additional Tax Amounts as provided in Condition 9 (*Taxation*)) payable or deliverable, as applicable, with respect to the Notes, according to their tenor, and the due and punctual performance and observance of all of the obligations under the Conditions to be performed by the relevant Issuer by an amendment to the applicable Agency Agreement executed by, *inter alios*, such successor entity, the Guarantor, the Registrar and the Principal Paying Agent, and (b) in the case of the Guarantor, the Guarantor shall be the continuing company, or the successor entity (if other than the Guarantor) shall be organised and existing under the laws of the United States or a state thereof or the District of Columbia and such successor entity shall expressly assume the due and punctual payment of all amounts or delivery of all assets, as the case may be, (including Additional Tax Amounts as provided in Condition 9 (*Taxation*)) payable or deliverable, as applicable, with respect to the relevant Guarantee by the execution of a new guarantee of like tenor and (ii) immediately after giving effect to such transaction, no Event of Default under Condition 11 (*Events of Default and Rights of Acceleration*), and no event which, with notice or lapse of time or both, would become such an Event of Default shall have happened and be continuing. In case of any such consolidation, merger, sale or conveyance and upon any such assumption by the successor entity, such successor entity shall succeed to and be substituted for the relevant Issuer or the Guarantor, as the case may be, with the same effect as if it had been named herein as the relevant Issuer or the Guarantor, as the case may be, and the relevant Issuer or the Guarantor, as the case may be, except in the event of a conveyance by way of lease, shall be relieved of any further obligations under the Conditions, the applicable Agency Agreement and the relevant Guarantee, as applicable.

"**Subsidiary**" means any entity of which more than 50% of the voting power of the outstanding ownership interests (excluding ownership interests entitled to voting power

only by reason of the happening of a contingency) shall at the time be owned, directly or indirectly, by the Guarantor, or one or more Subsidiaries, or by the Guarantor and one or more Subsidiaries. For this purpose, "**voting power**" means power to vote in an ordinary election of directors (or, in the case of an entity that is not a corporation, ordinarily to appoint or approve the appointment of entities holding similar positions).

(B) *Notes issued by BAC*

The Issuer may not consolidate with, or sell or convey all or substantially all of its assets to, or merge with or into any other entity, other than a sale or conveyance of all or substantially all of its assets to one or more Subsidiaries (as defined below), unless (i) either the Issuer shall be the continuing company, or the successor entity (if other than the Issuer) shall be organised and existing under the laws of the United States or a state thereof or the District of Columbia and such successor entity shall expressly assume the due and punctual payment of all amounts or delivery of all assets, as the case may be, (including Additional Tax Amounts as provided in Condition 9 (*Taxation*)) payable or deliverable, as applicable, with respect to the Notes, according to their tenor, and the due and punctual performance and observance of all of the obligations under the Conditions to be performed by the Issuer by an amendment to the New York Law Agency Agreement executed by, *inter alios*, such successor entity, the Registrar and the Principal Paying Agent, and (ii) immediately after giving effect to such transaction, no Event of Default under Condition 11 (*Events of Default and Rights of Acceleration*), and no event which, with notice or lapse of time or both, would become such an Event of Default shall have happened and be continuing. In case of any such consolidation, merger, sale or conveyance and upon any such assumption by the successor entity, such successor entity shall succeed to and be substituted for the Issuer with the same effect as if it had been named herein as the Issuer, and the Issuer, except in the event of a conveyance by way of lease, shall be relieved of any further obligations under the Conditions and the New York Law Agency Agreement.

"**Subsidiary**" means any entity of which more than 50% of the voting power of the outstanding ownership interests (excluding ownership interests entitled to voting power only by reason of the happening of a contingency) shall at the time be owned, directly or indirectly, by the Issuer, or one or more Subsidiaries, or by the Issuer and one or more Subsidiaries. For this purpose, "**voting power**" means power to vote in an ordinary election of directors (or, in the case of an entity that is not a corporation, ordinarily to appoint or approve the appointment of entities holding similar positions).

18. **Business Days**

In these Terms and Conditions, "**Business Day**" means a day which is:

19. **Contracts (Rights of Third Parties) Act 1999**

In the case of Notes issued by MLBV, no person shall have any right to enforce any term or condition of the Notes under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

20. **Governing Law and Submission to Jurisdiction**

(A) *Governing law*

Under the MLBV Guarantee, the Guarantor has unconditionally and irrevocably guaranteed to the holders of Exchangeable Notes issued by MLBV under the terms of the English Law Agency Agreement, the due and punctual payment of any and all amounts payable by MLBV as obligor in respect of such Exchangeable Notes when and as the same shall become due and payable pursuant to the Exchangeable Note Conditions and to the extent provided in the MLBV Guarantee.

4. **Redenomination**

(A) *Redenomination*

Where redenomination is specified in the applicable Final Terms as being applicable, the Issuer may, without the consent of the Noteholders on giving prior notice to the Principal Paying Agent, Euroclear and Clearstream, Luxembourg and at least 30 calendar days' prior notice to the Noteholders in accordance with Condition 20 (*Notices*), elect that, with effect from the Redenomination Date specified in the notice, the Exchangeable Notes shall be redenominated in euro.

The election will have effect as follows:

- (a) the Exchangeable Notes shall be deemed to be redenominated in euro in the denomination of €0.01 with a nominal amount for each Exchangeable Note equal to the nominal amount of that Exchangeable Note in the Specified Currency, converted into euro at the Established Rate, provided that, if the Issuer determines, with the agreement of the Principal Paying Agent, that the then market practice in respect of the redenomination in euro of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, the stock exchange (if any) on which the Exchangeable Notes may be listed, and the Paying Agents of such deemed amendments;

- (b) save to the extent that an Exchange Notice has been given in accordance with paragraph (d) below, the amount of interest due in respect of the Exchangeable Notes will be calculated by reference to the aggregate nominal amount of Exchangeable Notes presented for payment by the relevant holder and the amount of such payment shall be rounded down to the nearest €0.01;
- (c) if Definitive Registered Notes are required to be issued after the Redenomination Date, they shall be issued at the expense of the Issuer, in the denominations of €100,000 or any incremental amounts of €1,000 and (but only to the extent of any remaining amounts less than €100,000 or any incremental amounts of €1,000 or such other smaller denominations as the Principal Paying Agent may approve) €0.01 and such other denominations as the Principal Paying Agent shall determine and notify to the Noteholders;
- (d) the payment obligations contained in any Exchangeable Notes issued prior to the Redenomination Date will become void on the date on which the Issuer gives notice (the "**Redenomination Notice**") that replacement euro-denominated Exchangeable Notes are available for exchange (provided that such securities are so available) and no payments will be made in respect of them, although those Exchangeable Notes will continue to constitute valid exchange obligations of the Issuer. New euro-denominated Exchangeable Notes will be issued in exchange for Exchangeable Notes denominated in the Specified Currency in such manner as the Principal Paying Agent may specify and as shall be notified to the Noteholders in the Redenomination Notice. No Redenomination Notice may be given less than 15 calendar days prior to any date for payment of principal or interest (if any) on the Exchangeable Notes;
- (e) after the Redenomination Date, all payments in respect of the Exchangeable Notes, other than payments of interest (if any) in respect of periods commencing before the Redenomination Date, will be made solely in euro as though references in the Exchangeable Notes to the Specified Currency were to euro. Payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or, at the option of the payee, by a euro cheque;
- (f) if the Exchangeable Notes are Fixed Rate Exchangeable Notes and interest for any period ending on or after the Redenomination Date is required to be calculated for a period ending other than on an Interest Payment Date, it will be calculated:
 - (i) in the case of the Exchangeable Notes represented by a Global Note, by applying the Rate of Interest to the aggregate outstanding nominal amount of the Notes represented by such Global Note; and
 - (ii) in the case of Definitive Registered Notes, by applying the Rate of Interest to the Calculation Amount,

and, in each case, multiplying such sum by the applicable Day Count Fraction, and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention. Where the Specified Denomination of a Fixed Rate Exchangeable Note in definitive form is a multiple of the Calculation Amount, the amount of interest payable in respect of such Fixed Rate Exchangeable Note shall be the product of the amount (determined in the manner provided above) for the Calculation Amount and the amount by which the Calculation Amount is multiplied to reach the Specified Denomination, without any further rounding;

- (g) such other changes shall be made to this Condition 4 (*Redenomination*) as the Issuer may decide, after consultation with the Paying Agents and as may be specified in the notice, to conform it to conventions applicable to instruments denominated in euro.

"**Volume Weighted Average Price**" is defined in Condition 5 (*Definitions*).

"**VWAP**" means the Volume Weighted Average Price.

- (ii) If following the valid exercise by a Noteholder of its Exchange Right and prior to the relevant Exchange Redemption Date an event occurs as a result of which the Exchangeable Notes, subject to the Exchange Notice, would otherwise fall to be redeemed in accordance with Condition 10(a) (*Nationalisation or Delisting*), Condition 11(c) (*Settlement of Options Contracts*) or Condition 11(g) (*Change in Law*) had the Noteholder not exercised its Exchange Right, the Issuer shall redeem the Exchangeable Notes at the Automatic Early Redemption Amount (and not the Cash Amount) on the Automatic Early Redemption Date.

8. Adjustment of Exchange Price and the Shares

- (a) The Calculation Agent will, unless otherwise so specified in the applicable Final Terms, adjust the Exchange Price and/or the Shares as follows:
 - (i) If options contracts in respect of the Shares are traded on Eurex and Eurex adjusts such options contracts following or as a result of any corporate actions, the Calculation Agent shall, to the extent required and with effect as of the same date, adjust, as relevant:
 - (A) the Exchange Price of the Exchangeable Notes, in circumstances where the exercise prices of options contracts in respect of the Shares are adjusted by Eurex; and/or
 - (B) the Shares, in circumstances where any securities or package of securities are being substituted for the Shares as the securities underlying options contracts in respect of the Shares,

to reflect the adjustments effected by Eurex (for the avoidance of doubt the Exchange Price, or, as the case may be, the Shares, shall be adjusted using, but not recalculating, such adjustment ratio or similar or other adjustment as was published by Eurex), provided that:

- (A) in relation to Dividends, the Calculation Agent shall make the adjustments as set out in Condition 8(a)(ii) (*Adjustment of Exchange Price and the Shares*) instead of any corresponding or other adjustments in respect of such Dividends under the applicable Eurex Corporate Actions Procedures, if any;
- (B) in relation to any Nationalisation or Delisting, the Exchangeable Notes will be redeemed in accordance with Condition 10 (*Nationalisation or*

Delisting), or, in relation to any Illegality, the Exchangeable Notes will be redeemed in accordance with Condition 11(h) (*Illegality*) or, if specified as applicable in the relevant Final Terms, in relation to a Change in Law, the Exchangeable Notes will (if so elected by the Issuer) be redeemed in accordance with Condition 11(g) (*Change in Law*) or will otherwise be subject to adjustment in accordance with Condition 11(g) (*Change in Law*) instead of any corresponding or other adjustment in respect of such Nationalisation or Delisting or Illegality or Change in Law under the applicable Eurex Corporate Actions Procedures, if any; and

- (C) in relation to any event as a result of which options contracts in respect of the Shares are settled in the circumstances the subject of Condition 11(c) (*Settlement of Options Contracts*), the Exchangeable Notes will be redeemed subject to and in accordance with such Condition 11(c) (*Settlement of Options Contracts*) and no adjustment (if any) under the applicable Eurex Corporate Actions Procedures will be made.

Any adjustment made pursuant to this paragraph shall become effective on the same date as any corresponding adjustments made by Eurex (other than an adjustment pursuant to Condition 8(a)(ii) (*Adjustment of Exchange Price and the Shares*), which shall become effective as provided in Condition 8(a)(ii) (*Adjustment of Exchange Price and the Shares*)).

If no options contracts in respect of the Shares are traded on Eurex but are traded on any other exchange or quotation system which serves as the principal place of trading for options contracts and futures contracts in respect of the Shares (such other exchange or quotation system as aforesaid, being, only in circumstances where no options contracts in respect of the Shares are traded on Eurex but options contracts are traded on such other exchange or quotation system as aforesaid, the "**Alternative Options Exchange**"), the Calculation Agent shall, to the extent required, adjust the Exchange Price and/or, as the case may be, the Shares to reflect the adjustments effected in respect of any options contracts relating to the Shares by the Alternative Options Exchange, provided that:

- (A) in relation to Dividends, the Calculation Agent shall make the adjustments as set out in Condition 8(a)(ii) (*Adjustment of Exchange Price and the Shares*) instead of any corresponding or other adjustments in respect of such Dividends under the standard corporate actions procedures of the Alternative Options Exchange in effect at the relevant time, if any;
- (B) in relation to any Nationalisation or Delisting, the Exchangeable Notes will be redeemed in accordance with Condition 10 (*Nationalisation or Delisting*), or, in relation to any Illegality, the Exchangeable Notes will be redeemed in accordance with Condition 11(h) (*Illegality*), or, if specified as applicable in the relevant Final Terms, in relation to a Change in Law, the Exchangeable Notes will (if so elected by the Issuer) be redeemed in accordance with Condition 11(g) (*Change in Law*) or will otherwise be subject to adjustment in accordance with Condition 11(g) (*Change in Law*) instead of any corresponding or other adjustment in respect of such Nationalisation or Delisting or Illegality or Change in Law under the standard corporate actions procedures of the Alternative Options Exchange in effect at the relevant time, if any; and
- (C) in relation to any event as a result of which options contracts in respect of the Shares are settled in the circumstances the subject of Condition 11(c) (*Settlement of Options Contracts*), the Exchangeable Notes will be redeemed subject to and in accordance with such Condition 11(c) (*Settlement of Options Contracts*) and no adjustment (if any) under the standard corporate actions procedures of the Alternative Options Exchange in effect at the relevant time will be made.

Any adjustment made pursuant to this paragraph shall become effective on the same date as any corresponding adjustments made by the Alternative Options Exchange (other than an adjustment pursuant to Condition 8(a)(ii) (*Adjustment of Exchange Price and the Shares*)) which shall become effective as provided in Condition 8(a)(ii) (*Adjustment of Exchange Price and the Shares*)).

If no options contracts in respect of the Shares are traded on Eurex or an Alternative Options Exchange, and any event which would have triggered an adjustment under the Eurex Corporate Actions Procedures last published occurs, the Calculation Agent will determine which adjustment, if any, should be made to the Exchange Price, and/or, as the case may be, the Shares, with reference to the rules and any precedents (if any) set by Eurex to account for the effect of such event that in the determination of the Calculation Agent, would have given rise to an adjustment by Eurex if such options contracts were so traded, provided that:

- (A) in relation to Dividends, the Calculation Agent shall make the adjustments as set out in Condition 8(a)(ii) (*Adjustment of Exchange Price and the Shares*) instead of any corresponding or other adjustments in respect of such Dividends under the applicable Eurex Corporate Actions Procedures, if any;
- (B) in relation to any Nationalisation or Delisting, the Exchangeable Notes will be redeemed in accordance with Condition 10 (*Nationalisation or Delisting*), or, in relation to any Illegality, the Exchangeable Notes will be redeemed in accordance with Condition 11(h) (*Illegality*), or, if specified as applicable in the relevant Final Terms, in relation to a Change in Law, the Exchangeable Notes will (if so elected by the Issuer) be redeemed in accordance with Condition 11(g) (*Change in Law*) or will otherwise be subject to adjustment in accordance with Condition 11(g) (*Change in Law*) instead of any corresponding or other adjustment in respect of such Nationalisation or Delisting or Illegality or Change in Law under the Eurex Corporate Actions Procedures, if any; and
- (C) in relation to any event as a result of which options contracts in respect of the Shares are settled in the circumstances the subject of Condition 11(c) (*Settlement of Options Contracts*), the Exchangeable Notes will be redeemed subject to and in accordance with such Condition 11(c) (*Settlement of Options Contracts*) and no adjustment (if any) under the applicable Eurex Corporate Actions Procedures will be made.

Any adjustment made pursuant to this paragraph shall become effective as determined by the Calculation Agent on the date such adjustment would have been effective under the Eurex Corporate Actions Procedures as aforesaid.

- (ii) If, prior to the Maturity Date (A) an Ex-Date in respect of any Dividend (a "**Relevant Dividend**") falls in a Relevant Period; or (B) no Ex-Date in respect of an Ordinary Cash Dividend falls in a Relevant Period, the Calculation Agent shall calculate the adjustment to the Exchange Price in accordance with the following formula (instead of any corresponding or other adjustment under the Eurex Corporate Actions Procedures or the procedures of an Alternative Options Exchange as the case may be):

$$X_n = X_o \times R$$

Where:

X_n = the adjusted Exchange Price;

X_o = the Exchange Price on the Relevant Record Date;

R = $(S_{prev} - D) / (S_{prev} - T)$;

Terms and Conditions of the Cash Settled Exchangeable Notes

Sprev = the Closing Price of a Share on the Relevant Record Date;

D = (i) where an Ex-Date in respect of a Dividend falls in a Relevant Period, the Dividend Amount or (ii) where no Ex-Date in respect of an Ordinary Cash Dividend falls in a Relevant Period, zero; and

T = the applicable Dividend Threshold

Notwithstanding the above:

(x) if Sprev is less than or equal to T, or if Sprev is less than or equal to D, R shall instead be determined by the Calculation Agent.

(iii) For the purposes of calculating the adjustment to the Exchange Price pursuant to the formula in Condition 8(a)(ii) (*Adjustment of Exchange Price and the Shares*):

(A) if no Ex-Date in respect of an Ordinary Cash Dividend falls in a Relevant Period or (where the Relevant Dividend is an Ordinary Dividend) the Dividend Amount is less than the applicable Dividend Threshold, the Exchange Price will be adjusted upwards;

(B) where the Relevant Dividend is an Ordinary Dividend (x) if the Dividend Amount exceeds the relevant Dividend Threshold, the Exchange Price will be adjusted downwards; and (y) if the Dividend Amount is equal to the relevant Dividend Threshold, no adjustment to the Exchange Price shall be required to be made;

(C) where the Relevant Dividend is a Special Cash Dividend, the Exchange Price will be adjusted downwards.

(iv) For the purposes of adjustment to the Exchange Price pursuant to Condition 8(a)(ii) (*Adjustment of Exchange Price and the Shares*):

(A) any adjustment to the Exchange Price shall take effect on the Relevant Adjustment Date (or, if later, on the first date on which the Fair Market Value of the Relevant Dividend as aforesaid can be determined); and

(B) the Fair Market Value of any Relevant Dividend shall be determined by the Calculation Agent in good faith at the Relevant Adjustment Date.

(v) Definitions:

"Dividend" means any Ordinary Cash Dividend or Special Cash Dividend;

"Dividend Amount" means, in respect of any Dividend, the Fair Market Value per Share of such Dividend on the Relevant Record Date;

"Dividend Threshold" means (i) (other than in respect of a Special Cash Dividend) in respect of each Relevant Period, the Reference Amount on a per Share basis specified to be paid in the Relevant Period provided that, if more than one Ex-Date has occurred in a Relevant Period, the Dividend Threshold shall apply to the first such Ex-Date to occur and the Dividend Threshold in respect of any subsequent Ex-Date occurring in such Relevant Period shall be zero; and (ii) in respect of a Special Cash Dividend, the Dividend Threshold shall be zero;

"Ex-Date" means the first Scheduled Trading Day on which the Shares are traded ex- the Relevant Dividend on the Relevant Stock Exchange;

"Ordinary Cash Dividend" means (i) any Ordinary Dividend which is, or may at the election of a Shareholder be, paid or made in cash, such Ordinary Dividend being treated as an Ordinary Cash Dividend in the amount of such cash; or (ii)

any issue or delivery of Shares (or other assets or property) by the Company to its Shareholders which is announced or expressed as a Dividend or which is in lieu of a Dividend in cash (whether or not a cash Dividend amount is announced) and which is an Ordinary Dividend, such issue or delivery being treated as an Ordinary Cash Dividend in an amount equal to the Volume Weighted Average Price of such Shares or, as the case may be, the Fair Market Value of such assets or property on the first date on which the Shares are traded ex-the relevant entitlement on the Relevant Stock Exchange (or if later the first date on which the number of Shares or, as the case may be, other assets or property which may be issued or delivered is, or is capable of being, determined);

"Ordinary Dividend" means any Dividend which does not (or would not) result in an adjustment to the options contracts in respect of the Shares pursuant to the Eurex Corporate Actions Procedures or the rules of the Alternative Option Exchange (if any);

"Reference Amount" has the meaning ascribed to it in the applicable Final Terms;

"Relevant Adjustment Date" means each Ex-Date in respect of a Relevant Dividend and, if no Ex-Date in respect of an Ordinary Cash Dividend falls in a Relevant Period, the first Scheduled Trading Day following the end of such Relevant Period. If no Ex-Date in respect of an Ordinary Cash Dividend falls in a Relevant Period, for the purposes of the Relevant Adjustment Date falling on the first Scheduled Trading Day of the following Relevant Period, the Dividend Threshold shall be deemed to be equal to the Dividend Threshold in respect of such Relevant Period in which no Ex-Date in respect of an Ordinary Cash Dividend occurred;

"Relevant Period" has the meaning ascribed to it in the applicable Final Terms;

"Relevant Record Date" means the Scheduled Trading Day which immediately precedes the Relevant Adjustment Date; and

"Special Cash Dividend" means any dividend in cash which is declared by the Company to be a special dividend, an extraordinary dividend and/or a return of capital (or is otherwise not declared to be an ordinary dividend).

- (b) Adjustments in accordance with Condition 8(a)(i) (*Adjustment of Exchange Price and the Shares*) will become effective as specified in Condition 8(a)(i) (*Adjustment of Exchange Price and the Shares*). Adjustments in accordance with Condition 8(a)(ii) (*Adjustment of Exchange Price and the Shares*) shall become effective as specified in Condition 8(a)(ii) (*Adjustment of Exchange Price and the Shares*). Adjustments in accordance with this Condition 8 (*Adjustment of Exchange Price and the Shares*) (including Condition 8(a)(ii) (*Adjustment of Exchange Price and the Shares*)) will not be made, if the effective date for such adjustments is later than, in the case of Exchangeable Notes in respect of which Exchange Rights have been exercised, the last Averaging Date (where the Cash Amount is to be paid in respect of such exercise).
- (c) All adjustments to the Exchange Price will be calculated by the Calculation Agent. Any adjustment to the Exchange Price determined will, if necessary, be rounded to four decimal places, with 0.00005 being rounded upwards, and any subsequent adjustments shall be made on the basis of such adjusted Exchange Price, so rounded.
- (d) The Issuer will give notice to Noteholders in accordance with Condition 20 (*Notices*) of any adjustment to the Exchange Price pursuant to this Condition 8 (*Adjustment of Exchange Price and the Shares*) as soon as reasonably practicable.
- (e) If any share price relevant for any calculation of a price or Cash Amount in accordance with this Condition 8 (*Adjustment of Exchange Price and the Shares*) (other than Condition 8(a)(ii)) is subsequently corrected by the Relevant Stock Exchange and the

correction is published within less than one Settlement Cycle after the original publication, the Issuer shall notify the Noteholders of the corrected Share Price or Cash Amount and any necessary further adjustment of the terms of the Exchangeable Notes.

- (f) For the avoidance of doubt, no adjustment will be made to the Exchange Price where Shares or other securities (including rights, warrants and options) are issued, offered, exercised, allotted, purchased, appropriated, modified or granted to, or for the benefit of, employees or former employees (including the personal service company of any such employee or directors holding or formerly holding executive office) or their spouses or relatives, in each case, of the Company or any associated company or its or their Affiliates or to a trustee or trustees to be held for the benefit of any such person, or any other member of the Company's group savings plan, in any such case pursuant to any share or option scheme (including for the avoidance of doubt any share capital increase of the Company reserved for employees and related schemes or any successor or similar scheme) or pursuant to any dividend reinvestment plan or similar plan or scheme.
- (g) As used in these Conditions:

"**Settlement Cycle**" means the period of dealing days following a trade in the Shares on the Relevant Stock Exchange in which settlement will customarily occur according to the rules of the Relevant Stock Exchange.

9. **Disrupted Days**

If any Averaging Date is a Disrupted Day:

- (a) if "**Omission**" is specified as applying in the applicable Final Terms, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant price; provided that, if through the operation of this provision there would not be an Averaging Date, then the provisions of the definition of "Valuation Date" will apply for purposes of determining the relevant price on the final Averaging Date, as if such final Averaging Date were a Valuation Date that was a Disrupted Day; or
- (b) if "**Postponement**" is specified as applying in the applicable Final Terms, then the provisions of the definition of "Valuation Date" will apply for the purposes of determining the relevant price on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or
- (c) if "**Modified Postponement**" is specified as applying in the applicable Final Terms then the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the Averaging Cut-Off Date or if such Averaging Date falls on the Averaging Cut-Off Date owing to the original date on which it was scheduled to fall not being a Scheduled Trading Day for the Share, then (A) the Averaging Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the Averaging Cut-Off Date is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant price for that Averaging Date in accordance with sub-paragraph (ii) of the definition of "Valuation Date" below,

and, for the purposes of these Conditions "Valid Date" means a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date does not or is deemed not to occur.

The following definitions shall apply:

"**Averaging Cut-Off Date**" means the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, or on account of such date not being a Scheduled Trading Day, would have been the final Averaging Date, or, if earlier, the Scheduled Trading Day falling on or immediately preceding the second Business Day immediately preceding the date on which payment of any amount may have to be made pursuant to any calculation or

determination made on the relevant Averaging Dates, provided that the Averaging Cut-Off Date shall not fall prior to the original date on which the final Averaging Date was scheduled to fall;

"Disrupted Day" means any Scheduled Trading Day on which the Relevant Stock Exchange for the Shares or the Related Exchange fails to open for trading during its regular trading session (a **"Failure to Open"**) or on which a Market Disruption Event has occurred, as determined by the Calculation Agent;

"Early Closure" means the closure on any Exchange Business Day of the Relevant Stock Exchange or the Related Exchange prior to its Scheduled Closing Time unless such earlier closing time is announced by such Relevant Stock Exchange or Related Exchange at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Relevant Stock Exchange or, as the case may be, the Related Exchange on such Exchange Business Day and (ii) the submission deadline for orders to be entered into the system of the Relevant Stock Exchange or, as the case may be, Related Exchange for execution at the Valuation Time on such Exchange Business Day;

"Exchange Disruption" means any event (other than an Early Closure) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general (i) to effect transactions in, or obtain market values for, the Shares on the Relevant Stock Exchange or (ii) to effect transactions in, or obtain market values for, futures or options contracts relating to the Shares on the Related Exchange;

"Market Disruption Event" means, in relation to a Share, each of (i) Trading Disruption, (ii) Exchange Disruption or (iii) Early Closure, but in respect of (i) and (ii) only if the Calculation Agent determines that such event is material at any time during the one hour period that ends at the Valuation Time for such Share;

"Related Exchange" means Eurex or any Alternative Options Exchange, as the case may be;

"Scheduled Closing Time" means, in respect of the Relevant Stock Exchange or the Related Exchange and a Scheduled Trading Day, the scheduled weekday closing time of such Relevant Stock Exchange or, as the case may be, Related Exchange on such Scheduled Trading Day, without regard to after hours or any other trading outside of the regular trading session hours;

"Scheduled Valuation Date" means any original date that, but for the occurrence of an event causing a Disrupted Day, would have been a Valuation Date;

"Trading Disruption" means any suspension of or limitation imposed on trading by the Relevant Stock Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the Relevant Stock Exchange or, as the case may be, Related Exchange or otherwise (i) relating to the Shares on the Relevant Stock Exchange, or, as the case may be, (ii) in futures or options contracts relating to the Shares on the Related Exchange;

"Valuation Cut-Off Date" means the eighth Scheduled Trading Day immediately following the Scheduled Valuation Date or, if earlier, the Scheduled Trading Day falling on or immediately preceding the second Business Day immediately preceding the date on which payment of any amount may have to be made pursuant to any calculation or determination made on such Valuation Date, provided that the Valuation Cut-Off Date shall not fall prior to the original date on which such Valuation Date was scheduled to fall;

"Valuation Date" means each Valuation Date specified in the applicable Final Terms or if that is not a Scheduled Trading Day the immediately following Scheduled Trading Day. If such day is a Disrupted Day, then, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the Scheduled Trading Days up to, and including, the Valuation Cut-Off Date is a Disrupted Day. In that case,

or if such Valuation Date falls on the Valuation Cut-Off Date owing to the original date on which it was scheduled to fall not being a Scheduled Trading Day for such Share, (i) the Valuation Cut-Off Date shall be deemed to be the Valuation Date (notwithstanding the fact that such day may be a Disrupted Day) and (ii) the Calculation Agent shall determine the relevant price in the manner set out in the applicable Final Terms or, if not set out or if not practicable, determine the relevant price in accordance with its good faith estimate of the relevant price as of the Valuation Time on the Valuation Cut-Off Date; and

"Valuation Time" means the Scheduled Closing Time in respect of the relevant Scheduled Trading Day.

10. **Nationalisation or Delisting**

- (a) If a Nationalisation and/or Delisting occurs, the Issuer shall, by providing notice to Noteholders of the occurrence of such event in accordance with Condition 20 (*Notices*) within five Business Days of the Relevant Announcement Date specifying the Automatic Early Redemption Date which notice shall be irrevocable, redeem all but not only some of the outstanding Exchangeable Notes at their Automatic Early Redemption Amount on the Automatic Early Redemption Date. The Issuer shall give notice of the Automatic Early Redemption Amount to Noteholders in accordance with Condition 20 (*Notices*) as soon as reasonably practicable after the determination thereof and in any event not later than the date falling five Business Days prior to the Automatic Early Redemption Date.
- (b) The following definitions shall apply:

"Delisting" means, in respect of any relevant Shares:

- (i) in the case where the Relevant Stock Exchange is not located in the United States, such Relevant Stock Exchange announces that pursuant to the rules of such Relevant Stock Exchange, such Shares cease (or will cease) to be listed, traded or publicly quoted on the Relevant Stock Exchange for any reason (other than by reason of a merger, takeover or other special circumstances as contemplated by the Eurex Corporate Actions Procedures) and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Relevant Stock Exchange (or, where the Relevant Stock Exchange is within the European Union, in a member state of the European Union); or
- (ii) in the case where the Relevant Stock Exchange is located in the United States, such Relevant Stock Exchange announces that pursuant to the rules of such Relevant Stock Exchange, such Shares cease (or will cease) to be listed, traded or publicly quoted on the Relevant Stock Exchange for any reason (other than by reason of a merger, takeover or other special circumstances as contemplated by the Eurex Corporate Actions Procedures) and are not immediately re-listed, re-traded or re-quoted on any of the New York Stock Exchange, the American Stock Exchange, the NASDAQ Global Select Market or the NASDAQ Global Market (or their respective successors).

If the Shares are immediately re-listed, re-traded or re-quoted on any exchange or quotation system, such exchange or quotation system shall be deemed to be the Relevant Stock Exchange in respect of such Shares.

"Nationalisation" means that, as determined by the Calculation Agent, all the Shares or all or substantially all the assets of the Company are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

11. **Redemption and Purchase**

- (a) *Redemption at Maturity*

- (i) Unless previously redeemed or purchased and cancelled in accordance with these Conditions or in respect of which Exchange Rights have been exercised as herein provided, each Exchangeable Note will be redeemed by the Issuer at its Final Redemption Amount on the Maturity Date.
- (ii) In these Conditions, "**Final Redemption Amount**" means, unless otherwise specified in the applicable Final Terms, in respect of each Specified Denomination of Exchangeable Notes, the sum (rounded to two decimal places, with 0.005 being rounded upwards) of the Maturity Daily Cash Amounts, where "**Maturity Daily Cash Amount**" or "**MDCA**" means an amount in the Specified Currency calculated by the Calculation Agent for each Maturity Averaging Date in respect of each Specified Denomination of the Exchangeable Notes, in accordance with the following formula:

$$MDCA = \frac{1}{N} \times \text{Max} (MRER_n \times MP_n; SD)$$

Where:

SD	=	Specified Denomination;
N	=	the number of Maturity Averaging Dates specified in the applicable Final Terms under the heading: "Maturity Averaging Dates";
Max	=	the greater of the amounts separated by the semi-colon inside the brackets;
MP _n	=	the Share Price on such Maturity Averaging Date; and
MRER _n	=	the Relevant Exchange Ratio prevailing on such Maturity Averaging Date

"**Maturity Averaging Date**" means, subject to adjustment for Disrupted Days pursuant to Condition 9 (*Disrupted Days*), each consecutive Scheduled Trading Day equal to the number of consecutive Scheduled Trading Days specified in the applicable Final Terms under the heading "Maturity Averaging Period" commencing on the number of Scheduled Trading Days before the Maturity Date specified in the applicable Final Terms under the heading "Specified Maturity Averaging Commencement Date".

(b) *Redemption at the Option of the Issuer*

If specified as applicable in the applicable Final Terms, the Issuer may, on giving not less than 45 nor more than 60 calendar days' notice (an "**Optional Redemption Notice**") (which notice shall be irrevocable) to the Noteholders in accordance with Condition 20 (*Notices*), redeem all but not some only of the Exchangeable Notes for the time being outstanding on the date specified in the Optional Redemption Notice at their Early Redemption Amount if, at any time, the aggregate nominal amount of the Exchangeable Notes outstanding is equal to or less than 15 per cent. of the aggregate nominal amount of the Exchangeable Notes originally issued (for which purpose, any further Exchangeable Notes issued pursuant to Condition 21 (*Further Issues*) and consolidated

and forming a single series with the Exchangeable Notes shall also be deemed to have been 'originally issued').

(c) *Settlement of Options Contracts*

If options contracts in respect of the Shares are traded on the Related Exchange, and any event occurs as a result of which all such relevant options contracts are settled (including in accordance with the Eurex Corporate Actions Procedures or, in the case of an Alternative Options Exchange, the standard corporate actions procedures of the Alternative Options Exchange in effect at the relevant time, for example following the occurrence of a merger or takeover as provided in the Eurex Corporate Actions Procedures and other than as a result of a Nationalisation, a Delisting or a Change in Law) the Issuer shall give notice to Noteholders in accordance with Condition 20 (*Notices*) within ten Business Days of the Relevant Announcement Date (which notice shall be irrevocable) and shall thereafter redeem all but not some only of the outstanding Exchangeable Notes at their Automatic Early Redemption Amount on the Automatic Early Redemption Date. The Issuer shall give notice of the Automatic Early Redemption Amount to Noteholders in accordance with Condition 20 (*Notices*) as soon as reasonably practicable after the determination thereof and in any event not later than the date falling five Business Days prior to the Automatic Early Redemption Date.

(d) *Nationalisation, or Delisting*

Upon the occurrence of a Nationalisation or a Delisting, Condition 10(a) (*Nationalisation or Delisting*) shall apply.

(e) *Redemption for Tax Reasons*

The Issuer may redeem the Exchangeable Notes, in whole, but not in part, at any time prior to maturity at their Early Redemption Amount if: (i) the Issuer or the Guarantor shall determine that the Issuer would be required to pay Additional Tax Amounts, as provided in Condition 14 (*Taxation*), on the occasion of the next payment due with respect to the Exchangeable Notes; (ii) any payment or deemed payment as determined for United States tax purposes with respect to the Exchangeable Notes or with respect to a direct or indirect hedging arrangement entered into by the Issuer or any of its Affiliates relating to the Exchangeable Notes may be treated as a dividend or "dividend equivalent" for United States tax purposes (such event being a "**U.S. Withholding Tax Event**"); or (iii) on the occasion of the next payment due in respect of the Exchangeable Notes, the Guarantor would be unable to procure the Issuer to make payment and, in making such payment itself under the MLBV Guarantee, the Guarantor would be required to pay Additional Tax Amounts as provided in Condition 14 (*Taxation*).

Notice of intention to redeem Exchangeable Notes pursuant to this Condition 11(e) (*Redemption for Tax Reasons*) will be given at least once in accordance with Condition 20 (*Notices*) not less than 30 calendar days nor more than 60 calendar days prior to the date fixed for redemption, provided that no such notice of redemption shall be given earlier than 90 calendar days prior to the effective date of such change or amendment and that at the time notice of such redemption is given, such obligation to pay such Additional Tax Amounts remains in effect and cannot be avoided by the Issuer's taking reasonable measures available to it. From and after any redemption date, if monies for the redemption of Exchangeable Notes shall have been made available for redemption on such redemption date, such Exchangeable Notes shall cease to bear interest, if applicable, and the only right of the holders of such Exchangeable Notes shall be to receive payment of the Early Redemption Amount and, if appropriate, all unpaid interest accrued to such redemption date.

(f) *Redemption for Tax Compliance Reasons*

MLBV may, at its option, redeem the Exchangeable Notes, in whole or in part, at any time prior to maturity, at their Early Redemption Amount, together, if appropriate, with accrued interest to (but excluding) the date fixed for redemption, if MLBV determines

in good faith that it has, or there is a substantial likelihood that it will, become subject to withholding imposed on a payment made to it on account of MLBV's inability to comply with the reporting requirements imposed by the FATCA Provisions (as defined below), provided that such inability to comply with the reporting requirements is attributable to non-compliance by any Holder of such Exchangeable Notes (or a foreign withholding agent (if any) in the chain of custody of payments made to the Holders) with MLBV's requests for certifications or identifying information (such redemption, a "**Redemption for Tax Compliance Reasons**"). Upon a Redemption for Tax Compliance Reasons, Exchangeable Notes held by compliant Holders, in addition to those held by non-compliant Holders, may be redeemed.

Notice of intention to redeem Exchangeable Notes pursuant to this Condition 11(f) will be given in accordance with Condition 20 (*Notices*) not less than 30 calendar days nor more than 60 calendar days prior to the date fixed for redemption. From and after any redemption date, if monies for the redemption of Exchangeable Notes shall have been made available for redemption on such redemption date, such Exchangeable Notes shall cease to bear interest, if applicable, and the only right of the holders of such Exchangeable Notes shall be to receive payment of the Early Redemption Amount and, if appropriate, all unpaid interest accrued to such redemption date.

As used in these Exchangeable Note Terms and Conditions, the term "FATCA Provisions" means Sections 1471 through 1474 of the Code (or any successor provisions), any regulation, pronouncement, or agreement thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto whether currently in effect or as published and amended from time to time, and any intergovernmental agreement entered into in connection with the implementation of such provisions of the Code.

(g) *Change in Law*

If Change in Law is specified as applicable in the applicable Final Terms, then if a Change in Law occurs, the Issuer in its sole and absolute discretion may take the action described in (i) or (ii) below:

- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the terms of these Conditions and/or the applicable Final Terms to account for the Change in Law and determine the effective date of that adjustment; or
- (ii) give notice to Holders in accordance with Condition 20 (*Notices*) and redeem all, but not less than all, of the Exchangeable Notes at the Automatic Early Redemption Amount on the Automatic Early Redemption Date.

Upon the occurrence of a Change in Law, the Issuer shall give notice as soon as practicable to the Holders in accordance with Condition 20 (*Notices*) stating the occurrence of the Change in Law, giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of the actions which may be taken in respect of such Change in Law under these Conditions.

(h) *Illegality*

If the Issuer determines in good faith that (i) the performance of the Issuer's obligations under the Exchangeable Notes or that any arrangements made to hedge the Issuer's obligations under the Exchangeable Notes or the performance by the Guarantor of any of its obligations under the MLBV Guarantee in respect of the Exchangeable Notes, has or will become, in whole or in part, unlawful, illegal or otherwise contrary to any present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative, judicial or regulatory authority or powers, or any change in

- (i) default shall be made in the payment of any amount of interest due in respect of any such Exchangeable Notes and the default continues for a period of 30 calendar days after the due date; or
 - (ii) default shall be made in the payment of any principal, Cash Amount or other amount in respect of any such Exchangeable Notes (in each case whether at maturity or upon redemption or otherwise), and such default continues for a period of 30 calendar days after the due date; or
 - (iii) MLBV shall fail to perform or observe any other term, covenant or agreement contained in the Terms and Conditions applicable to any of such Exchangeable Notes or in the English Law Agency Agreement for the period of 90 calendar days after the date on which written notice of such failure, requiring MLBV to remedy the same, first shall have been given to the Principal Paying Agent and MLBV by Holders of at least 33 per cent. of the aggregate principal amount of any such Exchangeable Notes outstanding; or
 - (iv) a court having jurisdiction in the premises shall have entered a decree or order granting relief with respect to MLBV in an involuntary proceeding under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, or appointing a receiver, liquidator, trustee, assignee, custodian or sequestrator (or similar official) of MLBV of all or substantially all of its property or for the winding up or liquidation of its affairs, and such decree or order shall have remained in force and unstayed for a period of 60 consecutive calendar days; or
 - (v) MLBV shall institute proceedings for relief under any applicable bankruptcy, insolvency or any other similar law now or hereafter in effect, or shall consent to the institution of any such proceedings against it, or shall consent to the appointment of a receiver, liquidator, trustee, assignee, custodian or sequestrator (or similar official) of it or of all or substantially all of its property, or shall make an assignment for the benefit of creditors, or shall fail generally to pay its debts as they become due, or shall take any corporate action in furtherance of any of the foregoing; or

An Event of Default will not occur and there will not be any right to accelerate payment of principal, the interest accrued, or any other amounts then payable thereon (and Additional Tax Amounts, if any) of any Series of Exchangeable Notes as a result of a covenant breach by the Guarantor.

(b) At any time after any Series of Exchangeable Notes has become due and payable following a declaration of acceleration made in accordance with this Condition 15 (*Events of Default*) and before a judgment or decree for payment of the money due with respect to such Exchangeable Notes has been obtained by any Noteholder of such Exchangeable Notes, such declaration and its consequences may be rescinded and annulled upon the written consent of Noteholders of a majority in aggregate principal amount of such Exchangeable Notes then outstanding, or by resolution adopted by a majority in aggregate principal amount of such Exchangeable Notes outstanding present or represented at a meeting of Noteholders of such Exchangeable Notes at which a quorum is present, as provided in the English Law Agency Agreement, if:

(c) Any default by the Issuer or the Guarantor, other than the events described in Condition 15(a)(i), Condition 15(a)(ii), Condition 15(b)(i) or Condition 15(b)(ii) may be waived by the written consent of Noteholders of a majority in aggregate principal amount of such Exchangeable Notes then outstanding affected thereby, or by resolution adopted by a majority in aggregate principal amount of such Exchangeable Notes then outstanding present or represented at a meeting of Noteholders of such Exchangeable Notes affected thereby at which a quorum is present, as provided in the English Law Agency Agreement. Upon any such waiver, such default shall cease to exist, and any Event of Default arising therefrom shall be deemed to have been cured, for every purpose of the English Law Agency Agreement, but no such waiver shall extend to any subsequent or other default or impair any right consequent thereon.

The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a third party as it deems appropriate.

22. Consolidation or Merger

The Issuer or the Guarantor may not consolidate with, or sell or convey all or substantially all of its assets to, or merge with or into any other entity, other than in the case of the Guarantor, a sale or conveyance of all or substantially all of its assets to one or more Subsidiaries (as defined below), unless (i) (a) in the case of the Issuer, either the Issuer shall be the continuing company, or the successor entity (if other than the Issuer) shall expressly assume the due and punctual payment of all amounts (including Additional Tax Amounts as provided in Condition 14 (*Taxation*)) payable with respect to the Exchangeable Notes, according to their tenor, and the due and punctual performance and observance of all of the obligations under the Conditions to be performed by the Issuer by an amendment to the English Law Agency Agreement executed by, *inter alios*, such successor entity, the Guarantor, the Registrar and the Principal Paying Agent, and (b) in the case of the Guarantor, the Guarantor shall be the continuing company, or the successor entity (if other than the Guarantor) shall be organised and existing under the laws of the United States or a state thereof or the District of Columbia and such successor entity shall expressly assume the due and punctual payment of all amounts, including Additional Tax Amounts as provided in Condition 14 (*Taxation*) payable or deliverable, as applicable, with

respect to the MLBV Guarantee by the execution of a new MLBV Guarantee of like tenor and (ii) immediately after giving effect to such transaction, no Event of Default under Condition 15 (*Events of Default*), and no event which, with notice or lapse of time or both, would become such an Event of Default shall have happened and be continuing. In case of any such consolidation, merger, sale or conveyance and upon any such assumption by the successor entity, such successor entity shall succeed to and be substituted for the Issuer or the Guarantor, as the case may be, with the same effect as if it had been named herein as the Issuer or the Guarantor, as the case may be, and the Issuer or the Guarantor, as the case may be, except in the event of a conveyance by way of lease, shall be relieved of any further obligations under the Conditions, the English Law Agency Agreement and the MLBV Guarantee, as applicable.

"**Subsidiary**" means any entity of which more than 50 per cent of the voting power of the outstanding ownership interests (excluding ownership interests entitled to voting power only by reason of the happening of a contingency) shall at the time be owned, directly or indirectly, by the Guarantor, or one or more Subsidiaries, or by the Guarantor and one or more Subsidiaries. For this purpose, "voting power" means power to vote in an ordinary election of directors (or, in the case of an entity that is not a corporation, ordinarily to appoint or approve the appointment of entities holding similar positions).

23. **Business Days**

In these Terms and Conditions, "**Business Day**" means a day which is both:

- (a) a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in London and each Additional Business Centre specified in the applicable Final Terms, provided that if the Additional Business Centre is specified in the applicable Final Terms to be or to include "T2", then Business Day shall also be a day on which the T2 is open for the settlement of payments in euro; and
- (b) also (1) for any sum payable in a Specified Currency other than euro, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the principal financial centre of the country of the relevant Specified Currency (if other than London) or (2) for any sum payable in euro, a day on which the T2 is open for the settlement of payments in euro.

24. **Contracts (Rights of Third Parties) Act 1999**

No person shall have any right to enforce any term or condition of the Exchangeable Notes under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any person which exists or is available apart from that Act.

25. **Governing Law and Jurisdiction**

- (a) *Governing law*

The English Law Agency Agreement, the MLBV Exchangeable Notes Deed of Covenant and the Exchangeable Notes issued by MLBV and any non-contractual obligations arising out of or in connection with the English Law Agency Agreement, the MLBV Notes Deed of Covenant and such Exchangeable Notes (including without limitation any dispute, controversy, proceedings or claim of whatever nature (whether contractual, non-contractual or otherwise) arising out of or in any way relating to the English Law Agency Agreement, the MLBV Notes Deed of Covenant and the Exchangeable Notes issued by MLBV or their respective formation) shall be governed by, and construed in accordance with, English law.

The MLBV Guarantee shall be governed by, and construed in accordance with, the laws of the State of New York, United States, applicable to agreements made and to be performed wholly within such jurisdiction without regard to principles of conflicts of laws.

(b) *Submission to jurisdiction*

In relation to any legal action or proceedings ("**Proceedings**") arising out of or in connection with the Exchangeable Notes issued by MLBV, the courts of England have exclusive jurisdiction and MLBV and the Noteholders submit to the exclusive jurisdiction of the English courts. MLBV and the Noteholders waive any objection to Proceedings in the English courts on the grounds of venue or that the Proceedings have been brought in an inconvenient forum.

For greater certainty, the Guarantor has not submitted to the jurisdiction of the English courts in the MLBV Guarantee, and claims under the MLBV Guarantee are required to be instituted in the courts of the State of New York or the courts of the United States of America located in the Borough of Manhattan in the City and State of New York, United States.

(c) *Express Acknowledgement of the U.S. Special Resolution Regimes*

In the event the Issuer or the Guarantor becomes subject to a proceeding under the Federal Deposit Insurance Act or Title II of the Dodd-Frank Wall Street Reform and Consumer Protection Act (each, a "**U.S. Special Resolution Regime**"), the transfer of the Exchangeable Notes and/or the MLBV Guarantee (together, the "**Relevant Obligations**"), and the transfer of any interest and obligation in or under, and any property securing, the Relevant Obligations, from the Issuer or the Guarantor, respectively, will be effective to the same extent as the transfer would be effective under such U.S. Special Resolution Regime if the Relevant Obligations, and any interest and obligation in or under, and any property securing, the Relevant Obligations, were governed by the laws of the United States or a state of the United States. In the event the Issuer or the Guarantor, or any of their affiliates (as such term is defined in, and interpreted in accordance with, 12 U.S.C. § 1841(k)) becomes subject to a proceeding under a U.S. Special Resolution Regime, default rights against the Issuer or the Guarantor with respect to the Relevant Obligations are permitted to be exercised to no greater extent than such default rights could be exercised under such U.S. Special Resolution Regime if the Relevant Obligations were governed by the laws of the United States or a state of the United States. For purposes of this paragraph, "**default right**" has the meaning assigned to that term in, and shall be interpreted in accordance with, 12 C.F.R. § 252.81, 12 C.F.R. § 382.1 and 12 C.F.R. § 47.1, as applicable.

(d) *Appointment of Process Agent*

MLBV hereby appoints Bank of America, National Association, London Branch currently at 2 King Edward Street, London EC1A 1HQ (Att: General Counsel EMEA) as its agent in England to receive service of process in any Proceedings in England. If for any reason such process agent ceases to act as such or no longer has an address in England, MLBV agrees to appoint a substitute process agent and to notify the Holders of such appointment. Nothing herein shall affect the right to serve process in any other manner permitted by law.

USE OF PROCEEDS OF THE NOTES

The net proceeds from the sale of the Notes issued by BAC will be used for general corporate purposes, including, without limitation, BAC's working capital needs; the funding of investments in, or extensions of credit to, its subsidiaries; possible investments in, or acquisitions of assets and liabilities of, other financial institutions or other businesses; possible reductions, redemptions or repurchases of outstanding indebtedness; possible repayments on outstanding indebtedness; or otherwise in the ordinary course of BAC's business. From time to time BAC may engage in additional capital financings of a character and in amounts that it will determine in light of its needs at such time or times and in light of prevailing market conditions. If BAC elects at the time of issuance of Notes to make different or more specific use of proceeds other than those set forth in this Offering Circular, BAC will describe that use in the applicable Final Terms.

BofA Finance intends to lend the net proceeds from the sale of the Notes to BAC and/or BAC's other subsidiaries. BAC expects that it and/or its subsidiaries will use the proceeds from these loans to provide additional funds for operations and for other general corporate purposes. In addition, BofA Finance may use a portion of net proceeds from the sale of the Notes to hedge its obligations under the Notes by entering into hedging arrangements with one or more affiliates. If BofA Finance elects at the time of issuance of Notes to make different or more specific use of proceeds other than those set forth in this Offering Circular, BofA Finance will describe that use in the applicable Final Terms.

MLBV intends to use the net proceeds from the issue and sale of the Notes for general corporate purposes, including making general loans to affiliates which may use such proceeds for their general corporate purposes. If MLBV elects at the time of issuance of Notes to make different or more specific use of proceeds other than those set forth in this Offering Circular, MLBV will describe that use in the applicable Final Terms.

TERMS AND CONDITIONS OF THE W&C INSTRUMENTS

The following is the text of the Terms and Conditions of the W&C Instruments which will apply to each issue of W&C Instruments and which will include the Additional Terms and Conditions (as defined below) if and to the extent specified in the applicable Final Terms.

This warrant ("**Warrants**") or certificate ("**Certificates**" and together with Warrants, the "**W&C Instruments**"), as specified in the applicable Final Terms, is issued by Merrill Lynch B.V. ("**MLBV**" or the "**Issuer**"). References in these Terms and Conditions to "**W&C Instrument**", "**W&C Instruments**", "**Warrant**", "**Warrants**", "**Certificate**" and "**Certificates**" will be construed accordingly.

The W&C Instruments are issued pursuant to an Amended and Restated English Law Agency Agreement dated 15 May 2024 (such agency agreement as amended and/or supplemented and/or restated from time to time, the "**English Law Agency Agreement**") which is governed by English law among, *inter alios*, MLBV, Bank of America Corporation ("**BAC**" or the "**Guarantor**") as guarantor, Citibank, N.A., London Branch as principal W&C Instrument agent (in such capacity, the "**Principal W&C Instrument Agent**"), which expression shall include any successor principal W&C Instrument agent), and Citibank Europe plc as registrar in respect of Warrants and Certificates (the "**Registrar**") and the other agents named therein.

Any additional or successor W&C Instrument agents appointed under the English Law Agency Agreement, together with the Principal W&C Instrument Agent, are referred to herein as the "**W&C Instrument Agents**".

Merrill Lynch International or BofA Securities Europe SA shall undertake the duties of calculation agent (the "**Calculation Agent**") in respect of the W&C Instruments unless another entity is so specified as the calculation agent in the applicable Final Terms. The expression Calculation Agent shall, in relation to the relevant W&C Instruments, include such other specified calculation agent.

The applicable Final Terms (the "**Final Terms**") for the W&C Instruments supplement these Terms and Conditions (the "**Terms and Conditions**", or the "**Conditions**") and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these Terms and Conditions, supplement, replace or modify these Terms and Conditions for the purposes of the W&C Instruments. References herein to the "**applicable Final Terms**" are to Part A (including, if applicable, any annex or appendix thereto) of the Final Terms or each Final Terms (in the case of any further instruments issued pursuant to Condition 14 (*Further Issues*) and forming a single Series with the W&C Instruments) (which for the avoidance of doubt may be issued in respect of more than one Series of W&C Instruments) attached to the Global W&C Instrument or to the Definitive W&C Instrument, as the case may be, or constituting a part of such W&C Instruments and made available as provided in the preceding paragraph insofar as it relates to the W&C Instruments.

The additional Terms and Conditions (the "**Additional Terms and Conditions**") contained in Annex 1 in the case of Index Linked W&C Instruments (together with Annex 16 where Index-Linked Contracts are referenced), Annex 2 in the case of Share Linked W&C Instruments, Annex 3 in the case of Low Exercise Price Warrants, Annex 4 in the case of GDR/ADR Linked W&C Instruments, Annex 5 in the case of FX Linked W&C Instruments, Annex 6 in the case of Commodity Linked W&C Instruments, Annex 7 in the case of Fund Linked W&C Instruments, Annex 8 in the case of Inflation Linked W&C Instruments, Annex 9B in the case of Credit Linked W&C Instruments, Annex 11B in the case of Rule 144A W&C Instruments, Annex 12 in the case of Saudi Share Linked Warrants, and/or Annex 13 in the case of Secured Static/Floating Instruments or Annex 14 in the case of Secured Fully Floating Instruments (each as defined below) will apply to, and form part of the Terms and Conditions of the W&C Instruments if and to the extent specified in the applicable Final Terms.

The applicable Final Terms for the W&C Instruments are attached to or incorporated by reference into the Global W&C Instrument or endorsed on the Definitive W&C Instruments, as the case may be.

"**Series**" means W&C Instruments which are identical in all respects (including as to listing and admission to trading), together with any further W&C Instruments which are (i) expressed to be consolidated and form a single series and (ii) identical in all respects (including as to listing and admission to trading) except for their respective Issue Dates and/or Issue Prices.

Any reference to "**W&C Instrument holders**" or "**Holders**" in relation to any W&C Instruments shall mean the holders of the W&C Instruments.

Other than in respect of the Secured W&C Instruments, the payment of all amounts payable and/or delivery of non-cash consideration deliverable by the Issuer in respect of the W&C Instruments are unconditionally and irrevocably guaranteed by BAC pursuant to the guarantee dated 15 May 2024, as executed by BAC (the "**MLBV Guarantee**"). For the avoidance of doubt, the Secured W&C Instruments issued by MLBV are not guaranteed by BAC and Holders of such Secured W&C Instruments will not be able to claim under the terms of the MLBV Guarantee for any unpaid amounts and any such shortfall will not constitute an unsecured claim by such Holder of Secured W&C Instruments against the Guarantor.

The W&C Instrument holders are entitled to the benefit of the W&C Instruments Deed of Covenant (the "**W&C Instruments Deed of Covenant**") dated 15 May 2024 and made by the Issuer. The original of the W&C Instruments Deed of Covenant is held by a common depository for Euroclear and Clearstream, Luxembourg (each as defined below) (the "**Common Depository**"). For the avoidance of doubt, Holders of W&C Instruments held through The Depository Trust Company ("**DTC**") are not entitled to the benefit of the direct rights under the W&C Instruments Deed of Covenant.

Copies of the English Law Agency Agreement and copies of the MLBV Guarantee are available for viewing and can be obtained during normal business hours at the specified offices of the Principal W&C Instrument Agent. Copies of the applicable Final Terms will be available for viewing and can be obtained during normal business hours at the specified office of the relevant Dealer and the Principal W&C Instrument Agent only by a Holder (as defined in Condition 1(B), or "Annex 11B – *Additional Terms and Conditions for Rule 144A W&C Instruments*" as applicable) holding one or more W&C Instruments and such Holder must produce evidence satisfactory to the Issuer or the Principal W&C Instrument Agent as to its holding of such W&C Instruments and its identity. The Offering Circular and, in the case of W&C Instruments admitted to trading on the Luxembourg Stock Exchange's Euro MTF, the applicable Final Terms will also be published on the website of the Luxembourg Stock Exchange (www.luxse.com). Final Terms relating to Notes listed and/or admitted to trading on any other stock exchange or market will be published in accordance with the rules and regulations of such stock exchange or market.

The Holders are deemed to have notice of or are entitled to the benefit of and are bound by all the provisions of the English Law Agency Agreement the MLBV Guarantee (if applicable), the W&C Instruments Deed of Covenant and the applicable Final Terms which are applicable to them.

Words and expressions defined in the English Law Agency Agreement or used in the applicable Final Terms shall have the same meanings where used in these Terms and Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the English Law Agency Agreement and the applicable Final Terms, the applicable Final Terms will prevail.

The provisions of Conditions 5(A), 5(B) and 5(C) apply to W&C Instruments other than Credit Linked W&C Instruments.

(A) *Settlement Disruption*

If, following the exercise of Physical Delivery W&C Instruments, in the opinion of the Calculation Agent, delivery of the Entitlement using the method of delivery specified in the applicable Final Terms is not practicable by reason of a Settlement Disruption Event (as defined below) having occurred and continuing on any Settlement Date, then such Settlement Date for such W&C Instruments shall be postponed to the first following Settlement Business Day in respect of which there is no such Settlement Disruption Event, provided that the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant W&C Instruments or Unit, as the case may be, by delivering the Entitlement using such other commercially reasonable manner as it may select and in such event the Settlement Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner. For the avoidance of doubt, where a Settlement Disruption Event affects some but not all of the Relevant Assets comprising the Entitlement, the Settlement Date for

the Relevant Assets not affected by the Settlement Disruption Event will be the originally designated Settlement Date. In the case of Warrants, in the event that a Settlement Disruption Event will result in the delivery on a Settlement Date of some but not all of the Relevant Assets comprising the Entitlement, the Calculation Agent shall determine in its discretion the appropriate *pro rata* portion of the Exercise Price to be paid by the relevant Holder in respect of that partial settlement. For so long as delivery of the Entitlement is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy and discharge its obligations in respect of the relevant W&C Instruments or Unit, as the case may be, by payment to the relevant Holder of the Disruption Cash Settlement Price (as defined below) on the third Business Day following the date that notice of such election is given to the Holders in accordance with Condition 12 (*Notices*). The Calculation Agent shall give notice as soon as practicable to the Holders in accordance with Condition 12 (*Notices*) that a Settlement Disruption Event has occurred provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Settlement Disruption Event. No Holder shall be entitled to any payment in respect of the relevant W&C Instrument or Unit, as the case may be, in the event of any delay in the delivery of the Entitlement due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer or the Guarantor.

For the purposes hereof:

"Disruption Cash Settlement Price" in respect of any relevant W&C Instruments or Unit, as the case may be, shall be the fair market value of such W&C Instruments or Unit, as the case may be, (taking into account, where the Settlement Disruption Event affected some but not all of the Relevant Assets comprising the Entitlement and such non-affected Relevant Assets have been duly delivered as provided above, the value of such duly delivered Relevant Assets), less the cost to the Issuer and/or its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the Issuer in its sole and absolute discretion, plus, in the case of Warrants and if already paid, the Exercise Price (or, whereas provided above some Relevant Assets have been delivered, and a *pro rata* portion thereof has been paid, such *pro rata* portion); and

(B) *Failure to Deliver due to Illiquidity*

If "Failure to Deliver due to Illiquidity" is specified as applicable in the applicable Final Terms and, following the exercise of Physical Delivery W&C Instruments, in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets (the **"Affected Relevant Assets"**) comprising the Entitlement, where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a **"Failure to Deliver due to Illiquidity"**), then:

- (a) subject as provided elsewhere in the Conditions, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Settlement Date and, in the case of Warrants, the Calculation Agent shall determine in its discretion the appropriate *pro rata* portion of the Exercise Price to be paid by the relevant Holder in respect of that partial settlement; and
- (b) in respect of any Affected Relevant Assets, in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant W&C Instruments or Unit, as the case may be, by payment to the relevant Holder of the Failure to Deliver Settlement Price (as defined below) on the fifth Business Day following the date that notice of such election is given to the Holders in accordance with Condition 12 (*Notices*). The Calculation Agent shall give notice as soon as

practicable to the Holders in accordance with Condition 12 (*Notices*) that the provisions of this Condition 5(B) apply.

For the purposes hereof:

"Failure to Deliver Settlement Price" means, in respect of any relevant W&C Instrument or Unit, as the case may be, the fair market value of such W&C Instrument or Unit, as the case may be (taking into account, the Relevant Assets comprising the Entitlement which have been duly delivered as provided above), less the cost to the Issuer and/or its Affiliates or agents of unwinding any underlying related hedging arrangements, all as determined by the Issuer in its sole and absolute discretion, plus, in the case of Warrants and if already paid, the Exercise Price (or, whereas provided above some Relevant Assets have been delivered, and a *pro rata* portion thereof has been paid, such *pro rata* portion).

(C) *Issuer's Option to Vary Settlement*

If the applicable Final Terms indicate that the Issuer has an option to vary settlement in respect of the W&C Instruments, upon a valid exercise of W&C Instruments in accordance with these Terms and Conditions, the Issuer may, at its sole and unfettered discretion, in respect of each such W&C Instrument or Unit elect not to pay the relevant Holders the Cash Settlement Amount or not to deliver or procure delivery of the Entitlement, as the case may be, to the relevant Holders but, in lieu thereof to deliver or procure delivery of the Adjusted Entitlement or pay an amount in cash equal to the Adjusted Cash Settlement Amount on the Settlement Date to the relevant Holders. Notification of such election will be given to Holders in accordance with Condition 12 (*Notices*) no later than 10.00 a.m. (London time) on the second Business Day following the Actual Exercise Date.

For the purposes hereof:

"Adjusted Entitlement" means, in respect of any relevant W&C Instrument or Unit, as the case may be, the quantity of the Relevant Asset or the Relevant Assets which, prior to any rounding, has a fair market value equal to the Cash Settlement Amount as determined by the Issuer in its sole and absolute discretion on or around the date notified to Holders by the Issuer in accordance with Condition 12 (*Notices*). If the Issuer elects to deliver or procure delivery of the Adjusted Entitlement, then the Adjusted Entitlement shall be deemed to be the Entitlement for the purposes of the Conditions and shall be subject to rounding in accordance with Condition 24(C) or 31(A).

"Adjusted Cash Settlement Amount" means, in respect of any relevant W&C Instrument or Unit, as the case may be, the fair market value of the Entitlement as determined by the Issuer in its sole and absolute discretion on or around the date notified to Holders by the Issuer in accordance with Condition 12 (*Notices*).

6. **General provisions relating to Settlement**

For these purposes, "**Payment Day**" means any day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchanges and foreign currency deposits) in:

(b) *Consequences of a Payment Disruption Event*

(i) *Postponement of relevant dates*

Subject to Condition 6(C)(e), the Issuer may postpone the Exercise Date, the Settlement Date or any other date on which the W&C Instruments may be exercised or redeemed or any amount would otherwise be due and payable in respect of the relevant W&C Instruments, until five Business Days (or such other date as may be determined by the Issuer and notified to the Holders in accordance with Condition 12 (*Notices*)) after the date on which the Payment Disruption Event is no longer occurring (the "**Postponed Date**"). Holders shall not be entitled to any other payment in respect of such postponement.

(ii) *Issuer's option to vary settlement*

Notwithstanding the Issuer's right to postpone the date(s) for payments and/or redemption in accordance with Condition 6(C)(b)(i), the Issuer may, if practicable (and to the extent lawful), and at the Issuer's sole and absolute discretion:

- (A) make payments due to be made in the Subject Currency in the Base Currency or in U.S. dollars or euros, converted from the Subject Currency into the Base Currency, U.S. dollars or euros, as applicable, at a rate reasonably selected by the Calculation Agent;
- (B) make payments due to be made in the Base Currency in the Subject Currency or in U.S. dollars or euros, disregarding any obligation to convert amounts into the Base Currency;
- (C) in the case of Share Linked W&C Instruments or Index Linked W&C Instruments (where "Physical Settlement" is specified as applicable to the Index Linked Conditions in the relevant Final Terms), deliver the Shares or Fund Shares, respectively in lieu of cash settlement; or

Any Partial Distribution made by the Issuer to the Holders will be calculated and/or determined by the Calculation Agent in its sole and absolute discretion and shall be paid and/or delivered to the Holders *pro rata* (as far as possible, subject to any necessary adjustments for rounding) to the proportion of the W&C Instruments of the same Series held by the relevant Holder. In the event that any Partial Distribution is made by the Issuer, the Calculation Agent may, in its sole and absolute discretion, make any such corresponding adjustment to any variable relevant to the redemption or payment terms of the relevant W&C Instruments as it deems necessary and shall notify the relevant Holders thereof in accordance with Condition 12 (*Notices*).

Any payments or deliveries made in accordance with this Condition 6(C)(b)(ii) shall satisfy and discharge in full (in the case of payments or deliveries made in accordance with paragraphs (A) to (C)) and in part (in the case of Partial Distributions made in accordance with paragraph (D)) the Issuer's obligation to pay the Cash Settlement Amount or other amount in respect of which the Payment Disruption Event has arisen, and no further amounts shall be due and payable by the Issuer in respect thereof.

(c) *Consequences of a CNY Payment Disruption Event*

Upon the occurrence of a CNY Payment Disruption Event:

If "Date Postponement" is specified to be applicable in the applicable Final Terms, then Condition 6(C)(b)(i) shall apply, provided that the reference therein to "Payment Disruption Event" shall be construed as a reference to "CNY Payment Disruption Event".

(ii) *Payment of Equivalent Amount*

If "Payment of Equivalent Amount" is specified to be applicable in the applicable Final Terms, and the Calculation Agent determines that a CNY Payment Disruption Event has occurred in relation to the Issuer's obligations under the relevant W&C Instruments to pay any Additional Amount, Cash Settlement Amount or other amount in respect of the relevant W&C Instruments on the relevant Additional Amount Payment Date, Settlement Date or such other date on which any amount in respect of the relevant W&C Instruments shall be due and payable (such date, the "**Affected Payment Date**"), then the Issuer may, on giving notice to Holders in accordance with Condition 12 (*Notices*) as soon as practicable and in any event prior to the date on which the payment of the Equivalent Amount is due and payable to the Holders, make payment of the Equivalent Amount of the relevant Additional Amount, Cash Settlement Amount or such other amount payable (if applicable) in full and final settlement of its obligations to pay such Additional Amount, Settlement Amount or other amount in respect of the relevant W&C Instruments.

Notwithstanding the foregoing:

- (A) if both "Payment of Equivalent Amount" and "Date Postponement" are specified to be applicable in the applicable Final Terms, and if the Issuer decides to exercise its right of postponement pursuant to Condition 6(C)(c)(i) and payment of the Equivalent Amount pursuant to this Condition 6(C)(c)(ii), the Equivalent Amount in respect of the relevant Additional Amount, Cash Settlement Amount or other amount (if applicable) in respect of the relevant W&C Instruments shall be due and payable on the Postponed Date instead of the Affected Payment Date; and
- (B) if (x) only the "Payment of Equivalent Amount" is specified to be applicable in the applicable Final Terms, or (y) both "Payment of Equivalent Amount" and "Date Postponement" are specified to be applicable in the applicable Final Terms and the Issuer decides only to exercise the right of payment of the Equivalent Amount pursuant to this Condition 6(C)(c)(ii) but not its right of postponement pursuant to Condition 6(C)(c)(i), then no Postponed Date shall apply and the Equivalent Amount in respect of the relevant Additional Amount, Cash Settlement Amount or other amount (if applicable) in respect of the relevant W&C Instruments shall be due and payable on the Affected Payment Date.

Notwithstanding any provisions to the contrary, (a) any payments or deliveries made in accordance with Condition 6(C)(b) or Condition 6(C)(c), as the case may be, shall be made after deduction of any costs, expenses or liabilities incurred or to be incurred by the Calculation Agent or Issuer in connection with or arising from the resolution of the relevant Payment Disruption Event(s) or CNY Payment Disruption Event(s), as the case may be, and (b) no interest shall be paid by the Issuer in respect of any delay which may occur in the payment of any amounts due and payable under the W&C Instruments as a result of the operation of Condition 6(C)(b) or Condition 6(C)(c), as the case may be.

(e) *Payment Event Cut-Off Date*

- (a) the occurrence of either (a) an Inconvertibility Event and/or (b) a Non-Transferability Event (each as defined in "Annex 5 – *Additional Terms and Conditions for FX Linked Instruments*");
- (b) the imposition by the Subject Currency Jurisdiction (or any political or regulatory authority thereof) of any capital controls, or the publication of any notice of an intention to do so, which the Calculation Agent determines in good faith is likely materially to affect the W&C Instruments, and notice thereof is given by the Issuer to the Holders in accordance with Condition 12 (*Notices*); or
- (c) the implementation by the Subject Currency Jurisdiction (or any political or regulatory authority thereof) or the publication of any notice of an intention to implement any changes to the laws or regulations relating to foreign investment in the Subject Currency Jurisdiction (including, but not limited to, changes in tax laws and/or laws relating to capital markets and corporate ownership), which the Calculation Agent determines are likely to affect materially the Issuer's ability to hedge its obligations under the W&C Instruments;

"Payment Event Cut-Off Date" means the date which is one year after the Exercise Date, Settlement Date or as determined by the Calculation Agent acting in good faith and notified to Holders in accordance with Condition 12 (*Notices*);

"Subject Currency" has the meaning given to it in "Annex 5 – *Additional Terms and Conditions for FX Linked Instruments*"; and

"Subject Currency Jurisdiction" has the meaning given to it in "Annex 5 – *Additional Terms and Conditions for FX Linked Instruments*".

7. **Currency Substitution Event**

In the event that the Issuer and the Calculation Agent, in their discretion, determine that any Relevant Governmental Authority (as defined below) of a country, bloc of countries or other applicable sovereign entity or entities (each, an "**Applicable Jurisdiction**") announces or in any event effects (whether pursuant to legislation enacted for such purpose in the Applicable Jurisdiction, in accordance with or in breach of applicable international treaties, or in any other manner) or (based on any publicly available information which the Issuer and the Calculation Agent reasonably consider relevant) there is a substantial likelihood that it will effect within the next 90 days, the replacement of the lawful currency (the "**Initial Currency**") of an Applicable Jurisdiction with a substitute currency ("**Substitute Currency**") (for the avoidance of doubt, including circumstances in which a country (a "**Departing Country**") within a bloc of countries in a currency union passes legislation (or a Relevant Governmental Authority thereof announces that it will pass legislation or otherwise seeks) to effect or does effect the withdrawal of such Departing Country from the currency bloc and the replacement of the currency of the currency

union with another currency as the official currency of the Departing Country) (any such event being a "**Currency Substitution Event**"), and:

- (a) the calculation of amounts to be paid or assets to be delivered under any W&C Instrument is linked to one or more Reference Items, and the currency by which the Reference Item(s) and/or any component(s) thereof is priced, quoted or traded is (or, in the Issuer's reasonable opinion is likely to be), as a result of the Currency Substitution Event, redenominated from the Initial Currency into the Substitute Currency; and/or
- (b) the calculation of amounts to be paid or assets to be delivered under any W&C Instrument is linked to one or more floating rates of interest based on or related to amounts denominated in the Initial Currency; and/or
- (c) the Hedging Arrangements (as defined below) in respect of any W&C Instrument have been materially adversely affected by (A) the Currency Substitution Event and/or (B) capital controls or other restrictions imposed by a Relevant Governmental Authority of the Applicable Jurisdiction, and the Hedging Party (as defined below) is unable, after using commercially reasonable efforts, to alter or modify the Hedging Arrangements and/or establish alternate Hedging Arrangements to fully account for the material adverse effect of (A) and/or (B) above,

or in the event that the currency in which the Issuer would otherwise be obligated to make any payments of principal, interest or other amounts payable on any Note is not available to the Issuer for making payment or payments, then, unless otherwise set out in the applicable Final Terms, the Issuer and the Calculation Agent may, in their discretion:

- (x) make such adjustments, as shall be notified to each Holder of the relevant W&C Instruments, to the exercise, settlement, valuation, calculation, payment (including the Specified Currency and/or Settlement Currency) and/or any other Terms and Conditions of the W&C Instrument as the Issuer determines appropriate to (i) (in all cases other than (c) above) preserve the economic terms of such W&C Instruments as of the Issue Date, including, without limitation, making any currency conversion necessary as part of any such adjustment based on the relevant official conversion rate or at an appropriate market rate of exchange determined by the Calculation Agent to be prevailing as of any relevant time and date, or (ii) (in the case of (c) above) account for the material adverse effect on the Hedging Arrangements and in order to effect a commercially reasonable result; or
- (y) redeem such W&C Instruments on such day as shall be notified to the relevant Holders and pay an early settlement amount (which shall be the fair market value of the W&C Instruments, taking into account the Currency Substitution Event and its consequences as described above, less any and all costs associated or incurred by the Issuer and/or any of its affiliates or agents in connection with such early settlement, including, without limitation, any costs associated with unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) as determined by the Calculation Agent in its sole and absolute discretion) to the Holder in respect of each W&C Instrument.

For the avoidance of doubt, the circumstances and consequences described in this Condition 7 (*Currency Substitution Event*) and any resulting or alternative adjustments to the exercise, settlement, valuation, calculation, payment and/or any other Terms and Conditions of the applicable W&C Instrument will not entitle any Holder of such W&C Instruments (A) to any legal remedy, including, without limitation, rescission, repudiation, or renegotiation of the W&C Instrument, or (B) to raise any defence or make any claim (including, without limitation, claims of breach, force majeure, frustration of purpose, or impracticability) or any other claim for compensation, damages, or any other relief.

For the purposes of this Condition 7 (*Currency Substitution Event*):

"Hedging Arrangements" means any purchase, sale, entry into or maintenance of one or more (a) positions or contracts in securities, options, futures, derivatives or foreign exchange or (b)

other instruments or arrangements (howsoever described) in order to hedge individually or on a portfolio basis the Issuer's obligations under any W&C Instrument.

"Hedging Party" means, the Issuer or any of its affiliate(s) or any entity (or entities) acting on the Issuer's behalf engaged in any underlying or hedging transactions relating to any W&C Instrument and/or underlying market measure(s) in respect of the Issuer's obligations under the W&C Instrument.

"Relevant Governmental Authority" means, in relation to any Applicable Jurisdiction, any *de facto* or *de jure* government (or any agency or instrumentality thereof), court, tribunal, administrative or other governmental authority or any other entity (private or public) charged with the regulation of the financial markets (including the central bank) of such Applicable Jurisdiction.

8. **Cancellation for Tax Reasons and Tax Compliance Reasons**

(A) *Cancellation for Tax Reasons*

The Issuer may cancel the W&C Instruments, in whole, but not in part, at any time at their Early Settlement Amount (as defined in Condition 9 (*Illegality*)), if the Issuer shall determine that any payment or deemed payment as determined for United States tax purposes with respect to the W&C Instruments or with respect to a direct or indirect hedging arrangement entered into by the Issuer or any of its Affiliates relating to the W&C Instruments may be treated as a dividend or "dividend equivalent" for United States tax purposes (such event being a "**U.S. Withholding Tax Event**").

(B) *Cancellation for Tax Compliance Reasons*

The Issuer may, at its option, cancel the W&C Instruments, in whole or in part, at any time, at their Early Settlement Amount, if the Issuer determines in good faith that it has, or there is a substantial likelihood that it will, become subject to withholding imposed on a payment made to it on account of the Issuer's inability to comply with the reporting requirements imposed by the FATCA Provisions, provided that such inability to comply with the reporting requirements is attributable to non-compliance by any Holder of such W&C Instruments (or a foreign withholding agent (if any) in the chain of custody of payments made to the Holders) with the Issuer's requests for certifications or identifying information (such cancellation, a "**Cancellation for Tax Compliance Reasons**"). Upon a Cancellation for Tax Compliance Reasons, W&C Instruments held by compliant Holders, in addition to those held by non-compliant Holders, may be cancelled.

Notice of intention to cancel W&C Instruments will be given in accordance with Condition 12 (*Notices*) not less than 30 calendar days nor more than 60 calendar days prior to the date fixed for cancellation. Payment will be made in such manner as shall be notified to the Holders in accordance with Condition 12 (*Notices*).

9. **Illegality**

In the event that the Issuer determines in good faith that (i) the performance of the Issuer's obligations under the W&C Instruments or that any arrangements made to hedge the Issuer's obligations under the W&C Instruments or (ii) the performance by the Guarantor of any of its obligations under the MLBV Guarantee in respect of the W&C Instruments (except for Secured W&C Instruments to which the MLBV Guarantee does not apply), has or will become, in whole or in part, unlawful, illegal or otherwise contrary to any present or future law, rule, regulation, judgment, order or directive of any governmental, administrative, legislative, judicial or regulatory authority or powers, or any change in the interpretation thereof that is applicable to the Issuer and/or (if applicable) the Guarantor, the Issuer may, at its discretion, cancel the W&C Instruments by giving notice to Holders in accordance with Condition 12 (*Notices*).

Should any one or more of the provisions contained in these Terms and Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

If the Issuer cancels the W&C Instruments then the Issuer will, if and to the extent permitted by applicable law, pay an amount to each Holder in respect of each W&C Instrument or each Unit, as the case may be, held by such Holder, which amount shall be the fair market value of a W&C Instrument or Unit, as the case may be, notwithstanding such illegality less the cost to the Issuer and/or its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) plus, in the case of Warrants and if already paid by or on behalf of the Holder, the Exercise Price, all as determined by the Calculation Agent in its sole and absolute discretion (the "**Early Settlement Amount**"). Payment will be made in such manner as shall be notified to the Holders in accordance with Condition 12 (*Notices*).

10. **Repurchases**

The Issuer, (if applicable) the Guarantor or any of their Affiliates may purchase W&C Instruments at any time and from time to time outstanding W&C Instruments by tender in the open market or by private agreement. Such W&C Instruments may be held, reissued, resold or at the option of the Issuer or (if applicable) the Guarantor, surrendered to any W&C Instrument Agent for cancellation.

11. **Agents, Determinations, Modifications and Meeting Provisions**

(A) *Principal W&C Instrument Agent and Registrar*

The names of the Principal W&C Instrument Agent and the Registrar and their initial specified offices are as set out at the end of these Terms and Conditions.

The Issuer and (if applicable) the Guarantor are entitled to vary or terminate the appointment of the Principal W&C Instrument Agent or the Registrar and/or to appoint additional or other W&C Instrument agents or Registrars and/or approve any change in the specified office through which the Principal W&C Instrument Agent, Registrar or any other W&C Instrument agent acts, provided that:

- (i) at all times there will be a Principal W&C Instrument Agent and a Registrar (which, in the case of the Registrar, shall be an entity with a specified office outside of the United Kingdom);
- (ii) so long as any W&C Instruments are listed on any stock exchange or admitted to listing by any other relevant authority, there will at all times be an W&C Instrument Agent, which may be the Principal W&C Instrument Agent, with a specified office in such place as may be required by the rules and regulations of the relevant stock exchange or other relevant authority;
- (iii) there will at all times be an W&C Instrument agent (which may be the Principal W&C Instrument Agent) in a jurisdiction within Europe other than any jurisdiction in which the Issuers or (if applicable) the Guarantor are incorporated;
- (iv) so long as any of the W&C Instruments are represented by a Rule 144A Global W&C Instrument held through DTC, there shall be a U.S. Instrument Agent; and
- (v) there shall at all times be a Calculation Agent.

Notice of any variation or termination of appointment and of any changes in the specified office of any W&C Instrument Agent or the Registrar will be given to Holders in accordance with Condition 12 (*Notices*) provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such variation, termination or changes.

In acting under the English Law Agency Agreement, each W&C Instrument Agent and the Registrar acts solely as agent of the Issuer and (if applicable) the Guarantor and does not assume any obligation or duty to, or any relationship of agency or trust for or with,

the Holders and any determinations and calculations by the Principal W&C Instrument Agent or Registrar in respect of the W&C Instruments shall (save in the case of manifest or proven error) be final, conclusive and binding on the Issuer, (if applicable) the Guarantor and the Holders.

(B) *Calculation Agent*

In relation to each issue of W&C Instruments, the Calculation Agent (whether it be Merrill Lynch International, BofA Securities Europe SA or another entity) acts solely as agent of the Issuer and (if applicable) the Guarantor and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Holders. All calculations and determinations made in respect of the W&C Instruments by the Calculation Agent shall be in its sole and absolute discretion (unless, in respect of the particular calculation or determination to be made, the Terms and Conditions provide that it shall be made in a "commercially reasonable manner"), in good faith, and shall (save in the case of manifest or proven error) be final, conclusive and binding on the Issuer, (if applicable) the Guarantor, the Principal W&C Instrument Agent and the Holders. The Calculation Agent shall promptly notify the Issuer and the Principal W&C Instrument Agent upon any such calculations and determinations, and (in the absence of wilful default, bad faith or manifest or proven error) no liability to the Issuer, (if applicable) the Guarantor, the Principal W&C Instrument Agent or the Holders shall attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions pursuant to such provisions.

The Calculation Agent may, with the consent of the Issuer, delegate any of its obligations and functions to a suitably competent third party of good standing as it deems appropriate.

(C) *Determinations by the Issuer*

Any determination made by the Issuer pursuant to these Terms and Conditions shall (save in the case of manifest or proven error) be final, conclusive and binding on the Principal W&C Instrument Agent, the Registrar and the Holders.

(D) *Modifications and Meetings Provisions*

The English Law Agency Agreement contains provisions for convening meetings of the Holders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of the Terms and Conditions of the W&C Instruments or any of the provisions of the English Law Agency Agreement. Such a meeting may be convened by the Issuer or (if applicable) the Guarantor and shall be convened by the Issuer if required in writing by the Holders holding not less than 33 per cent. (by number) of the W&C Instruments of the relevant Series for the time being remaining unexercised. The quorum at any such meeting for passing an Extraordinary Resolution is one or more persons present and holding or representing in the aggregate not less than 50 per cent. (by number) of the W&C Instruments of the relevant Series for the time being unexercised, or at any adjourned meeting one or more persons present whatever the number of the W&C Instruments so held or represented by them, except that at any meeting the business of which includes the modification of certain provisions of the Terms and Conditions of the W&C Instruments (including modifying the Exercise Date, reducing or cancelling the Cash Settlement Amount or the Entitlement or the additional amount payable (if applicable) or altering the Cash Settlement Currency), the quorum shall be one or more persons present and holding or representing not less than two-thirds (by number) of the W&C Instruments of the relevant Series for the time being unexercised, or at any adjourned such meeting one or more persons present and holding or representing not less than one-third (by number) of the W&C Instruments of the relevant Series for the time being unexercised. An Extraordinary Resolution passed at any meeting of the Holders shall be binding on all Holders, whether or not they are present at the meeting.

An Extraordinary Resolution may also be effected in writing signed or electronically approved using the systems or procedures in place from time to time at a relevant clearing system by or on behalf of all the Holders.

The Principal W&C Instrument Agent and the Issuer may agree, without the consent of the Holders, to:

- (a) any modification (except as mentioned above) of the W&C Instruments or English Law Agency Agreement which is not, in the opinion of the Issuer, prejudicial to the interests of the Holders; or
- (b) any modification of the W&C Instruments or the English Law Agency Agreement which is of a formal, minor or technical nature or is made to correct a manifest or proven error or to comply with mandatory provisions of the law.

Any such modification shall be binding on the Holders and any such modification shall be notified to the Holders in accordance with Condition 12 (*Notices*) as soon as practicable thereafter.

12. Notices

- (a) In the case of W&C Instruments represented by a Global W&C Instrument, all notices to Holders shall be valid: (i) if delivered to each relevant Clearing System, for communication by them to the Holders; (ii) if and so long as the W&C Instruments are admitted to trading on, and listed on any stock exchange or are admitted to trading by another relevant authority, if delivered in accordance with the rules and regulations of the relevant stock exchange or other relevant authority; and (iii) as otherwise specified in the applicable Final Terms.

If the W&C Instruments are admitted to trading on the Luxembourg Stock Exchange's Euro MTF and listed on the Official List of the Luxembourg Stock Exchange, notices shall be published on the website of the Luxembourg Stock Exchange (www.luxse.com).

- (b) In the case of Definitive W&C Instruments, notices to the Holders will be deemed to be validly given if posted to the Holders of such Definitive W&C Instruments at their respective addresses in the Register.

Any such notice shall be deemed to have been given: (i) in the case of W&C Instruments admitted to trading on the Luxembourg Stock Exchange's Euro MTF and listed on the Official List of the Luxembourg Stock Exchange, on the date of first publication, or where required to be published in more than one newspaper, on the date of the first publication in all required newspapers; (ii) in the case of W&C Instruments which are held through a Clearing System, on the day on which such notice is delivered to the relevant Clearing System; (iii) in the case of W&C Instruments which are not held through a Clearing System, on the second Business Day following such publication; (iv) or in the case of Definitive W&C Instruments, if sent by post, on the fourth weekday (being a day other than Saturday or Sunday) after the date of mailing.

13. Expenses and Taxation

- (a) A Holder of W&C Instruments must pay all taxes, duties and/or expenses, including any applicable depositary charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities transfer and/or other taxes or duties arising from the exercise and settlement of such W&C Instruments and/or, if applicable, the delivery of the Entitlement pursuant to the terms of such W&C Instruments (together "**Expenses**").
- (b) The Issuer shall not be liable for or otherwise obliged to pay any tax, duty, withholding or other payment which may arise as a result of the ownership, transfer, exercise or enforcement of any W&C Instrument by any person and all payments made by the Issuer shall be made subject to any such tax, duty, withholding or other payment which may be required to be made, paid, withheld or deducted.

14. **Further Issues**

The Issuer shall be at liberty from time to time without the consent of Holders to create and issue further W&C Instruments so as to be consolidated with and form a single Series with the outstanding W&C Instruments.

15. **Substitution of the Issuer, Consolidation and Merger**

(A) *Substitution of the Issuer*

The Issuer, or any previous substituted company or other entity, may, at any time, without the consent of the Holders, substitute for itself as principal obligor under the W&C Instruments any company or other entity (the "**Substitute**") being the Guarantor or any of its other subsidiaries, subject to:

- (i) (except in the case of the substitution of the Guarantor), the W&C Instruments (other than the Secured W&C Instruments) being guaranteed by the Guarantor on the same terms, *mutatis mutandis*, as the W&C Instruments (other than the Secured W&C Instruments);
- (ii) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the W&C Instruments represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done and are in full force and effect;
- (iii) the Substitute shall have become party to the English Law Agency Agreement, with any appropriate consequential amendments, as if it had been an original party to it;
- (iv) the Substitute and the Issuer shall have obtained legal opinions from independent legal advisers of recognised standing in the country of incorporation or other form of organisation of the Substitute, and (if the Guarantor is not the Substitute and other than in respect of Secured W&C Instruments) the States of Delaware and New York and England, that the obligations of the Substitute and (if the Guarantor is not the Substitute and other than in respect of Secured W&C Instruments) the Guarantor are legal, valid and binding obligations, that all consents and approvals as aforesaid have been obtained;
- (v) the Issuer shall have given at least 30 calendar days' prior notice of the date of such substitution to the Holders in accordance with Condition 12 (*Notices*);
- (vi) each stock exchange or market on which the W&C Instruments are listed or admitted to trading shall have confirmed that, following the proposed substitution by the Substitute, the W&C Instruments will continue to be listed or admitted to trading on such stock exchange(s) or such market(s), as the case may be; and
- (vii) if appropriate, the Substitute shall have appointed a process agent as its agent in England to receive service of process on its behalf in relation to any legal action or proceedings arising out of or in connection with the W&C Instruments.

(B) *Consolidation or Merger*

The Issuer or (if applicable) the Guarantor may not consolidate with, or sell or convey all or substantially all of its assets to, or merge with or into any other entity, other than in the case of the Guarantor, a sale or conveyance of all or substantially all of its assets to one or more Subsidiaries (as defined below), unless (a) in the case of the Issuer, either the Issuer shall be the continuing company, or the successor entity (if other than the

Issuer) shall expressly assume the due and punctual payment of all amounts or delivery of all assets, as the case may be, payable or deliverable, as applicable, with respect to the W&C Instruments, according to their tenor, and the due and punctual performance and observance of all of the obligations under the Conditions to be performed by the Issuer by an amendment to the English Law Agency Agreement executed by, *inter alios*, such successor entity, the Guarantor and the Principal W&C Instrument Agent, and (b) in the case of the Guarantor and, with respect to W&C Instruments other than Secured W&C Instruments, the Guarantor shall be the continuing company, or the successor entity (if other than the Guarantor) shall be organised and existing under the laws of the United States or a state thereof or the District of Columbia and such successor entity shall expressly assume (i) the due and punctual payment of all amounts or delivery of all assets, as the case may be, payable or deliverable, as applicable, with respect to the MLBV Guarantee by the execution of a new guarantee of like tenor. In case of any such consolidation, merger, sale or conveyance and upon any such assumption by the successor entity, such successor entity shall succeed to and be substituted for the Issuer or (if applicable) the Guarantor, as the case may be, with the same effect as if it had been named herein as the Issuer or (if applicable) the Guarantor, as the case may be, and the Issuer or (if applicable) the Guarantor, as the case may be, except in the event of a conveyance by way of lease, shall be relieved of any further obligations under the Conditions, the English Law Agency Agreement and (if applicable) the MLBV Guarantee, as applicable.

"**Subsidiary**" means any entity of which more than 50% of the voting power of the outstanding ownership interests (excluding ownership interests entitled to voting power only by reason of the happening of a contingency) shall at the time be owned, directly or indirectly, by the Guarantor, or one or more Subsidiaries, or by the Guarantor and one or more Subsidiaries. For this purpose, "**voting power**" means power to vote in an ordinary election of directors (or, in the case of an entity that is not a corporation, ordinarily to appoint or approve the appointment of entities holding similar positions).

(C) *Transfer Upon Insolvency*

Nothing in this Condition 15 (*Substitution of the Issuer, Consolidation and Merger*) shall prohibit the transfer of the MLBV Guarantee or any interest or obligation of the Guarantor in or under the MLBV Guarantee to another entity as transferee as part of the resolution, restructuring, or reorganisation of the Guarantor upon or following the Guarantor becoming subject to a receivership, insolvency, liquidation, resolution, or similar proceeding.

16. **Governing Law and Submission to Jurisdiction**

(A) *Governing law*

The W&C Instruments, Global W&C Instruments, Definitive W&C Instruments, the English Law Agency Agreement and the W&C Instruments Deed of Covenant and any non-contractual obligations arising out of the W&C Instruments, Global W&C Instruments, Definitive W&C Instruments, the English Law Agency Agreement and the W&C Instruments Deed of Covenant (including without limitation any dispute, controversy, proceedings or claim of whatever nature (whether contractual, non-contractual or otherwise) arising out of or in any way relating to the W&C Instruments, Global W&C Instruments, Definitive W&C Instruments, the English Law Agency Agreement and the W&C Instruments Deed of Covenant or their respective formation) shall be governed by, and construed in accordance, with English law.

The MLBV Guarantee is governed by, and shall be construed in accordance with, the laws of the State of New York, United States, applicable to agreements made and to be performed wholly within such jurisdiction without regard to principles of conflicts of laws.

(B) *Submission to jurisdiction*

In relation to any legal action or proceedings arising out of or in connection with the W&C Instruments and the Global W&C Instruments ("**Proceedings**"), (other than in respect of the Deed of Charge and relevant Charged Documents relating to any Secured Instruments as specified therein), the courts of England have exclusive jurisdiction and the Issuer and the Holders submit to the exclusive jurisdiction of the English courts. The Issuer and the Holders waive any objection to Proceedings in the English courts on the grounds of venue or that the Proceedings have been brought in an inconvenient forum.

For greater certainty, the Guarantor has not submitted to the jurisdiction of the English courts in the MLBV Guarantee, and claims under the MLBV Guarantee are required to be instituted in the courts of the State of New York or the courts of the United States of America located in the Borough of Manhattan in the City and State of New York, United States.

(C) *Express Acknowledgement of the U.S. Special Resolution Regimes*

In the event the Issuer, the Guarantor or, in respect of Secured Instruments, the Secured Instruments Collateral Provider, becomes subject to a proceeding under the U.S. Federal Deposit Insurance Act or Title II of the U.S. Dodd-Frank Wall Street Reform and Consumer Protection Act (each, a "**U.S. Special Resolution Regime**"), the transfer of the Instruments and/or the MLBV Guarantee (together, the "**Relevant Obligations**"), and the transfer of any interest and obligation in or under, and any property securing, the Relevant Obligations, from the Issuer, the Guarantor or, in respect of Secured Instruments, the Secured Instruments Collateral Provider, respectively, will be effective to the same extent as the transfer would be effective under such U.S. Special Resolution Regime if the Relevant Obligations, and any interest and obligation in or under, and any property securing, the Relevant Obligations, were governed by the laws of the United States or a state of the United States. In the event the Issuer, the Guarantor or, in respect of Secured Instruments, the Secured Instruments Collateral Provider, or any of their affiliates (as such term is defined in, and interpreted in accordance with, 12 U.S.C. § 1841(k)) becomes subject to a proceeding under a U.S. Special Resolution Regime, default rights against the Issuer, the Guarantor or, in respect of Secured Instruments, the Secured Instruments Collateral Provider, with respect to the Relevant Obligations are permitted to be exercised to no greater extent than such default rights could be exercised under such U.S. Special Resolution Regime if the Relevant Obligations were governed by the laws of the United States or a state of the United States. For purposes of this paragraph, "default right" has the meaning assigned to that term in, and shall be interpreted in accordance with, 12 C.F.R. § 252.81, 12 C.F.R. § 382.1 and 12 C.F.R. § 47.1, as applicable.

(D) *Appointment of Process Agent*

The Issuer hereby appoints Bank of America, National Association, London Branch currently at 2 King Edward Street, London EC1A 1HQ (Att: General Counsel EMEA) as its agent in England to receive service of process in any Proceedings in England. If for any reason such process agent ceases to act as such or no longer has an address in England, the Issuer agrees to appoint a substitute process agent and to notify the Holders of such appointment. Nothing herein shall affect the right to serve process in any other manner permitted by law.

17. **Adjustments for European Economic and Monetary Union**

The Issuer may, without the consent of the Holders, on giving notice to the Holders in accordance with Condition 12 (*Notices*):

- (a) elect that, with effect from the Adjustment Date specified in the notice, certain terms of the W&C Instruments shall be redenominated in euro.

The election will have effect as follows:

- (i) where the Settlement Currency of the W&C Instruments is the National Currency Unit of a country which is participating in the third stage of European Economic and Monetary Union, such Settlement Currency shall be deemed to be an amount of euro converted from the original Settlement Currency into euro at the Established Rate, subject to such provisions (if any) as to rounding as the Calculation Agent may decide and as may be specified in the notice, and after the Adjustment Date, all payments of the Cash Settlement Amount in respect of the W&C Instruments will be made solely in euro as though references in the W&C Instruments to the Settlement Currency were to euro;
 - (ii) where the Exchange Rate and/or any other terms of these Terms and Conditions are expressed in or, in the case of the Exchange Rate, contemplate the exchange from or into, the currency (the "**Original Currency**") of a country which is participating in the third stage of European Economic and Monetary Union, such Exchange Rate and/or any other terms of these Terms and Conditions shall be deemed to be expressed in or, in the case of the Exchange Rate, converted for or, as the case may be into, euro at the Established Rate; and
 - (iii) such other changes shall be made to these Terms and Conditions as the Issuer may decide, in its sole and absolute discretion to conform them to conventions then applicable to instruments expressed in euro; and/or
- (b) require that the Calculation Agent make such adjustments to the Multiplier and/or, in the case of Warrants, the Exercise Price and/or any other terms of these Terms and Conditions and/or the applicable Final Terms as the Calculation Agent, in its sole discretion, may determine to be appropriate to account for the effect of the third stage of European Economic and Monetary Union on the Multiplier and/or, in the case of Warrants, the Exercise Price and/or such other terms of these Terms and Conditions.

Notwithstanding the foregoing, none of the Issuer, any of its Affiliates or agents, the Calculation Agent, any W&C Instrument Agent and the Registrar shall be liable to any Holder or other person for any commissions, costs, losses or expenses in relation to or resulting from the transfer of euro or any currency conversion or rounding effected in connection therewith.

In this Condition, the following expressions have the following meanings:

"Adjustment Date" means a date specified by the Issuer in the notice given to the Holders pursuant to this Condition which falls on or after the date on which the country of the Original Currency first participates in the third stage of European Economic and Monetary Union pursuant to the Treaty;

"Established Rate" means the rate for the conversion of the Original Currency (including compliance with rules relating to rounding in accordance with applicable European Community regulations) into euro established by the Council of the European Union pursuant to first sentence of Article 1091(4) of the Treaty;

"euro" means the lawful single currency of the member states of the European Union that have adopted and continue to retain a common single currency through monetary union in accordance with European Union treaty law (as amended from time to time);

"National Currency Unit" means the unit of the currency of a country, as those units are defined on the date on which the country of the Original Currency first participates in European Economic and Monetary Union; and

"Treaty" means the treaty establishing the European Community, as amended from time to time.

18. **Contracts (Rights of Third Parties) Act 1999**

The W&C Instruments do not confer on any third party any rights under the Contracts (Rights of Third Parties) Act 1999 (the "Act") to enforce any term of the W&C Instruments, but this does not affect any right or remedy of a third party which exists or is available apart from the Act.

19. **Determination of Rate Reference Items**

If so specified in the applicable Final Terms, amounts payable or any determination required to be made in respect of a Series of W&C Instruments may be determined directly or indirectly by reference to EURIBOR, BBSW, KRW CD 91 Rate, TORF, the EUR EURIBOR ICE Swap Rate®, the GBP SONIA ICE Swap Rate®, the U.S. Dollar SOFR ICE Swap Rate®, the Tokyo Swap Rate (for swaps referencing TONA) or TONA TSR, the KRW CMS Rate, a Constant Maturity Swap Rate, Compounded Daily SOFR, Compounded Daily SONIA, Compounded Daily TONA, SOFR, SONIA and/or TONA (each as defined in Annex 17 and, together, the "**Rate Reference Items**"). Conditions 21 (*Definitions (Warrants)*), 22 (*Form of Warrants*), 23 (*Style and Title (Warrants)*), 24 (*Exercise Rights (Warrants)*), 25 (*Exercise Procedure (Warrants)*) and 26 (*Additional Amounts*) apply to Warrants only.

21. **Definitions (Warrants)**

For the purposes of the Warrants:

"**Exercise Business Day**" means a day that is a Business Day and, in the case of an Index Linked Warrant or Share Linked Warrant, a Scheduled Trading Day.

"**Exercise Period**" has the meaning given in the applicable Final Terms.

"**Expiration Date**" means the last Exercise Business Day of the Exercise Period.

"**Index Linked Warrant**" means a Warrant relating to a specified index or a basket of indices.

"**In-The-Money**" means:

- (a) in the case of a Cash Settled Warrant, the Cash Settlement Amount in respect of such Warrant is greater than zero; and
- (b) in the case of a Physical Delivery Warrant, the value of the Entitlement on the Actual Exercise Date for such Warrant is greater than the Exercise Price as determined by the Calculation Agent.

"**Physical Delivery Warrant**" means a Warrant redeemed by physical delivery; and

"**Share Linked Warrant**" means a Warrant relating to a specified share or a basket of shares.

22. **Form of Warrants**

If the Warrants are to be issued into and transferred through accounts at Euroclear and Clearstream, Luxembourg, and are not eligible for sale in the United States or to, or for the account or benefit of, U.S. persons, such Series of Warrants will on issue be constituted by a global registered warrant (the "**Euroclear/CBL Global Registered Warrant**"), which will be deposited with, and registered in the name of the nominee of, the Common Depositary.

The Euroclear/CBL Global Registered Warrants are referred to herein as the "**Global Warrants**" and each a "**Global Warrant**".

Euroclear/CBL Global Registered Warrants will be exchangeable in whole, but not in part, for individual warrant certificates:

- (a) on the expiry of such period of notice as may be specified in the applicable Final Terms; or
- (b) at any time, if so specified in the applicable Final Terms; or
- (c) if the Issuer has been notified that both Euroclear and Clearstream, Luxembourg have been closed for business for a continuous period of 14 calendar days (other than by reason of holiday, statutory or otherwise) or have announced an intention permanently to cease business or have in fact done so and, in any such case, no successor clearing system is available; or
- (d) if the Issuer or the Guarantor has or will become subject to adverse tax consequences which would not be suffered were the Warrants held in definitive form.

Whenever the Euroclear/CBL Global Registered Warrant is to be exchanged for individual warrant certificates, such individual warrant certificates shall be issued in equal number to the number of Warrants represented by the Global Warrant within five Business Days of the delivery, by or on behalf of the registered holder of the Euroclear/CBL Global Registered Warrant to the Principal W&C Instrument Agent of such information as is required to complete and deliver such individual warrant certificates (including, without limitation, the names and addresses of the persons in whose names the individual warrant certificates are to be registered and the principal amount of each such person's holding) against the surrender of the Euroclear/CBL Global Registered Warrant at the specified office of the Principal W&C Instrument Agent.

Such exchange will be effected in accordance with the provisions of the English Law Agency Agreement and the regulations concerning the transfer and registration of Warrants scheduled thereto and, in particular, shall be effected without charge to any Holder, but against such indemnity as the Principal W&C Instrument Agent may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) individual warrant certificates have not been delivered by 5.00 p.m. (London time) on the thirtieth calendar day after they are due to be issued and delivered in accordance with the terms of the Euroclear/CBL Global Registered Warrant; or
- (b) the date for final settlement of the Warrants has occurred and payment in full of all amounts due has not been made to the Holder of the Euroclear/CBL Global Registered Warrant on the due date for payment in accordance with the terms of the Euroclear/CBL Global Registered Warrant,

Under the W&C Instruments Deed of Covenant, each Holder is entitled to exercise or enforce in respect of each Warrant held by him, the rights and obligations attaching to the relevant Warrant as set out in, and subject to, the W&C Instruments Deed of Covenant, the Conditions and the applicable Final Terms issued in respect of such Warrants.

Linked Warrants and (iii) the Credit Cut-Off Date, in the case of Credit Linked Warrants. The Exercise Notice shall include the applicable information set out in the Exercise Notice referred to in Condition 25(A)(a). The Business Day during the period from the Expiration Date or the Actual Exercise Date, as the case may be, until the Cut-Off Date on which an Exercise Notice is delivered to Euroclear, Clearstream, Luxembourg, as the case may be, and a copy thereof delivered to Merrill Lynch International or BofA Securities Europe SA, as the case may be, by the Principal W&C Instrument Agent, is referred to in this Condition as the "**Exercise Notice Delivery Date**", provided that if the Exercise Notice is delivered to Euroclear or Clearstream, Luxembourg, as the case may be, and a copy thereof delivered to the Principal W&C Instrument Agent at or after 10.00 a.m., Brussels, Luxembourg or London time (as appropriate) on a Business Day, the Exercise Notice Delivery Date shall be deemed to be the next succeeding Business Day.

Subject to the relevant Holder performing its obligations in respect of the relevant Warrant or Unit, as the case may be, in accordance with these Terms and Conditions, the Settlement Date for such Warrants or Units, as the case may be, shall be (i) in the case of Cash Settled Warrants, the fourth Business Day following the Exercise Notice Delivery Date and (ii) in the case of Physical Delivery Warrants and subject to Conditions 5(B) and 5(C), the fourth Settlement Business Day following the Exercise Notice Delivery Date. In the event that a Holder does not so deliver an Exercise Notice in accordance with this Condition prior to 10.00 a.m. Brussels, Luxembourg or London time (as appropriate) on the Cut-Off Date, such Warrants shall expire worthless, and the Issuer's obligations in respect of such Warrants and, with respect to Warrants other than Secured W&C Instruments, the Guarantor's obligations in respect of the MLBV Guarantee shall be discharged and no further liability in respect thereof shall attach to the Issuer or (if applicable) the Guarantor.

Notwithstanding the foregoing, an Exercise Notice is not required in the case of Cash Settled Warrants if Automatic Exercise is specified in the applicable Final Terms in order to receive the Cash Settlement Amount, provided that the Warrants are not Rule 144A Warrants.

(F) *Minimum and Maximum Number of Warrants Exercisable*

(a) American Style Warrants

This paragraph (a) applies only to American Style Warrants:

- (i) The number of Warrants exercisable by any Holder on any Actual Exercise Date, as determined by the Issuer, must not be less than the Minimum Exercise Number specified in the applicable Final Terms and, if specified in the applicable Final Terms, if a number greater than the Minimum Exercise Number, must be an integral multiple of the number specified in the applicable Final Terms. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and of no effect.
- (ii) If the Issuer determines that the number of Warrants being exercised on any Actual Exercise Date by any Holder or a group of Holders (whether or not acting in concert) exceeds the Maximum Exercise Number (a number equal to the Maximum Exercise Number being the "**Quota**"), the Issuer may deem the Actual Exercise Date for the first Quota of such Warrants, selected at the discretion of the Issuer, to be such day and the Actual Exercise Date for each additional Quota of such Warrants (and any remaining number thereof) to be each of the succeeding Exercise Business Days until all such Warrants have been attributed with an Actual Exercise Date, provided, however, that the deemed Actual Exercise Date for any such Warrants which would thereby fall after the Expiration Date shall fall on the Expiration Date. In any case where more than the Quota of Warrants are exercised on the same day by Holder(s), the order of settlement in respect of such Warrants shall be at the sole discretion of the Issuer.

(b) European Style Warrants

This paragraph (b) applies only to European Style Warrants:

The number of Warrants exercisable by any Holder on any Exercise Date as determined by the Issuer must not be less than the Minimum Exercise Number specified in the applicable Final Terms and, if specified in the applicable Final Terms, if a number greater than the Minimum Exercise Number, must be an integral multiple of the number specified in the applicable Final Terms. Any Exercise Notice which purports to exercise Warrants in breach of this provision shall be void and be of no effect.

26. **Additional Amounts**

(A) *Calculation of Additional Amounts*

If so specified in the applicable Final Terms, each Warrant pays additional amounts from and including the Issue Date at the Additional Amount Rate payable in arrear on each Additional Amount Payment Date.

The additional amount payable in respect of each Warrant on each Additional Amount Payment Date will amount to the Additional Amount for the Additional Amount Period ending on (but excluding) such Additional Amount Payment Date.

If an additional amount is required to be calculated for a period ending other than on (but excluding) an Additional Amount Payment Date, it will be calculated on the basis of the number of calendar days from and including the most recent Additional Amount Payment Date (or, if none, the Issue Date) to but excluding the relevant payment date and the Additional Amount Rate Day Count Fraction.

(B) *Accrual of Additional Amounts*

Each Warrant will cease to accrue additional amounts from and including the Additional Amount Cut-Off Date or, if earlier, the date on which the Warrants are cancelled (the "**Cancellation Date**"), if applicable, in accordance with these Terms and Conditions unless payment of the amount and/or delivery of any Entitlement due on the Settlement Date or Cancellation Date, as the case may be, is improperly withheld or refused or unless default is otherwise made in respect of the payment or delivery in which case additional amount(s) shall accrue from the date such amount or delivery of such Entitlement was due until such amount or delivery of such Entitlement is paid or delivered, as the case may be provided that:

- (a) if "**Accrual of Additional Amounts upon Credit Event**" is specified as not applicable in the applicable Final Terms, each Warrant shall cease to accrue additional amount from the Additional Amount Payment Date or, if applicable, the Additional Amount Cut-Off Date, immediately preceding the Event Determination Date, or if the Event Determination Date is an Additional Amount Payment Date or, if applicable, the Additional Amount Cut-Off Date, such date (or, in the case of the Event Determination Date falling on or after the Actual Exercise Date (which is an Additional Amount Payment Date), the Additional Amount Payment Date immediately preceding the Actual Exercise Date or, if applicable, the Additional Amount Cut-Off Date corresponding to such Additional Amount Payment Date) or, if the Event Determination Date falls prior to the first Additional Amount Payment Date or, if applicable, the Additional Amount Cut-Off Date, no additional amount shall accrue on the Warrants; or
- (b) if "**Accrual of Additional Amounts upon Credit Event**" is specified as being applicable in the applicable Final Terms, each Warrant shall cease to accrue additional amounts from the Event Determination Date.

For the avoidance of doubt, no additional amount on the Warrants shall accrue beyond the Exercise Date in the event that delivery of any Entitlement is postponed due to the occurrence of a Settlement Disruption Event.

(C) *Payment of Additional Amounts*

Where the Warrants pay additional amounts as specified in the applicable Final Terms, subject as provided below, the Issuer or failing the Issuer, the Guarantor shall pay or cause to be paid the Additional Amount for each Warrant in respect of each Additional Amount Payment Date by credit or transfer to the Holder's account with the relevant Clearing System for value on the relevant Additional Amount Payment Date, such payment to be made in accordance with the rules of the relevant Clearing System.

The Issuer or the Guarantor, as applicable, will be discharged by payment to, or to the order of, the relevant Clearing System in respect of the amount so paid. Each of the persons shown in the records of the relevant Clearing System as the holder of a particular amount of the Warrants must look solely to such Clearing System for his share of each such payment so made to, or to the order of, the relevant Clearing System.

Payments will be subject in all cases to any fiscal or other laws and regulations applicable thereto in the place of payment.

27. **Terms applicable to Certificates only**

Conditions 28 (*Definitions (Certificates)*), 29 (*Form of Certificates*), 30 (*Type and Title (Certificates)*), 31 (*Exercise Rights (Certificates)*), 32 (*Collection Notices and Settlement (Certificates)*) and 33 (*Additional Amounts*) apply to Certificates only.

28. **Definitions (Certificates)**

For the purposes of the Certificates:

"**Global W&C Instrument**" means, as the context so requires, a Global Certificate.

29. **Form of Certificates**

If the Certificates are to be issued into and transferred through accounts at Euroclear and Clearstream, Luxembourg ("**Euroclear/CBL Certificates**"), such Series of Euroclear/CBL Certificates will on issue be constituted by a global certificate in registered form (the "**Euroclear/CBL Global Registered Certificate**"), which will be deposited with a depository common to Euroclear and Clearstream, Luxembourg and registered in the name of the nominee of such depository.

The Euroclear/CBL Global Registered Certificates are referred to herein as "**Global Certificates**" and each a "**Global Certificate**".

Euroclear/CBL Global Registered Certificates will be exchangeable in whole, but not in part, for individual certificates:

- (a) on the expiry of such period of notice as may be specified in the applicable Final Terms; or
- (b) at any time, if so specified in the applicable Final Terms; or
- (c) if the Issuer has been notified that Euroclear or Clearstream, Luxembourg or any other relevant clearing system is closed for business for a continuous period of 14 calendar days (other than by reason of holiday, statutory or otherwise) or has announced an intention permanently to cease business or has in fact done so and no alternative clearing system approved by the Holders of the Certificates is available.

Whenever the Euroclear/CBL Global Registered Certificate is to be exchanged for individual certificates, the Issuer shall procure that individual certificates will be issued in number or nominal amount equal to the number or nominal amount of the Euroclear/CBL Global Registered Certificates then outstanding within five Business Days of the delivery, by or on behalf of the registered holder of the Euroclear/CBL Global Registered Certificate to the Principal W&C Instrument Agent of such information as is required to complete and deliver such individual warrant certificates (including, without limitation, the names and addresses of the persons in whose names the individual warrant certificates are to be registered and the number or nominal amount of each such person's holding) against the surrender of the Euroclear/CBL Global Registered Certificate at the specified office of the Principal W&C Instrument Agent.

Such exchange will be effected in accordance with the provisions of the English Law Agency Agreement and the regulations concerning the transfer and registration of Certificates scheduled thereto and, in particular, shall be effected without charge to any holder, but against such

indemnity as the Principal W&C Instrument Agent may require in respect of any tax or other duty of whatsoever nature which may be levied or imposed in connection with such exchange.

If:

- (a) individual certificates have not been delivered by 5.00 p.m. (London time) on the thirtieth calendar day after they are due to be issued and delivered in accordance with the terms of the Euroclear/CBL Global Registered Certificate; or
- (b) the date for final settlement of the Certificates has occurred and payment in full of all amounts due has not been made to the Holder of the Euroclear/CBL Global Registered Certificate on the due date for payment in accordance with the terms of the Euroclear/CBL Global Registered Certificate,

then the Euroclear/CBL Global Registered Certificate (including the obligation to deliver individual certificates) will become void at 5.00 p.m. (London time) on such thirtieth calendar day (in the case of (a) above) or at 5.00 p.m. (London time) on such due date (in the case of (b) above) and the holder of the Euroclear/CBL Global Registered Certificate will have no further rights thereunder (but without prejudice to the rights which the holder of the Euroclear/CBL Global Registered Certificate or others may have under the W&C Instruments Deed of Covenant). Under the W&C Instruments Deed of Covenant, each Holder is entitled to exercise or enforce in respect of each Certificate held by him, the rights and obligations attaching to the relevant Certificate as set out in, and subject to, the W&C Instruments Deed of Covenant, the Conditions and the applicable Final Terms issued in respect of such Certificates.

30. Type and Title (Certificates)

(A) *Definitive Registered Certificates*

Transfers of Definitive Registered Certificates are effected upon (i) the surrender (at the specified office of the Principal W&C Instrument Agent) of the individual certificate representing such Definitive Registered Certificates to be transferred, together with the form of transfer (which shall be available at the specified office of the Principal W&C Instrument Agent) endorsed on such individual certificate (or another form of transfer substantially in the same form and containing the same representations and certifications (if any), unless otherwise agreed by the Issuer), duly completed and executed and any other evidence as the Principal W&C Instrument Agent may reasonably require, (ii) the recording of such transfer in the Register and (iii) the issuance of a new individual certificate to the transferee.

(ii) *Part Transfer of Definitive Registered Certificates*

In the case of a transfer of part only of a holding of a Definitive Registered Certificate represented by one individual certificate, a new individual certificate shall be issued to the transferee in respect of the part transferred and a further new individual certificate in respect of the balance of the holding not transferred shall be issued to the transferor.

(B) *Delivery of New Individual Certificates*

Each new individual certificate to be issued pursuant to this Condition 30 (*Type and Title (Certificates)*) shall be available for delivery within three Business Days of receipt of the form of transfer and surrender of the individual certificate for exchange. Delivery of the new individual certificate(s) shall be made at the specified office of the Principal W&C Instrument Agent to whom delivery or surrender of such request for exchange, form of transfer, or individual certificate shall have been made or, at the option of the Holder making such delivery or surrender as aforesaid and as specified in the relevant request for exchange, form of transfer or otherwise in writing, be mailed by uninsured post at the risk of the Holder entitled to the new individual certificate to such address as may be so

specified, unless such Holder requests otherwise and pays in advance to the Principal W&C Instrument Agent the costs of such other method of delivery and/or such insurance as it may specify.

(C) *Closed Periods in respect of Definitive Registered Certificates*

No Holder may require the transfer of a Definitive Registered Certificate to be registered:

- (i) during the period of 15 calendar days before any date on which Certificates may be called for cancellation and settlement by the Issuer at its option pursuant to Condition 31(C) (*Issuer Call Option*);
- (ii) after any such Certificate has been called for cancellation or settlement; or
- (iii) during the period of seven calendar days ending on (and including) any Settlement Record Date or Additional Amount Payment Record Date.

(D) *Exchange Free of Charge*

Exchange and transfer of Certificates on registration, transfer, cancellation, settlement or exercise of an option (as applicable) shall be effected without charge by or on behalf of the Issuer or the Principal W&C Instrument Agent, as applicable, but upon payment of any tax or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as the Principal W&C Instrument Agent may require).

31. **Exercise Rights (Certificates)**

(A) *Certificates other than Credit Linked Certificates*

Certificates other than Credit Linked Certificates shall be automatically exercised on the Actual Exercise Date. If the Certificates are Cash Settled Certificates, each such Certificate entitles its Holder to receive from the Issuer on the Settlement Date the Cash Settlement Amount. If the Certificates are Physical Delivery Certificates, each such Certificate entitles its Holder, subject to certification as to non-U.S. beneficial ownership and to the provisions of Condition 32(A), to receive from the Issuer on the Settlement Date the Entitlement subject to payment of any Expenses.

Unless otherwise specified in the applicable Final Terms, the Entitlement will be evidenced by the delivery of the Entitlement to the securities account with the Physical Delivery Clearing System or in such other manner as shall have been specified by the Holder in the relevant Collection Notice. The Issuer, (if applicable) the Guarantor and the Calculation Agent shall be under no obligation to register or procure the registration of a Holder in the register of members/holders of the Share Company or the Fund (as the case may be).

Unless otherwise specified in the applicable Final Terms, the Entitlement will be delivered to such securities account with the Physical Delivery Clearing System or in such other manner as shall have been specified by the Holder in the relevant Collection Notice, provided that, if, in the opinion of the Issuer, delivery of the Entitlement to the Holder in the manner specified by the Holder or through the Physical Delivery Clearing System specified by the Holder is not commercially reasonable, the Issuer shall deliver the Entitlement to the Holder through a clearing system which the Issuer determines to be commercially reasonable for such delivery and references to "Physical Delivery Clearing System" shall be deemed to be references to such clearing system selected by the Issuer. For the avoidance of doubt, the Issuer or, with respect to Certificates other than Secured W&C Instruments, the Guarantor will be fully discharged of any and all obligations with respect to delivery of the Entitlement by making delivery in the manner specified by the Holder in the relevant Collection Notice.

Unless otherwise specified in the applicable Final Terms, Certificates of the same Holder automatically exercised and in respect of which a Collection Notice (as defined below) has been duly given as provided in Condition 31(A), will be aggregated for the purpose

of determining the aggregate Entitlements in respect of such Certificates, provided that the aggregate Entitlements will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Therefore, fractions of the Relevant Asset or of each of the Relevant Assets, as the case may be, will not be delivered and in lieu thereof a cash adjustment calculated by the Calculation Agent in its sole and absolute discretion shall be paid to the Holder.

Following exercise of a Certificate relating to a specified share or a basket of shares or an Certificate relating to a specified index or a basket of indices, which is a Physical Delivery Certificate, all dividends on the relevant Shares or Fund Shares (as the case may be) to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the Shares or Fund Shares (as the case may be) executed on the Actual Exercise Date and to be delivered in the same manner as such relevant Shares or Fund Shares (as the case may be). Any such dividends to be paid to a Holder will be paid to the account specified by the Holder in the relevant Collection Notice as referred to in Condition 32(A)(a)(1)(v) or Condition 32(A)(b)(1)(iii) as applicable.

The expressions "exercise", "due exercise" and related expressions shall be construed to apply to any Certificates which are automatically exercised on the Actual Exercise Date in accordance with this provision.

(B) *Credit Linked Certificates*

Credit Linked Certificates shall be automatically exercised on the Long Exercise Date or the Short Exercise Date (as the case may be) in accordance with Credit Linked W&C Instruments Condition 3.

(C) *Issuer Call Option*

If Issuer Call Option is specified as applicable in the applicable Final Terms the Issuer may, having given not less than 10 nor more than 60 calendar days' notice (or such other Issuer Call Option Notice Period as is set out in the applicable Final Terms) to the Holders in accordance with Condition 12 (*Notices*) (which notice shall be irrevocable) elect that the Exercise Date for all (but not less than all) of the Certificates be brought forward to the Call Option Date. If Call Option Cash Settlement is specified as applying in the applicable Final Terms, notwithstanding any provision to the contrary in the Terms and Conditions and/or the applicable Final Terms (a) if the Certificates are not Cash Settled Certificates, the Certificates shall be deemed to be Cash Settled Certificates and (b) the Cash Settlement Amount shall be the Call Option Cash Settlement Amount specified in the applicable Final Terms.

(D) *Mandatory Early Exercise*

If Mandatory Early Exercise is specified as applicable in the applicable Final Terms and a Mandatory Early Exercise Event occurs, the Exercise Date for all (but not less than all) of the Certificates will be brought forward to the Mandatory Early Exercise Date. If Mandatory Early Exercise Cash Settlement is specified as applicable in the applicable Final Terms, notwithstanding any provision to the contrary in the Terms and Conditions and/or the applicable Final Terms (a) if the Certificates are not Cash Settled Certificates, the Certificates shall be deemed to be Cash Settled Certificates and (b) the Cash Settlement Amount shall be the Mandatory Early Exercise Cash Settlement Amount specified in the applicable Final Terms, which shall be payable on the Mandatory Early Exercise Cash Settlement Date.

(E) *Holder Put Option*

If Holder Put Option is specified as applicable in the applicable Final Terms, a Holder may, by giving not less than 10 nor more than 60 calendar days' notice (or such other Holder Put Option Notice Period as is set out in the applicable Final Terms) as set out

below elect to bring forward the Exercise Date for his Certificates to the Put Option Date set out in the relevant Put Notice (as defined below). If Put Option Cash Settlement is specified as applying in the applicable Final Terms, notwithstanding any provision to the contrary in the Terms and Conditions and/or the applicable Final Terms (a) if the Certificates are not Cash Settled Certificates, the Certificates shall be deemed to be Cash Settled Certificates and (b) the Cash Settlement Amount for the relevant Certificates shall be the Put Option Cash Settlement Amount specified in the applicable Final Terms.

In order to exercise the right to bring forward the Exercise Date of a Certificate the Holder must deliver by facsimile or authenticated SWIFT message (confirmed in writing) a duly completed notice of exercise (a "**Put Notice**") in the form set out in the English Law Agency Agreement to (a) in the case of Euroclear/CBL Certificates, Euroclear or Clearstream, Luxembourg with a copy to the relevant Dealer and the Principal W&C Instrument Agent and (b) in the case of Definitive Registered Certificates, the Principal W&C Instrument Agent with a copy to the relevant Dealer. Copies of the Put Notice are available at the specified office of the Principal W&C Instrument Agent. Once delivered a Put Notice shall be irrevocable and the Certificates the subject of such notice may not be transferred.

(F) *Prescription*

Definitive Registered Certificates will become void unless presented for payment or delivery within a period of ten years (in the case of principal) and five years (in the case of additional amounts) after the Relevant Date (as defined below) therefor.

As used herein, the "**Relevant Date**" means the date on which such payment or delivery first becomes due, except that, if the full amount of any moneys payable has not been duly received by the relevant W&C Instrument Agent on or prior to such due date, it means the date on which, the full amount of such moneys having been so received, notice to that effect is duly given to the Holders in accordance with Condition 12 (*Notices*).

Under New York's statute of limitations generally, the payment or delivery obligations of the Guarantor evidenced by the MLBV Guarantee of such Certificates must be commenced within six years after payment or delivery is due. Thereafter, such payment or delivery obligations will generally become unenforceable.

32. **Collection Notices and Settlement (Certificates)**

In the event of any inconsistency between the Note Conditions, in the case of Notes, and the W&C Instruments Conditions, in the case of W&C Instruments, and the Index Linked Conditions, the Index Linked Conditions shall prevail. In the event of any inconsistency between (a) the Note Conditions or the W&C Instruments Conditions and/or the Index Linked Conditions and (b) the applicable Final Terms, the applicable Final Terms shall prevail. References in the Index Linked Conditions to "Instrument" and "Instruments" shall be deemed to be references to "Note" and "Notes" or "W&C Instrument" and "W&C Instruments" as the context admits.

2. **Definitions**

For the purposes of these Index Linked Conditions:

"**Administrator/Benchmark Event**" means, in respect of an Index, any authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register in respect of the Index or the administrator or sponsor of the Index has not been, or will not be, obtained or has been, or will be, rejected, refused, suspended or withdrawn by the relevant competent authority or other relevant official body, in each case with the effect that either the Issuer, the Calculation Agent or any affiliate engaged in hedging transactions relating to the Instruments is not, or will not be, permitted under any applicable law or regulation to use the Index to perform its or their respective obligations under the Instruments or any related hedging transactions.

"**Administrator/Benchmark Event Date**" means, in respect of an Index and an Administrator/Benchmark Event, the date on which the authorisation, registration, recognition, endorsement, equivalence decision, approval or inclusion in any official register is:

If the first succeeding Valid Date in relation to such Index has not occurred as of the Valuation Time on the Averaging Cut-Off Date or if such Averaging Date falls on the Averaging Cut-Off Date owing to the original date on which it was scheduled to fall not being a Scheduled Trading Day for the Index, then (A) the Averaging Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the Averaging Cut-Off Date is already an Averaging Date) in relation to such Index, and (B) the Calculation Agent shall determine the relevant level or price for that Averaging Date in accordance with sub-paragraph (b)(ii) of the definition of "Valuation Date" below;
 - (iii) where the Index Linked Instruments relate to a Basket of Indices and the applicable Final Terms provides that "Common Scheduled Trading Days" and "Individual Disrupted Days" shall be applicable, the Averaging Date for each Index not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (following adjustment of such date owing to the original date not being a Common Scheduled Trading Day, if applicable) (the

"**Scheduled Averaging Date**") and the Averaging Date for an Index affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Index. If the first succeeding Valid Date in relation to such Index has not occurred as of the Valuation Time on the Averaging Cut-Off Date or if such Averaging Date falls on the Averaging Cut-Off Date owing to the original date on which it was scheduled to fall not being a Common Scheduled Trading Day for the Index, then (A) the Averaging Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the Averaging Cut-Off Date is already an Averaging Date) in relation to such Index, and (B) the Calculation Agent shall determine the relevant level or price for that Averaging Date in accordance with sub-paragraph (c)(ii) of the definition of "Valuation Date" below; or

- (iv) where the Index Linked Instruments relate to a Basket of Indices and the applicable Final Terms provides that "Common Scheduled Trading Days" and "Common Disrupted Days" shall be applicable, the Averaging Date for each Index shall be the first succeeding Common Valid Date in relation to such Index. If the first succeeding Common Valid Date has not occurred as of the Valuation Time on the Averaging Cut-Off Date or if such Averaging Date falls on the Averaging Cut-Off Date owing to the original date on which it was scheduled to fall not being a Common Scheduled Trading Day, then (A) the Averaging Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the Averaging Cut-Off Date is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant level or price for that Averaging Date in accordance with sub-paragraph (d)(ii) of the definition of "Valuation Date" below,

- (B) the aggregate of all Component Securities in respect of which a Trading Disruption, an Exchange Disruption or an Early Closure occurs or exists, comprises 20 per cent. or more of the level of the Index; or
- (ii) the occurrence or existence, in respect of futures or options contracts relating to the Index, of (A) a Trading Disruption, (B) an Exchange Disruption which in either case the Calculation Agent determines is material, at any time during the one hour period that ends at the Valuation Time in respect of the Related Exchange or (C) an Early Closure.

For the purposes of determining whether a Market Disruption Event in respect of a Multi-Exchange Index exists at any time, if a Market Disruption Event (as defined in the Share Linked Conditions in relation to a share) occurs in respect of a Component Security at that time, then the relevant percentage contribution of such Component Security to the level of the Index shall be based on a comparison of (x) the portion of the level of the Index attributable to that Component Security and (y) the overall level of the Index, in each case using the official opening weightings as published by the Index Sponsor as part of the market "opening data".

- (c) in respect of any Proprietary Index, the failure by the Index Calculation Agent (as specified in the rules relating to the relevant Proprietary Index) to calculate, and/or the Index Sponsor to publish, the level of the Index on any Scheduled Trading Day or in respect of such Scheduled Trading Day within the scheduled timeframe for such calculation or publication.

4. **Barrier Event**

- (a) A "**Barrier Event (intraday)**" means (and a Barrier Event (intraday) shall be deemed to occur if), in respect of an Index, the Calculation Agent determines that the Index Level of such Index as of the Barrier Event Valuation Time (intraday) on any Barrier Event Determination Day is less than or equal to the corresponding Barrier Level for such Index and such Barrier Event Determination Day.

For the purpose of determining whether a Barrier Event (intraday) has occurred on any day in respect of a Unitary Index and a Multi-Exchange Index, the definition of Market Disruption Event specified in Index Linked Condition 3 shall be amended such that (i) all references to "during the one-hour period that ends at the relevant Valuation Time" shall be deleted, and (ii) in the definition of "Early Closure" appearing in Index Linked Condition 2, each reference to "Valuation Time" and "Scheduled Closing Time" shall be construed as a reference to "Barrier Event Valuation Time (intraday)".

- (b) A "**Barrier Event (closing)**" means (and a Barrier Event (closing) shall be deemed to occur if), in respect of an Index, the Calculation Agent determines that the Index Closing Level of such Index as of the Barrier Event Valuation Time (closing) on any Barrier Event Determination Day is less than or equal to the corresponding Barrier Level for such Index and such Barrier Event Determination Day.

5. **Adjustments and Corrections to an Index**

- (a) Consequences of a Successor Index Sponsor or a Successor Index

If a relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the "**Successor Index Sponsor**") acceptable to the Calculation Agent, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then in each case that index (the "**Successor Index**") will be deemed to be the Index.

- (b) Modification and Cessation of Calculation of an Index

If (i) on or prior to a Valuation Date, an Observation Date or an Averaging Date (or other relevant date, as determined by the Calculation Agent), the relevant Index Sponsor makes or announces that it will make a material change in the formula for or the method of calculating a relevant Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation or contracts and other routine events) (an "**Index Modification**"), or permanently cancels a relevant Index and no Successor Index exists (an "**Index Cancellation**"), (ii) on a Valuation Date, an Observation Date or an Averaging Date (or other relevant date, as determined by the Calculation Agent), the Index Sponsor or, if applicable, the Successor Index Sponsor fails to calculate and announce a relevant Index, provided that, in respect of an Index which is specified in the applicable Final Terms as being a Multi-Exchange Index or a Proprietary Index, the Calculation Agent may, in its discretion, determine that such event instead results in the occurrence of a Disrupted Day (an "**Index Disruption**") or (iii) on or prior to a Valuation Date, an Observation Date or an Averaging Date (or other relevant date, as determined by the Calculation Agent), an Administrator/Benchmark Event Date has occurred in respect of a relevant Index (an Administrator/Benchmark Event, together with an Index Disruption, an Index Modification and an Index Cancellation shall each be an "**Index Adjustment Event**"), then the Issuer may take the action described in (A) or (B) below:

- (A) require the Calculation Agent to determine if such Index Adjustment Event has a material effect on the Index Linked Instruments and, if so, calculate the relevant level or price using, in lieu of a published level for such Index, the level for such Index as at the Valuation Time on that Valuation Date, Observation Date or Averaging Date, as the case may be, as determined by the Calculation Agent in accordance with the formula for and method of calculating such Index last in effect prior to the change, failure or cancellation, but using only those securities or components that comprised such Index immediately prior to that Index Adjustment Event; or
- (B) (1) in the case of Notes, on giving notice to the Noteholders in accordance with Note Condition 14, redeem all (but not less than all) of the Notes, each Note being redeemed at the Early Redemption Amount; or
- (2) in the case of W&C Instruments, on giving notice to Holders in accordance with W&C Instruments Condition 12, cancel the W&C Instruments. If the W&C Instruments are so cancelled the Issuer will pay an amount to each Holder in respect of each W&C Instrument or Unit, as the case may be, held by him which amount shall be the fair market value of a W&C Instrument or a Unit, as the case may be, taking into account the Index Adjustment Event, less the cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Instruments Condition 12.

Upon the occurrence of an Index Adjustment Event, the Issuer shall give notice as soon as reasonably practicable to the Holders in accordance with Note Condition 14 or Holders in accordance with W&C Instruments Condition 12, as applicable, giving details of the action proposed to be taken in relation thereto, provided that any failure to give, or non-receipt of, such notice will not affect the validity of such action. The Issuer shall make available for inspection by Holders copies of any such determinations.

(c) **Corrections to an Index**

If the level of a relevant Index published on any Valuation Date, Observation Date or Averaging Date (or other relevant date, as determined by the Calculation Agent), as the case may be, by the relevant Index Sponsor or (if applicable) the relevant Successor Index Sponsor and which is utilised for any calculation or determination made for the purposes of the Index Linked Instruments (a "**Relevant Calculation**") is subsequently corrected and the correction (the "**Corrected Index Level**") is published by the relevant Index Sponsor or (if applicable) the relevant Successor Index Sponsor no later than two Business Days prior to the date on which payment of any amount or delivery of any assets may have to be made pursuant to such Relevant Calculation, then such Corrected Index Level shall be deemed to be the relevant level for such Index on such Averaging Date, Observation Date or Valuation Date (or other relevant date, as determined by the Calculation Agent), as the case may be, and the Calculation Agent shall use such Corrected Index Level in determining the relevant level or price and/or whether the Barrier Event (closing) or Barrier Event (intraday), as the case may be, has been triggered.

6. **Additional Disruption Events**

- (a) "**Additional Disruption Event**" means any of Change in Law, Hedging Disruption and/or Increased Cost of Hedging, in each case if specified in the applicable Final Terms.

"**Change in Law**" means that, on or after the Trade Date (as specified in the applicable Final Terms) (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in its sole and absolute discretion that (A)

it has become illegal to hold, acquire or dispose of any relevant security comprised in an Index or (B) the Issuer will incur a materially increased cost in performing its obligations in relation to the Index Linked Instruments (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer and/or any of its affiliates).

"Hedging Disruption" means that the Issuer and/or any of its Affiliates or agents is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Index Linked Instruments, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

"Increased Cost of Hedging" means that the Issuer and/or any of its Affiliates or agents acting on its behalf would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Index Linked Instruments, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates or agents shall not be deemed an Increased Cost of Hedging.

- (b) If Additional Disruption Events are specified as applicable in the applicable Final Terms, then if an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action described in (i) or (ii) below:
- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any one or more of the terms of these Terms and Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) give notice to Holders in accordance with Note Condition 14 or W&C Instruments Condition 12, as applicable, and (A) in the case of Notes, redeem all, but not less than all, of the Notes, each nominal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount; or (B) in the case of W&C Instruments, cancel the W&C Instruments and pay an amount to each Holder in respect of each W&C Instrument or Unit, as the case may be, held by him which amount shall be the fair market value of a W&C Instrument or a Unit, as the case may be, taking into account the Additional Disruption Event less the cost to the Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) plus, in the case of Warrants, if already paid, the Exercise Price, all as determined by the Calculation Agent in its sole and absolute discretion, payment being made in such manner as shall be notified to the Holders in accordance with W&C Instruments Condition 12.
- (c) Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Holders stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

ANNEX 2

ADDITIONAL TERMS AND CONDITIONS FOR SHARE LINKED INSTRUMENTS

1. **Interpretation**

If specified as applicable in the applicable Final Terms, the terms and conditions applicable to Share Linked Notes shall comprise the terms and conditions of the Notes (the "**Note Conditions**") and the Additional Terms and Conditions for Share Linked Instruments set out below (the "**Share Linked Conditions**"), in each case subject to completion and/or amendment in the applicable Final Terms. The terms and conditions applicable to Share Linked W&C Instruments shall comprise the terms and conditions of the W&C Instruments (the "**W&C Instruments Conditions**") and the Share Linked Conditions, in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the Note Conditions, in the case of Notes, and the W&C Instruments Conditions, in the case of W&C Instruments, and the Share Linked Conditions, the Share Linked Conditions shall prevail. In the event of any inconsistency between (a) the Note Conditions or the W&C Instruments Conditions and the Share Linked Conditions and (b) the applicable Final Terms, the applicable Final Terms shall prevail. References in the Share Linked Conditions to "Instrument" and "Instruments" shall be deemed to be references to "Note" and "Notes" or "W&C Instrument" and "W&C Instruments" as the context admits.

2. **Definitions**

For the purposes of these Share Linked Conditions:

"**Averaging Cut-Off Date**" means the eighth Scheduled Trading Day (or, where the Share Linked Instruments relate to a Basket of Shares and the applicable Final Terms provides that "Common Scheduled Trading Days" shall be applicable, the eighth Common Scheduled Trading Day) immediately following the original date that, but for the occurrence of another Averaging Date or Disrupted Day, or on account of such date not being a Scheduled Trading Day (or, where the Share Linked Instruments relate to a Basket of Shares and the applicable Final Terms provides that "Common Scheduled Trading Days" shall be applicable, a Common Scheduled Trading Day), would have been the final Averaging Date, or, if earlier, the Scheduled Trading Day (or, where the Share Linked Instruments relate to a Basket of Shares and the applicable Final Terms provides that "Common Scheduled Trading Days" shall be applicable, the Common Scheduled Trading Day) falling on or immediately preceding the second Business Day immediately preceding the date on which payment of any amount or delivery of any assets may have to be made pursuant to any calculation or determination made on the relevant Averaging Dates, provided that the Averaging Cut-Off Date shall not fall prior to the original date on which the final Averaging Date was scheduled to fall.

"**Averaging Date**" means each date specified as an Averaging Date in the applicable Final Terms or, if any such date is not a Scheduled Trading Day, the immediately following Scheduled Trading Day, (or, where the Share Linked Instruments relate to a Basket of Shares and the applicable Final Terms provides that "Common Scheduled Trading Days" shall be applicable, the immediately following Common Scheduled Trading Day), or, if earlier, the Averaging Cut-Off Date. If any such day is a Disrupted Day:

- (a) if "**Omission**" is specified as applying in the applicable Final Terms, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant price; provided that, if through the operation of this provision there would not be an Averaging Date, then the provisions of the definition of "Valuation Date" will apply for purposes of determining the relevant price on the final Averaging Date, as if such final Averaging Date were a Valuation Date that was a Disrupted Day; or
- (b) if "**Postponement**" is specified as applying in the applicable Final Terms, then the provisions of the definition of "Valuation Date" will apply for the purposes of determining the relevant price on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such

determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or

- (c) if "**Modified Postponement**" is specified as applying in the applicable Final Terms then:
- (i) where the Share Linked Instruments relate to a single Share, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the Averaging Cut-Off Date or if such Averaging Date falls on the Averaging Cut-Off Date owing to the original date on which it was scheduled to fall not being a Scheduled Trading Day for the Share, then (A) the Averaging Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the Averaging Cut-Off Date is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant price for that Averaging Date in accordance with sub-paragraph (a)(ii) of the definition of "Valuation Date" below;
 - (ii) where the Share Linked Instruments relate to a Basket of Shares and the applicable Final Terms provides that "Common Scheduled Trading Days" shall not be applicable, the Averaging Date for each Share not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (following adjustment of such date owing to the original date not being a Scheduled Trading Day, if applicable) (the "**Scheduled Averaging Date**") and the Averaging Date for a Share affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Share. If the first succeeding Valid Date in relation to such Share has not occurred as of the Valuation Time on the Averaging Cut-Off Date or if such Averaging Date falls on the Averaging Cut-Off Date owing to the original date on which it was scheduled to fall not being a Scheduled Trading Day for such Share, then (A) the Averaging Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the Averaging Cut-Off Date is already an Averaging Date) in relation to such Share, and (B) the Calculation Agent shall determine the relevant price for that Averaging Date in accordance with sub-paragraph (b)(ii) of the definition of "Valuation Date" below;
 - (iii) where the Share Linked Instruments relate to a Basket of Shares and the applicable Final Terms provides that "Common Scheduled Trading Days" and "Individual Disrupted Days" shall be applicable, the Averaging Date for each Share not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (following adjustment of such date owing to the original date not being a Common Scheduled Trading Day, if applicable) (the "**Scheduled Averaging Date**") and the Averaging Date for a Share affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Share. If the first succeeding Valid Date in relation to such Share has not occurred as of the Valuation Time on the Averaging Cut-Off Date or if such Averaging Date falls on the Averaging Cut-Off Date owing to the original date on which it was scheduled to fall not being a Common Scheduled Trading Day, then (A) the Averaging Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the Averaging Cut-Off Date is already an Averaging Date) in relation to such Share, and (B) the Calculation Agent shall determine the relevant price for that Averaging Date in accordance with sub-paragraph (c)(ii) of the definition of "Valuation Date" below; or
 - (iv) where the Share Linked Instruments relate to a Basket of Shares and the applicable Final Terms provides that "Common Scheduled Trading Days" and "Common Disrupted Days" shall be applicable, the Averaging Date for each Share shall be the first succeeding Common Valid Date in relation to such Share. If the first succeeding Common Valid Date has not occurred as of the Valuation Time on the Averaging Cut-Off Date or if such Averaging Date falls on the Averaging Cut-Off Date owing to the original date on which it was scheduled to fall not being a Common Scheduled Trading Day, then (A) the Averaging Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the

Averaging Cut-Off Date is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant level or price for that Averaging Date in accordance with sub-paragraph (d)(ii) of the definition of "Valuation Date" below,

and, for the purposes of these Share Linked Conditions "**Valid Date**" means a Scheduled Trading Day that is not a Disrupted Day and on which another Averaging Date does not or is deemed not to occur, and "**Common Valid Date**" means a Common Scheduled Trading Day that is not a Disrupted Day for any Share and on which another Averaging Date does not or is deemed not to occur.

"**Barrier Event Determination Day**" means, in respect of each Share:

- (a) if the applicable Final Terms provides that the Barrier Event (intraday) provisions shall apply, unless otherwise specified in the Final Terms, each day on which the price of such Share is quoted on the relevant Exchange during the relevant Observation Period, regardless of whether or not such day is a Scheduled Trading Day for such Share (and, for the avoidance of doubt, if the Calculation Agent in its sole and absolute discretion determines that a Market Disruption Event is occurring at any time on any Barrier Event Determination Day, it shall disregard the period during which it determines in its sole and absolute discretion that such Market Disruption Event has occurred and is continuing for the purposes of determining whether or not a Barrier Event (intraday) has occurred); or
- (b) if the applicable Final Terms provides that the Barrier Event (closing) provisions shall apply, each day specified as such in the applicable Final Terms.

"**Barrier Event Valuation Time (closing)**" means, in respect of each Share to be valued, the Scheduled Closing Time on the relevant Exchange on the relevant Barrier Event Determination Day. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Barrier Event Valuation Time (closing) is after the actual closing time for its regular trading session, then the Barrier Event Valuation Time (closing) shall be such actual closing time.

"**Barrier Event Valuation Time (intraday)**" means any time during the regular trading session (without regard to any after hours or any other trading outside of the regular session) on the Exchange.

announced by such Exchange(s) or Related Exchange(s) at least one hour prior to the earlier of (i) the actual closing time for the regular trading session on such Exchange(s) or Related Exchange(s) on such Exchange Business Day, and (ii) the submission deadline for orders to be entered into the Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day.

"Exchange" means, in relation to a Share, each exchange or quotation system specified as such for such Share in the applicable Final Terms, any successor to such exchange or quotation system or any substitute exchange or quotation system to which trading in the Share has temporarily relocated (provided that the Calculation Agent has determined that there is comparable liquidity relative to such Share on such temporary substitute exchange or quotation system as on the original Exchange).

"Exchange Business Day" means any Scheduled Trading Day on which each Exchange and each Related Exchange are open for trading during their respective regular trading sessions, notwithstanding any such Exchange or Related Exchange closing prior to its Scheduled Closing Time.

If any such day is a Disrupted Day, then:

- (a) where the Share Linked Instruments relate to a single Share, the Observation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the Scheduled Trading Days immediately following the Scheduled Observation Date up to, and including, the Observation Cut-Off Date is a Disrupted Day. In that case, or if such Observation Date falls on the Observation Cut-Off Date owing to the original date on which it was scheduled to fall not being a Scheduled Trading Day for such Share, (i) the Observation Cut-Off Date shall be deemed to be such Observation Date (notwithstanding the fact that such day may be a Disrupted Day) and (ii) the Calculation Agent shall determine the relevant price in the manner set out in the applicable Final Terms or, if not set out or if not practicable, determine the relevant price in accordance

with its good faith estimate of the relevant price as of the Valuation Time on the Observation Cut-Off Date;

- (b) where the Share Linked Instruments relate to a Basket of Shares and the applicable Final Terms provides that "Common Scheduled Trading Days" shall not be applicable, the Observation Date for each Share not affected by the occurrence of a Disrupted Day shall be the Scheduled Observation Date (or, if earlier, the Observation Cut-Off Date) and the Observation Date for each Share affected (each an "**Affected Share**") by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to the Affected Share, unless each of the Scheduled Trading Days immediately following the Scheduled Observation Date up to, and including, the Observation Cut-Off Date is a Disrupted Day relating to the Affected Share. In that case, or if such Observation Date falls on the Observation Cut-Off Date owing to the original date on which it was scheduled to fall not being a Scheduled Trading Day for such Share, (i) the Observation Cut-Off Date shall be deemed to be the Observation Date for such Share (notwithstanding the fact that such day may be a Disrupted Day) and (ii) the Calculation Agent shall determine the relevant price using, in relation to such Share, a price determined in the manner set out in the applicable Final Terms or, if not set out or if not practicable, using its good faith estimate of the price for such Share as of the Valuation Time on the Observation Cut-Off Date, and otherwise in accordance with the above provisions;

In that case, or if such Observation Date falls on the Observation Cut-Off Date owing to the original date on which it was scheduled to fall not being a Common Scheduled Trading Day, (i) the Observation Cut-Off Date shall be deemed to be the Observation Date for such Share (notwithstanding the fact that such day may be a Disrupted Day for a Share or not a Common Scheduled Trading Day) and (ii) the Calculation Agent shall determine the relevant price using, in relation to such Share, a price determined in the manner set out in the applicable Final Terms or, if not set out or if not practicable, using its good faith estimate of the price for such Share as of the Valuation Time on the Observation Cut-Off Date, and otherwise in accordance with the above provisions; or

If options on the Shares or Component Shares (as the case may be) are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of the terms of the Terms and Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency, Announcement Event or De-stapling Event, as the case may be, that in the determination of the Calculation Agent would have given rise to an adjustment by the Options Exchange if such options were so traded; or

Upon the occurrence of a Merger Event, De-listing, Nationalisation, Insolvency, Announcement Event, Tender Offer or De-stapling Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Note Condition 14 or W&C Instruments Condition 12, as

applicable, stating the occurrence of the Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency, Announcement Event or De-stapling Event, or as the case may be, giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency, Announcement Event or De-stapling Event, as the case may be.

The applicable Disruption Fallback in respect of a Currency Price shall be as specified in the applicable Final Terms, and if two or more Disruption Fallbacks are specified, unless otherwise provided in the Final Terms, such Disruption Fallbacks shall apply in the order specified in the applicable Final Terms, such that if the Calculation Agent determines that the Currency Price cannot be determined by applying one Disruption Fallback, then the next Disruption Fallback specified shall apply.

"Fallback Reference Price(s)" means, in respect of a Currency Price, that the Currency Price for the relevant date will be the alternate price source(s) specified in the applicable Final Terms for such Currency Price, applied in the order specified in the applicable Final Terms.

"FX Business Day" means, in respect of a Currency Price, a day on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits), or but for the occurrence of an FX Market Disruption Event in respect of such Currency Price would have settled payments and been open for general business, in each of the Specified Financial Centres for such Currency Price, as specified in the applicable Final Terms.

"FX Disrupted Day" means any FX Business Day on which an FX Market Disruption Event occurs.

"FX Market Disruption Event" means:

- (a) in respect of a Currency Price, the occurrence or existence, as determined by the Calculation Agent in its sole and absolute discretion, of any FX Price Source Disruption and/or Administrator/Benchmark Event Date and/or, if specified as applicable in the

Final Terms, any FX Trading Suspension or Limitation and/or any Inconvertibility Event and/or any other event specified as applicable in the applicable Final Terms; and

- (b) if the applicable Final Terms provide that the EM Currency Provisions shall apply to a Currency Price, in respect of such Currency Price, the occurrence or existence, as determined by the Calculation Agent in its sole and absolute discretion, of any FX Price Source Disruption and/or Administrator/Benchmark Event Date and/or, if specified as applicable in the Final Terms, any Price Materiality Event and/or any Inconvertibility Event and/or any Non-Transferability Event and/or any other event specified as applicable in the applicable Final Terms.

"FX Price Source(s)" means, in respect of a Currency Price, the price source(s) specified in the applicable Final Terms for such Currency Price, or if the relevant rate is not published or announced by such FX Price Source at the relevant time, the successor or alternative price source or page/publication for the relevant rate as determined by the Calculation Agent in its sole and absolute discretion.

"FX Price Source Disruption" means it becomes impossible or otherwise impracticable to obtain and/or execute the relevant rate(s) required to calculate the Currency Price on the Averaging Date or Valuation Date or other relevant date, or, if different, the day on which rates for that Averaging Date or Valuation Date or other relevant date, as the case may be, would in the ordinary course be published or announced by the relevant FX Price Source.

"FX Trading Suspension or Limitation" means the suspension of and/or limitation of trading in the rate(s) required to calculate the relevant Currency Price in the Interbank Market provided that such suspension or limitation of trading is material in the opinion of the Calculation Agent.

"Inconvertibility Event" means the occurrence, as determined by the Calculation Agent in its sole and absolute discretion, of any action, event or circumstance whatsoever which, from a legal or practical perspective:

- (a) has the direct or indirect effect of hindering, limiting or restricting (i) the convertibility of the relevant Subject Currency into the Base Currency, or (ii) the transfer of the Subject Currency or the Base Currency to countries other than the countries for which the Subject Currency or the Base Currency, as the case may be, is the lawful currency (including without limitation, by way of any delays, increased costs or discriminatory rates of exchange or any current or future restrictions); and/or

"Non-Transferability Event" means the occurrence, as determined by the Calculation Agent in its sole and absolute discretion, of any event that generally makes it impossible to deliver (a) the Base Currency from accounts inside the Subject Currency Jurisdiction to accounts outside the Subject Currency Jurisdiction or (b) the Subject Currency between accounts inside the Subject Currency Jurisdiction or to a party that is a non-resident of the Subject Currency Jurisdiction.

"Other Published Sources" means, in respect of any relevant day, that the Calculation Agent will determine the Currency Price on such relevant day on the basis of the exchange rate for one unit of the Base Currency in terms of the Subject Currency published by available recognised financial information vendors (as selected by the Calculation Agent) other than the applicable FX Price Source, at or around the applicable Valuation Time on such relevant day.

"Postponement" means, in respect of a Valuation Date or an Averaging Date, if such day (or, if applicable, if the original day on which such Valuation Date or an Averaging Date, as the case may be, is scheduled to fall (as specified in the applicable Final Terms) is postponed on account of such original day not being an FX Business Day, such postponed day) is an FX Disrupted Day, then:

- (a) where the FX Linked Instruments relate to a single Currency Price, such Valuation Date or Averaging Date, as the case may be, shall be the first succeeding FX Business Day that is not an FX Disrupted Day, unless the Calculation Agent determines that each of the consecutive FX Business Days equal in number to the Maximum Days of Postponement immediately following such Scheduled Valuation Date or Scheduled Averaging Date, as the case may be, is an FX Disrupted Day. In that case, (i) that last consecutive FX Business Day shall be deemed to be the Valuation Date or the Averaging Date, as the case may be (notwithstanding the fact that such day may be an FX Disrupted Day) and (ii) the next applicable Disruption Fallback shall apply; or
- (b) where the FX Linked Instruments relate to a Basket of Currency Prices, such Valuation Date or Averaging Date, as the case may be, for each Currency Price not affected by the occurrence of an FX Disrupted Day shall be the Scheduled Valuation Date or Scheduled Averaging Date, as the case may be, and the Valuation Date for each Currency Price affected (each an **"Affected Currency Price"**) by the occurrence of an FX Disrupted Day shall be the first succeeding FX Business Day that is not an FX Disrupted Day relating to the Affected Currency Price, unless the Calculation Agent determines that each of the consecutive FX Business Days equal in number to the Maximum Days of Postponement immediately following such Scheduled Valuation Date or Scheduled Averaging Date, as the case may be, is an FX Disrupted Day. In that case for each Affected Currency Price, (i) that last consecutive FX Business Day shall be deemed to be the Valuation Date or the Averaging Date, as the case may be (notwithstanding the fact that such day may be an FX Disrupted Day) and (ii) the next applicable Disruption Fallback shall apply.

"Price Materiality Event" means, in respect of a Currency Price and a Valuation Date, Averaging Date or other relevant date, that the FX Price Source differs from the Fallback Reference Price by at least the Price Materiality Percentage (and if both an FX Price Source Disruption and a Price Materiality Event occur or exist on any day, it shall be deemed that an FX Price Source Disruption and not a Price Materiality Event occurred or existed on such day).

"Price Materiality Percentage" means the percentage specified as such in the applicable Final Terms.

"Reference Dealers" means, in respect of each Subject Currency, four leading dealers in the relevant foreign exchange market, as determined by the Calculation Agent (or any other number of dealers as specified in the applicable Final Terms).

"Specified Financial Centre(s)" means the financial centre(s) specified in the applicable Final Terms.

"Strike Date" means the date specified as such in the applicable Final Terms.

"Subject Currency" means the currency specified as such in the applicable Final Terms.

"Valuation Date" means:

- (a) if the applicable Final Terms specify that the EM Currency Provisions shall not apply to a Currency Price, each Valuation Date specified in the applicable Final Terms or if that is not an FX Business Day the first following day which is an FX Business Day, or, if earlier the Valuation Cut-Off Date (such day, the **"Scheduled Valuation Date"** corresponding to such Valuation Date). If a Valuation Date falls on the Valuation Cut-Off Date, then, subject to the applicable Final Terms, the first applicable Disruption Fallback specified as a consequence of an FX Market Disruption Event shall apply (as if an FX Market Disruption Event had occurred), or, if none is specified, Calculation Agent Determination shall be deemed to apply; or
- (b) if the applicable Final Terms specify that the EM Currency Provisions shall apply to a Currency Price, each Valuation Date specified in the applicable Final Terms (the **"Scheduled Valuation Date"** in respect of such Currency Price, if such day is an FX Business Day for such Currency Price, or if such day is not an FX Business Day only by reason of being an Unscheduled Holiday for such Currency Price), or the immediately preceding FX Business Day for such Currency Price, as determined by the Calculation Agent (the **"Scheduled Valuation Date"** in respect of such Currency Price, if such day is not an FX Business Day and is not an Unscheduled Holiday for such Currency Price), provided that such Valuation Date shall be subject to adjustment in accordance with FX Linked Condition 3 and FX Linked Condition 4.

"Valuation Time" means the Valuation Time specified in the applicable Final Terms.

3. **Consequences of an FX Disrupted Day**

If the Calculation Agent determines that any Valuation Date or Averaging Date is an FX Disrupted Day, then the Currency Price for such Valuation Date or Averaging Date will be determined in accordance with the terms of the first applicable Disruption Fallback. The applicable Final Terms may provide that one or more Disruption Fallbacks may apply to any Valuation Date or Averaging Date and that such applicable Disruption Fallbacks may apply concurrently or sequentially, in such manner as specified in the applicable Final Terms.

4. **EM Currency Provisions: Unscheduled Holiday**

- (a) If the applicable Final Terms provide that the EM Currency Provisions shall apply to a Currency Price or Fallback Reference Price, as applicable, and any Valuation Date or Averaging Date, and that Unscheduled Holidays shall be applicable, then, if the Calculation Agent determines that the relevant Scheduled Valuation Date or Scheduled Averaging Date, as applicable (each, a **"Scheduled Reference Date"**), is an Unscheduled Holiday for such Currency Price or Fallback Reference Price, then the Valuation Date or Averaging Date shall be postponed to the first FX Business Day falling after the Scheduled Reference Date (the **"Adjusted Scheduled Reference Date"**), provided that if such first FX Business Day has not occurred on or before the last day of the Maximum Days of Deferral, then the next day after the Last Deferred Day that would have been an FX Business Day but for a Unscheduled Holiday shall be deemed to be the Adjusted Scheduled Reference Date.

- (b) The following terms and expressions shall have the following meanings:

"Last Deferred Day" means, in respect of any postponement by a number of days equal to the Maximum Days of Deferral, the last day to which such day is postponed.

"Maximum Days of Deferral" means such number of calendar days (or other type of days) as specified in the applicable Final Terms.

"Unscheduled Holiday" means, in respect of a Currency Price or Fallback Reference Price, as applicable, a day that is not an FX Business Day and the market was not aware of such fact (by means of a public announcement or by reference to other publicly available information) until a time later than 9.00 a.m., local time in the Specified

Financial Centre in respect of such Currency Price or Fallback Reference Price, two FX Business Days prior to such day.

5. **EM Currency Provisions: EM Valuation Postponement**

If the applicable Final Terms provide that the EM Currency Provisions shall apply to a Currency Price (which term shall include, where the Final Terms provide that the prior applicable Disruption Fallback is "Fallback Reference Price", the Currency Price determined using the applicable Fallback Reference Price) and any Valuation Date or Averaging Date, and that EM Valuation Postponement shall be applicable, then, if the Calculation Agent determines that the relevant Scheduled Reference Date (if the Scheduled Reference Date is not an Unscheduled Holiday for the Currency Price) or the Adjusted Scheduled Reference Date (if the Scheduled Reference Date is an Unscheduled Holiday for the Currency Price) is an FX Disrupted Day, then such Valuation Date or Averaging Date shall be the first FX Business Day which is not an FX Disrupted Day unless an FX Market Disruption Event continues to exist (measured from such Scheduled Reference Date or Adjusted Scheduled Reference Rate, as applicable) for a consecutive number of calendar days equal to the Maximum Days of EM Valuation Postponement. In that case, the Currency Price will be determined on the next FX Business Day after the Maximum Days of EM Valuation Postponement in accordance with the next applicable Disruption Fallback as specified in the applicable Final Terms.

Where:

"Maximum Days of EM Valuation Postponement" means such number of calendar days (or other type of days) as specified in the applicable Final Terms.

6. **EM Currency Provisions: EM Fallback Valuation Postponement**

If the applicable Final Terms provide that the EM Currency Provisions shall apply and that EM Fallback Valuation Postponement shall be applicable and where the Final Terms provide that the prior applicable Disruption Fallback is "Fallback Reference Price", if the Calculation Agent determines that the Currency Price (as determined by reference to the applicable Fallback Reference Price) is not available on (a) the first FX Business Day following the end of the Maximum Days of EM Valuation Postponement (where an FX Market Disruption Event has occurred or exists in respect of the Currency Price throughout the Maximum Days of EM Valuation Postponement) or (b) on the Adjusted Scheduled Reference Date (where the Adjusted Scheduled Reference Date falls after the Last Deferred Day) then the Valuation Date or Averaging Date shall be the first succeeding FX Business Day which is not an FX Disrupted Day in respect of the Currency Price unless an FX Market Disruption Event continues to exist throughout the Fallback Maximum Period of Postponement. In that case, the Currency Price will be determined on the Last Fallback Postponement Date in accordance with the next applicable Disruption Fallback.

Where:

"Fallback Maximum Period of Postponement" means the period commencing on, and including:

- (a) if an FX Market Disruption Event has occurred or exists in respect of the Currency Price throughout the Maximum Days of EM Valuation Postponement, the first FX Business Day following the end of the Maximum Days of EM Valuation Postponement; or
- (b) if the Adjusted Scheduled Reference Date falls after the Last Deferred Day, the Adjusted Scheduled Reference Date,

and ending on, and including, the third FX Business Day (or such other day as specified in the applicable Final Terms) following such date as specified in paragraphs (a) and (b) above, as applicable (such date, the **"Last Fallback Postponement Date"**).

7. **EM Currency Provisions: Cumulative Events**

If the applicable Final Terms provide that the EM Currency Provisions shall apply to a Currency Price and any Valuation Date or Averaging Date, and that Cumulative Events shall be applicable, then the total number of consecutive calendar days during which (a) such Valuation Date or Averaging Date is deferred due to an Unscheduled Holiday, (b) an EM Valuation Postponement shall occur in respect of such Valuation Date or Averaging Date, or (c) an EM Fallback Valuation Postponement shall occur in respect of such Valuation Date or Averaging Date (or any combination of (a), (b) and (c)), shall not exceed the Maximum Days of Cumulative Postponement in the aggregate. Accordingly, (i) if such Valuation Date or Averaging Date is postponed by the number of calendar days equal to the Maximum Days of Cumulative Postponement owing to an EM Valuation Postponement or EM Fallback Valuation Postponement (or both), and an Unscheduled Holiday shall have occurred or be continuing on the day following the relevant Last Postponed Day that otherwise would have been an FX Business Day, then such day shall be deemed to be such Valuation Date or Averaging Date and (ii) if such Valuation Date or Averaging Date is postponed by the number of calendar days equal to the Maximum Days of Cumulative Postponement owing to Unscheduled Holidays, and on the first day after the Last Postponed Day, an applicable FX Market Disruption Event shall have occurred or be continuing, then the Currency Price in respect of such Valuation Date or Averaging Date or other relevant date shall be determined in accordance with the next applicable Disruption Fallback.

Where:

"Last Postponed Day" means, in respect of any postponement by a number of days equal to the Maximum Days of Cumulative Postponement, the last day to which such day is postponed; and

"Maximum Days of Cumulative Postponement" means such number of calendar days (or other type of days) as specified in the applicable Final Terms.

8. **Corrections to Published and Displayed Rates**

- (a) In any case where a Currency Price is based on information obtained from the Reuters Monitor Money Rates Service, or any other financial information service, the Currency Price will be subject to the corrections, if any, to that information subsequently displayed by that source within one hour of the time when such rate is first displayed by such source, unless the Calculation Agent determines in its sole and absolute discretion that it is not practicable to take into account such correction.
- (b) Notwithstanding FX Linked Condition 8(a), in any case where the Currency Price is based on information published or announced by any governmental authority in a relevant country, the Currency Price will be subject to the corrections, if any, to that information subsequently published or announced by that source within five calendar days of the relevant date, unless the Calculation Agent determines in its sole and absolute discretion that it is not practicable to take into account such correction.

9. **Successor Currency**

Where the applicable Final Terms specify that "Successor Currency" is applicable in respect of a Currency Price, then:

- (a) each Subject Currency and Base Currency will be deemed to include any lawful successor currency to the Subject Currency or Base Currency (the "**Successor Currency**");
- (b) if the Calculation Agent determines that on or after the Issue Date (or such other date as specified in the applicable Final Terms) but on or before any relevant date under the Instruments on which an amount may be payable, a country has lawfully eliminated, converted, redenominated or exchanged its currency in effect on the Issue Date or any Successor Currency, as the case may be (the "**Original Currency**") for a Successor Currency, then for the purposes of calculating any amounts of the Original Currency or effecting settlement thereof, any Original Currency amounts will be converted to the

Successor Currency by multiplying the amount of Original Currency by a ratio of Successor Currency to Original Currency, which ratio will be calculated on the basis of the exchange rate set forth by the relevant country of the Original Currency for converting the Original Currency into the Successor Currency on the date on which the elimination, conversion, redenomination or exchange took place, as determined by the Calculation Agent. If there is more than one such date, the date closest to such relevant date will be selected (or such other date as may be selected by the Calculation Agent in its sole and absolute discretion);

- (c) notwithstanding paragraph (b) above but subject to paragraph (d) below, the Calculation Agent may (to the extent permitted by the applicable law), in good faith and in its sole and absolute discretion, select such other exchange rate or other basis for the conversion of an amount of the Original Currency to the Successor Currency and, will make such adjustment(s) that it determines to be appropriate, if any, to any variable, calculation methodology, valuation, settlement, payment terms or any other terms in respect of the Instruments to account for such elimination, conversion, redenomination or exchange of the Subject Currency or Base Currency, as the case may be; and
- (d) notwithstanding the foregoing provisions, with respect to any Subject Currency or Base Currency that is substituted or replaced by the Euro, the consequences of such substitution or replacement will be determined in accordance with applicable law.

10. **Rebasing of Instruments**

If the applicable Final Terms specify that "Rebasing" is applicable, then if, on or prior to any Valuation Date or Averaging Date or any other relevant date, the Calculation Agent is unable to obtain a value for a Subject Currency (because the Subject Currency and/or Base Currency ceases to exist, or for any other reason other than a temporary disruption, as determined by the Calculation Agent), the Calculation Agent may rebase the Instruments against another foreign exchange rate determined by the Calculation Agent, in its sole and absolute discretion, to be a comparable foreign exchange rate. If the Calculation Agent determines in its sole and absolute discretion that there is not such a comparable foreign exchange rate, the Issuer may take the action described in FX Linked Condition 11(a)(ii)(A) or 11(a)(ii)(B) below, provided that the words "the Additional Disruption Event" in FX Linked Condition 11(a)(ii)(A) and FX Linked Condition 11(a)(ii)(B) shall be deemed to be replaced with the words "the inability of the Calculation Agent to obtain a value for the Subject Currency".

11. **Consequences of an Additional Disruption Event**

If the applicable Final Terms specify that Additional Disruption Events shall be applicable, then:

- (a) following the determination by the Calculation Agent that an Additional Disruption Event has occurred, the Issuer in its sole and absolute discretion may take the action described in (i) or (ii) below:
 - (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the other terms of the Terms and Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) (A) in the case of Notes, give notice to Holders in accordance with Note Condition 14 and redeem all, but not less than all, of the Notes, each nominal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount; or
 - (B) in the case of W&C Instruments, give notice to the Holders in accordance with W&C Instruments Condition 12 and cancel the W&C Instruments. If the W&C Instruments are so cancelled the Issuer will pay an amount to each Holder in respect of each W&C Instrument or Unit, as the case may be, held by him which amount shall be the fair market value of a W&C Instrument or a Unit, as the case may be, taking into account the Additional

Disruption Event less the cost to the Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) plus, in the case of Warrants, if already paid, the Exercise Price, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Instruments Condition 12;

(b) upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Note Condition 14 or W&C Instruments Condition 12, as applicable, stating the occurrence of the Additional Disruption Event giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event; and

(c) the following terms and expressions shall have the following meanings:

"Additional Disruption Event" means any of a Change in Law, a Hedging Disruption and/or an Increased Cost of Hedging.

"Change in Law" means that, on or after the Trade Date (or such other date as specified in the applicable Final Terms) of the Instruments (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that (A) it has become illegal to hold, acquire or dispose of any relevant currency or asset, or (B) the Issuer or any affiliate(s) of the Issuer or any entity (or entities) acting on behalf of the Issuer engaged in any underlying or hedging transactions in respect of the Issuer's obligations under the Instruments will incur a materially increased cost in performing its obligations in relation to the Instruments (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).

"Hedging Disruption" means that the Issuer or any entity (or entities) acting on behalf of the Issuer engaged in any underlying or hedging transactions in respect of the Issuer's obligations in relation to the Instruments is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the currency or other price risk of the Issuer issuing and performing its obligations with respect to or in connection with the relevant Instruments, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

"Increased Cost of Hedging" means that the Issuer and/or any of its Affiliates or agents would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the currency or other price risk of the Issuer issuing and performing its obligations with respect to the relevant Instruments, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates or agents shall not be deemed an Increased Cost of Hedging.

"Commodity Business Day" means:

- (a) with respect to a single Commodity or a Basket of Commodities and:
 - (i) where the Commodity Reference Price for a Commodity is a price announced or published by an Exchange, a day that is (or, but for the occurrence of a Market Disruption Event, would have been) a day on which such Exchange is open for trading during its regular trading session, notwithstanding any such Exchange closing prior to its scheduled closing time; and
 - (ii) where the Commodity Reference Price for a Commodity is not a price announced or published by an Exchange, a day in respect of which the relevant Price Source published (or, but for the occurrence of a Market Disruption Event, would have published) a price;

"Commodity Cut-Off Date" means, in respect of a Pricing Date (or, if different, the day on which the price for that Pricing Date would, in the ordinary course, be published by the Price Source) the date specified in the applicable Final Terms, or if not so specified, the day falling two Business Days immediately preceding the date on which payment of any amount or delivery of any assets may have to be made pursuant to any calculation or determination made on such Pricing Date, provided that the Commodity Cut-Off Date shall not fall prior to the original date on which such Pricing Date was scheduled to fall (unless otherwise provided in the applicable Final Terms).

"Postponement" means that the Pricing Date will be deemed, for purposes of the application of this Disruption Fallback, to be the first succeeding Commodity Business Day on which the Market Disruption Event ceases to exist, unless that Market Disruption Event continues to exist for two consecutive Commodity Business Days (measured from and including the original day that would otherwise have been the Pricing Date (or, if applicable, if the Pricing Date as specified in the Final Terms is adjusted on account of such original date not being a Commodity Business Day, measured from and including the day that is the original date that would otherwise have been the Pricing Date, following any adjustment on account of such original date not being a Commodity Business Day)). In that case, the next Disruption Fallback specified in the definition of "Disruption Fallback" below will apply.

"Price Source" means the publication (or such other origin of reference, including an Exchange) containing (or reporting) the Specified Price (or prices from which the Specified Price is calculated) for the Commodity Reference Price (or, if there is no Specified Price for a Commodity Reference Price, such Commodity Reference Price) or otherwise in the applicable Final Terms (provided that in respect of a Commodity Index, if the relevant Commodity Reference Price is not published on such Price Source, the Calculation Agent may, in its sole and absolute discretion, (a) use a successor page or publication or alternative source as it considers appropriate, (b) determine that such non-publication amounts to a Market Disruption Event in respect of such Commodity Index in accordance with Commodity Linked Condition 4, or (c) determine that such non-publication amounts to a Commodity Index Adjustment Event in respect of the Commodity Index, and proceed in accordance with Commodity Linked Condition 5).

"Price Source Disruption" means:

- (a) the failure of the Price Source to announce or publish the Specified Price (or the information necessary for determining the Specified Price) for the relevant Commodity Reference Price (or, if there is no Specified Price for a Commodity Reference Price, such Commodity Reference Price); or
- (b) the temporary or permanent discontinuance or unavailability of the Price Source.

"Pricing Date" means, with respect to a Commodity or a Commodity Index, each date specified as such or otherwise as provided in the applicable Final Terms (each such original date, a **"Scheduled Pricing Date"**), provided that if any Scheduled Pricing Date is not a Commodity Business Day for such Commodity or Commodity Index (as the case may be), then the Pricing Date for such Commodity or Commodity Index (as the case may be) will be the earlier of (a) the next following Commodity Business Day for such Commodity or Commodity Index (as the case may be), and (b) the Commodity Cut-Off Date or Commodity Index Cut-Off Date (as the case may be), and subject to adjustment as provided in Commodity Linked Condition 4 (*Market Disruption and Disruption Fallback*).

"Relevant Price" means for any Pricing Date, the price, expressed as a price per unit of the Commodity or the price of the Commodity Index, determined with respect to that day for the specified Commodity Reference Price calculated as provided in these Commodity Linked Conditions and the applicable Final Terms.

"Specified Price" means, in respect of a Commodity Reference Price, any of the following prices (which must be a price reported in or by, or capable of being determined from information reported in or by, the relevant Price Source) as specified in the applicable Final Terms (and, if applicable, as of the time so specified): (a) the high price; (b) the low price; (c) the average of the high price and the low price; (d) the closing price; (e) the opening price; (f) the bid price; (g) the asked price; (h) the average of the bid price and the asked price; (i) the settlement price;

(j) the official settlement price; (k) the official price; (l) the morning fixing; (m) the afternoon fixing; (n) the spot price; or (o) any other price specified in the applicable Final Terms.

"**Strike Date**" means the date specified as such in the applicable Final Terms.

3. **Terms relating to Calculation of Prices**

(a) Common Pricing

If "Common Pricing" is specified in the applicable Final Terms to be:

- (i) "Applicable", then, if any Scheduled Pricing Date is not a day on which all referenced Commodity Reference Prices (for which such date would otherwise be a Pricing Date) are scheduled to be published or announced, as determined on the Trade Date of the Instruments, then the Pricing Date shall be the next following day on which all referenced Commodity Reference Prices (for which such date would otherwise be a Pricing Date) are scheduled to be published or announced, as determined on the Trade Date of the Instruments; or
- (ii) "Not Applicable", then this Commodity Linked Condition 3(a) shall not apply.

If the Calculation Agent determines that a Market Disruption Event has occurred or exists on any Pricing Date in respect of any relevant Commodity (an "**Affected Commodity**") and/or Commodity Index (an "**Affected Commodity Index**"), the Relevant Price of each Commodity and/or Commodity Index within the basket which is not affected by the occurrence of a Market Disruption Event shall be determined on the Scheduled Pricing Date and the Relevant Price for each Affected Commodity or Affected Commodity Index shall be determined in accordance with the first applicable Disruption Fallback that provides a Relevant Price.

All determinations made by the Calculation Agent pursuant to this Condition will be conclusive and binding on the Holders, the Issuer and the Guarantor, except in the case of manifest error.

(b) Correction to Published Prices

For purposes of determining or calculating the Relevant Price (or any price or value published or announced on any date which is utilised for any calculation or determination in connection with the Commodity Linked Instruments), if the price published or announced on a given day and used or to be used by the Calculation Agent to determine a Relevant Price (or any price or value published or announced on any date which is utilised for any calculation or determination in connection with the Commodity Linked Instruments) is subsequently corrected and the correction is published or announced by the person responsible for that publication or announcement within 30 calendar days after the original publication or announcement (or, if earlier the day falling two Business Days preceding the date on which payment of any amount or delivery of any assets may have to be made, in each case calculated by reference to such Relevant Price (or any price or value published or announced on any date which is utilised for any calculation or determination in connection with the Commodity Linked Instruments)), the Calculation Agent may, in its sole discretion, use such corrected price in such calculation.

4. **Market Disruption and Disruption Fallback**

If, in the opinion of the Calculation Agent, a Market Disruption Event (as defined below) has occurred and is continuing on any Pricing Date (or, if different, the day on which the price for that Pricing Date would, in the ordinary course, be published by the Price Source), the Relevant Price for that Pricing Date will be determined by the Calculation Agent, in accordance with the first applicable Disruption Fallback (as set out below) that provides a Relevant Price:

(a) Market Disruption Event

"**Market Disruption Event**" means the occurrence of any of the following events:

- (i) with respect to all Commodities:
 - (A) Price Source Disruption;
 - (B) Commodity Trading Disruption;
 - (C) Disappearance of Commodity Reference Price;
 - (D) an Administrator/Benchmark Event Date in respect of the Commodity Reference Price; and
- (ii) with respect to all Commodities other than gold, silver, platinum or palladium:
 - (A) Material Change in Formula;
 - (B) Material Change in Content; and
 - (C) any additional Market Disruption Events as specified in the applicable Final Terms; and
- (iii) with respect to a Commodity Index:
 - (A) a temporary or permanent failure by the applicable exchange or other price source to announce or publish (I) the Commodity Reference Price (provided that the Calculation Agent may, in its sole and absolute discretion, determine that such failure (aa) shall not be a Market Disruption Event and shall instead be dealt with under paragraph (a) of the proviso to the definition of Price Source specified in Commodity Linked Condition 2, or (bb) shall instead amount to a Commodity Index Adjustment Event in respect of such Commodity Index, and proceed in accordance with Commodity Linked Condition 5 (*Adjustments to a Commodity Index*)) or (II) the closing price for any futures contract included in the Commodity Index;
 - (B) a material limitation, suspension or disruption of trading in one or more of the futures contracts included in the Commodity Index which results in a failure by the exchange on which each applicable futures contract is traded to report a closing price for such contract on the day on which such event occurs or any succeeding day on which it continues; or
 - (C) the closing price for any futures contract included in the Commodity Index is a "limit price", which means that the closing price for such contract for a day has increased or decreased from the previous day's closing price by the maximum amount permitted under applicable exchange rules.

(iv) Disruption Fallback

"Disruption Fallback" means a source or method that may give rise to an alternative basis for determining the Relevant Price in respect of a specified Commodity Reference Price when a Market Disruption Event occurs or exists on a day that is a Pricing Date in respect of the relevant Instrument. A Disruption Fallback is applicable if it is specified in the applicable Final Terms or, if no Disruption Fallback is specified in the applicable Final Terms, shall mean:

- (A) with respect to a relevant Commodity (in the following order):
 - (i) Fallback Reference Price (if applicable);
 - (ii) Delayed Publication or Announcement and Postponement (each to operate concurrently with the other and each subject to a period of two consecutive Commodity Business Days (measured from and including the original day that would otherwise have been the

Pricing Date (or, if applicable, measured from and including the day that is the original date that would otherwise have been the Pricing Date, following any adjustment on account of such original date not being a Commodity Business Day)), or, if shorter, the period commencing on, and including, the original day that would otherwise have been the Pricing Date and ending on, and including, the Commodity Cut-Off Date) provided, however, that the price determined by Postponement shall be the Relevant Price only if Delayed Publication or Announcement does not yield a Relevant Price within those two consecutive Commodity Business Days (or, if applicable, the number of Commodity Business Days (if any) falling within the period ending on the Commodity Cut-Off Date); and

(iii) Calculation Agent Determination;

(B) with respect to a Commodity Index, the Calculation Agent shall determine the Relevant Price using (unless otherwise specified in the applicable Final Terms):

(i) with respect to each futures contract included in the Commodity Index which is not affected by the Market Disruption Event, the closing prices of each such contract on the applicable determination date;

(ii) with respect to each futures contract included in the Commodity Index which is affected by the Market Disruption Event, but for which a Market Disruption Event ceased to exist on or prior to the Commodity Index Cut-Off Date, the closing prices of each such contract on the first day following the applicable determination date on which no Market Disruption Event is occurring with respect to such contract; and

(iii) with respect to each futures contract included in the Commodity Index which is affected by the Market Disruption Event, where a Market Disruption Event continues to exist as of the Commodity Index Cut-Off Date, the Calculation Agent's good faith estimate of the closing price of each such contract on the Commodity Index Cut-Off Date;

Subject as provided below, the Calculation Agent shall determine the Relevant Price by reference to the closing prices determined in (i), (ii) and (iii) above or as specified in the applicable Final Terms above using the then-current method for calculating the Commodity Reference Price.

Where (A) the original date that would otherwise have been the Pricing Date is adjusted on account of such original date not being a Commodity Business Day, and the Pricing Date would fall on or after the Commodity Index Cut-Off Date following such adjustment, or (B) a Market Disruption Event with respect to one or more futures contracts included in the Commodity Index has occurred on an applicable determination date and continues to exist as of the relevant Commodity Index Cut-Off Date for such applicable determination date, the Calculation Agent shall determine the Relevant Price on such Commodity Index Cut-Off Date. In calculating the Relevant Price as set out herein, the Calculation Agent shall use the formula for calculating the Commodity Reference Price last in effect prior to the Market Disruption Event (if applicable).

5. Adjustments to a Commodity Index

(a) Consequences of a Successor Index Sponsor or a Successor Index

If a relevant Commodity Index is (i) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the "**Successor Index Sponsor**") acceptable to the Issuer, or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Commodity Index, then in each case that index (the "**Successor Index**") will be deemed to be the Commodity Index.

(b) Modification and Cessation of Calculation of a Commodity Index

If on or prior to a Pricing Date (i) the relevant Index Sponsor makes a material change in the formula for or the method of calculating a relevant Commodity Index or in any other way materially modifies that Commodity Index (other than a modification prescribed in that formula or method to maintain that Commodity Index in the event of changes in constituent commodities and weightings and other routine events), or (ii) the Index Sponsor permanently cancels a relevant Commodity Index or (iii) the Index Sponsor fails to calculate and announce a relevant Commodity Index and there is no Successor Index Sponsor or Successor Index or (iv) an Administrator/Benchmark Event Date occurs, then the Issuer may at its option (in the case of (i) and (iv)) and shall (in the case of (ii) and (iii)) (such events (i), (ii), (iii) and (iv) to be collectively referred to as "**Commodity Index Adjustment Events**") (provided that the Calculation Agent may, in its sole and absolute discretion, determine that event (iii) (y) shall not be a Commodity Index Adjustment Event and shall instead be dealt with under paragraph (a) of the proviso to the definition of Price Source specified in Commodity Linked Condition 2, or (z) shall instead amount to a Market Disruption Event in respect of such Commodity Index, and proceed in accordance with Commodity Linked Condition 4 take the action described in (A), (B) or (C) below:

- (A) calculate the Commodity Reference Price using in lieu of the published level for that Commodity Index, the level for that Commodity Index as at the relevant determination date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Commodity Index last in effect prior to the relevant Commodity Index Adjustment Event, but using only those futures contracts that comprised that Commodity Index immediately prior to the relevant Commodity Index Adjustment Event (other than those futures contracts that have ceased to be listed on any relevant exchange);
- (B) if the Calculation Agent determines that it is not reasonably practicable (taking into account the costs involved) to calculate or continue to calculate such Commodity Index pursuant to (A) above, the Calculation Agent may rebase the Instruments against another index or basket of indices, as applicable, determined by the Calculation Agent, in its sole and absolute discretion, to be comparable to such Commodity Index, and, following such rebasing, the Calculation Agent may make such adjustment(s) that it determines to be appropriate, if any, to any one or more of the terms of the Terms and Conditions and/or the applicable Final Terms as the Calculation Agent determines appropriate to account for such rebasing;
 - (C) (1) in the case of Notes, on giving notice to the Noteholders in accordance with Note Condition 14, redeem all (but not less than all) of the Notes, each Note being redeemed at the Early Redemption Amount; or
 - (2) in the case of W&C Instruments, on giving notice to Holders in accordance with W&C Instruments Condition 12, cancel the W&C Instruments. If the W&C Instruments are so cancelled, the Issuer will pay an amount to each Holder in respect of each W&C Instrument or Unit, as the case may be, held by him, which amount shall be the fair market value of a Commodity W&C Instrument or a Unit, as the case may be, taking into account the Commodity Index Adjustment Event, less the cost to the Issuer and/or any of its Affiliates of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), plus, in the case of Warrants, if already paid, the Exercise Price, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Instruments Condition 12.

Upon the occurrence of a Commodity Index Adjustment Event, the Issuer shall give notice as soon as reasonably practicable to the Holders in accordance with Note Condition 14 or Holders in accordance with W&C Instruments Condition 12, as applicable, giving details of the action proposed to be taken in relation thereto, provided that any failure to give, or non-receipt of, such notice will not affect the validity of such action. The Issuer shall make available for inspection by Holders copies of any such determinations.

6. Consequences of an Additional Disruption Event in respect of a Commodity Index

(a) Following the determination by the Calculation Agent that an Additional Disruption Event has occurred in respect of a Commodity Index, the Issuer in its sole and absolute discretion may take the action described in (i) or (ii) below:

(i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the other terms of the Terms and Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or

(ii) (A) in the case of Notes, give notice to Holders in accordance with Note Condition 14 and redeem all, but not less than all, of the Notes, each nominal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount; or

(B) in the case of W&C Instruments, give notice to the Holders in accordance with W&C Instruments Condition 12 and cancel the W&C Instruments. If the W&C Instruments are so cancelled the Issuer will pay an amount to each Holder in respect of each W&C Instrument or Unit, as the case may be, held by him which amount shall be the fair market value of a W&C Instrument or a Unit, as the case may be, taking into account the Additional Disruption Event less the cost to the Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) plus, in the case of Warrants, if already paid, the Exercise Price, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Instruments Condition 12.

(b) Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Note Condition 14 or W&C Instruments Condition 12, as applicable, stating the occurrence of the Additional Disruption Event giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

(c) The following terms and expressions shall have the following meanings:

"Additional Disruption Event" means any of a Change in Law, a Hedging Disruption, and/or an Increased Cost of Hedging (together the **"Additional Disruption Events"**).

"Change in Law" means that, on or after the Trade Date (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in good faith that (A) it has become illegal to hold, acquire or dispose of any relevant currency or asset, or (B) the Issuer or any affiliate(s) of the Issuer or any entity (or entities) acting on behalf of the Issuer engaged in any underlying or hedging transactions in respect of the Issuer's obligations under the Instruments will incur a materially increased cost in performing its obligations in relation to the Instruments (including,

without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).

"Hedging Disruption" means that the Issuer or any entity (or entities) acting on behalf of the Issuer engaged in any underlying or hedging transactions in respect of the Issuer's obligations in relation to the Instruments is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the commodity or other price risk of the Issuer issuing and performing its obligations with respect to or in connection with the relevant Instruments, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

"Increased Cost of Hedging" means that the Issuer and/or any of its Affiliates or agents acting on its behalf would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the commodity or other price risk of the Issuer issuing and performing its obligations with respect to the Instruments, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates or agents shall not be deemed an Increased Cost of Hedging.

"Averaging Date" means each date specified as an Averaging Date in the applicable Final Terms or, if any such date is not a Scheduled Trading Day, the immediately following Scheduled

Trading Day, (or, where the Fund Linked Instruments relate to a Basket of Funds and the applicable Final Terms provide that "Common Scheduled Trading Days" shall be applicable, the immediately following Common Scheduled Trading Day), or, if earlier, the Averaging Cut-Off Date. If any such day is a Disrupted Day:

- (a) if "**Omission**" is specified as applying in the applicable Final Terms, then such date will be deemed not to be an Averaging Date for the purposes of determining the relevant price; provided that, if through the operation of this provision there would not be an Averaging Date, then the provisions of the definition of "Valuation Date" will apply for purposes of determining the relevant price on the final Averaging Date, as if such final Averaging Date were a Valuation Date that was a Disrupted Day; or
- (b) if "**Postponement**" is specified as applying in the applicable Final Terms, then the provisions of the definition of "Valuation Date" will apply for the purposes of determining the relevant price on that Averaging Date as if such Averaging Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Averaging Date would fall on a day that already is or is deemed to be an Averaging Date; or
- (c) if "**Modified Postponement**" is specified as applying in the applicable Final Terms then:
 - (i) where the Fund Linked Instruments relate to a single Fund, the Averaging Date shall be the first succeeding Valid Date. If the first succeeding Valid Date has not occurred as of the Valuation Time on the Averaging Cut-Off Date or if such Averaging Date falls on the Averaging Cut-Off Date owing to the original date on which it was scheduled to fall not being a Scheduled Trading Day for the Fund, then (A) the Averaging Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the Averaging Cut-Off Date is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant price for that Averaging Date in accordance with sub-paragraph (a)(ii) of the definition of "Valuation Date" below;
 - (ii) where the Fund Linked Instruments relate to a Basket of Funds and the applicable Final Terms provide that "Common Scheduled Trading Days" shall not be applicable, the Averaging Date for each Fund Share not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (following adjustment of such date owing to the original date not being a Scheduled Trading Day, if applicable) (the "**Scheduled Averaging Date**") and the Averaging Date for a Fund Share affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Fund Share. If the first succeeding Valid Date in relation to such Fund Share has not occurred as of the Valuation Time on the Averaging Cut-Off Date or if such Averaging Date falls on the Averaging Cut-Off Date owing to the original date on which it was scheduled to fall not being a Scheduled Trading Day for such Fund Share, then (A) the Averaging Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the Averaging Cut-Off Date is already an Averaging Date) in relation to such Fund Share, and (B) the Calculation Agent shall determine the relevant price for that Averaging Date in accordance with sub-paragraph (b)(ii) of the definition of "Valuation Date" below;
 - (iii) where the Fund Linked Instruments relate to a Basket of Funds and the applicable Final Terms provide that "Common Scheduled Trading Days" and "Individual Disrupted Days" shall be applicable, the Averaging Date for each Fund Share not affected by the occurrence of a Disrupted Day shall be the originally designated Averaging Date (following adjustment of such date owing to the original date not being a Common Scheduled Trading Day, if applicable) (the "**Scheduled Averaging Date**") and the Averaging Date for a Fund Share affected by the occurrence of a Disrupted Day shall be the first succeeding Valid Date in relation to such Fund Share. If the first succeeding Valid Date in relation to such Fund Share has not occurred as of the Valuation Time on the Averaging Cut-Off Date or if such Averaging Date falls on the Averaging Cut-Off Date owing to the

original date on which it was scheduled to fall not being a Common Scheduled Trading Day, then (A) the Averaging Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the Averaging Cut-Off Date is already an Averaging Date) in relation to such Fund Share, and (B) the Calculation Agent shall determine the relevant price for that Averaging Date in accordance with sub-paragraph (c)(ii) of the definition of "Valuation Date" below; or

- (iv) where the Fund Linked Instruments relate to a Basket of Funds and the applicable Final Terms provide that "Common Scheduled Trading Days" and "Common Disrupted Days" shall be applicable, the Averaging Date for each Fund Share shall be the first succeeding Common Valid Date in relation to such Fund Share. If the first succeeding Common Valid Date has not occurred as of the Valuation Time on the Averaging Cut-Off Date or if such Averaging Date falls on the Averaging Cut-Off Date owing to the original date on which it was scheduled to fall not being a Common Scheduled Trading Day, then (A) the Averaging Cut-Off Date shall be deemed to be the Averaging Date (irrespective of whether the Averaging Cut-Off Date is already an Averaging Date), and (B) the Calculation Agent shall determine the relevant level or price for that Averaging Date in accordance with sub-paragraph (d)(ii) of the definition of "Valuation Date" below,

If such day is a Disrupted Day, then:

- (a) where the Fund Linked Instruments relate to a single Fund, the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the Scheduled Trading Days up to, and including, the Valuation Cut-Off Date is a Disrupted Day. In that case, or if such Valuation Date falls on the Valuation Cut-Off Date owing to the original date on which it was scheduled to fall not being a Scheduled Trading Day for such Fund Share, (i) the Valuation Cut-Off Date shall be deemed to be the Valuation Date (notwithstanding the fact that such day may be a Disrupted Day) and (ii) the Calculation Agent shall determine the relevant price in the manner set out in the applicable Final Terms or, if not set out or if not practicable, determine the relevant price in accordance with its good faith estimate of the relevant price as of the Valuation Time on the Valuation Cut-Off Date; or
- (b) where the Fund Linked Instruments relate to a Basket of Funds and the applicable Final Terms provides that "Common Scheduled Trading Days" shall not be applicable, the Valuation Date for each Fund Share not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date (or, if earlier, the Valuation Cut-Off Date) and the Valuation Date for each Fund Share affected (each an "**Affected Fund Share**") by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to the Affected Fund Share, unless each of the Scheduled Trading Days immediately following the Scheduled Valuation Date up to and including the Valuation Cut-Off Date is a Disrupted Day relating to the Affected Fund Share. In that case, or if such Valuation Date falls on the Valuation Cut-Off Date owing to the original date on which it was scheduled to fall not being a Scheduled Trading Day for such Fund Share, (i) the Valuation Cut-Off Date shall be deemed to be the Valuation

Date for such Fund Share (notwithstanding the fact that such day may be a Disrupted Day) and (ii) the Calculation Agent shall determine the relevant price using, in relation to such Fund Share, a price determined in the manner set out in the applicable Final Terms or, if not set out or if not practicable, using its good faith estimate of the price for the Affected Fund Share as of the Valuation Time on the Valuation Cut-Off Date, and otherwise in accordance with the above provisions;

- (c) where the Fund Linked Instruments relate to a Basket of Funds and the applicable Final Terms provides that "Common Scheduled Trading Days" and "Individual Disrupted Days" shall be applicable, the Valuation Date for each Fund Share not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date (or if the Scheduled Valuation Date is not a Common Scheduled Trading Day, the immediately following Common Scheduled Trading Day, or in either case, if earlier, the Valuation Cut-Off Date) and the Valuation Date for each Fund Share affected (each an "**Affected Fund Share**") by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day relating to the Affected Fund Share, unless each of the Scheduled Trading Days immediately following the Scheduled Valuation Date (or if the Scheduled Valuation Date is not a Common Scheduled Trading Day, the immediately following Common Scheduled Trading Day) up to, and including, the Valuation Cut-Off Date is a Disrupted Day relating to the Affected Fund Share. In that case, or if such Valuation Date falls on the Valuation Cut-Off Date owing to the original date on which it was scheduled to fall not being a Common Scheduled Trading Day, (i) the Valuation Cut-Off Date shall be deemed to be the Valuation Date for such Fund Share (notwithstanding the fact that such day may be a Disrupted Day for a Fund Share or not a Common Scheduled Trading Day) and (ii) the Calculation Agent shall determine the relevant price using, in relation to such Fund Share, a price determined in the manner set out in the applicable Final Terms or, if not set out or if not practicable, using its good faith estimate of the price for such Fund Share as of the Valuation Time on the Valuation Cut-Off Date, and otherwise in accordance with the above provisions; or
- (d) where the Fund Linked Instruments relate to a Basket of Funds and the applicable Final Terms provides that "Common Scheduled Trading Days" and "Common Disrupted Days" shall be applicable, the Valuation Date shall be the first succeeding Common Scheduled Trading Day that is not a Disrupted Day for any Fund Share, unless each of the Common Scheduled Trading Days immediately following the Scheduled Valuation Date up to, and including, the Valuation Cut-Off Date is a Disrupted Day for one or more Fund Shares. In that case, or if the Valuation Date falls on the Valuation Cut-Off Date owing to the original date on which it was scheduled to fall not being a Common Scheduled Trading Day, (i) the Valuation Cut-Off Date shall be deemed to be the Valuation Date (notwithstanding the fact that such day may be a Disrupted Day for a Fund Share or not a Common Scheduled Trading Day) and (ii) the Calculation Agent shall determine the relevant price using, in relation to each Fund Share for which the Valuation Cut-Off Date is a Disrupted Day or is not a Common Scheduled Trading Day, a price determined in the manner set out in the applicable Final Terms or, if not set out or if not practicable, using its good faith estimate of the price for such Fund Share as of the Valuation Time on the Valuation Cut-Off Date, and otherwise in accordance with the above provisions.

"Valuation Time" means the Valuation Time specified in the applicable Final Terms or, if no Valuation Time is specified, the Scheduled Closing Time on the relevant Exchange on the relevant Valuation Date in relation to each Fund Share to be valued. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.

"Worst Performing Fund Share" means, in respect of a Basket of Funds and the Valuation Date (unless otherwise specified in the applicable Final Terms), the Fund Share with the lowest Fund Performance on such day, as determined by the Calculation Agent (provided that if two or more Fund Shares have the same lowest Fund Performance on such day, the Calculation Agent shall determine which Fund Share shall be the Worst Performing Fund Share in its sole and absolute discretion, and such Fund Share shall be the Worst Performing Fund Share).

8. **Barrier Event**

- (a) A "**Barrier Event (intraday)**" means (and a Barrier Event (intraday) shall be deemed to occur if), in respect of a Fund Share, the Calculation Agent determines that the Fund Share Price of such Fund Share as of the Barrier Event Valuation Time (intraday) on any Barrier Event Determination Day is less than or equal to the corresponding Barrier Level for such Fund Share and such Barrier Event Determination Day.

For the purpose of determining whether a Barrier Event (intraday) has occurred on any day, the definition of Market Disruption Event specified in Fund Linked Condition 9 shall be amended such that (i) all references to "during the one-hour period that ends at the relevant Valuation Time" shall be deleted, and (ii) in sub-paragraph (b) each reference to "Valuation Time" and "Scheduled Closing Time" shall be construed as a reference to "Barrier Event Valuation Time (intraday)".

- (b) A "**Barrier Event (closing)**" means (and a Barrier Event (closing) shall be deemed to occur if), in respect of a Fund Share, the Calculation Agent determines that the Fund Share Closing Price of any Fund Share as of the Barrier Event Valuation Time (closing) on any Barrier Event Determination Day is less than or equal to the corresponding Barrier Level for such Fund Share and such Barrier Event Determination Day.

9. **Market Disruption**

"**Market Disruption Event**" means, in respect of a Fund Share:

- (a) the occurrence or existence at any time during the one-hour period that ends at the relevant Valuation Time:
- (i) of any suspension of or limitation imposed on trading by the relevant Exchange or Related Exchange or otherwise and whether by reason of movements in price exceeding limits permitted by the relevant Exchange or Related Exchange or otherwise:
 - (A) relating to the relevant Fund Share on such Exchange; or
 - (B) relating to securities that comprise 20 per cent. or more of the level of the relevant Underlying Index or any relevant successor index; or
 - (C) in futures or options contracts relating to such Fund Shares or the relevant Underlying Index on any relevant Related Exchange, or
 - (ii) of any event (other than an event described in (b) below) that disrupts or impairs (as determined by the Calculation Agent) the ability of market participants in general to (A) effect transactions in, or obtain market values for, the Fund Shares on the Exchange, (B) effect transactions in, or obtain market values for securities that comprise 20 per cent. or more of the level of the relevant Underlying Index, or (C) to effect transactions in, or obtain market values for, futures or options contracts relating to such Fund Shares or the relevant Underlying Index on any relevant Related Exchange; or
- (b) the closure on any Exchange Business Day of any relevant Exchange(s) or any Related Exchange(s) prior to its Scheduled Closing Time unless such earlier closing time is announced by such Exchange(s) or such Related Exchange(s), as the case may be, at least one hour prior to (i) the actual closing time for the regular trading session on such Exchange(s) or such Related Exchange on such Exchange Business Day or, if earlier, (ii) the submission deadline for orders to be entered into such Exchange or Related Exchange system for execution at the Valuation Time on such Exchange Business Day,

which in any such case the Calculation Agent determines is material.

For the purpose of determining whether a Market Disruption Event exists in respect of a Fund Share at any time, if an event giving rise to a Market Disruption Event occurs in respect of a

security included in the relevant Underlying Index at that time, then the relevant percentage contribution of that security, to the level of the relevant Underlying Index shall be based on a comparison of (a) the portion of the level of the relevant Underlying Index attributable to that security, and (b) the overall level of the relevant Underlying Index immediately before the occurrence of such Market Disruption Event.

The Issuer shall give notice as soon as practicable to the Holders in accordance with Note Condition 14 in the case of Notes, or W&C Instruments Condition 12 in the case of W&C Instruments of the occurrence of a Disrupted Day on any day that, but for the occurrence of a Disrupted Day, would have been a Valuation Date provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Disrupted Day.

10. **Potential Adjustment Event**

"Potential Adjustment Event" means any of the following:

- (a) a subdivision, consolidation or reclassification of relevant Fund Shares (unless resulting in a Merger Event or Tender Offer), or a free distribution or dividend of any such Fund Shares to existing holders by way of bonus, capitalisation or similar issue;
- (b) a distribution, issue or dividend to existing holders of the relevant Fund Shares of (i) such Fund Shares or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of liquidation of the ETF equally or proportionately with such payments to holders of such Fund Shares or (iii) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the ETF as a result of a spin-off or other similar transaction, or (iv) any other type of securities, rights or warrants or other assets in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Calculation Agent;
- (c) an extraordinary dividend as determined by the Calculation Agent;
- (d) a call by the ETF in respect of relevant Fund Shares that are not fully paid;
- (e) a repurchase by the ETF or any of its subsidiaries of relevant Fund Shares, whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (f) in respect of an ETF, an event that results in any shareholder rights being distributed or becoming separated from Fund Shares of common stock or other shares of the capital stock of the ETF pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, as determined by the Calculation Agent, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or
- (g) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Fund Shares.

Following a Potential Adjustment Event, the Calculation Agent will, in its sole and absolute discretion, determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Fund Shares and, if so, will (a) make the corresponding adjustment(s), if any, to any one or more of the terms of the Terms and Conditions of the Instruments and/or the applicable Final Terms as the Calculation Agent determines appropriate to account for that diluting or concentrative effect and (b) determine the effective date(s) of that adjustment(s). The Calculation Agent may, but need not, determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the relevant Fund Shares traded on such options exchange.

Upon the making of any such adjustment, the Calculation Agent shall as soon as is reasonably practicable under the circumstances give notice to the Holders in accordance with Note Condition 14 in the case of Notes or W&C Instruments Condition 12 in the case of W&C

Instruments, as applicable, stating the adjustment made and giving brief details of the Potential Adjustment Event, provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such adjustment.

11. **De-Listing, Insolvency, Material Underlying Event, Merger Date, Merger Event, Nationalisation, Tender Offer**

"**De-Listing**" means, in respect of a Fund Share, that the relevant Exchange announces that pursuant to the rules of such Exchange, such Fund Share ceases (or will cease) to be listed, traded or publicly quoted on such Exchange for any reason (other than a Merger Event or Tender Offer) and is not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in the same country as the Exchange (or, where the Exchange is within the European Union, in a member state of the European Union).

"**Insolvency**" means that by reason of the voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any analogous proceeding affecting an ETF, (a) all the Fund Shares of that ETF are required to be transferred to a trustee, liquidator or other similar official or (b) holders of the Fund Shares of that ETF become legally prohibited from transferring them.

"**Material Underlying Event**" means any of the following:

- (a) the investment objectives and/or policies in respect of the ETF are materially changed;
- (b) an illegality occurs or a relevant authorisation or licence is revoked in respect of the ETF and/or the ETF is required by a competent authority (other than any holder of the Fund Shares) to redeem any Fund Shares;
- (c) there is a change in any relevant jurisdiction in respect of any payments made by the ETF in respect of any Fund Share as a result of which the amounts paid or to be paid by the Issuer in connection with hedging arrangements relating to the Instruments are materially reduced or otherwise adversely affected; and/or
- (d) any other event occurs in relation to the ETF and/or the Fund Shares which is materially prejudicial to the Issuer in connection with the issue of the Instruments or any hedging arrangements relating to the Instruments,

as determined by the Calculation Agent.

"**Merger Date**" means the closing date of a Merger Event or, where a closing date cannot be determined under the local law applicable to such Merger Event, such other date as determined by the Calculation Agent.

"**Merger Event**" means, in respect of any relevant Fund Shares, any (a) reclassification or change of such Fund Shares that results in a transfer of or an irrevocable commitment to transfer all of such Fund Shares outstanding to another entity or person, (b) consolidation, amalgamation, merger or binding share exchange of the ETF with or into another entity or person (other than a consolidation, amalgamation, merger or binding share exchange in which such ETF is the continuing entity and which does not result in any such reclassification or change of all such Fund Shares outstanding) or (c) takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person to purchase or otherwise obtain 100 per cent. of the outstanding Fund Shares of the relevant ETF that results in a transfer of or an irrevocable commitment to transfer all such Fund Shares (other than such Fund Shares owned or controlled by such other entity or person), or (d) consolidation, amalgamation, merger or binding share exchange of the ETF or its subsidiaries with or into another entity in which the ETF is the continuing entity and which does not result in a reclassification or change of all such Fund Shares outstanding but results in the outstanding Fund Shares (other than Fund Shares owned or controlled by such other entity) immediately prior to such event collectively representing less than 50 per cent. of the outstanding Fund Shares immediately following such event (a "**Reverse Merger**"), in each case if the Merger Date is on or before the Valuation Date (or such other date as is specified in the applicable Final Terms).

"Nationalisation" means that all the Fund Shares or all or substantially all the assets of an ETF are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof.

"Tender Offer" means a takeover offer, tender offer, exchange offer, solicitation, proposal or other event by any entity or person that results in such entity or person purchasing, or otherwise obtaining or having the right to obtain, by conversion or other means, greater than 10 per cent. and less than 100 per cent. of the outstanding voting shares of the relevant ETF, as determined by the Calculation Agent, based upon the making of filings with governmental or self-regulatory agencies or such other information as the Calculation Agent deems relevant.

"Tender Offer Date" means, in respect of a Tender Offer, the date on which voting shares in the amount of the applicable percentage threshold are actually purchased or otherwise obtained (as determined by the Calculation Agent).

If a De-Listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event occurs in relation to any Fund Share, the Issuer in its sole and absolute discretion may take the action described in (a), (b) or (c) below:

- (a) require the Calculation Agent, in its sole and absolute discretion, to determine the appropriate adjustment(s), if any, to be made to any one or more of the terms of the Terms and Conditions and/or the applicable Final Terms to account for the De-Listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event, as the case may be, and determine the effective date(s) of that adjustment(s). The Calculation Agent may (but need not) determine the appropriate adjustment(s) by reference to the adjustment(s) in respect of the De-Listing, Merger Event, Tender Offer, Nationalisation, Insolvency or Material Underlying Event made by any options exchange to options on the relevant Fund Share traded on that options exchange;
- (b)
 - (i) in the case of Notes give notice to the Noteholders in accordance with Note Condition 14, and redeem all, but not less than all, of the Notes, each nominal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount, or
 - (ii) in the case of W&C Instruments cancel the W&C Instruments by giving notice to Holders in accordance with W&C Instruments Condition 12. If the W&C Instruments are so cancelled the Issuer will pay an amount to each Holder in respect of each W&C Instrument, or Unit, as the case may be, held by him which amount shall be the fair market value of a W&C Instrument, or Unit, as the case may be, taking into account the Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency or Material Underlying Event, as the case may be, less the cost to the Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) plus, in the case of Warrants, if already paid, the Exercise Price, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Instruments Condition 12; or
- (c) following such adjustment to the settlement terms of options on the Fund Shares traded on such exchange(s) or quotation system(s) as the Issuer in its sole discretion shall select (the "**Options Exchange**"), require the Calculation Agent to make a corresponding adjustment to any one or more of the terms of the Terms and Conditions and/or the applicable Final Terms, which adjustment will be effective as of the date determined by the Calculation Agent to be the effective date of the corresponding adjustment made by the Options Exchange. If options on the Fund Shares are not traded on the Options Exchange, the Calculation Agent will make such adjustment, if any, to any one or more of the terms of the Terms and Conditions and/or the applicable Final Terms as the Calculation Agent in its sole and absolute discretion determines appropriate, with reference to the rules and precedents (if any) set by the Options Exchange to account for the Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency or Material Underlying Event, as the case may be, that in the determination of the Calculation Agent

would have given rise to an adjustment by the Options Exchange if such options were so traded.

Upon the occurrence of a Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency or Material Underlying Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Note Condition 14 (in the case of Notes) or W&C Instruments Condition 12 (in the case of W&C Instruments) stating the occurrence of the Merger Event, Tender Offer, Nationalisation, De-listing, Insolvency or Material Underlying Event, as the case may be, giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of any such Merger Event, Tender Offer, De-listing, Nationalisation, Insolvency or Material Underlying Event, as the case may be.

12. Additional Disruption Events

- (a) **"Additional Disruption Event"** means any of Change in Law, Hedging Disruption and/or Increased Cost of Hedging, in each case if specified in the applicable Final Terms.

"Change in Law" means that, on or after the Trade Date, (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in its sole and absolute discretion that (A) it has become illegal to hold, acquire or dispose of any relevant Fund Share or (B) it will incur a materially increased cost in performing its obligations in relation to the Fund Linked Instruments (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer and/or any of its affiliates).

"Hedging Disruption" means that the Issuer and/or any of its Affiliates or agents is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Fund Linked Instruments, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

"Increased Cost of Hedging" means that the Issuer and/or any of its Affiliates or agents would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Issuer issuing and performing its obligations with respect to the Fund Linked Instruments, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates or agents shall not be deemed an Increased Cost of Hedging.

- (b) If an Additional Disruption Event occurs, the Issuer in its sole and absolute discretion may take the action described in (i) or (ii) below:
- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the other terms of the Terms and Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) (A) in the case of Notes, give notice to Holders in accordance with Note Condition 14 and redeem all, but not less than all, of the Notes, each nominal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount; or

- (B) in the case of W&C Instruments, give notice to the Holders in accordance with W&C Instruments Condition 12 and cancel the W&C Instruments. If the W&C Instruments are so cancelled the Issuer will pay an amount to each Holder in respect of each W&C Instrument or Unit, as the case may be, held by him which amount shall be the fair market value of a W&C Instrument or a Unit, as the case may be, taking into account the Additional Disruption Event less the cost to the Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements) plus, in the case of Warrants, if already paid, the Exercise Price, all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Instruments Condition 12.
- (c) Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Note Condition 14 or W&C Instruments Condition 12, as applicable, stating the occurrence of the Additional Disruption Event giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

13. **Application of Dividend Conditions**

Fund Linked Conditions 14 and/or 15 (as specified in the applicable Final Terms) shall only apply to any Fund Linked W&C Instruments linked to Exchange Traded Funds in respect of which the applicable Final Terms specify that the "Dividend Conditions" shall be applicable.

14. **Definitions (Dividend Conditions)**

- (b) European Style Warrants and Certificates, the period commencing on, but excluding, the Trade Date and ending on, and including, the Exercise Date.

"**Dividend Taxes**" means, in respect of the Fund Share and a Relevant Cash Dividend, any amounts that would have been withheld for or on account of tax if such cash dividend is paid to a Hypothetical Broker Dealer as the holder of one Fund Share, and excluding any reduction of such tax that is available to a Hypothetical Broker Dealer pursuant to a double tax treaty or any other applicable domestic exemption, where each such tax is converted into the Settlement Currency using the relevant Exchange Rate on or around the date on which such tax is due, as determined by the Calculation Agent.

"**Ex-Dividend Date**" means, in respect of the Fund Share and a Gross Cash Dividend in respect of such Fund Share, the date that the Fund Share commences trading ex-dividend in respect of such Gross Cash Dividend on the Exchange, as determined by the Calculation Agent.

"**Gross Cash Dividend**" means, in respect of the Fund Share, each sum declared by the relevant ETF as a dividend for one such Fund Share before the withholding or deduction of taxes at the source by or on behalf of any applicable authority having power to tax in respect of such a dividend, and shall exclude any imputation or other credits, refunds or deductions granted by any applicable authority having power to tax in respect of such dividend and any taxes, credits, refunds or benefits imposed, withheld, assessed or levied thereon.

"**Hypothetical Broker Dealer**" means a hypothetical broker dealer subject to the same securities laws and rules and regulations of any securities regulators, exchanges and self-regulating organisations as applicable to the Issuer or the Dealer, provided, however, that such

hypothetical broker dealer is deemed not entitled to any benefits, exemption or reduction in tax pursuant to any double tax treaty or otherwise.

"Relevant Cash Dividend" means in respect of the Fund Share, a Gross Cash Dividend per Fund Share as declared by the relevant ETF where the Ex-Dividend Date falls within the Dividend Period and the full payment in cash in respect of such Gross Cash Dividend would have been made to a Hypothetical Broker Dealer as the holder of one Fund Share within the Dividend Period, as determined by the Calculation Agent.

15. **Additional Amounts**

Unless the W&C Instruments have previously been exercised, or purchased and cancelled in accordance with the Conditions (as supplemented and amended herein), the Issuer shall pay to the Holder of each W&C Instrument the Additional Amount in respect of such W&C Instrument on each Additional Amount Payment Date. W&C Instruments Conditions 26(A) and (B) (in respect of Warrants) and W&C Instruments Conditions 33(A) and (B) (in respect of Certificates) shall not apply.

"Additional Amount" means, in respect of the Fund Share and a Relevant Cash Dividend, an amount calculated by the Calculation Agent as:

- (a) an amount equal to the difference between (i)(A) the product of the Additional Amount Proportion multiplied by the Relevant Cash Dividend per Fund Share that would have been received by a Hypothetical Broker Dealer as the holder of one Fund Share, divided by (B) the relevant Exchange Rate on or around the date on which such Relevant Cash Dividend would have been received by a Hypothetical Broker Dealer from the relevant ETF, minus (ii) any Dividend Taxes; multiplied by
- (b) the Number of Fund Shares per W&C Instrument in respect of the Fund Share.

"Additional Amount Payment Date" means, unless otherwise specified in the applicable Final Terms, in respect of each Additional Amount, the fifth Business Day following the date on which the corresponding Relevant Cash Dividend would have been received, from the relevant ETF by a Hypothetical Broker Dealer as the holder of the relevant Fund Share.

"Additional Amount Proportion" means the amount specified as such in the applicable Final Terms.

"Number of Fund Shares per W&C Instrument" means the amount specified as such in the applicable Final Terms.

ANNEX 8

ADDITIONAL TERMS AND CONDITIONS FOR INFLATION LINKED INSTRUMENTS

1. **Interpretation**

If specified as applicable in the applicable Final Terms, the terms and conditions applicable to Inflation Linked Notes shall comprise the terms and conditions of the Notes (the "**Note Conditions**") and the Additional Terms and Conditions for Inflation Linked Instruments set out below (the "**Inflation Linked Conditions**"), in each case subject to completion and/or amendment in the applicable Final Terms. The terms and conditions applicable to Inflation Linked W&C Instruments shall comprise the terms and conditions of the W&C Instruments (the "**W&C Instruments Conditions**") and the Inflation Linked Conditions, in each case subject to completion and/or amendment in the applicable Final Terms. In the event of any inconsistency between the Note Conditions, in the case of Notes, or the W&C Instruments Conditions, in the case of W&C Instruments, and the Inflation Linked Conditions, the Inflation Linked Conditions shall prevail. In the event of any inconsistency between (a) the Note Conditions or the W&C Instruments Conditions and/or the Inflation Linked Conditions and (b) the applicable Final Terms, the applicable Final Terms shall prevail. References in the Inflation Linked Conditions to "Instrument" and "Instruments" shall be deemed to be references to "Note" and "Notes" or "W&C Instrument" and "W&C Instruments" as the context admits.

2. **Definitions**

For the purpose of the Inflation Linked Instruments:

"Cut-Off Date" means, in respect of a Determination Date, five Business Days prior to such Determination Date, unless otherwise stated in the applicable Final Terms.

"Delayed Index Level Event" means, in respect of any Determination Date and an Inflation Index, that the relevant Inflation Index Sponsor fails to publish or announce the level of such Inflation Index (the "**Relevant Level**") in respect of any Reference Month which is to be utilised in any calculation or determination to be made by the Issuer in respect of such Determination Date, at any time on or prior to the Cut-Off Date.

"Determination Date" means each date specified as such in the applicable Final Terms.

"End Date" means each date specified as such in the applicable Final Terms.

"Fallback Bond" means, in respect of an Inflation Index, a bond selected by the Calculation Agent and issued by the government of the country to whose level of inflation the relevant Inflation Index relates, and which pays a coupon or redemption amount which is calculated by reference to such Inflation Index, with a maturity date which falls on (a) the same day as the End Date as specified in the applicable Final Terms, (b) the next longest maturity after the End Date if there is no such bond maturing on the End Date, or (c) the next shortest maturity before the End Date if no bond defined in (a) or (b) is selected by the Calculation Agent. If the relevant Inflation Index relates to the level of inflation across the European Monetary Union, the Calculation Agent will select an inflation-linked bond that is a debt obligation of one of the governments (but not any government agency) of France, Italy, Germany or Spain and which pays a coupon or redemption amount which is calculated by reference to the level of inflation in the European Monetary Union. In each case, the Calculation Agent will select the Fallback Bond from those inflation linked bonds issued on or before the Issue Date and, if there is more than one inflation-linked bond maturing on the same date, the Fallback Bond shall be selected by the Calculation Agent from those bonds. If the Fallback Bond redeems, the Calculation Agent will select a new Fallback Bond on the same basis, but selected from all eligible bonds in issue at the time the original Fallback Bond redeems (including any bond for which the redeemed bond is exchanged).

"Inflation Index" means each inflation index specified in the applicable Final Terms and related expressions shall be construed accordingly.

"Inflation Index Sponsor" means, in relation to an Inflation Index, the entity that publishes or announces (directly or through an agent) the level of such Inflation Index which, as of the Issue Date, is the Inflation Index Sponsor specified in the applicable Final Terms.

"Reference Month" means the calendar month for which the level of the Inflation Index was reported, regardless of when this information is published or announced. If the period for which the level of the Inflation Index was reported is a period other than a month, the Reference Month shall be the period for which the level of the Inflation Index was reported.

"Related Bond" means, in respect of an Inflation Index, the bond specified as such in the applicable Final Terms. If the Related Bond specified in the applicable Final Terms is "Fallback Bond", then, for any Related Bond determination, the Calculation Agent shall use the Fallback Bond. If no bond is specified in the applicable Final Terms as the Related Bond and "Fallback Bond: Not Applicable" is specified in the applicable Final Terms there will be no Related Bond. If a bond is selected as the Related Bond in the applicable Final Terms and that bond redeems or matures before the End Date, unless "Fallback Bond: Not Applicable" is specified in the applicable Final Terms, the Calculation Agent shall use the Fallback Bond for any Related Bond determination.

3. Inflation Index Adjustments

(a) Delay in Publication

Subject to Inflation Linked Condition 3(b), if the Calculation Agent determines that a Delayed Index Level Event in respect of an Inflation Index has occurred with respect to any Determination Date, then the Relevant Level for such Inflation Index the subject of such Delayed Index Level Event (the **"Substitute Index Level"**) shall be determined by the Calculation Agent as follows:

- (i) if Related Bond is specified as applicable for such Inflation Index in the applicable Final Terms, the Calculation Agent shall determine the Substitute Index Level by reference to the corresponding index level determined under the terms and conditions of the relevant Related Bond; or
- (ii) if (A) Related Bond is not specified as applicable for such Inflation Index in the applicable Final Terms, or (B) the Calculation Agent is not able to determine a Substitute Index Level under (i) above, the Calculation Agent shall determine the Substitute Index Level by reference to the following formula:

$$\text{Substitute Index Level} = \text{Base Level} \times (\text{Latest Level}/\text{Reference Level})$$

where:

"Base Level" means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month which is 12 calendar months prior to the month for which the Substitute Index Level is being determined.

"Latest Level" means, in respect of an Inflation Index, the latest level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor prior to the month in respect of which the Substitute Index Level is being determined.

"Reference Level" means, in respect of an Inflation Index, the level of such Inflation Index (excluding any "flash" estimates) published or announced by the relevant Inflation Index Sponsor in respect of the month that is 12 calendar months prior to the month in respect of the Latest Level.

The Issuer shall give notice to Holders in accordance with Note Condition 14, or W&C Instruments Condition 12, as applicable, of any Substitute Index Level calculated pursuant to this Inflation Linked Condition 3.

(b) Cessation of Publication

If a level for the Inflation Index has not been published or announced for two consecutive months or the Inflation Index Sponsor announces that it will no longer continue to publish or announce the Inflation Index then the Calculation Agent shall determine a successor index (in lieu of any previously applicable Inflation Index) for the purposes of the Inflation Linked Instruments by using the following methodology:

- (i) if, at any time, a successor index has been designated by the Calculation Agent pursuant to the terms and conditions of the Related Bond, such successor index shall be designated a "Successor Index" notwithstanding that any other Successor Index may previously have been determined under paragraphs (ii), (iii) or (iv) below; or
- (ii) if a Successor Index has not been determined pursuant to Inflation Linked Condition 3(b)(i) and a notice has been given or an announcement has been made by the Inflation Index Sponsor, specifying that the Inflation Index will be superseded by a replacement Inflation Index specified by the Inflation Index Sponsor, and the Calculation Agent determines that such replacement index is calculated using the same or substantially similar formula or method of calculation as used in the calculation of the previously applicable Inflation Index, such replacement index shall be the Inflation Index for purposes of the Inflation Linked Instruments from the date that such replacement Inflation Index comes into effect; or
- (iii) if a Successor Index has not been determined pursuant to Inflation Linked Condition 3(b)(i) or Inflation Linked Condition 3(b)(ii), the Calculation Agent shall ask five leading independent dealers to state what the replacement index for the Inflation Index should be. If between four and five responses are received, and of those four or five responses, three or more leading independent dealers state the same index, this index will be deemed the "Successor Inflation Index". If three responses are received, and two or more leading independent dealers state the same index, this index will be deemed the "Successor Inflation Index". If fewer than three responses are received, the Calculation Agent will proceed to Inflation Linked Condition 3(b)(iv); or
- (iv) if no replacement index or Successor Inflation Index has been deemed under Inflation Linked Conditions 3(b)(i), 3(b)(ii) or 3(b)(iii), by the next occurring Cut-Off Date the Calculation Agent will determine an appropriate alternative index from such Cut-Off Date, and such index will be deemed a "Successor Inflation Index"; or
- (v) (A) if the Calculation Agent determines that there is no appropriate alternative index, in relation to Notes, the Issuer shall give notice to the Holders in accordance with Note Condition 14 and redeem all (but not less than all) of the Notes, each nominal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount; or
- (B) in relation to W&C Instruments, the Issuer shall give notice to the Holders in accordance with W&C Instruments Condition 12 and cancel the W&C Instruments. If the W&C Instruments are so cancelled the Issuer will pay an amount to each Holder in respect of each W&C Instrument or Unit, as the case may be, held by him which amount shall be the fair market value of a W&C Instrument or a Unit, as the case may be, less the cost to the Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Instruments Condition 12.

(c) Rebasing of the Inflation Index

If the Calculation Agent determines that the Inflation Index has been or will be rebased at any time, the Inflation Index as so rebased (the "**Rebased Index**") will be used for purposes of determining the level of the Inflation Index from the date of such rebasing; provided, however, that the Calculation Agent shall make adjustments as are made by the calculation agent pursuant to the terms and conditions of the Related Bond, if Related Bond is specified as applicable in the applicable Final Terms, to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased, or, if Related Bond is not specified as applicable in the applicable Final Terms the Calculation Agent shall make adjustments to the levels of the Rebased Index so that the Rebased Index levels reflect the same rate of inflation as the Inflation Index before it was rebased.

(d) Material Modification Prior to Last Occurring Cut-Off

If, on or prior to the last occurring Cut-Off Date, the Inflation Index Sponsor announces that it will make a material change to the Inflation Index then the Calculation Agent shall make any such adjustments, if Related Bond is specified as applicable in the applicable Final Terms, consistent with adjustments made to the Related Bond, or, if Related Bond is not specified as applicable in the applicable Final Terms, only those adjustments to the Inflation Index necessary for the modified Inflation Index to continue as the Inflation Index.

(B) Interpretation of Provisions

- (1) If (i) either of the Deliverable Obligation Characteristics "Listed", "Not Domestic Issuance" or "Not Bearer" is specified in the applicable Final Terms, the applicable Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Bonds and shall only be relevant if Bonds are covered by the selected Deliverable Obligation Category; (ii) the Deliverable Obligation Characteristic "Transferable" is specified in the applicable Final Terms, the applicable Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Deliverable Obligations that are not Loans (and shall only be relevant to the extent that obligations other than Loans are covered by the selected Deliverable Obligation Category); or (iii) any of the Deliverable Obligation Characteristics "Assignable Loan", "Consent Required Loan" or "Direct Loan Participation" is specified in the applicable Final Terms, the applicable Final Terms shall be construed as though such Deliverable Obligation Characteristic had been specified as a Deliverable Obligation Characteristic only with respect to Loans and shall only be relevant if Loans are covered by the selected Deliverable Obligation Category.
- (2) If any of Payment, Borrowed Money, Loan or Bond or Loan is specified as the Deliverable Obligation Category and more than one of Assignable Loan, Consent Required Loan and Direct Loan Participation are specified as Deliverable Obligation Characteristics, the Deliverable Obligations may include any Loan that satisfies any one of such Deliverable Obligation Characteristics specified and need not satisfy all such Deliverable Obligation Characteristics.
- (3) If a Deliverable Obligation is a Relevant Guarantee, the following will apply:

- (a) For purposes of the application of the Deliverable Obligation Category, the Relevant Guarantee shall be deemed to satisfy the same category or categories as those that describe the Underlying Obligation;

- (4) For purposes of the application of the Deliverable Obligation Characteristic "Maximum Maturity", remaining maturity shall be determined on the basis of the terms of the Deliverable Obligation in effect at the time of making such determination and, in the case of a Deliverable Obligation that is due and payable, the remaining maturity shall be zero.
 - (5) If "Financial Reference Entity Terms" and "Governmental Intervention" are specified as applicable in the applicable Final Terms, if an obligation would otherwise satisfy a particular Deliverable Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Deliverable Obligation Characteristic;
 - (6) For purposes of determining the applicability of Deliverable Obligation Characteristics and the requirements specified in Credit Linked Note Condition 5 to a Prior Deliverable Obligation or a Package Observable Bond, any such determination shall be made by reference to the terms of the relevant obligation in effect immediately prior to the Asset Package Credit Event; and
 - (7) If "Subordinated European Insurance Terms" is specified as applicable in the applicable Final Terms, if an obligation would otherwise satisfy the "Maximum Maturity" Deliverable Obligation Characteristic, the existence of any Solvency Capital Provisions in such obligation shall not cause it to fail to satisfy such Deliverable Obligation Characteristic.

Where the Entitlement is rounded down as described above, the Holders will also receive, in respect of each nominal amount of Credit Linked Notes equal to the Calculation Amount, the value of the amount of that fraction of the Deliverable Obligations obtained in calculating the Entitlement after rounding down (as determined by the Calculation Agent), as calculated by the Calculation Agent in its sole discretion from such source(s) as it may select (converted if necessary into the Specified Currency by reference to such exchange rate as the Calculation Agent deems appropriate).

receive or retain principal payments in respect of their claims against the Reference Entity at any time that the Reference Entity is in payment arrears or is otherwise in default under the First Obligation. "Subordinated" will be construed accordingly. For purposes of determining whether Subordination exists or whether an obligation is Subordinated with respect to another obligation to which it is being compared, (x) the existence of preferred creditors arising by operation of law or of collateral, credit support or other credit enhancement or security arrangements shall not be taken into account, except that, notwithstanding the foregoing, priorities arising by operation of law shall be taken into account where the Reference Entity is a Sovereign and (y) in the case of the Reference Obligation or the Prior Reference Obligation, as applicable, the ranking in priority of payment shall be determined as of the date as of which it was issued or incurred (or in circumstances where the Reference Obligation or a Prior Reference Obligation is the Standard Reference Obligation and "Standard Reference Obligation" is applicable, then the priority of payment of the Reference Obligation or the Prior Reference Obligation, as applicable, shall be determined as of the date of selection) and, in each case, shall not reflect any change to such ranking in priority of payment after such date.

(B) **Interpretation of Provisions**

- (1) if either of the Obligation Characteristics "Listed" or "Not Domestic Issuance" is specified in the applicable Final Terms, the applicable Final Terms shall be construed as though such Obligation Characteristic had been specified as an Obligation Characteristic only with respect to Bonds and shall only be relevant if Bonds are covered by the selected Obligation Category.
- (2) if an Obligation is a Relevant Guarantee, the following will apply:
 - (a) For purposes of the application of the Obligation Category, the Relevant Guarantee shall be deemed to satisfy the same category or categories as those that describe the Underlying Obligation;

 - (c) For purposes of the application of the Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics, if any, specified in the applicable Final Terms from the following list: "Listed", "Not Domestic Issuance", "Assignable Loan", "Consent Required Loan", "Direct Loan Participation", "Transferable", "Maximum Maturity", "Accelerated" or "Matured" and "Not Bearer"; and
 - (d) For purposes of the application of the Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.
- (3) if "Financial Reference Entity Terms" and "Governmental Intervention" are specified as applicable in the applicable Final Terms, if an obligation would otherwise satisfy a particular Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Obligation Characteristic.

"Obligation Acceleration" means one or more Obligations in an aggregate amount of not less than the Default Requirement have become due and payable before they would otherwise have been due and payable as a result of, or on the basis of, the occurrence of a default, event of default or other similar condition or event (however described), other than a failure to make any required payment, in respect of a Reference Entity under one or more Obligations.

"Obligation Currency" means the currency or currencies in which the Obligation is denominated.

"Obligation Default" means one or more Obligations in an aggregate amount of not less than the Default Requirement have become capable of being declared due and payable before they would otherwise have been due and payable as a result of, or on the basis of, the occurrence of a default, event of default, or other similar condition or event (however described), other than a failure to make any required payment, in respect of a Reference Entity under one or more Obligations.

"Original Non-Standard Reference Obligation" means the obligation of the Reference Entity (either directly or as provider of a guarantee) which is specified as the Reference Obligation with respect to the Reference Entity (if any is so specified) provided that if an obligation is not an obligation of the Reference Entity, such obligation will not constitute a valid Original Non-Standard Reference Obligation (other than for the purposes of determining the Seniority Level and for the "Not Subordinated" Obligation Characteristic or "Not Subordinated" Deliverable

Obligation Characteristic) unless: (a) specified otherwise in the applicable Final Terms; or (b) the relevant Instruments constitute a Reference Obligation Only Trade.

"Outstanding Principal Amount" means with respect to Tranche Portfolio CLNs on any day, the Aggregate Nominal Amount as at the Issue Date minus the sum of all Writedown Amounts determined up to and including such day.

"Outstanding Principal Balance" of an obligation will be calculated as follows:

- (a) first, by determining, in respect of the obligation, the amount of the Reference Entity's principal payment obligations and, where "Include Accrued Interest" is specified as applicable in the applicable Final Terms (or where neither "Include Accrued Interest" nor "Exclude Accrued Interest" is specified as applicable in the applicable Final Terms and the Calculation Agent determines that the then-current market practice is to include accrued interest), the Reference Entity's accrued but unpaid interest payment obligations (which, in the case of a Guarantee will be the lower of (A) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (determined as if references to the Reference Entity were references to the Underlying Obligor) and (B) the amount of the Fixed Cap, if any);
- (b) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation, (A) is subject to any Prohibited Action, or (B) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (I) payment or (II) a Permitted Contingency) (the amount determined in sub-paragraph (a) less any amounts subtracted in accordance with this sub-paragraph (b), the **"Non-Contingent Amount"**); and
- (c) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance,

in each case, determined:

- (A) unless otherwise specified, in accordance with the terms of the obligation in effect on either (I) the NOPS Effective Date (or if the terms of the obligation are amended after such date but on or prior to the Delivery Date, the Delivery Date), or (II) the Valuation Date, as applicable; and
- (B) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

Where "Fallback Discounting" applies, then notwithstanding the foregoing, if (i) the Outstanding Principal Balance of an obligation is not reduced or discounted under sub-paragraph (B) above, (ii) that obligation is either a Bond that has an issue price less than ninety-five per cent of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent of the principal repayment amount, and (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

- (x) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the **"Original Obligation(s)"**) at the time of such

exchange (determined without regard to market or trading value of the Original Obligation(s)); and

- (y) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a holder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee.

Where: "Fallback Discounting" applies if, in respect of the Transaction Type specified in the applicable Final Terms, the Physical Settlement Matrix specifies that Fallback Discounting applies to such Transaction Type.

"Quantum of the Claim" means the lowest amount of the claim which could be validly asserted against the Reference Entity in respect of the Non-Contingent Amount if the obligation had become redeemable, been accelerated, terminated or had otherwise become due and payable at the time of the relevant determination, provided that the Quantum of the Claim cannot exceed the Non-Contingent Amount.

For purposes of this definition of Successor, "succeeded" and "succession" shall be construed accordingly.
- (e) In the case of an exchange offer, the determination required pursuant to sub-paragraph (a) above shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.
- (f) If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by

the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.

If Reference Obligation Only Trade is applicable with respect to the Instruments and the event set out in sub-paragraph (a) of the definition of Substitution Event occurs with respect to the Reference Obligation, the Calculation Agent may give notice (such notice a "**Reference Obligation Only Redemption Notice**") to the Issuer on any day from and including the applicable Substitution Event Date and the Issuer shall redeem each Credit Linked Note at its Final Redemption Amount specified in, or determined in the manner specified in, the applicable Final Terms in the relevant Specified Currency (or if no such provision is made in the applicable Final Terms at the outstanding principal amount thereof) on the Reference Obligation Only Redemption Date.

4. **Cash Settlement**

Unless the Instruments have been previously redeemed or purchased and cancelled, if an Event Determination Date occurs (in the case of Nth-to-Default CLNs, in relation to the Nth Reference Entity in respect of which an Event Determination Date occurs) and the applicable Settlement Method is "Cash Settlement" (or a Fallback Settlement Event has occurred and the Fallback Settlement Method is "Cash Settlement"), the Calculation Agent shall give notice (such notice a "**Settlement Notice**") to the Issuer and the Issuer shall redeem or cancel, as applicable, all of the Instruments and pay in respect of each Instrument the Credit Event Redemption Amount on the Credit Event Redemption Date.

Any shortfall shall be borne by the Holder and no liability shall attach to the Issuer and/or the Guarantor.

5. **Physical Settlement**

Unless the Instruments have been previously redeemed or purchased and cancelled, if an Event Determination Date occurs (in the case of Nth-to-Default CLNs, in relation to the Nth Reference Entity in respect of which an Event Determination Date occurs) and the applicable Settlement Method is "Physical Settlement" (or a Fallback Settlement Event has occurred and the Fallback Settlement Method is "Physical Settlement"), the Calculation Agent shall give notice (such notice a "**Notice of Physical Settlement**") to the Issuer on or before the NOPS Cut-off Date and the Issuer shall redeem or cancel, as applicable, all of the Instruments, by Delivering (or procuring the Delivery) in respect of each Instrument the Deliverable Obligations comprising the Entitlement, subject to and in accordance with the Note Conditions and the Credit Linked Note Conditions (and in particular, Credit Linked Note Condition 9).

In the Notice of Physical Settlement, the Calculation Agent shall:

(or, if such identifying number is not available or applicable, the rate and tenor) of each such Deliverable Obligation; and

- (b) specify the Outstanding Principal Balance or Due and Payable Amount, as applicable, or the equivalent amount in the Settlement Currency (in each case, the "Outstanding Amount") and, if different, the face amount, of each such Deliverable Obligation and the aggregate Outstanding Amount of all Deliverable Obligations specified in the Notice of Physical Settlement that the Issuer shall endeavour to Deliver (the "Aggregate Outstanding Amount").

The Calculation Agent may at any time prior to any Delivery Date by delivery of a notice to the Issuer (the "**NOPS Amendment Notice**") amend the Notice of Physical Settlement and the Issuer shall endeavour to, pursuant to such NOPS Amendment Notice, Deliver to the Holders replacement Deliverable Obligations that are different from the Deliverable Obligations originally specified (each, a "**Replacement Deliverable Obligation**"). A NOPS Amendment Notice shall contain a revised detailed description of each Replacement Deliverable Obligation and shall also specify the Outstanding Amount of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior NOPS Amendment Notice, as applicable, that is being replaced (with respect to each such Deliverable Obligation, the "**Replaced Deliverable Obligation Outstanding Amount**"). The Outstanding Amount of the Replacement Deliverable Obligations specified in any NOPS Amendment Notice in aggregate with the Outstanding Amount of the Deliverable Obligations specified in the Notice of Physical Settlement or any earlier NOPS Amendment Notice which, in each case, are not being replaced must not be greater than the Aggregate Outstanding Amount. Each such NOPS Amendment Notice must be effective on or prior to the Delivery Date (determined without reference to any change resulting from such NOPS Amendment Notice).

Notwithstanding the foregoing, (i) the Calculation Agent may correct any errors or inconsistencies in the detailed description of each Deliverable Obligation contained in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, by notice to Issuer prior to the relevant Delivery Date; and (ii) if Asset Package Delivery is applicable, the Calculation Agent shall on the NOPS Effective Date, or as soon as reasonably practicable thereafter (but in any case, prior to the Delivery Date), notify the Issuer of the detailed description of the Asset Package, if any, that the Issuer shall endeavour to deliver in lieu of the Prior Deliverable Obligation or Package Observable Bond, if any, specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, it being understood in each case that such notice of correction shall not constitute a NOPS Amendment Notice.

If (i) "Physical Settlement" is specified to be the Settlement Method in the applicable Final Terms (or is applicable as the Fallback Settlement Method), (ii) "Mod R" is specified as applicable in the applicable Final Terms and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice, as applicable, if such Deliverable Obligation (A) is a Fully Transferable Obligation and (B) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date, in each case, as of both the NOPS Effective Date and the Delivery Date.

If (i) "Physical Settlement" is specified to be the Settlement Method in the applicable Final Terms (or is applicable as the Fallback Settlement Method), (ii) "Mod Mod R" is specified as applicable in the applicable Final Terms and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice, as applicable, if it (A) is a Conditionally Transferable Obligation and (B) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date in each case, as of both the NOPS Effective Date and the Delivery Date. Notwithstanding the foregoing, for purposes of this sub-paragraph, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier

of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

Unless otherwise specified in the applicable Final Terms, the Guaranteed Cash Settlement Amount in respect of each Credit Linked Note shall be an amount calculated in accordance with the definition of "Partial Cash Settlement Amount", provided that the Guarantor shall designate in its sole and absolute discretion which portion of the Entitlement shall be an Undeliverable Obligation, and provided that the Valuation Date, shall be the date notified as such by the Guarantor to the Issuer and the Calculation Agent.

If an Event Determination Date occurs and the Instruments are redeemed or are cancelled in accordance with this Credit Linked Note Condition 5, upon Delivery of the Deliverable Obligations comprising the Entitlement and/or payment of the Partial Cash Settlement Amount, as the case may be, the Issuer shall have discharged its obligations in respect of the Instruments and shall have no other liability or obligation whatsoever in respect thereof. The value of such Deliverable Obligations and/or the Partial Cash Settlement Amount in respect of the Instruments to be redeemed may be less than the Issue Price, nominal amount or notional amount, as applicable, of an Instrument. Any shortfall shall be borne by the Holder and no liability shall attach to the Issuer and/or the Guarantor.

6. Auction Settlement

Unless the Instruments have been previously redeemed or purchased and cancelled, if an Event Determination Date occurs (in the case of Nth-to-Default CLNs, in relation to the Nth Reference Entity in respect of which an Event Determination Date occurs) and the applicable Settlement Method is "Auction Settlement", the Calculation Agent shall give notice (such notice a "Settlement Notice") to the Issuer and the Issuer shall redeem or cancel as applicable, all of the Instruments and pay in respect of each Instrument the Auction Settlement Amount on the Auction Settlement Date unless a Fallback Settlement Event occurs (for the avoidance of doubt, in relation to the same Credit Event), in which case the Issuer shall redeem or cancel, as the case may be, the Instruments in accordance with the applicable Fallback Settlement Method.

If an Event Determination Date occurs and the Notes are redeemed or are cancelled in accordance with this Credit Linked Note Condition 6, upon payment of the Auction Settlement Amount the Issuer shall have discharged its obligations in respect of the Instruments and shall have no other liability or obligation whatsoever in respect thereof. The Auction Settlement Amount may be less than the Issue Price or nominal amount of an Instrument. Any shortfall shall be borne by the Holder and no liability shall attach to the Issuer and/or the Guarantor.

7. Suspension of Obligations

If a Credit Event Resolution Request Date occurs in relation to any Reference Entity, then, unless the Issuer otherwise elects by notice to the Holders, any obligation of the Issuer to redeem or cancel (as the case may be) or otherwise settle any Credit Linked Note or pay any amount of interest or Additional Amount (as the case may be) which would otherwise be due thereon shall, to the extent that it relates to such Reference Entity, be and remain suspended until (a) the occurrence of a DC Credit Event Announcement; (b) the occurrence of a DC No Credit Event Announcement; or (c) the occurrence of a DC Credit Event Question Dismissal (each of the events set out in (a), (b) or (c), a "DC Announcement").

Following a DC Announcement, any obligations so suspended shall resume on the second Business Day immediately following the date of such DC Announcement (with benefit being given of the full day notwithstanding when the tolling or suspension began). Any amount of interest or any Additional Amount so suspended shall, subject to Note Condition 5(E) become due and payable on the date determined by the Calculation Agent in its sole discretion provided that such date shall not be later than 20 Business Days after the date of such DC Announcement.

No interest shall accrue on any amount of interest, any Final Redemption Amount or any other payment obligation of the Issuer so suspended.

Where the applicable Final Terms specify that "Calculation Agent Determination" is applicable, this Credit Linked Note Condition 7 shall not apply to the relevant Instruments unless the Calculation Agent notifies the Issuer that this Credit Linked Note Condition 7 shall apply.

8. **Interest and Additional Amounts**

Following the delivery of an Extension Notice, in the case of interest bearing Credit Linked Notes and provided that an Event Determination Date has not occurred, the Issuer shall be obliged to pay interest calculated as provided in Note Condition 5 accruing from (and including) the Interest Payment Date immediately preceding the Scheduled Maturity Date (or, if none the Interest Commencement Date) to (but excluding) the Scheduled Maturity Date but shall only be obliged to make such payment of interest on the CLN Maturity Date and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay.

Without prejudice to Credit Linked Note Condition 7, if "Accrual of Interest upon Credit Event" or, as the case may be, "Accrual of Additional Amounts upon Credit Event" is specified as Not Applicable in the applicable Final Terms and the Calculation Agent determines that a Credit Event, a Potential Failure to Pay or a Potential Repudiation/Moratorium has occurred or may occur on or prior to an Interest Payment Date, the Calculation Agent may notify the Issuer and where the Calculation Agent delivers any such notice (a "**Postponement Notice**") to the Issuer on or prior to such Interest Payment Date (in either case, the "**Postponed Payment Date**"), any obligation of the Issuer to pay any interest amount shall be suspended for a period of 15 Business Days following such Postponed Payment Date (or, in respect of any Postponed Payment Date scheduled to fall on the Scheduled Maturity Date, up to the CLN Maturity Date (or such shorter period as the Calculation Agent may notify the Issuer) to enable the Calculation Agent to determine whether a Credit Event has occurred.

Where the Calculation Agent delivers a Postponement Notice to the Issuer, the Issuer shall give notice thereof as soon as practicable to the Holders in accordance with Note Condition 14, provided that any failure to give, or non-receipt of, such notice will not affect the validity of any postponement of an Interest Payment Date.

If an Event Determination Date has not occurred on or prior to such 15th Business Day or CLN Maturity Date, the interest amount shall be payable on such 15th Business Day or CLN Maturity Date (for the avoidance of doubt, no interest shall accrue on any amount of interest so suspended). If an Event Determination Date has occurred on or prior to such 15th Business Day or CLN Maturity Date, then notwithstanding Note Condition 5(E)(a), each Note shall cease to bear interest from the Interest Payment Date immediately preceding the Postponed Payment Date or, if the Postponed Payment Date falls on the first Interest Payment Date, no interest shall accrue on the Notes (and Note Condition 5(E) shall be deemed to be amended accordingly).

9. **Partial Cash Settlement**

If all or a portion of the Undeliverable Obligations or Hedge Disruption Obligations comprising the Entitlement are not Delivered for whatever reason by the Final Delivery Date, the Calculation Agent shall give notice (a "**Partial Cash Settlement Notice**") to the Issuer, as applicable, and the Issuer shall pay in respect of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, the Partial Cash Settlement Amount on the Partial Cash Settlement Date. For the avoidance of doubt, the failure by the Issuer to Deliver all or such portion of the Undeliverable Obligations comprising the Entitlement on or prior to the Final Delivery Date shall not constitute an Event of Default.

Unless otherwise specified in the applicable Final Terms, for the purposes of this Credit Linked Note Condition 9 the following terms are deemed to have the following meanings:

"Indicative Quotation" means, in accordance with the Quotation Method, each quotation obtained from a Quotation Dealer at the Valuation Time for (to the extent reasonably practicable) an amount of the Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, equal to the Quotation Amount, which reflects such Quotation Dealer's reasonable assessment of the price of such Undeliverable Obligation or Hedge Disruption Obligation, as

the case may be, based on such factors as such Quotation Dealer may consider relevant, which may include historical prices and recovery rates.

"Market Value" means, with respect to an Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, on a Valuation Date, (a) if more than three Full Quotations are obtained, the arithmetic mean of such Full Quotations, disregarding the Full Quotations having the same highest and lowest values (and, if more than one such Full Quotations have the same highest or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (b) if exactly three Full Quotations are obtained, the Full Quotations remaining after disregarding the highest and lowest Full Quotations (and, if more than one such Full Quotations have the same highest value or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (c) if exactly two Full Quotations are obtained, the arithmetic mean of such Full Quotations; (d) if fewer than two Full Quotations are obtained and a Weighted Average Quotation is obtained, such Weighted Average Quotation; (e) if Indicative Quotations are specified as applying in the applicable Final Terms and exactly three Indicative Quotations are obtained, the Indicative Quotation remaining after disregarding the highest and lowest Indicative Quotations (and, if more than one such Indicative Quotations have the same highest or lowest value, then one of such highest or lowest Indicative Quotations shall be disregarded); (f) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) then, subject to paragraph (b) of the definition of "Quotation" below, an amount as determined by the Calculation Agent on the next Business Day on which two or more Full Quotations or a Weighted Average Quotation or, if applicable, three Indicative Quotations are obtained; and (vii) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Market Value shall be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.

"Partial Cash Settlement Amount" is deemed to be, for each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, an amount calculated by the Calculation Agent equal to the greater of (a) (i) the Outstanding Principal Balance, the Due and Payable Amount or the Currency Amount, as applicable, of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, multiplied by (ii) either (A) if one or more Auctions are held by the Credit Derivatives Determinations Committee in respect of the Reference Entity, the Auction Final Price or (B) if the Calculation Agent decides (in its sole and absolute discretion), the Final Price with respect to such Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, less (iii) Unwind Costs, if any (but excluding any Unwind Costs already taken into account in calculating the relevant Entitlement), and (b) zero.

"Partial Cash Settlement Date" is deemed to be the date falling three Business Days after the calculation of the Final Price or, as applicable, the date falling fifteen Business Days after the later of (a) the Final Delivery Date and (b) the Auction Final Price Determination Date.

"Quotation" means each Full Quotation, the Weighted Average Quotation and, if Indicative Quotations are specified as applying in the applicable Final Terms, each Indicative Quotation obtained and expressed as a percentage with respect to a Valuation Date in the manner that follows:

- (a) The Calculation Agent shall attempt to obtain Full Quotations with respect to each Valuation Date from five or more Quotation Dealers. If the Calculation Agent is unable to obtain two or more such Full Quotations on the same Business Day within three Business Days of a Valuation Date, then on the next following Business Day (and, if necessary, on each Business Day thereafter until the tenth Business Day following the relevant Valuation Date) the Calculation Agent shall attempt to obtain Full Quotations

from five or more Quotation Dealers, and, if two or more Full Quotations are not available, a Weighted Average Quotation. If two or more such Full Quotations or a Weighted Average Quotation are not available on any such Business Day and Indicative Quotations are specified as applying in the applicable Final Terms, the Calculation Agent shall attempt to obtain three Indicative Quotations from five or more Quotation Dealers.

- (c) The Calculation Agent shall determine, based on the then-current market practice in the market of the relevant Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, whether such Quotations shall include or exclude accrued but unpaid interest. All Quotations shall be obtained in accordance with this specification or determination.
- (d) If any Quotation obtained with respect to an Accreting Obligation is expressed as a percentage of the amount payable in respect of such obligation at maturity, such Quotation will instead be expressed as a percentage of the Outstanding Principal Balance for the purposes of determining the Final Price.

"Quotation Amount" is deemed to be, with respect to each type or issue of Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, an amount equal to the Outstanding Principal Balance or Due and Payable Amount (or, in either case, its equivalent in the relevant Obligation Currency converted by the Calculation Agent in a commercially reasonable manner by reference to exchange rates in effect at the time that the relevant Quotation is being obtained), as applicable, of such Undeliverable Obligation or Hedge Disruption Obligations, as the case may be. The Calculation Agent may in its sole discretion round up or down the Quotation Amount for the purposes of seeking a Quotation.

"Quotation Method" is deemed to be Bid.

"Reference Obligation" is deemed to be each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be.

"Valuation Time" is the time specified as such in the applicable Final Terms, or, if no time is so specified, 11:00 a.m. in the principal trading market for the Undeliverable Obligation or Hedge Disruption Obligation, as the case may be.

"Weighted Average Quotation" means, in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, with an Outstanding Principal Balance of as large a size as available but less than the Quotation Amount that in aggregate are approximately equal to the Quotation Amount.

10. **Redemption following a Merger Event**

If this Credit Linked Note Condition 10 is specified as applicable in the applicable Final Terms, in the event that in the determination of the Calculation Agent a Merger Event has occurred, the Issuer may give notice to the Holders in accordance with Note Condition 14, and redeem or cancel, as applicable, all but not less than all of the Instruments on a date selected by the Issuer and not later than 30 calendar days following the effective date of such notice at the Early Redemption Amount.

11. **Credit Event Notice after M(M)R Restructuring Credit Event**

If this Credit Linked Note Condition 11 is specified as applicable in the applicable Final Terms, then, notwithstanding anything to the contrary in the Terms and Conditions, upon the occurrence of an M(M)R Restructuring:

- (a) the Calculation Agent may deliver a Credit Event Notice in respect of an amount (the "**Partial Redemption Amount**") that is less than the principal amount outstanding of each Note immediately prior to the delivery of such Credit Event Notice. In such circumstances the Credit Linked Note Conditions and related provisions shall be deemed to apply to the Partial Redemption Amount only and each such Note shall be redeemed in part (such redeemed part being equal to the Partial Redemption Amount).
- (b) For the avoidance of doubt (A) the principal amount of each such Note not so redeemed in part shall remain outstanding and interest shall accrue on the principal amount outstanding of such Note as provided in Note Condition 5 (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate), (B) the Credit Linked Note Conditions and related provisions shall apply to such principal amount outstanding of such Note in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the M(M)R Restructuring Credit Event and (C) once a Credit Event Notice with respect to an M(M)R Restructuring Credit Event has been delivered in respect of a Reference Entity, no further Credit Event Notices may be delivered in respect of any Reference Entity other than the Reference Entity that was the subject of the M(M)R Restructuring Credit Event.
- (c) If the provisions of this Credit Linked Note Condition 11 apply in respect of the Credit Linked Notes, on redemption of part of each such Credit Linked Note the relevant Credit Linked Note or, if the Credit Linked Notes are represented by a Global Note, such Global Note, shall be endorsed to reflect such part redemption.

12. **Multiple Holder Obligation**

If this Credit Linked Note Condition 12 is specified as applicable (or deemed to be applicable) in the applicable Final Terms, notwithstanding anything to the contrary in the definition of Restructuring and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraphs (a)(i) to (v) of the definition of "Restructuring" in Credit Linked Note Condition 2 shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

"**Multiple Holder Obligation**" means an Obligation that (a) at the time of the event which constitutes a Restructuring Credit Event, is held by more than three holders that are not Affiliates of each other and (b) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event, provided that any Obligation that is a Bond shall be deemed to satisfy the requirement in (b).

13. **Successors**

- (a) Where pursuant to sub-paragraph (a)(iii), (iv) or (vi) of the definition of Successor, more than one Successor has been identified, the Credit Linked Notes will be equally divided into such number of notional Credit Linked Notes as there are Successors and each Successor will be the Reference Entity for the purposes of one of such Credit Linked

Notes. These Credit Linked Note Conditions shall be deemed to apply to such Credit Linked Notes and shall be construed accordingly.

- (b) Where a Credit Event occurs in respect of a Reference Entity after more than one Successor has been identified, the provisions of these Credit Linked Note Conditions shall be deemed to apply to the nominal amount represented by that Reference Entity only (the "**Partial Principal Amount**") and all the provisions shall be construed accordingly. Each Instrument shall thereafter be redeemed in part (such redeemed part being equal to its *pro rata* share of the Partial Principal Amount).
- (c) The Instruments shall remain outstanding in an amount equal to the outstanding principal amount of the Credit Linked Notes minus the Partial Principal Amount (such amount, the "**Remaining Amount**") and interest shall accrue on the Remaining Amount as provided for in Note Condition 5 (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate).
- (d) Any determinations (including (without limitation) as to the division of the Credit Linked Notes) and any adjustment to the applicable Final Terms relating to, connected with or as a result of the identification of more than one Successor shall be made by the Calculation Agent in its sole discretion (provided that if such determinations have been made by the relevant Credit Derivatives Determinations Committee, then the Calculation Agent shall, unless (x) otherwise provided for in the applicable Final Terms or (y) "Calculation Agent Determination" is specified as applicable in the applicable Final Terms, be bound by such determinations) and, in the absence of manifest error, shall be conclusive and binding on all Holders. The applicable Final Terms may be amended and restated from time to time to reflect the effect of such determinations without the consent of the Holders and the Holders are deemed to agree to this provision by the purchase of the Instruments.

- (iii) The definition of "Restructuring" in Credit Linked Note Condition 2 is hereby amended by the insertion of the following paragraph after the final paragraph thereof:

If Credit Linked Note Condition 15 is specified as applicable in the applicable Final Terms, notwithstanding anything to the contrary in the Credit Linked Note Conditions, the following provisions will apply:

- (a) provisions relating to Multiple Holder Obligation will be deemed to be Not Applicable with respect to any Reference Obligation (and any Underlying Loan);
- (b) each Reference Obligation will be an Obligation, notwithstanding anything to the contrary in the Credit Linked Note Conditions and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity;

- (c) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in the Credit Linked Note Conditions including and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity.

For the avoidance of doubt with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the Outstanding Principal Balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation.

The Not Subordinated Obligation Characteristic and Deliverable Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity;

- (d) the definition of "Reference Obligation" shall be deleted and the following substituted therefor:

"Reference Obligation" means, as of the Trade Date, each of the obligations listed as a Reference Obligation of the Reference Entity in the applicable Final Terms and set forth on the relevant LPN Reference Obligations List (each a **"Markit Published LPN Reference Obligation"**), as published by Markit Group Limited, or any successor thereto, which list is as of the Trade Date available at <http://www.markit.com/marketing/services.php>, any Additional LPN determined in accordance with sub-paragraph (e) below, and each Additional Obligation. Each Reference Obligation determined in accordance with the foregoing will be a Reference Obligation notwithstanding anything to the contrary in the Credit Linked Notes Conditions, and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity. Standard Reference Obligation shall be Not Applicable. The proviso in the definition of "Original Non-Standard Reference Obligation" shall not apply.

It is intended that there may be more than one Reference Obligation, as a result of which all applicable references in the Credit Linked Notes Conditions to "the Reference Obligation" shall be construed as a reference to "a Reference Obligation", and all other provisions of the Credit Linked Note Conditions shall be construed accordingly.

The provisions set forth in the definitions of "Substitute Reference Obligation" and "Substitution Event" shall not be applicable to LPN Reference Obligations; and

- (e) the following additional definitions shall apply:

"Additional LPN" means any bond issued in the form of a loan participation note (a **"LPN"**) by an entity (the **"LPN Issuer"**) for the sole purpose of providing funds for the LPN Issuer to (a) finance a loan to the Reference Entity (the **"Underlying Loan"**) or (b) provide finance to the Reference Entity by way of a deposit, loan or other Borrowed Money instrument (the **"Underlying Finance Instrument"**), provided that (i) either (x) in the event that there is an Underlying Loan with respect to such LPN the Underlying Loan satisfies the Obligation Characteristics specified in respect of the Reference Entity or (y) in the event that there is an Underlying Finance Instrument with respect to such LPN the Underlying Finance Instrument satisfies the Not Subordinated, Not Domestic Law and Not Domestic Currency Obligation Characteristics; (ii) the LPN satisfies the following Deliverable Obligation Characteristics: Transferable, Not Bearer, Specified Currency – Standard Specified Currencies, Not Domestic Law, Not Domestic Issuance; and (iii) the LPN Issuer has, as of the issue date of such obligation, granted a First Ranking Interest over or in respect of certain of its rights in relation to the relevant Underlying Loan or Underlying Finance Instrument (as applicable) for the benefit of the holders of the LPNs.

"Additional Obligation" means each of the obligations listed as an Additional Obligation of the Reference Entity in the applicable Final Terms or set forth on the relevant LPN Reference Obligations List, as published by Markit Group Limited, or any

successor thereto, as of the Trade Date, which list is currently available at <http://www.markit.com/marketing/services.php>.

"First Ranking Interest" means a charge, security interest (or other type of interest having similar effect) (an **"Interest"**), which is expressed as being "first ranking", "first priority", or similar (**"First Ranking"**) in the document creating such Interest (notwithstanding that such Interest may not be First Ranking under any insolvency laws of any related insolvency jurisdiction of the LPN Issuer).

"LPN Reference Obligation" means each Reference Obligation other than any Additional Obligation.

For the avoidance of doubt, any change to the issuer of an LPN Reference Obligation in accordance with its terms shall not prevent such LPN Reference Obligation constituting a Reference Obligation.

Each LPN Reference Obligation is issued for the sole purpose of providing funds for the Issuer to finance a loan to the Reference Entity. For the purposes of the Credit Linked Note Conditions each such loan shall be an Underlying Loan.

16. Deliverable Obligations Portfolio Valuation

If Credit Linked Note Condition 16 is specified as applicable in the applicable Final Terms:

- (a) notwithstanding anything to the contrary in the Credit Linked Note Conditions, "Reference Obligation" shall mean:
- (i) any obligation of a Reference Entity (either directly or as provider of a Relevant Guarantee) determined pursuant to the method described in sub-paragraph (A) (Method for Determining "Deliverable Obligations") in the definition of "Deliverable Obligation" above;
 - (ii) each Benchmark Obligation specified in the applicable Final Terms; and
 - (iii) any Substitute Benchmark Obligation,

as selected by the Calculation Agent in its sole and absolute discretion and notified to the Issuer (a **"Reference Obligation Notification"**) on or prior to the relevant Valuation Date.

In each case the Reference Obligation Notification shall describe the selected Reference Obligation in reasonable detail and shall specify the title or designation, maturity date and coupon rate. The Calculation Agent may at any time after delivering a Reference Obligation Notification but prior to the Valuation Time on the Valuation Date deliver a further Reference Obligation Notification which shall replace all prior Reference Obligation Notifications in relation to any additional or replacement Reference Obligation specified therein.

For the avoidance of doubt the Calculation Agent shall be entitled to select any of the Reference Obligations for the purposes of calculating the Final Price irrespective of their market value and, provided that (in the case of Credit Linked Note Condition 16(a)(i) only) the selected obligation(s) satisfy the Deliverable Obligation Category and Deliverable Obligation Characteristics on the date of selection, such obligation(s) may constitute the Reference Obligation for the purposes hereof notwithstanding that this is not the case subsequent to such date. For the avoidance of doubt, the Deliverable Obligation Category and Deliverable Obligation Characteristics shall not apply in respect of any Benchmark Obligation or Substitute Benchmark Obligation.

- (b) The definition of "Substitute Reference Obligation" in Credit Linked Note Condition 2 shall be amended so that each reference to "Substitute Reference Obligation" and "Non-Standard Reference Obligation" is replaced by reference to a "Substitute Benchmark Obligation" and a "Benchmark Obligation" respectively, provided that once a

Benchmark Obligation has been specified as a Reference Obligation the definition of "Substitute Reference Obligation" shall not apply with respect to such Benchmark Obligation.

- (c) Sub-paragraph (b)(i) of "Method for Determining Obligations" in the definition of "Obligation" in Credit Linked Note Condition 2 shall be deleted and the following substituted therefor:

"Not Subordinated" means an obligation that is not Subordinated to (i) the most senior Benchmark Obligation in priority of payment or (ii) if no Benchmark Obligation is specified in the applicable Final Terms, any unsubordinated Borrowed Money obligation of the Reference Entity. For purposes of determining whether an obligation satisfies the "Not Subordinated" Obligation Characteristic or Deliverable Obligation Characteristic, the ranking in priority of payment of each Benchmark Obligation shall be determined as of the later of (A) the Trade Date specified in the applicable Final Terms and (B) the date on which such Benchmark Obligation was issued or incurred and shall not reflect any change to such ranking in priority of payment after such later date.

- (d) For purposes of the Credit Linked Note Conditions:
- (i) each reference in the Credit Linked Note Conditions to "a Deliverable Obligation" and "the Deliverable Obligation" shall be deemed to be a reference to "a Reference Obligation" and "the Reference Obligation" respectively; and
 - (ii) each reference in the Credit Linked Note Conditions to "a Delivery Date" and "the Delivery Date" shall be deemed to be a reference to the date of selection of the relevant Reference Obligation.
- (e) For the avoidance of doubt, if Credit Linked Note Condition 16 is specified as applicable in the applicable Final Terms Credit Linked Note Condition 5 is not applicable and the Instruments shall, following the occurrence of an Event Determination Date, be settled in accordance with Credit Linked Note Condition 4, and these Credit Linked Note Conditions shall be construed accordingly.
- (f) If the Calculation Agent selects more than one Reference Obligation, such Reference Obligations shall have an Outstanding Principal Balance or Due and Payable Amount (or the equivalent Currency Amount of any such amount) that, in aggregate, shall not exceed the Reference Entity Notional Amount in respect of the relevant Reference Entity.
- (g) With respect to a Reference Entity and the related Final Price Calculation Date, the "Final Price" shall be the weighted average of the Final Prices determined for each Reference Obligation in respect of the relevant Reference Entity, weighted by reference to the Reference Portfolio of each such Reference Obligation.
- (h) For the purposes of Credit Linked Note Condition 16(a)(ii), Benchmark Obligation means each Reference Obligation specified in respect of the relevant Reference Entity, unless otherwise specified in the applicable Final Terms.

17. **Nth-to-Default CLNs**

Where the Instruments are Nth-to-Default CLNs:

- (a) where a succession has occurred in respect of a Reference Entity (other than a Reference Entity in respect of which an Event Determination Date has occurred) and more than one Successor has been identified, the applicable Instruments will be equally divided into a number of notional Credit Linked Notes as there are Successors. Each such notional Credit Linked Notes shall include a Successor and each and every one of the Reference Entities unaffected by such succession shall apply thereto;
- (b) if "Substitution" is specified as not being applicable in the applicable Final Terms, where any Reference Entity (the "**Surviving Reference Entity**") (other than a Reference Entity

that is subject to a succession) would be a Successor to any other Reference Entity (the "**Legacy Reference Entity**") pursuant to a succession, such Surviving Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity; and

- (c) if "Substitution" is specified as being applicable in the applicable Final Terms, where any Reference Entity (the "**Surviving Reference Entity**") (other than a Reference Entity that is subject to a succession) would be a Successor to any other Reference Entity (the "**Legacy Reference Entity**") pursuant to a succession:
 - (i) such Surviving Reference Entity shall be deemed not to be a Successor to the Legacy Reference Entity; and
 - (ii) the Replacement Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity.

18. **Linear Basket CLNs**

Where the Notes are Linear Basket CLNs, then the provisions of these Credit Linked Note Conditions relating to redemption of Credit Linked Notes following the occurrence of an Event Determination Date, extension of maturity of Credit Linked Notes on delivery of an Extension Notice, cessation or suspension of accrual of interest or accrual and payment of interest following the Scheduled Maturity Date shall apply separately with respect to each Reference Entity and a principal amount of each Credit Linked Note corresponding to its *pro rata* proportion of the related Reference Entity Notional Amount. The remaining provisions of these Credit Linked Note Conditions shall be construed accordingly.

Accordingly:

- (a) the Calculation Amount of each Note shall be reduced with effect from the occurrence of an Event Determination Date by a *pro rata* proportion of the Reference Entity Notional Amount or, as applicable, the Partial Redemption Amount;
- (b) following the occurrence of an Event Determination Date in respect of any Reference Entity, the Notes shall be partially redeemed and the Noteholders shall receive an amount equal to a Credit Event Redemption Amount (if Credit Linked Note Condition 4 applies) or an Auction Settlement Amount (if Credit Linked Note Condition 6 applies) or shall be entitled to receive an Entitlement, or, as appropriate, Partial Cash Settlement Amount (if Credit Linked Note Condition 5 applies), in each case calculated in respect of the Reference Entity as though references to the Calculation Amount in such definitions were references to such amount divided by the number of Reference Entities as at the relevant Event Determination Date;
- (c) the definition of "**CLN Maturity Date**" shall operate separately in respect of each Reference Entity and a portion of the Calculation Amount of each Note corresponding to a *pro rata* proportion of the related Reference Entity Notional Amount, or, as applicable, the Partial Redemption Amount; and
- (d) the provisions of Credit Linked Note Condition 8 shall apply separately in respect of each Reference Entity and a portion of the Calculation Amount of each Note corresponding to a *pro rata* proportion of the related Reference Entity Notional Amount or, as applicable, the related Reference Entity Notional Amount.

19. **Tranched Portfolio CLNs**

Where the Instruments are Tranched Portfolio CLNs:

- (a) The interest amount payable per Calculation Amount on each Interest Payment Date in respect of each Note and each Interest Period shall be a *pro rata* proportion per Calculation Amount of an amount determined on the relevant Interest Determination Date, equal to the sum of:

- (i) the product of: (A) the Interest Calculation Amount, (B) the Rate of Interest, and (C) the Day Count Fraction (and rounding the resultant figure to the nearest sub-unit of the relevant Specified Currency, half of any such sub-unit being rounded upwards or otherwise in accordance with applicable market convention); and
 - (ii) the Deferred Coupon Adjustment Amount, if any.
- (b) If the Calculation Agent determines at any time that the Undetermined Reference Entity Notional Amount on any Interest Payment Date is greater than the Undetermined Reference Entity Notional Amount on the corresponding Interest Determination Date, the Calculation Agent may in its sole discretion make any adjustment: (i) if the determination is made on or prior to such Interest Payment Date and to the extent operationally practicable, to the interest amount payable on such Interest Payment Date, or otherwise (ii) to the interest amount payable on any subsequent Interest Payment Date or, if the relevant interest amount is less than such shortfall, the Outstanding Principal Amount of the Notes, to account for such shortfall.
 - (c) In the event that a Credit Event occurs in respect of one of the Reference Entities within the Reference Portfolio, the amount of the Aggregate Principal Amount remaining will be reduced by the Writedown Amount (itself calculated with reference to the Loss Amount), all as set out in the definitions of the Outstanding Principal Amount, Incurred Loss Amount, Loss Amount, Writedown Amount and any other relevant definitions.
 - (d) Unless the Notes have been previously redeemed or purchased and cancelled, each Note will be redeemed at its Final Redemption Amount on the Final Redemption Date. Credit Linked Note Conditions 4 and 6 shall not apply.
 - (e) If the Outstanding Principal Amount of the Notes is reduced to zero, the Notes will thereupon be deemed to have been redeemed in full and, without prejudice to any obligations incurred due and payable on or prior to such date, the Issuer shall have no further obligations in relation to the Notes.
 - (f) Paragraph (b) of the definition of "CLN Maturity Date" shall apply if an Extension Notice is given in respect of any Reference Entity.
 - (g) If any day is a Final Price Calculation Date with respect to more than one Reference Entity, the Loss Amount, the Recovery Amount, the Incurred Loss Amount and the Incurred Recovery Amount (if applicable) with respect to each Reference Entity shall be calculated in the order of delivery of the relevant Credit Event Notices or (if applicable) the order of the relevant Credit Event Resolution Request Dates or, if any of the relevant Credit Event Notices are delivered at the same time or the Credit Event Resolution Request Dates occur at the same time, in a sequential order determined by the Calculation Agent.
 - (h) In relation to Tranche Portfolio CLNs where the Reference Portfolio is determined by reference to a Relevant Annex, then notwithstanding Credit Linked Note Condition 13, the Reference Portfolio from time to time (together with, in respect of each relevant Reference Entity, the elected Reference Entity weighting) shall be as determined and published from time to time by the relevant Index Sponsor, as specified in the applicable Final Terms.

20. **Provisions taken from the CoCo Supplement to the 2014 ISDA Credit Derivatives Definitions (published on 15 September 2014)**

If Credit Linked Note Condition 20 is specified as applicable in the applicable Final Terms, notwithstanding anything to the contrary in the Credit Linked Note Conditions, the following provisions will apply:

- (a) The following additional definitions shall apply:
 - "**CoCo Provision**" means, with respect to an Obligation, a provision which requires (i) a permanent or temporary reduction of the amount of principal payable at redemption or

(ii) a conversion of principal into shares or another instrument, in each case, if the Capital Ratio is at or below the Trigger Percentage.

"**CoCo Supplement**" means the CoCo Supplement to the 2014 ISDA Credit Derivatives Definitions (published on 15 September 2014).

"**Trigger Percentage**" means the trigger percentage specified in the applicable Final Terms (or if no such trigger percentage is specified, 5.25 per cent.).

"**Capital Ratio**" means the ratio of capital to risk weighted assets applicable to the Obligation, as described in the terms thereof in effect from time to time.

- (b) A CoCo Provision shall be deemed to be a provision which permits a Governmental Intervention for all purposes under the Credit Linked Notes Conditions.
- (c) If, with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, the operation of one or more CoCo Provisions results in (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, such event shall be deemed to constitute a Governmental Intervention falling within sub-paragraph (a) of the definition thereof.

21. **Provisions taken from the 2014 Sovereign No Asset Package Delivery Supplement to the 2014 ISDA Credit Derivatives Definitions (published on 15 September 2014)**

If Credit Linked Note Condition 21 is specified as applicable in respect of a Reference Entity in the applicable Final Terms, the following provision shall apply in respect of such Reference Entity for purposes of the Instruments and the Credit Linked Note Conditions:

The last paragraph of the definition of "Asset Package Credit Event" is hereby amended by the addition of the following at the end thereof: "Notwithstanding the above, it shall be deemed that no Package Observable Bond exists with respect to a Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA and accordingly, Asset Package Delivery shall not apply thereto.)"

22. **Provisions taken from the ISDA Supplement titled "2020 Additional Provisions for the Argentine Republic: Excluded Obligations and Excluded Deliverable Obligations" (published on 16 September 2020)**

If Credit Linked Note Condition 22 is specified as applicable in the applicable Final Terms, the following provisions shall apply:

- (a) Notwithstanding the definition of "Obligation", any obligation that is a Bond that was issued on or prior to August 31, 2020 shall be an "Excluded Obligation"; and
- (b) Notwithstanding the definition of "Deliverable Obligation", any obligation that is a Bond that was issued on or prior to August 31, 2020 shall be an "Excluded Deliverable Obligation".

23. **Physical Settlement Matrix**

Where a Transaction Type is specified in the applicable Final Terms in respect of any Reference Entity, then the provisions of such Final Terms shall apply with respect to such Reference Entity in accordance with the Physical Settlement Matrix as it applies to such Transaction Type, as though such Physical Settlement Matrix were set out in full in such Final Terms. Certain additional provisions or supplements may be deemed to apply to the Credit Linked Note Conditions in respect of a Reference Entity if those provisions or supplements are specified as being applicable for the relevant Reference Entity in the Credit Derivatives Physical Settlement Matrix and the provisions of the Credit Linked Note Conditions shall be construed as if those additional provisions or supplements had been included in the Credit Linked Note Conditions with such amendments as the Calculation Agent deems necessary to give effect to those provisions.

24. **Notices to Holders**

The Issuer shall, upon receiving any of the following notices from the Calculation Agent, as soon as practicable forward a copy of such notice(s) to the Holders of the relevant Instruments:

25. **Calculation Agent**

Any determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent pursuant to the Credit Linked Note Conditions and related provisions shall (in the absence of manifest error) be final and binding on the Issuer, the Guarantor and the Holders and shall be without liability on the part of the Calculation Agent and without the Calculation Agent being obliged to consider the interests of the Issuer, the Guarantor or the Holders. In performing its duties pursuant to the Credit Linked Note Conditions, the Calculation Agent shall act in its sole and absolute discretion. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Credit Linked Note Conditions including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and none of the Calculation Agent, the Issuer and the Guarantor shall, in the absence of wilful misconduct and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

For the avoidance of doubt, if the applicable Final Terms specify that "Calculation Agent Determination" is applicable, then notwithstanding any provision in these Credit Linked Note Conditions, the Issuer and the Calculation Agent shall not be bound to (although they may in

their sole discretion) apply any DC Resolution to the Instruments and unless the Calculation Agent notifies the Issuer that any DC Resolution shall apply to the Instruments, the Credit Linked Note Conditions and the relevant Instruments shall be construed as if the relevant DC Resolution and the relevant DC Question was not made. If the Calculation Agent notifies the Issuer that any DC Resolution shall apply to the Instruments, the Calculation Agent shall have the power to amend or otherwise adjust any provision of these Credit Linked Notes Conditions (including, without limitation any provision relating to the timing of notices hereunder) to account for the application of such DC Resolution.

26. Change in Market Convention

The Calculation Agent may (but shall not be obliged to), without obtaining the consent of or consulting with the Holders or any other person, from time to time and at any time in its sole and absolute discretion and in good faith, amend any provision of these Credit Linked Note Conditions or the Instruments:

- (a) (including but not limited to the applicable Transaction Type, Credit Events, Deliverable Obligation Category, and Deliverable Obligation Characteristics and deliverability, Reference Obligation, Successor and other provisions) to correspond with the most recently published ISDA Credit Derivatives Definitions, ISDA Credit Derivatives Physical Settlement Matrix version, SRO List and/or prevailing trading standards applicable to a Reference Entity;
- (b) to incorporate and/or reflect further or alternative documents from time to time published by ISDA with respect to credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees which the Calculation Agent determines in a commercially reasonable manner are necessary to reflect market practice for credit derivative transactions; and/or
- (c) in circumstances where a Reference Entity has proposed an exchange of all or substantially all of the obligations of such Reference Entity into cash, securities and/or other assets, to reflect or account for such exchange, regardless of the credit derivatives definitions or trading standards applicable to such Reference Entity.

The applicable Final Terms may be amended and/or restated from time to time to reflect any such amendments without the consent of the Holders, and the Holders are deemed to agree to this provision by the purchase or acquisition of the Instruments.

27. Additional Provisions

- (a) If one or more amendments or adjustments to these Credit Linked Note Conditions are required for one or more Series of credit linked Instruments, including any issue of Nth-to-Default CLNs or leveraged credit linked instruments, the applicable Final Terms shall set out such amendments or adjustments to these Credit Linked Note Conditions that are necessary in order to take account of the nature of such instruments and these Credit Linked Note Conditions shall be construed accordingly.
- (b) Any term defined or described in these Credit Linked Note Conditions or the applicable Final Terms includes where that term is incorporated or included by reference to another document including (without limitation) where the applicability or otherwise of any particular provision is determined by reference to the Credit Derivatives Physical Settlement Matrix.
- (c) Subject to sub-paragraph (d) below, in order to determine the day on which an event occurs for purposes of these Credit Linked Note Conditions, the demarcation of days shall be made by reference to Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.
- (d) Notwithstanding the definition of "Credit Event Notice" and sub-paragraph (c) above, if a payment is not made by the Reference Entity on its due date or, as the case may be, on

the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone of its place of payment.

28. Additional Disruption Events

- (a) Following the determination by the Calculation Agent that an Additional Disruption Event has occurred, the Issuer in its sole and absolute discretion may take the action described in (i) or (ii) below:
- (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the other terms of the Terms and Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
 - (ii) give notice to Holders in accordance with Note Condition 14 and redeem all, but not less than all, of the Notes, each nominal amount of Notes equal to the Calculation Amount being redeemed at the Early Redemption Amount (as specified in Part A).
- (b) Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with Note Condition 14 stating the occurrence of the Additional Disruption Event giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.
- (c) For these purposes:

"Additional Disruption Event" means any of Change in Law, Hedging Disruption, and/or Increased Cost of Hedging, in each case if specified in the applicable Final Terms.

"Change in Law" means that, on or after the Trade Date (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in its sole and absolute discretion that (A) it has become illegal to hold, acquire or dispose of any relevant asset, hedge or related trading position or (B) the Issuer and/or any of its Affiliates or agents will incur a materially increased cost in performing the obligations of the Issuer in relation to the Instruments (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).

"Hedging Disruption" means that the Issuer and/or any of its Affiliates or agents is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity, price, credit or other risk of the Issuer issuing and performing its obligations with respect to the Instruments, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

"Increased Cost of Hedging" means that the Issuer and/or any of its Affiliates or agents would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity, price, credit or other risk of the Issuer issuing and performing its obligations with respect to the Instruments, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates or agents shall not be deemed an Increased Cost of Hedging.

ANNEX 9B

in each case, whether or not such event is specified as the applicable Credit Event in the Credit Event Notice or the DC Credit Event Announcement.

- (c) any Additional Obligation of a Reference Entity specified as such (or deemed to be specified) in the applicable Final Terms;

(A) **Method for Determining "Obligations"**. For the purposes of paragraph (a) of this definition of "Obligation", the term "Obligation" may be defined as each obligation of each Reference Entity described by the Obligation Category specified in the applicable Final Terms, and having each of the Obligation Characteristics (if any) specified in the applicable Final Terms, in each case, immediately prior to the Credit Event which is the subject of either the Credit Event Notice or the DC Credit Event Question resulting in the occurrence of the Credit Event Resolution Request Date, as applicable. The following terms shall have the following meanings:

- (a) **"Obligation Category"** means Payment, Borrowed Money, Reference Obligation Only, Bond, Loan, or Bond or Loan, only one of which shall be specified in the applicable Final Terms, where:
 - (i) **"Payment"** means any obligation (whether present or future, contingent or otherwise) for the payment or repayment of money, including, without limitation, Borrowed Money;

 - (iv) **"Bond"** means any obligation of a type included in the "Borrowed Money" Obligation Category that is in the form of, or represented by, a bond, note (other than notes delivered pursuant to Loans), certificated debt security or other debt security and shall not include any other type of Borrowed Money;
 - (v) **"Loan"** means any obligation of a type included in the "Borrowed Money" Obligation Category that is documented by a term loan agreement, revolving loan agreement or other similar credit agreement and shall not include any other type of Borrowed Money; and

- (i) **"Not Subordinated"** means an obligation that is not Subordinated to (I) the Reference Obligation or (II) the Prior Reference Obligation, if applicable.
 - (ii) **"Subordination"** means, with respect to an obligation (the **"Second Obligation"**) and another obligation of the Reference Entity to which such obligation is being compared (the **"First Obligation"**), a contractual, trust or other similar arrangement providing that (I) upon the liquidation, dissolution, reorganisation or winding-up of the Reference Entity, claims of the holders of the First Obligation are required to be satisfied prior to the claims of the holders of the Second Obligation or (II) the holders of the Second Obligation will not be entitled to receive or retain principal payments in respect of their claims against the Reference Entity at any time that the Reference Entity is in payment arrears or is otherwise in default under the First Obligation. "Subordinated" will be construed accordingly. For purposes of determining whether Subordination exists or whether an obligation is Subordinated with respect to another obligation to which it is being compared, (x) the existence of preferred creditors arising by operation of law or of collateral, credit support or other credit enhancement or security arrangements shall not be taken into account, except that, notwithstanding the foregoing, priorities arising by operation of law shall be taken into account where the Reference Entity is a Sovereign and (y) in the case of the Reference Obligation or the Prior Reference Obligation, as applicable, the ranking in priority of payment shall be determined as of the date as of which it was issued or incurred (or in circumstances where the Reference Obligation or a Prior Reference Obligation is the Standard Reference Obligation and "Standard Reference

Obligation" is applicable, then the priority of payment of the Reference Obligation or the Prior Reference Obligation, as applicable, shall be determined as of the date of selection) and, in each case, shall not reflect any change to such ranking in priority of payment after such date.

- (iii) "**Specified Currency**" means an obligation that is payable in the currency or currencies specified as such in the applicable Final Terms (or, if Specified Currency is specified in the applicable Final Terms and no currency is so specified, any Standard Specified Currency), provided that if the euro is a Specified Currency, "Specified Currency" shall also include an obligation that was previously payable in the euro, regardless of any redenomination thereafter if such redenomination occurred as a result of action taken by a Governmental Authority of a Member State of the European Union which is of general application in the jurisdiction of such Governmental Authority.
- (iv) "**Not Sovereign Lender**" means any obligation that is not primarily owed to (A) a Sovereign (B) any entity or organisation established by treaty or other arrangement between two or more Sovereigns including, without limitation to the foregoing, the International Monetary Fund, European Central Bank, International Bank for Reconstruction and Development and European Bank for Reconstruction and Development, which shall include, without limitation, obligations generally referred to as "Paris Club debt".

- (vii) "**Listed**" means an obligation that is quoted, listed or ordinarily purchased and sold on an exchange.
- (viii) "**Not Domestic Issuance**" means any obligation other than an obligation that was issued (or reissued, as the case may be) or intended to be offered for sale primarily in the domestic market of the Reference Entity. Any obligation that is registered or, as a result of some other action having been taken for such purpose, is qualified for sale outside the domestic market of the Reference Entity (regardless of whether such obligation is also registered or qualified for sale within the domestic market of the Reference Entity) shall be deemed not to be issued (or reissued, as the case may be), or intended to be offered for sale primarily in the domestic market of the Reference Entity.

(B) **Interpretation of Provisions**

- (1) if either of the Obligation Characteristics "Listed" or "Not Domestic Issuance" is specified in the applicable Final Terms, the applicable Final Terms shall be construed as though such Obligation Characteristic had been specified as an Obligation Characteristic only with respect to Bonds

and shall only be relevant if Bonds are covered by the selected Obligation Category.

- (2) if an Obligation is a Relevant Guarantee, the following will apply:
 - (a) For purposes of the application of the Obligation Category, the Relevant Guarantee shall be deemed to satisfy the same category or categories as those that describe the Underlying Obligation;
 - (b) For purposes of the application of the Obligation Characteristics, both the Relevant Guarantee and the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics, if any, specified in the applicable Final Terms from the following list: "Not Subordinated", "Specified Currency", "Not Sovereign Lender", "Not Domestic Currency" and "Not Domestic Law";
 - (c) For purposes of the application of the Obligation Characteristics, only the Underlying Obligation must satisfy on the relevant date or dates each of the applicable Obligation Characteristics, if any, specified in the applicable Final Terms from the following list: "Listed", "Not Domestic Issuance", "Assignable Loan", "Consent Required Loan", "Direct Loan Participation", "Transferable", "Maximum Maturity", "Accelerated" or "Matured" and "Not Bearer"; and
 - (d) For purposes of the application of the Obligation Characteristics to an Underlying Obligation, references to the Reference Entity shall be deemed to refer to the Underlying Obligor.
- (3) if "Financial Reference Entity Terms" and "Governmental Intervention" are specified as applicable in the applicable Final Terms, if an obligation would otherwise satisfy a particular Obligation Characteristic, the existence of any terms in the relevant obligation in effect at the time of making the determination which permit the Reference Entity's obligations to be altered, discharged, released or suspended in circumstances which would constitute a Governmental Intervention, shall not cause such obligation to fail to satisfy such Obligation Characteristic.

"Obligation Acceleration" means one or more Obligations in an aggregate amount of not less than the Default Requirement have become due and payable before they would otherwise have been due and payable as a result of, or on the basis of, the occurrence of a default, event of default or other similar condition or event (however described), other than a failure to make any required payment, in respect of a Reference Entity under one or more Obligations.

"Obligation Currency" means the currency or currencies in which the Obligation is denominated.

"Obligation Default" means one or more Obligations in an aggregate amount of not less than the Default Requirement have become capable of being declared due and payable before they would otherwise have been due and payable as a result of, or on the basis of, the occurrence of a default, event of default, or other similar condition or event (however described), other than a failure to make any required payment, in respect of a Reference Entity under one or more Obligations.

"Original Non-Standard Reference Obligation" means the obligation of the Reference Entity (either directly or as provider of a guarantee) which is specified as the Reference Obligation with respect to the Reference Entity (if any is so specified) provided that if an obligation is not an obligation of the Reference Entity, such obligation will not constitute a valid Original Non-Standard Reference Obligation (other than for the purposes of determining the Seniority Level and for the "Not Subordinated" Obligation Characteristic or "Not Subordinated" Deliverable

Obligation Characteristic) unless: (a) specified otherwise in the applicable Final Terms; or (b) the relevant Instruments constitute a Reference Obligation Only Trade.

"**Outstanding Principal Balance**" of an obligation will be calculated as follows:

- (a) first, by determining, in respect of the obligation, the amount of the Reference Entity's principal payment obligations and, where "Include Accrued Interest" is specified as applicable in the applicable Final Terms (or where neither "Include Accrued Interest" nor "Exclude Accrued Interest" is specified as applicable in the applicable Final Terms and the Calculation Agent determines that the then-current market practice is to include accrued interest), the Reference Entity's accrued but unpaid interest payment obligations (which, in the case of a Guarantee will be the lower of (A) the Outstanding Principal Balance (including accrued but unpaid interest, where applicable) of the Underlying Obligation (determined as if references to the Reference Entity were references to the Underlying Obligor) and (B) the amount of the Fixed Cap, if any);
- (b) second, by subtracting all or any portion of such amount which, pursuant to the terms of the obligation, (A) is subject to any Prohibited Action, or (B) may otherwise be reduced as a result of the effluxion of time or the occurrence or non-occurrence of an event or circumstance (other than by way of (I) payment or (II) a Permitted Contingency) (the amount determined in sub-paragraph (a) less any amounts subtracted in accordance with this sub-paragraph (b), the "**Non-Contingent Amount**"); and
- (c) third, by determining the Quantum of the Claim, which shall then constitute the Outstanding Principal Balance,

in each case, determined:

- (A) unless otherwise specified, in accordance with the terms of the obligation in effect on either (I) the NOPS Effective Date (or if the terms of the obligation are amended after such date but on or prior to the Delivery Date, the Delivery Date), or (II) the Valuation Date, as applicable; and
- (B) with respect to the Quantum of the Claim only, in accordance with any applicable laws (insofar as such laws reduce or discount the size of the claim to reflect the original issue price or accrued value of the obligation).

Where "Fallback Discounting" applies, then notwithstanding the foregoing, if (i) the Outstanding Principal Balance of an obligation is not reduced or discounted under sub-paragraph (B) above, (ii) that obligation is either a Bond that has an issue price less than ninety-five per cent of the principal redemption amount or a Loan where the amount advanced is less than ninety-five per cent of the principal repayment amount, and (iii) such Bond or Loan does not include provisions relating to the accretion over time of the amount which would be payable on an early redemption or repayment of such Bond or Loan that are customary for the applicable type of Bond or Loan as the case may be, then the Outstanding Principal Balance of such Bond or Loan shall be the lesser of (a) the Non-Contingent Amount; and (b) an amount determined by straight line interpolation between the issue price of the Bond or the amount advanced under the Loan and the principal redemption amount or principal repayment amount, as applicable.

For the purposes of determining whether the issue price of a Bond or the amount advanced under a Loan is less than ninety-five per cent of the principal redemption amount or principal repayment amount (as applicable) or, where applicable, for applying straight line interpolation:

- (x) where such Bond or Loan was issued as a result of an exchange offer, the issue price or amount advanced of the new Bond or Loan resulting from the exchange shall be deemed to be equal to the aggregate Outstanding Principal Balance of the original obligation(s) that were tendered or exchanged (the "**Original Obligation(s)**") at the time of such exchange (determined without regard to market or trading value of the Original Obligation(s)); and

- (y) in the case of a Bond or Loan that is fungible with a prior debt obligation previously issued by the Reference Entity, such Bond or Loan shall be treated as having the same issue price or amount advanced as the prior debt obligation.

In circumstances where a holder would have received more than one obligation in exchange for the Original Obligation(s), the Calculation Agent will determine the allocation of the aggregate Outstanding Principal Balance of the Original Obligation(s) amongst each of the resulting obligations for the purpose of determining the issue price or amount advanced of the relevant Bond or Loan. Such allocation will take into account the interest rate, maturity, level of subordination and other terms of the obligations that resulted from the exchange and shall be made by the Calculation Agent in accordance with the methodology (if any) determined by the relevant Credit Derivatives Determinations Committee.

Where: "Fallback Discounting" applies if, in respect of the Transaction Type specified in the applicable Final Terms, the Physical Settlement Matrix specifies that Fallback Discounting applies to such Transaction Type.

"Quantum of the Claim" means the lowest amount of the claim which could be validly asserted against the Reference Entity in respect of the Non-Contingent Amount if the obligation had become redeemable, been accelerated, terminated or had otherwise become due and payable at the time of the relevant determination, provided that the Quantum of the Claim cannot exceed the Non-Contingent Amount.

The Calculation Agent will notify the Issuer of the Substitute Reference Obligation as soon as reasonably practicable after it has been identified in accordance with sub-paragraph (c) above and the Substitute Reference Obligation shall replace the Non-Standard Reference Obligation immediately upon such notification.
- (e) If a Substitution Event has occurred with respect to the Non-Standard Reference Obligation and the Calculation Agent determines that no Substitute Reference Obligation is available for the Non-Standard Reference Obligation, then, subject to sub-paragraph (a) above and notwithstanding the fact that the Non-Standard Reference Obligation may have ceased to be the Reference Obligation in accordance with sub-paragraph (b) above, the Calculation Agent shall continue to attempt to identify the Substitute Reference Obligation.

"Substitute Reference Obligation Resolution Request Date" means, with respect to a notice to the DC Secretary requesting that a Credit Derivatives Determinations Committee be convened to Resolve a Substitute Reference Obligation to the Non-Standard Reference Obligation, the date, as publicly announced by the DC Secretary, that the relevant Credit Derivatives Determinations Committee Resolves to be the date on which such notice is effective.

- (c) for any reason, other than due to the existence or occurrence of a Credit Event, the Non-Standard Reference Obligation is no longer an obligation of the Reference Entity (either directly or as provider of a guarantee).

"Successor" means:

- (a) subject to sub-paragraph (c) below, the entity or entities, if any, determined as follows:
 - (i) subject to sub-paragraph (a)(vii), if one entity succeeds, either directly or as provider of a Relevant Guarantee, to 75 per cent. or more of the Relevant Obligations of the Reference Entity, that entity will be the sole Successor;
 - (ii) if only one entity succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. (but less than 75 per cent.) of the Relevant Obligations of the Reference Entity, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entity that succeeds to more than 25 per cent. of the Relevant Obligations will be the sole Successor;
 - (iii) if more than one entity each succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. of the Relevant Obligations of the Reference Entity, and not more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, the entities that succeed to more than 25 per cent. of the Relevant Obligations will each be a Successor, and the Credit Linked Warrants or Credit Linked Certificates, as applicable, will be divided in accordance with Credit Linked W&C Condition 13;
 - (iv) if one or more entities each succeeds, either directly or as a provider of a Relevant Guarantee, to more than 25 per cent. of the Relevant Obligations of the Reference Entity, and more than 25 per cent. of the Relevant Obligations of the Reference Entity remain with the Reference Entity, each such entity and the Reference Entity will each be a Successor, and the Credit Linked Warrants or Credit Linked Certificates, as applicable, will be divided in accordance with Credit Linked W&C Condition 13;
 - (v) if one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity continues to exist, there will be no Successor and the Reference Entity and the Credit Linked Warrants or Credit Linked Certificates, as applicable, will not be changed in any way as a result of the such succession;
 - (vi) if one or more entities succeed, either directly or as a provider of a Relevant Guarantee, to a portion of the Relevant Obligations of the Reference Entity, but no entity succeeds to more than 25 per cent. of the Relevant Obligations of the Reference Entity and the Reference Entity ceases to exist, the entity which succeeds to the greatest percentage of Relevant Obligations will be the Successor (provided that if two or more entities succeed to an equal percentage of Relevant Obligations, each such entity will be a Successor and the Credit Linked Warrants or Credit Linked Certificates, as applicable, will be divided in accordance with Credit Linked W&C Condition 13); and
 - (vii) in respect of a Reference Entity which is not a Sovereign, if one entity assumes all of the obligations (including at least one Relevant Obligation) of the Reference Entity, and at the time of the determination either (A) the Reference Entity has

ceased to exist, or (B) the Reference Entity is in the process of being dissolved (howsoever described) and the Reference Entity has not issued or incurred any Borrowed Money obligation at any time since the legally effective date of the assumption, such entity (the "**Universal Successor**") will be the sole Successor.

- (b) The Calculation Agent will be responsible for determining, as soon as reasonably practicable it becomes aware thereof and, in each case, with effect from the Succession Date, any Successor or Successors under sub-paragraph (a) above; provided that if "Calculation Agent Determination" is not specified as being applicable in the applicable Final Terms, the Calculation Agent will not make such determination if, at the time of determination, the DC Secretary has publicly announced that the relevant Credit Derivatives Determinations Committee has Resolved that there is no Successor based on the relevant succession to Relevant Obligations.

Notwithstanding sub-paragraph (a) above, where "Calculation Agent Determination" is specified as being applicable in the applicable Final Terms, the Successor shall be either (as selected by the Calculation Agent in its sole discretion) (A) the current obligor in respect of the Reference Obligation, (B) the successor(s) determined in accordance with sub-paragraph (a) above, as applicable, or (C) any successor(s) identified by the relevant Credit Derivatives Determinations Committee pursuant to a DC Resolution if the Calculation Agent notifies the Issuer that a DC Resolution in relation to a Reference Entity and a succession shall apply.

The Calculation Agent will make all calculations and determinations required to be made under this provision on the basis of Eligible Information and will notify the Issuer of any such calculation or determination as soon as practicable.

In calculating the percentages used to determine whether an entity qualifies as a Successor, if there is a Steps Plan, the Calculation Agent shall consider all related successions in respect of such Steps Plan in aggregate as if forming part of a single succession.

- (c) An entity may only be a Successor if:
- (i) either (A) the related Succession Date occurs on or after the Successor Backstop Date, or (B) such entity is a Universal Successor in respect of which the Succession Date occurred on or after January 1, 2014;
 - (ii) the Reference Entity had at least one Relevant Obligation outstanding immediately prior to the Succession Date and such entity succeeds to all or part of at least one Relevant Obligation of the Reference Entity; and

- (d) For the purposes of this definition of Successor, "**succeed**" means, with respect to a Reference Entity and its Relevant Obligations, that an entity other than such Reference Entity: (i) assumes or becomes liable for such Relevant Obligations whether by operation of law or pursuant to any agreement (including, with respect to a Reference Entity that is a Sovereign, any protocol, treaty, convention, accord, concord, entente, pact or other agreement); or (ii) issues Bonds or incurs Loans (the "**Exchange Bonds or Loans**") that are exchanged for Relevant Obligations, and in either case the Reference Entity is not thereafter a direct obligor or a provider of a Relevant Guarantee with respect to such Relevant Obligations or such Exchange Bonds or Loans, as applicable. For purposes of this definition of Successor, "succeeded" and "succession" shall be construed accordingly.
- (e) In the case of an exchange offer, the determination required pursuant to sub-paragraph (a) above shall be made on the basis of the outstanding principal balance of Relevant Obligations exchanged and not on the basis of the outstanding principal balance of the Exchange Bonds or Loans.

- (f) If two or more entities (each, a "**Joint Potential Successor**") jointly succeed to a Relevant Obligation (the "**Joint Relevant Obligation**") either directly or as a provider of a Relevant Guarantee, then (i) if the Joint Relevant Obligation was a direct obligation of the Reference Entity, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as direct obligor or obligors, or (ii) if the Joint Relevant Obligation was a Relevant Guarantee, it shall be treated as having been succeeded to by the Joint Potential Successor (or Joint Potential Successors, in equal parts) which succeeded to such Joint Relevant Obligation as guarantor or guarantors, if any, or otherwise by each Joint Potential Successor in equal parts.
- (g) Where:
- (A) a Reference Obligation with respect to a Reference Entity is specified in the applicable Final Terms; and
 - (B) one or more Successors to the Reference Entity have been identified; and
 - (C) any one or more such Successors have not assumed the Reference Obligation,
- a Substitute Reference Obligation will be determined in accordance with the definition of "Substitute Reference Obligation".

"Successor Backstop Date" means for purposes of any Successor determination determined by DC Resolution, the date that is ninety calendar days prior to the Successor Resolution Request Date or otherwise, the date that is ninety calendar days prior to the earlier of (i) the date on which the Successor Notice is effective and (ii) in circumstances where (A) a Successor Resolution Request Date has occurred, (B) the relevant Credit Derivatives Determinations Committee has Resolved not to make a Successor determination and (C) the Successor Notice is delivered by the Calculation Agent to the Issuer not more than fourteen calendar days after the day on which the DC Secretary publicly announces that the relevant Credit Derivatives Determinations Committee has Resolved not to make a Successor determination, the Successor Resolution Request Date. "Transaction Type" means in respect of a Reference Entity, the transaction type specified in respect of such Reference Entity in the applicable Final Terms corresponding to the "Transaction Type" specified as such in the Physical Settlement Matrix.

"Undeliverable Obligation" means a Deliverable Obligation included in the Entitlement which, on the Final Delivery Date for such Deliverable Obligation, the Calculation Agent determines (in its sole discretion) for any reason (including without limitation, failure of the relevant clearance system or due to any law, regulation, court order, contractual restrictions, statutory restrictions, a Hedge Disruption Event or market conditions or the non-receipt of any requisite consents with respect to the Delivery of Loans) it is either:

- (a) impossible, illegal, impracticable or is otherwise unable to Deliver for any reason on the Final Delivery Date; or
- (b) unable or impracticable to Deliver on the Final Delivery Date because (i) the relevant Holder(s) has not taken any action that is deemed necessary by the Calculation Agent (acting in its sole discretion) to enable the Issuer to Deliver and/or for the Holder(s) to take delivery of all or a portion of the Deliverable Obligations; or (ii) the Holder(s) has failed to provide know-your-customer information, sign and deliver relevant transfer documentation and/or confidentiality agreement, pay a fee to the agent to effect the transfer and/or provide any other information or documentation or make any other payment (including any taxes) as is specified under the terms of the relevant Deliverable Obligations or as is customary to provide in respect of such Deliverable Obligations, each as may be required pursuant to the definition of "Deliver" herein.

"Valuation Date" means (i) where Physical Settlement is specified as applying in the applicable Final Terms, the day falling five Business Days after the Final Delivery Date, or (ii) where Cash Settlement is specified as applying in the applicable Final Terms, if "Single Valuation Date" is specified in the applicable Final Terms, the date that is the number of Business Days specified in the applicable Final Terms after the Event Determination Date or, if the number of Business

- (a) the date that is the number of Business Days specified in the applicable Final Terms after the Event Determination Date, Auction Cancellation Date or No Auction Announcement Date (or, if the number of Business Days is not specified, five Business Days); and
- (b) each successive date that is the number of Business Days specified in the applicable Final Terms (or if the number of Business Days is not so specified, five Business Days) after the date on which the Calculation Agent obtains a Market Value with respect to the immediately preceding Valuation Date.

When "Multiple Valuation Dates" is specified in the applicable Final Terms, the total number of Valuation Dates shall be equal to the number of Valuation Dates specified in the applicable Final Terms (or, if the number of Valuation Dates is not so specified, five Valuation Dates).

If neither Single Valuation Date nor Multiple Valuation Dates is specified in the applicable Final Terms, Single Valuation Date shall apply.

"Average Blended Highest" means, using values with respect to each Valuation Date determined by the Calculation Agent in accordance with the Blended Highest Valuation Method, the unweighted arithmetic mean of the values so determined with respect to each Valuation Date.

- (h) If no such Valuation Method is specified in the applicable Final Terms, the Valuation Method shall be Average Blended Highest.
- (i) Notwithstanding paragraphs (a) to (h) above, if Quotations include Weighted Average Quotations or fewer than two Full Quotations, the Valuation Method shall be Market, Average Market, Blended Market or Average Blended Market, as the case may be.

3. Automatic Exercise

- (a) Unless previously exercised or purchased and cancelled by the Issuer, each Long Credit Linked W&C Instrument will be automatically exercised on the Long Exercise Date, and each such Instrument shall entitle its Holder to receive from the Issuer on the Settlement Date the Cash Settlement Amount specified in, or determined in the manner specified in, the applicable Final Terms (or, if no such provision is made in the applicable Final Terms, the outstanding Notional Amount thereof).
- (b) Unless previously exercised or purchased and cancelled by the Issuer, each Short Credit Linked W&C Instrument will be automatically exercised on the Short Exercise Date, and each such Instrument shall entitle its Holder to receive from the Issuer on the Settlement Date the Cash Settlement Amount specified in, or determined in the manner specified in, the applicable Final Terms (or, if no such provision is made in the applicable Final Terms, zero).

If Reference Obligation Only Trade is applicable with respect to the Instruments and the event set out in sub-paragraph (a) of the definition of Substitution Event occurs with respect to the Reference Obligation, the Calculation Agent may give notice (such notice a **"Reference Obligation Only Exercise Notice"**) to the Issuer on any day from and including the applicable Substitution Event Date and the Issuer shall exercise each Credit Linked Warrant or Credit Linked Certificate, as applicable, and the Holder of each such Instrument shall receive the Cash Settlement Amount specified in, or determined in the manner specified in, the applicable Final

Terms (or if no such provision is made in the applicable Final Terms (i) in respect of each Long Credit Linked W&C Instrument, the outstanding Notional Amount thereof or (ii) in respect of each Short Credit Linked W&C Instrument, zero).

4. **Cash Settlement**

Unless the Instruments have been previously redeemed or purchased and cancelled, if an Event Determination Date occurs (in the case of Nth-to-Default Instruments, in relation to the Nth Reference Entity in respect of which an Event Determination Date occurs) and the applicable Settlement Method is "Cash Settlement" (or a Fallback Settlement Event has occurred and the Fallback Settlement Method is "Cash Settlement"), the Calculation Agent shall give notice (such notice a "**Settlement Notice**") to the Issuer and the Issuer shall redeem or cancel, as applicable, all of the Instruments and pay in respect of each Instrument the Credit Event Redemption Amount on the Credit Event Redemption Date.

If an Event Determination Date occurs and the Instruments are redeemed in accordance with this Credit Linked W&C Condition 4, upon payment of the Credit Event Redemption Amount the Issuer shall have discharged its obligations in respect of the Instruments and shall have no other liability or obligation whatsoever in respect thereof. The Credit Event Redemption Amount may be less than the Issue Price or Notional Amount of an Instrument. Any shortfall shall be borne by the Holder and no liability shall attach to the Issuer and/or the Guarantor.

5. **Physical Settlement**

Unless the Instruments have been previously redeemed or purchased and cancelled, if an Event Determination Date occurs (in the case of Nth-to-Default Instruments, in relation to the Nth Reference Entity in respect of which an Event Determination Date occurs) and the applicable Settlement Method is "Physical Settlement" (or a Fallback Settlement Event has occurred and the Fallback Settlement Method is "Physical Settlement"), the Calculation Agent shall give notice (such notice a "**Notice of Physical Settlement**") to the Issuer on or before the NOPS Cut-off Date and the Issuer shall redeem or cancel, as applicable, all of the Instruments, by Delivering (or procuring the Delivery) in respect of each Instrument the Deliverable Obligations comprising the Entitlement, subject to and in accordance with the W&C Instruments Conditions and the Credit Linked W&C Conditions (and in particular, Credit Linked W&C Condition 9).

In the Notice of Physical Settlement, the Calculation Agent shall:

- (a) specify the Deliverable Obligations comprising the Entitlement that the Issuer shall endeavour to Deliver including, if available and applicable, the CUSIP or ISIN number (or, if such identifying number is not available or applicable, the rate and tenor) of each such Deliverable Obligation; and
- (b) specify the Outstanding Principal Balance or Due and Payable Amount, as applicable, or the equivalent amount in the Settlement Currency (in each case, the "**Outstanding Amount**") and, if different, the face amount, of each such Deliverable Obligation and the aggregate Outstanding Amount of all Deliverable Obligations specified in the Notice of Physical Settlement that the Issuer shall endeavour to Deliver (the "**Aggregate Outstanding Amount**").

The Calculation Agent may at any time prior to any Delivery Date by delivery of a notice to the Issuer (the "**NOPS Amendment Notice**") amend the Notice of Physical Settlement and the Issuer shall endeavour to, pursuant to such NOPS Amendment Notice, Deliver to the Holders replacement Deliverable Obligations that are different from the Deliverable Obligations originally specified (each, a "**Replacement Deliverable Obligation**"). A NOPS Amendment Notice shall contain a revised detailed description of each Replacement Deliverable Obligation and shall also specify the Outstanding Amount of each Deliverable Obligation identified in the Notice of Physical Settlement or a prior NOPS Amendment Notice, as applicable, that is being replaced (with respect to each such Deliverable Obligation, the "**Replaced Deliverable Obligation Outstanding Amount**"). The Outstanding Amount of the Replacement Deliverable Obligations specified in any NOPS Amendment Notice in aggregate with the Outstanding Amount of the Deliverable Obligations specified in the Notice of Physical Settlement or any

earlier NOPS Amendment Notice which, in each case, are not being replaced must not be greater than the Aggregate Outstanding Amount. Each such NOPS Amendment Notice must be effective on or prior to the Delivery Date (determined without reference to any change resulting from such NOPS Amendment Notice).

Notwithstanding the foregoing, (i) the Calculation Agent may correct any errors or inconsistencies in the detailed description of each Deliverable Obligation contained in the Notice of Physical Settlement or any NOPS Amendment Notice, as applicable, by notice to Issuer prior to the relevant Delivery Date; and (ii) if Asset Package Delivery is applicable, the Calculation Agent shall on the NOPS Effective Date, or as soon as reasonably practicable thereafter (but in any case, prior to the Delivery Date), notify the Issuer of the detailed description of the Asset Package, if any, that the Issuer shall endeavour to deliver in lieu of the Prior Deliverable Obligation or Package Observable Bond, if any, specified in the Notice of Physical Settlement or NOPS Amendment Notice, as applicable, it being understood in each case that such notice of correction shall not constitute a NOPS Amendment Notice.

If (i) "Physical Settlement" is specified to be the Settlement Method in the applicable Final Terms (or is applicable as the Fallback Settlement Method), (ii) "Mod R" is specified as applicable in the applicable Final Terms and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice, as applicable, if such Deliverable Obligation (A) is a Fully Transferable Obligation and (B) has a final maturity date not later than the applicable Restructuring Maturity Limitation Date, in each case, as of both the NOPS Effective Date and the Delivery Date.

If (i) "Physical Settlement" is specified to be the Settlement Method in the applicable Final Terms (or is applicable as the Fallback Settlement Method), (ii) "Mod Mod R" is specified as applicable in the applicable Final Terms and (iii) Restructuring is the only Credit Event specified in a Credit Event Notice, then unless the Deliverable Obligation is a Prior Deliverable Obligation and Asset Package Delivery applies due to a Governmental Intervention, a Deliverable Obligation may only be specified (or deemed specified) in the Notice of Physical Settlement or in any NOPS Amendment Notice, as applicable, if it (A) is a Conditionally Transferable Obligation and (B) has a final maturity date not later than the applicable Modified Restructuring Maturity Limitation Date in each case, as of both the NOPS Effective Date and the Delivery Date. Notwithstanding the foregoing, for purposes of this sub-paragraph, in the case of a Restructured Bond or Loan with a final maturity date on or prior to the 10-year Limitation Date, the final maturity date of such Bond or Loan shall be deemed to be the earlier of such final maturity date or the final maturity date of such Bond or Loan immediately prior to the relevant Restructuring.

Unless otherwise specified in the applicable Final Terms, the Guaranteed Cash Settlement Amount in respect of each Credit Linked Warrant or Credit Linked Certificate shall be an amount calculated in accordance with the definition of "Partial Cash Settlement Amount", provided that the Guarantor shall designate in its sole and absolute discretion which portion of the Entitlement shall be an Undeliverable Obligation, and provided that the Valuation Date, shall be the date notified as such by the Guarantor to the Issuer and the Calculation Agent.

If an Event Determination Date occurs and the Instruments are redeemed or are cancelled in accordance with this Credit Linked W&C Condition 5, upon Delivery of the Deliverable Obligations comprising the Entitlement and/or payment of the Partial Cash Settlement Amount, as the case may be, the Issuer shall have discharged its obligations in respect of the Instruments and shall have no other liability or obligation whatsoever in respect thereof. The value of such Deliverable Obligations and/or the Partial Cash Settlement Amount in respect of the Instruments to be redeemed may be less than the Issue Price or Notional Amount of an Instrument. Any shortfall shall be borne by the Holder and no liability shall attach to the Issuer and/or the Guarantor.

6. Auction Settlement

Unless the Instruments have been previously redeemed or purchased and cancelled, if an Event Determination Date occurs (in the case of Nth-to-Default Instruments, in relation to the Nth Reference Entity in respect of which an Event Determination Date occurs) and the applicable Settlement Method is "Auction Settlement", the Calculation Agent shall give notice (such notice a "**Settlement Notice**") to the Issuer and the Issuer shall redeem or cancel as applicable, all of the Instruments and pay in respect of each Instrument the Auction Settlement Amount on the Auction Settlement Date unless a Fallback Settlement Event occurs (for the avoidance of doubt, in relation to the same Credit Event), in which case the Issuer shall redeem or cancel, as the case may be, the Instruments in accordance with the applicable Fallback Settlement Method.

If an Event Determination Date occurs and the Instruments are redeemed or are cancelled in accordance with this Credit Linked W&C Condition 6, upon payment of the Auction Settlement Amount the Issuer shall have discharged its obligations in respect of the Instruments and shall have no other liability or obligation whatsoever in respect thereof. The Auction Settlement Amount may be less than the Issue Price or Notional Amount of an Instrument. Any shortfall shall be borne by the Holder and no liability shall attach to the Issuer and/or the Guarantor.

7. **Suspension of Obligations**

If a Credit Event Resolution Request Date occurs in relation to any Reference Entity, then, unless the Issuer otherwise elects by notice to the Holders, any obligation of the Issuer to redeem or cancel (as the case may be) or otherwise settle any Credit Linked Warrant or Credit Linked Certificate or pay any Additional Amount which would otherwise be due thereon shall, to the extent that it relates to such Reference Entity, be and remain suspended until (a) the occurrence of a DC Credit Event Announcement; (b) the occurrence of a DC No Credit Event Announcement; or (c) the occurrence of a DC Credit Event Question Dismissal (each of the events set out in (a), (b) or (c), a "**DC Announcement**").

Following a DC Announcement, any obligations so suspended shall resume on the second Business Day immediately following the date of such DC Announcement (with benefit being given of the full day notwithstanding when the tolling or suspension began). Any Additional Amount so suspended shall, subject to W&C Instruments Condition 26(B) or W&C Instruments Condition 33(B), as applicable, become due and payable on the date determined by the Calculation Agent in its sole discretion provided that such date shall not be later than 20 Business Days after the date of such DC Announcement.

No interest shall accrue on any Additional Amount, any Cash Settlement Amount or any other payment obligation of the Issuer so suspended.

Where the applicable Final Terms specify that "Calculation Agent Determination" is applicable, this Credit Linked W&C Condition 7 shall not apply to the relevant Instruments unless the Calculation Agent notifies the Issuer that this Credit Linked W&C Condition 7 shall apply.

8. **Additional Amounts**

Following the delivery of an Extension Notice, in the case of additional amount bearing Credit Linked Warrants or Credit Linked Certificates and provided that an Event Determination Date has not occurred, the Issuer shall be obliged to pay Additional Amounts calculated as provided in W&C Instruments Condition 26 or W&C Instruments Condition 32, as applicable, accruing from (and including) the Additional Amount Payment Date immediately preceding the Actual Exercise Date (or, if none the Issue Date) to (but excluding) the Actual Exercise Date but shall only be obliged to make such payment of interest on the Long Exercise Date or the Short Exercise Date, as applicable, and no further or other amount in respect of interest shall be payable and no additional amount shall be payable in respect of such delay.

Without prejudice to Credit Linked W&C Condition 7, if "Accrual of Additional Amounts upon Credit Event" is specified as Not Applicable in the applicable Final Terms and the Calculation Agent determines that a Credit Event, a Potential Failure to Pay or a Potential Repudiation/Moratorium has occurred or may occur on or prior to an Additional Amount Payment Date, the Calculation Agent may notify the Issuer and where the Calculation Agent

delivers any such notice (a "**Postponement Notice**") to the Issuer on or prior to such Additional Amount Payment Date (in either case, the "**Postponed Payment Date**"), any obligation of the Issuer to pay any Additional Amount shall be suspended for a period of 15 Business Days following such Postponed Payment Date (or, in respect of any Postponed Payment Date scheduled to fall on the Actual Exercise Date, up to the Long Exercise Date or the Short Exercise Date, as applicable, (or such shorter period as the Calculation Agent may notify the Issuer) to enable the Calculation Agent to determine whether a Credit Event has occurred.

Where the Calculation Agent delivers a Postponement Notice to the Issuer, the Issuer shall give notice thereof as soon as practicable to the Holders in accordance with W&C Instruments Condition 12, provided that any failure to give, or non-receipt of, such notice will not affect the validity of any postponement of an Additional Amount Payment Date.

If an Event Determination Date has not occurred on or prior to such 15th Business Day, Long Exercise Date or Short Exercise Date, as applicable, the Additional Amount shall be payable on such 15th Business Day, Long Exercise Date or Short Exercise Date, as applicable, (for the avoidance of doubt, no interest shall accrue on any additional amount so suspended). If an Event Determination Date has occurred on or prior to such 15th Business Day, Long Exercise Date or Short Exercise Date, as applicable, then notwithstanding W&C Instruments Condition 26(B)(a) or W&C Instruments Condition 33(B)(a), as applicable, each Instrument shall cease to accrue Additional Amounts from the Additional Amount Payment Date immediately preceding the Postponed Payment Date or, if the Postponed Payment Date falls on the first Additional Amount Payment Date, no Additional Amount shall accrue on the Instruments (and W&C Instruments Condition 26(B) or W&C Instruments Condition 33(B), as applicable shall be deemed to be amended accordingly).

9. **Partial Cash Settlement**

If all or a portion of the Undeliverable Obligations or Hedge Disruption Obligations comprising the Entitlement are not Delivered for whatever reason by the Final Delivery Date, the Calculation Agent shall give notice (a "**Partial Cash Settlement Notice**") to the Issuer, as applicable, and the Issuer shall pay in respect of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, the Partial Cash Settlement Amount on the Partial Cash Settlement Date. For the avoidance of doubt, the failure by the Issuer to Deliver all or such portion of the Undeliverable Obligations comprising the Entitlement on or prior to the Final Delivery Date shall not constitute an Event of Default.

Unless otherwise specified in the applicable Final Terms, for the purposes of this Credit Linked W&C Condition 9 the following terms are deemed to have the following meanings:

"Indicative Quotation" means, in accordance with the Quotation Method, each quotation obtained from a Quotation Dealer at the Valuation Time for (to the extent reasonably practicable) an amount of the Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, equal to the Quotation Amount, which reflects such Quotation Dealer's reasonable assessment of the price of such Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, based on such factors as such Quotation Dealer may consider relevant, which may include historical prices and recovery rates.

"Market Value" means, with respect to an Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, on a Valuation Date, (a) if more than three Full Quotations are obtained, the arithmetic mean of such Full Quotations, disregarding the Full Quotations having the same highest and lowest values (and, if more than one such Full Quotations have the same highest or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (b) if exactly three Full Quotations are obtained, the Full Quotations remaining after disregarding the highest and lowest Full Quotations (and, if more than one such Full Quotations have the same highest value or lowest value, then one of such highest or lowest Full Quotations shall be disregarded); (c) if exactly two Full Quotations are obtained, the arithmetic mean of such Full Quotations; (d) if fewer than two Full Quotations are obtained and a Weighted Average Quotation is obtained, such Weighted Average Quotation; (e) if Indicative Quotations are specified as applying in the applicable Final Terms and exactly three Indicative Quotations are obtained, the Indicative Quotation remaining after disregarding the highest and lowest

Indicative Quotations (and, if more than one such Indicative Quotations have the same highest or lowest value, then one of such highest or lowest Indicative Quotations shall be disregarded); (f) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) then, subject to paragraph (b) of the definition of "Quotation" below, an amount as determined by the Calculation Agent on the next Business Day on which two or more Full Quotations or a Weighted Average Quotation or, if applicable, three Indicative Quotations are obtained; and (vii) if fewer than two Full Quotations are obtained and no Weighted Average Quotation is obtained (and, if Indicative Quotations are applicable, fewer than three Indicative Quotations are obtained) on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Market Value shall be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.

"Partial Cash Settlement Amount" is deemed to be, for each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, an amount calculated by the Calculation Agent equal to the greater of (a) (i) the Outstanding Principal Balance, the Due and Payable Amount or the Currency Amount, as applicable, of each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, multiplied by (ii) either (A) if one or more Auctions are held by the Credit Derivatives Determinations Committee in respect of the Reference Entity, the Auction Final Price or (B) if the Calculation Agent decides (in its sole and absolute discretion), the Final Price with respect to such Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, less (iii) Unwind Costs, if any (but excluding any Unwind Costs already taken into account in calculating the relevant Entitlement), and (b) zero.

"Partial Cash Settlement Date" is deemed to be the date falling three Business Days after the calculation of the Final Price or, as applicable, the date falling fifteen Business Days after the later of (a) the Final Delivery Date and (b) the Auction Final Price Determination Date.

"Quotation" means each Full Quotation, the Weighted Average Quotation and, if Indicative Quotations are specified as applying in the applicable Final Terms, each Indicative Quotation obtained and expressed as a percentage with respect to a Valuation Date in the manner that follows:

- (a) The Calculation Agent shall attempt to obtain Full Quotations with respect to each Valuation Date from five or more Quotation Dealers. If the Calculation Agent is unable to obtain two or more such Full Quotations on the same Business Day within three Business Days of a Valuation Date, then on the next following Business Day (and, if necessary, on each Business Day thereafter until the tenth Business Day following the relevant Valuation Date) the Calculation Agent shall attempt to obtain Full Quotations from five or more Quotation Dealers, and, if two or more Full Quotations are not available, a Weighted Average Quotation. If two or more such Full Quotations or a Weighted Average Quotation are not available on any such Business Day and Indicative Quotations are specified as applying in the applicable Final Terms, the Calculation Agent shall attempt to obtain three Indicative Quotations from five or more Quotation Dealers.
- (b) If the Calculation Agent is unable to obtain two or more Full Quotations or a Weighted Average Quotation (or, if Indicative Quotations are specified as applying in the applicable Final Terms, three Indicative Quotations) on the same Business Day on or prior to the tenth Business Day following the Valuation Date, the Quotations shall be deemed to be any Full Quotation obtained from a Quotation Dealer at the Valuation Time on such tenth Business Day or, if no Full Quotation is obtained, the weighted average of any firm quotations (or, if applicable, Indicative Quotations) for the Undeliverable Obligation or Hedge Disruption Obligation, as the case may be, obtained from Quotation Dealers at the Valuation Time on such tenth Business Day with respect to the aggregate portion of the Quotation Amount for which such quotations were obtained and a

quotation deemed to be zero for the balance of the Quotation Amount for which firm quotations (or, if applicable, Indicative Quotations) were not obtained on such day.

- (c) The Calculation Agent shall determine, based on the then-current market practice in the market of the relevant Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, whether such Quotations shall include or exclude accrued but unpaid interest. All Quotations shall be obtained in accordance with this specification or determination.
- (d) If any Quotation obtained with respect to an Accreting Obligation is expressed as a percentage of the amount payable in respect of such obligation at maturity, such Quotation will instead be expressed as a percentage of the Outstanding Principal Balance for the purposes of determining the Final Price.

"Quotation Amount" is deemed to be, with respect to each type or issue of Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, an amount equal to the Outstanding Principal Balance or Due and Payable Amount (or, in either case, its equivalent in the relevant Obligation Currency converted by the Calculation Agent in a commercially reasonable manner by reference to exchange rates in effect at the time that the relevant Quotation is being obtained), as applicable, of such Undeliverable Obligation or Hedge Disruption Obligations, as the case may be. The Calculation Agent may in its sole discretion round up or down the Quotation Amount for the purposes of seeking a Quotation.

"Quotation Method" is deemed to be Bid.

"Reference Obligation" is deemed to be each Undeliverable Obligation or Hedge Disruption Obligation, as the case may be.

"Valuation Method" is deemed to be Highest unless fewer than two Full Quotations are obtained or a Weighted Average Quotation applies (or, if applicable, Indicative Quotations), in which case "Valuation Method" is deemed to be Market Value.

"Valuation Time" is the time specified as such in the applicable Final Terms, or, if no time is so specified, 11:00 a.m. in the principal trading market for the Undeliverable Obligation or Hedge Disruption Obligation, as the case may be.

"Weighted Average Quotation" means, in accordance with the Quotation Method, the weighted average of firm quotations obtained from Quotation Dealers at the Valuation Time, to the extent reasonably practicable, each for an amount of the Undeliverable Obligation or Hedge Disruption Obligations, as the case may be, with an Outstanding Principal Balance of as large a size as available but less than the Quotation Amount that in aggregate are approximately equal to the Quotation Amount.

10. **Redemption following a Merger Event**

If this Credit Linked W&C Condition 10 is specified as applicable in the applicable Final Terms, in the event that in the determination of the Calculation Agent a Merger Event has occurred, the Issuer may give notice to the Holders in accordance with W&C Instruments Condition 12, and redeem or cancel, as applicable, all but not less than all of the Instruments at the Merger Event Redemption Amount on the Merger Event Redemption Date, each as specified in the applicable Final Terms.

11. **Credit Event Notice after M(M)R Restructuring Credit Event**

If this Credit Linked W&C Condition 11 is specified as applicable in the applicable Final Terms, then, notwithstanding anything to the contrary in the Terms and Conditions, upon the occurrence of an M(M)R Restructuring:

- (a) in the case of Credit Linked Certificates:
 - (i) either (A) the Calculation Agent may deliver a Credit Event Notice to the Issuer or (B) (in the case of Short Credit Linked Certificates only) a Holder may deliver

- a Credit Event Notice to the Issuer, in each case in respect of an amount (the "**Partial Cancellation Amount**") that is less than the Notional Amount of each Certificate immediately prior to the delivery of such Credit Event Notice. In such circumstances the Credit Linked W&C Conditions and related provisions shall be deemed to apply to the Partial Cancellation Amount only and each such Certificate shall be cancelled in part (such cancelled part being equal to the Partial Cancellation Amount).
- (ii) For the avoidance of doubt (A) the Notional Amount, part or other amount of each such Certificate not so redeemed in part shall remain outstanding and Additional Amounts (if applicable) shall be payable on the Notional Amount outstanding of such Certificate as provided in W&C Instruments Condition 33 (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate), (B) the Credit Linked W&C Conditions and related provisions shall apply to such Notional Amount, part or other amount outstanding of such Certificate in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the M(M)R Restructuring Credit Event and (C) once a Credit Event Notice with respect to an M(M)R Restructuring Credit Event has been delivered in respect of a Reference Entity, no further Credit Event Notices may be delivered in respect of any Reference Entity other than the Reference Entity that was the subject of the M(M)R Restructuring Credit Event.
 - (iii) If the provisions of this Credit Linked W&C Condition 11(a) apply in respect of the Credit Linked Certificate, on cancellation of part of each such Credit Linked Certificate the relevant Credit Linked Certificate or, if the Credit Linked Certificates are represented by a Global Certificate, such Global Certificate, shall be endorsed to reflect such part redemption;
- (b) in the case of Credit Linked Warrants:
- (i) either (A) the Calculation Agent may deliver a Credit Event Notice to the Issuer or (B) (in the case of Short Credit Linked Warrants only) a Holder may deliver a Credit Event Notice to the Issuer, in each case in respect of an amount (the "**Partial Cancellation Amount**") that is less than the Notional Amount of each Warrant immediately prior to the delivery of such Credit Event Notice (provided that if the Credit Event Notice does not specify an amount, then the full Notional Amount will be deemed to have been specified). In such circumstances the Credit Linked W&C Conditions and related provisions shall be deemed to apply to the Partial Cancellation Amount only and each such Warrant shall be cancelled in part (such cancelled part being equal to the Partial Cancellation Amount).
 - (ii) For the avoidance of doubt (A) the Notional Amount, part or other amount of each such Warrant not so redeemed in part shall remain outstanding and Additional Amounts (if applicable) shall be payable on the Notional Amount outstanding of such Warrant as provided in W&C Instruments Condition 26 (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate), (B) the Credit Linked W&C Conditions and related provisions shall apply to such Notional Amount, part or other amount outstanding of such Warrant in the event that subsequent Credit Event Notices are delivered in respect of the Reference Entity that was the subject of the M(M)R Restructuring Credit Event and (C) once a Credit Event Notice with respect to an M(M)R Restructuring Credit Event has been delivered in respect of a Reference Entity, no further Credit Event Notices may be delivered in respect of any Reference Entity other than the Reference Entity that was the subject of the M(M)R Restructuring Credit Event.
 - (iii) If the provisions of this Credit Linked W&C Condition 11(b) apply in respect of the Credit Linked Warrant, on cancellation of part of each such Credit Linked Warrant the relevant Credit Linked Warrant or, if the Credit Linked Warrants are represented by a Global Warrant, such Global Warrant, shall be endorsed to reflect such part redemption.

12. **Multiple Holder Obligation**

If this Credit Linked W&C Condition 12 is specified as applicable (or deemed to be applicable) in the applicable Final Terms, notwithstanding anything to the contrary in the definition of Restructuring and related provisions, the occurrence of, agreement to, or announcement of, any of the events described in sub-paragraphs (a)(i) to (v) of the definition of "Restructuring" in Credit Linked W&C Condition 2 shall not be a Restructuring unless the Obligation in respect of any such events is a Multiple Holder Obligation.

"Multiple Holder Obligation" means an Obligation that (a) at the time of the event which constitutes a Restructuring Credit Event, is held by more than three holders that are not Affiliates of each other and (b) with respect to which a percentage of holders (determined pursuant to the terms of the Obligation as in effect on the date of such event) at least equal to sixty-six and two-thirds is required to consent to the event which constitutes a Restructuring Credit Event, provided that any Obligation that is a Bond shall be deemed to satisfy the requirement in (b).

13. **Successors**

- (a) Where pursuant to sub-paragraph (a)(iii), (iv) or (vi) of the definition of Successor, more than one Successor has been identified, the Credit Linked Warrants or Credit Linked Certificates, as applicable, will be equally divided into such number of notional Credit Linked Warrants or Credit Linked Certificates, as applicable, as there are Successors and each Successor will be the Reference Entity for the purposes of one of such Credit Linked Warrants or Credit Linked Certificates, as applicable. These Credit Linked W&C Conditions shall be deemed to apply to such Credit Linked Warrants or Credit Linked Certificates, as applicable, and shall be construed accordingly.
- (b) Where a Credit Event occurs in respect of a Reference Entity after more than one Successor has been identified, the provisions of these Credit Linked W&C Conditions shall be deemed to apply to the Notional Amount represented by that Reference Entity only (the "**Partial Notional Amount**") and all the provisions shall be construed accordingly. Each Instrument shall thereafter be redeemed in part (such redeemed part being equal to its *pro rata* share of the Partial Notional Amount).
- (c) The Instruments shall remain outstanding with a new Notional Amount equal to the Notional Amount prior to such redemption minus the Partial Notional Amount (such amount, the "**Remaining Amount**") and Additional Amounts (if applicable) shall be payable on the Remaining Amount as provided for in W&C Instruments Condition 26 or W&C Instruments Condition 33, as applicable (adjusted in such manner as the Calculation Agent in its sole and absolute discretion determines to be appropriate).
- (d) Any determinations (including (without limitation) as to the division of the Credit Linked Warrants or Credit Linked Certificates, as applicable) and any adjustment to the applicable Final Terms relating to, connected with or as a result of the identification of more than one Successor shall be made by the Calculation Agent in its sole discretion (provided that if such determinations have been made by the relevant Credit Derivatives Determinations Committee, then the Calculation Agent shall, unless (x) otherwise provided for in the applicable Final Terms or (y) "Calculation Agent Determination" is specified as applicable in the applicable Final Terms, be bound by such determinations) and, in the absence of manifest error, shall be conclusive and binding on all Holders. The applicable Final Terms may be amended and restated from time to time to reflect the effect of such determinations without the consent of the Holders and the Holders are deemed to agree to this provision by the purchase of the Instruments.

14. **Provisions taken from the ISDA supplement titled "Additional Provisions for Monoline Insurer Reference Entities" (published on September 15, 2014)**

If Credit Linked W&C Condition 14 is specified as applicable in the applicable Final Terms, the following provisions will apply:

- (a) **Obligation and Deliverable Obligation.** Paragraph (a) of the definition of "Obligation" in Credit Linked W&C Condition 2 and paragraph (a) of the definition of "Deliverable Obligation" in Credit Linked W&C Condition 2 are hereby amended by adding "or Qualifying Policy" after "or as a provider of a Relevant Guarantee".

 - (i) the Obligation Category Borrowed Money and the Obligation Category and Deliverable Obligation Category Bond shall be deemed to include distributions payable under an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the Deliverable Obligation Category Bond shall be deemed to include such an Insured Instrument, and the terms "obligation" and "obligors" as used in the Credit Linked W&C Conditions in respect of such an Insured Instrument shall be construed accordingly;

 - (iv) if the Assignable Loan, Consent Required Loan, Direct Loan Participation or Transferable Deliverable Obligation Characteristics are specified in the applicable Final Terms and if the benefit of the Qualifying Policy is not transferred as part of any transfer of the Insured Instrument, the Qualifying Policy must be transferable at least to the same extent as the Insured Instrument;
 - (v) with respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "maturity", as such term is used in the Maximum Maturity Deliverable Obligation Characteristic, shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur; and
 - (vi) with respect to a Qualifying Policy and an Insured Instrument, only the Qualifying Policy must satisfy on the relevant date or dates the "Not Subordinated" Obligation Characteristic or Deliverable Obligation Characteristic, if applicable.

Any provisions of an Insured Instrument limiting recourse in respect of such Insured Instrument to the proceeds of specified assets (including proceeds subject to a priority of payments) or reducing the amount of any Instrument Payments owing under such Insured Instrument shall be disregarded for the purposes of sub-paragraph (b) of the definition of "Outstanding Principal Balance" in Credit Linked W&C Condition 2 provided that such

provisions are not applicable to the Qualifying Policy by the terms thereof and the Qualifying Policy continues to guarantee or insure, as applicable, the Instrument Payments that would have been required to be made absent any such limitation or reduction.

- (d) **Deliver.** For the purposes of the definition of "Deliver" in Credit Linked W&C Condition 2, "Deliver" with respect to an obligation that is a Qualifying Policy means to Deliver both the Insured Instrument and the benefit of the Qualifying Policy (or a custodial receipt issued by an internationally recognised custodian representing an interest in such an Insured Instrument and the related Qualifying Policy), and "Delivery" and "Delivered" will be construed accordingly.
- (e) **Provisions for Determining a Successor.** Sub-paragraphs (a), (d) and (f) of the definition of "Successor" in Credit Linked W&C Condition 2 are hereby amended by adding "or Qualifying Policy" after each occurrence of "a Relevant Guarantee". - (f) **Original Non-Standard Reference Obligation, Substitute Reference Obligation and Substitution Event.** The definition of "Original Non-Standard Reference Obligation", sub-paragraph (c)(i) of the definition of "Substitute Reference Obligation" and sub-paragraph (c) of the definition of "Substitution Event" in Credit Linked W&C Condition 2 are hereby amended by adding "or Qualifying Policy" after "a guarantee".

 - "(i) a reduction in the rate or amount or the Instrument Payments in clause (A)(x) of the definition thereof that are guaranteed or insured by the Qualifying Policy (including by way of redenomination);
 - (ii) a reduction in the amount of the Instrument Payments described in clause (A)(y) of the definition thereof that are guaranteed or insured by the Qualifying Policy (including by way of redenomination);
 - (iii) a postponement or other deferral of a date or dates for either (x) the payment or accrual of the Instrument Payments described in clause (A)(x) of the definition thereof or (y) the payment of the Instrument Payments described in clause (A)(y) of the definition thereof, in each case that are guaranteed or insured by the Qualifying Policy;
 - (iv) a change in the ranking in priority of payment of (x) any Obligation under a Qualifying Policy in respect of Instrument Payments, causing the Subordination of such Obligation to any other Obligation or (y) any Instrument Payments, causing the Subordination of such Insured Instrument to any other instrument in the form of a pass-through certificate or similar funded beneficial interest issued by the Insured Obligor, it being understood that, for this purpose, Subordination will be deemed to include any such change that results in a lower ranking under a priority of payments provision applicable to the relevant Instrument Payments; or
 - (v) any change in the currency of any payment of Instrument Payments that are guaranteed or insured by the Qualifying Policy to any currency other than the lawful currency of Canada, Japan, Switzerland, the United Kingdom and the United States of America and the euro and any successor currency to any of the aforementioned currencies (which in the case of the

euro, shall mean the currency which succeeds to and replaces the euro in whole)."

- (ii) Sub-paragraph (b)(iv) of the definition of "Restructuring" in Credit Linked W&C Condition 2 is hereby amended by adding "or, in the case of a Qualifying Policy and an Insured Instrument, where (A) the Qualifying Policy continues to guarantee or insure, as applicable, that the same Instrument Payments will be made on the same dates on which the Qualifying Policy guaranteed or insured that such Instrument Payments would be made prior to such event and (B) such event is not a change in the ranking in the priority of payment of the Qualifying Policy" at the end thereof.
- (iii) The definition of "Restructuring" in Credit Linked W&C Condition 2 is hereby amended by the insertion of the following paragraph after the final paragraph thereof:

"For purposes of the definition of "Restructuring" in Credit Linked W&C Condition 2 and if Credit Linked W&C Condition 14 is specified as applying in the applicable Final Terms, for the purposes of the Credit Linked W&C Conditions the term Obligation shall be deemed to include Insured Instruments for which the Reference Entity is acting as provider of a Qualifying Policy. In the case of a Qualifying Policy and an Insured Instrument, references to the Reference Entity in sub-paragraph (a) above shall be deemed to refer to the Insured Obligor and the reference to the Reference Entity in sub-paragraph (b) above shall continue to refer to the Reference Entity."

- (h) **Fully Transferable Obligation and Conditionally Transferable Obligation.** In the event that a Fully Transferable Obligation or Conditionally Transferable Obligation is a Qualifying Policy, the Insured Instrument must meet the requirements of the relevant definition. References in the definition of "Conditionally Transferable Obligation" to the "guarantor" and "guaranteeing" shall be deemed to include the "insurer" and "insuring" respectively. With respect to an Insured Instrument in the form of a pass-through certificate or similar funded beneficial interest, the term "final maturity date", as such term is used in Credit Linked W&C Condition 5 and the definition of "Restructuring Maturity Limitation Date", shall mean the specified date by which the Qualifying Policy guarantees or insures, as applicable, that the ultimate distribution of the Certificate Balance will occur.
- (i) **Other Provisions.** For purposes of the definitions of "Credit Event" and "Deliver" in Credit Linked W&C Condition 2, references to the "Underlying Obligation" and the "Underlying Obligor" shall be deemed to include "Insured Instruments" and the "Insured Obligor" respectively.
- (j) **Additional Definitions.**

"**Qualifying Policy**" means a financial guaranty insurance policy or similar financial guarantee pursuant to which a Reference Entity irrevocably guarantees or insures all Instrument Payments of an instrument that constitutes Borrowed Money (modified as set forth in this Credit Linked W&C Condition 14) (the "**Insured Instrument**") for which another party (including a special purpose entity or trust) is the obligor (the "**Insured Obligor**"). Qualifying Policies shall exclude any arrangement (i) structured as a surety bond, letter of credit or equivalent legal arrangement or (ii) pursuant to the express contractual terms of which the payment obligations of the Reference Entity can be discharged or reduced as a result of the occurrence or non-occurrence of an event or circumstance (other than the payment of Instrument Payments);

"**Instrument Payments**" means (i) in the case of any Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, (x) the specified periodic distributions in respect of interest or other return on the Certificate Balance on or prior to the ultimate distribution of the Certificate Balance and (y) the ultimate distribution of the Certificate Balance on or prior to a specified date and (ii) in the case

of any other Insured Instrument, the scheduled payments of principal and interest, in the case of both (i) and (ii) (A) determined without regard to limited recourse or reduction provisions of the type described in Credit Linked W&C Condition 14(c) above and (B) excluding sums in respect of default interest, indemnities, tax gross-ups, make-whole amounts, early redemption premiums and other similar amounts (whether or not guaranteed or insured by the Qualifying Policy).

"**Certificate Balance**" means, in the case of an Insured Instrument that is in the form of a pass-through certificate or similar funded beneficial interest, the unit principal balance, certificate balance or similar measure of unreimbursed principal investment.

15. **Provisions taken from the ISDA supplement titled "Additional Provisions for LPN Reference Entities" (published on September 15, 2014)**

If Credit Linked W&C Condition 15 is specified as applicable in the applicable Final Terms, notwithstanding anything to the contrary in the Credit Linked W&C Conditions, the following provisions will apply:

- (a) provisions relating to Multiple Holder Obligation will be deemed to be Not Applicable with respect to any Reference Obligation (and any Underlying Loan);
- (b) each Reference Obligation will be an Obligation, notwithstanding anything to the contrary in the Credit Linked W&C Conditions and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity;
- (c) each Reference Obligation will be a Deliverable Obligation notwithstanding anything to the contrary in the Credit Linked W&C Conditions including and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity.

For the avoidance of doubt with respect to any LPN Reference Obligation that specifies an Underlying Loan or an Underlying Finance Instrument, the Outstanding Principal Balance shall be determined by reference to the Underlying Loan or Underlying Finance Instrument (as applicable) relating to such LPN Reference Obligation.

The Not Subordinated Obligation Characteristic and Deliverable Obligation Characteristic shall be construed as if no Reference Obligation was specified in respect of the Reference Entity;

- (d) the definition of "Reference Obligation" shall be deleted and the following substituted therefor:

"**Reference Obligation**" means, as of the Trade Date, each of the obligations listed as a Reference Obligation of the Reference Entity in the applicable Final Terms and set forth on the relevant LPN Reference Obligations List (each a "**Markit Published LPN Reference Obligation**"), as published by Markit Group Limited, or any successor thereto, which list is as of the Trade Date available at <http://www.markit.com/marketing/services.php>, any Additional LPN determined in accordance with sub-paragraph (e) below, and each Additional Obligation. Each Reference Obligation determined in accordance with the foregoing will be a Reference Obligation notwithstanding anything to the contrary in the Credit Linked W&C Conditions, and in particular, notwithstanding that the obligation is not an obligation of the Reference Entity. Standard Reference Obligation shall be Not Applicable. The proviso in the definition of "Original Non-Standard Reference Obligation" shall not apply.

It is intended that there may be more than one Reference Obligation, as a result of which all applicable references in the Credit Linked W&C Conditions to "the Reference Obligation" shall be construed as a reference to "a Reference Obligation", and all other provisions of the Credit Linked W&C Conditions shall be construed accordingly.

The provisions set forth in the definitions of "Substitute Reference Obligation" and "Substitution Event" shall not be applicable to LPN Reference Obligations; and

- (e) the following additional definitions shall apply:

"**Additional LPN**" means any bond issued in the form of a loan participation note (a "**LPN**") by an entity (the "**LPN Issuer**") for the sole purpose of providing funds for the LPN Issuer to (a) finance a loan to the Reference Entity (the "**Underlying Loan**") or (b) provide finance to the Reference Entity by way of a deposit, loan or other Borrowed Money instrument (the "**Underlying Finance Instrument**"), provided that (i) either (x) in the event that there is an Underlying Loan with respect to such LPN the Underlying Loan satisfies the Obligation Characteristics specified in respect of the Reference Entity or (y) in the event that there is an Underlying Finance Instrument with respect to such LPN the Underlying Finance Instrument satisfies the Not Subordinated, Not Domestic Law and Not Domestic Currency Obligation Characteristics; (ii) the LPN satisfies the following Deliverable Obligation Characteristics: Transferable, Not Bearer, Specified Currency – Standard Specified Currencies, Not Domestic Law, Not Domestic Issuance; and (iii) the LPN Issuer has, as of the issue date of such obligation, granted a First Ranking Interest over or in respect of certain of its rights in relation to the relevant Underlying Loan or Underlying Finance Instrument (as applicable) for the benefit of the holders of the LPNs.

"**Additional Obligation**" means each of the obligations listed as an Additional Obligation of the Reference Entity in the applicable Final Terms or set forth on the relevant LPN Reference Obligations List, as published by Markit Group Limited, or any successor thereto, as of the Trade Date, which list is currently available at <http://www.markit.com/marketing/services.php>.

"**First Ranking Interest**" means a charge, security interest (or other type of interest having similar effect) (an "**Interest**"), which is expressed as being "first ranking", "first priority", or similar ("**First Ranking**") in the document creating such Interest (notwithstanding that such Interest may not be First Ranking under any insolvency laws of any related insolvency jurisdiction of the LPN Issuer).

"**LPN Reference Obligation**" means each Reference Obligation other than any Additional Obligation.

For the avoidance of doubt, any change to the issuer of an LPN Reference Obligation in accordance with its terms shall not prevent such LPN Reference Obligation constituting a Reference Obligation.

Each LPN Reference Obligation is issued for the sole purpose of providing funds for the Issuer to finance a loan to the Reference Entity. For the purposes of the Credit Linked W&C Conditions each such loan shall be an Underlying Loan.

16. Deliverable Obligations Portfolio Valuation

If Credit Linked W&C Condition 16 is specified as applicable in the applicable Final Terms:

- (a) notwithstanding anything to the contrary in the Credit Linked W&C Conditions, "Reference Obligation" shall mean:
- (i) any obligation of a Reference Entity (either directly or as provider of a Relevant Guarantee) determined pursuant to the method described in sub-paragraph (A) (Method for Determining "Deliverable Obligations") in the definition of "Deliverable Obligation" above;
 - (ii) each Benchmark Obligation specified in the applicable Final Terms; and
 - (iii) any Substitute Benchmark Obligation,

as selected by the Calculation Agent in its sole and absolute discretion and notified to the Issuer (a "**Reference Obligation Notification**") on or prior to the relevant Valuation Date.

In each case the Reference Obligation Notification shall describe the selected Reference Obligation in reasonable detail and shall specify the title or designation, maturity date and coupon rate. The Calculation Agent may at any time after delivering a Reference Obligation Notification but prior to the Valuation Time on the Valuation Date deliver a further Reference Obligation Notification which shall replace all prior Reference Obligation Notifications in relation to any additional or replacement Reference Obligation specified therein.

For the avoidance of doubt the Calculation Agent shall be entitled to select any of the Reference Obligations for the purposes of calculating the Final Price irrespective of their market value and, provided that (in the case of Credit Linked W&C Condition 16(a)(i) only) the selected obligation(s) satisfy the Deliverable Obligation Category and Deliverable Obligation Characteristics on the date of selection, such obligation(s) may constitute the Reference Obligation for the purposes hereof notwithstanding that this is not the case subsequent to such date. For the avoidance of doubt, the Deliverable Obligation Category and Deliverable Obligation Characteristics shall not apply in respect of any Benchmark Obligation or Substitute Benchmark Obligation.

- (b) The definition of "Substitute Reference Obligation" in Credit Linked W&C Condition 2 shall be amended so that each reference to "Substitute Reference Obligation" and "Non-Standard Reference Obligation" is replaced by reference to a "Substitute Benchmark Obligation" and a "Benchmark Obligation" respectively, provided that once a Benchmark Obligation has been specified as a Reference Obligation the definition of "Substitute Reference Obligation" shall not apply with respect to such Benchmark Obligation.

- (c) Sub-paragraph (b)(i) of "Method for Determining Obligations" in the definition of "Obligation" in Credit Linked W&C Condition 2 shall be deleted and the following substituted therefor:

"Not Subordinated" means an obligation that is not Subordinated to (i) the most senior Benchmark Obligation in priority of payment or (ii) if no Benchmark Obligation is specified in the applicable Final Terms, any unsubordinated Borrowed Money obligation of the Reference Entity. For purposes of determining whether an obligation satisfies the "Not Subordinated" Obligation Characteristic or Deliverable Obligation Characteristic, the ranking in priority of payment of each Benchmark Obligation shall be determined as of the later of (A) the Trade Date specified in the applicable Final Terms and (B) the date on which such Benchmark Obligation was issued or incurred and shall not reflect any change to such ranking in priority of payment after such later date.

- (d) For purposes of the Credit Linked W&C Conditions:
- (i) each reference in the Credit Linked W&C Conditions to "a Deliverable Obligation" and "the Deliverable Obligation" shall be deemed to be a reference to "a Reference Obligation" and "the Reference Obligation" respectively; and
 - (ii) each reference in the Credit Linked W&C Conditions to "a Delivery Date" and "the Delivery Date" shall be deemed to be a reference to the date of selection of the relevant Reference Obligation.
- (e) For the avoidance of doubt, if Credit Linked W&C Condition 16 is specified as applicable in the applicable Final Terms Credit Linked W&C Condition 5 is not applicable and the Instruments shall, following the occurrence of an Event Determination Date, be settled in accordance with Credit Linked W&C Condition 4, and these Credit Linked W&C Conditions shall be construed accordingly.
- (f) If the Calculation Agent selects more than one Reference Obligation, such Reference Obligations shall have an Outstanding Principal Balance or Due and Payable Amount (or the equivalent Currency Amount of any such amount) that, in aggregate, shall not exceed the Reference Entity Notional Amount in respect of the relevant Reference Entity.

- (g) With respect to a Reference Entity and the related Final Price Calculation Date, the "Final Price" shall be the weighted average of the Final Prices determined for each Reference Obligation in respect of the relevant Reference Entity, weighted by reference to the Reference Portfolio of each such Reference Obligation.
- (h) For the purposes of Credit Linked W&C Condition 16(a)(ii), Benchmark Obligation means each Reference Obligation specified in respect of the relevant Reference Entity, unless otherwise specified in the applicable Final Terms.

17. Nth-to-Default Instruments

Where the Instruments are Nth-to-Default Instruments:

- (a) where a succession has occurred in respect of a Reference Entity (other than a Reference Entity in respect of which an Event Determination Date has occurred) and more than one Successor has been identified, the applicable Instruments will be equally divided into a number of notional Credit Linked Warrants or Credit Linked Certificate, as applicable, as there are Successors. Each such notional Credit Linked Warrants or Credit Linked Certificates, as applicable, shall include a Successor and each and every one of the Reference Entities unaffected by such succession shall apply thereto;
- (b) if "Substitution" is specified as not being applicable in the applicable Final Terms, where any Reference Entity (the "**Surviving Reference Entity**") (other than a Reference Entity that is subject to a succession) would be a Successor to any other Reference Entity (the "**Legacy Reference Entity**") pursuant to a succession, such Surviving Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity; and
- (c) if "Substitution" is specified as being applicable in the applicable Final Terms, where any Reference Entity (the "**Surviving Reference Entity**") (other than a Reference Entity that is subject to a succession) would be a Successor to any other Reference Entity (the "**Legacy Reference Entity**") pursuant to a succession:
 - (i) such Surviving Reference Entity shall be deemed not to be a Successor to the Legacy Reference Entity; and
 - (ii) the Replacement Reference Entity shall be deemed to be a Successor to the Legacy Reference Entity.

18. Provisions taken from the CoCo Supplement to the 2014 ISDA Credit Derivatives Definitions (published on 15 September 2014)

If Credit Linked W&C Condition 18 is specified as applicable in the applicable Final Terms, notwithstanding anything to the contrary in the Credit Linked W&C Conditions, the following provisions will apply:

- (a) The following additional definitions shall apply:

"**CoCo Provision**" means, with respect to an Obligation, a provision which requires (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, in each case, if the Capital Ratio is at or below the Trigger Percentage.

"**CoCo Supplement**" means the CoCo Supplement to the 2014 ISDA Credit Derivatives Definitions (published on 15 September 2014).

"**Trigger Percentage**" means the trigger percentage specified in the applicable Final Terms (or if no such trigger percentage is specified, 5.25 per cent.).

"**Capital Ratio**" means the ratio of capital to risk weighted assets applicable to the Obligation, as described in the terms thereof in effect from time to time.

- (b) A CoCo Provision shall be deemed to be a provision which permits a Governmental Intervention for all purposes under the Credit Linked W&C Conditions.
- (c) If, with respect to one or more Obligations and in relation to an aggregate amount of not less than the Default Requirement, the operation of one or more CoCo Provisions results in (i) a permanent or temporary reduction of the amount of principal payable at redemption or (ii) a conversion of principal into shares or another instrument, such event shall be deemed to constitute a Governmental Intervention falling within sub-paragraph (a) of the definition thereof.

19. Provisions taken from the 2014 Sovereign No Asset Package Delivery Supplement to the 2014 ISDA Credit Derivatives Definitions (published on 15 September 2014)

If Credit Linked W&C Condition 19 is specified as applicable in respect of a Reference Entity in the applicable Final Terms, the following provision shall apply in respect of such Reference Entity for purposes of the Instruments and the Credit Linked W&C Conditions:

The last paragraph of the definition of "Asset Package Credit Event" is hereby amended by the addition of the following at the end thereof: "Notwithstanding the above, it shall be deemed that no Package Observable Bond exists with respect to a Reference Entity that is a Sovereign (even if such a Package Observable Bond has been published by ISDA and accordingly, Asset Package Delivery shall not apply thereto.)"

20. Provisions taken from the ISDA Supplement titled "2020 Additional Provisions for the Argentine Republic: Excluded Obligations and Excluded Deliverable Obligations" (published on 16 September 2020)

If Credit Linked W&C Condition 20 is specified as applicable in the applicable Final Terms, the following provisions shall apply:

- (a) Notwithstanding the definition of "Obligation", any obligation that is a Bond that was issued on or prior to August 31, 2020 shall be an "Excluded Obligation"; and
- (b) Notwithstanding the definition of "Deliverable Obligation", any obligation that is a Bond that was issued on or prior to August 31, 2020 shall be an "Excluded Deliverable Obligation".

21. Physical Settlement Matrix

Where a Transaction Type is specified in the applicable Final Terms in respect of any Reference Entity, then the provisions of such Final Terms shall apply with respect to such Reference Entity in accordance with the Physical Settlement Matrix as it applies to such Transaction Type, as though such Physical Settlement Matrix were set out in full in such Final Terms. Certain additional provisions or supplements may be deemed to apply to the Credit Linked W&C Conditions in respect of a Reference Entity if those provisions or supplements are specified as being applicable for the relevant Reference Entity in the Credit Derivatives Physical Settlement Matrix and the provisions of the Credit Linked W&C Conditions shall be construed as if those additional provisions or supplements had been included in the Credit Linked W&C Conditions with such amendments as the Calculation Agent deems necessary to give effect to those provisions.

22. Notices to Holders

The Issuer shall, upon receiving any of the following notices from the Calculation Agent, as soon as practicable forward a copy of such notice(s) to the Holders of the relevant Instruments:

- (a) an Extension Notice;
- (b) a Cancellation Notice;
- (c) a Credit Event Notice;

- (d) a Notice of Publicly Available Information;
- (e) a Settlement Notice;
- (f) a Reference Obligation Only Redemption Notice;
- (g) a determination by the Calculation Agent of a Successor or a Sovereign Succession Event (including any Successor Notice);

- (n) a Repudiation/Moratorium Extension Notice; and
- (o) (where "Calculation Agent Determination" is specified as being applicable in the applicable Final Terms) any notification from the Calculation Agent that it will apply a DC Resolution for the purposes of the relevant Instruments.

23. **Calculation Agent**

Any determination by the Calculation Agent of any amount or of any state of affairs, circumstance, event or other matter, or the formation of any opinion or the exercise of any discretion required or permitted to be determined, formed or exercised by the Calculation Agent pursuant to the Credit Linked W&C Conditions and related provisions shall (in the absence of manifest error) be final and binding on the Issuer, the Guarantor and the Holders and shall be without liability on the part of the Calculation Agent and without the Calculation Agent being obliged to consider the interests of the Issuer, the Guarantor or the Holders. In performing its duties pursuant to the Credit Linked W&C Conditions, the Calculation Agent shall act in its sole and absolute discretion. Any delay, deferral or forbearance by the Calculation Agent in the performance or exercise of any of its obligations or its discretion under the Credit Linked W&C Conditions including, without limitation, the giving of any notice by it to any person, shall not affect the validity or binding nature of any later performance or exercise of such obligation or discretion, and none of the Calculation Agent, the Issuer and the Guarantor shall, in the absence of wilful misconduct and gross negligence, bear any liability in respect of, or consequent upon, any such delay, deferral or forbearance.

For the avoidance of doubt, if the applicable Final Terms specify that "Calculation Agent Determination" is applicable, then notwithstanding any provision in these Credit Linked W&C Conditions, the Issuer and the Calculation Agent shall not be bound to (although they may in their sole discretion) apply any DC Resolution to the Instruments and unless the Calculation Agent notifies the Issuer that any DC Resolution shall apply to the Instruments, the Credit Linked W&C Conditions and the relevant Instruments shall be construed as if the relevant DC Resolution and the relevant DC Question was not made. If the Calculation Agent notifies the Issuer that any DC Resolution shall apply to the Instruments, the Calculation Agent shall have the power to amend or otherwise adjust any provision of these Credit Linked W&C Conditions (including, without limitation any provision relating to the timing of notices hereunder) to account for the application of such DC Resolution.

24. **Change in Market Convention**

The Calculation Agent may (but shall not be obliged to), without obtaining the consent of or consulting with the Holders or any other person, from time to time and at any time in its sole

and absolute discretion and in good faith, amend any provision of these Credit Linked W&C Conditions or the Instruments:

- (a) (including but not limited to the applicable Transaction Type, Credit Events, Deliverable Obligation Category, and Deliverable Obligation Characteristics and deliverability, Reference Obligation, Successor and other provisions) to correspond with the most recently published ISDA Credit Derivatives Definitions, ISDA Credit Derivatives Physical Settlement Matrix version, SRO List and/or prevailing trading standards applicable to a Reference Entity;
- (b) to incorporate and/or reflect further or alternative documents from time to time published by ISDA with respect to credit derivative transactions and/or the operation or application of determinations by the ISDA Credit Derivatives Determinations Committees which the Calculation Agent determines in a commercially reasonable manner are necessary to reflect market practice for credit derivative transactions; and/or
- (c) in circumstances where a Reference Entity has proposed an exchange of all or substantially all of the obligations of such Reference Entity into cash, securities and/or other assets, to reflect or account for such exchange, regardless of the credit derivatives definitions or trading standards applicable to such Reference Entity.

The applicable Final Terms may be amended and/or restated from time to time to reflect any such amendments without the consent of the Holders, and the Holders are deemed to agree to this provision by the purchase or acquisition of the Instruments.

25. **Additional Provisions**

- (a) If one or more amendments or adjustments to these Credit Linked W&C Conditions are required for one or more Series of credit linked Instruments, including any issue of Nth-to-Default Instruments or leveraged credit linked instruments, the applicable Final Terms shall set out such amendments or adjustments to these Credit Linked W&C Conditions that are necessary in order to take account of the nature of such instruments and these Credit Linked W&C Conditions shall be construed accordingly.
- (b) Any term defined or described in these Credit Linked W&C Conditions or the applicable Final Terms includes where that term is incorporated or included by reference to another document including (without limitation) where the applicability or otherwise of any particular provision is determined by reference to the Credit Derivatives Physical Settlement Matrix.
- (c) Subject to sub-paragraph (d) below, in order to determine the day on which an event occurs for purposes of these Credit Linked W&C Conditions, the demarcation of days shall be made by reference to Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone in which such event occurred. Any event occurring at midnight shall be deemed to have occurred immediately prior to midnight.
- (d) Notwithstanding the definition of "Credit Event Notice" and sub-paragraph (c) above, if a payment is not made by the Reference Entity on its due date or, as the case may be, on the final day of the relevant Grace Period, then such failure to make a payment shall be deemed to have occurred on such day prior to midnight Greenwich Mean Time (or, if the Transaction Type of the Reference Entity relates to Japan, Tokyo time), irrespective of the time zone of its place of payment.

26. **Additional Disruption Events**

- (a) Following the determination by the Calculation Agent that an Additional Disruption Event has occurred, the Issuer in its sole and absolute discretion may take the action described in (i) or (ii) below:
 - (i) require the Calculation Agent to determine in its sole and absolute discretion the appropriate adjustment, if any, to be made to any of the other terms of the Terms

- and Conditions and/or the applicable Final Terms to account for the Additional Disruption Event and determine the effective date of that adjustment; or
- (ii) in the case of Credit Linked Warrants, give notice to Holders in accordance with W&C Instruments Condition 12 and cancel the Credit Linked Warrants. If the Credit Linked Warrants are so cancelled, the Issuer will pay an amount to each Holder in respect of each Credit Linked Warrant held by him, which amount shall be the fair market value of a Credit Linked Warrant, taking into account the Additional Disruption Event less the cost to the Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Instruments Condition 12; or
 - (iii) in the case of Credit Linked Certificates, give notice to Holders in accordance with W&C Instruments Condition 12 and cancel the Credit Linked Certificates. If the Credit Linked Certificates are so cancelled, the Issuer will pay an amount to each Holder in respect of each Credit Linked Certificate held by him, which amount shall be the fair market value of a Credit Linked Certificate, taking into account the Additional Disruption Event less the cost to the Issuer and/or any of its Affiliates or agents of unwinding any underlying related hedging arrangements (including any cost of funding in respect of such hedging arrangements), all as determined by the Calculation Agent in its sole and absolute discretion. Payments will be made in such manner as shall be notified to the Holders in accordance with W&C Instruments Condition 12.
- (b) Upon the occurrence of an Additional Disruption Event, the Issuer shall give notice as soon as practicable to the Holders in accordance with W&C Instruments Condition 12 stating the occurrence of the Additional Disruption Event giving details thereof and the action proposed to be taken in relation thereto provided that any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.
 - (c) For these purposes:

"Additional Disruption Event" means any of Change in Law, Hedging Disruption, and/or Increased Cost of Hedging, in each case if specified in the applicable Final Terms.

"Change in Law" means that, on or after the Trade Date (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Calculation Agent determines in its sole and absolute discretion that (A) it has become illegal to hold, acquire or dispose of any relevant asset, hedge or related trading position or (B) the Issuer and/or any of its Affiliates or agents will incur a materially increased cost in performing the obligations of the Issuer in relation to the Instruments (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on its tax position).

"Hedging Disruption" means that the Issuer and/or any of its Affiliates or agents is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity, price, credit or other risk of the Issuer issuing and performing its obligations with respect to the Instruments, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

"Increased Cost of Hedging" means that the Issuer and/or any of its Affiliates or agents would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity, price, credit or other

risk of the Issuer issuing and performing its obligations with respect to the Instruments, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), provided that any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Issuer and/or any of its Affiliates or agents shall not be deemed an Increased Cost of Hedging.

ANNEX 10

ADDITIONAL TERMS AND CONDITIONS FOR PHYSICAL DELIVERY NOTES

1. **Interpretation**

The following provisions (the "**Physical Delivery Note Conditions**") apply to Notes specified as being Physical Delivery Notes in the applicable Final Terms or where Physical Delivery is specified in the applicable Final Terms. Physical delivery of an Entitlement shall be in accordance with usual market practice for delivery of such Entitlement and the applicable rules and procedures of the relevant Clearing System. The applicable Final Terms may set forth further conditions for Physical Delivery Notes. For the avoidance of doubt, BofA Finance Notes may not be settled by physical delivery.

References in the Physical Delivery Note Conditions to "delivery", "delivered" and "deliver" shall in the context of the delivery of the Entitlement in respect of Credit Linked Notes be deemed to be references to "Delivery", "Delivered" and "Deliver" as such terms are defined and construed in the Credit Linked Note Conditions.

2. **Delivery of Entitlement and Asset Transfer Notices**

In order to obtain delivery of the Entitlement(s) in respect of any Note:

- (a) if such Note is represented by a Global Note, the relevant Holder must deliver to the relevant Clearing System, with a copy to the Principal Paying Agent and the Issuer not later than the close of business in each place of reception on the Cut-Off Date, a duly completed Asset Transfer Notice substantially in the form set out in the English Law Agency Agreement or New York Law Agency Agreement, as applicable (each, an "**Asset Transfer Notice**"). Such Asset Transfer Notice may be in electronic form or in such other manner as is acceptable to the relevant Clearing System, provided that the relevant Holder will provide a positive confirmation to the relevant Clearing System that it makes all the required certifications, representations, undertakings and authorisations, together with the provision of the required specifications in the Asset Transfer Notice, as set out in this Physical Delivery Note Condition 2; or
- (b) if such Note is in definitive form, the relevant Holder must deliver to any Paying Agent, with a copy to the Principal Paying Agent and the Issuer not later than the close of business in each place of receipt on the Cut-Off Date, a duly completed Asset Transfer Notice.

Forms of the Asset Transfer Notice may be obtained during normal business hours from the specified office of any Paying Agent.

An Asset Transfer Notice may only be delivered (a) if such Note is represented by a Global Note, in such manner as is acceptable to the relevant Clearing System, or (b) if such Note is in definitive form in writing or such other form acceptable to the Principal Paying Agent.

If such Note is in definitive form, such Note must be delivered together with the duly completed Asset Transfer Notice.

The Issuer shall at the risk of the relevant Holder deliver the Entitlement in respect of each Note or, in the case of Credit Linked Notes, Deliver the Deliverable Obligations comprising the Entitlement in such commercially reasonable manner as the Issuer shall, in its sole discretion, determine to be appropriate for such delivery.

All expenses including any applicable depositary charges, transaction or exercise charges, stamp duty, stamp duty reserve tax, issue, registration, securities, transfer and/or other taxes or duties (together "**Expenses**") arising from the redemption of the Notes and the delivery of any Entitlement shall be for the account of the relevant Holder and no delivery and/or transfer of any Entitlement shall be made until all Expenses have been paid to the satisfaction of the Issuer by the relevant Holder.

An Asset Transfer Notice must:

- (a) specify the name, address and contact telephone number of the relevant Holder and the person from whom the Issuer may obtain details for the delivery of the Entitlement if such delivery is to be made otherwise than in the manner specified in the applicable Final Terms;
- (b) in the case of Notes represented by a Global Note, specify the nominal amount of Notes which are the subject of such notice and the number of the Holder's account at the relevant Clearing System, to be debited with such Notes and irrevocably instruct and authorise the relevant Clearing System, to debit the relevant Holder's account with such Notes on or before the Maturity Delivery Date (as defined below) or, in the case of Credit Linked Notes, the Credit Settlement Date;
- (c) include an undertaking to pay all Expenses and, in the case of Notes represented by a Global Note, an authority to debit a specified account of the Holder at the relevant Clearing System, in respect thereof and to pay such Expenses;

- (e) in the case of Notes that are sold outside the United States to non-U.S. persons pursuant to Regulation S under the Securities Act, certify that the beneficial owner of each Note is not a U.S. person (as defined by Regulation S under the Securities Act); the Note is not being redeemed within the United States or on behalf of a U.S. person; and no cash, securities or other property have been or will be delivered within the United States or to, or for the account or benefit of, a U.S. person in connection with any redemption thereof, provided that, in the case of Notes issued by BAC, such certification as to no beneficial ownership by a U.S. person will only be required for any Asset Transfer Notice delivered prior to the fortieth day after the completion of the distribution of the relevant Tranche;
- (f) in the case of MLBV Notes that are sold within the United States or to, or for the account or benefit of, U.S. persons, certify that the beneficial owner of each MLBV Note is a qualified institutional buyer (a "**QIB**") as defined in Rule 144A under the Securities Act ("**Rule 144A**") who is also a qualified purchaser (a "**QP**") within the meaning of Section 3(c)(7) and as defined in Section 2(a)(51) of the 1940 Act and the rules thereunder and who has executed an Investor Representation Letter and is otherwise in compliance with Rule 144A; and
- (g) authorise the production of such Asset Transfer Notice in any applicable administrative or legal proceedings.

The Asset Transfer Notice may contain certain additional representations and certifications with respect to the Entitlement and/or the beneficial owner of each Note. No Asset Transfer Notice may be withdrawn after receipt thereof by the relevant Clearing System or a Paying Agent as provided above. After delivery of an Asset Transfer Notice, the relevant Holder may not transfer the Notes which are the subject of such notice.

In the case of Notes represented by a Global Note, upon receipt of such notice, the relevant Clearing System, shall verify that the person specified therein as the Holder is the holder of the specified nominal amount of Notes according to its books.

Subject thereto, the relevant Clearing System will confirm to the Principal Paying Agent the number of Notes the subject of such notice, the relevant account details (if applicable) and the details for the delivery of the Entitlement in respect of each such Note. Upon receipt of such confirmation, the Principal Paying Agent will inform the Issuer thereof. The relevant Clearing System, will on or before the Maturity Delivery Date or Credit Settlement Date, as the case may be, debit the securities account of the relevant Holder with the Notes the subject of the relevant Asset Transfer Notice.

Failure to properly complete and deliver an Asset Transfer Notice may result in such notice being treated as null and void. Any determination as to whether such notice has been properly completed and delivered as provided in the Physical Delivery Note Conditions shall be made, in the case of Notes represented by a Global Note, by the relevant Clearing System, after consultation with the Principal Paying Agent and the Issuer and shall be conclusive and binding on the Issuer, (in the case of Notes (other than Secured Notes) issued by MLBV) the Guarantor and the relevant Holder or in the case of Notes in definitive form, by the relevant Paying Agent after consultation with the Principal Paying Agent and the Issuer and shall be conclusive and binding on the Issuer, the Guarantor (if applicable) and the relevant Holder.

If such Asset Transfer Notice is subsequently corrected to the satisfaction of the relevant Clearing System, or the relevant Paying Agent, in each case in consultation with the Principal Paying Agent and the Issuer, it shall be deemed to be a new Asset Transfer Notice submitted at the time such correction was delivered as provided above.

The relevant Clearing System or the relevant Paying Agent, as applicable, shall use its best efforts promptly to notify the Holder submitting an Asset Transfer Notice if, in consultation with the Principal Paying Agent and the Issuer, it has determined that such Asset Transfer Notice is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, (in the case of Notes (other than Secured Notes) issued by MLBV) the Guarantor, the Paying Agents, the relevant Clearing System and the Principal Paying Agent shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Holder.

The Entitlement will be delivered at the risk of the relevant Holder, in the manner provided above on the Maturity Date (such date, subject to adjustment in accordance with these Physical Delivery Note Conditions, the "**Maturity Delivery Date**") or, in the case of Credit Linked Notes, in the manner provided above on the Credit Settlement Date, provided that the Asset Transfer Notice is duly delivered to the relevant Clearing System or a Paying Agent, as the case may be, with a copy to the Principal Paying Agent and the Issuer, as provided above, not later than the close of business in each place of receipt on the Cut-Off Date.

If an Asset Transfer Notice is delivered to the relevant Clearing System or a Paying Agent, as the case may be, with a copy to the Principal Paying Agent and the Issuer, later than the close of business in each place of receipt on the Cut-Off Date, then the Entitlement will be delivered as soon as practicable after the Maturity Date (in which case, such date of delivery shall be the Maturity Delivery Date) or, in the case of Credit Linked Notes, the Credit Settlement Date at the risk of such Holder in the manner provided above. Provided that if in respect of a Note an Asset Transfer Notice is not delivered to the relevant Clearing System or a Paying Agent, as the case may be, with a copy to the Principal Paying Agent and the Issuer, later than the close of business in each place of receipt on the 90th calendar day following the Cut-Off Date the Issuer's obligations in respect of such Note and (in the case of Notes (other than Secured Notes) issued by MLBV) the Guarantor's obligations in respect of the MLBV Guarantee in respect of such Note shall be discharged and no further liability in respect thereof shall attach to the Issuer or (in the case of Notes (other than Secured Notes) issued by MLBV) the Guarantor. For the avoidance of doubt, in such circumstances such Holder shall not be entitled to any payment, whether of interest or otherwise, as a result of such Maturity Delivery Date or the Credit Settlement Date, as the case may be, falling after the originally designated Maturity Delivery Date or Credit Settlement Date, as the case may

be, and no liability in respect thereof shall attach to the Issuer or (in the case of Notes (other than Secured Notes) issued by MLBV) the Guarantor.

Delivery of the Entitlement in respect of the Notes is subject to all applicable laws, regulations and practices in force on the Maturity Delivery Date or the Credit Settlement Date, as the case may be, and none of the Issuer, (in the case of Notes (other than Secured Notes) issued by MLBV) the Guarantor and any of its Affiliates or agents and the Paying Agents shall incur any liability whatsoever if it is unable to effect the transactions contemplated, after using all reasonable efforts, as a result of any such laws, regulations or practices. None of the Issuer, (in the case of Notes (other than Secured Notes) issued by MLBV) the Guarantor and any of its Affiliates or agents and the Paying Agents shall under any circumstances be liable for any acts or defaults of the relevant Clearing System in relation to the performance of their duties in relation to the Notes.

For such period of time after the Maturity Delivery Date or Credit Settlement Date, as the case may be, as any person other than the relevant Holder shall continue to be the legal owner of the securities, obligations or Deliverable Obligations comprising the Entitlement (the "**Intervening Period**"), none of the Issuer, (in the case of Notes (other than Secured Notes) issued by MLBV) the Guarantor nor any other such person shall (a) be under any obligation to deliver or procure delivery to the relevant Holder or any subsequent beneficial owner of such Note any letter, certificate, notice, circular or any other document or, except as provided herein, payment whatsoever received by that person in respect of such securities, obligations or Deliverable Obligations, (b) be under any obligation to exercise or procure exercise of any or all rights (including voting rights) attaching to such securities, obligations or Deliverable Obligations during the Intervening Period or (c) be under any liability to the relevant Holder, or any subsequent beneficial owner of such Note in respect of any loss or damage which the relevant Holder, or subsequent beneficial owner may sustain or suffer as a result, whether directly or indirectly, of that person being the legal owner of such securities, obligations or Deliverable Obligations during such Intervening Period.

Where the Entitlement comprises Shares, any dividend or other distribution in respect of such Entitlement will be payable to the party that would receive such dividend or other distribution according to market practice for a sale of the Share executed on the Maturity Delivery Date and to be delivered in the same manner as the Entitlement. Any such dividend or other distribution to be paid to a Holder shall be paid to the account specified in the relevant Asset Transfer Notice.

Except in the case of Credit Linked Notes, where the Entitlement is, in the determination of the Issuer, an amount other than an amount of Relevant Assets capable of being delivered, the Holders will receive an Entitlement comprising of the nearest number (rounded down) of Relevant Assets capable of being delivered by the Issuer (taking into account that a Holder's entire holding may be aggregated at the Issuer's discretion for the purpose of delivering the Entitlements), and in respect of the amount of Relevant Assets not capable of being delivered, an amount in the Specified Currency which shall be the value of the amount of the Relevant Assets so rounded down, as calculated by the Calculation Agent in its sole discretion from such source(s) as it may select (converted if necessary into the Specified Currency by reference to such exchange rate as the Calculation Agent deems appropriate).

3. **Settlement Disruption Event**

The provisions of this Physical Delivery Note Condition 3 shall apply to Physical Delivery Notes other than Credit Linked Notes.

If, prior to the delivery of the Entitlement in accordance with these Physical Delivery Note Conditions, a Settlement Disruption Event is subsisting, then the Maturity Delivery Date in respect of such Note shall be postponed until the next Settlement Business Day on which no Settlement Disruption Event is subsisting and notice thereof shall be given to the relevant Holder, in accordance with Note Condition 14. Such Holder shall not be entitled to any payment, whether of interest or otherwise, on such Note as a result of any delay in the delivery

of the Entitlement pursuant to these Physical Delivery Note Conditions. Where delivery of the Entitlement has been postponed as provided in the Physical Delivery Note Conditions the Issuer shall not be in breach of these Conditions and no liability in respect thereof shall attach to the Issuer or (in the case of Notes (other than Secured Notes) issued by MLBV) the Guarantor.

For so long as delivery of the Entitlement in respect of any Note is not practicable by reason of a Settlement Disruption Event, then in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect in its sole discretion to satisfy its obligations in respect of the relevant Note by payment to the relevant Holder of the Disruption Cash Settlement Price not later than on the third Business Day following the date that the notice of such election (the "**Election Notice**") is given to the Holders in accordance with Note Condition 14.

4. **Failure to Deliver due to Illiquidity**

The provisions of this Physical Delivery Note Condition 4 shall apply to Physical Delivery Notes other than Credit Linked Notes.

If Failure to Deliver due to Illiquidity is specified as applying in the applicable Final Terms and, in the opinion of the Calculation Agent, it is impossible or impracticable to deliver, when due, some or all of the Relevant Assets comprising the Entitlement (the "**Affected Relevant Assets**"), where such failure to deliver is due to illiquidity in the market for the Relevant Assets (a "**Failure to Deliver due to Illiquidity**"), then:

- (a) subject as provided elsewhere in the Physical Delivery Note Conditions and/or the applicable Final Terms, any Relevant Assets which are not Affected Relevant Assets, will be delivered on the originally designated Maturity Delivery Date in accordance with the Physical Delivery Note Conditions; and
- (b) in respect of any Affected Relevant Assets, notwithstanding any other provision hereof, the Issuer may elect in its sole discretion, in lieu of delivery of the Affected Relevant Assets, to pay to the relevant Holder the Failure to Deliver Settlement Price (as defined below) on the fifth Business Day following the date the Failure to Deliver Notice (as defined below) is given to the Holders in accordance with Note Condition 14. The Issuer shall give notice (such notice a "**Failure to Deliver Notice**") as soon as reasonably practicable to the Holders in accordance with Note Condition 14 that the provisions of this Physical Delivery Note Condition 4 apply.

5. **Option to Vary Settlement**

The provisions of this Physical Delivery Note Condition 5 shall apply to Physical Delivery Notes other than Credit Linked Notes.

If the applicable Final Terms indicate that the Issuer has an option to vary settlement in respect of the Notes, the Issuer may at its sole and unfettered discretion in respect of each such Note, elect not to pay the relevant Holders the Final Redemption Amount or to deliver or procure delivery of the Entitlement to the relevant Holders, as the case may be, but, in lieu thereof to deliver or procure delivery of the Adjusted Entitlement or pay an amount in cash equal to the Adjusted Final Redemption Amount on the Maturity Date to the relevant Holders, as the case may be. Notification of such election will be given to Holders in accordance with Note Condition 14.

6. **Additional Provisions for Credit Linked Notes**

The provisions of this Physical Delivery Note Condition 6 shall apply to Credit Linked Notes.

In relation to each Deliverable Obligation constituting the Entitlement the Issuer or (in the case of Notes (other than Secured Notes) issued by MLBV) the Guarantor, as applicable, will Deliver or procure the Delivery of the relevant Deliverable Obligation as provided in Physical Delivery Note Condition 2 on the Credit Settlement Date, provided that if all or some of the Deliverable Obligations included in the Entitlement are Undeliverable Obligations and/or Hedge Disruption Obligations, then the Issuer shall continue to attempt to Deliver all or a portion of such Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, on or before

the 30th Business Day following the Credit Settlement Date (the "**Final Delivery Date**"), provided further that if all or a portion of such Undeliverable Obligations or Hedge Disruption Obligations, as the case may be, are not Delivered by the Final Delivery Date, the provisions of Credit Linked Note Condition 9 shall apply.

7. **Definitions**

If the Issuer elects to deliver or procure delivery of the Adjusted Entitlement, then the Adjusted Entitlement shall be deemed to be the Entitlement for the purposes of these Physical Delivery Note Conditions and shall be subject to rounding in accordance with Physical Delivery Note Condition 2.

"Adjusted Final Redemption Amount" means, in respect of each nominal amount of Notes equal to the Calculation Amount, the fair market value of the Entitlement as determined by the Issuer in its sole and absolute discretion on or around the date notified to Holders by the Issuer in accordance with Note Condition 14 (*Notices*).

"Entitlement" means, in relation to a Physical Delivery Note (other than a Credit Linked Note), the quantity of the Relevant Asset or the Relevant Assets, as the case may be, which a Holder is entitled to receive on the Maturity Delivery Date in respect of each such Note following payment of the Expenses, which quantity will be rounded down as provided in Physical Delivery Note Condition 2, as determined by the Calculation Agent and includes any documents evidencing such Entitlement.

"Failure to Deliver Settlement Price" means, in respect of each nominal amount of the Notes equal to the Calculation Amount, the fair market value of the Affected Relevant Assets in respect of such Notes on the fifth Business Day prior to the date on which the Failure to Deliver Notice is given as provided above, less the cost to the Issuer and/or its Affiliates or agents of unwinding or adjusting any underlying or related hedging arrangements (including the cost of funding in respect of such hedging arrangements), all as calculated by the Calculation Agent in its sole and absolute discretion.

"Settlement Business Day" means, unless otherwise specified in the applicable Final Terms, any day on which the relevant Clearing System is (or, but for the occurrence of a Settlement Disruption Event, would have been) open for the acceptance and execution of settlement instructions.

"Settlement Disruption Event" means an event beyond the control of the Issuer or (in the case of Notes (other than Secured Notes) issued by MLBV), if applicable, the Guarantor, as a result of which, in the opinion of the Calculation Agent or, if applicable, the Guarantor, delivery of the Entitlement by or on behalf of the Issuer or the Guarantor, as the case may be, in accordance with the Physical Delivery Note Conditions and/or the applicable Final Terms is not practicable.

- (c) In the case of sales, transfers or exchanges of Global W&C Instruments, the Holder must send:
 - (i) (in the case of W&C Instruments represented by a Regulation S/Rule 144A Global W&C Instrument or Rule 144A Global W&C Instrument held through Euroclear and/or Clearstream, Luxembourg) to Euroclear and/or Clearstream, Luxembourg, as the case may be, a free of payment instruction not later than 10.00 a.m. (Brussels or Luxembourg time, as the case may be) one Brussels Business Day or Luxembourg Business Day, as the case may be, prior to the date on which the sale, transfer or exchange is to take effect; and

In the case of a transfer, separate payment arrangements are required to be made between the transferor and the transferee.

On the sale, transfer or exchange date, Euroclear or Clearstream, Luxembourg, or DTC, as the case may be, (a) will debit the account of its participant and (b) will instruct (i), in the case of sales, transfers to or exchanges with a person who takes delivery of W&C Instruments represented by a Regulation S/Rule 144A Global W&C Instrument or a Rule 144A Global W&C Instrument held through Euroclear and/or Clearstream, Luxembourg, the Principal W&C Instrument Agent to credit the relevant account of Euroclear or Clearstream, Luxembourg participant, as the case may be, or (ii) in the case of sales, transfers to or exchanges with a person who takes delivery of W&C Instruments represented by a Rule 144A Global W&C Instrument held through DTC, the Principal W&C Instrument Agent to credit the relevant account of the DTC participant.

- (d) No beneficial owner of a Rule 144A Global W&C Instrument will be able to transfer such interest, except in accordance with the applicable procedures of DTC, Euroclear or Clearstream, Luxembourg, as applicable. A beneficial interest in a Rule 144A Global W&C Instrument will, subject to compliance with all applicable legal and regulatory restrictions, be exchangeable for W&C Instruments in definitive form only (a) upon the occurrence of an Exchange Event, (b) in accordance with the rules and procedures for the time being of DTC, Euroclear and Clearstream, Luxembourg, as the case may be, and (c) in accordance with the terms and conditions specified in the English Law Agency Agreement. Transfers of a Rule 144A Global W&C Instrument held through DTC shall be limited to transfers of such Rule 144A Global W&C Instrument, in whole but not in part, to another nominee of DTC or to a successor of DTC or such successor's nominee. For so long as the W&C Instruments are represented by a Regulation S/Rule 144A Global W&C Instrument or a Rule 144A Global W&C Instrument held through Euroclear or Clearstream, Luxembourg, all permitted transfers of such W&C Instruments must be effected through an account at Euroclear or Clearstream, Luxembourg.

- (e) Subject as provided in these Rule 144A W&C Instruments Conditions, upon the terms and subject to the conditions set forth in the English Law Agency Agreement, a W&C Instrument in definitive form may be transferred in whole or in part. In order to effect any such transfer, (i) the holder or holders must (A) surrender the W&C Instrument for registration of the transfer of the W&C Instrument (or the relevant part of the W&C Instrument) at the specified office of the Principal W&C Instrument Agent with a form of transfer duly completed and executed by the person shown as the registered holder on the Register, or its attorney duly authorised in writing and (B) complete and deposit such other certifications or evidence as may be required by the Principal W&C Instrument Agent, the Issuer or (if applicable) the Guarantor and (ii) the Principal W&C Instrument Agent must, after due and careful enquiry, be satisfied with the documents of title and the identity of the person making the request. Any such transfer will be subject to such reasonable regulations as the Issuer, (if applicable) the Guarantor and the Principal W&C Instrument Agent may from time to time prescribe. Subject to the provisions above, the Principal W&C Instrument Agent will, within three London Business Days of the request (or such longer period as may be required to comply with any applicable fiscal or other laws or regulations), authenticate and deliver, or procure the authentication and delivery of, at its specified office to the transferee or (at the risk of the transferee) send by uninsured mail, to such address as the transferee may request, a new certificate representing such W&C Instrument in definitive form of the same aggregate amount of the W&C Instrument (or the relevant part of the W&C Instrument) transferred. In the case of the transfer of part only of a W&C Instrument in definitive form, a new certificate representing such W&C Instrument in definitive form in respect of the balance of the W&C Instrument not transferred will be so authenticated and delivered or (at the risk of the transferor) sent to the transferor. The Principal W&C Instrument Agent shall record such transfer, and make appropriate notations, in the Register to reflect such transfer.
- (f) Any attempted sale, transfer or exchange in which the proposed sale, transfer or exchange was not effected in accordance with the foregoing procedures shall not be valid or binding on the Issuer or (if applicable) the Guarantor. In addition, if any W&C Instrument Agent subsequently determines or is subsequently notified by the Issuer that (i) a sale, transfer or exchange, or attempted or purported sale, transfer or exchange, of any interest in a W&C Instrument was consummated on the basis of an incorrect certification from the transferee or purported transferee as set forth in the relevant Investor Representation Letter, (ii) the holder of any interest in a W&C Instrument was in breach, at the time given, of any representation or agreement set forth in any Investor Representation Letter or any deemed representation or agreement of such holder, or (iii) a sale, transfer or exchange, or attempted sale, transfer or exchange, of any interest in a W&C Instrument was consummated which did not comply with the transfer restrictions set forth in this Rule 144A W&C Instruments Condition 5 the purported transfer shall be absolutely null and void *ab initio* and shall vest no rights in the purported transferee (such purported transferee, a "**Disqualified Transferee**") and the last preceding holder of such interest that was not a Disqualified Transferee shall be restored to all rights as a holder thereof retroactively to the date of transfer of such interest by such holder or the Issuer may require such Disqualified Transferee to sell or transfer such interest to a permitted transferee meeting the requirements above.

In the case of American Style Warrants represented by a Rule 144A Warrant held through Euroclear or Clearstream, Luxembourg or a Regulation S/Rule 144 Warrant, the provisions of W&C Instruments Condition 24 (*Exercise Rights (Warrants)*) shall apply.

(b) *European Style Warrants*

If Automatic Exercise is not specified in the applicable Final Terms, in the case of European Style Warrants represented by a Rule 144A Global Warrant held through DTC with respect to which no Exercise Notice has been delivered in the manner set out in Rule 144A Warrant Condition 7 (*Exercise Procedure in respect of Warrants*), at or prior to 5.00 p.m., New York City time, on the New York Business Day immediately preceding the Actual Exercise Date, such European Style Warrant shall become void.

If Automatic Exercise is specified in the applicable Final Terms, in the case of European Style Warrants represented by a Rule 144A Global Warrant held through DTC with respect to which no Exercise Notice has been delivered in the manner set out in Rule 144A Warrant Condition 7 (*Exercise Procedure in respect of Warrants*), at or prior to 5.00 p.m., New York City time, on the New York Business Day immediately preceding the Actual Exercise Date and which is, in the determination of the Calculation Agent "In-The-Money", such European Style Warrants shall be automatically exercised on the Actual Exercise Date and the provisions of Rule 144A Warrant Condition 8 (*Automatic Exercise in respect of Warrants*) shall apply.

The expressions "exercise", "due exercise" and related expressions shall be construed to apply to any Warrants which are automatically exercised on the Actual Exercise Date in accordance with this provision.

In the case of European Style Warrants represented by a Rule 144A Global Warrant held through Euroclear or Clearstream, Luxembourg or a Regulation S/Rule 144A Warrant, the provisions of W&C Instruments Condition 24 (*Exercise Rights (Warrants)*) shall apply.

(c) *Certificates*

Certificates represented by a Regulation S/Rule 144A Global Certificate or a Rule 144A Global Certificate shall be exercised automatically on the Actual Exercise Date in accordance with W&C Instruments Condition 31(A) (*Certificates other than Credit Linked Certificates*) (other than Credit Linked Certificates which shall be exercisable in accordance with W&C Instruments Condition 31(B) (*Credit Linked Certificates*)).

In the case of Rule 144A Certificates held through DTC, the exercise procedures shall be in accordance with the applicable rules and procedures of DTC and as may otherwise be set forth in the applicable Final Terms.

(d) *Cash Settlement*

In the case of Rule 144A Warrants or Rule 144A Certificates which are Cash Settled Warrants or Cash Settled Certificates, each such Warrant, Certificate or, if Units are specified in the applicable Final Terms, each Unit, entitles its holder, upon due exercise to receive from the Issuer on the Settlement Date the Cash Settlement Amount.

In the case of Rule 144A Global Warrants or Rule 144A Certificates held through DTC which are Cash Settled Warrants or Cash Settled Certificates, the Issuer, through the Principal W&C Instrument Agent shall on the Settlement Date pay or cause to be paid the Cash Settlement Amount (if any) for each duly exercised Warrant, Certificate or Unit, as the case may be, to the designated account at the Principal W&C Instrument Agent (or at such other account or bank as may be specified by the Principal W&C Instrument Agent). In such case, as promptly as practicable thereafter, and provided that the Principal W&C Instrument Agent is satisfied that delivery to it of funds sufficient to pay the Cash Settlement Amount will be made, the Principal W&C Instrument Agent will cause the Cash Settlement Amount to be credited to the Holder's account with the Principal W&C Instrument Agent less any Expenses.

(e) *Physical Settlement*

In the case of Rule 144A Warrants or Rule 144A Certificates which are Physical Delivery Warrants or Physical Delivery Certificates, as applicable, upon the exercise or deemed exercise of a Rule 144A Warrant or a Rule 144A Certificate by a Holder, and, subject to certification as to QIB and QP beneficial ownership, the Issuer shall transfer or procure the transfer on the Settlement Date of the Entitlement in respect of each Rule 144A Warrant or Rule 144A Certificate, as applicable, so exercised, subject to payment by the Holder to or to the order of the Issuer on or before the Settlement Date of the Exercise Price, if any, and any other Expenses or sums payable. For the avoidance of doubt, delivery of the Entitlement shall take place only after the Expenses (if any) have been paid by such Holder to or to the order of the Issuer. No Rule 144A Warrant or Rule 144A Certificate, as applicable, shall confer on a Holder any right to acquire the Entitlement and the Issuer is not obliged to purchase or hold the Entitlement. The delivery of the Entitlement shall be made (i) if practicable and in respect of the account of the Holder, (ii) in the manner specified in the relevant Final Terms or (iii) in such other commercially reasonable manner as the Issuer shall determine to be appropriate for such delivery and will, where appropriate and if practicable, notify the Holders in accordance with W&C Instruments Condition 12 (*Notices*). By purchasing or exercising a Rule 144A Warrant or a Rule 144A Certificate, as applicable, which is a Physical Delivery Warrant or Physical Delivery Certificate, as applicable, the relevant Holder shall be deemed to have agreed to such form of settlement as provided herein and as set forth in the rules and procedures of the relevant Clearing System.

The obligation of the Issuer to deliver any Entitlement is limited to such Entitlement having the characteristics and in the form that allows delivery via the relevant Clearing System and, in the case of Shares or Fund Shares (as the case may be), does not include registration of the Holder in the share register or in the list of shareholders, and none of the Issuer, (if applicable) the Guarantor, the Calculation Agent or any other person shall have any liability for any such failure of (or delay in) registration.

Following exercise of a Rule 144A Warrant or Rule 144A Certificate, as applicable, which is subject to Physical Settlement, all dividends, if any, on the relevant Entitlement to be delivered will be payable to the party that would receive such dividend according to market practice for a sale of the Entitlement executed on the relevant Actual Exercise Date and to be delivered in the same manner as such relevant Entitlement. Any such dividends to be paid to a Holder will be paid to the account specified by the Holder in the relevant Exercise Notice.

Unless otherwise specified in the Final Terms, Rule 144A Warrants or Rule 144A Certificates, as applicable, exercised at the same time will be aggregated for the purpose of determining the aggregate Entitlements in respect of such Rule 144A Warrants or Rule 144A Certificates, as applicable, provided that the aggregate Entitlements in respect of the same Holder will be rounded down to the nearest whole unit of the Relevant Asset or each of the Relevant Assets, as the case may be, in such manner as the Calculation Agent shall determine. Therefore, fractions of the Relevant Asset or each of the Relevant Assets, as the case may be, will not be delivered and in lieu thereof a cash adjustment calculated by the Calculation Agent in its sole and absolute discretion shall be paid to the Holder.

If the relevant Holder fails to provide the required representations and certifications in the relevant Exercise Notice as of the relevant Cut-Off Date, the Issuer may, instead of delivering, or having delivered on its behalf, the Entitlement, satisfy its obligations in respect of the relevant Rule 144A Warrant or Rule 144A Certificate, as applicable, by payment to the relevant Holder of a cash amount, calculated by the Calculation Agent in good faith and in a commercially reasonable manner to represent the fair market value of the Entitlement on such day as shall be selected by the Issuer in good faith and in a commercially reasonable manner adjusted to take account fully for any losses, expenses and costs to the Issuer and/or any affiliate of the Issuer of unwinding or adjusting any underlying or related hedging arrangements (including, but not limited to, any options or selling or otherwise realising any Relevant Asset or other relevant instruments or assets of any type whatsoever which the Issuer and/or any of its affiliates may hold as part of such hedging arrangements.)

7. Exercise Procedure in respect of Warrants

(a) *Warrants represented by a Rule 144A Global Warrant held through DTC*

Warrants represented by a Rule 144A Global Warrant held through DTC may only be exercised by delivery through computerised exercise instruction through DTC (via its "Deposit and Withdrawal at Custodian" or "DWAC" function) of a duly completed Exercise Notice in the form set out in the English Law Agency Agreement (copies of which form may be obtained from the Principal W&C Instrument Agent) to the Principal W&C Instrument Agent, with a copy to Merrill Lynch International or BofA Securities Europe SA, as the case may be, in accordance with the provisions set out in Rule 144A W&C Instrument Condition 6 (*Exercise Rights*) and this Rule 144A W&C Instrument Condition 7.

In the case of Warrants represented by a Rule 144A Global Warrant held through DTC, the Exercise Notice shall, unless otherwise agreed:

- (i) specify the Series of the Warrants and the number of Warrants being exercised and, if Units are specified in the applicable Final Terms, the number of Units being exercised;

- (ii) specify the designated account at DTC to be debited with the Warrants being exercised;
- (iii) irrevocably instruct DTC to exercise the Warrants debited to the account of the Holder and credited to the account of the Principal W&C Instrument Agent by means of DTC's DWAC function;
- (iv) specify the designated account at DTC to be credited with the Cash Settlement Amount (if any) for each Warrant being exercised;
- (v) include an irrevocable undertaking by the Holder to pay all Expenses and an instruction from the Holders to DTC to deduct an amount in respect thereof from any Cash Settlement Amount due to such Holder and/or to debit a specified account of the Holder at DTC with an amount or amounts in respect thereof;
- (vi) in the case of FX Linked Warrants only, and only if so required by DTC, specify the number of the Holder's account at DTC of the relevant Settlement Currency to be credited with the amount due upon exercise of the Warrants;
- (vii) include a certification that each beneficial owner is a QIB and a QP; and
- (viii) authorise the production of such Exercise Notice in applicable administrative or legal proceedings,

all as provided in the English Law Agency Agreement.

In addition, if the relevant Final Terms specify Physical Settlement is applicable, the Exercise Notice shall also, unless otherwise agreed:

- (i) irrevocably instruct DTC to debit on the Actual Exercise Date a specified account of the Holder with the aggregate Exercise Price(s) (if relevant) in respect of the Rule 144A Warrants being exercised and to transfer such amount to such account with DTC as shall have been specified by the Issuer to DTC for that purpose;
- (ii) include an irrevocable undertaking by the Holder to pay all Expenses incurred by reason of transfer (if any) of the Entitlement(s) to the account at DTC specified by the Holder in the relevant Exercise Notice and an instruction from the Holder to DTC to deduct an amount in respect thereof from any Physical Settlement Value due to such Holder or otherwise to debit (on or at any time after the Settlement Date) a specified account of the Holder at DTC with an amount or amounts in respect thereof;
- (iii) specify the number of the Holder's account with DTC to be credited with the relevant Entitlement(s); and
- (iv) include such details as are required by the applicable Final Terms or by DTC for delivery of the Entitlement which may include account details and/or the name and address of any person(s) into whose name evidence of the Entitlement is to be registered and/or any bank, broker or agent to whom documents evidencing the Entitlement are to be delivered and specify the name and the number of the Holder's account with DTC, to be credited with any cash payable by the Issuer, either in respect of any cash amount constituting the Entitlement or any dividends relating to the Entitlement or as a result of the occurrence of a Settlement Disruption Event and the Issuer electing to pay the Disruption Cash Settlement Price or the occurrence of a Failure to Deliver due to Illiquidity and the Issuer electing to pay the Failure to Deliver Settlement Price as applicable, or in respect of any Partial Cash Settlement Amount.

If W&C Instruments Condition 5(C) applies, the information required to be provided in the Exercise Notice will be different from that set out above. Copies of such information required for such Exercise Notice may be obtained from the Principal W&C Instrument Agent.

Upon receipt of an Exercise Notice, the Principal W&C Instrument Agent shall verify that the person exercising the Warrants is the Holder thereof according to the records of DTC. Subject thereto, the Principal W&C Instrument Agent shall notify the Issuer of the number of Warrants being exercised and the account details, if applicable, for the payment of the Cash Settlement Amount of each Warrant being exercised. If the Warrants are American Style Warrants, upon exercise of less than all the Warrants held through DTC, the Principal W&C Instrument Agent will note such exercise on the Register and the number of Warrants so constituted shall be reduced by the redemption *pro tanto* of the Warrants so exercised.

Delivery of an Exercise Notice shall constitute an irrevocable election by the relevant Holder to exercise the Warrants specified. After the delivery of such Exercise Notice, such exercising Holder may not transfer such Warrants.

Any determination as to whether an Exercise Notice is duly completed and in proper form shall be made by the Principal W&C Instrument Agent in the case of Warrants represented by a Rule 144A Global Warrant held through DTC, and shall be conclusive and binding on the Issuer, the Principal W&C Instrument Agent and the relevant Holder. Subject as set out below, any Exercise Notice so determined to be incomplete or not in proper form, or which is not copied to Merrill Lynch International or BofA Securities Europe SA, as the case may be, promptly after being delivered or sent to the Principal W&C Instrument Agent shall be null and void.

If such Exercise Notice is subsequently corrected to the satisfaction of the Principal W&C Instrument Agent, it shall be deemed to be a new Exercise Notice submitted at the time such correction was delivered to the Principal W&C Instrument Agent and Merrill Lynch International or BofA Securities Europe SA, as the case may be.

If Automatic Exercise is not specified in the applicable Final Terms, any Warrants with respect to which the Exercise Notice has not been duly completed and delivered in the manner set out above by the cut-off time specified in Rule 144A Warrant Condition 6(a) (*American Style Warrants*), in the case of American Style Warrants, or Rule 144A Warrant Condition 6(b) (*European Style Warrants*), in the case of European Style Warrants, shall become void.

The Principal W&C Instrument Agent shall use its best efforts promptly to notify the Holder submitting an Exercise Notice if it has determined that such Exercise Notice is incomplete or not in proper form. In the absence of negligence or wilful misconduct on its part, none of the Issuer, (if applicable) the Guarantor, the Principal W&C Instrument Agent or DTC, shall be liable to any person with respect to any action taken or omitted to be taken by it in connection with such determination or the notification of such determination to a Holder.

The Secured Instruments Valuation Agent shall be required to give notice to Holders of any such termination, removal and/or replacement in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*). Any reference to a Collateral Arrangement Party in these Secured Static/Floating Instruments Conditions shall be deemed to include a reference to any entity appointed as a replacement thereof.

A replacement Collateral Arrangement Party may only be appointed when the following conditions are fulfilled: the replacement Collateral Arrangement Party (other than the replacement Custodian or Collateral Agent): (i) is an institution incorporated and in good standing in the United States of America or one of the States thereof or in a state which is, as at the date of the relevant Collateral Transaction Document, a member state of the European Union or the United Kingdom; (ii) has the requisite resources and legal capacity to perform the duties imposed upon the relevant existing Collateral Arrangement Party under the relevant Collateral Transaction Document and is a recognised provider of the services provided by such Collateral Arrangement Party; (iii) is legally qualified and has the capacity to act as successor to the relevant Collateral Arrangement Party on the terms of the relevant Collateral Transaction Document; and (iv) whose performance of its duties under the relevant Collateral Transaction Document will not cause the Issuer and/or Secured Instruments Collateral Provider to become subject to tax in any jurisdiction where such successor is incorporated, established, doing business, has a permanent establishment or is otherwise considered tax resident.

The Security Agency Agreement contains, or will contain, provisions for the termination of such agreement and the removal or replacement of the Security Agent appointed thereunder. Any such termination, removal and/or replacement will be effected in accordance with the provisions of the Security Agency Agreement and may be effected without the consent of Holders. No such termination or removal shall be effective until a replacement Security Agent has been appointed.

3.8 Notices

Where any provision of these Secured Static/Floating Instruments Conditions requires one party to deliver a notice to another party, such notice may be delivered in any form agreed between the parties thereto, including but not limited to, by post, electronic message, fax, exchange of electronic files, SWIFT messages, messages through the relevant clearing system or by telephone (provided that any notice given by telephone must, as soon as reasonably practicable, be confirmed in writing between the parties to such telephone conversation and failure to obtain such confirmation shall not invalidate such notice).

4. Security

4.1 Security

The obligations of the Issuer in respect of the Secured Instruments will be secured by a Deed of Charge pursuant to which:

- (a) the Secured Instruments Collateral Provider charges by way of first fixed charge its rights and title in the Collateral Assets contained in one or more Collateral Accounts. The security interest granted shall be over all of the Secured Instruments Collateral Provider's rights in and to the Collateral Assets Delivered into and held from time to time in the relevant segregated account established with the Custodian pursuant to and in accordance with the applicable terms of the relevant Triparty Account Control Agreement and the Custodian Agreement for such purpose (the "**Collateral Account**"), excluding any interest or distributions paid on such Collateral Assets to the extent such amounts are not held in the relevant Collateral Account; and
- (b) the Secured Instruments Collateral Provider assigns by way of security its rights, title and interest in the Collateral Accounts (including, without limitation, any contractual interests or claims relating to such Collateral Accounts) and the Charged Documents,

in favour of the Security Agent to hold for itself and on behalf of, the relevant Holders and the other relevant Secured Parties under the Security Agency Agreement.

Following the delivery of a Collateral Enforcement Notice, any interest or distributions paid in respect of the Collateral Assets held in the Collateral Account will be credited to the Collateral Account and will be subject to the fixed charge set forth in paragraph (a) above (and such interest or distributions shall be deemed to be MTM Collateral Assets).

4.2 Collateral Pools

Each Series of Secured Instruments will be secured by a separate Collateral Pool comprising Collateral Assets held in a segregated Collateral Account.

4.3 Initial Collateral Assets

On the Issue Date of a Series of Secured Instruments, the Secured Instruments Collateral Provider shall:

- (a) deposit Static Collateral Assets in the relevant Collateral Account such that the Static Collateral Test will be satisfied on the Collateral Test Date falling on such Issue Date; and
- (b) deposit MTM Collateral Assets in the relevant Collateral Account such that the MTM Collateral Test will be satisfied on the Collateral Test Date falling on such Issue Date.

4.4 Adjustments to Collateral Assets

On the Collateral Business Day immediately preceding a Collateral Test Date, the Secured Instruments Valuation Agent will determine:

- (a) the portion of the Marked-to-Market Derivative Hedge Value in respect of the Derivative Hedge Valuation Time for such Collateral Test Date that relates to each Non-Waived Instrument of the relevant Series of Secured Instruments and will use that value to determine the MTM Collateral Specified Percentage of the Required MTM Collateral Value; and
- (b) the Static Collateral Specified Percentage of the Required Static Collateral Nominal Amount,

and will send a Collateral Test Notice to the Collateral Agent by no later than 4.30 p.m. London time on such Collateral Test Date, or such other time as may be agreed between the Secured Instruments Collateral Provider and the Collateral Agent from time to time. On the Collateral Business Day immediately preceding a Collateral Test Date, the Secured Instruments Valuation Agent will notify the relevant Instrument Agent, with a copy to the Security Agent, of the aggregate principal amount or number, as applicable, of outstanding Non-Waived Instruments as of such date.

On each Collateral Test Date, the Collateral Agent will determine the Pool Aggregate Collateral Nominal Amount and will verify that the Static Collateral Test is satisfied.

On each Collateral Test Date, the Collateral Agent will calculate the Collateral Value of the MTM Collateral Assets in the Collateral Account and verify that the MTM Collateral Test is satisfied. When determining whether the Collateral Test is satisfied on a Collateral Test Date, Collateral Assets for which instructions for the transfer to the relevant Collateral Account have been provided on or before such Collateral Test Date will be included for the purposes of such determination provided that sufficient Eligible MTM Collateral Assets and Eligible Static Collateral Assets are held in the Custodian Account to effect such transfer and Collateral Assets for which instructions for the removal from the relevant Collateral Account have been provided on or before such Collateral Test Date will be excluded for the purposes of such determination.

In determining whether the Collateral Test is satisfied, the Collateral Agent will verify that the relevant Collateral Assets comply with the eligibility criteria specified in the collateral schedule of the relevant Triparty Account Control Agreement. The Secured Instruments Collateral Provider shall be solely responsible for ensuring that the Eligibility Criteria specified in the applicable Final Terms is substantively identical to the eligibility criteria specified in the collateral schedule of the Triparty Account Control Agreement and the Collateral Agent shall not be liable to the Holders or any party for any discrepancy therein.

If, on the relevant Collateral Test Date, the Collateral Agent determines that the Collateral Test is not satisfied, the Collateral Agent will promptly send the Secured Instruments Collateral Provider a Collateral Agent Notice. On the date such Collateral Agent Notice is given, the Secured Instruments Collateral Provider will instruct the Collateral Agent to transfer sufficient

additional Eligible MTM Collateral Assets or Eligible Static Collateral Assets (as applicable) into the relevant Collateral Account to satisfy the Collateral Test.

The Secured Instruments Collateral Provider will ensure that sufficient Eligible MTM Collateral Assets and Eligible Static Collateral Assets are Delivered into the relevant Collateral Account on or before each Collateral Test Date to satisfy the Collateral Test in respect of such Collateral Test Date for the relevant Series of Secured Instruments.

4.5 **Substitution or withdrawal of Collateral Assets**

The Secured Instruments Collateral Provider may, subject to the terms of the relevant Triparty Account Control Agreement, withdraw and/or replace MTM Collateral Assets from the relevant Collateral Account provided that following such adjustment the Collateral Test continues to be satisfied. The Secured Instruments Collateral Provider will send or cause to be sent a notice to the Collateral Agent specifying the adjustments to be made to the Collateral Pool (including *inter alia* the type and quantity of any MTM Collateral Assets to be deposited and/or removed).

The Issuer and the Secured Instruments Collateral Provider shall not be entitled to withdraw and/or replace Static Collateral Assets from the relevant Collateral Account on any day, provided that the Secured Instruments Collateral Provider may on any Collateral Test Date withdraw from the relevant Collateral Account an aggregate nominal amount of Static Collateral Assets equal to (a) in respect of Secured Instruments that are Secured Notes, the total aggregate principal amount of Non-Waived Instruments that are converted into Waived Instruments or (b) in respect of Secured Instruments that are Secured W&C Instruments, the sum of the Notional Amount of each Non-Waived Instrument that is converted into a Waived Instrument, if, following such withdrawal on such Collateral Test Date, (x) the Collateral Test continues to be satisfied, and (y) if the Eligible Static Collateral Assets specified in the applicable Final Terms is a Basket of Eligible Debt Securities, the aggregate nominal amount of each Eligible Debt Security in the Basket of Eligible Debt Securities expressed as a percentage of the Pool Aggregate Collateral Nominal Amount on such Collateral Test Date is equal to its Eligible Debt Security Weighting.

4.6 **Delegation to Secured Instruments Collateral Provider**

The Issuer has, pursuant to the terms of the Secured Instruments Collateral Provider Agreement, delegated to the Secured Instruments Collateral Provider the role of managing each Collateral Pool to comply with the requirements of these Secured Static/Floating Instruments Conditions (including, but not limited to, compliance with Secured Static/Floating Instruments Conditions 4.3, 4.4 and 4.5).

4.7 **Required Collateral Default**

Following the occurrence of a Required Collateral Default, the Collateral Agent shall send a Required Collateral Default Notice to the Secured Instruments Collateral Provider and the Security Agent, specifying that a Required Collateral Default has occurred. The Secured Instruments Collateral Provider shall notify the Issuer of the Required Collateral Default Notice. The Security Agent shall as soon as reasonably practicable after receiving a Required Collateral Default Notice give notice to the relevant Instrument Agent and the relevant Instrument Agent will as soon as reasonably practicable give notice in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) or in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*) to all relevant Holders of the receipt of a Required Collateral Default Notice.

4.8 **Secured Instrument Event of Default**

4.8.1 The occurrence of one or more of the following events shall constitute a "**Secured Instrument Event of Default**" with respect to any Series of Secured Instruments:

(a) in respect of Secured Notes:

- (i) default shall be made in the payment of any amount of interest due in respect of any such Notes and the default continues for a period of 30 calendar days after the due date; or
 - (ii) default shall be made in the payment of any principal of any such Notes or in the delivery when due of the Entitlement in respect of any such Notes (in each case whether at maturity or upon redemption or otherwise), and such default continues for a period of 30 calendar days after the due date;
- (b) in respect of Secured W&C Instruments:
- (i) default shall be made in the payment of any Additional Amount due in respect of any such Non-Waived Instruments and the default continues for a period of 30 calendar days after the due date; or

- (c) the Issuer shall fail to perform or observe any other term, covenant or agreement contained in the Terms and Conditions applicable to any of such Secured Instruments or in the Agency Agreement for the period of 90 calendar days after the date on which written notice of such failure, requiring the Issuer, as the case may be, to remedy the same, first shall have been given to the relevant Instrument Agent (which will give notice to the Security Agent) and the Issuer by Holders of at least 33 per cent. of, (i) in respect of Secured Instruments that are Secured Notes, the aggregate principal amount of any such Non-Waived Instruments outstanding, or, (ii) in respect of Secured Instruments that are Secured W&C Instruments, the aggregate Notional Amount or by number (as applicable) of any such Non-Waived Instruments outstanding; or
- (d) a court having jurisdiction in the premises shall have entered a decree or order granting relief with respect to the Issuer in an involuntary proceeding under any applicable bankruptcy, insolvency or other similar law now or hereafter in effect, or appointing a receiver, liquidator, trustee, assignee, custodian or sequestrator (or similar official) of the Issuer or of all or substantially all of its property or for the winding up or liquidation of its affairs, and such decree or order shall have remained in force and unstayed for a period of 60 consecutive calendar days; or
- (e) the Issuer shall institute proceedings for relief under any applicable bankruptcy, insolvency or any other similar law now or hereafter in effect, or shall consent to the institution of any such proceedings against it, or shall consent to the appointment of a receiver, liquidator, trustee, assignee, custodian or sequestrator (or similar official) of it or of all or substantially all of its property, or shall make an assignment for the benefit of creditors, or shall fail generally to pay its debts as they become due, or shall take any corporate action in furtherance of any of the foregoing; or
- (f) a Required Collateral Default has occurred; or
- (g) any of (i) a failure by the Issuer and/or Secured Instruments Collateral Provider to comply with or perform any undertaking or obligation to be complied with or performed by it in accordance with the Security Agency Agreement or the relevant Deed of Charge if such failure is continuing after any applicable grace period has elapsed, the expiration or termination of such Security Agency Agreement or Deed of Charge, or (ii) the failing or cessation of such Security Agency Agreement or Deed of Charge, or any security granted by the Issuer and/or Secured Instruments Collateral Provider, to be in full force and effect prior to the satisfaction of all the obligations of such party under these Secured Static/Floating W&C Instruments Conditions or (iii) the Issuer and/or Secured Instruments Collateral Provider disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, such Security Agency Agreement or Deed of Charge

(or such action is taken by any person or entity appointed or empowered to act on the Issuer's and/or Secured Instruments Collateral Provider's behalf).

If a Secured Instrument Event of Default shall occur and be continuing with respect to any Series of Secured Instruments, then any Holder may, at its option, send an Acceleration Notice through the relevant Clearing System to the relevant Instrument Agent. If the Holder(s) of at least 33 per cent. (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of such Non-Waived Instruments outstanding send Acceleration Notice(s) through the relevant Clearing System to the relevant Instrument Agent, and if any such default is not waived in accordance with Secured Static/Floating Instruments Condition 4.8.4 below or cured by the Issuer prior to receipt by the relevant Instrument Agent of the latest of such Acceleration Notice(s) required to exceed the 33 per cent. threshold specified above, an "**Acceleration Event**" shall occur in respect of such Series of Secured Instruments.

4.8.2 The relevant Instrument Agent will as soon as reasonably practicable after the occurrence of an Acceleration Event send a notice (in or substantially in the form set out at Schedule 23 of the Agency Agreement) (an "**Acceleration Instruction**") to the Security Agent confirming that the Holders of at least 33 per cent. (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of the Non-Waived Instruments outstanding have delivered Acceleration Notices thereby instructing the Security Agent to:

- (a) deliver the notices specified in Secured Static/Floating Instruments Condition 6.1;
- (b) enforce the security constituted by the relevant Deed of Charge and distribute the proceeds (and, if applicable, physically settle the Entitlement), in each case, in accordance with its terms and the provisions of these Secured Static/Floating Instruments Conditions and the Security Agency Agreement;
- (c) appoint a Disposal Agent, if a Disposal Agent has not already been appointed, and provide instructions to the Disposal Agent in accordance with these Secured Static/Floating Instruments Conditions; and
- (d) perform any further actions of the Security Agent specified in these Secured Static/Floating Instruments Conditions, the relevant Deed of Charge and the Security Agency Agreement or any reasonable incidental actions,

provided that if, at any time before the Security Agent has taken any steps to enforce the security constituted by the related Security Agency Agreement and/or Deed of Charge or a judgment or decree for payment of the money due with respect to such Secured Instruments has been obtained by any Holder, the Security Agent is notified in writing by the relevant Instrument Agent that the occurrence of an Acceleration Event and its consequences have been rescinded and annulled in accordance with Secured Static/Floating Instruments Condition 4.8.3 below, then such Acceleration Instruction shall be deemed not to have been given and the Security Agent shall be entitled to rely on any such notification from the relevant Instrument Agent without further enquiry and shall incur no liability to the Holders or any other party for any action taken or not taken prior to or as a result of such notification.

4.8.3 At any time following the occurrence of an Acceleration Event and before (i) the Security Agent has taken any steps to enforce the security constituted by the related Security Agency Agreement and/or Deed of Charge or (ii) a judgment or decree for payment of the money due with respect to such Secured Instruments has been obtained by any Holder, the occurrence of an Acceleration Event and its consequences may be rescinded and annulled upon the written consent of Holders of a majority (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of such Non-Waived Instruments then outstanding, or by resolution adopted by a majority (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are

Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of such Non-Waived Instruments outstanding present or represented at a meeting of Holders at which a quorum is present, as provided in the Agency Agreement, if:

- (a) (i) the Issuer has paid, or has deposited with the relevant Clearing System, a sum sufficient to pay:
 - (A) in respect of Secured Notes:
 - (1) all overdue amounts of interest on such Secured Notes;
 - (2) the principal of such Secured Notes which has become due otherwise by such declaration of acceleration; or
 - (B) in respect of Secured W&C Instruments:
 - (1) all overdue Additional Amounts on such Secured W&C Instruments;
 - (2) the Cash Settlement Amount or other termination amount of such Secured W&C Instruments which has become due otherwise than by such declaration of acceleration; or
- (ii) in the case of Secured Instruments to be settled by physical delivery, the Issuer has delivered the relevant assets to any agent appointed by the Issuer to deliver such assets to the Holders of the Non-Waived Instruments; and
- (b) all Secured Instrument Events of Default with respect to such Secured Instruments, other than the non-payment of the applicable principal amount, Cash Settlement Amount or other termination amount of such Secured Instruments which has become due solely by such declaration of acceleration, have been cured or waived as provided in Secured Static/Floating Instruments Condition 4.8.4 below.

No such rescission shall affect any subsequent default or impair any right consequent thereon.

- 4.8.4 Any default by the Issuer and/or Secured Instruments Collateral Provider, other than the events described in Secured Static/Floating Instruments Condition 4.8.1(a) or Secured Static/Floating Instruments Condition 4.8.1(b), and other than an event described in Secured Static/Floating Instruments Condition 4.8.1(c) in respect of a covenant or provision of the Terms and Conditions which cannot be amended or modified without the passing of an Extraordinary Resolution of Holders, may be waived by the written consent of Holders of a majority (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of such Non-Waived Instruments then outstanding affected thereby, or by resolution adopted by a majority (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of such Non-Waived Instruments then outstanding present or represented at a meeting of Holders affected thereby at which a quorum is present, as provided in the Agency Agreement. Upon any such waiver, such default shall cease to exist, and any Secured Instrument Event of Default arising therefrom shall be deemed to have been cured, for every purpose of the Agency Agreement, but no such waiver shall extend to any subsequent or other default or impair any right consequent thereon.
- 4.8.5 Notes Condition 11 (*Events of Default and Rights of Acceleration*) shall not apply in respect of Secured Notes.
- 4.8.6 Notwithstanding anything to the contrary in the Secured Instruments Conditions or any other agreement, a holder shall not be permitted to exercise any default right with respect to any Secured Instrument or the Collateral Transaction Documents that is related, directly or indirectly, to an affiliate (as such term is defined in, and shall be interpreted in accordance with, 12 U.S.C. § 1841(k)) of the Issuer becoming subject to a receivership, insolvency, resolution or similar proceeding (an "**Insolvency Proceeding**"). However, nothing in this paragraph shall

restrict the exercise by a holder of any default right against the Issuer with respect to the Secured Instrument that arises as a result of (i) the Issuer becoming subject to an Insolvency Proceeding, (ii) the Issuer not satisfying a payment or delivery obligation pursuant to such Secured Instrument, or (iii) the failure of the Secured Instrument Collateral Provider, or any transferee thereof, to satisfy a payment or delivery obligation pursuant to the Collateral Transaction Documents or any other credit enhancement that supports the Secured Instrument. After an affiliate of the Issuer becomes subject to an Insolvency Proceeding, a Holder seeking to exercise a default right against the Issuer with respect to the Secured Instrument or the Collateral Transaction Documents shall have the burden of proof, by clear and convincing evidence, that the exercise of such default right is permitted thereunder. For purposes of this paragraph, "**default right**" has the meaning assigned to that term in, and shall be interpreted in accordance with 12 C.F.R. § 252.81, 12 C.F.R. § 382.1 and 12 C.F.R. § 47.1, as applicable.

4.8.7 Nothing in the Secured Instruments Conditions or the Collateral Transaction Documents shall prohibit the transfer of the Collateral Transaction Documents, any interest or obligation in or under such Collateral Transaction Documents, or any property securing such Collateral Transaction Documents to a transferee upon or following an affiliate (as such term is defined in, and shall be interpreted in accordance with, 12 U.S.C. § 1841(k)) of the Issuer becoming subject to an Insolvency Proceeding.

4.9 **Status**

4.9.1 **Secured Notes**

Notes Condition 3 (*Status of the Notes and the Guarantees*) shall not apply to the Secured Notes. The Secured Notes constitute direct, limited recourse, unsubordinated and secured obligations of the Issuer and rank equally among themselves.

Notwithstanding Notes Condition 3 (*Status of the Notes and the Guarantees*), the obligations of the Guarantor under the Guarantees shall not apply to Secured Notes. **The Secured Notes are not guaranteed by the Guarantor or any other entity.**

4.9.2 **Secured W&C Instruments**

W&C Instruments Condition 2 (*Status of the W&C Instruments and MLBV Guarantee*) shall not apply to the Secured W&C Instruments. The Secured W&C Instruments constitute direct, limited recourse, unsubordinated and secured obligations of the Issuer and rank equally among themselves.

Notwithstanding W&C Instruments Condition 2 (*Status of the W&C Instruments and MLBV Guarantee*), the obligations of the Guarantor under the MLBV Guarantee shall not apply to Secured W&C Instruments. **The Secured W&C Instruments are not guaranteed by the Guarantor or any other entity.**

5. **Secured Instruments Collateral Provider, Collateral Agent, Custodian, Security Agent, Secured Instruments Valuation Agent and relevant Instrument Agent**

In relation to each Series of Secured Instruments, the Secured Instruments Valuation Agent acts solely as an agent of the Issuer, and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Holders. In relation to each issue of Secured Instruments, the Collateral Agent acts solely as an agent of the Secured Instruments Collateral Provider, and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Holders or the Issuer.

The Secured Instruments Collateral Provider acts as an arms-length third party and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Holders. For the avoidance of doubt, the Custodian does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Holders, the Issuer or the Security Agent.

In acting in connection with any Series of Secured Instruments, the Security Agent does not act as an advisor to or fiduciary or trustee for the Holders or any other party and nothing in any of the documents relating to the Programme shall be interpreted to constitute the Security Agent

as a trustee or fiduciary of the Issuer, the Secured Instruments Collateral Provider, the Holders or any other party.

All calculations and determinations made in respect of the Secured Instruments by the Secured Instruments Collateral Provider, Collateral Agent and Secured Instruments Valuation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the Holders and the Security Agent (as applicable).

Each of the Secured Instruments Collateral Provider and Secured Instruments Valuation Agent may, with the consent of the Issuer, delegate any of their obligations and functions to a third party as provided for in the Secured Instruments Collateral Provider Agreement, Valuation Agency Agreement and each Triparty Account Control Agreement, as applicable. The Collateral Agent may delegate any of its obligations and functions to a third party as provided for in the relevant Triparty Account Control Agreement.

In acting in connection with any Series of Secured Instruments, the relevant Instrument Agent shall act solely as an agent of the Issuer and will not assume any obligations towards or relationship of agency or trust for or with any of the Holders of such Secured Instruments.

6. Default, Enforcement and Realisation

6.1 Acceleration and Enforcement of Collateral

If the Security Agent receives an Acceleration Instruction, the Security Agent shall (acting in accordance with such Acceleration Instruction), as soon as reasonably practicable:

As soon as reasonably practicable following the delivery of a Collateral Enforcement Notice, the Issuer shall, and shall procure that its Affiliates that hold Waived Instruments, of the Series of Secured Instruments in respect of which the Collateral Enforcement Notice is served, submit such Waived Instruments for cancellation free of payment and, following such cancellation, the Secured Instruments Valuation Agent shall notify the Security Agent of the principal amount or number, as applicable, of outstanding Non-Waived Instruments of such Series.

6.2 Definition of "Early Redemption/Settlement Amount"

 - (ii) the difference between (A) the MTM Collateral Enforcement Proceeds Share minus (B) the sum of (I) such Non-Waived Instrument's *pro rata* share of the Derivative Hedge Termination Costs, plus (II) such Non-Waived Instrument's *pro rata* share of the Static Collateral Hedge Termination Costs.

6.2.2 For the purposes of these Secured Static/Floating Instruments Conditions, the following definitions will apply:

Non-Waived Instrument's *pro rata* share of the Static Collateral Hedge Termination Costs, as determined by the Secured Instruments Valuation Agent.

applicable Final Terms, provided that if the Eligible Static Collateral Assets specified in the applicable Final Terms is a Basket of Eligible Debt Securities, the amount of each Eligible Debt Security in the Basket of Eligible Debt Securities liquidated or realised pursuant to this paragraph shall be proportionate to the Eligible Debt Security Weighting of such Eligible Debt Security; and

- (iii) thirdly, by liquidating or realising an amount of Static Collateral Assets sufficient to derive proceeds equal in value to any Hedge Termination Costs Shortfall in accordance with Secured Static/Floating Instruments Condition 6.7 and such proceeds will not be distributed to Holders but will be distributed to the Secured Parties ranking after the Holders of Non-Waived Instruments in accordance with the Order of Priority specified in the applicable Final Terms, provided that if the Eligible Static Collateral Assets specified in the applicable Final Terms is a Basket of Eligible Debt Securities, the amount of each Eligible Debt Security in the Basket of Eligible Debt Securities liquidated or realised pursuant to this paragraph shall be proportionate to the Eligible Debt Security Weighting of such Eligible Debt Security,

the aggregate nominal amount of Static Collateral Assets remaining in the relevant Collateral Account following such liquidation or realisation in accordance with subparagraph (b)(ii) and (iii) above, the "**Remaining Static Collateral Assets**". The Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall notify the Secured Instruments Valuation Agent of the Static Collateral Assets comprising the Remaining Static Collateral Assets.

6.4 **Liability of the Security Agent**

The Security Agency Agreement contains provisions setting out the standards of liability of the Security Agent including providing that:

- (a) in the event that any Secured Party directs the Security Agent to effect the liquidation and realisation of the Collateral Assets in the Collateral Pool which secures the relevant Series of Secured Instruments in a manner that is in accordance with the exact provisions of the Acceleration Instruction, the Security Agent shall not be under any obligation to take any further action (without prejudice to its ability to instruct the Disposal Agent to liquidate and realise the Collateral Assets for the purpose of funding the Security Agent Amounts) if it reasonably believes that (i) it would not be able to recover the Security Agent Amounts that would be incurred in connection with such action from the relevant Collateral Assets or otherwise and/or (ii) it would experience an unreasonable delay in doing so; and
- (b) in the event that any Secured Party directs the Security Agent to effect the liquidation and realisation of the Collateral Assets in the Collateral Pool which secures the relevant Series of Secured Instruments in a manner other than in accordance with the exact provisions of the Acceleration Instruction, the Security Agent shall not be under any obligation to take any action unless it has first been indemnified and/or secured and/or pre-funded to its satisfaction

and, in each case, the Security Agent shall have no liability for any such failure to act.

The Security Agent will not, in the absence of its own gross negligence, fraud and wilful misconduct, have any liability in connection with its role under or for the purposes of these Secured Static/Floating Instruments Conditions and it will have no regard to the effect of such action on individual Holders. In no event shall the Security Agent be liable for any special, indirect or consequential loss or any punitive damages including (without limitation) any lost profits.

For the avoidance of doubt, the Security Agent shall be entitled to rely without enquiry on an Acceleration Instruction delivered by the Instrument Agent and on any notice of revocation of such Acceleration Instruction pursuant to Condition 4.8.2 and shall have no obligation to monitor or verify whether the relevant threshold has been met or to monitor or verify whether

any Holder that has delivered an Acceleration Notice holds Waived Instruments or Non-Waived Instruments.

6.5 Enforcement and realisation by Holders

No Holder shall be entitled to enforce a Deed of Charge or to proceed directly against the Secured Instruments Collateral Provider to enforce the other provisions of a Charged Document unless the Security Agent, having become bound to so enforce or proceed, fails so to do within a reasonable time and such failure is continuing or the Security Agent is prevented from enforcing a Deed of Charge by any court order. If a Holder becomes so entitled, then such Holder shall not be entitled to enforce the relevant Deed of Charge or Charged Document in the United Kingdom.

If the Security Agent becomes bound to enforce a Deed of Charge or a Charged Document and fails to do so within a reasonable time and such failure is continuing or the Security Agent is prevented from enforcing a Deed of Charge by any court order, then, without prejudice to the paragraph above, Holder(s) of at least 33 per cent. (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of such Non-Waived Instruments outstanding may remove the Security Agent and appoint a replacement Security Agent in accordance with Secured Static/Floating Instrument Condition 3.7 and the terms of the Security Agency Agreement.

Neither the Issuer nor any Holder shall be entitled to enforce a Triparty Account Control Agreement or the Custodian Agreement or to proceed directly against the Collateral Agent or the Custodian to enforce the terms of the relevant Triparty Account Control Agreement or the Custodian Agreement (as applicable). Neither the Collateral Agent nor the Custodian shall have any liability to the Issuer or any Holder as to the consequence of any actions taken by the Collateral Agent or Custodian (as applicable).

6.6 Application and distribution of proceeds of enforcement

6.6.1 In connection with the enforcement of the security constituted by the relevant Deed of Charge, after the realisation and liquidation of the relevant Collateral Assets specified in Secured Static/Floating Instruments Condition 6.3 in accordance with Secured Static/Floating Instruments Condition 6.7, the Security Agent (acting in accordance with an Acceleration Instruction) or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall firstly use the proceeds of such realisation and liquidation of the MTM Collateral Assets to make payment of any amounts payable to the Secured Parties ranking prior to the Holders of Non-Waived Instruments in accordance with the Order of Priority specified in the applicable Final Terms. To the extent that the proceeds of the realisation and liquidation of the MTM Collateral Assets are insufficient to make payments of any amounts payable to the Secured Parties ranking prior to the Holders of Non-Waived Instruments in accordance with the Order of Priority specified in the applicable Final Terms, the Security Agent (acting in accordance with an Acceleration Instruction) or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall use the proceeds of any realisation and liquidation of the Static Collateral Assets to make payments of any such outstanding amounts.

6.6.2 Following such payments, the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall notify the Secured Instruments Valuation Agent of the MTM Collateral Enforcement Proceeds and, where "Physical Delivery of Static Collateral Assets" is specified to be not applicable in the applicable Final Terms, the Static Collateral Enforcement Proceeds. The Secured Instruments Valuation Agent shall then determine the Early Redemption/Settlement Amount in respect of each Non-Waived Instrument in accordance with Secured Static/Floating Instruments Condition 6.2 and shall notify such amount to the Security Agent, the Disposal Agent and to the Holders in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*).

6.6.3 Subject as provided below, the Security Agent (acting in accordance with an Acceleration Instruction) or the Disposal Agent (acting on behalf of and at the instruction of the Security

Agent) shall apply the remaining proceeds from the realisation of the relevant Collateral Assets in a Collateral Pool (excluding, if "Physical Delivery of Static Collateral Assets" is applicable, any Static Collateral Assets that are deliverable in accordance with Secured Static/Floating Instruments Condition 6.9) in meeting the claims of Holders in respect of the Early Redemption/Settlement Amount payable under each Non-Waived Instrument which is secured by the relevant Collateral Pool. Notwithstanding the foregoing, the proceeds of any Static Collateral Assets realised or liquidated in accordance with Secured Static/Floating Instruments Condition 6.3(b)(iii) will not be distributed to Holders but will be distributed to the Secured Parties ranking after the Holders of Non-Waived Instruments in accordance with the Order of Priority specified in the applicable Final Terms.

If the Collateral Enforcement Proceeds Share for a particular Non-Waived Instrument is greater than the Early Redemption/Settlement Amount of such Non-Waived Instrument, then such excess amount will not be distributed to such Holder but will be distributed to the Secured Parties ranking after the Holders of Non-Waived Instruments in accordance with the Order of Priority specified in the applicable Final Terms.

- 6.6.4 The Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall determine the date for distribution of the remaining proceeds to Holders in accordance with Secured Static/Floating Instruments Condition 6.6.3 and shall notify such date to the relevant Instrument Agent and the relevant Instrument Agent shall notify Holders in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*).
- 6.6.5 Moneys held by the Security Agent shall be deposited in its name in an account at such bank or other financial institution as the Security Agent may, acting in good faith and in a commercially reasonable manner, think fit. Any interest paid by such bank or financial institution on such moneys shall be deemed to be MTM Collateral Assets.
- 6.6.6 To the extent that any proceeds from the liquidation or realisation of the relevant Collateral Assets in a Collateral Pool are not in the Settlement Currency, then such proceeds shall be converted at such rate or rates, in accordance with such method and as at such date as may reasonably be specified by the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent), having regard to then-current rates of exchange. Any rate, method and date so specified shall be binding on the Issuer, the Secured Instruments Collateral Provider and the Holders.

6.7 **Method of realisation of Collateral Assets**

Subject as may otherwise be provided for in these Secured Static/Floating Instruments Conditions, in effecting the sales, the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) may sell the relevant Collateral Assets in one single tranche or in smaller tranches as it considers appropriate in order to attempt reasonably to maximise the proceeds from such sale. The Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) may effect sales of the Collateral Assets (a) on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted, (b) in the over-the-counter market or (c) in transactions otherwise than on such exchanges or in the over-the counter market.

Where the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) disposes of any Collateral Assets other than on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted then:

- (a) the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall seek firm bid quotations from at least three independent dealers in assets similar in nature to the relevant Collateral Assets (and, for such purpose, it may seek quotations in respect of such Collateral Assets in their entirety or in respect of a designated part or proportion thereof, as it considers appropriate in order to maximise the proceeds of the sale of such Collateral Assets);

- (b) for the purposes of obtaining the quotations referred to in (a) above, the Security Agent or the Disposal Agent may itself provide a bid in respect of the relevant Collateral Assets or any part or proportion thereof; and
- (c) the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall be authorised to accept without liability to any party in respect of each relevant part or proportion of the Collateral Assets or, as applicable, the entirety of the relevant Collateral Assets the highest quotation so obtained (which may be a quotation from the Security Agent or the Disposal Agent (when providing such quotations itself, the Security Agent or the Disposal Agent shall act in a commercially reasonable manner)).

Notwithstanding any other provision of these Secured Static/Floating Instruments Conditions, following receipt by the Security Agent of notice of an Acceleration Event, the Security Agent shall be entitled in its sole discretion to instruct the Disposal Agent to liquidate, dispose or realise any of the Collateral Assets at any time and without regard to any of the provisions of the Secured Static/Floating Instruments Conditions with respect to method, price or time of such realisation, in order to satisfy any Security Agent Amounts, and without liability to any party for any such action.

6.8 Inability to realise Collateral Assets

If the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) is unable to sell the relevant Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of one or more Collateral Assets, in each case pursuant to Secured Static/Floating Instruments Condition 6.6, for a period of one year from the date of the relevant Acceleration Instruction (such Collateral Assets being "**Non-Realised Collateral Assets**"), then notwithstanding any other provision hereof, the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall be entitled without liability to any party to sell such Non-Realised Collateral Assets by accepting the first available price for such Non-Realised Collateral Assets.

6.9 Physical Delivery of Static Collateral Assets

6.9.1 The Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) will notify the relevant Instrument Agent and the relevant Instrument Agent will notify Holders of Non-Waived Instruments of the relevant Series of Secured Instruments of the relevant Collateral Delivery Date in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*) and:

- (a) the Secured Instruments Valuation Agent shall aggregate the Unrounded Collateral Assets Entitlement in respect of all Non-Waived Instruments of such Series held by each such Holder and will round down each Static Collateral Asset comprising such aggregated Unrounded Collateral Assets Entitlement to the nearest tradable unit of such Static Collateral Asset (the "**Entitlement**" in respect of such Holder);
- (b) the Secured Instruments Valuation Agent shall notify the Entitlement in respect of each Holder to the Security Agent and the Disposal Agent and to the Holders in accordance with , in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*);
- (c) the Security Agent (acting in accordance with an Acceleration Instruction) or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall deliver the relevant Entitlement to the Holders of the Non-Waived Instruments secured by the relevant Collateral Pool in accordance with the method of transfer of Collateral Assets specified, in respect of Secured Notes, in Physical Delivery Note Condition 2 (*Delivery of Entitlement and Asset Transfer Notices*) or, in respect of Secured W&C Instruments, in W&C Instruments Condition 25(C)(b) or 32(C)(b), (provided that no Expenses shall be payable), as applicable (and each reference therein to "Issuer" shall be

deemed to be a reference to "Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent)"); and

- (d) the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall realise and liquidate in accordance with Secured Static/Floating Instruments Condition 6.7 the number or fraction of Collateral Assets which is not possible to deliver to a Holder following rounding by the Secured Instruments Valuation Agent in accordance with sub-paragraph (a) above as notified to the Security Agent and the Disposal Agent in accordance with sub-paragraph (b) above and shall notify the Secured Instruments Valuation Agent of the amount of the proceeds of such realisation and liquidation. The Secured Instruments Valuation Agent shall determine the *pro rata* share of the proceeds of such realisation and liquidation of each Holder whose Entitlement is subject to rounding (determined by the Secured Instruments Valuation Agent in respect of each Holder, on the basis of the difference between the aggregated Unrounded Collateral Assets Entitlement of such Holder minus the Entitlement of such Holder) (such amount, the "**Fractional Cash Amount**" in respect of such Holder) and shall notify the Fractional Cash Amount in respect of each Holder to the Security Agent and the Disposal Agent and to the Holders in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) or, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*). The Security Agent (acting in accordance with an Acceleration Instruction) or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall pay the relevant Fractional Cash Amount to each Holder.

6.9.2 Delivery of such Entitlement and payment of such Fractional Cash Amount shall fully extinguish the Issuer's obligations in respect of the principal amount (in respect of Secured Instruments that are Secured Notes) or the Notional Amount (in respect of Secured Instruments that are Secured W&C Instruments) of the relevant Secured Instruments, as the case may be, notwithstanding that the value of the Entitlement so delivered and Fractional Cash Amount so paid may be less than the market value and/or nominal value of the relevant Secured Instrument.

6.9.3 W&C Instruments Condition 5 shall not apply in respect of Secured W&C Instruments.

6.9.4 Physical Note Condition 3 (*Settlement Disruption Event*), Physical Note Condition 4 (*Failure to Deliver due to Illiquidity*) and Physical Note Condition 5 (*Option to Vary Settlement*) shall not apply in respect of Secured Notes.

6.9.5 For the purposes of these Secured Static/Floating Instruments Conditions, the following definitions will apply:

"Collateral Delivery Date" means, in relation to a Series of Secured Instruments where "Physical Delivery of Static Collateral Assets" is applicable, the date on which the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) intends to deliver the Entitlement to Holders.

"Hedge Termination Costs Shortfall" means the greater of zero and an amount equal to the difference between (a) the sum of (i) the Derivative Hedge Termination Costs plus (ii) the Static Collateral Hedge Termination Costs, minus (b) the MTM Collateral Enforcement Proceeds, as determined by the Secured Instruments Valuation Agent.

"Remaining Static Collateral Assets" has the meaning given in Secured Static/Floating Instruments Condition 6.3(b).

"Relevant Number" means:

- (a) in respect of Secured Instruments that are Secured Notes, the aggregate principal amount outstanding of Non-Waived Instruments of a Series of Secured Instruments divided by the specified denomination of each Non-Waived Instrument of such Series of Secured Instruments; and
- (b) in respect of Secured Instruments that are Secured W&C Instruments, the number of Non-Waived Instruments of a Series of Secured Instruments.

"Unrounded Collateral Assets Entitlement" means, for each Non-Waived Instrument in a Series of Secured Instruments, Static Collateral Assets with an aggregate nominal amount equal to the quotient of (a) the Remaining Static Collateral Assets in respect of the Collateral Pool which secures such Series of Secured Instruments, divided by (b) the Relevant Number of Non-Waived Instruments of such Series of Secured Instruments, as determined by the Secured Instruments Valuation Agent, provided that if the Eligible Static Collateral Assets specified in the applicable Final Terms is a Basket of Eligible Debt Securities, and such Remaining Static Collateral Assets comprise the Basket of Eligible Debt Securities, the aggregate nominal amount of each Eligible Debt Security in the Basket of Eligible Debt Securities expressed as a percentage of the Unrounded Collateral Assets Entitlement shall be equal to the Eligible Debt Security Weighting of such Eligible Debt Security.

6.9.6 This Condition 6.9 shall not apply to Secured Instruments which are Rule 144A Instruments.

6.10 Physical Delivery of Collateral Assets Disruption Event

6.10.1 If, in the opinion of the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent), delivery of all or some of the Static Collateral Assets forming part of the Entitlement using the method of delivery specified in respect of Secured Notes, in Physical Delivery Note Condition 2 (*Delivery of Entitlement and Asset Transfer Notices*) or, in respect of Secured W&C Instruments, in W&C Instruments Condition 25(C)(b) or 32(C)(b) (as applicable and as notified to the Disposal Agent by the Security Agent), or such other commercially reasonable manner as the Security Agent, or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent), has determined, is not practicable by reason of a Physical Delivery of Collateral Assets Disruption Event having occurred and continuing on any Collateral Delivery Date, then such Collateral Delivery Date shall be postponed to the first following Collateral Business Day in respect of which there is no such Physical Delivery of Collateral Assets Disruption Event, provided that the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) may elect in its sole discretion and without liability to any party to deliver the Static Collateral Assets forming part of the Entitlement in such other commercially reasonable manner as it may select and in such event the Collateral Delivery Date shall be such day as the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) deems appropriate in connection with delivery of the Static Collateral Assets forming part of the Entitlement in such other commercially reasonable manner.

Where a Physical Delivery of Collateral Assets Disruption Event affects some but not all of the Static Collateral Assets forming part of the Entitlement due to be delivered to a Holder, the Collateral Delivery Date for those Static Collateral Assets forming part of the Entitlement which are able to be delivered will be the Collateral Delivery Date on which such Static Collateral Assets are delivered.

6.10.2 If delivery of any Static Collateral Assets forming part of the Entitlement is not possible due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event for a period of greater than 20 Collateral Business Days, then in lieu of physical settlement and notwithstanding any other provision hereof, the Security Agent (acting in accordance with an Acceleration Instruction) or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall sell or realise the Undeliverable Collateral Assets in the manner set out in Secured Static/Floating Instruments Condition 6.7 and deliver the proceeds thereof to Holders.

6.10.3 If the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) is unable to either sell the Undeliverable Collateral Assets on any securities exchange or quotation service on which the Undeliverable Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of the Collateral Assets, in each case pursuant to Secured Static/Floating Instruments Condition 6.7, the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall be entitled, without the Security Agent or the Disposal Agent incurring any liability to any party, to accept the first available price for such Undeliverable Collateral Assets.

The Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent), shall give notice as soon as practicable to the relevant Instrument Agent and

the relevant Instrument Agent will give notice as soon as practicable to Holders in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) or, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*) that a Physical Delivery of Collateral Assets Disruption Event has occurred. No Holder shall be entitled to any payment in respect of the relevant Non-Waived Instruments in the event of any delay in the delivery of the Collateral Assets forming part of the Entitlement due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event and no liability in respect thereof shall attach to the Issuer, the Secured Instruments Collateral Provider, the Security Agent or the Disposal Agent.

6.10.4 This Condition 6.10 shall not apply to Secured Instruments which are Rule 144A Instruments.

6.11 Replacement Secured Instruments Valuation Agent

If, following the delivery of a Collateral Enforcement Notice, the Secured Instruments Valuation Agent fails to make the applicable calculations and determinations specified in this Secured Static/Floating Instruments Condition 6, or fails to notify the Security Agent or the Disposal Agent of the results of such calculations and determinations, within a reasonable time and in any event within 20 Collateral Business Days of receipt of a written request from the Security Agent and/or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) that it make such calculations and determinations, then the Security Agent shall as soon as reasonably practicable appoint a replacement Secured Instruments Valuation Agent (a "**Replacement Secured Instruments Valuation Agent**") in accordance with Secured Static/Floating Instruments Condition 3.7.

7. Segregation of Collateral Pools and Limited Recourse and Non-Petition

By acquiring and holding Secured Instruments, Holders will be deemed to acknowledge and agree that the obligations of the Issuer to the Holders are limited in recourse to the Collateral Assets contained in the relevant Collateral Pool securing such Series of Secured Instruments. If:

- (a) there are no relevant Collateral Assets in the relevant Collateral Pool remaining which are capable of being realised or otherwise converted into cash;
- (b) all amounts available from the relevant Collateral Assets in the relevant Collateral Pool have been applied to meet or provide for the relevant obligations specified in, and in accordance with, the provisions of the relevant Deed of Charge, the Security Agency Agreement and these Secured Static/Floating Instruments Conditions; and
- (c) there are insufficient amounts available from the relevant Collateral Assets in the relevant Collateral Pool to pay in full, in accordance with the provisions of the relevant Deed of Charge, the Security Agency Agreement and these Secured Static/Floating Instruments Conditions, amounts outstanding under the Secured Instruments (including payments of principal, premium (if any) and interest),

then the Holders of such Secured Instruments shall have no further claim against the Issuer or the Secured Instruments Collateral Provider in respect of any amounts owing to them which remain unpaid (including, for the avoidance of doubt, payments of principal, premium (if any) and/or interest in respect of the Secured Instruments). In particular, no Holder shall be entitled to have recourse to the Collateral Assets contained in a Collateral Pool other than the Collateral Pool which secures the Secured Instruments held by such Holder. The Secured Instruments are not guaranteed by the Guarantor or any other entity and therefore Holders will have no claim against the Guarantor or any other entity in respect of any such amounts owing to them which remain unpaid.

8. Collateral Disruption Events

8.1 Consequences of a Collateral Disruption Event

If a Collateral Disruption Event occurs or is continuing in respect of Static Collateral Assets securing a Series of Secured Instruments, as determined by the Secured Instruments Valuation Agent, the Issuer may, at its discretion, cancel the Secured Instruments of such Series by giving notice to Holders in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*)

or, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*). If the Issuer cancels the Secured Instruments, then the Issuer shall:

- (a) pay an amount in the Settlement Currency equal to the Early Redemption/Settlement Amount (CDE) to each Holder in respect of each Non-Waived Instrument held by such Holder; and
- (b) if "Physical Delivery of Static Collateral Assets" is specified to be applicable in the applicable Final Terms, (i) Deliver the relevant Entitlement (CDE) to each Holder and (ii) pay the Fractional Cash Amount (CDE) to each relevant Holder, in each case, in accordance with Secured Static/Floating Instruments Condition 8.4.

Payment will be made in such manner and on such date as shall be notified by the Issuer to the Holders in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*), provided that such date shall be no later than two Business Days following the day on which the Secured Instruments Collateral Provider and/or its Affiliate receives the proceeds of liquidation and realisation of all Static Collateral Assets (if any) that are required to be liquidated and realised in accordance with Secured Static/Floating Instruments Conditions 8.3.1 and 8.4.2 (if applicable).

8.2 Definition of "Early Redemption/Settlement Amount (CDE)"

For the purposes of this Secured Static/Floating Instruments Condition 8, the Early Redemption/Settlement Amount (CDE) payable in respect of each cancelled Non-Waived Instrument shall be determined by the Secured Instruments Valuation Agent in accordance with sub-paragraph (a) or (b) below (as applicable):

- (a) if the applicable Final Terms specify "Physical Delivery of Static Collateral Assets" not to be applicable, the Early Redemption/Settlement Amount (CDE) shall be an amount equal to the greater of zero and the difference between:
 - (i) the sum of:
 - (A) an amount equal to the difference between (I) an amount equal to the portion of the Marked-to-Market Derivative Hedge Value in respect of the Derivative Hedge Valuation Time for the Collateral Disruption Event Determination Date that relates to such Non-Waived Instrument, minus (II) an amount equal to such Non-Waived Instrument's *pro rata* share of the Derivative Hedge Termination Costs; plus
 - (B) the difference between (aa) the Static Collateral Proceeds Share (CDE) minus (bb) such Non-Waived Instrument's *pro rata* share of the Static Collateral Hedge Termination Costs; minus
 - (ii) an amount equal to such Non-Waived Instrument's *pro rata* share of the Realisation Costs; or
- (b) if the applicable Final Terms specify "Physical Delivery of Static Collateral Assets" to be applicable, the Early Redemption/Settlement Amount (CDE) shall be an amount equal to the greater of zero and the difference between:
 - (i) an amount equal to the portion of the Marked-to-Market Derivative Hedge Value in respect of the Derivative Hedge Valuation Time for the Collateral Disruption Event Determination Date that relates to such Non-Waived Instrument; minus
 - (ii) the Collateral Disruption Event Costs.

8.3 Liquidation and realisation of Static Collateral Assets

8.3.1 Realisation of Static Collateral Assets

If the Issuer elects to cancel a Series of Secured Instruments in accordance with Secured Static/Floating Instruments Condition 8.1, the Secured Instruments Collateral Provider shall deliver a Control Event Notice to the Collateral Agent and shall effect a liquidation and realisation in accordance with Secured Static/Floating Instruments Condition 6.7 (and each reference therein to "Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent)" shall be deemed to be a reference to "Secured Instruments Collateral Provider and/or its Affiliate") of:

- (a) if "Physical Delivery of Static Collateral Assets" is specified to apply in the applicable Final Terms, an amount of Static Collateral Assets sufficient to derive proceeds that are equal in value to the Collateral Disruption Event Costs Shortfall (if any) and such proceeds shall be retained by the Secured Instruments Collateral Provider and shall not be payable to Holders, provided that if the Eligible Static Collateral Assets specified in the applicable Final Terms is a Basket of Eligible Debt Securities, the amount of each Eligible Debt Security in the Basket of Eligible Debt Securities liquidated or realised pursuant to this paragraph shall be proportionate to the Eligible Debt Security Weighting of such Eligible Debt Security, (the aggregate nominal amount of Static Collateral Assets remaining in the relevant Collateral Pool following such liquidation or realisation in accordance with this sub-paragraph (a), the "**Remaining Static Collateral Assets (CDE)**"); or
- (b) if "Physical Delivery of Static Collateral Assets" is specified not to apply in the applicable Final Terms, all Static Collateral Assets in the Collateral Pool which secures a Series of Secured Instruments.

Secured Static/Floating Instruments Condition 6.8 shall apply to the realisation of Static Collateral Assets (if any) in accordance with this Secured Static/Floating Instruments Condition 8.3 (and each reference therein to "Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent)" shall be deemed to be a reference to "Secured Instruments Collateral Provider and/or its Affiliate").

To the extent that any proceeds from the realisation of the relevant Static Collateral Assets in a Collateral Pool are not in the Settlement Currency, then such proceeds shall be converted at such rate or rates, in accordance with such method and as at such date as may reasonably be specified by the Secured Instruments Collateral Provider and/or its Affiliate, having regard to current rates of exchange. Any rate, method and date so specified shall be binding on the Issuer and the Holders.

8.3.2 **Liability of the Secured Instruments Collateral Provider**

The Secured Instruments Collateral Provider and/or its Affiliates will not, in the absence of negligence, fraud and wilful misconduct, have any liability as to the consequence of any liquidation or realisation action and will have no regard to the effect of such action on individual Holders.

8.4 **Physical Settlement**

8.4.1 Where "Physical Delivery of Static Collateral Assets" is specified in the applicable Final Terms, following cancellation of the relevant Series of Secured Instruments in accordance with Secured Static/Floating Instruments Condition 8.1, the Secured Instruments Collateral Provider will determine the Entitlement (CDE) and any Fractional Cash Amount (CDE) in respect of each Holder of Non-Waived Instruments and shall notify such amounts to the Holders in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) or, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*).

8.4.2 The Secured Instruments Collateral Provider will notify Holders of Non-Waived Instruments of the relevant Series of Secured Instruments of the relevant Collateral Delivery Date (CDE) and will:

- (a) aggregate the Unrounded Collateral Assets Entitlement (CDE) in respect of all Non-Waived Instruments of such Series held by each such Holder and will round down each

Static Collateral Asset comprising such aggregated Unrounded Collateral Assets Entitlement (CDE) to the nearest tradable unit of such Static Collateral Asset (the "**Entitlement (CDE)**" in respect of such Holder);

- (b) Deliver the Entitlement (CDE) to the Holders of the Secured Instruments secured by the relevant Collateral Pool in accordance with the method of transfer of Collateral Assets specified in respect of Secured Notes, in Physical Delivery Note Condition 2 (*Delivery of Entitlement and Asset Transfer Notices*) or, in respect of Secured W&C Instruments, in W&C Instruments Condition 25(C)(b) or 32(C)(b) (provided that no Expenses shall be payable) (and each reference therein to "Issuer" shall be deemed to be a reference to "Secured Instruments Collateral Provider"); and
- (c) realise and liquidate the number or fraction of Static Collateral Assets which is not possible to deliver to a Holder following such rounding in accordance with Secured Static/Floating Instruments Condition 6.7 (and each reference therein to "Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent)" shall be deemed to be a reference to "Secured Instruments Collateral Provider and/or its Affiliate") and pay a *pro rata* share of the proceeds of such realisation and liquidation to each Holder whose Entitlement (CDE) is subject to rounding (determined on the basis of the difference between the aggregate Unrounded Collateral Assets Entitlement (CDE) of such Holder minus the Entitlement (CDE) of such Holder) (such amount, the "**Fractional Cash Amount (CDE)**" in respect of such Holder).

Delivery of such Entitlement (CDE) and payment of such Fractional Cash Amount (CDE) shall fully extinguish the Issuer's obligations in respect of the principal amount (in respect of Secured Instruments that are Secured Notes) or the Notional Amount (in respect of Secured Instruments that are Secured W&C Instruments) of the relevant Secured Instruments notwithstanding that the value of the Entitlement (CDE) so delivered and Fractional Cash Amount (CDE) so paid may be less than the market value and/or nominal value of the relevant Secured Instrument.

- 8.4.3 Secured Static/Floating Instruments Condition 6.10 shall apply to the Delivery of the Entitlement (CDE) in accordance with this Secured Static/Floating Instruments Condition 8.4 (and each reference therein to "Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent)" shall be deemed to be a reference to "Secured Instruments Collateral Provider and/or its Affiliate").
- 8.4.4 W&C Instruments Condition 5 shall not apply in respect of Secured W&C Instruments.
- 8.4.5 Physical Note Condition 3 (*Settlement Disruption Event*), Physical Note Condition 4 (*Failure to Deliver due to Illiquidity*) and Physical Note Condition 5 (*Option to Vary Settlement*) shall not apply in respect of Secured Notes.
- 8.4.6 This Condition 8.4 shall not apply to Secured Instruments which are Rule 144A Instruments.

8.5 **Additional Definitions**

- (f) a Required Collateral Default has occurred; or
- (g) any of (i) a failure by the Issuer and/or Secured Instruments Collateral Provider to comply with or perform any undertaking or obligation to be complied with or performed by it in accordance with the Security Agency Agreement or the relevant Deed of Charge if such failure is continuing after any applicable grace period has elapsed, the expiration or termination of such Security Agency Agreement or Deed of Charge, or (ii) the failing or cessation of such Security Agency Agreement or Deed of Charge, or any security granted by the Issuer and/or Secured Instruments Collateral Provider, to be in full force and effect prior to the satisfaction of all the obligations of such party under these Secured Instruments Conditions or (iii) the Issuer and/or Secured Instruments Collateral Provider disaffirms, disclaims, repudiates or rejects, in whole or in part, or challenges the validity of, such Security Agency Agreement or Deed of Charge (or such action is taken by any person or entity appointed or empowered to act on the Issuer's and/or Secured Instruments Collateral Provider's behalf).

If a Secured Instrument Event of Default shall occur and be continuing with respect to any Series of Secured W&C Instruments, then any Holder may, at its option, send an Acceleration Notice through the relevant Clearing System to the relevant Instrument Agent. If the Holder(s) of at least 33 per cent. (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of such Non-Waived Instruments outstanding send Acceleration Notice(s) through the relevant Clearing System to the relevant Instrument Agent, and if any such default is not waived in accordance with Secured Fully Floating Instruments Condition 4.8.4 below or cured by the Issuer prior to receipt by the relevant Instrument Agent of the latest of such Acceleration Notice(s) required to exceed the 33 per cent. threshold specified above, an "**Acceleration Event**" shall occur in respect of such Series of Secured Instruments.

- 4.8.2 The relevant Instrument Agent will as soon as reasonably practicable after the occurrence of an Acceleration Event send a notice (in or substantially in the form set out at Schedule 23 of the Agency Agreement) (an "**Acceleration Instruction**") to the Security Agent confirming that the Holder(s) of at least 33 per cent. (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C

Instruments) in aggregate Notional Amount or by number (as applicable) of the Non-Waived Instruments outstanding have delivered Acceleration Notices thereby instructing the Security Agent to:

- (a) deliver the notices specified in Secured Fully Floating Instruments Condition 6.1;
- (b) enforce the security constituted by the relevant Deed of Charge and distribute the proceeds (and, if applicable, physically settle the Entitlement), in each case, in accordance with its terms and the provisions of these Secured Fully Floating Instruments Conditions and the Security Agency Agreement;
- (c) appoint a Disposal Agent, if a Disposal Agent has not already been appointed, and provide instructions to the Disposal Agent in accordance with these Secured Fully Floating Instruments Conditions; and
- (d) perform any further actions of the Security Agent specified in these Secured Fully Floating Instruments Conditions, the relevant Deed of Charge and the Security Agency Agreement or any reasonable incidental actions,

provided that if, at any time before the Security Agent has taken any steps to enforce the security constituted by the related Security Agency Agreement and/or Deed of Charge or a judgment or decree for payment of the money due with respect to such Secured Instruments has been obtained by any Holder, the Security Agent is notified in writing by the relevant Instrument Agent that the occurrence of an Acceleration Event and its consequences have been rescinded and annulled in accordance with Secured Fully Floating Instruments Condition 4.8.3 below, then such Acceleration Instruction shall be deemed not to have been given and the Security Agent shall be entitled to rely on any such notification from the relevant Instrument Agent without further enquiry and shall incur no liability to the Holders or any other party for any action taken or not taken prior to or as a result of such notification.

4.8.3 At any time following the occurrence of an Acceleration Event and (i) before the Security Agent has taken any steps to enforce the security constituted by the related Security Agency Agreement and/or Deed of Charge or (ii) a judgment or decree for payment of the money due with respect to such Secured Instruments has been obtained by any Holder, the occurrence of an Acceleration Event and its consequences may be rescinded and annulled upon the written consent of Holders of a majority (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of such Non-Waived Instruments then outstanding, or by resolution adopted by a majority (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of such Non-Waived Instruments outstanding present or represented at a meeting of Holders at which a quorum is present, as provided in the Agency Agreement, if:

- (a) (i) the Issuer has paid, or has deposited with the relevant Clearing System, a sum sufficient to pay:
 - (A) in respect of Secured Notes:
 - (1) all overdue amounts of interest on such Secured Notes;
 - (2) the principal of such Secured Notes which has become due otherwise by such declaration of acceleration; or
 - (B) in respect of Secured W&C Instruments:
 - (1) all overdue Additional Amounts on such Secured W&C Instruments;
 - (2) the Cash Settlement Amount or other termination amount of such Secured W&C Instruments which has become due otherwise than by such declaration of acceleration; or

- (ii) in the case of Secured Instruments to be settled by physical delivery, the Issuer has delivered the relevant assets to any agent appointed by the Issuer to deliver such assets to the Holders of the Non-Waived Instruments; and
- (b) all Secured Instrument Events of Default with respect to such Secured Instruments, other than the non-payment of any applicable principal amount, Cash Settlement Amount or other termination amount of such Secured Instruments which has become due solely by such declaration of acceleration, have been cured or waived as provided in Secured Fully Floating Instruments Condition 4.8.4 below.

No such rescission shall affect any subsequent default or impair any right consequent thereon.

- 4.8.4 Any default by the Issuer and/or Secured Instruments Collateral Provider, other than the events described in Secured Fully Floating Instruments Condition 4.8.1(a) or Secured Fully Floating Instruments Condition 4.8.1(b), and other than an event described in Secured Fully Floating Instruments Condition 4.8.1(c) in respect of a covenant or provision of the Terms and Conditions which cannot be amended or modified without the passing of an Extraordinary Resolution of Holders, may be waived by the written consent of Holders of a majority (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of such Non-Waived Instruments then outstanding affected thereby, or by resolution adopted by a majority (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of such Non-Waived Instruments then outstanding present or represented at a meeting of Holders affected thereby at which a quorum is present, as provided in the Agency Agreement. Upon any such waiver, such default shall cease to exist, and any Secured Instrument Event of Default arising therefrom shall be deemed to have been cured, for every purpose of the Agency Agreement, but no such waiver shall extend to any subsequent or other default or impair any right consequent thereon.
- 4.8.5 Notes Condition 11 (*Events of Default and Rights of Acceleration*) shall not apply in respect of Secured Notes;
- 4.8.6 Notwithstanding anything to the contrary in the Secured Instruments Conditions or any other agreement, a holder shall not be permitted to exercise any default right with respect to any Secured Instrument or the Collateral Transaction Documents that is related, directly or indirectly, to an affiliate (as such term is defined in, and shall be interpreted in accordance with, 12 U.S.C. § 1841(k)) of the Issuer becoming subject to a receivership, insolvency, resolution or similar proceeding (an "**Insolvency Proceeding**"). However, nothing in this paragraph shall restrict the exercise by a holder of any default right against the Issuer with respect to the Secured Instrument that arises as a result of (i) the Issuer becoming subject to an Insolvency Proceeding, (ii) the Issuer not satisfying a payment or delivery obligation pursuant to such Secured Instrument, or (iii) the failure of the Secured Instrument Collateral Provider, or any transferee thereof, to satisfy a payment or delivery obligation pursuant to the Collateral Transaction Documents or any other credit enhancement that supports the Secured Instrument. After an affiliate of the Issuer becomes subject to an Insolvency Proceeding, a Holder seeking to exercise a default right against the Issuer with respect to the Secured Instrument or the Collateral Transaction Documents shall have the burden of proof, by clear and convincing evidence, that the exercise of such default right is permitted thereunder. For purposes of this paragraph, "**default right**" has the meaning assigned to that term in, and shall be interpreted in accordance with 12 C.F.R. § 252.81, 12 C.F.R. § 382.1 and 12 C.F.R. § 47.1, as applicable.
- 4.8.7 Nothing in the Secured Instruments Conditions or the Collateral Transaction Documents shall prohibit the transfer of the Collateral Transaction Documents, any interest or obligation in or under such Collateral Transaction Documents, or any property securing such Collateral Transaction Documents to a transferee upon or following an affiliate (as such term is defined in, and shall be interpreted in accordance with, 12 U.S.C. § 1841(k)) of the Issuer becoming subject to an Insolvency Proceeding.

4.9 **Status**

4.9.1 **Secured Notes**

Notes Condition 3 (*Status of the Notes and the Guarantees*) shall not apply to the Secured Notes. The Secured Notes constitute direct, limited recourse, unsubordinated and secured obligations of the Issuer and rank equally among themselves.

Notwithstanding Notes Condition 3 (*Status of the Notes and the Guarantees*), the obligations of the Guarantor under the Guarantees shall not apply to Secured Notes. **The Secured Notes are not guaranteed by the Guarantor or any other entity.**

4.9.2 **Secured W&C Instruments**

W&C Instruments Condition 2 (*Status of the W&C Instruments and MLBV Guarantee*) shall not apply to the Secured W&C Instruments. The Secured W&C Instruments constitute direct, limited recourse, unsubordinated and secured obligations of the Issuer and rank equally among themselves.

Notwithstanding W&C Instruments Condition 2 (*Status of the W&C Instruments and MLBV Guarantee*), the obligations of the Guarantor under the MLBV Guarantee shall not apply to Secured W&C Instruments. **The Secured W&C Instruments are not guaranteed by the Guarantor or any other entity.**

5. **Secured Instruments Collateral Provider, Collateral Agent, Custodian, Security Agent, Secured Instruments Valuation Agent and relevant Instrument Agent**

In relation to each Series of Secured Instruments, the Secured Instruments Valuation Agent acts solely as an agent of the Issuer, and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Holders. In relation to each issue of Secured Instruments, the Collateral Agent acts solely as an agent of the Secured Instruments Collateral Provider, and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Holders or the Issuer.

The Secured Instruments Collateral Provider acts as an arms-length third party and does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Holders. For the avoidance of doubt, the Custodian does not assume any obligation or duty to, or any relationship of agency or trust for or with, the Holders, the Issuer or the Security Agent.

In acting in connection with any Series of Secured Instruments, the Security Agent does not act as an advisor to or fiduciary or trustee for the Holders or any other party and nothing in any of the documents relating to the Programme shall be interpreted to constitute the Security Agent as a trustee or fiduciary of the Issuer, the Secured Instruments Collateral Provider, the Holders or any other party and will not assume any obligation or duty to, or any relationship of agency or trust for or with, any of the Holders of such Secured Instruments.

All calculations and determinations made in respect of the Secured Instruments by the Secured Instruments Collateral Provider, Collateral Agent and Secured Instruments Valuation Agent shall (save in the case of manifest error) be final, conclusive and binding on the Issuer, the Holders and the Security Agent (as applicable).

Each of the Secured Instruments Collateral Provider and Secured Instruments Valuation Agent may, with the consent of the Issuer, delegate any of their obligations and functions to a third party as provided for in the Secured Instruments Collateral Provider Agreement, Valuation Agency Agreement and each Triparty Account Control Agreement, as applicable. The Collateral Agent may delegate any of its obligations and functions to a third party as provided for in the relevant Triparty Account Control Agreement.

In acting in connection with any Series of Secured Instruments, the relevant Instrument Agent shall act solely as an agent of the Issuer and will not assume any obligations towards or relationship of agency or trust for or with any of the Holders of such Secured Instruments.

6. Default, Enforcement and Realisation

6.1 Acceleration and Enforcement of Collateral

If the Security Agent receives an Acceleration Instruction, the Security Agent shall (acting in accordance with such Acceleration Instruction), as soon as reasonably practicable:

- (i) deliver a Collateral Enforcement Notice (in or substantially in the form annexed to the relevant Deed of Charge) in respect of such Series of Secured Instruments to each of the Issuer, the Secured Instruments Collateral Provider and the relevant Instrument Agent;
- (ii) deliver a Notice of Exclusive Control (in or substantially in the form annexed to the relevant Triparty Account Control Agreement) in respect of the Collateral Account of such Series of Secured Instruments to the Collateral Agent;
- (iii) give notice to the relevant Instrument Agent of the occurrence of an Acceleration Event and the delivery of such Collateral Enforcement Notice and Notice of Exclusive Control and the relevant Instrument Agent will give notice of the same in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*) to all relevant Holders; and
- (iv) appoint a Disposal Agent, if a Disposal Agent has not already been appointed, and provide instructions to the Disposal Agent in accordance with the Secured Fully Floating Instruments Conditions.

Upon delivery of the Collateral Enforcement Notice, all Secured W&C Instruments in respect of which the Collateral Enforcement Notice is served will become immediately due and repayable at their Early Redemption/Settlement Amount and, where "Physical Delivery of Collateral Assets" is specified to be applicable in the applicable Final Terms, such Secured W&C Instruments will also be subject to settlement in accordance with Secured Fully Floating Instruments Condition 6.8.

As soon as reasonably practicable following the delivery of a Collateral Enforcement Notice, the Issuer shall, and shall procure that its Affiliates that hold Waived Instruments, of the Series of Secured Instruments in respect of which the Collateral Enforcement Notice is served, submit such Waived Instruments for cancellation free of payment and, following such cancellation, the Secured Instruments Valuation Agent shall notify the Security Agent of the principal amount or number, as applicable, of outstanding Non-Waived Instruments of such Series.

6.2 Enforcement and Realisation

Following delivery of a Collateral Enforcement Notice in respect of the relevant Series of Secured Instruments, the Security Agent (acting in accordance with an Acceleration Instruction) shall enforce the security constituted by the relevant Deed of Charge relating to the relevant Collateral Pool in accordance with the terms thereof, these Secured Fully Floating Instruments Conditions (as completed by the applicable Final Terms) and the terms of the Security Agency Agreement and will give instructions to the Disposal Agent to:

- (a) where "Physical Delivery of Collateral Assets" is specified not to apply in the applicable Final Terms, effect a liquidation and realisation in accordance with Secured Fully Floating Instruments Condition 6.6 of all the Collateral Assets in the Collateral Pool which secures such Series of Secured W&C Instruments and subsequently distribute the relevant Collateral Enforcement Proceeds Share to the relevant Holders in accordance with Secured Fully Floating Instruments Condition 6.5; or
- (b) where "Physical Delivery of Collateral Assets" is specified to be applicable in the applicable Final Terms, arrange for delivery of the relevant Entitlement to the relevant Holders in accordance with Secured Fully Floating Instruments Condition 6.8.

6.3 **Liability of the Security Agent**

The Security Agency Agreement contains provisions setting out the standards of liability of the Security Agent including providing that:

- (a) in the event that any Secured Party directs the Security Agent to effect the liquidation and realisation of the Collateral Assets in the Collateral Pool which secures the relevant Series of Secured Instruments in a manner that is in accordance with the exact provisions of the Acceleration Instruction, the Security Agent shall not be under any obligation to take any further action (without prejudice to its ability to instruct the Disposal Agent to liquidate and realise the Collateral Assets for the purpose of funding the Security Agent Amounts) if it reasonably believes that (i) it would not be able to recover the Security Agent Amounts that would be incurred in connection with such action from the relevant Collateral Assets or otherwise and/or (ii) it would experience an unreasonable delay in doing so; and
- (b) in the event that any Secured Party directs the Security Agent to effect the liquidation and realisation of the Collateral Assets in the Collateral Pool which secures the relevant Series of Secured Instruments in a manner other than in accordance with the exact provisions of the Acceleration Instruction, the Security Agent shall not be under any obligation to take any action unless it has first been indemnified and/or secured and/or pre-funded to its satisfaction

and in, each case, the Security Agent shall have no liability for any such failure to act.

The Security Agent will not, in the absence of its own gross negligence, fraud or wilful misconduct, have any liability in connection with its role under or for the purposes of these Secured Fully Floating Instruments Conditions and it will have no regard to the effect of such action on individual Holders. In no event shall the Security Agent be liable for any special, indirect or consequential loss or any punitive damages including (without limitation) any lost profits.

For the avoidance of doubt, the Security Agent shall be entitled to rely without enquiry on an Acceleration Instruction delivered by the Instrument Agent and on any notice of revocation of such Acceleration Instruction pursuant to Condition 4.8.2 and shall have no obligation to monitor or verify whether the relevant threshold has been met or to monitor or verify whether any Holder that has delivered an Acceleration Notice holds Waived Instruments or Non-Waived Instruments.

6.4 **Enforcement and realisation by Holders**

No Holder shall be entitled to enforce a Deed of Charge or to proceed directly against the Secured Instruments Collateral Provider to enforce the other provisions of a Charged Document unless the Security Agent, having become bound to so enforce or proceed, fails so to do within a reasonable time and such failure is continuing or the Security Agent is prevented from enforcing a Deed of Charge by any court order. If a Holder becomes so entitled, then such Holder shall not be entitled to enforce the relevant Deed of Charge or Charged Document in the United Kingdom.

If the Security Agent becomes bound to enforce a Deed of Charge or a Charged Document and fails to do so within a reasonable time and such failure is continuing or the Security Agent is prevented from enforcing a Deed of Charge by any court order, then, without prejudice to the paragraph above, Holder(s) of at least 33 per cent. (in respect of Secured Instruments that are Secured Notes) in aggregate principal amount or (in respect of Secured Instruments that are Secured W&C Instruments) in aggregate Notional Amount or by number (as applicable) of such Non-Waived Instruments outstanding may remove the Security Agent and appoint a replacement Security Agent in accordance with Secured Fully Floating Instruments Condition 3.7 and the terms of the Security Agency Agreement.

Neither the Issuer nor any Holder shall be entitled to enforce a Triparty Account Control Agreement or the Custodian Agreement or to proceed directly against the Collateral Agent or

the Custodian to enforce the terms of the relevant Triparty Account Control Agreement or the Custodian Agreement (as applicable). Neither the Collateral Agent nor the Custodian shall have any liability to the Issuer or any Holder as to the consequence of any actions taken by the Collateral Agent or Custodian (as applicable).

6.5 Application and distribution of proceeds of enforcement

6.5.1 In connection with the enforcement of the security constituted by the relevant Deed of Charge, after the realisation and liquidation of the relevant Collateral Assets in accordance with Secured Fully Floating Instruments Condition 6.6, the Security Agent (acting in accordance with an Acceleration Instruction) shall instruct the Disposal Agent to use the proceeds of such realisation and liquidation of the Collateral Assets to make payment of any amounts payable to the Secured Parties ranking prior to the Holders of Non-Waived Instruments in accordance with the Order of Priority specified in the applicable Final Terms and to notify the Secured Instruments Valuation Agent of the Collateral Enforcement Proceeds. Following such payment the Secured Instruments Valuation Agent shall determine the Collateral Enforcement Proceeds Share (if any) in respect of each Non-Waived Instrument and shall notify such amount to the Security Agent, the Disposal Agent and to the Holders in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*).

6.5.2 Subject as provided below, the Security Agent (acting in accordance with an Acceleration Instruction) or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall apply the remaining proceeds from the realisation of the relevant Collateral Assets in a Collateral Pool in meeting the claims of Holders in respect of the Early Redemption/Settlement Amount payable under each Non-Waived Instrument which is secured by the relevant Collateral Pool *pro rata* to the Collateral Enforcement Proceeds Share of each such Non-Waived Instrument.

6.5.3 If the Collateral Enforcement Proceeds Share for a particular Non-Waived Instrument is greater than the Early Redemption/Settlement Amount of such Non-Waived Instrument, then:

(a) where "NV Collateralisation" or "Max (NV, MV) Collateralisation" is specified to be applicable in the applicable Final Terms, such Holder shall be entitled to receive from the Collateral Enforcement Proceeds Share up to the greater of:

- (i) the product of (A) the Collateralisation Percentage, multiplied by (B) (I) in respect of Secured Instruments that are Secured Notes, the principal amount of such Non-Waived Instrument or (II) in respect of Secured Instruments that are Secured W&C Instruments, the Notional Amount of such Non-Waived Instrument; and
- (ii) the Early Redemption/Settlement Amount,

(the greater of the amounts in sub-paragraphs (i) and (ii) shall be the "**NV Collateralisation Enforcement Proceeds Cap**"). Any excess amount of the Collateral Enforcement Proceeds Share over the NV Collateralisation Enforcement Proceeds Cap will be distributed to the Secured Parties ranking after the Holders of Non-Waived Secured Instruments in accordance with the Order of Priority specified in the applicable Final Terms; or

(b) where "MV Collateralisation" or "Min (NV, MV) Collateralisation" is specified to be applicable in the applicable Final Terms, the Holder is only entitled to receive from the Collateral Enforcement Proceeds Share an amount equal to the Early Redemption/Settlement Amount. Any excess amount of the Collateral Enforcement Proceeds Share over the Early Redemption/Settlement Amount will not be distributed to such Holder but will be distributed to the Secured Parties ranking after the Holders of Non-Waived Instruments in accordance with the Order of Priority specified in the applicable Final Terms.

6.5.4 Where the Collateral Enforcement Proceeds Share for a particular Secured Instrument is less than the Early Redemption/Settlement Amount (such amount being a "Collateral Enforcement

Loss Amount"), such Holder will not be entitled to any further recourse against the Issuer or the Secured Instruments Collateral Provider for such Collateral Enforcement Loss Amount.

- 6.5.5 The Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall determine the date for distribution of the remaining proceeds to Holders in accordance with Secured Fully Floating Instruments Condition 6.5.2 and shall notify such date to the relevant Instrument Agent and the relevant Instrument Agent shall notify Holders in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*).
- 6.5.6 Moneys held by the Security Agent shall be deposited in its name in an account at such bank or other financial institution as the Security Agent may, acting in good faith and in a commercially reasonable manner, think fit. Any interest paid by such bank or financial institution on such moneys shall be deemed to be Collateral Assets.
- 6.5.7 To the extent that any proceeds from the liquidation or realisation of the relevant Collateral Assets in a Collateral Pool are not in the Settlement Currency, then such proceeds shall be converted at such rate or rates, in accordance with such method and as at such date as may reasonably be specified by the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent), having regard to then-current rates of exchange. Any rate, method and date so specified shall be binding on the Issuer, the Secured Instruments Collateral Provider and the Holders.

6.6 Method of realisation of Collateral Assets

Subject as may otherwise be provided for in these Secured Fully Floating Instruments Conditions, in effecting the sales, the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) may sell the relevant Collateral Assets in one single tranche or in smaller tranches as it considers appropriate in order to attempt reasonably to maximise the proceeds from such sale. The Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) may effect sales of the Collateral Assets (a) on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted, (b) in the over-the-counter market or (c) in transactions otherwise than on such exchanges or in the over-the counter market.

Where the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) disposes of any Collateral Assets other than on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted then:

- (a) the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall seek firm bid quotations from at least three independent dealers in assets similar in nature to the relevant Collateral Assets (and, for such purpose, it may seek quotations in respect of such Collateral Assets in their entirety or in respect of a designated part or proportion thereof, as it considers appropriate in order to maximise the proceeds of the sale of such Collateral Assets);
- (b) for the purposes of obtaining the quotations referred to in (a) above, the Security Agent or the Disposal Agent may itself provide a bid in respect of the relevant Collateral Assets or any part or proportion thereof; and
- (c) the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall be authorised to accept without liability to any party in respect of each relevant part or proportion of the Collateral Assets or, as applicable, the entirety of the relevant Collateral Assets the highest quotation so obtained (which may be a quotation from the Security Agent or the Disposal Agent (when providing such quotations itself, the Security Agent or the Disposal Agent shall act in a commercially reasonable manner)).

Notwithstanding any other provision of these Secured Fully Floating Instruments Conditions, following receipt by the Security Agent of notice of an Acceleration Event, the Security Agent shall be entitled in its sole discretion to instruct the Disposal Agent to liquidate, dispose or

realise any of the Collateral Assets at any time and without regard to any of the provisions of the Secured Fully Floating Instruments Conditions with respect to method, price or time of such realisation, in order to satisfy any Security Agent Amounts, and without liability to any party for any such action.

6.7 Inability to realise Collateral Assets

If the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) is unable to sell the relevant Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of one or more Collateral Assets, in each case pursuant to Secured Fully Floating Instruments Condition 6.6, for a period of one year from the date of the relevant Acceleration Instruction (such Collateral Assets being "**Non-Realised Collateral Assets**"), then notwithstanding any other provision hereof, the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall be entitled without liability to any party to sell such Non-Realised Collateral Assets by accepting the first available price for such Non-Realised Collateral Assets.

6.8 Physical Delivery of Collateral Assets

6.8.1 Where "Physical Delivery of Collateral Assets" is specified to be applicable in the applicable Final Terms, following enforcement of a Deed of Charge, the Security Agent (acting in accordance with an Acceleration Instruction) or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall:

- (a) firstly, apply any Cash held in the Collateral Account in payment of any amounts payable to the Secured Parties ranking prior to the Holders of Non-Waived Instruments in accordance with the Order of Priority specified in the applicable Final Terms; and
- (b) secondly, to the extent that any Cash held in the Collateral Account is insufficient to make payment of any amounts payable to the Secured Parties ranking prior to the Holders of Non-Waived Instruments in accordance with the Order of Priority specified in the applicable Final Terms, liquidate or realise in accordance with Secured Fully Floating Instruments Condition 6.6 an amount of Collateral Assets sufficient to make the payment of the remainder of such amounts in accordance with the Order of Priority specified in the applicable Final Terms,

the aggregate amount of Collateral Assets remaining in the relevant Collateral Account following such distribution of Cash and liquidation or realisation in accordance with this Secured Fully Floating Instruments Condition 6.8.1, the "Remaining Collateral Assets". The Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall notify the Secured Instruments Valuation Agent of the Collateral Assets comprising the Remaining Collateral Assets.

6.8.2 The Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) will notify the relevant Instrument Agent and the relevant Instrument Agent will notify Holders of the relevant Collateral Delivery Date in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments, W&C Instruments Conditions 12 (*Notices*) and:

- (a) the Secured Instruments Valuation Agent shall aggregate the Unrounded Collateral Assets Entitlement (excluding any Cash) in respect of all Non-Waived Instruments of such Series held by each such Holder and will round down such aggregated Unrounded Collateral Assets Entitlement to the nearest tradable unit of each type of Collateral Asset (the "**Entitlement**" in respect of such Holder);
- (b) the Secured Instruments Valuation Agent shall notify the Entitlement in respect of each Holder to the Security Agent and the Disposal Agent and to the Holders in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*);

- (c) the Security Agent (acting in accordance with an Acceleration Instruction) or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall deliver the relevant Entitlement to the Holders of the Non-Waived Instruments secured by the relevant Collateral Pool in accordance with the method of transfer of Collateral Assets specified in, with respect to Secured Notes, Physical Delivery Notes Condition 2 (*Delivery of Entitlement and Asset Transfer Notices*) or, with respect to Secured W&C Instruments, W&C Instruments Condition 25(C)(b) or 32(C)(b) (provided that no Expenses shall be payable), as applicable (and each reference therein to "Issuer" shall be deemed to be a reference to "Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent)"); and
- (d) the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall realise and liquidate in accordance with Secured W&C Instruments Condition 6.6 the number or fraction of Collateral Assets which it is not possible to deliver to a Holder following rounding by the Secured Instruments Valuation Agent in accordance with sub-paragraph (a) above as notified to the Security Agent and the Disposal Agent in accordance with sub-paragraph (b) above and shall notify the Secured Instruments Valuation Agent of the amount of the proceeds of such realisation and liquidation. The Secured Instruments Valuation Agent shall notify the Fractional Cash Amount in respect of each Holder to the Security Agent and the Disposal Agent and to the Holders in accordance with in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*). The Security Agent (acting in accordance with an Acceleration Instruction) or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall pay the relevant Fractional Cash Amount to each Holder.

Delivery of such Entitlement and payment of such Fractional Cash Amount shall fully extinguish the Issuer's obligations in respect of the relevant Secured W&C Instruments notwithstanding that the value of the Entitlement so delivered and Fractional Cash Amount so paid may be less than the market value and/or nominal value of the relevant Secured W&C Instrument.

- 6.8.3 A Holder is only entitled to receive its Entitlement (and any Fractional Cash Amount) and delivery thereof is subject to Secured Fully Floating Instruments Condition 6.9. Any remaining Collateral Assets will be liquidated by the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) and the proceeds thereof distributed to the Secured Parties ranking after Holders of Non-Waived Instruments in accordance with the Order of Priority specified in the applicable Final Terms.
- 6.8.4 Where the Entitlement for a particular Holder is less than the sum of the Early Redemption/Settlement Amounts that would be payable in respect of each Non-Waived Instrument held by such Holder if "Physical Settlement of Collateral Assets" were deemed to be not applicable (such loss amount, the "**Collateral Enforcement Loss Amount**"), such Holder shall not be entitled to any further recourse against the Issuer, the Secured Instruments Collateral Provider or any other party for such Collateral Enforcement Loss Amount.
- 6.8.5 W&C Instruments Condition 5 shall not apply in respect of Secured W&C Instruments.
- 6.8.6 Physical Delivery Notes Condition 3 (*Settlement Disruption Event*), Physical Delivery Notes Condition 4 (*Failure to Deliver due to Illiquidity*) and Physical Delivery Notes Condition 5 (*Option to Vary Settlement*) shall not apply in respect of Secured Notes.
- 6.8.7 To the extent that any Cash in a Collateral Pool is not in the Settlement Currency, such Cash shall be converted at such rate or rates, in accordance with such method and as at such date as may reasonably be specified by the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent), having regard to then-current rates of exchange. Any rate, method and date so specified shall be binding on the Issuer, the Secured Instruments Collateral Provider and the Holders.
- 6.8.8 For the purposes of these Secured Fully Floating Instruments Conditions, the following definitions will apply:

"Collateral Delivery Date" means, in relation to a Series of Secured W&C Instruments where "Physical Delivery of Collateral Assets" is applicable, the date on which the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) intends to deliver the Entitlement to Holders.

"Fractional Cash Amount" means, in respect of a Holder, an amount in the Settlement Currency determined by the Secured Instruments Valuation Agent as the sum of:

- (a) the *pro rata* share of the proceeds of such realisation and liquidation of such Holder whose Entitlement is subject to rounding (determined by the Secured Instruments Valuation Agent in respect of each Holder, on the basis of the difference between the aggregated Unrounded Collateral Assets Entitlement of such Holder minus the Entitlement of such Holder); plus
- (b) the *pro rata* share of any Cash comprised in the Remaining Collateral Assets of such Holder (determined by the Secured Instruments Valuation Agent in respect of each Holder, on the basis of the aggregated Unrounded Collateral Assets Entitlement of such Holder).

"Remaining Collateral Assets" has the meaning given in Secured Fully Floating Instruments Condition 6.8.1.

"Unrounded Collateral Assets Entitlement" means, for each Non-Waived Instrument in a Series of Secured Instruments, the lesser of:

- (a) Collateral Assets with a Market Value equal to the Market Value of the Collateral Assets comprising such Non-Waived Instrument's *pro rata* share of the Remaining Collateral Assets, in each case, as determined by the Collateral Agent in respect of the Secured Instrument Valuation Time for the Collateral Test Date immediately preceding delivery of the Collateral Enforcement Notice; and

6.9 Physical Delivery of Collateral Assets Disruption Event

6.9.1 If, in the opinion of the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent), delivery of all or some of the Collateral Assets forming part of the Entitlement using the method of delivery specified in respect of Secured Notes, in Physical Delivery Note Condition 2 (*Delivery of Entitlement and Asset Transfer Notices*) or, in

respect of Secured W&C Instruments, W&C Instruments Condition 25(C)(b) or 32(C)(b) (as applicable and as notified to the Disposal Agent by the Security Agent), or such other commercially reasonable manner as the Security Agent, or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent), has determined, is not practicable by reason of a Physical Delivery of Collateral Assets Disruption Event having occurred and continuing on any Collateral Delivery Date, then such Collateral Delivery Date shall be postponed to the first following Collateral Business Day in respect of which there is no such Physical Delivery of Collateral Assets Disruption Event, provided that the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) may elect in its sole discretion and without liability to any party to deliver the Collateral Assets forming part of the Entitlement in such other commercially reasonable manner as it may select and in such event the Collateral Delivery Date shall be such day as the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) deems appropriate in connection with delivery of the Collateral Assets forming part of the Entitlement in such other commercially reasonable manner.

Where a Physical Delivery of Collateral Assets Disruption Event affects some but not all of the Collateral Assets forming part of the Entitlement due to be delivered to a Holder, the Collateral Delivery Date for those Collateral Assets forming part of the Entitlement which are able to be delivered will be the Collateral Delivery Date on which such Collateral Assets are delivered.

- 6.9.2 If delivery of any Collateral Assets forming part of the Entitlement is not possible due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event for a period of greater than 20 Collateral Business Days, then in lieu of physical settlement and notwithstanding any other provision hereof, the Security Agent (acting in accordance with an Acceleration Instruction) or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall sell or realise the Undeliverable Collateral Assets in the manner set out in Secured Fully Floating Instruments Condition 6.6 and deliver the proceeds thereof to Holders.
- 6.9.3 If the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) is unable to either sell the Collateral Assets on any securities exchange or quotation service on which the Collateral Assets may be listed or quoted or obtain the three quotations required for the sale of the Collateral Assets, in each case pursuant to Secured Fully Floating Instruments Condition 6.6, the Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent) shall be entitled, without the Security Agent or the Disposal Agent incurring any liability to any party, to accept the first available price for such Collateral Assets.

The Security Agent or the Disposal Agent (acting on behalf of and at the instruction of the Security Agent), shall give notice as soon as practicable to the relevant Instrument Agent and the relevant Instrument Agent will give notice as soon as practicable to Holders in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments, W&C Instruments Condition 12 (*Notices*) that a Physical Delivery of Collateral Assets Disruption Event has occurred. No Holder shall be entitled to any payment in respect of the relevant Non-Waived Instruments in the event of any delay in the delivery of the Collateral Assets forming part of the Entitlement due to the occurrence of a Physical Delivery of Collateral Assets Disruption Event and no liability in respect thereof shall attach to the Issuer, the Secured Instruments Collateral Provider, the Security Agent or the Disposal Agent.

- 6.9.4 This Condition 6.9 shall not apply to Secured Instruments which are Rule 144A Instruments.

6.10 **Replacement Secured Instruments Valuation Agent**

If, following the delivery of a Collateral Enforcement Notice, the Secured Instruments Valuation Agent fails to make the applicable calculations and determinations specified in this Secured Fully Floating Instruments Condition 6, or fails to notify the Security Agent or the Disposal Agent of the results of such calculations and determinations, within a reasonable time and in any event within 20 Collateral Business Days of receipt of a written request from the Security Agent and/or Disposal Agent (acting on behalf of and at the instruction of the Security Agent) that it make such calculations and determinations, then the Security Agent shall as soon as reasonably practicable appoint a replacement Secured Instruments Valuation Agent (a

"**Replacement Secured Instruments Valuation Agent**") in accordance with Secured Fully Floating Instruments Condition 3.7.

7. Segregation of Collateral Pools and Limited Recourse and Non-Petition

By acquiring and holding Secured Instruments, Holders will be deemed to acknowledge and agree that the obligations of the Issuer to the Holders are limited in recourse to the Collateral Assets contained in the relevant Collateral Pool securing such Series of Secured Instruments. If:

then the Holders of such Secured Instruments shall have no further claim against the Issuer or the Secured Instruments Collateral Provider in respect of any amounts owing to them which remain unpaid (including, for the avoidance of doubt, payments of principal, premium (if any) and/or interest in respect of the Secured Instruments). In particular, no Holder shall be entitled to have recourse to the Collateral Assets contained in a Collateral Pool other than the Collateral Pool which secures the Secured Instruments held by such Holder. The Secured Instruments are not guaranteed by the Guarantor or any other entity and therefore Holders will have no claim against the Guarantor or any other entity in respect of any such amounts owing to them which remain unpaid.

or
- (b) in respect of Secured W&C Instruments, cancel all but not some only of the Secured W&C Instruments of such Series by giving notice to Holders in accordance with W&C Instruments Condition 12 (*Notices*).

If the Issuer cancels the Secured Instruments due to the occurrence of a MTM Trigger Event, then the Issuer shall pay an amount in the Settlement Currency equal to the Early

Redemption/Settlement Amount to each Holder in respect of each Non-Waived Instrument held by such Holder.

Payment will be made in such manner and on such date as shall be notified by the Issuer to the Holders in accordance with, in respect of Secured Notes, Notes Condition 14 (*Notices*) and, in respect of Secured W&C Instruments W&C Instruments Condition 12 (*Notices*), provided that such date shall be no later than two Business Days following the date of such notice.

(c) *EURIBOR*

If the applicable Final Terms specify (a) "EURIBOR" to be the Reference Rate or (b) otherwise specify that the principal, interest and/or any other amount payable or any determination required to be made with respect to the applicable Series of Notes is to be determined by reference to "EURIBOR", "**EURIBOR**" shall mean, for any Interest Determination Date, Calculation Day or any other day on which EURIBOR is to be observed or determined in accordance with the terms and provisions set forth in the applicable Final Terms (each such day, a "**EURIBOR Observation Day**"), the rate for deposits in euro as sponsored, calculated, and published by EMMI, having the Specified Maturity specified in the applicable Final Terms, as that rate appears on the Designated EURIBOR Page, as of 11:00 a.m., Brussels time on such EURIBOR Observation Day. The Calculation Agent shall notify the Issuer immediately if such rate is not available as at such specified time.

The following procedures will be followed if EURIBOR cannot be determined as described above:

- (1) If no offered rate appears on the Designated EURIBOR Page on a EURIBOR Observation Day at approximately 11:00 a.m., Brussels time, then the Issuer or its designee will request four major banks in the Eurozone interbank market selected and identified by the Calculation Agent, the Issuer or the Issuer's designee to provide a quotation of the rate at which deposits in euro having the Specified Maturity specified in the applicable Final Terms or Pricing Supplement are offered to prime banks in the Eurozone interbank market, and in a principal amount not less than the equivalent of €1,000,000, that is representative of a single transaction in euro in that market at that time. If at least two quotations are provided, EURIBOR will be the average of those quotations.
- (2) If fewer than two quotations are provided, then the Calculation Agent, the Issuer or the Issuer's designee will request four major banks in the Eurozone interbank market selected and identified by the Issuer to provide a quotation of the rate offered by them, at approximately 11:00 a.m., Brussels time, on the EURIBOR Observation Day, for loans in euro to prime banks in the Eurozone interbank market for a period of time equivalent to the Specified Maturity commencing on the second T2 Settlement Date following such EURIBOR Observation Day and in a principal amount not less than the equivalent of €1,000,000, that is representative of a single transaction in euro in that market

- (3) If three quotations are not provided, EURIBOR for that EURIBOR Observation Day will be equal to the most recent rate that could have been determined in accordance with the first sentence of this Additional Note Condition 2(c).

Notwithstanding the foregoing, if the Issuer or its designee (after consulting with the Issuer) determines prior to the Relevant Time on an applicable EURIBOR Observation Day that a General Benchmark Transition Event and related General Benchmark Replacement Date have occurred with respect to EURIBOR for the applicable Specified Maturity, then the provisions set forth in Additional Note Condition 4(a) (*Benchmark Replacement – General*) will apply to all determinations of the Rate of Interest payable on the applicable Series of Notes.

In accordance with Additional Note Condition 4(a) (*Benchmark Replacement – General*), if the Issuer or its designee (after consulting with the Issuer) has determined that a General Benchmark Transition Event and related General Benchmark Replacement Date have so occurred, the General Benchmark Replacement will replace EURIBOR for the applicable Specified Maturity for all purposes relating to the applicable Series of Notes in respect of such determination on the applicable date and all determinations on all subsequent dates.

If such rate does not appear on the Bloomberg Screen KSDA1 Page by 4:30 p.m. Seoul time (the "**Relevant Time**") on that KRW CD 91 Rate Observation Day, the rate for that KRW CD 91 Observation Day will be the final quotation yield for 91 day certificates of deposit published by KOFIA which appears on Check Screen Page 3220 under the caption "TODAY 16:00" as of 4:30 p.m. Seoul time on that KRW CD 91 Rate Observation Day. Notwithstanding the foregoing, if the Issuer or its designee (after consulting with the Issuer) determines prior to the Relevant Time on an applicable KRW CD 91 Observation Day that a General Benchmark Transition Event and related General Benchmark Replacement Date have occurred with respect to the KRW CD 91 Rate, then the provisions set forth in Additional Note Condition 4(a) (*Benchmark Replacement – General*) will apply to all determinations of the Rate of Interest payable on the applicable Series of Notes.

In accordance with Additional Note Condition 4(a) (*Benchmark Replacement – General*), if the Issuer or its designee (after consulting with the Issuer) has determined that a General Benchmark Transition Event and related General Benchmark Replacement Date have so occurred, the General Benchmark Replacement will replace the KRW CD 91 Rate for all purposes relating to the applicable Series of Notes in respect of such determination on the applicable date and all determinations on all subsequent dates.

As used in the foregoing terms and provisions relating to the determination of the KRW CD 91 Rate:

If the applicable Final Terms specifies a Relevant Screen Page, then the rate described in the preceding sentence, as such rate appears on the Relevant Screen Page and the Relevant Time, will be used. However, if such rate as described in the preceding sentences is subsequently corrected and provided by the TORF Administrator to, and published by, authorised distributors of TORF within the longer of one hour of the time when such rate is first published by authorised distributors of TORF and the republication cut-off time for TORF, if any, as specified by the TORF Administrator in the TORF benchmark methodology, then such rate will be subject to those corrections. If **"TORF"** cannot be determined as described above on any TORF Observation Day, then the Issuer or its designee (which may be the Calculation Agent) (after consulting with the Issuer) shall determine **"TORF"** for the Specified Maturity for the applicable TORF Observation Day in its sole discretion after consulting such sources as the Issuer or its designee (after consulting with the Issuer) deems comparable to the sources (if any) on which such rate customarily is published by the TORF Administrator or authorised distributors or to the sources from which the TORF Administrator obtains the rate input data used by such TORF Administrator to calculate or publish such rate or rate information, or any other source or data the Issuer or its designee (after consulting with the Issuer) determines to be reasonable (including, if applicable, the applicable TORF

rate for the Specified Maturity that was most recently published by the administrator of such rate) for the purpose of estimating such rate.

Notwithstanding the foregoing, if the Issuer or its designee (after consulting with the Issuer) determines prior to the Relevant Time on an applicable TORF Observation Day that a General Benchmark Transition Event and related General Benchmark Replacement Date have occurred with respect to TORF for the Specified Maturity, then the provisions set forth in Additional Note Condition 4(a) (*Benchmark Replacement – General*) will apply to all determinations of the Rate of Interest payable on the applicable Series of Notes.

In accordance with Additional Note Condition 4(a) (*Benchmark Replacement – General*), if the Issuer or its designee (after consulting with the Issuer) has determined that a General Benchmark Transition Event and related General Benchmark Replacement Date have so occurred, the General Benchmark Replacement will replace TORF for all purposes relating to the applicable Series of Notes in respect of such determination on the applicable date and all determinations on all subsequent dates.

(h) *U.S. Dollar SOFR ICE Swap Rate*[®]

If the applicable Final Terms specify (a) "**U.S. Dollar SOFR ICE Swap Rate**[®]" to be the Reference Rate or (b) otherwise specify that the principal, interest and/or any other amount payable or any determination required to be made with respect to the applicable Series of Notes is to be determined by reference to "**U.S. Dollar SOFR ICE Swap Rate**[®]", then "**U.S. Dollar SOFR ICE Swap Rate**[®]" shall mean, for any Interest Determination Date, Calculation Day or any other day on which the U.S. Dollar SOFR ICE Swap Rate[®] is to be observed or determined in accordance with the terms and provisions set forth in the applicable Final Terms (each such day, a "**USD Swap Rate Observation Day**"), the U.S. Dollar SOFR ICE Swap Rate[®] for the Specified Maturity specified in the applicable Final Terms, as calculated and provided as of approximately 11:00 a.m., New York City time (or any amended time specified by the administrator of the U.S. dollar SOFR ICE Swap Rate[®] in the benchmark methodology) on such USD Swap Rate Observation Day, by IBA as the administrator of the benchmark (or a successor administrator), as such rate appears on the Relevant Screen Page at approximately 12:15 p.m., New York City time, or such other Relevant Time as may be specified in the applicable Final Terms, on such USD Swap Rate Observation Day, as determined by the Calculation Agent.

If the U.S. dollar SOFR ICE Swap Rate[®] for the Specified Maturity in respect of any Interest Period cannot be determined in accordance with the foregoing on an applicable USD Swap Rate Observation Day, and a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have not occurred with respect to such rate, then the Issuer or its designee (which may be the Calculation Agent) (after consulting with the Issuer) shall determine the U.S. dollar SOFR ICE Swap Rate[®] for such Specified Maturity for such USD Swap Rate Observation Day in its sole discretion after consulting such sources as the Issuer or its designee (after consulting with the Issuer) deems comparable to the sources (if any) on which such rate customarily is published by the IBA (or a successor administrator) or authorised distributors or to the sources from which IBA (or such successor administrator) obtains the swap rate input data used by IBA (or such successor administrator), to calculate such rate, or any other source or data the Issuer or its designee (after consulting with the Issuer) determines to be reasonable (including, if applicable, the U.S. dollar SOFR ICE Swap Rate[®] for the Specified Maturity that was most recently published by IBA (or such successor administrator)) for the purpose of estimating such rate.

Notwithstanding the foregoing, if the Issuer or its designee (after consulting with the Issuer) determines prior to the Relevant Time on an applicable USD Swap Rate Observation Day that a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have occurred with respect to the U.S. dollar SOFR ICE Swap Rate[®] for the Specified Maturity, then the provisions set forth in Additional Note Condition 4(b) (Benchmark Replacement – Constant Maturity Swap) will apply to the applicable Series of Notes including all determinations of the Rate of Interest payable thereon. In accordance with Additional Note Condition 4(b) (Benchmark Replacement – Constant Maturity Swap), if the Issuer or its designee (after consulting with the Issuer) has determined that a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have so occurred, the Constant Maturity Swap Benchmark Replacement will replace the U.S. Dollar SOFR ICE Swap Rate[®] for all purposes relating to the applicable Series of Notes in respect of such determination on the applicable date and all determinations on all subsequent dates.

Certain other capitalised terms used in the foregoing terms and provisions relating to determination of Constant Maturity Swap have the meanings set forth under Additional Note Condition 4(b) (Benchmark Replacement – Constant Maturity Swap).

(i) *Tokyo Swap Rate (for swaps referencing TONA) or "TONA TSR"*

If the applicable Final Terms specify (a) "TONA TSR" to be the Reference Rate or (b) otherwise specify that the principal, interest and/or any other amount payable or any determination required to be made with respect to the applicable Series of Notes is to be determined by reference to "TONA TSR", then "TONA TSR" shall mean, for any Interest Determination Date, Calculation Day or any other day on which TONA TSR is to be observed or determined in accordance with the terms and provisions set forth in the applicable Final Terms (each such day, an "JPY Swap Rate Observation Day"), the 10:00 am Tokyo time (or such other time as specified in the applicable Final Terms) Tokyo Swap Rate (for swaps referencing TONA) for the Specified Maturity, published at or around 10:30 am Tokyo time, or such other Relevant Time as may be specified in the applicable Final Terms, as provided by Refinitiv Benchmark Services (UK) Limited ("RBSL") as the administrator of such rate (or a successor administrator) on such JPY Swap Rate Observation Day, as determined by the Calculation Agent. If that rate is subsequently corrected and published by the administrator or authorised distributors of such rate within the longer of (i) one hour of the time when such rate is first published by the administrator or authorised distributors of such rate and (ii) the time on such JPY Swap Rate Observation Day by which such rate is to be re-published following any corrections thereto, if any, as specified by the administrator in the benchmark methodology for such rate, then that rate will be subject to those corrections.

If TONA TSR for the Specified Maturity cannot be determined in accordance with the foregoing on an applicable JPY Swap Rate Observation Day, and a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have not occurred with respect to such rate, then the Issuer or its designee (which may be the Calculation Agent) (after consulting with the Issuer) shall determine TONA TSR for such Specified Maturity for such JPY Swap Rate Observation Day in its sole discretion after consulting such sources as the Issuer or its designee (after consulting with the Issuer) deems comparable to the sources (if any) on which such rate customarily is published by the RBSL (or a successor administrator) or authorised distributors or to the sources from which RBSL (or such successor administrator) obtains the swap rate input data used by RBSL (or such successor administrator), to calculate such rate, or any other source or data the Issuer or its designee (after consulting with the Issuer) determines to be reasonable (including, if applicable, TONA TSR for the Specified Maturity that was most recently published by RBSL (or such successor administrator)) for the purpose of estimating such rate.

Notwithstanding the foregoing, if the Issuer or its designee (after consulting with the Issuer) determines prior to the Relevant Time on an applicable JPY Swap Rate Observation Day that a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have occurred with respect to TONA TSR for the Specified Maturity, then the provisions set forth in Additional Note Condition 4(b) (Benchmark Replacement – Constant Maturity Swap) will apply to the applicable Series of Notes including all determinations of the Rate of Interest payable thereon. In accordance with Additional Note Condition 4(b) (Benchmark Replacement – Constant Maturity Swap), if the Issuer or its designee (after consulting with the Issuer) has determined that a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have so occurred, the Constant Maturity Swap Benchmark Replacement will replace TONA TSR for all purposes relating to the applicable Series of Notes in respect of such determination on the applicable date and all determinations on all subsequent dates.

Certain other capitalised terms used in the foregoing terms and provisions relating to determination of Constant Maturity Swap have the meanings set forth under Additional Note Condition 4(b) (Benchmark Replacement – Constant Maturity Swap).

If the applicable Final Terms specify (a) "**KRW CMS Rate**" to be the Reference Rate or (b) otherwise specify that the principal, interest and/or any other amount payable or any determination required to be made with respect to the applicable Series of Notes is to be determined by reference to "**KRW CMS Rate**", then "**KRW CMS Rate**" shall mean, for any Interest Determination Date, Calculation Day or any other day on which the KRW CMS Rate® is to be observed or determined in accordance with the terms and provisions set forth in the applicable Final Terms (each such day, an "**KRW CMS Rate Observation Day**"), mid-market rate for a Korean won deliverable interest rate swap with a term of the Specified Maturity (quoted on an Actual/365 (Fixed) day count basis) where the floating leg is based on the 91-day Korean won CD rate, equal to the arithmetic mean of the bid and ask rates, as provided by Tullett Prebon Information (or a successor information provider), which appear on the Bloomberg Page "GDCO 4572 33" against the row corresponding to the Specified Maturity (or its successor or replacement page to the applicable page), or on such other Relevant Screen Page as may be specified in the applicable Final Terms), at or around, at or around 4:00 p.m. Seoul time, or such other Relevant Time as may be specified in the applicable Final Terms, on such KRW CMS Rate Observation Day, as determined by the Calculation Agent.

If the KRW CMS rate for the Specified Maturity in respect of any KRW CMS Rate Observation Day cannot be determined in accordance with the foregoing on an applicable KRW CMS Rate Observation Day, and a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have not occurred with respect to such rate (or the bid and ask rates from which such rate is calculated), then the Issuer or its designee (which may be the Calculation Agent) (after consulting with the Issuer) shall determine the KRW CMS Rate for such Specified Maturity for such KRW CMS Rate Observation Day in its sole discretion after consulting such sources as the Issuer or its designee (after consulting with the Issuer) deems comparable to the sources (if any) on which such rate customarily is published by Tullett Prebon Information (or any successor information provider that provides the bid and ask priced from which the KRW CMS Rate is to be calculated), or authorised distributors, or to the sources from which Tullett Prebon Information (or any such successor information provider) obtains the swap rate input data used by Tullett Prebon Information (or any such successor information provider) to calculate or publish such rate or rate information, or any other source or data the Issuer or its designee (after consulting with the Issuer) determines to be reasonable (including, if applicable, the applicable KRW CMS Rate for the Specified Maturity that was most recently published by the administrator of such rate (or able to be calculated by the Calculation Agent based on the published bid and ask prices underlying such rate)) for the purpose of estimating such rate.

Notwithstanding the foregoing, if the Issuer or its designee (after consulting with the Issuer) determines prior to the Relevant Time on an applicable KRW CMS Rate Observation Day that a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have occurred with respect to the to the KRW CMS Rate for the Specified Maturity (or the bid and ask rates from which such rate is calculated), then the provisions set forth in Additional Note Condition 4(b) (Benchmark Replacement – Constant Maturity Swap) will apply to the applicable Series of Notes including all determinations of the Rate of Interest payable thereon. In accordance with Additional Note Condition 4(b) (Benchmark Replacement – Constant Maturity Swap), if the Issuer or its designee (after consulting with the Issuer) has determined that a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have so occurred, the Constant Maturity Swap Benchmark Replacement will replace the KRW CMS Rate for all purposes relating to the applicable Series of Notes in respect of such determination on the applicable date and all determinations on all subsequent dates.

Certain other capitalised terms used in the foregoing terms and provisions relating to determination of the KRW CMS Rate have the meanings set forth under Additional Note Condition 4(b) (Benchmark Replacement – Constant Maturity Swap).

(D) *Rate Cut-Off Determination Convention*

Where "Rate Cut-Off" is specified in the applicable Final Terms as the Determination Convention for the Compounded Daily Reference Rate, the "Compounded Daily Reference Rate" with respect to an Interest Period will be calculated by reference to the Applicable RFR in accordance with the formula set forth below, calculated by the Calculation Agent as soon as reasonably practicable on or after the Rate Cut-Off Date (or on such Interest Determination Date as may be specified in the applicable Final Terms) and prior to the relevant Interest Payment Date:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{R_i \times n_i}{D} \right) - 1 \right] \times \frac{D}{d}$$

(iii) *Index Determination*

Where Compounded Daily is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined and the Determination Convention specified in the applicable Final Terms is Index Determination, Original Note Condition 5(C)(b)(ii) and this Additional Note Condition 3(b)(ii), together with the relevant definitions set forth in Additional Note Condition (iii), shall apply to the applicable Series of Notes and the "Compounded Daily Reference Rate" with respect to an applicable Interest Period will be the rate calculated in accordance with the formula set forth below, calculated by the Calculation Agent as soon as reasonably practicable on or after the last day of the applicable Observation Period (or on such Interest Determination Date as may be specified in the applicable Final Terms) and prior to the relevant Interest Payment Date:

$$\left(\frac{\text{Compounded Index}_{\text{End}}}{\text{Compounded Index}_{\text{Start}}} - 1 \right) \times \frac{D}{d}$$

Notwithstanding the foregoing:

- (1) If, with respect to the applicable Compounded Index for a Series of Notes, a Compounded Index_{Start} or Compounded Index_{End} is not published in accordance with the definition of such Compounded Index as set forth below, and a Benchmark Transition Event and related Benchmark Replacement Date have not occurred with respect to the Applicable RFR from which such Compounded Index is calculated, then the "Compounded Daily Reference Rate" with respect to an applicable Interest Period for such Series of Notes will be the rate calculated in accordance with Additional Note Condition 3(b)(ii)(B) ("– Observation Period Determination Convention") as if "Index Determination" were specified in the applicable Final Terms to be not applicable and "Observation Period" were specified to be applicable. For these purposes, (i) the Determination Convention will be deemed to be "Observation Period," (ii) the Applicable RFR Screen Page and Relevant Time will be as set forth in Additional Note Condition 3(a), (iii) the Interest Determination Date(s) will be as set forth in Additional Note Condition 3(b)(ii)(B); and (iv) the Observation Period Shift (p), D and d will be as set forth in the applicable Final Terms under the Index Determination provisions.
- (2) If, with respect to a Series of Notes, the Compounded Index is specified in the applicable Final Terms to be SONIA Compounded Index or TONA Compounded Index, and a General Benchmark Transition Event and its related General Benchmark Replacement Date have occurred with respect to SONIA or TONA, as applicable, then the "Compounded Daily Reference Rate" shall be the rate determined pursuant to Additional Note Condition 4(a) (Benchmark Replacement – General).
- (3) If, with respect to a Series of Notes, the Compounded Index is specified in the applicable Final Terms to be SOFR Index, and a SOFR Transition Event and its related SOFR Replacement Date have occurred with respect to SOFR, then the "Compounded Daily Reference Rate" shall be the rate determined pursuant to Additional Note Condition 4(c) (Benchmark Replacement – SOFR).

The following terms have the following respective meanings for purposes of this Additional Note Condition 3(b)(iii):

"Benchmark Replacement Date" means, (i) with respect to the SOFR Index, a SOFR Benchmark Replacement Date and (ii) with respect to the SONIA Compounded Index and the TONA Compounded Index, a General Benchmark Replacement Date.

(or successor administrator), in each case on such Banking Day.

4. **Reference Rate Discontinuance – Benchmark/Reference Rate Replacement**

(a) *Benchmark Replacement – General*

If the applicable Final Terms for a Series of Notes specifies that (i) the Reference Rate is SONIA, Compounded Daily SONIA, TONA, Compounded Daily TONA, EURIBOR,

the KRW CD 91 Rate or TORF, (ii) the principal, interest and/or any other amount payable or any determination required to be made with respect to the applicable Series of Notes is to be determined by reference to SONIA, Compounded Daily SONIA, TONA, Compounded Daily TONA, EURIBOR, the KRW CD 91 Rate or TORF, or (iii) "Benchmark Replacement – General" provisions are applicable, this Additional Note Condition 4(a) shall apply to such Series of Notes.

(i) *Occurrence of a General Benchmark Transition Event and related General Benchmark Replacement Date.*

Notwithstanding any other provisions in the applicable Conditions, if the Issuer or its designee (after consulting with the Issuer) determines that a General Benchmark Transition Event and related General Benchmark Replacement Date have occurred with respect to the then-current General Benchmark for a Series of Notes prior to the applicable General Benchmark Reference Time in respect of any determination of such then-current General Benchmark required to be made under the Conditions, then the provisions set forth in this Additional Note Condition 4(a) will apply to all determinations of the Rate of Interest and/or any other amount payable on and/or any other determination of the General Benchmark that is required to be made with respect to such Notes.

In accordance with this Additional Note Condition 4(a), if the Issuer or its designee (after consulting with the Issuer) has determined that a General Benchmark Transition Event and its related General Benchmark Replacement Date have occurred, the General Benchmark Replacement will replace the then-current General Benchmark for all purposes relating to the applicable Series of Notes in respect of such determination on the applicable date and all determinations on all subsequent dates.

For the avoidance of doubt, this Additional Note Condition 4(a) shall not apply with respect to the terms of a Series of Notes for which the Reference Rate specified in the applicable Final Terms is, or with respect to which the principal, interest and/or any other amount payable or any determination required to be made is to be determined by reference to BBSW, the EUR EURIBOR ICE Swap Rate®, the GBP SONIA ICE Swap Rate®, the U.S. Dollar SOFR ICE Swap Rate®, TONA TSR, the KRW CMS Rate, a Constant Maturity Swap Rate, SOFR or Compounded Daily SOFR.

(ii) *Effect of a General Benchmark Transition Event and related General Benchmark Replacement Date.*

(A) **General Benchmark Replacement.** If the Issuer or its designee (after consulting with the Issuer) determines that a General Benchmark Transition Event and related General Benchmark Replacement Date have occurred with respect to the then-current General Benchmark prior to the applicable General Benchmark Reference Time in respect of any determination of the then-current General Benchmark required to be made under the Conditions, the applicable General Benchmark Replacement will replace the then-current General Benchmark for all purposes relating to the Notes in respect of such determination on such date and all determinations required to be made under the Conditions on all subsequent dates.

(B) **General Benchmark Replacement Conforming Changes.** In connection with the implementation of a General Benchmark Replacement, the Issuer or its designee (after consulting with the Issuer) will have the right to make General Benchmark Replacement Conforming Changes from time to time.

(iii) *Certain Definitions.*

For purposes of this Additional Note Condition 4(a):

"General Corresponding Tenor" with respect to a General Benchmark Replacement means a tenor (including overnight) having approximately the same length (disregarding Business Day adjustment) as the applicable tenor for the then-current General Benchmark.

"General Benchmark" means, initially, (i) any Reference Rate specified in the applicable Final Terms for the Specified Maturity (if applicable), whether such Reference Rate is specified to be the Reference Rate for a Series of Floating Rate Notes or any other determination is required to be made with respect to such Reference Rate (ii) if such Reference Rate is a Compounded Daily Reference Rate, the Applicable RFR from which such Reference Rate is calculated and/or (iii) if any applicable Final Terms specify that any other determination is required to be made with respect to EURIBOR, the KRW CD 91 Rate, TORF, SONIA and/or TONA, EURIBOR, the KRW CD 91 Rate, TORF, SONIA and/or TONA, as applicable; provided, that if a General Benchmark Transition Event and related General Benchmark Replacement Date have occurred with respect to such Reference Rate, as applicable, or the then-current General Benchmark, then "General Benchmark" means the applicable General Benchmark Replacement.

"General Benchmark Replacement" means, where the then-current General Benchmark is TORF or Screen Rate Determination otherwise is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the General Interpolated Benchmark (if applicable) with respect to the then-current General Benchmark, plus the General Benchmark Replacement Adjustment for such General Benchmark (if applicable); provided that if the Calculation Agent cannot determine the General Interpolated Benchmark as of the General Benchmark Replacement Date, or if the then-current General Benchmark is other than TORF (and Screen Rate Determination is not specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined), then "General Benchmark Replacement" means the first alternative set forth in the order below that can be determined by the Issuer or its designee (after consulting with the Issuer) as of the General Benchmark Replacement Date:

- (A) the sum of (a) the alternate rate of interest that has been selected or recommended by the General Relevant Governmental Body or identified through any other applicable regulatory or legislative action or guidance as the replacement for the then-current General Benchmark for the applicable General Corresponding Tenor (if any) and (b) the General Benchmark Replacement Adjustment (if any); and
- (B) solely if TORF is the then-current General Benchmark, the sum of (a) the alternate rate of interest that has been selected or recommended by the administrator of TORF as the replacement for TORF for the applicable General Corresponding Tenor (if any) and (b) the General Benchmark Replacement Adjustment (if any); and
- (C) the sum of (a) the alternate rate of interest that has been selected by the Issuer or its designee (after consulting with the Issuer) as the replacement for the then-current General Benchmark for the applicable General Corresponding Tenor (if any) giving due consideration to any industry-accepted rate of interest as a replacement for the then-current General Benchmark for floating-rate notes denominated in the Specified Currency (or, if different, the currency of the transactions that the then-current General Benchmark is designated to measure) at such time and (b) the General Benchmark Replacement Adjustment (if any).

If the Issuer or its designee (after consulting with the Issuer) determines that there is no such replacement rate as of the applicable General Benchmark Replacement Date, then:

- (A) where the then-current General Benchmark is EURIBOR, the KRW CD 91 Rate, TORF, or Screen Rate Determination otherwise is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Issuer or its designee (which may be the Calculation Agent) (after consulting with the Issuer) will determine a substitute rate or substitute rate value to be used in place of the then-current General Benchmark for the Specified Maturity for that date of determination after consulting such sources as the Issuer or its designee (after consulting with the Issuer) deems comparable to the sources (if any) on which such rate customarily was published by the administrator or provider, as applicable, of such then-current General Benchmark or authorised distributors prior to the applicable General Benchmark Transition Event and General Benchmark Replacement Date or to the sources from which the administrator of such then-current General Benchmark obtains the rate input data used by the administrator to calculate or publish such rate or information, or any other source or data the Issuer or its designee (after consulting with the Issuer) determines to be reasonable (including, if applicable, the applicable then-current General Benchmark for the Specified Maturity that was most recently published by the administrator of such rate) for the purpose of determining such substitute rate or substitute rate value;
- (B) where the then-current General Benchmark is other than EURIBOR, the KRW CD 91 Rate or TORF (and Screen Rate Determination is not specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined), the then-current General Benchmark as published in respect of the first preceding Banking Day for which the then-current General Benchmark was published on the Relevant Screen Page, administrator's website or other applicable website, source or service (or successor source or service) identified in the definition of the Applicable RFR set forth in Additional Note Condition 3(a) or determined in accordance with any applicable General Benchmark Conforming Changes.

"General Benchmark Replacement Adjustment" means, with respect to a General Benchmark Replacement, the first alternative set forth in the order below that can be determined by the Issuer or its designee (after consulting with the Issuer) as of the General Benchmark Replacement Date:

- (A) the spread adjustment (which may be a positive or negative value or zero) that has been selected or recommended by the General Relevant Governmental Body, or determined by the Issuer or its designee (after consulting with the Issuer) in accordance with the method for calculating or determining such spread adjustment that has been selected or recommended by the General Relevant Governmental Body, in each case for the applicable Unadjusted General Benchmark Replacement;
- (B) solely if TORF is the then-current General Benchmark, spread adjustment (which may be a positive or negative value or zero) that has been selected or recommended by the administrator of TORF or determined by the Issuer or its designee (after consulting with the Issuer) in accordance with the method for calculating or determining such spread adjustment that has been selected or recommended by the administrator of TORF, in each case for the applicable Unadjusted General Benchmark Replacement; and
- (C) the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Issuer or its designee (after consulting with the Issuer) giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current General Benchmark with the applicable Unadjusted General Benchmark Replacement for

floating-rate notes denominated in the Specified Currency (or, if different, the currency of the transactions that the then-current General Benchmark is designed to measure) at such time.

"General Benchmark Replacement Conforming Changes" means, with respect to any General Benchmark Replacement, changes to (1) any date on which the Rate of Interest for any applicable Interest Period is determined, any Interest Determination Date, Calculation Days or other relevant dates on which the General Benchmark is to be determined, Specified Interest Payment Dates, other relevant dates, Business Day Conventions or Interest Periods, (2) the manner, timing and frequency of determining rates and amounts of interest that are payable on the applicable Series of Notes and the conventions relating to such determination and calculations with respect to interest, (3) the timing and frequency of making payments of interest, (4) rounding conventions, (5) tenors, and (6) any other terms or provisions of the applicable Series of Notes, in each case that the Issuer or its designee (after consulting with the Issuer) determines, from time to time, to be appropriate to reflect the determination and implementation of such General Benchmark Replacement giving due consideration to any industry-accepted market practice (or, if the Issuer or its designee, after consulting with the Issuer, determines that implementation of any portion of such market practice is not administratively feasible or determines that no market practice for use of the General Benchmark Replacement exists, in such other manner as the Issuer or its designee, after consulting with the Issuer, determines is appropriate).

"General Benchmark Replacement Date" means the earliest to occur of the following events with respect to the then-current General Benchmark:

- (A) in the case of clause (A) or (B) of the definition of "General Benchmark Transition Event," the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of such General Benchmark permanently or indefinitely ceases to provide such General Benchmark;
- (B) in the case of clause (C) of the definition of "General Benchmark Transition Event," if such public statement or publication of information referenced therein indicates that the administrator or regulatory supervisor for the administrator has determined that such General Benchmark is no longer representative or otherwise not appropriate for use as a reference rate for floating-rate notes denominated in the Specified Currency: (a) at such time, the date of such public statement or publication of information referenced therein; or (b) as of a specified future date, the first date on which such General Benchmark would ordinarily have been published or provided and is non-representative by reference to the most recent statement or publication referenced therein, even if such rate continues to be published or provided on such date; or
- (C) in the case of clause (D) of the definition of "General Benchmark Transition Event," the date of such determination referenced therein.

For the avoidance of doubt, if the event giving rise to the General Benchmark Replacement Date occurs on the same day as, but earlier than, the General Benchmark Reference Time in respect of any determination, the General Benchmark Replacement Date will be deemed to have occurred prior to the General Benchmark Reference Time for such determination.

"General Benchmark Transition Event" means the occurrence of one or more of the following events with respect to the then-current General Benchmark:

- (A) a public statement or publication of information by or on behalf of the administrator of such General Benchmark announcing that such

administrator has ceased or will cease to provide such General Benchmark, permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide such General Benchmark;

- (B) a public statement or publication of information by the regulatory supervisor for the administrator of such General Benchmark, the central bank for the currency of such General Benchmark, an insolvency official with jurisdiction over the administrator for such General Benchmark, a resolution authority with jurisdiction over the administrator for such General Benchmark or a court or an entity with similar insolvency or resolution authority over the administrator for such General Benchmark, which states that the administrator of such General Benchmark has ceased or will cease to provide such General Benchmark permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide such General Benchmark;
- (C) a public statement or publication of information by the regulatory supervisor for the administrator of such General Benchmark announcing that the regulatory supervisor has determined that such General Benchmark is no longer, or as of a specified future date will no longer be, representative of the underlying market and economic reality that such General Benchmark is intended to measure and that representativeness will not be restored, or such General Benchmark otherwise is not, or as of a specified future date will no longer be, appropriate for use as a reference rate for floating-rate notes denominated in the Specified Currency (or, if different, the currency of the transactions that the then-current General Benchmark is designed to measure); or
- (D) unless the applicable Final Terms specifies that "General Permanent or Indefinite Discontinuance Trigger" is not applicable, a determination by the Issuer or its designee (after consulting with the Issuer) that such General Benchmark for the Specified Maturity (if applicable) has been permanently or indefinitely discontinued;

"General Benchmark Reference Time" with respect to any determination of a General Benchmark means the Relevant Time with respect to such General Benchmark on the relevant date of determination; provided that if a General Benchmark Transition Event and related General Benchmark Replacement Date have occurred with respect to the then-current General Benchmark and Issuer or its designee (after consulting with the Issuer) has selected a General Benchmark Replacement, "General Benchmark Reference Time" will mean with respect to such General Benchmark Replacement the time determined by the Issuer or its designee (after consulting with the Issuer) in accordance with the General Benchmark Replacement Conforming Changes.

"General Interpolated Benchmark" with respect to a General Benchmark means the rate determined for the General Corresponding Tenor by interpolating on a linear basis between: (A) the General Benchmark for the longest period (for which the General Benchmark is available) that is shorter than the General Corresponding Tenor and (B) the General Benchmark for the shortest period (for which the General Benchmark is available) that is longer than the General Corresponding Tenor. "General Benchmark" as used in this definition means the then-applicable General Benchmark for the applicable periods specified in the foregoing sentence without giving effect to the applicable tenor (if any).

"General Relevant Governmental Body" means, with respect to any General Benchmark, the central bank, monetary authority, relevant regulatory supervisor or any similar institution with supervisory authority over the then-current General Benchmark or Specified Currency for such Series of Notes (including any

committee or working group thereof sponsored, convened or endorsed by such central bank, monetary authority or relevant regulatory supervisor or similar institution).

"Unadjusted General Benchmark Replacement" means the General Benchmark Replacement excluding the General Benchmark Replacement Adjustment.

(b) *Benchmark Replacement – Constant Maturity Swap*

If the applicable Final Terms for a Series of Notes specifies that the Reference Rate is the EUR EURIBOR ICE Swap Rate®, the GBP SONIA ICE Swap Rate®, the U.S. Dollar SOFR ICE Swap Rate®, TONA TSR, the KRW CMS Rate, a Constant Maturity Swap Rate, or that the principal, interest and/or any other amount payable or any determination required to be made with respect to the applicable Series of Notes is to be determined by reference to one or more of such rates, this Additional Note Condition 4(b) shall apply to such Series of Notes.

(i) *Occurrence and Effect of a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date*

Notwithstanding any other provisions in the applicable Conditions, if the Issuer or its designee (after consulting with the Issuer) determines that a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have occurred with respect to the then-current Constant Maturity Swap Benchmark for a Series of Notes prior to the applicable Constant Maturity Swap Reference Time in respect of any determination of such then-current Constant Maturity Swap Benchmark required to be made under the Conditions, then the provisions set forth in this Additional Note Condition 4(b) will apply to all determinations of the Rate of Interest payable on and/or any other determination of the Constant Maturity Swap Benchmark that is required to be made with respect to such Notes.

In accordance with this Additional Note Condition 4(b), if the Issuer or its designee (after consulting with the Issuer) has determined that a Constant Maturity Swap Transition Event and its related Constant Maturity Swap Replacement Date have occurred, and the Issuer or its designee has selected a Constant Maturity Swap Replacement as provided in this Additional Note Condition 4(b), such Constant Maturity Swap Replacement will replace the then-current Constant Maturity Swap Benchmark for all purposes relating to the applicable Series of Notes in respect of such determination on the applicable date and all determinations on all subsequent dates.

(ii) *Effect of a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date.*

(A) *Constant Maturity Swap Replacement.*

If the Issuer or its designee (after consulting with the Issuer) determines that a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have occurred with respect to the then-current Constant Maturity Swap Benchmark prior to the applicable Constant Maturity Swap Reference Time in respect of any determination of the then-current Constant Maturity Swap Benchmark required to be made under the Conditions, the applicable Constant Maturity Swap Replacement will replace the then-current Constant Maturity Swap Benchmark for all purposes relating to the Notes in respect of such determination on such date and all determinations required to be made under the Conditions on all subsequent dates unless and until another Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have occurred with respect to the applicable

Constant Maturity Swap Replacement. In the event that a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date are determined to have occurred with respect to an applicable Constant Maturity Swap Benchmark as set forth in the preceding sentence, and the Issuer or its designee (after consulting with the Issuer) has selected a Constant Maturity Swap Replacement as provided in this Additional Note Condition 4(b), this Additional Note Condition 4(b) will apply to any such Constant Maturity Swap Replacement and references in such provisions to the applicable Constant Maturity Swap Benchmark will mean such Constant Maturity Swap Replacement.

(B) Constant Maturity Swap Replacement Conforming Changes.

In connection with the implementation of a Constant Maturity Swap Replacement, the Issuer or its designee (after consulting with the Issuer) will have the right to make Constant Maturity Swap Replacement Conforming Changes from time to time.

(C) No Constant Maturity Swap Replacement.

In the event that a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date are determined to have occurred in connection with the determination of an applicable Constant Maturity Swap Benchmark as set forth in the Additional Notes Condition 4(b)(ii)(A), if the Issuer or its designee (after consulting with the Issuer) determines that there is no Constant Maturity Swap Replacement as of any relevant date of determination of such Constant Maturity Swap Benchmark, then the Issuer or its designee (after consulting with the Issuer) will determine a substitute rate or substitute rate value to be used in place of the applicable Constant Maturity Swap Benchmark for that date of determination after consulting such sources as the Issuer or its designee (after consulting with the Issuer) deems comparable to the sources (if any) on which such rate customarily was published by the administrator or provider, as applicable, of such Constant Maturity Swap Benchmark or authorised distributors prior to the applicable Constant Maturity Swap Transition Event and Constant Maturity Swap Replacement Date or to the sources from which the administrator or provider, as applicable, of such rate obtains the swap rate input data used by the administrator or provider, as applicable to calculate or publish such rate or information, or any other source or data the Issuer or its designee (after consulting with the Issuer) determines to be reasonable (including, if applicable, the applicable Constant Maturity Swap Benchmark that was most recently published by the administrator or provider of such rate (or calculated by the Calculation Agent based on the published bid and ask prices underlying such rate)) for the purpose of determining such substitute rate or substitute rate value.

(iii) *Certain Definitions*

For purposes of this Additional Note Condition 4(b):

"**Constant Maturity Swap Benchmark**" with respect to a Series of Notes means, initially, (i) the Constant Maturity Swap Rate for the Specified Currency specified in the applicable Final Terms (ii) the EUR EURIBOR ICE Swap Rate®, (iii) the GBP SONIA ICE Swap Rate®, (iv) the U.S. Dollar SOFR ICE Swap Rate® or (v) TONA TSR, as specified to be the Reference Rate with respect to, or to be used in any other determination that is required to be made with respect to, such Series of Notes in the applicable Final Terms, in each case for the Specified Maturity, provided that if a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have occurred with respect to such rate, or the then-current Constant Maturity Swap Benchmark, as applicable, then

the "Constant Maturity Swap Benchmark" means the applicable Constant Maturity Swap Replacement.

"Constant Maturity Swap Replacement" means the sum of (a) the alternate rate of interest that has been selected by the Issuer or its designee (after consulting with the Issuer) as an industry-accepted replacement for the current Constant Maturity Swap Benchmark for floating-rate notes denominated in the Specified Currency (or, if different, the currency of the transactions that the then-current Constant Maturity Swap Benchmark is designed to measure) for the applicable Series of Notes at such time and (b) the Constant Maturity Swap Replacement Adjustment (if any).

"Constant Maturity Swap Replacement Adjustment" means the spread adjustment (which may be a positive or negative value or zero) that has been selected by the Issuer or its designee (after consulting with the Issuer) giving due consideration to any industry-accepted spread adjustment, or method for calculating or determining such spread adjustment, for the replacement of the then-current Constant Maturity Swap Benchmark with the applicable Unadjusted Constant Maturity Swap Replacement for floating-rate notes denominated in the Specified Currency (or, if different, the currency of the transactions that the then-current Constant Maturity Swap Benchmark is designed to measure) for the applicable Series of Notes at such time.

"Constant Maturity Swap Replacement Conforming Changes" means, with respect to any Constant Maturity Swap Replacement, changes to (1) any date on which the Rate of Interest for any applicable Interest Period is determined, any Interest Determination Dates, Calculation Days or other relevant dates on which a Constant Maturity Swap Benchmark is to be determined, Specified Interest Payment Dates, other relevant dates, Business Day Convention or Interest Periods, (2) the manner, timing and frequency of determining rates and amounts of interest that are payable on the applicable Series of Notes and the conventions relating to such determination and calculations with respect to interest, (3) the timing and frequency of making payments of interest, (4) rounding conventions, (5) tenors, and (6) any other terms or provisions of the applicable Series of Notes, in each case that the Issuer or its designee (after consulting with the Issuer) determines, from time to time, to be appropriate to reflect the determination and implementation of such Constant Maturity Swap Replacement giving due consideration to any industry-accepted market practice (or, if the Issuer or its designee (after consulting with the Issuer) determines that implementation of any portion of such market practice is not administratively feasible or determines that no market practice for use of the Constant Maturity Swap Replacement exists, in such other manner as the Issuer or its designee (after consulting with the Issuer) determines is appropriate).

"Constant Maturity Swap Replacement Date" means the earliest to occur of the following events with respect to the current Constant Maturity Swap Benchmark:

- (A) in the case of clause (A) or (B) of the definition of "Constant Maturity Swap Transition Event," the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of such Constant Maturity Swap Benchmark permanently or indefinitely ceases to provide such Constant Maturity Swap Benchmark;
- (B) in the case of clause (C) of the definition of "Constant Maturity Swap Transition Event," if such statement or publication referenced therein indicates that the administrator or regulatory supervisor for the administrator has determined that such rate is no longer representative: (a) at the date of such statement or publication referenced therein, the date of such statement or publication; or (b) as of a specified future date, the first date on which such rate would ordinarily have been published or provided

and is non-representative by reference to the most recent statement or publication referenced therein, even if such rate continues to be published or provided on such date; or

- (C) in the case of clause (D) or (E) of the definition of "Constant Maturity Swap Transition Event," the date of such determination referenced therein.

For the avoidance of doubt, if the event giving rise to the Constant Maturity Swap Replacement Date occurs on the same day as, but earlier than, the Constant Maturity Swap Reference Time in respect of any determination, the Constant Maturity Swap Replacement Date will be deemed to have occurred prior to the Constant Maturity Swap Reference Time for such determination.

"Constant Maturity Swap Reference Time" with respect to any determination of a Constant Maturity Swap Benchmark means the Relevant Time with respect to such Constant Maturity Swap Benchmark on the relevant date of determination; provided that if a Constant Maturity Swap Transition Event and related Constant Maturity Swap Replacement Date have occurred with respect to the then-current Constant Maturity Swap Benchmark and Issuer or its designee (after consulting with the Issuer) has selected a Constant Maturity Swap Benchmark Replacement, "Constant Maturity Swap Reference Time" will mean with respect to such Constant Maturity Swap Replacement, the time determined by the Issuer or its designee (after consulting with the Issuer) in accordance with the Constant Maturity Swap Replacement Conforming Changes.

"Constant Maturity Swap Transition Event" means the occurrence of one or more of the following events with respect to the current Constant Maturity Swap Benchmark:

- (A) a public statement or publication of information by or on behalf of the administrator of such Constant Maturity Swap Benchmark announcing that such administrator has ceased or will cease to provide such Constant Maturity Swap Benchmark, permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide such Constant Maturity Swap Benchmark;
- (B) a public statement or publication of information by the regulatory supervisor for the administrator of such Constant Maturity Swap Benchmark, the central bank for the currency of such Constant Maturity Swap Benchmark, an insolvency official with jurisdiction over the administrator for such Constant Maturity Swap Benchmark, a resolution authority with jurisdiction over the administrator for such Constant Maturity Swap Benchmark or a court or an entity with similar insolvency or resolution authority over the administrator for such Constant Maturity Swap Benchmark, which states that the administrator of such Constant Maturity Swap Benchmark has ceased or will cease to provide such Constant Maturity Swap Benchmark permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide such Constant Maturity Swap Benchmark;
- (C) a public statement or publication of information by the administrator of such Constant Maturity Swap Benchmark or the regulatory supervisor for the administrator of such Constant Maturity Swap Benchmark announcing that such Constant Maturity Swap Benchmark is no longer, or as of a specified future date will no longer be, representative of the underlying market and economic reality that such Constant Maturity Swap Benchmark is intended to measure, and that representativeness will not be restored;

- (D) a determination by the Issuer or its designee (after consulting with the Issuer) that such Constant Maturity Swap Benchmark (or the bid and ask rates from which such Constant Maturity Swap Benchmark is calculated)) has been permanently or indefinitely discontinued; or
- (E) a determination by the Issuer or its designee (after consulting with the Issuer) that (i) such Constant Maturity Swap Benchmark (or the bid and ask rates from which such rate is calculated) as published is no longer an industry-accepted rate of interest for floating-rate notes denominated in the Specified Currency at such time or (ii) such Constant Maturity Swap Benchmark (or the bid and ask rates from which such rate is calculated) as published is no longer an industry-accepted rate of interest in the derivatives market for hedging transactions related to floating rate notes denominated in the Specified Currency.

For the purpose of this clause, "**Specified Currency**" means the Specified Currency for the applicable Series of Notes or if different, the currency of the transactions that the then-current Constant Maturity Swap Benchmark is designated to measure.

"**Unadjusted Constant Maturity Swap Replacement**" means the Constant Maturity Swap Replacement excluding the Constant Maturity Swap Replacement Adjustment (if any).

(c) *Benchmark Replacement - SOFR*

If the applicable Final Terms specifies that the Reference Rate is Compounded Daily SOFR, or that the principal, interest and/or any other amount payable or any determination required to be made with respect to the applicable Series of Notes is to be determined by reference to SOFR, this Additional Note Condition 4(c) shall apply to such Series of Notes (together the "SOFR Notes").

(i) *Occurrence of a SOFR Benchmark Transition Event and related SOFR Benchmark Replacement Date.*

Notwithstanding any other provisions in the applicable Conditions, if the Issuer or its designee (after consulting with the Issuer) determines that a SOFR Benchmark Transition Event and related SOFR Benchmark Replacement Date have occurred with respect to the then-current SOFR Benchmark with respect to a Series of Notes prior to the applicable SOFR Benchmark Reference Time in respect of any determination of the then-current SOFR Benchmark required to be made under the Conditions, then the provisions set forth in this Additional Note Condition 4(c) will apply to all determinations of the Rate of Interest payable on such Notes.

In accordance with this Additional Note Condition 4(c), if the Issuer or its designee (after consulting with the Issuer) has determined that a SOFR Benchmark Transition Event and its related SOFR Benchmark Replacement Date have occurred:

- (A) if the applicable Final Terms specify "Floating Rate Notes" to be applicable, any Rate of Interest on such Series of Notes (and the applicable Reference Rate) in respect of the Interest Period relating to the above-mentioned SOFR Benchmark Reference Time and all subsequent Interest Periods will be determined (x) by reference to the relevant SOFR Benchmark Replacement multiplied by the Participation Rate specified in the applicable Final Terms, if any, plus or minus (as indicated in the applicable Final Terms) the Margin, if any, or (y) as otherwise specified in the applicable Final Terms; or

- (B) if the applicable Final Terms otherwise specify that the principal, interest and/or any other amount payable with respect to the applicable Series of Notes is to be determined by reference to the then-current SOFR Benchmark, the SOFR Benchmark Replacement will replace the then-current SOFR Benchmark for all purposes relating to the applicable Series of Notes in respect of such determination on the applicable date and all determinations on all subsequent dates.
- (ii) *Effect of a SOFR Benchmark Transition Event and Related SOFR Benchmark Replacement Date.*

(A) SOFR Benchmark Replacement.

If the Issuer or its designee (after consulting with the Issuer) determines that a SOFR Benchmark Transition Event and related SOFR Benchmark Replacement Date have occurred with respect to the then-current SOFR Benchmark prior to the applicable SOFR Benchmark Reference Time in respect of any determination of the then-current SOFR Benchmark required to be made under the Conditions, the applicable SOFR Benchmark Replacement will replace the then-current SOFR Benchmark for all purposes relating to the Notes in respect of such determination on such date and all determinations required to be made under the Conditions on all subsequent dates.

(B) SOFR Benchmark Replacement Conforming Changes.

In connection with the implementation of a SOFR Benchmark Replacement, the Issuer or its designee (after consulting with the Issuer) will have the right to make SOFR Benchmark Replacement Conforming Changes from time to time.

(iii) *Certain Definitions.*

For purposes of this Additional Note Condition 4(c):

"ISDA Fallback Adjustment" means the spread adjustment (which may be a positive or negative value or zero) that would apply for derivatives transactions referencing the Relevant ISDA Definitions to be determined upon the occurrence of an index cessation event with respect to the SOFR Benchmark for the applicable tenor.

"SOFR Benchmark Replacement Conforming Changes" means, with respect to any SOFR Benchmark Replacement, changes to (1) any Interest Determination Date, Interest Payment Date, other relevant date, Business Day Convention or Interest Period, (2) the manner, timing and frequency of determining the rates and amounts of interest that are payable on the applicable Series of Notes and the conventions relating to such determination and calculations with respect to interest, (3) the timing and frequency of making payments of interest, (4) rounding conventions, (5) tenors and (6) any other terms or provisions of the relevant Series of Notes, in each case that the Issuer or its designee (after consulting with the Issuer) determines, from time to time, to be appropriate to reflect the implementation of such SOFR Benchmark Replacement in a manner substantially consistent with market practice (or, if the Issuer, its designee or the Calculation Agent decides that implementation of any portion of such market practice is not administratively feasible or determines that no market practice for use of the SOFR Benchmark Replacement exists, in such other manner as the Issuer or its designee (after consulting with the Issuer) determines is appropriate).

"SOFR Benchmark Replacement Date" means the earliest to occur of the following events with respect to the then-current SOFR Benchmark:

- (A) in the case of clause (A) or (B) of the definition of "SOFR Benchmark Transition Event," the later of (a) the date of the public statement or publication of information referenced therein and (b) the date on which the administrator of such SOFR Benchmark permanently or indefinitely ceases to provide such SOFR Benchmark; or
- (B) in the case of clause (C) of the definition of "SOFR Benchmark Transition Event," the date of the public statement or publication of information referenced therein.

For the avoidance of doubt, if the event giving rise to the SOFR Benchmark Replacement Date occurs on the same day as, but earlier than, the SOFR Benchmark Reference Time in respect of any determination, the SOFR Benchmark Replacement Date will be deemed to have occurred prior to the SOFR Benchmark Reference Time for such determination.

"SOFR Benchmark Transition Event" means the occurrence of one or more of the following events with respect to the then-current SOFR Benchmark:

- (A) a public statement or publication of information by or on behalf of the administrator of such SOFR Benchmark announcing that such administrator has ceased or will cease to provide such SOFR Benchmark, permanently or indefinitely, provided that, at the time of such statement or publication, there is no successor administrator that will continue to provide such SOFR Benchmark;

If the applicable Final Terms for a Series of Notes specifies that (i) the Reference Rate is BBSW or (ii) the principal, interest and/or any other amount payable or any determination required to be made with respect to the applicable Series of Notes is to be determined by reference to BBSW, this Additional Note Condition 4(d) shall apply to such Series of Notes.

Each Noteholder is deemed to acknowledge, accept and agree to be bound by, and consents to, the determination of, substitution for and any adjustments made to BBSW as described in this Additional Note Condition 4(d) (in all cases without the need for any Noteholder consent).

(i) Occurrence and Effect of a Temporary Disruption Trigger or Permanent Discontinuation Trigger

(A) If:

- (1) the Calculation Agent determines that a Temporary Disruption Trigger has occurred; or
- (2) the Issuer or its designee (after consultation with the Issuer) determines that a Permanent Discontinuation Trigger has occurred,

then the Applicable Benchmark Rate for an Interest Period, whilst such Temporary Disruption Trigger is continuing or after a Permanent Discontinuation Trigger has occurred, means (in the following order of application and precedence):

(a) where BBSW is the Applicable Benchmark Rate, if a Temporary Disruption Trigger has occurred with respect to BBSW, in the following order of precedence:

- (i) first, the Administrator Recommended Rate;
- (ii) then the Supervisor Recommended Rate; and
- (iii) lastly, the Final Fallback Rate;

(b) where AONIA is the Applicable Benchmark Rate or is used in calculations of the Applicable Benchmark Rate, or a determination of the AONIA Rate is required for the purposes of Additional Note Condition 4(d)(i)(A)(a)(i), if a Temporary Disruption Trigger has occurred with respect to AONIA, the rate for any day for which AONIA is required will be the last provided or published level of AONIA;

(c) where a determination of the RBA Recommended Rate is required for the purposes of Additional Note Condition 4(d)(i)(A)(a)(i) or 4(d)(i)(A)(a)(ii) above, if a Temporary Disruption Trigger has occurred with respect to the RBA Recommended Rate, the rate for any day for which the RBA Recommended Rate is required will be the last rate provided or published by the Administrator of the RBA Recommended Rate (or if no such rate has been so provided or published, the last provided or published level of AONIA);

- (d) where BBSW is the Applicable Benchmark Rate, if a Permanent Discontinuation Trigger has occurred with respect to BBSW, the rate for any day for which BBSW is required on or after the Permanent Fallback Effective Date will be the first rate available in the following order of precedence:
 - (i) first, if at the time of the Permanent Fallback Effective Date with respect to BBSW, no Permanent Fallback Effective Date has occurred with respect to AONIA, the AONIA Rate;
 - (ii) then, if at the time of the BBSW Permanent Fallback Effective Date, an AONIA Permanent Fallback Effective Date has occurred, an RBA Recommended Rate has been created but no Permanent Fallback Effective Date has occurred with respect to the RBA Recommended Rate, the RBA Recommended Fallback Rate; and
 - (iii) lastly, if neither Additional Note Condition 4(d)(i)(A)(d)(i) nor Additional Note Condition 4(d)(i)(A)(d)(ii) above apply, the Final Fallback Rate;
- (e) where AONIA is the Applicable Benchmark Rate or is used in calculations of the Applicable Benchmark Rate, or a determination of the AONIA Rate is required for purposes of Additional Note Condition 4(d)(i)(A)(d) above, if a Permanent Discontinuation Trigger has occurred with respect to AONIA, the rate for any day for which AONIA is required on or after the AONIA Permanent Fallback Effective Date will be the first rate available in the following order of precedence:
 - (i) first, if at the time of the AONIA Permanent Fallback Effective Date, an RBA Recommended Rate has been created but no RBA Recommended Rate Permanent Fallback Effective Date has occurred, the RBA Recommended Rate; and
 - (ii) lastly, if Additional Note Condition 4(d)(i)(A)(e)(i) above does not apply, the Final Fallback Rate; and
- (f) where a determination of the RBA Recommended Rate is required for the purposes of Additional Note Condition 4(d)(i)(A) (d) or (e) above, respectively, if a Permanent Discontinuation Trigger has occurred with respect to the RBA Recommended Rate, the rate for any day for which the RBA Recommended Rate is required on or after that Permanent Fallback Effective Date will be the Final Fallback Rate.

When calculating an amount of interest in circumstances where a Fallback Rate other than the Final Fallback Rate applies, that interest will be calculated as if references to BBSW or AONIA Rate, as applicable, were references to that Fallback Rate. When calculating interest in circumstances where the Final Fallback Rate applies, the amount of interest will be calculated

on the same basis as if the Applicable Benchmark Rate in effect immediately prior to the application of that Final Fallback Rate remained in effect but with necessary adjustments to substitute all references to that Applicable Benchmark Rate with corresponding references to the Final Fallback Rate.

(ii) Certain Definitions

For the purposes of this Additional Note Condition 4(d), the following definitions apply.

"Adjustment Spread" means the adjustment spread as at the Adjustment Spread Fixing Date (which may be a positive or negative value or zero and determined pursuant to a formula or methodology) that is:

- (A) determined as the median of the historical differences between BBSW and AONIA over a five calendar year period prior to the Adjustment Spread Fixing Date using practices based on those used for the determination of the Bloomberg Adjustment Spread as at 1 December 2022, provided that for so long as the Bloomberg Adjustment Spread is published and determined based on the five year median of the historical differences between BBSW and AONIA, that adjustment spread will be deemed to be acceptable for the purposes of this paragraph (A); or
- (B) if no such median can be determined in accordance with paragraph (A), set using the method for calculating or determining such adjustment spread determined by the Issuer or its designee (after consultation with the Issuer) to be appropriate.

"Adjustment Spread Fixing Date" means the first date on which a Permanent Discontinuation Trigger occurs with respect to BBSW.

"Administrator" means:

- (A) in respect of BBSW, ASX Benchmarks Pty Limited;

"AONIA" means the Australian dollar interbank overnight cash rate (known as AONIA).

"AONIA Observation Period" means the period from (and including) the date falling five Business Days prior to the first day of the relevant Interest Period (and the first Interest Period shall begin on and include the Interest Commencement Date) and ending on (but excluding) the date falling five Business Days prior to the end of such Interest Period (or the date falling five Business Days prior to such earlier date, if any, on which the Notes become due and payable).

"AONIA Rate" means, for an Interest Period and in respect of an Interest Determination Date, the rate determined by the Calculation Agent to be Compounded Daily AONIA for that Interest Period and Interest Determination Date plus the Adjustment Spread.

"Applicable Benchmark Rate" means, initially, BBSW having a tenor closest to the Specified Maturity; provided that, if a Permanent Fallback Effective Date has occurred with respect to BBSW for such tenor or the then-current Applicable Benchmark Rate,

then the applicable rate determined in accordance with this Additional Note Condition 4(d).

"Bloomberg Adjustment Spread" means the term adjusted AONIA spread relating to BBSW provided by Bloomberg Index Services Limited (or a successor provider as approved and/or appointed by ISDA from time to time as the provider of term adjusted AONIA and the spread) ("**BISL**") on the Fallback Rate (AONIA) Screen (or by other means), or provided to, and published by, authorised distributors where Fallback Rate (AONIA) Screen means the Bloomberg Screen corresponding to the Bloomberg ticker for the fallback for BBSW accessed via the Bloomberg Screen <FBAK> <GO> Page (or, if applicable, accessed via the Bloomberg Screen <HP> <GO>) or any other published source designated by BISL.

"Business Day" means any day on which commercial banks are open for general business in Sydney.

"Compounded Daily AONIA" means, with respect to an Interest Period, the rate of return of a daily compound interest investment during the AONIA Observation Period corresponding to such Interest Period (with AONIA as the reference rate for the calculation of interest) as calculated by the Calculation Agent on the fifth Business Day prior to the last day of each Interest Period, as follows:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{AONIA_{i-5SBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

where:

AONIA (i-5SBD) means the per annum rate expressed as a decimal which is the level of AONIA provided by the Administrator and published as of 4:00 p.m. (Sydney time) or any amended publication time for the final intraday refix of such rate specified by the Administrator for AONIA in its benchmark methodology, for the Business Day falling five Business Days prior to such Business Day "i";

d is the number of calendar days in the relevant Interest Period;

d₀ is the number of Business Days in the relevant Interest Period;

i is a series of whole numbers from 1 to d₀, each representing the relevant Business Day in chronological order from (and including) the first Business Day in the relevant Interest Period to (and including) the last Business Day in such Interest Period;

n_i for any Business Day "i", means the number of calendar days from (and including) such Business Day "i" up to (but excluding) the following Business Day; and

SBD means any day on which commercial banks are open for general business in Sydney.

If, for any reason, Compounded Daily AONIA needs to be determined for a period other than an Interest Period, Compounded Daily AONIA is to be determined as if that period were an Interest Period starting on (and including) the first day of that period and ending on (but excluding) the last day of that period (which will be the applicable Interest Payment Date or the maturity date or earlier redemption date, as the case may be).

"Fallback Rate" means, where a Permanent Discontinuation Trigger for an Applicable Benchmark Rate has occurred, the rate that applies to replace that Applicable Benchmark Rate in accordance with Additional Note Condition 4(d).

"Final Fallback Rate" means, in respect of an Applicable Benchmark Rate, the rate:

- (A) determined by the Issuer or its designee (after consultation with the Issuer) as a commercially reasonable alternative for the Applicable Benchmark Rate taking into account all available information that, in good faith, it considers relevant, provided that any rate (inclusive of any spreads or adjustments) implemented by central counterparties and / or futures exchanges with representative trade volumes in derivatives or futures referencing the Applicable Benchmark Rate will be deemed to be acceptable for the purposes of this paragraph (A), together with (without double counting) such adjustment spread (which may be a positive or negative value or zero) that is customarily applied to the relevant successor rate or alternative rate (as the case may be) in international debt capital markets transactions to produce an industry-accepted replacement rate for Applicable Benchmark Rate-linked floating rate notes at such time (together with such other adjustments to the Business Day Convention, interest determination dates and related provisions and definitions, in each case that are consistent with accepted market practice for the use of such successor rate or alternative rate for Applicable Benchmark Rate-linked floating rate notes at such time), or, if no such industry standard is recognised or acknowledged, the adjustment spread determined in accordance with a method for calculating or determining such adjustment spread determined by the Issuer or its designee (after consultation with the Issuer) to be appropriate; provided that
- (B) if and for so long as no such successor rate or alternative rate can be determined in accordance with paragraph (A), the Final Fallback Rate will be the last provided or published level of that Applicable Benchmark Rate.

"Non-Representative" means, in respect of an Applicable Benchmark Rate, that the Supervisor of that Applicable Benchmark Rate if the Applicable Benchmark Rate is BBSW, or the Administrator of the Applicable Benchmark Rate (or if AONIA is used in calculations of the Applicable Benchmark Rate) if the Applicable Benchmark Rate is AONIA or the RBA Recommended Rate:

- (A) has determined that such Applicable Benchmark Rate is no longer, or as of a specified future date will no longer be, representative of the underlying market and economic reality that such Applicable Benchmark Rate is intended to measure and that representativeness will not be restored; and
- (B) is aware that such determination will engage certain contractual triggers for fallbacks activated by pre-cessation announcements by such Supervisor (howsoever described) in contracts.

"Permanent Discontinuation Trigger" means, in respect of an Applicable Benchmark Rate:

- (A) a public statement or publication of information by or on behalf of the Administrator of the Applicable Benchmark Rate announcing that it has ceased or that it will cease to provide the Applicable Benchmark Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator or provider, as applicable, that will continue to provide the Applicable Benchmark Rate and, in the case of BBSW, a public statement or publication of information by or on behalf of the Supervisor of BBSW has confirmed that cessation;
- (B) a public statement or publication of information by the Supervisor of the Applicable Benchmark Rate, the Reserve Bank of Australia (or any successor central bank for Australian dollars), an insolvency official or resolution authority with jurisdiction over the Administrator of the Applicable Benchmark Rate or a court or an entity with similar insolvency or resolution authority over the Administrator of the Applicable

Benchmark Rate which states that the Administrator of the Applicable Benchmark Rate has ceased or will cease to provide the Applicable Benchmark Rate permanently or indefinitely, provided that, at the time of the statement or publication, there is no successor administrator or provider that will continue to provide the Applicable Benchmark Rate and, in the case of BBSW and a public statement or publication of information other than by the Supervisor, a public statement or publication of information by or on behalf of the Supervisor of BBSW has confirmed that cessation;

- (C) a public statement by the Supervisor of the Applicable Benchmark Rate if the Applicable Benchmark Rate is BBSW, or the Administrator of the Applicable Benchmark Rate if the Applicable Benchmark Rate is AONIA (or if AONIA is used in calculations of the Applicable Benchmark Rate) or the RBA Recommended Rate, as a consequence of which the Applicable Benchmark Rate will be prohibited from being used either generally, or in respect of the Notes, or that its use will be subject to restrictions or adverse consequences to the Issuer or a Noteholder;
- (D) as a consequence of a change in law or directive arising after the Issue Date of the first Tranche of Notes of a Series, it has become unlawful for the Calculation Agent, the Issuer or any other party responsible for calculations of interest under the Conditions to calculate any payments due to be made to any Noteholder using the Applicable Benchmark Rate;

"Supervisor Recommended Rate" means the rate formally recommended for use as the temporary replacement for BBSW by the Supervisor of BBSW.

"Temporary Disruption Trigger" means, in respect of any Applicable Benchmark Rate which is required for any determination:

- (A) the Applicable Benchmark Rate has not been published by the applicable Administrator or an authorised distributor and is not otherwise provided by the Administrator, in respect of, on, for or by the time and date on which that Applicable Benchmark Rate is required; or
- (B) the Applicable Benchmark Rate is published or provided but the Calculation Agent determines that there is an obvious or proven error in that rate.

5. **Calculation Agent; Decisions and Determinations**

If the applicable Final Terms specify that Floating Rate Note Provisions are applicable, this Additional Note Condition 5 shall apply to the applicable Series of Notes.

Calculations relating to a Series of Notes, including calculations with respect to Reference Rates, Rates of Interest, accrued interest, principal and any premium, and any other amounts payable applicable to such Series of Notes, as the case may be, will be made by the Calculation Agent. Any determination, decision or election, or any substitution for and adjustments to any Reference Rate or substitute or successor rate in respect thereof that may be made by the Issuer or, in the case of a determination, the Calculation Agent or, in all cases, any financial institution or investment bank appointed by the Issuer, or any other entity designated by the Issuer (which may be one of the Issuer's affiliates) pursuant to the Additional Note Conditions set forth in this Annex 17 (including, but not limited to, the benchmark transition provisions set forth in Additional Note Condition 4) and any decision to take or refrain from taking any action or any selection (including as to the occurrence or non-occurrence of any event or circumstance):

- will be conclusive and binding absent manifest error;
- will be made in the sole discretion of the Calculation Agent, the Issuer, any financial institution or investment bank appointed by the Issuer or the Issuer's other designee, as applicable, except if made by the Calculation Agent, any financial institution or investment bank appointed by the Issuer or the Issuer's other designee, as applicable, in connection with the benchmark transition provisions set forth in Additional Note Condition 4;
- if made by the Calculation Agent, any financial institution or investment bank appointed by the Issuer or the Issuer's other designee in connection with the benchmark transition provisions, will be made after consulting with the Issuer, and any financial institution or investment bank appointed by the Issuer or the Issuer's other designee will not make any such determination, decision or election to which the Issuer objects; and

- notwithstanding anything to the contrary in the Conditions or other documentation relating to the Notes, shall become effective without the consent of the holders of the relevant Series of Notes or any other party.

If, with respect to any Series of Notes, the Issuer does not agree with any determination made by the Calculation Agent regarding administrative feasibility, as described in this Annex 17, in connection with the benchmark transition provisions set forth in Additional Note Condition 4, then the Issuer may, in its sole discretion, remove the Calculation Agent and appoint a successor Calculation Agent.

Any determination, decision or election pursuant to the Additional Note Conditions set forth in this Annex 17 (including, but not limited to, the benchmark transition provisions set forth in Additional Note Condition 4, and any decision to take or refrain from taking any action or any selection not made by any financial institution or investment bank appointed by the Issuer or the Issuer's other designee will be made by the Issuer on the basis as described above. The Calculation Agent shall have no liability for not making any such determination, decision or election in connection with such provisions. The Issuer may designate an entity (which entity may be a calculation agent and/or the Issuer's affiliate) to make any determination, decision or election that the Issuer has the right to make in connection with the benchmark transition provisions set forth in Additional Note Condition 4.

3. **Description of Product Features**

Instruments issued under this Offering Circular may provide for one or more of the following product features.

Asian Option	Uses the average price of the Underlying Asset over a number of predefined periods (monthly, quarterly, annually) rather the price at a specific time.
Autocallable	If, on an observation day, the price of the Underlying Asset is either on or above (bull) or on or below (bear) a previously defined barrier (" autocall trigger "), the product is redeemed prior to maturity.
Bearish; with a bear feature	The Instrument benefits from falling prices of the Underlying Asset
Best-of	The return of the Instrument depends on the performance of the best performing Underlying Asset.
Bullish; with a bull feature	The Instrument benefits from rising prices of the Underlying Asset.

Callable	The Issuer has the right to cancel early, however, there is no obligation to do so.
Capped participation	The Instrument has a maximum yield and may have a minimum redemption price.
Conditional coupon	A scenario exists where the coupon is not repaid (coupon at risk) or an unpaid coupon can be recouped at a later date (memory coupon).
European barrier	Only the last day closing price is relevant for monitoring the barrier.
Floor	Represents the minimum amount which is redeemed at a product's expiry, independent of the performance of the Underlying Asset.
Inverse	The Instrument performs in inverse proportion to the Underlying Asset.
Lock-in	If the lock-in level is reached, repayment is at least in a preassigned amount regardless of future development of the Underlying Asset price.
Look-back	Barrier and/or strike are set with a time delay (lookback phase).
Outperformance	Outperformance instruments allow for a disproportionate participation in the positive performance of the underlying upon maturity.
Open-end	The Instruments do not have a predetermined fixed maturity.
Partial Capital Protection	Capital protection is between 90% and 100% of the nominal value.
Participation	This indicates to what proportion the investor profits from the price performance of the Underlying Asset. This can be 1:1, over or under-proportional.
Puttable	The investor has the right to return the Instrument to the Issuer on certain days during the term.
Softcallable	The issuer has the right to cancel early, however, there is no obligation to do so.
TCM/COSI	Tri-party collateral management (TCM) offering features real-time exposure coverage and collateral substitution. The issuer of Collateral Secured Instruments provides SIX Swiss Exchange with collateral covering their current value. For the investor this means protection in case of issuer default.
Variable Coupon	The coupon amount can vary depending on a predefined scenario.
Worst-of	The return of the Instrument depends on the performance of the worst performing Underlying Asset.

The above list of product features is not exhaustive and a particular Instrument may have other product features.

4. Mechanisms of Product Types

4.1 Capital Protection Products (SSPA Category 11)

"Capital Protection Products" are primarily targeted at investors that (i) expect the value of the Underlying Asset to increase (or, in the case of "Capital Protection Products" with a bear feature, to decrease) but (ii) cannot exclude a sharp decrease (or, in the case of "Capital Protection Products" with a bear feature, a sharp increase) of the value of the Underlying Asset throughout the term of such "Capital Protection Products".

"Capital Protection Products" provide for a specific minimum redemption amount. The level of the minimum redemption amount representing the level of capital protection indicates the percentage of the nominal or par value of the "Capital Protection Product" that the investor will be entitled to at the settlement date. The Issuer sets it at the time of the issuance and it applies only at the end of the term or at maturity. The Issuer may set the level of the minimum redemption amount representing the level of capital protection below 100% of the nominal or par value of the "Capital Protection Products" (partial capital protection). Capital protection therefore does not mean that the investor is entitled to a redemption amount equal to the full nominal or par value of the "Capital Protection Products". The potential loss is limited by the minimum redemption amount, subject to the credit risk of the Issuer.

The product category "Capital Protection Products" includes in particular the following product types:

(a) Capital Protection Notes with Participation (SSPA Category 1100)

"Capital Protection Notes with Participation" are primarily targeted at investors that (i) expect the value of the Underlying Asset and its volatility to increase (or, in the case of "Capital Protection Notes with Participation" with a bear feature, the value of the Underlying Asset to decrease) but (ii) consider a sharp decrease of the value of the Underlying Asset to be possible (or, in the case of "Capital Protection Notes with Participation" with a bear feature, a sharp increase of the value of the Underlying Asset).

"Capital Protection Notes with Participation" allow investors to participate in the performance of the Underlying Asset. If the value of the Underlying Asset has developed favourably (i.e., if the value of the Underlying Asset has increased or, in case of "Capital Protection Notes with Participation" with a bear feature, decreased), the return will exceed the minimum redemption amount of the "Capital Protection Notes with Participation".

(b) Capital Protection Notes with Barrier (SSPA Category 1130)

"Capital Protection Notes with Barrier" are primarily targeted at investors that (i) expect the value of the Underlying Asset to increase (or, in the case of "Capital Protection Notes with Barrier" with a bear feature the value of the Underlying Asset to decrease) but (ii) consider a sharp decrease of the value of the Underlying Asset to be possible (or, in the case of "Capital Protection Notes with Barrier" with a bear feature, a sharp increase of the value of the Underlying Asset) and (iii) expect that the value of the Underlying Asset will not increase above (or, in case of "Capital Protection Notes with Barrier" with a bear feature, fall below) the specified barrier throughout the term of such "Capital Protection Notes with Barrier".

"Capital Protection Notes with Barrier" allow investors to participate in the performance of the Underlying Asset up (or, in case of "Barrier Capital Protection Certificates" with a bear feature, down) to such barrier. If the value of the Underlying Asset has developed favourably (i.e., if the value of the Underlying Asset has increased or, in case of "Barrier Capital Protection Certificates" with a bear feature, decreased), the return will exceed the minimum redemption amount of the "Barrier Capital Protection Certificates" but is limited by the level of the specified barrier. In case of a breach of such barrier, the redemption amount will be reduced but be at least equal to the minimum redemption amount.

(c) Capital Protection Notes with Twin-Win (SSPA Category 1135)

"Capital Protection Notes with Twin-Win" are primarily targeted at investors that (i) expect the value of the Underlying Asset to slightly increase or fall but (ii) consider a sharp decrease of the value of the Underlying Asset to be possible and (iii) expect that the value of the Underlying

Asset will not increase above a specified upper barrier and not fall below a specified lower barrier throughout the term of such "Capital Protection Notes with Twin-Win".

"Capital Protection Notes with Twin-Win" allow investors to participate in the absolute performance (positive as well as negative performance) of the Underlying Asset within the upper and lower barrier. If the value of the Underlying Asset has developed favourably (i.e., if the value of the Underlying Asset has increased or decreased but not breached either of the barriers), the return will exceed the minimum redemption amount of the "Capital Protection Notes with Twin-Win" but is limited by the level of the upper and lower barrier, respectively. In case of a breach of a barrier, the redemption amount will be reduced but be at least be equal to the minimum redemption amount.

(d) **Capital Protection Notes with Coupon (SSPA Category 1140)**

"Capital Protection Notes with Coupon" are primarily targeted at investors that (i) expect the value of the Underlying Asset to increase (or, in the case of "Capital Protection Notes with Coupon" with a bear feature, the value of the Underlying Asset to decrease) but (ii) consider a sharp decrease of the value of the Underlying Asset to be possible (or, in the case of "Capital Protection Notes with Coupon" with a bear feature, a sharp increase of the value of the Underlying Asset).

"Capital Protection Notes with Coupon" allow investors to participate in the performance of the Underlying Asset by receiving a periodic coupon payment. The amount of the coupon payment may be fixed or may be variable and depend on the value of the Underlying Asset at a specific date prior to each coupon payment date (variable coupon). In case of a variable coupon, the amount of the coupon payment increases (or, in case of "Capital Protection Notes with Coupon" with a bear feature, decreases) if the value of the Underlying Asset has developed favourably (i.e., if the value of the Underlying Asset has increased or, in case of "Capital Protection Notes with Coupon" with a bear feature, decreased). In case of "Capital Protection Notes with Coupon" with a fixed coupon, the payment of the coupon may depend on the value of the Underlying Asset not breaching a specified barrier (coupon at risk). If such barrier is breached, the investor will not be entitled to a coupon payment on the relevant coupon payment date.

4.2 **Yield Enhancement Products (SSPA Category 12)**

"Yield Enhancement Products" are primarily targeted at investors that expect (i) the value of the Underlying Asset to remain constant or to slightly increase (or, in the case of "Yield Enhancement Products" with a bear feature, to slightly decrease) and (ii) volatility of the Underlying Asset to decrease, in each case, throughout the term of the "Yield Enhancement Products".

"Yield Enhancement Products" provide for a redemption amount that is limited to a maximum amount (cap) and may provide for (fixed or variable) periodic coupon payments during the term.

"Yield Enhancement Products" may be linked to several Underlying Assets and may therefore offer a larger discount or coupon than "Yield Enhancement Products" linked to just one Underlying Asset.

The product category "Yield Enhancement Products" includes in particular the following product types:

(a) **Discount Certificates (SSPA Category 1200)**

"Discount Certificates" are primarily targeted at investors that expect the value of the Underlying Asset to move sideways or to slightly increase (or, in the case of "Discount Certificates" with a bear feature to move sideways or to slightly decrease), with falling volatility.

"Discount Certificates" are issued at a discount, i.e. a discount compared to a direct investment in the Underlying Asset. The redemption amount depends on the value of the Underlying Asset at redemption. If the value of the Underlying Asset has developed favourably (i.e., if the value of the Underlying Asset at redemption is above or, in case of "Discount Certificates" with a bear

feature, below) the specified strike price (typically the initial value of the Underlying Asset), the redemption amount will be equal to such strike price.

(b) Barrier Discount Certificates (SSPA Category 1210)

"Barrier Discount Certificates" are primarily targeted at investors that expect the value of the Underlying Asset (i) to remain constant or to slightly increase (or, in the case of "Barrier Discount Certificates" with a bear feature, to slightly decrease), with falling volatility, and (ii) not to fall below (or, in case of "Barrier Discount Certificates" with a bear feature, rise above) the specified barrier throughout the term of the "Barrier Discount Certificates".

"Barrier Discount Certificates" are issued at a discount, i.e. a discount compared to a direct investment in the Underlying Asset and provide for a conditional minimum redemption amount (i.e., the redemption amount is at least equal to, generally, 100% of the nominal or par value of the "Barrier Discount Certificates" if the specified barrier is not breached during the term of the "Barrier Discount Certificates").

If the value of the Underlying Asset has developed favourably (i.e., if the value of the Underlying Asset did not fall below or, in case of "Barrier Discount Certificates" with a bear feature, rise above) the specified barrier throughout the term of the "Barrier Discount Certificates" or, if the barrier is breached, the value of the Underlying Assets at redemption is at or above (or, in case of "Barrier Discount Certificates" with a bear feature, below) the specified strike price (typically the initial value of the Underlying Asset), the redemption amount will be equal to such strike price.

Multiple Underlying Assets (worst-of) enable more attractive product conditions, but with higher risk.

In contrast to "Discount Certificates" (SSPA Category 1200), the probability of receiving the maximum redemption amount under "Barrier Discount Certificates" is higher due to the conditional protection provided by the barrier, although the discount at which they are issued is generally smaller and therefore the return on an investment in "Barrier Discount Certificates" generally lower.

(c) Reverse Convertibles (SSPA Category 1220)

"Reverse Convertibles" are primarily targeted at investors that expect (i) the value of the Underlying Asset to move sideways or to slightly increase (or, in the case of "Reverse Convertibles" with a bear feature to move sideways or to slightly decrease) and (ii) falling volatility.

"Reverse Convertibles" allow investors to benefit from an enhanced return by receiving a periodic coupon payment. The redemption amount depends on the value of the Underlying Asset at the end of the term of the "Reverse Convertibles". If the value of the Underlying Asset has developed favourably (i.e., if the value of the Underlying Asset at redemption is above (or, in case of "Reverse Convertibles" with a bear feature, below) the specified strike price (typically the initial value of the Underlying Asset)), the redemption amount will be equal to such strike price.

(d) Barrier Reverse Convertibles (SSPA Category 1230)

"Barrier Reverse Convertibles" are primarily targeted at investors that expect the value of the Underlying Asset (i) to remain constant or to slightly increase (or, in the case of "Barrier Reverse Convertibles" with a bear feature, to slightly decrease), with falling volatility, and (ii) not to fall below (or, in case of "Barrier Reverse Convertibles" with a bear feature, rise above) the specified barrier throughout the term of the "Barrier Reverse Convertibles".

"Barrier Reverse Convertibles" allow investors to benefit from an enhanced return by receiving a periodic coupon payment and provide for a conditional minimum redemption amount at the end of the term of the "Barrier Reverse Convertibles" (i.e., the redemption amount is at least equal to, generally, 100% of the nominal or par value of the "Barrier Reverse Convertibles" if the specified barrier is not breached during the term of the "Barrier Reverse Convertibles")

If the value of the Underlying Asset has developed favourably (i.e., if the value of the Underlying Asset did not fall below or, in case of "Barrier Reverse Convertibles" with a bear feature, rise above) the specified barrier throughout the term of the "Barrier Reverse Convertibles" or, if the barrier is breached, the value of the Underlying Assets at redemption is at or above (or, in case of "Barrier Reverse Convertibles" with a bear feature, below) the specified strike price (typically the initial value of the Underlying Asset), the redemption amount will at least be equal to, generally, 100% of the nominal or par value of the "Barrier Reverse Convertibles".

Multiple Underlying Assets (worst-of) enable more attractive product conditions, but with higher risk.

In contrast to "Reverse Convertibles" (SSPA Category 1220), the probability of receiving the maximum redemption amount under "Barrier Reverse Convertibles" is higher due to the conditional protection provided by the barrier, although the periodic coupon payment and therefore the return on an investment in "Barrier Reverse Convertibles" is generally lower.

(e) Conditional Coupon Reverse Convertibles (SSPA Category 1255)

"Conditional Coupon Reverse Convertibles" are primarily targeted at investors that expect the value of the Underlying Asset to remain constant or to slightly increase (or, in the case of "Conditional Coupon Reverse Convertible" with a bear feature, to slightly decrease), with falling volatility.

"Conditional Coupon Reverse Convertible" typically provide for one or more coupon payments in respect of one or more observation dates on which the value of the Underlying Asset is observed. If the value of the Underlying Asset has increased (or in the case of "Conditional Coupon Reverse Convertible" with a bear feature, decreased) to a specified threshold, investors are entitled to a coupon payment in respect of such observation date.

If the value of the Underlying Asset has increased and it exceeds (or, in case of "Conditional Coupon Reverse Convertible" with a bear feature, has decreased and falls below) a specified threshold (autocall trigger), such "Conditional Coupon Reverse Convertible" are redeemed early on the relevant autocall trigger date and investors are entitled to an early redemption amount equal to, generally, 100% of the nominal or par value of the "Conditional Coupon Reverse Convertible" plus a coupon.

(f) Conditional Coupon Barrier Reverse Convertibles (SSPA Category 1260)

"Conditional Coupon Barrier Reverse Convertibles" are primarily targeted at investors that expect (i) the value of the Underlying Asset to remain constant or to slightly increase (or, in the case of "Conditional Coupon Barrier Reverse Convertibles" with a bear feature, to slightly decrease), with falling volatility, and (ii) not to fall below (or, in case of "Conditional Coupon Barrier Reverse Convertibles" with a bear feature, rise above) the specified barrier throughout the term of the "Conditional Coupon Barrier Reverse Convertibles".

"Conditional Coupon Barrier Reverse Convertibles" typically provide for one or more coupon payments in respect of one or more observation dates on which the value of the Underlying Asset is observed. If the value of the Underlying Asset has increased (or in the case of "Conditional Coupon Barrier Reverse Convertibles" with a bear feature, decreased) to a specified threshold, investors are entitled to a coupon payment in respect of such observation date.

If the value of the Underlying Asset has increased and exceeds (or, in case of "Conditional Coupon Barrier Reverse Convertibles" with a bear feature, has decreased and falls below) a specified threshold (autocall trigger), such "Conditional Coupon Barrier Reverse Convertible" are redeemed early on the relevant autocall trigger date and investors are entitled to an early redemption amount equal to, generally, 100% of the nominal or par value of the "Conditional Coupon Barrier Reverse Convertible" plus a coupon.

"Conditional Coupon Barrier Reverse Convertible" provide for a conditional minimum redemption amount at the end of the term of the "Conditional Coupon Barrier Reverse

Convertible" (i.e., the redemption amount is at least equal to, generally, 100% of the nominal or par value of the "Conditional Coupon Barrier Reverse Convertible" if the specified barrier is not breached during the term).

If the value of the Underlying Asset has developed favourably (i.e., if the value of the Underlying Asset did not fall below (or, in case of "Conditional Coupon Barrier Reverse Convertible" with a bear feature, rise above) the specified barrier throughout the term of the "Conditional Coupon Barrier Reverse Convertible" or, if the barrier is breached, the value of the Underlying Assets at redemption is at or above (or, in case of "Conditional Coupon Barrier Reverse Convertible" with a bear feature, below) the specified strike price (typically the initial value of the Underlying Asset), the redemption amount will at least be equal to, generally, 100% of the nominal or par value of the "Conditional Coupon Barrier Reverse Convertible".

4.3 **Participation Products (SSPA Category 13)**

"Participation Products" are primarily targeted at investors (i) that expect the value of the Underlying Asset to increase (or, in the case of "Participation Products" with a bear feature, to decrease), (ii) but are unwilling or unable to make an investment in the amount required for a direct investment achieving the desired participation in the development of the value of the Underlying Asset.

"Participation Products" generally track the performance of the Underlying Asset and enable investors to participate in the performance of the Underlying Asset. Depending on the structure of the "Participation Product", investors participate proportionately or disproportionately in the performance of the Underlying Asset. The profit an investor may achieve by investing in a "Participation Product" is theoretically unlimited, but there is the risk of total loss.

"Participation Products" can provide for a minimum redemption amount. The level of the minimal redemption amount representing the level of capital protection indicates the percentage of the nominal or par value of the "Participation Products" that the investor will be entitled to at the settlement date, provided the barrier is not reached, if applicable. If the barrier is reached or exceeded (either above or below), investors lose the minimum redemption amount (limited capital protection). The redemption in the case of "Participation Products", depending on the structure or the Underlying Asset, may be made by payment of a cash settlement amount or the physical delivery of the relevant Underlying Asset, adjusted in accordance with the ratio.

The product category "Participation Products" includes in particular the following product types:

(a) **Tracker Certificates (SSPA Category 1300)**

"Tracker Certificates" are primarily targeted at investors that expect the value of the Underlying Asset to increase (or, in the case of "Tracker Certificates" with a bear feature, to decrease). "Tracker Certificates" allow an investor to participate in the performance of one or more Underlying Assets, which can be equally or unequally weighted. The profit and loss potential of the "Tracker Certificates" corresponds largely to that of the Underlying Assets and is not limited.

(b) **Outperformance Certificates (SSPA Category 1310)**

"Outperformance Certificates" are primarily targeted at investors that expect (i) the value of the Underlying Asset to increase (or, in the case of "Outperformance Certificates" with a bear feature, to decrease) and (ii) the volatility to increase.

"Outperformance Certificates" allow investors to participate in the performance of the Underlying Assets.

If the defined strike price is reached, the participation of the investor is increased through a participation factor resulting in a disproportionate participation in the positive performance (or, in case of an "Outperformance Certificate" with a bear feature, in the negative performance) of the Underlying Asset. Such "Outperformance Certificates" may provide for a limit on the

achievable profits (cap). The loss potential of the "Outperformance Certificates" corresponds largely to that of the Underlying Assets and there is the risk of total loss.

(c) Bonus Certificates (SSPA Category 1320)

"Bonus Certificates" are primarily targeted at investors that expect (i) the value of the Underlying Asset to move sideways or to increase (or, in the case of "Bonus Certificates" with a bear feature, to decrease) and (ii) the Underlying Asset not to reach or breach the defined barrier throughout the term of such "Bonus Certificates".

"Bonus Certificates" allow the investor to participate in the performance of the Underlying Asset and provide for a conditional minimum redemption amount at the end of the term of the "Bonus Certificates".

If the specified barrier is not reached or breached during the term of the "Bonus Certificate", the investor will receive at least the minimum redemption amount and the potential profit corresponds largely to that of the Underlying Assets and is not limited.

If the barrier is reached or breached, such "Bonus Certificates" change into "Tracker Certificates", with no capital protection. The loss potential then corresponds largely to that of the Underlying Assets and there is the risk of total loss.

(d) Bonus Outperformance Certificates (SSPA Category 1330)

"Bonus Outperformance Certificates" are primarily targeted at investors that expect (i) the value of the Underlying Asset to increase (or, in the case of "Bonus Outperformance Certificates" with a bear feature, to decrease) and (ii) the Underlying Asset not to reach or breach the specified barrier throughout the term of such "Bonus Outperformance Certificates".

"Bonus Outperformance Certificates" allow the investor to participate in the performance of the Underlying Asset and provide for a conditional minimum redemption amount at the end of the term of the "Bonus Outperformance Certificates".

If the specified barrier is not reached or breached during the term of the "Bonus Outperformance Certificate", investor will receive at least the minimum redemption amount.

Furthermore, if the defined strike price is reached, the participation of the investor is increased by a participation factor resulting in a disproportionate participation in the positive performance (or, in case of an "Bonus Outperformance Certificate" with a bear feature, in the negative performance) of the Underlying Asset and the potential profit is not limited.

If the specified barrier is reached or breached during the term of the "Bonus Outperformance Certificates", such "Bonus Outperformance Certificates" change into "Outperformance Certificates", with no capital protection. The loss potential then corresponds largely to that of the Underlying Assets and there is the risk of total loss.

(e) Twin Win Certificates (SSPA Category 1340)

"Twin Win Certificates" are primarily targeted at investors that expect (i) the value of the Underlying Asset to move sideways or to increase (or, in the case of "Twin Win Certificates" with a bear feature, to decrease or move sideways) and (ii) the Underlying Asset not to breach the defined barrier throughout the term of such "Twin Win Certificates"

"Twin Win Certificates" allow the investor to participate in the performance of the Underlying Asset. Profits are possible with both an increasing and slightly decreasing value of the Underlying Asset (or, in the case of "Twin Win Certificates" with a bear feature decreasing or slightly increasing value of the Underlying Asset).

If the value of the Underlying Asset increases above the strike price, the value of the "Twin Win Certificates" and the profit corresponds largely to that of the Underlying Assets and the potential profit is not limited.

If the value of the Underlying Assets is below the strike price, but the value of the Underlying Asset did not touch or fall below the barrier throughout the term of such "Twin Win Certificates", then the negative performance of the Underlying Asset is converted into corresponding profits for investors in the "Twin Win Certificates".

"Twin Win Certificates" provide for a conditional minimum redemption amount. The level of the minimum redemption amount representing the level of partial capital protection indicates the percentage of the nominal or par value of the "Twin Win Certificates" that the investor will be entitled to at the settlement date, provided the barrier is not reached or breached.

If the barrier is breached, such "Twin Win Certificates" change into "Tracker Certificates" and the loss potential then corresponds largely to that of the Underlying Assets and there is the risk of total loss.

4.4 **Investment Products with Additional Credit Risk (SSPA Category 14)**

"Investment Products with Additional Credit Risk" are affected by the occurrence of a defined credit event in respect of a reference entity or obligation. If a credit event occurs in respect of a reference entity or obligation during the term of the "Investment Products with Additional Credit Risk", they will be redeemed at a value which may be significantly below their initial value and as low as zero and investors will make a partial or total loss. An investor may consider an investment in such products if premature default of the reference entity is considered extremely unlikely.

The product category "Investment Products with Additional Credit Risk" includes in particular the following product types:

(a) **Credit Linked Notes (SSPA Category 1400)**

"Credit Linked Notes" are primarily targeted at investors that expect that no credit event to occur with regard to a reference entity or reference obligation. Generally, if during the term of a "Credit Linked Note" a credit event or a credit redemption event in respect of the relevant reference entity or reference entities occurs, further coupon payments and the repayment of the entire or part of the redemption amount are jeopardised as specified in the applicable terms and conditions of the respective "Credit Linked Note" (early redemption). In such case the amount investors receive may be significantly below its initial value and as low as zero and investors will make a partial or total loss. Therefore, in particular, the solvency of a specific reference entity is decisive.

Generally, if during the term of a "Credit Linked Note" no credit event or credit redemption event occurs in respect of the relevant reference entity resp. reference entities, "Credit Linked Notes" generally provide for a defined scheduled redemption amount equal to a certain percentage of the relevant outstanding principal amount specified in the applicable terms and conditions, which investors will receive on the defined scheduled maturity date, provided that the product is not redeemed prior to the scheduled maturity date.

(b) **Conditional Capital Protection Notes with Additional Credit Risk (SSPA Category 1410)**

"Conditional Capital Protection Notes with Additional Credit Risk" are primarily targeted at investors that (i) expect the value of the Underlying Asset to increase (or, in the case of "Conditional Capital Protection Notes with Additional Credit Risk" with a bear feature, to decrease), (ii) consider a sharp decrease of the value of the Underlying Asset to be possible (or, in the case of "Conditional Capital Protection Notes with Additional Credit Risk" with a bear feature, a sharp increase of the value of the Underlying Asset) and (iii) and expect no credit event to occur with regard to a reference entity or obligation.

"Conditional Capital Protection Notes with Additional Credit Risk" may have one or more underlying reference entities or obligations. If during the term of the "Conditional Capital Protection Notes with Additional Credit Risk" no credit event occurs in respect of the reference entity or obligation, investors will participate in the performance of the Underlying Asset. If the value of the Underlying Asset has developed favourably (i.e., if the value of the Underlying Asset has increased or, in case of "Conditional Capital Protection Notes with Additional Credit

Risk" with a bear feature, decreased), the return will exceed the minimum redemption amount of the "Conditional Capital Protection Notes with Additional Credit Risk". Therefore, if no credit event occurs, "Conditional Capital Protection Notes with Additional Credit Risk" work in the same manner as the corresponding "Capital Protection Product" on which they are based.

If a credit event occurs in respect of the reference entity or obligation during the term of the "Conditional Capital Protection Notes with Additional Credit Risk", the investor loses the capital protection and the "Conditional Capital Protection Notes with Additional Credit Risk" will be redeemed at a value which may be significantly below their initial value and as low as zero and investors will make a partial or total loss.

(c) **Yield Enhancement Certificates with Additional Credit Risk (SSPA Category 1420)**

"Yield Enhancement Certificates with Additional Credit Risk" are primarily targeted at investors that expect (i) the value of the Underlying Asset to move sideways or to slightly increase (or, in the case of "Yield Enhancement Certificates with Additional Credit Risk" with a bear feature to slightly decrease), with falling volatility, and (ii) no credit event to occur with regard to a reference entity or obligation.

"Yield Enhancement Certificates with Additional Credit Risk" may have one or more underlying reference entities or obligations. If during the term of the "Yield Enhancement Certificates with Additional Credit Risk" no credit event occurs in respect of the reference entity or obligation, investors will receive a coupon or a discount and the "Yield Enhancement Certificates with Additional Credit Risk" will work in the same manner as the corresponding "Yield Enhancement Product" on which they are based.

If a credit event occurs in respect of the reference entity or obligation during the term of the "Yield Enhancement Certificates with Additional Credit Risk", they will be redeemed at a value which may be significantly below their initial value and as low as zero and investors will make a partial or total loss.

(d) **Participation Certificates with Additional Credit Risk (SSPA Category 1430)**

"Participation Certificates with Additional Credit Risk" are primarily targeted at investors that expect (i) the value of the Underlying Asset to increase (or, in the case of "Participation Certificates with Additional Credit Risk" with a bear feature, to decrease) and (ii) no credit event to occur with regard to a reference entity or obligation.

"Participation Certificates with Additional Credit Risk" may have one or more underlying reference entities or obligations. If during the term of the "Participation Certificates with Additional Credit Risk" no credit event occurs in respect of the reference entity or obligation, investors will participate in the performance of the Underlying Asset in the same manner as the corresponding "Participation Product" on which they are based.

If a credit event occurs in respect of the reference entity or obligation during the term of the "Participation Certificates with Additional Credit Risk", they will be redeemed at a value which may be significantly below their initial value and as low as zero and investors will make a partial or total loss.

4.5 Leverage Products (SSPA Category 20)

"Leverage Products" are subject to a leverage effect both in the direction of profits and losses, i.e., changes in the value of the Underlying Asset have a disproportionate effect on the value of "Leveraged Products" compared to a direct investment in the Underlying Asset. The leverage effect permits investors to use less capital compared to investing directly in the Underlying Asset.

The product category "Leverage Products" includes in particular the following product types:

(a) **Warrants (SSPA Category 2100)**

"Warrants" with a call feature are primarily targeted at investors that expect the value of the Underlying Asset and the volatility to increase. "Warrants" with a put feature are primarily targeted at investors that expect the value of the Underlying Asset to decrease and volatility to increase. "Warrants" are therefore suitable for hedging and speculating.

The essential attribute of "Warrants" is the leverage effect. The leverage effect causes the value of such "Warrants" to react proportionally more strongly to changes in the value of the Underlying Asset below or above the strike price, as applicable. The leverage is the result of the fact that the invested capital in such "Warrants" is smaller than for a direct investment in the Underlying Asset. Therefore, a smaller investment may generate a leveraged positive or negative performance relative to the Underlying Asset.

(b) Spread Warrants (SSPA Category 2110)

"Spread Warrants" with a bull feature are primarily targeted at investors that expect the value of the Underlying Asset to increase. "Spread Warrants" with a bear feature are primarily targeted at investors that expect the value of the Underlying Asset to decrease.

"Spread Warrants" provide for a leverage effect, meaning the value of such "Spread Warrants" will react proportionally more strongly to changes in the value of the Underlying Asset below or above the strike price, as applicable. The leverage is the result of the fact that the invested capital in such "Spread Warrants" is smaller than for a direct investment in the Underlying Asset. Therefore, a smaller investment may generate a leveraged performance relative to the Underlying Asset.

The potential yield of an investment in "Spread Warrants" is limited, namely by the upper cap in the case of "Spread Warrants" with a bull feature and by the lower cap in the case of "Spread Warrants" with a bear feature. This means that an investor may benefit from an increase (in the case of a bull feature) or a decrease (in the case of a bear feature) of the value of the Underlying Asset up to a maximum value at the lower or upper cap, as applicable.

(c) Warrants with Knock-Out (SSPA Category 2200)

"Warrants with Knock-Out" and a call feature are primarily targeted at investors that expect the value of the Underlying Asset to increase. "Warrants with Knock-Out" and a put feature are primarily targeted at investors that expect the value of the Underlying Asset to decrease-

"Warrants with Knock-Out" provide for a leverage effect, meaning the value of such "Warrants with Knock-Out" will react proportionally more strongly to changes in the value of the Underlying Asset below or above the knock out, as applicable. The leverage is the result of the fact that the invested capital in such "Warrants with Knock-Out" is smaller than for a direct investment in the Underlying Asset. Therefore, a smaller investment may generate a leveraged performance relative to the Underlying Asset.

Volatility only has a minor effect on the value of "Warrants with Knock-Out" and also the loss of time value is marginal.

(d) Mini-Futures (SSPA Category 2210)

"Mini Futures" (long) are primarily targeted at investors that expect the value of the Underlying Asset to increase. "Mini Futures" (short) are primarily targeted at investors that expect the value of the Underlying Asset to decrease. "Mini Futures" are therefore suitable for hedging and speculating.

"Mini Futures" provide for a leverage effect, meaning the value of such "Mini Futures" will react proportionally more strongly to changes in the value of the Underlying Asset below or above the stop-loss barrier. The leverage effect is the result of the fact that the invested capital in such "Mini Futures" is smaller than for a direct investment in the Underlying Asset. Therefore, a smaller investment may generate a leveraged performance relative to the Underlying Asset.

Volatility has no influence on "Mini Futures".

(e) Constant-Leverage Certificates (SSPA Category 2300)

"Constant Leverage Certificates" (long) are primarily targeted at investors that expect the value of the Underlying Asset to increase. "Constant Leverage Certificates" (short) are primarily targeted at investors that expect the value of the Underlying Asset to decrease. "Constant Leverage Certificates" allow investors to make long term-leveraged investments in an Underlying Asset for which the risk and leverage effect are kept constant.

"Constant Leverage Certificates" provide for a leverage effect, meaning the value of such "Constant Leverage Certificates" will react proportionally more strongly to changes in the value of the Underlying Asset. The leverage effect is the result of the fact that the invested capital in such "Constant Leverage Certificates" is smaller than for a direct investment in the Underlying Asset. Therefore, a smaller investment may generate a leveraged performance relative to the Underlying Asset. Unlike other "Leverage Products", the leverage effect of "Constant Leverage Certificates" remains constant. A regular resetting mechanism under which the performance of the Underlying Asset is mirrored with a defined leverage factor (i.e., a constant leverage of, for example, 10), ensures that the leverage effect remains constant.

BBSW

The website referred to above for BBSW is located on the website of the Australian Stock Exchange (the "ASX") at <https://www2.asx.com.au/connectivity-and-data/information-services/benchmarks/benchmark-data/bbsw> (the "BBSW Website").

The administrator and publisher of BBSW is ASX Benchmarks Pty Limited ("ASX Benchmarks"), a wholly owned subsidiary of ASX Limited, the company that operates several trading, clearing and settlement platforms in Australia, including the ASX. ASX Benchmarks has been the BBSW administrator since January 1, 2017.

BBSW is a forward-looking, unsecured, short-term money market rate that reflects prime bank facing credit exposure. BBSW is intended to measure the cost for highly rated banks in Australia to issue short-term securities for specified tenors. The group of banks contributing to BBSW are those operating in Australia whose short-term securities trade as a homogenous asset class and are recognised as being of the highest quality with regard to liquidity, credit and consistency of relative yield. Eligibility to contribute to BBSW is reviewed on an annual basis.

Pursuant to the applicable methodology for BBSW as provided on the BBSW Website, BBSW is calculated based on a combination of transaction data and live executable prices using a waterfall methodology comprised of three main stages. The primary layer is calculated in the following manner: (i) if the eligible trades all occur on the same trade date, the BBSW is based on a volume weighted average of all eligible trades reported to ASX Benchmarks during the rate set window or (b) if the eligible trades fall on multiple maturity dates, the BBSW is based on a weighted methodology using "least squares" to determine a "line of best fit" through the eligible trade data. When a BBSW rate cannot be determined under either methodology of the primary layer, the secondary layer will be used to determine the BBSW by sampling bid/offer spreads from approved trading venues during three different sample periods and then calculating the average midpoint for such bid/offer spreads. In the event that the secondary layer is unable to provide a BBSW rate, then the tertiary layer consisting of a fallback methodology with five stages is employed, including interpolation or extrapolation of the rate depending on the tenor to be calculated and possible reversion to the prior day's BBSW.

ASX Benchmarks publishes BBSW each business day on the BBSW Website on a 24 hour delayed basis and maintains a 10 day history of BBSW. ASX provides real time BBSW data and additional historical data through a paid subscription to ASX Benchmarks Data.

EURIBOR

The website referred to above for EURIBOR is located on the website of its administrator, EMMI at <https://www.emmi-benchmarks.eu/benchmarks/euribor/rate/> (the "**EURIBOR Website**").

EURIBOR was launched by EMMI to replace the interbank rates of various EU countries. EURIBOR is intended to measure the cost of wholesale funding of credit institutions in the unsecured euro money market.

Pursuant to the applicable methodology (which is reviewed by EMMI on an annual basis) as provided on the EURIBOR Website, EURIBOR is calculated based on contributions from a representative panel of financial institutions selected by the EURIBOR Oversight Committee that are active participants in the euro money markets. The information provided by each contributor follows a three-level hierarchical approach. The first level ("**Level 1**") consists of quotes based solely on eligible transactions in the unsecured euro money market with a minimal notional amount of 10 million euros and the contribution rate for each financial institution providing Level 1 information is calculated using a volume weighted average of the eligible transactions by tenor. The second level ("**Level 2**") consists of contributions based on transactions across the broader money market maturity spectrum. If a contributor has insufficient eligible transactions for a Level 1 contribution rate to be calculated for a given tenor, but it has had transactions in nearby maturities, or quite recently, a Level 2 contribution can be calculated in the following order of operations: (i) adjusted linear interpolation from adjacent EURIBOR tenors, (ii) adjusted linear interpolation from transactions at non-EURIBOR tenors and (iii) most recent historical Level 1 contributions subject to a market adjustment factor derived from EURIBOR futures. The third level ("**Level 3**") consists of contributions based on transactions from a range of markets closely related to the unsecured euro money market. For Level 3 contributions, each contributor uses specific input data and tailor-made modelling techniques depending on their own funding models. All Level 3 contributions must be duly documented, validated, and always applied in a consistent fashion, under the guidance of EMMI. Once the contribution rate is calculated and received from each member of the panel of financial institutions, Global Rate Set Systems, the current calculation agent for EURIBOR, determines the daily rate for each EURIBOR tenor by eliminating the highest and lowest 15% of the contribution rates and arithmetically averaging the remaining rates.

EMMI publishes EURIBOR each business day on the EURIBOR Website which contains the last 25 days of published rates on a 24 hour delayed basis and is available without charge to any person who creates an account with EMMI. Real time EURIBOR data can be obtained by paid subscription that can be purchased through the EURIBOR Website or from authorised vendors.

KRW CD 91 Rate

The website referred to above for the KRW CD 91 Rate is located on KOFIA's website at <https://www.kofiabond.or.kr>.

The KRW CD 91 Rate, which is the key short-term benchmark interest rate in Korea, is (i) calculated by KOFIA based on the basic yield data of KRW CD submitted by the top ten institutions designated by KOFIA based on the volume of KRW CD traded during the immediately preceding year (the "**Submitting Institutions**") as of 16:00 (Seoul time) on each business day and (ii) published by 16:30 (Seoul time) every business day by KOFIA. The top ten Submitting Institutions are designated by KOFIA every year. Historical KRW CD 91 Rate information may be obtained free of charge on the following "Statistics" section of KOFIA's website: [freesis.kofia.or.kr/stat/engMain.do](https://www.kofia.or.kr/stat/engMain.do).

TORF

The website referred to above for TORF is located on the website of Quick Benchmarks, Inc. ("**Quick**"), the administrator of TORF at: <https://www.torf.co.jp/en/document/> (the "**TORF Website**").

Quick Corp. commenced daily publication of TORF on a prototype basis on 9 October, 2020. Quick Corp. established Quick on 18 January 2021 to be responsible for the calculation and publication of TORF. Quick commenced daily publication of TORF on a production basis (i.e., for use in transactions) on 26 April, 2021. TORF is a forward-looking term reference rate calculated by Quick for tenors of one, three and six months. Pursuant to the methodology for TORF available on the TORF Website, TORF is calculated by Quick based on the transaction rate of OIS transactions in Japanese yen, and is intended

to show the risk-free rate of Japanese yen term products at the beginning of the interest rate calculation period ("fixing in advance" method). Japanese yen OIS transactions are interest rate swaps that use TONA as the reference floating interest rate. Reporting brokers—i.e., money brokers or other intermediaries selected by Quick in accordance with the procedures set out in Quick's Operational Rules—provide execution data (i.e. data regarding Japanese yen OIS transaction executed at the reporting broker) and quote data (i.e., data of orders submitted by trading participants at the reporting broker on the premise of a transaction) to Quick for the purpose of calculating TORF. The TORF reporting brokers are Ueda Tradition Securities Ltd. Tullett Prebon (Japan) Limited and Totan ICAP Co., Ltd. The execution rate or quote rate reported by reporting brokers to calculate TORF is the interest rate on the fixed interest rate side that is exchanged for TONA, which is a floating interest rate. Quick uses a waterfall methodology to prioritise the data provided by the reporting brokers and calculate TORF for the relevant tenors. The waterfall prioritises the use of execution data, followed by different categories of quote data.

Quick currently publishes TORF on a daily basis (subject to a 24-hour delay) on its website at: <https://moneyworld.jp/page/torf.html>.

ICE Swap Rates

The website referred to above for the U.S. Dollar SOFR ICE Swap Rate®, the GBP ICE SONIA Swap Rate® and the EUR ICE EURIBOR Swap Rate® (each, an "ICE Swap Rate"), is located on website of the administrator of the ICE Swap Rates, ICE Benchmark Administration Limited ("IBA"), at <https://www.theice.com/iba/ice-swap-rate> (the "ICE Swap Rate® Website").

Each ICE Swap Rate represents the mid-price for interest rate swaps (the fixed leg) and swap spreads (the applicable mid-price minus a corresponding specified government bond yield) in the applicable currency (USD, GBP and EUR) in various tenors ranging from 1 year to 30 years at particular specified times of the day. In June 2020, IBA implemented a waterfall approach for the ICE Swap Rate methodology, which each of the ICE Swap Rates follow. Subsequently, the U.S. Dollar SOFR ICE Swap Rate® was launched by IBA for use as a benchmark on 8 November, 2021 in order to aid the market's transition to SOFR and away from U.S. dollar LIBOR and the GBP SONIA ICE Swap Rate® was launched by IBA for use as a benchmark on 14 December, 2020 in order to aid the market's transition to SONIA as the preferred near risk-free rate for use in Sterling derivatives.

To calculate the ICE Swap Rates, IBA relies on eligible, executable prices and volumes provided by regulated, electronic, trading venues and, if such trading venues do not provide sufficient eligible input data, eligible dealer to client prices and volumes displayed electronically by trading venues. If there is insufficient eligible input data to calculate a rate in accordance with the foregoing sentence, IBA uses movement interpolation, where possible for applicable tenors, to calculate a rate. Where it is not possible to calculate an ICE Swap Rate for an applicable tenor in accordance with the foregoing, then IBA's Insufficient Data Policy as set forth on the ICE Swap Rate® Website will apply and "No Publication" will be published for the ICE Swap Rate of the applicable tenor. The ICE Swap Rate for the various applicable tenors as reported on the ICE Report Center is expressed as an integer rounded to two decimal places; however, for purpose of calculations of interest with respect to the notes, such rate will be deemed to be expressed as a percentage.

The ICE Swap Rates are calculated on each weekday other than those set forth in IBA's ICE Swap Rate Holiday Calendar, which is available on the ICE Swap Rate® Website, and published in the ICE Report Center, a link to which is available on the ICE Swap Rate® Website. For any particular day, the only rate available for viewing on the ICE Report Center is the rate published for the preceding publication day.

TONA TSR

The website referred to above for TONA TSR, is located on the website of its administrator Refinitiv Benchmark Services (UK) Limited ("RBSL") at <https://www.refinitiv.com/en/financial-data/financial-benchmarks/tokyo-swap-rate> (the "TONA TSR Website").

TONA TSR was launched by RBSL for use as a benchmark on 28 October 2021 in order to establish a representative benchmark reference rate for OIS that reference TONA. The TONA OIS market exists

primarily within Japan. In December 2016, the Japanese Study Group on Risk-Free Reference Rates announced TONA as its preferred risk free rate for Japanese yen.

Pursuant to the applicable methodology for TONA TSR available on the TONA TSR Website, TONA TSR is calculated using a waterfall methodology comprising two levels ("**Level 1**" and "**Level 2**"). Level 1 is based on executable dealer-to-client quotes in spot starting TONA OIS contracts from Tradeweb, a dealer-to-client trading platform, subject to a threshold for input data sufficiency. Quotes are captured for spot starting TONA OIS contracts cleared by the Japan Securities Clearing Corporation ("**JSCC**") in respect of each tenor of TONA TSR. Input data for Level 2 comprises indicative rates for spot starting TONA OIS contracts cleared by the JSCC taken from two inter-dealer brokers, Tradition and TP ICAP, and Tradeweb (composite rates). In addition, any dealer quotes from Tradeweb that are available but, when considered alone, are insufficient to meet the threshold for Level 1 for a specific tenor of TONA TSR will be included as input data for Level 2. Use of Level 2 for determination of each benchmark tenor also is based on a threshold for input data sufficiency. TONA TSR is published as a percentage rounded to three decimal places.

TONA TSR is calculated and published on each Tokyo business day. RBSL does not make publicly available historical rates for TONA TSR and has not indicated whether such information will become publicly available in the future. In order to access such information, an investor will need to obtain a paid subscription to an LSEG service such as Refinitiv Eikon.

KRW CMS Rate

The following information relating to the KRW CMS Rate is based on limited market information available to the Issuer and its affiliates, including the Dealer.

KRW CMS represents the mid-market rate for a Korean won deliverable interest rate swap in various tenors ranging from 1 year to 30 years, where the floating leg is based on the 91-day Korean won CD rate, equal to the arithmetic mean of the live bid and ask rates, collected by Tullett Prebon Information (or a successor information provider) and provided to Bloomberg, which appear on Bloomberg Page "GDCO 4572 33" (or any successor or replacement page to the applicable page as determined by the Calculation Agent). There is no administrator or calculation methodology for the KRW CMS Rate. The Calculation Agent will determine KRW CMS as a simple arithmetic mean of the live bid and ask rates that appear on the relevant screen page at the Relevant Time.

Bloomberg provides the bid and ask rates for Korean won deliverable interest rate swaps to its subscribers on a live basis each Seoul business day and the bid and ask rates are updated throughout the day. KRW CMS for a given business day will be determined by the Calculation Agent based on the bid and ask rates provided by Bloomberg on or after 4:00 p.m. Seoul time on such business day, or such other Relevant Time as may be specified in the applicable Final Terms.

Tullett Prebon Information does not make publicly available any historical rate information with respect to the KRW CMS Rate, or any information relating to the data/information that is used to calculate or determine the bid and ask rates that it provides to Bloomberg, the sources from which such data/information is obtained, how it calculates such bid and ask rates, or its publication practices with respect thereto. A paid subscription to an information services provider such as Bloomberg is required to obtain historical rate information relating to the bid and ask rates upon which the KRW CMS Rate is based.

SOFR, SONIA and TONA

SOFR

The website referred to above for SOFR is located on the website of the SOFR Administrator at <https://apps.newyorkfed.org/markets/autorates/sofr> (the "**SOFR Website**").

SOFR was selected by the Federal Reserve Bank of New York ("**FRBNY**") in 2017 as a replacement for U.S. LIBOR and since 2018 has been published by the FRBNY and is intended to be a broad measure of the cost of borrowing cash overnight collateralised by U.S. Treasury securities. The SOFR Administrator reports that SOFR includes all trades in the Broad General Collateral Rate, plus bilateral Treasury repurchase agreement ("**repo**") transactions cleared through the delivery-versus-payment service offered by the Fixed Income Clearing Corporation (the "**FICC**"), a subsidiary of The Depository Trust &

Clearing Corporation ("**DTCC**"). SOFR is filtered by FRBNY to remove a portion of the foregoing transactions considered to be "specials." According to FRBNY, "specials" are repos for specific-issue collateral which take place at cash-lending rates below those for general collateral repos because cash providers are willing to accept a lesser return on their cash in order to obtain a particular security.

SOFR is calculated as a volume-weighted median of transaction-level tri-party repo data collected from The Bank of New York Mellon, which currently acts as the clearing bank for the tri-party repo market, as well as General Collateral Finance Repo transaction data and data on bilateral U.S. Treasury repo transactions cleared through the FICC's delivery-versus-payment service. FRBNY notes that it obtains information from DTCC Solutions LLC, an affiliate of DTCC.

FRBNY currently publishes SOFR for the preceding 25 business days each business day at approximately 8:00 a.m. ET on the SOFR Website. Historical data for an earlier period can be obtained on the SOFR Website through the historical data search function.

SONIA

The website referred to above for SONIA, is located on the website of its administrator the Bank of England ("**BOE**") at <https://www.bankofengland.co.uk/markets/sonia-benchmark> (the "**SONIA Website**")

SONIA is intended to be a measure of the rate of interest paid on sterling short-term wholesale funds. SONIA was first established in March 1997 by the Wholesale Markets Brokers' Association. BOE became the Administrator for SONIA in 2016 and reformed the methodology on April 23, 2018.

SONIA is the trimmed mean of interest rates paid on eligible sterling deposit transactions, rounded to four decimal places. Eligible transactions are (1) reported to the BOE's Sterling Money Market daily collection; (2) unsecured with a maturity date of T+1; (3) executed between 00:00 and 18:00 UK time and settled the same day; and (4) at least £25,000,000 in value.

To calculate SONIA, BOE relies on data reported to its Sterling Money Market daily data collection, in accordance with the effective Form SMMD. Form SMMD is a daily, transaction-level data collection instrument for key sterling money markets. SONIA is calculated as the volume-weighted mean rate, based on the middle 50% of the volume-weighted distribution of rates.

For each London business day, SONIA is published at 9:00am UK time the following business day. Authorised redistributors of SONIA are Bloomberg, Refinitiv, ICE Group and SIX Financial Information Ltd. SONIA is freely available on the BOE's Interactive Statistical Database available through the SONIA Website by 10:00am the business day after it was initially published, along with historical data dating back to 1997.

TONA

The website referred to above for TONA, is located on the website of its administrator the Bank of Japan at <https://www.boj.or.jp/en/statistics/market/short/mutan/index.htm/> (the "**TONA Website**").

In December 2016 the Japanese Study Group on Risk-Free Reference Rates announced TONA as its preferred risk free rate for Japanese yen. TONA is administered and published by the Bank of Japan. TONA represents the rates of transactions brokered by money market brokers settled on the same day as the trade date and maturing the following business day in the Japanese uncollateralised call money market. TONA is the volume-weighted average call rate, calculated by dividing the sum of the product of each transaction volume and the corresponding rate by the sum of the overall transaction volumes.

To calculate TONA, the Bank of Japan relies on data submitted by information providers (rounded to three decimal places). As of the date of this Offering Circular, the information providers are Ueda Yagi Tanshi Co., Ltd. Central Tanshi Co., Ltd. and The Tokyo Tanshi Co., Ltd.

The Bank of Japan currently publishes on each business day, the provisional results for TONA for such business day on or after 5:15 p.m. (Japan time) (or 6:15 p.m. (Japan time), in the case of the last business days of each month except December) and the final results for TONA for the preceding business day at 10 a.m. (Japan time) at https://www3.boj.or.jp/market/en/menu_m.htm. Final results for TONA for every business day in 2023 and 2024 may be obtained through the same website.

"Korean Notes:

Each Series of Korean Notes to be issued by MLBV will be issued pursuant to a distribution and registration agreement dated 20 July 2023 (such distribution and registration agreement, as

amended and/or supplemented and/or restated and/or replaced from time to time, the "**English Law Distribution and Registration Agreement**"), which is governed by English law and made among MLBV, the Guarantor, the distributor named therein (the "**Distributor**", which expression includes any additional distributors appointed from time to time in connection with the Korean Notes) and the registration agent named therein (the "**Registration Agent**", which expression includes any additional registration agents appointed from time to time in connection with the Korean Notes). For the avoidance of doubt, and save as otherwise provided herein, references to the "Guarantee" in the Note Conditions shall mean the Korean Notes Guarantee, as the context requires. The guarantee dated 15 May 2024 executed by BAC in respect of Instruments (other than Secured Instruments) issued by MLBV under the Amended and Restated English Law Agency Agreement dated as of 15 May 2024 and the guarantee dated 15 May 2024 executed by BAC in respect of CMU Notes issued by MLBV under the CMU Agency Agreement dated as of 15 May 2024 and, to the extent applicable and not conflicting or inconsistent with the CMU Agency Agreement, the Amended and Restated English Law Agency Agreement dated as of 15 May 2024 shall not apply in respect of issuances of Korean Notes.

In respect of each issue of Korean Notes, the Issuer (a) will enter into a subscription agreement with the Distributor and Registration Agent (a "**Subscription Agreement**") and (b) has entered into a paying agency agreement dated 23 October 2019 as amended under a novation deed dated 15 October 2021 (as amended and/or supplemented and/or restated and/or replaced from time to time, the "**Korean Notes Paying Agency Agreement**") with the party appointed to act as paying agent thereunder in respect of the Korean Notes ("**Korean Notes Paying Agent**").

In respect of Korean Notes, references herein to (a) the "**Korean Notes Agents**" shall mean the Registration Agent and the Korean Notes Paying Agent and any reference to "**Korean Notes Agent**" is to either one of them, and (b) the "**applicable Korean Notes Agreement**" shall mean the English Law Distribution and Registration Agreement, Subscription Agreement and Korean Notes Paying Agency Agreement.

Save as otherwise provided herein, the English Law Agency Agreement in respect of the Programme shall not apply in respect of issuances of Korean Notes.

For the avoidance of doubt, references to "Notes" in the Note Conditions shall be deemed to include the Korean Notes, as the context requires.

2. **Form, Denomination and Title**

Note Condition 1 (*Form, Denomination and Title*) shall be amended by:

- (a) adding a new paragraph immediately before the paragraph "Definitions" in Note Condition 1 (*Form, Denomination and Title*), as follows:

"Korean Note(s)

Each Tranche of Korean Notes will be in uncertificated and dematerialised book-entry form and electronically registered on an issuer management register with the Clearing System (as defined below) in accordance with Korean Regulations. Under applicable Korean Regulations, Korean Notes are not permitted to be issued in definitive, certificated form. The Specified Denomination of the Korean Notes will be set forth in the relevant Final Terms. Any division or split-off of the Specified Denomination of any Tranche of Korean Notes will not be permitted for a period of one (1) year from, and including, the Issue Date of such Tranche of Korean Notes.

The Clearing System shall maintain a register for each Account Management Institution that is segregated into a Korean AMI Proprietary Register (with respect to Korean Notes held by such Account Management Institution) and a Korean Customer Management Register (with respect to Korean Notes held by Holders through such Account Management Institution). Account Management Institutions that hold securities on behalf of Holders shall maintain a Korean Customer Register.

Under applicable Korean Regulations, in respect of any Tranche of Korean Notes:

- (i) each person shown in the Korean AMI Proprietary Register as holding a specified principal amount of Korean Notes (each, a "**Korean AMI Proprietary Register Holder**"):
 - (A) will be deemed to have an interest in Korean Notes of such specified principal amount; and
 - (B) shall be able to settle transactions through account-transfer of Korean Notes in such Korean AMI Proprietary Register in accordance with applicable Korean Regulations; and
- (ii) each person shown in a Korean Customer Register as holding a specified principal amount of Korean Notes (each, a "**Korean Customer Register Holder**"):
 - (A) will be deemed to have an interest in Korean Notes of such specified principal amount; and
 - (B) shall be able to settle transactions through account-transfer of Korean Notes in such Korean Customer Register in accordance with applicable Korean Regulations.

Transfers of interests in the Korean Notes may also be made through account-transfer from a Korean AMI Proprietary Register Holder in the applicable Korean AMI Proprietary Register to a Korean Customer Register Holder in the applicable Korean Customer Register and vice versa (with necessary adjustments to the relevant Korean Customer Management Register).

Notwithstanding the above, in the event that a Holder requests the Clearing System (either directly or through an Account Management Institution, as applicable) (i) to issue a certificate of ownership pursuant to Article 39 of the AERS or (ii) to notify the Issuer of the Holder's status as a holder of the Korean Notes pursuant to Article 40 of the AERS, following receipt of the certificate of ownership or notification of the Holder's status to the Issuer (each a "**Holder Request Event**"), the Holder may exercise its rights (including rights of payment) directly against the Issuer until such time it returns the certificate of ownership or the notification period expires (each a "**Holder Request Termination Event**").

In respect of any particular Tranche of Korean Notes, for the period of one (1) year from, and including, the Issue Date of such Tranche of Korean Notes, (i) the Clearing System in relation to Korean AMI Proprietary Registers or (ii) Account Management Institutions in relation to Korean Customer Registers shall not permit the transfer of Korean Notes in a principal amount of less than the Specified Denomination.

For the avoidance of doubt, all calculations of interest and principal amounts payable by the Issuer hereunder shall be with reference to the Calculation Amount or Specified Denomination, as applicable, as specified in the relevant Final Terms, notwithstanding any splitting or division of the Specified Denomination by Holders of Korean Notes after one (1) year from the Issue Date of such Tranche of Korean Notes, and any rounding calculations shall be made by the Issuer in accordance with the Note Conditions with reference to the Calculation Amount or Specified Denomination specified in the relevant Final Terms, as applicable. The Issuer understands, however, that the Clearing System may apply its own rounding conventions to any funds received by it from the Issuer, and Holders may therefore receive a lesser amount through the Clearing System than the amount actually paid by the Issuer to (or to the account of) the Clearing System.

In addition, any Guaranteed Instruments issued by MLBV on or after the date on which BAC has granted a subsequent guarantee of such Guaranteed Instruments (in respect of which such Guaranteed Instruments will have the benefit) shall not have the benefit of this MLBV Guarantee (save (i) in relation to any Tranche of Guaranteed Instruments which are expressed to be consolidated and form a single Series with any Tranche(s) of Guaranteed Instruments which have the benefit of this MLBV Guarantee, and/or (ii) if expressly so provided in any such subsequent guarantee and/or applicable Conditions (as defined in the English Law Agency Agreement) (including, without limitation, the applicable Final Terms) of the Guaranteed Instruments).

NOW, THEREFORE, BAC, as guarantor, hereby agrees as follows:

FOR VALUE RECEIVED, the receipt of which is hereby acknowledged, BAC, hereby irrevocably, fully and unconditionally guarantees, as primary obligor, and not merely as surety, on an unsecured basis, to the holders (the "**Holders**") of Guaranteed Instruments issued by MLBV from time to time on or after the date hereof under the terms of the English Law Agency Agreement and with the benefit of the Notes

Deed of Covenant or W&C Instruments Deed of Covenant, as applicable, (a) the due and punctual payment (whether at stated maturity, upon redemption, repayment or acceleration, or otherwise, after giving effect to any applicable grace period) of the principal of (and premium, if any, on) and any interest and all other amounts due and payable by MLBV as obligor in respect of each such Guaranteed Instrument and (b) subject as provided below, the due and punctual delivery of non-cash consideration deliverable by MLBV as obligor in respect of each such Guaranteed Instrument, in each case pursuant to and in accordance with the Conditions of such Guaranteed Instruments. This MLBV Guarantee is one of payment and not of collection.

Notwithstanding that under the terms of Guaranteed Instruments either (i) MLBV has the right (whether or not exercised) to vary the type of consideration due and payable or deliverable to a Holder or (ii) a Holder has the right (whether or not exercised) to vary the type of consideration due and payable or deliverable to it or (iii) MLBV is obligated to deliver non-cash consideration to Holders when the same shall become due and deliverable, BAC shall at all times have the right, at its sole and unfettered discretion, to elect not to deliver or procure delivery of the Entitlement to the Holders of such Guaranteed Instruments when the same shall become due and deliverable, but, in lieu thereof, to pay an amount in cash equal to the applicable Guaranteed Cash Settlement Amount (calculated pursuant to the terms of, or as specified in, the Conditions and the applicable Final Terms prepared with respect to such Guaranteed Instruments). Any payment of the Guaranteed Cash Settlement Amount in lieu of the Entitlement shall constitute a complete discharge of BAC's obligations in respect of such Guaranteed Instruments.

The obligations of BAC hereunder are unconditional, absolute and irrevocable and, without limiting the generality of the foregoing, will not be released, discharged, or otherwise affected or impaired by: (a) any extension, renewal, settlement, compromise, waiver, release, or moratorium in respect of any obligation of MLBV under any Guaranteed Instrument, in whole or in part, by operation of law or otherwise; (b) any waiver or consent, modification or amendment of or supplement to any Guaranteed Instrument; (c) any change in the corporate existence, structure or ownership of MLBV (whether by way of consolidation, amalgamation, merger, transfer, sale, lease, conveyance or otherwise), or any insolvency, bankruptcy, receivership, reorganization or other similar proceeding affecting MLBV or its assets or any resulting release or discharge of any obligation of MLBV contained in any Guaranteed Instrument; (d) the existence of any claim, counterclaim, set off, recoupment or other rights or defenses which BAC may have at any time against MLBV or any other person or entity, whether in connection with the Guaranteed Instruments or any unrelated transactions, provided that nothing herein prevents the assertion of any such claim by separate suit or compulsory counterclaim; (e) the absence of any action to enforce any of MLBV's obligations with respect to any Guaranteed Instrument; (f) any invalidity, irregularity or unenforceability relating to or against MLBV for any reason of any Guaranteed Instrument (except as may result from any applicable statute of limitations), or any provision of applicable law or regulation purporting to prohibit the payment by MLBV of the principal of or interest on any Guaranteed Instrument; (g) the rendering of any judgment against MLBV or any action to enforce the same; or (h) any act or omission to act or delay of any kind by MLBV or any other person or entity or any other circumstance whatsoever which might, but for the provisions of this paragraph, constitute a legal or equitable discharge of or defense to BAC's obligations hereunder (other than the indefeasible payment in full of all of BAC's obligations hereunder).

BAC's obligations under this MLBV Guarantee with respect to any Guaranteed Instruments will remain in full force and effect until the principal of (and premium, if any, on) and any interest and all other amounts due and payable or non-cash consideration deliverable by MLBV on such Guaranteed Instruments have been paid or, subject as provided above, delivered in full. If at any time any due and punctual payment of the principal of (and premium, if any, on) or any interest or other amount payable or non-cash consideration deliverable by MLBV on any Guaranteed Instruments is rescinded or must be otherwise restored or returned upon the insolvency, bankruptcy, receivership or reorganization of MLBV or otherwise, BAC's obligations hereunder with respect to such payment or, subject as provided above, non-cash delivery obligations will be reinstated as though such payment or delivery, as applicable, had been due but not made at such time.

BAC hereby irrevocably waives diligence; acceptance; presentment; demand; protest; notice of protest, notice of acceleration; notice of dishonor; any notice not provided for herein; filing of claims with any court in the event of insolvency or bankruptcy of MLBV; and any right to require a proceeding first against MLBV or any other entity or person.

Upon making any payment or, subject as provided above, delivery of non-cash consideration with respect to any obligation of MLBV under this MLBV Guarantee, BAC shall be subrogated to the rights of the payee against MLBV with respect to such obligation, provided that BAC may not enforce any right of subrogation with respect to such payment or, subject as provided above, delivery so long as any amount payable or deliverable by MLBV under any Guaranteed Instrument remains unpaid or not delivered.

If acceleration of the time for payment of any amount payable or non-cash consideration deliverable by MLBV on the Notes guaranteed hereunder is stayed upon the insolvency, bankruptcy, receivership or reorganization of MLBV, all such amounts or non-cash consideration otherwise subject to acceleration under the Conditions of such Notes are nonetheless payable or, subject as provided above, deliverable by BAC hereunder forthwith on demand by the Holders.

Notwithstanding anything to the contrary in this MLBV Guarantee, BAC, and by its acceptance of a Guaranteed Instrument, each Holder, hereby confirms that it is the intention of all such parties that the Guarantee not constitute a fraudulent conveyance under applicable fraudulent conveyance, fraudulent transfer or similar provisions of the United States Bankruptcy Code or any comparable provision of U.S. state law. To effectuate that intention, the Holders and BAC hereby irrevocably agree that the obligations of BAC under the Guarantee are limited to the maximum amount that would not render BAC's obligations subject to avoidance under applicable fraudulent conveyance, fraudulent transfer or similar provisions of the United States Bankruptcy Code or any comparable provision of U.S. state law.

Any demand upon BAC hereunder with respect to this MLBV Guarantee shall be made by the relevant Holder by the giving of written notice of such demand to BAC at Bank of America Corporation, Bank of America Corporate Center, Attention: Corporate Treasury - Global Funding Transaction Management, NC1-007-06-10, 100 North Tryon Street, Charlotte, North Carolina 28255-0065, U.S.A., with a copy sent to BAC at Bank of America Corporation, Legal Department, Attention: General Counsel, NC1-027-18-05, 150 North College Street, Charlotte, North Carolina 28255-0065, U.S.A.; provided, however, that delay in making such demand shall in no event affect BAC's obligations under this MLBV Guarantee.

BAC hereby represents and warrants to the Holders of the Guaranteed Instruments guaranteed by this MLBV Guarantee that this MLBV Guarantee constitutes the valid and binding obligation of BAC and is enforceable in accordance with its terms.

This MLBV Guarantee shall not be valid or become obligatory for any purpose with respect to any Guaranteed Instrument until the Global Note, the Individual Note Certificate, the Global Certificate, the individual certificate, the Global Warrant or the individual warrant certificate, as applicable, shall have been authenticated and delivered as provided in the English Law Agency Agreement.

Capitalized terms and expressions used but not defined in this MLBV Guarantee that are defined in the applicable Conditions shall have the same meanings when used in this MLBV Guarantee, except where the context otherwise requires.

This MLBV Guarantee may be terminated at any time by written notice by BAC to MLBV, and shall be effective upon receipt of such notice by MLBV or such later date as may be specified in such notice; provided, however, that notwithstanding any such termination, this MLBV Guarantee shall continue in full force and effect with respect to any payment and non-cash delivery obligations of MLBV under any Guaranteed Instruments covered by this MLBV Guarantee already in issue at the date of such termination being effective.

This MLBV Guarantee will terminate upon the merger of MLBV with and into BAC.

This MLBV Guarantee shall be governed by, and construed in accordance with, the laws of the State of New York applicable to agreements made and to be performed in the State of New York.

The Guaranteed Instruments are governed by, and construed in accordance with, English law, and MLBV has submitted to the exclusive jurisdiction of the English courts for the purposes of determining any legal action or proceeding relating thereto. BAC has not submitted to the jurisdiction of the English courts for

any such purpose, and any legal action or proceedings arising out of or relating to this MLBV Guarantee shall be subject to the exclusive jurisdiction of the courts of the State of New York or the courts of the United States of America located in the Borough of Manhattan in the City and State of New York.

This MLBV Guarantee shall expire and is no longer effective once all amounts payable or non-cash consideration deliverable on or in respect of the Guaranteed Instruments guaranteed by this MLBV Guarantee have been paid or, subject as provided above, delivered in full.

IN WITNESS WHEREOF, BAC has caused this MLBV Guarantee to be executed in its corporate name by its duly authorized officer effective as of 15 May 2024.

FORM OF BOFA FINANCE GUARANTEE

This BofA Finance Guarantee is made on 15 May 2024 by BANK OF AMERICA CORPORATION, a corporation incorporated under the laws of the State of Delaware ("**BAC**").

WHEREAS:

BofA Finance LLC, a Delaware limited liability company (the "**Issuer**"), BAC and Merrill Lynch B.V., a private limited liability company incorporated under Dutch law, have established a Note, Warrant and Certificate Programme (the "**Programme**") for the issuance of notes, warrants and certificates pursuant to which the Issuer may from time to time issue notes ("**Notes**") (up to a maximum aggregate principal/nominal amount of \$8,000,000,000 (or its equivalent in any currency) outstanding from time to time under the Programme). The Notes will be issued by the Issuer under the terms of the New York Law Agency Agreement dated as of 15 May 2024 (as the same may be amended, supplemented and/or restated from time to time in accordance with the terms thereof, the "**New York Law Agency Agreement**") among BAC, the Issuer, and the Agents (as defined therein).

Furthermore, any Series of Notes originally issued by the Issuer with the benefit of a guarantee issued by BAC prior to the date hereof (each, an "**Original Guarantee**"), and any Notes issued by the Issuer on or after the date hereof which are expressed to be consolidated and form a single Series with any Notes originally issued by the Issuer prior to the date hereof, shall continue to be governed by, and construed in accordance with, the terms of such Original Guarantee. In addition, any Notes issued by the Issuer on or after the date on which BAC has granted a subsequent guarantee of such Notes (in respect of which such Notes will have the benefit) shall not have the benefit of this BofA Finance Guarantee (save (i) in relation to any Tranche of Notes which are expressed to be consolidated and form a single Series with any Tranche(s) of Notes which have the benefit of this BofA Finance Guarantee, and/or (ii) if expressly so provided in any such subsequent guarantee and/or applicable Conditions (as defined in the New York Law Agency Agreement) (including, without limitation, the applicable Final Terms) of the Notes).

NOW, THEREFORE, BAC, as guarantor, hereby agrees as follows:

FOR VALUE RECEIVED, the receipt of which is hereby acknowledged, BAC, hereby irrevocably, fully and unconditionally guarantees, as primary obligor, and not merely as surety, on an unsecured basis, to the holders (the "**Holders**") of Notes issued the Issuer from time to time on or after the date hereof by the Issuer under the terms of the New York Law Agency Agreement the due and punctual payment (whether at stated maturity, upon redemption, repayment or acceleration, or otherwise, after giving effect to any applicable grace period) of the principal of (and premium, if any, on) and any interest and all other amounts due and payable by the Issuer as obligor in respect of each Note, when and as the same shall become due and payable, pursuant to and in accordance with the Conditions of such Notes. Upon failure by the Issuer to punctually pay any such amount when due, the Guarantor shall forthwith on demand pay the amount not so paid at the same place and in the same manner specified that applies to payments to be made by the Issuer under such Notes. This BofA Finance Guarantee is one of payment and not of collection.

The obligations of BAC hereunder are unconditional, absolute and irrevocable and, without limiting the generality of the foregoing, will not be released, discharged, or otherwise affected or impaired by: (a) any extension, renewal, settlement, compromise, waiver, release, or moratorium in respect of any obligation of the Issuer under any Note, in whole or in part, by operation of law or otherwise; (b) any waiver or consent, modification or amendment of or supplement to any Note; (c) any change in the corporate existence, structure or ownership of the Issuer (whether by way of consolidation, amalgamation, merger, transfer, sale, lease, conveyance or otherwise), or any insolvency, bankruptcy, receivership, reorganization or other similar proceeding affecting the Issuer or its assets or any resulting release or discharge of any obligation of the Issuer contained in any Note; (d) the existence of any claim, counterclaim, set off, recoupment or other rights or defenses which BAC may have at any time against the Issuer or any other person or entity, whether in connection with the Notes or any unrelated transactions, provided that nothing herein prevents the assertion of any such claim by separate suit or compulsory counterclaim; (e) the absence of any action to enforce any of the Issuer's obligations with respect to any Note; (f) any invalidity, irregularity or unenforceability relating to or against the Issuer for any reason of any Note (except as may result from any applicable statute of limitations), or any provision of applicable law or regulation purporting to prohibit the payment by the Issuer of the principal of or

interest on any Note; (g) the rendering of any judgment against the Issuer or any action to enforce the same; or (h) any act or omission to act or delay of any kind by the Issuer or any other person or entity or any other circumstance whatsoever which might, but for the provisions of this paragraph, constitute a legal or equitable discharge of or defense to BAC's obligations hereunder (other than the indefeasible payment in full of all of BAC's obligations hereunder).

BAC's obligations under this BofA Finance Guarantee with respect to any Notes will remain in full force and effect until the principal of (and premium, if any, on) and any interest and all other amounts due and payable by the Issuer on such Notes have been paid in full. If at any time any due and punctual payment of the principal of (and premium, if any, on) or any interest or other amount payable by the Issuer on any Note is rescinded or must be otherwise restored or returned upon the insolvency, bankruptcy, receivership or reorganization of the Issuer or otherwise, BAC's obligations hereunder with respect to such payment will be reinstated as though such payment had been due but not made at such time.

BAC hereby irrevocably waives diligence; acceptance; presentment; demand; protest; notice of protest; notice of acceleration; notice of dishonor; any notice not provided for herein; filing of claims with any court in the event of insolvency or bankruptcy of the Issuer; and any right to require a proceeding first against the Issuer or any other entity or person.

Upon making any payment with respect to any obligation of the Issuer under this BofA Finance Guarantee, BAC shall be subrogated to the rights of the payee against the Issuer with respect to such obligation, provided that BAC may not enforce any right of subrogation with respect to such payment so long as any amount payable by the Issuer under any Note remains unpaid.

If acceleration of the time for payment of any amount payable by the Issuer on the Notes guaranteed hereunder is stayed upon the insolvency, bankruptcy, receivership or reorganization of the Issuer, all such amounts otherwise subject to acceleration under the Conditions of such Notes are nonetheless payable by BAC hereunder forthwith on demand by the Holders.

Notwithstanding anything to the contrary in this BofA Finance Guarantee, BAC, and by its acceptance of Notes, each Holder, hereby confirms that it is the intention of all such parties that the Guarantee not constitute a fraudulent conveyance under applicable fraudulent conveyance, fraudulent transfer or similar provisions of the United States Bankruptcy Code or any comparable provision of U.S. state law. To effectuate that intention, the Holders and BAC hereby irrevocably agree that the obligations of BAC under the Guarantee are limited to the maximum amount that would not render BAC's obligations subject to avoidance under applicable fraudulent conveyance, fraudulent transfer or similar provisions of the United States Bankruptcy Code or any comparable provision of U.S. state law.

Any demand upon BAC hereunder with respect to this BofA Finance Guarantee shall be made by the relevant Holder by the giving of written notice of such demand to BAC at Bank of America Corporation, Bank of America Corporate Center, Attention: Corporate Treasury - Global Funding Transaction Management, NC1-007-06-10, 100 North Tryon Street, Charlotte, North Carolina 28255-0065, U.S.A., with a copy sent to BAC at Bank of America Corporation, Legal Department, Attention: General Counsel, NC1-027-18-05, 150 North College Street, Charlotte, North Carolina 28255-0065, U.S.A.; provided, however, that delay in making such demand shall in no event affect BAC's obligations under this BofA Finance Guarantee.

BAC hereby represents and warrants to the Holders of the Notes guaranteed by this BofA Finance Guarantee that this BofA Finance Guarantee constitutes the valid and binding obligation of BAC and is enforceable in accordance with its terms.

This BofA Finance Guarantee shall not be valid or become obligatory for any purpose with respect to any Note until the Global Note or the Individual Note Certificate, as applicable, shall have been authenticated and delivered as provided in the New York Law Agency Agreement.

Capitalized terms and expressions used but not defined in this BofA Finance Guarantee that are defined in the applicable Conditions of the Notes shall have the same meanings when used in this BofA Finance Guarantee, except where the context otherwise requires.

This BofA Finance Guarantee may be terminated at any time by written notice by BAC to the Issuer, and shall be effective upon receipt of such notice by the Issuer or such later date as may be specified in such

notice; provided, however, that notwithstanding any such termination, this BofA Finance Guarantee shall continue in full force and effect with respect to any payment obligations of the Issuer under any Notes covered by this BofA Finance Guarantee already in issue at the date of such termination being effective.

This BofA Finance Guarantee will terminate upon the merger of the Issuer with and into BAC.

This BofA Finance Guarantee shall be governed by, and construed in accordance with, the laws of the State of New York applicable to agreements made and to be performed in the State of New York.

This BofA Finance Guarantee shall expire and is no longer effective once all amounts payable on or in respect of the Notes guaranteed by this BofA Finance Guarantee have been paid in full.

IN WITNESS WHEREOF, BAC has caused this BofA Finance Guarantee to be executed in its corporate name by its duly authorized officer effective as of 15 May 2024.

FORM OF CMU NOTES GUARANTEE

This CMU Notes Guarantee is made on 15 May 2024 by BANK OF AMERICA CORPORATION, a corporation incorporated under the laws of the State of Delaware ("**BAC**").

WHEREAS:

Merrill Lynch B.V., a private limited liability company (*besloten vennootschap met beperkte aansprakelijkheid*) incorporated under Dutch law, having its official seat (*statutaire zetel*) in Amsterdam, The Netherlands and having its registered office at Amstelplein 1, Rembrandt Tower, 27th Floor, 1096 HA Amsterdam, The Netherlands, registered with the Trade Register of the Dutch Chamber of Commerce under number 56457103 ("**MLBV**" and the "**Issuer**"), BAC and BofA Finance LLC, a Delaware limited liability company, have established a Note, Warrant and Certificate Programme (the "**Programme**") for the issuance of notes, warrants and certificates pursuant to which MLBV may from time to time issue notes ("**Notes**") (up to a maximum aggregate principal/nominal amount of €30,000,000,000 (or its equivalent in any currency) outstanding from time to time under the Programme), warrants ("**Warrants**") and certificates ("**Certificates**"). MLBV may from time to time issue Notes under the Programme in registered form that are deposited with a sub-custodian for the Central Moneymarkets Unit Service (the "**CMU**") operated by the Hong Kong Monetary Authority (the "**HKMA**") in accordance with all applicable Hong Kong laws, regulations and rules (such as Notes, "**CMU Notes**"). The CMU Notes will be issued by MLBV under the terms of the CMU Agency Agreement dated as of 15 May 2024 (as the same may be amended, supplemented and/or restated from time to time in accordance with the terms thereof, the "**CMU Agency Agreement**") among BAC, MLBV, and the Agents (as defined therein) and, to the extent applicable and not conflicting or inconsistent with the CMU Agency Agreement, the Amended and Restated English Law Agency Agreement dated as of 15 May 2024 (as the same may be amended, supplemented and/or restated from time to time in accordance with the terms thereof, the "**English Law Agency Agreement**"), and have the benefit of a CMU Notes Deed of Covenant dated 15 May 2024 made by MLBV (the "**Deed of Covenant**").

For the avoidance of doubt, any Warrants, Certificates and Notes that are not CMU Notes issued by MLBV do not have the benefit of this CMU Notes Guarantee.

Furthermore, any Series of CMU Notes originally issued by MLBV prior to the date hereof with the benefit of the CMU Notes Guarantee dated 16 February 2024 issued by BAC (the "**Original CMU Notes Guarantee**"), and any CMU Notes issued by MLBV on or after the date hereof which are expressed to be consolidated and form a single Series with any CMU Notes originally issued by MLBV prior to the date hereof, shall continue to be governed by, and construed in accordance with, the terms of the Original CMU Notes Guarantee. In addition, any CMU Notes issued by MLBV on or after the date on which BAC has granted a subsequent guarantee of such CMU Notes (in respect of which such CMU Notes will have the benefit) shall not have the benefit of this CMU Notes Guarantee (save (i) in relation to any Tranche of CMU Notes which are expressed to be consolidated and form a single Series with any Tranche(s) of CMU Notes which have the benefit of this CMU Notes Guarantee, and/or (ii) if expressly so provided in any such subsequent guarantee and/or applicable Conditions (as defined in the CMU Agency Agreement) (including, without limitation, the applicable Final Terms) of the CMU Notes). In addition, for the avoidance of doubt, CMU Notes do not have the benefit of the MLBV Guarantee dated May 15, 2023 executed by BAC relating to certain Notes, Warrants and Certificates issued by MLBV under the terms of the English Law Agency Agreement (and which do not have the benefit of the CMU Agency Agreement).

NOW, THEREFORE, BAC, as guarantor, hereby agrees as follows:

FOR VALUE RECEIVED, the receipt of which is hereby acknowledged, BAC, hereby irrevocably, fully and unconditionally guarantees, as primary obligor, and not merely as surety, on an unsecured basis, to the holders (the "**Holders**") of CMU Notes issued by MLBV from time to time on or after the date hereof, under the terms of the CMU Agency Agreement and, to the extent applicable and not conflicting or inconsistent with the CMU Agency Agreement, the English Law Agency Agreement, and with the benefit of the Deed of Covenant, (a) the due and punctual payment (whether at stated maturity, upon redemption, repayment or acceleration, or otherwise, after giving effect to any applicable grace period) of the principal of (and premium, if any, on) and any interest and all other amounts due and payable by MLBV as obligor in respect of each such CMU Note and (b) subject as provided below, the due and punctual delivery of non-cash consideration deliverable by MLBV as obligor in respect of each such

CMU Note, in each case pursuant to and in accordance with the Conditions (as defined in the CMU Agency Agreement). Upon failure by MLBV to punctually pay any such amount when due or, subject as provided below, deliver any such non-cash consideration when due, BAC shall forthwith on demand pay the amount not so paid or, subject as provided below, deliver the non-cash consideration not so delivered at the same place and in the same manner specified that applies to payments or deliveries of non-cash consideration to be made by MLBV under such CMU Notes. This CMU Notes Guarantee is one of payment and not of collection.

Notwithstanding that under the terms of CMU Notes either (i) MLBV has the right (whether or not exercised) to vary the type of consideration due and payable or deliverable to a Holder or (ii) a Holder has the right (whether or not exercised) to vary the type of consideration due and payable or deliverable to it or (iii) MLBV is obligated to deliver non-cash consideration to Holders when the same shall become due and deliverable, BAC shall at all times have the right, at its sole and unfettered discretion, to elect not to deliver or procure delivery of the Entitlement to the Holders of such CMU Notes when the same shall become due and deliverable, but, in lieu thereof, to pay an amount in cash equal to the applicable Guaranteed Cash Settlement Amount (calculated pursuant to the terms of, or as specified in, the Conditions and the applicable Final Terms prepared with respect to such CMU Notes). Any payment of the Guaranteed Cash Settlement Amount in lieu of the Entitlement shall constitute a complete discharge of BAC's obligations in respect of such CMU Notes.

The obligations of BAC hereunder are unconditional, absolute and irrevocable and, without limiting the generality of the foregoing, will not be released, discharged, or otherwise affected or impaired by: (a) any extension, renewal, settlement, compromise, waiver, release, or moratorium in respect of any obligation of MLBV under any CMU Notes, in whole or in part, by operation of law or otherwise; (b) any waiver or consent, modification or amendment of or supplement to any CMU Notes; (c) any change in the corporate existence, structure or ownership of MLBV (whether by way of consolidation, amalgamation, merger, transfer, sale, lease, conveyance or otherwise), or any insolvency, bankruptcy, receivership, reorganization or other similar proceeding affecting MLBV or its assets or any resulting release or discharge of any obligation of MLBV contained in any CMU Notes; (d) the existence of any claim, counterclaim, set off, recoupment or other rights or defenses which BAC may have at any time against MLBV or any other person or entity, whether in connection with the CMU Notes or any unrelated transactions, provided that nothing herein prevents the assertion of any such claim by separate suit or compulsory counterclaim; (e) the absence of any action to enforce any of MLBV's obligations with respect to any CMU Notes; (f) any invalidity, irregularity or unenforceability relating to or against MLBV for any reason of any CMU Notes (except as may result from any applicable statute of limitations), or any provision of applicable law or regulation purporting to prohibit the payment by MLBV of the principal of or interest on any CMU Notes; (g) the rendering of any judgment against MLBV or any action to enforce the same; or (h) any act or omission to act or delay of any kind by MLBV or any other person or entity or any other circumstance whatsoever which might, but for the provisions of this paragraph, constitute a legal or equitable discharge of or defense to BAC's obligations hereunder (other than the indefeasible payment in full of all of BAC's obligations hereunder).

BAC's obligations under this CMU Notes Guarantee with respect to any CMU Notes will remain in full force and effect until the principal of (and premium, if any, on) and any interest and all other amounts due and payable or non-cash consideration deliverable by MLBV on such CMU Notes have been paid or, subject as provided above, delivered in full. If at any time any due and punctual payment of the principal of (and premium, if any, on) or any interest or other amount payable or non-cash consideration deliverable by MLBV on any CMU Notes is rescinded or must be otherwise restored or returned upon the insolvency, bankruptcy, receivership or reorganization of MLBV or otherwise, BAC's obligations hereunder with respect to such payment or, subject as provided above, non-cash delivery obligations will be reinstated as though such payment or delivery, as applicable, had been due but not made at such time.

BAC hereby irrevocably waives diligence; acceptance; presentment; demand; protest; notice of protest; notice of acceleration; notice of dishonor; any notice not provided for herein; filing of claims with any court in the event of insolvency or bankruptcy of MLBV; and any right to require a proceeding first against MLBV or any other entity or person.

Upon making any payment or, subject as provided above, delivery of non-cash consideration with respect to any obligation of MLBV under this CMU Notes Guarantee, BAC shall be subrogated to the rights of the payee against MLBV with respect to such obligation, provided that BAC may not enforce any right

of subrogation with respect to such payment or, subject as provided above, delivery so long as any amount payable or deliverable by MLBV under any CMU Notes remains unpaid or not delivered.

If acceleration of the time for payment of any amount payable or non-cash consideration deliverable by MLBV on the CMU Notes guaranteed hereunder is stayed upon the insolvency, bankruptcy, receivership or reorganization of MLBV, all such amounts or non-cash consideration otherwise subject to acceleration under the Conditions of such CMU Notes are nonetheless payable or, subject as provided above, deliverable by BAC hereunder forthwith on demand by the Holders.

Notwithstanding anything to the contrary in this CMU Notes Guarantee, BAC, and by its acceptance of a CMU Note, each Holder, hereby confirms that it is the intention of all such parties that the CMU Notes Guarantee not constitute a fraudulent conveyance under applicable fraudulent conveyance, fraudulent transfer or similar provisions of the United States Bankruptcy Code or any comparable provision of U.S. state law. To effectuate that intention, the Holders and BAC hereby irrevocably agree that the obligations of BAC under the CMU Notes Guarantee are limited to the maximum amount that would not render BAC's obligations subject to avoidance under applicable fraudulent conveyance, fraudulent transfer or similar provisions of the United States Bankruptcy Code or any comparable provision of U.S. state law.

Any demand upon BAC hereunder with respect to this CMU Notes Guarantee shall be made by the relevant Holder by the giving of written notice of such demand to BAC at Bank of America Corporation, Bank of America Corporate Center, Attention: Corporate Treasury - Global Funding Transaction Management, NC1-007-06-10, 100 North Tryon Street, Charlotte, North Carolina 28255-0065, U.S.A., with a copy sent to BAC at Bank of America Corporation, Legal Department, Attention: General Counsel, NC1-027-18-05, 150 North College Street, Charlotte, North Carolina 28255-0065, U.S.A.; provided, however, that delay in making such demand shall in no event affect BAC's obligations under this CMU Notes Guarantee.

BAC hereby represents and warrants to the Holders of the CMU Notes guaranteed by this CMU Notes Guarantee that this CMU Notes Guarantee constitutes the valid and binding obligation of BAC and is enforceable in accordance with its terms.

This CMU Notes Guarantee shall not be valid or become obligatory for any purpose with respect to any CMU Notes until the CMU Global Registered Note or the Individual Note Certificate, as applicable, shall have been authenticated and delivered, and, in the case of a CMU Global Registered Note, lodged with a sub-custodian for the CMU and registered in the name of the HKMA as nominee of the CMU, as provided in the CMU Agency Agreement.

Capitalized terms and expressions used but not defined in this CMU Notes Guarantee that are defined in the applicable Conditions or the CMU Agency Agreement shall have the same meanings when used in this CMU Notes Guarantee, except where the context otherwise requires.

This CMU Notes Guarantee may be terminated at any time by written notice by BAC to MLBV, and shall be effective upon receipt of such notice by MLBV or such later date as may be specified in such notice; provided, however, that notwithstanding any such termination, this CMU Notes Guarantee shall continue in full force and effect with respect to any payment and non-cash delivery obligations of MLBV under any CMU Notes covered by this CMU Notes Guarantee already in issue at the date of such termination being effective.

This CMU Notes Guarantee will terminate upon the merger of MLBV with and into BAC.

This CMU Notes Guarantee shall be governed by, and construed in accordance with, the laws of the State of New York applicable to agreements made and to be performed in the State of New York.

The CMU Notes are governed by, and construed in accordance with, English law, and MLBV has submitted to the exclusive jurisdiction of the English courts for the purposes of determining any legal action or proceeding relating thereto. BAC has not submitted to the jurisdiction of the English courts for any such purpose, and any legal action or proceedings arising out of or relating to this CMU Notes Guarantee shall be subject to the exclusive jurisdiction of the courts of the State of New York or the courts of the United States of America located in the Borough of Manhattan in the City and State of New York.

This CMU Notes Guarantee shall expire and is no longer effective once all amounts payable or non-cash consideration deliverable on or in respect of the CMU Notes guaranteed by this CMU Notes Guarantee have been paid or, subject as provided above, delivered in full.

IN WITNESS WHEREOF, BAC has caused this CMU Notes Guarantee to be executed in its corporate name by its duly authorized officer effective as of 15 May 2024.

Korean Notes will be issued by MLBV under the terms of the Distribution and Registration Agreement dated July 20, 2023, by and among MLBV, BAC and the Distributor and Registration Agent named therein (as amended and/or supplemented and/or restated and/or replaced from time to time) (the "**Distribution and Registration Agreement**") and pursuant to the "Terms and Conditions of the Notes" and the applicable additional terms and conditions set out in the Offering Circular dated 15 May 2024, as supplemented and amended by the "Korean Notes Conditions" set out in the Korean Notes Product Supplement included in such Offering Circular, as the same may be amended and/or supplemented from time to time, and the applicable Final Terms (collectively, the "**Conditions**").

For the avoidance of doubt, any Warrants, Certificates and Notes that are not Korean Notes issued by MLBV do not have the benefit of this Korean Notes Guarantee.

Furthermore, any Series of Korean Notes originally issued by MLBV with the benefit of (a) a Korean Notes Guarantee dated October 23, 2019 issued by BAC (the "**2019 Korean Notes Guarantee**") or (b) a Korean Notes Guarantee dated July 20, 2023 (the "**2023 Korean Notes Guarantee**" and together with the 2019 Korean Notes Guarantee, the "**Original Korean Notes Guarantees**"), and any Korean Notes issued by MLBV on or after the date hereof which are expressed to be consolidated and form a single Series with any Korean Notes originally issued by MLBV prior to the date hereof, shall continue to be governed by, and construed in accordance with, the terms of such Original Korean Notes Guarantee. In addition, any Korean Notes issued by MLBV on or after the date on which BAC has granted a subsequent guarantee of such Korean Notes (in respect of which such Korean Notes will have the benefit) shall not have the benefit of this Korean Notes Guarantee (save (i) in relation to any Tranche of Korean Notes which are expressed to be consolidated and form a single Series with any Tranche(s) of Korean Notes which have the benefit of this Korean Notes Guarantee and/or (ii) if expressly so provided in any such subsequent guarantee and/or applicable Conditions). In addition, for the avoidance of doubt, Korean Notes do not have the benefit of the MLBV Guarantee dated 15 May 2024 executed by BAC relating to Notes, Warrants and Certificates issued by MLBV under the terms of the Amended and Restated English Law Agency Agreement dated 15 May 2024 (as the same may be amended, supplemented and/or restated from time to time in accordance with the terms thereof) among BAC, MLBV and the Agents named therein.

NOW, THEREFORE, BAC, as guarantor, hereby agrees as follows:

FOR VALUE RECEIVED, the receipt of which is hereby acknowledged, BAC, hereby irrevocably, fully and unconditionally guarantees, as primary obligor, and not merely as surety, on an unsecured basis, to the holders (the "**Holders**") of Korean Notes issued by MLBV from time to time on or after the date hereof under the terms of the Distribution and Registration Agreement and pursuant to the Conditions, the due and punctual payment (whether at stated maturity, upon redemption, repayment or acceleration, or otherwise, after giving effect to any applicable grace period) of the principal of (and premium, if any,

on) and any interest and all other amounts due and payable by MLBV as obligor in respect of each Korean Note, when and as the same shall become due and payable, pursuant to and in accordance with the Conditions of the Korean Notes. Upon failure by MLBV to punctually pay any such amount when due, the Guarantor shall forthwith on demand pay the amount not so paid at the same place and in the same manner specified that applies to payments to be made by MLBV under such Korean Notes. This Korean Notes Guarantee is one of payment and not of collection.

The obligations of BAC hereunder are unconditional, absolute and irrevocable and, without limiting the generality of the foregoing, will not be released, discharged, or otherwise affected or impaired by: (a) any extension, renewal, settlement, compromise, waiver, release, or moratorium in respect of any obligation of MLBV under any Korean Note, in whole or in part, by operation of law or otherwise; (b) any waiver or consent, modification or amendment of or supplement to any Korean Note; (c) any change in the corporate existence, structure or ownership of MLBV (whether by way of consolidation, amalgamation, merger, transfer, sale, lease, conveyance or otherwise), or any insolvency, bankruptcy, receivership, reorganization or other similar proceeding affecting MLBV or its assets or any resulting release or discharge of any obligation of MLBV contained in any Korean Note; (d) the existence of any claim, counterclaim, set off, recoupment or other rights or defenses which BAC may have at any time against MLBV or any other person or entity, whether in connection with the Korean Notes or any unrelated transactions, provided that nothing herein prevents the assertion of any such claim by separate suit or compulsory counterclaim; (e) the absence of any action to enforce any of MLBV's obligations with respect to any Korean Note; (f) any invalidity, irregularity or unenforceability relating to or against MLBV for any reason of any Korean Note (except as may result from any applicable statute of limitations), or any provision of applicable law or regulation purporting to prohibit the payment by MLBV of the principal of or interest on any Korean Note; (g) the rendering of any judgment against MLBV or any action to enforce the same; or (h) any act or omission to act or delay of any kind by MLBV or any other person or entity or any other circumstance whatsoever which might, but for the provisions of this paragraph, constitute a legal or equitable discharge of or defense to BAC's obligations hereunder (other than the indefeasible payment in full of all of BAC's obligations hereunder).

BAC's obligations under this Korean Notes Guarantee with respect to any Korean Notes will remain in full force and effect until the principal of (and premium, if any, on) and any interest and all other amounts due and payable by MLBV on such Korean Notes have been paid in full. If at any time any due and punctual payment of the principal of (premium, if any, on) or any interest or other amount payable by MLBV on any Korean Note is rescinded or must be otherwise restored or returned upon the insolvency, bankruptcy, receivership or reorganization of MLBV or otherwise, BAC's obligations hereunder with respect to such payment will be reinstated as though such payment had been due but not made at such time.

BAC hereby irrevocably waives diligence; acceptance; presentment; demand; protest; notice of protest; notice of acceleration; notice of dishonor; any notice not provided for herein; filing of claims with any court in the event of insolvency or bankruptcy of MLBV; and any right to require a proceeding first against MLBV or any other entity or person.

Upon making any payment with respect to any obligation of MLBV under this Korean Notes Guarantee, BAC shall be subrogated to the rights of the payee against MLBV with respect to such obligation, provided that BAC may not enforce any right of subrogation with respect to such payment so long as any amount payable by MLBV under any Korean Note remains unpaid.

If acceleration of the time for payment of any amount payable by MLBV on the Korean Notes guaranteed hereunder is stayed upon the insolvency, bankruptcy, receivership or reorganization of MLBV, all such amounts otherwise subject to acceleration under the Conditions of such Korean Notes are nonetheless payable by BAC hereunder forthwith on demand by the Holders.

Notwithstanding anything to the contrary in this Korean Notes Guarantee, BAC, and by its acceptance of Korean Notes, each Holder, hereby confirms that it is the intention of all such parties that the Guarantee not constitute a fraudulent conveyance under applicable fraudulent conveyance, fraudulent transfer or similar provisions of the United States Bankruptcy Code or any comparable provision of U.S. state law. To effectuate that intention, the Holders and BAC hereby irrevocably agree that the obligations of BAC under the Guarantee are limited to the maximum amount that would not render BAC's obligations subject to avoidance under applicable fraudulent conveyance, fraudulent transfer or similar provisions of the United States Bankruptcy Code or any comparable provision of U.S. state law.

Any demand upon BAC hereunder with respect to this Korean Notes Guarantee shall be made by the relevant Holder by the giving of written notice of such demand to BAC at Bank of America Corporation, Bank of America Corporate Center, Attention: Corporate Treasury—Global Funding Transaction Management, NC1-007-06-10, 100 North Tryon Street, Charlotte, North Carolina 28255-0065, U.S.A., with a copy sent to BAC at Bank of America Corporation, Legal Department, Attention: General Counsel, NC1-027-18-05, 150 North College Street, Charlotte, North Carolina 28255-0065, U.S.A.; provided, however, that delay in making such demand shall in no event affect BAC's obligations under this Korean Notes Guarantee.

BAC hereby represents and warrants to the Holders of the Korean Notes guaranteed by this Korean Notes Guarantee that this Korean Notes Guarantee constitutes the valid and binding obligation of BAC and is enforceable in accordance with its terms.

This Korean Notes Guarantee shall not be valid or become obligatory for any purpose with respect to any Korean Note until the issue of such Korean Note has been electronically registered on an issuer management register with the Korea Securities Depository in accordance with the Act on Electronic Registration of Stocks, Bonds, etc. of Korea (No. 14096 of March 22, 2016, as amended), the Financial Investment Services and Capital Markets Act of Korea (Act No.8635 of 3 August 2007, as amended) and, in each case, any sub-regulations thereof.

Capitalized terms and expressions used but not defined in this Korean Notes Guarantee that are defined in the applicable Conditions of the Korean Notes shall have the same meanings when used in this Korean Notes Guarantee, except where the context otherwise requires.

This Korean Notes Guarantee may be terminated at any time by written notice by BAC to MLBV, and shall be effective upon receipt of such notice by MLBV or such later date as may be specified in such notice; provided, however, that notwithstanding any such termination, this Korean Notes Guarantee shall continue in full force and effect with respect to any payment obligations of MLBV under any Korean Notes covered by this Korean Notes Guarantee already in issue at the date of such termination being effective.

This Korean Notes Guarantee will terminate upon the merger of MLBV with and into BAC.

This Korean Notes Guarantee shall be governed by, and construed in accordance with, the laws of the State of New York applicable to agreements made and to be performed in the State of New York.

The Korean Notes are governed by, and construed in accordance with, English law, and MLBV has submitted to the exclusive jurisdiction of the English courts for the purposes of determining any legal action or proceeding relating thereto. BAC has not submitted to the jurisdiction of the English courts for any such purpose, and any legal action or proceedings arising out of or relating to this Korean Notes Guarantee shall be subject to the exclusive jurisdiction of the courts of the State of New York or the courts of the United States of America located in the Borough of Manhattan in the City and State of New York.

The laws of the Republic of Korea will be applicable with regard to the electronic registration of Korean Notes in the Korea Securities Depository system.

This Korean Notes Guarantee shall expire and is no longer effective once all amounts payable on or in respect of the Korean Notes guaranteed by this Korean Notes Guarantee have been paid in full.

IN WITNESS WHEREOF, BAC has caused this Korean Notes Guarantee to be executed in its corporate name by its duly authorized officer effective as of 15 May 2024.

BOOK-ENTRY CLEARING SYSTEMS

The information set out below is subject to any change in or reinterpretation of the rules, regulations and procedures of DTC, Euroclear, Clearstream or Luxembourg, Clearstream, the CMU or the KSD (together, the "Book-Entry Clearing Systems") currently in effect. Investors wishing to use the facilities of any of the Book-Entry Clearing Systems are advised to confirm the continued applicability of the rules, regulations and procedures of the relevant Book-Entry Clearing System. None of the relevant Issuer, the Guarantor and any agent party to the Agency Agreements will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the Instruments held through the facilities of any Book-Entry Clearing System or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Book-Entry Systems

DTC

The following is based on information furnished to MLBV by DTC:

DTC is a limited-purpose trust company organised under the New York Banking Law, a "banking organisation" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("**Direct Participants**") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerised book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organisations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("**DTCC**"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("**Indirect Participants**"). The DTC rules applicable to its participants are on file with the SEC. More information about DTC can be found at www.dtcc.com. Information on that website is not included or incorporated by reference herein.

Purchases of Rule 144A Global Instruments held under the DTC system ("**DTC Instruments**") must be made by or through Direct Participants, which will receive a credit for the DTC Instruments on DTC's records. The ownership interest of each actual purchaser of each DTC Warrant ("**Beneficial Owner**"), is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the DTC Instruments are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in DTC Instruments, except in the event that use of the book-entry system for the DTC Instruments is discontinued or as may otherwise be described in such DTC Instruments.

To facilitate subsequent transfers, all DTC Instruments deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorised representative of DTC. The deposit of DTC Warrants with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the DTC Instruments; DTC's records reflect only the identity of the Direct Participants to whose accounts such DTC Instruments are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to DTC Warrants unless authorised by a Direct Participant in accordance with DTC's Money Market Instrument ("MMI") Procedures. Under its usual procedures, DTC mails an omnibus proxy to the relevant Issuer as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the DTC Warrants are credited on the record date (identified in a listing attached to the omnibus proxy).

Cash payments on the DTC Warrants will be made by Cede & Co., or such other nominee as may be requested by an authorised representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the relevant Issuer, on the applicable payment date in accordance with their respective holdings shown on DTC's records. Payments by participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of those participants and not DTC or its nominee, the relevant Issuer, the U.S. Instrument Agent or any other agent or party, subject to any statutory or regulatory requirements that may be in effect from time to time. Payments to Cede & Co. (or such other nominee as may be requested by an authorised representative of DTC) is the responsibility of the relevant Issuer. Disbursement of the payments to Direct Participants is the responsibility of DTC, and disbursements of the payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as depository with respect to the DTC Instruments at any time by giving reasonable notice to the relevant Issuer. Under such circumstances, in the event that a successor depository is not obtained, the relevant Issuer will print and deliver individual instrument certificates.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that MLBV believes to be reliable, but they take no responsibility for the accuracy thereof.

Euroclear and Clearstream, Luxembourg provide various services including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Euroclear and Clearstream, Luxembourg also deal with domestic securities markets in several countries through established depository and custodial relationships. Euroclear and Clearstream, Luxembourg have established an electronic bridge between their two systems across which their respective participants may settle trades with each other.

Euroclear and Clearstream, Luxembourg customers are world-wide financial institutions, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. Indirect access to Euroclear and Clearstream, Luxembourg is available to other institutions that clear through or maintain a custodial relationship with an account holder of either system.

The address of Euroclear is Euroclear Bank SA/NV, 1 Boulevard du Roi Albert II, B-1210 Brussels and the address of Clearstream, Luxembourg is Clearstream Banking, 42 Avenue JF Kennedy, L-1855, Luxembourg.

Book-Entry Ownership of and Payments in respect of DTC Instruments

If a Rule 144A Global Instrument is to be registered in the name of a nominee of DTC, the relevant Issuer will apply to DTC in order to have the Instruments represented by such Rule 144A Global Instrument accepted in its book-entry settlement system. Upon the issue of any Rule 144A Global Instrument to be held through DTC, DTC or its custodian will credit, on its internal book-entry system, the respective nominal amounts of the individual beneficial interests represented by such Rule 144A Global Instrument to the accounts of persons who have accounts with DTC. Ownership of beneficial interests in any such

Rule 144A Global Instrument will be limited to Direct Participants or Indirect Participants, including the respective depositaries of Euroclear and Clearstream, Luxembourg. Ownership of beneficial interests in any such Rule 144A Global Instrument held through DTC will be shown on, and the transfer of such ownership will be effected only through, records maintained by DTC or its nominee (with respect to the interests of Direct Participants) and the records of Direct Participants (with respect to interests of Indirect Participants).

Payments in U.S. dollars in respect of a Rule 144A Global Instrument registered in the name of DTC's nominee will be made to the order of such nominee as the registered holder of such Instrument. In the case of any payment in a currency other than U.S. dollars, payment will be made to the relevant Paying Agents or the Principal W&C Instrument Agent, as applicable, on behalf of DTC's nominee and the relevant Paying Agents or the Principal W&C Instrument Agent, as applicable, will (in accordance with instructions received by it) remit all or a portion of such payment for credit directly to the beneficial holders of interests in the Rule 144A Global Instrument held through DTC in the currency in which such payment was made and/or cause all or a portion of such payment to be converted into U.S. dollars and credited to the applicable participants' account.

The relevant Issuers expect DTC to credit accounts of Direct Participants on the applicable payment date in accordance with their respective holdings as shown in the records of DTC unless DTC has reason to believe that it will not receive payment on such payment date. The relevant Issuers also expect that payments by participants to Beneficial Owners of Instruments will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers, and will be the responsibility of such participant and not the responsibility of DTC, the relevant Paying Agents or the Principal W&C Instrument Agent, as applicable, or the relevant Issuers. Payments on Instruments to DTC are the responsibility of the relevant Issuer.

Transfers of Instruments Represented by Global Instruments

Transfers of any interests in Instruments represented by a Global Instrument within DTC or a Global Instrument within Euroclear and Clearstream, Luxembourg will be effected in accordance with the customary rules and operating procedures of the relevant clearing system. The laws in some States within the United States require that certain persons take physical delivery of securities in definitive form. Consequently, the ability to transfer Instruments represented by a Global Instrument to such persons may depend upon the ability to exchange such Instruments for Instruments in definitive form. Similarly, because DTC can only act on behalf of Direct Participants in the DTC system who in turn act on behalf of Indirect Participants, the ability of a person having an interest in Instruments represented by a Global Instrument to pledge such Instruments to persons or entities that do not participate in the DTC system or to otherwise take action in respect of such Instruments may depend upon the ability to exchange such Instruments for Instruments in definitive form. The ability of any person having a beneficial interest in Instruments represented by a Global Instrument to resell, pledge or otherwise transfer such Instruments may be impaired if the proposed transferee of such Instruments is not eligible to hold such Instruments through a Direct or Indirect participant in the DTC system.

Subject to compliance with the transfer restrictions applicable to the Rule 144A Global Instruments and Regulation S/Rule 144A Global Instruments described under "Notice to Purchasers and Holders of Instruments and Transfer Restrictions", cross-market transfers between DTC, on the one hand, and directly or indirectly through Euroclear, Clearstream, Luxembourg accountholders, on the other, will be effected by the relevant clearing system in accordance with its rules and through action taken by the relevant Paying Agent or W&C Instrument Agent, as applicable, and any custodian ("**Custodian**") with whom the relevant Global Instruments have been deposited.

On or after the Issue Date for any Instruments, transfers of such Instruments between accountholders in Euroclear and Clearstream, Luxembourg and transfers of such Instruments between participants in DTC will generally have a settlement date three business days after the trade date (T+3). The customary arrangements for delivery versus payment will apply to such transfers.

Cross-market transfers between accountholders in Euroclear, Clearstream, Luxembourg and DTC participants will need to have an agreed settlement date between the parties to such transfer. Because there is no direct link between DTC, on the one hand, and Euroclear, Clearstream, Luxembourg, on the other, transfers of interests in the relevant Global Instruments will be effected through the relevant Paying Agent or W&C Instrument Agent, as applicable, and the custodian receiving instructions (and where

appropriate certification) from the transferor and arranging for delivery of the interests being transferred to the credit of the designated account for the transferee. In the case of cross-market transfers, settlement between Euroclear, Clearstream, Luxembourg accountholders and DTC participants cannot be made on a delivery versus payment basis. The Instruments will be delivered on a free delivery basis and arrangements for payment must be made separately.

DTC, Euroclear and Clearstream, Luxembourg have each published rules and operating procedures designed to facilitate transfers of beneficial interests in Global Instruments among participants and accountholders of DTC, Euroclear and Clearstream, Luxembourg. However, they are under no obligation to perform or continue to perform such procedures, and such procedures may be discontinued or changed at any time. None of the Issuers, the Guarantor, the Paying Agents or the Principal W&C Instrument Agent, as applicable, and any Dealer will be responsible for any performance by DTC, Euroclear or Clearstream, Luxembourg or their respective direct or indirect participants or accountholders of their respective obligations under the rules and procedures governing their operations and none of them will have any liability for any aspect of the records relating to or payments made on account of beneficial interests in the Instruments represented by Global Instruments, or for maintaining, supervising or reviewing any records relating to such beneficial interests.

CMU Notes - Central Moneymarkets Unit Service (the "CMU")

General

The CMU is a central depository service provided by the Central Moneymarkets Unit of the HKMA for the safe custody and electronic trading between the members of the CMU (each a "**CMU Member**") of capital markets instruments (the "**CMU Instruments**") which are specified in the CMU Manual as capable of being held within the CMU.

The CMU is only available to CMU Instruments issued by a CMU Member or by a person for whom a CMU Member acts as agent for the purposes of lodging instruments issued by such persons. Membership of the CMU is open to all financial institutions regulated by the HKMA, the Securities and Futures Commission, the Insurance Authority or the Mandatory Provident Fund Schemes Authority. For further details on the full range of the CMU's custodial services, please refer to the CMU Manual.

The CMU has an income distribution service which is a service offered by the CMU to facilitate the distribution of interest, coupon or redemption proceeds (collectively, the "**income proceeds**") by CMU Members who are paying agents to the legal title holders of CMU Instruments via the CMU system. Furthermore, the CMU has a corporate action platform which allows an issuer (or its agent) to make an announcement/notification of a corporate action and noteholders to submit the relevant certification.

An investor holding an interest through an account with either Euroclear or Clearstream, Luxembourg, in any Notes held in the CMU will hold that interest through the respective accounts which Euroclear and Clearstream, Luxembourg, each have with the CMU.

Book-Entry Ownership

The Issuer will apply to have the CMU Notes represented by a Global Note accepted for clearance through the CMU. Each Global Note will have a CMU Instrument Number.

Initial Issue of CMU Notes

A Global Note will be delivered on or prior to the original issue date of the Tranche to a sub-custodian for the HKMA as operator of the CMU.

Upon registration of the CMU Notes in the name of HKMA as operator of the CMU and delivery of the related Global Note to the sub-custodian for the CMU operated by the HKMA, the CMU will credit each subscriber with a nominal amount of CMU Notes equal to the nominal amount thereof for which it has subscribed and paid.

Relationship of Accountholders with the CMU

If a Global Note is lodged with a sub-custodian for or registered with the CMU, the person(s) for whose account(s) interests in such Global Note are credited as being held in the CMU in accordance with the

CMU Rules shall be the only person(s) directed or deemed by the CMU as entitled to receive payments in respect of CMU Notes represented by such Global Note and the Issuer will be discharged by payment to, or to the order of, such person(s) for whose account(s) interests in such Global Note are credited as being held in the CMU in respect of each amount so paid. Each of the persons shown in the records of the CMU, as the beneficial holder of a particular nominal amount of CMU Notes represented by such Global Note must look solely to the CMU for his share of each payment so made by the Issuer in respect of such Global Note.

Payments

In respect of a Global Note held through the CMU, any payments of principal, interest (if any) or any other amounts shall be made to the CMU for the distribution to the person(s) for whose account(s) interests in the relevant Global Note are credited (as set out in the records of the CMU) at the close of business on the Clearing System Business Day immediately prior to the date for payment and, save in the case of final payment, no presentation of the relevant Global Note shall be required for such purpose. For the purposes of this paragraph, "**Clearing System Business Day**" means a day on which the CMU is operating and open for business. Payment made to the CMU shall discharge the obligations of the Issuer in respect of that payment.

Korean Notes – Korea Securities Depository ("KSD") system

General

The KSD is the sole central securities depository and electronic registry of the Republic of Korea.

Interests in the Korean Notes will be shown on, and transfers thereof will be effected through, records maintained by KSD and its respective participants and depositing custodians, as described in more detail below.

The KSD, as a central depository and electronic registry, provides a deposit service, electronic registration service and settlement service, each of which is closely related to one or more back-office functions for the primary and secondary markets.

Any description herein as to payments being made or any other actions or duties being undertaken by the KSD (or its agents or operators or depositors) is based solely on the MLBV's understanding of the relevant rules and/or operations of the KSD and applicable Korean regulations. Neither MLBV nor the Guarantor makes any representation or warranty that such information is accurate or, in any event, that the KSD or participant or depositor therein will make such payments or undertake such actions or duties in accordance with such description.

Issuance or "record" in the KSD and transfer of Korean Notes

1. Issuance and record in the Issuer Management Register

Under the Act on Electronic Registration of Stocks, Bonds, etc. of Korea (No. 14096 of March 22, 2016, as amended) (the "**AERS**"), the KSD as registrar maintains a register for the purpose of managing notes (such as the Korean Notes) which have been issued via registration with the KSD (an "**Issuer Management Register**"). Under the AERS, the issuance of certain types of securities, such as the Korean Notes, in physical form is not permitted.

2. Transfer in the Korean AMI Proprietary Register and the Korean Customer Register

Under the AERS, following the issuance of the Korean Notes and establishment of the Issuer Management Register, the KSD, as electronic registry, will establish a register to enable eligible accountholders in the KSD ("**Korean AMI Proprietary Register Holders**") to settle their holdings of the Korean Notes through account-transfer (the "**Korean AMI Proprietary Register**"). Only certain qualified institutions, such as securities companies, may be Korean AMI Proprietary Register Holders under the AERS.

Investors that are not Korean AMI Proprietary Register Holders are obliged to maintain an account with a qualified account management institution (each, an "**Account Management Institution**") that are accountholders with the KSD. The Account Management Institution will

register such holders (the "**Korean Customer Register Holders**" and together with the Korean AMI Proprietary Register Holders, the "**Holders**" and each a "**Holder**") on a register (each, a "**Korean Customer Register**") in which the Account Management Institution will (a) register the Korean Customer Register Holders holding an account with such Account Management Institution and (b) record transfers between Korean Customer Register Holders. The KSD will also maintain registers (each, a "**Korean Customer Management Register**") with respect to each Account Management Institution that includes each of the securities (including the Korean Notes) managed by such Account Management Institution on behalf of Korean Customer Register Holders.

Transfers of interests in the Korean Notes may also be made through account-transfer from a Korean AMI Proprietary Register Holder in the applicable Korean AMI Proprietary Register to a Korean Customer Register Holder in the applicable Korean Customer Register and vice versa (with necessary adjustments to the relevant Korean Customer Management Register).

In respect of any particular Tranche of Korean Notes, for the period of one (1) year from, and including, the Issue Date of such Tranche of Korean Notes, (i) the Clearing System in relation to Korean AMI Proprietary Registers and (ii) Account Management Institutions in relation to Korean Customer Registers shall not permit the transfer of Korean Notes in a principal amount of less than the Specified Denomination (as specified in the relevant Final Terms).

Payments

The Issuer (via the relevant Korean Notes Paying Agent) shall pay all amounts owing under the Korean Notes to (or to an account nominated by) the KSD. Following such payment, neither the Issuer nor the Guarantor shall have any responsibility or liability whatsoever for any failure by (a) the KSD in relation to (i) a Korean AMI Proprietary Register Holder (or any person that should have been registered in the Korean AMI Proprietary Register) or (ii) an Account Management Institution that holds Korean Notes on behalf of a Korean Customer Register Holder or (b) any Account Management Institution in relation to any Korean Customer Register Holder (or any person that should have been registered in a Korean Customer Register), to pass on full payment of such amount and in a timely manner. Holders who have not received full payment under the Korean Notes must seek redress from the appropriate party within the KSD system.

Other rights as "holder" for all other purposes

In the case a Holder requests the KSD (either directly or through an Account Management Institution, as applicable) (i) to issue a certificate of ownership pursuant to Article 39 of the AERS or (ii) to notify the Issuer of the Holder's status as a holder of the Korean Notes pursuant to Article 40 of the AERS, and following receipt of the certificate of ownership or notification of the Holder's status (each a "**Holder Request Event**"), the Holder may exercise its rights (including rights of payment) directly against the Issuer until such time it returns the certificate of ownership or the notification period expires (each a "**Holder Request Termination Event**"). Following a Holder Request Event, the relevant Holder may not transfer its Korean Notes until a related Holder Request Termination Event occurs.

Neither the Issuer nor the Guarantor has any responsibility or liability for the accuracy of any Korean AMI Proprietary Register, any Korean Customer Management Register or any Korean Customer Register or for the actions of the KSD, any Account Management Institution or any Holder.

Settlement

Securities settlement is the completion of confirmed debit or credit (as applicable) obligations through the delivery of securities and payment of funds in securities transactions. As the securities settlement organisation in the Republic of Korea, the KSD provides securities settlement infrastructure, controls settlement risk, and contributes to enhance the stability of the financial system in the Republic of Korea.

As a post-trading process, settlement is, in broad terms, composed of trade reporting, comparison, netting, and settlement in narrow terms. The following parties are involved in the process: the settlement organisation (the KSD), the settlement members (the securities companies) and certain regulatory bodies (the Ministry of Economy and Finance, the Financial Services Commission and the Financial Supervisory Service).

NOTICE TO PURCHASERS AND HOLDERS OF INSTRUMENTS AND TRANSFER RESTRICTIONS

As a result of the following restrictions, purchasers of Instruments are advised to consult legal counsel prior to making any purchase, offer, sale, resale or other transfer of such Instruments.

Instruments issued by MLBV

Restrictions on transfer of all Instruments issued by MLBV

None of the Instruments of any Series issued by MLBV, (if applicable) the MLBV Guarantee and, in certain cases, the securities to be delivered upon exercise or settlement of such Instruments have been, or will be, registered under the Securities Act or under any U.S. state securities laws. The Instruments of any Series issued by MLBV, (if applicable) the MLBV Guarantee and certain Entitlements do not constitute, and have not been marketed as, contracts of sale of a commodity for future delivery (or options thereon) subject to the CEA, and trading in such Instruments issued by MLBV has not been approved by the CFTC pursuant to the CEA. Neither MLBV nor the Guarantor is registered as an investment company under the U.S. Investment Company Act of 1940, as amended (the "**1940 Act**").

The Instruments issued by MLBV may not be legally or beneficially owned by any U.S. person nor offered, sold, resold, traded, pledged, exercised, transferred or delivered within the United States or to, or for the account or benefit of, U.S. persons (as defined herein) except, in the case of Rule 144A Instruments, in private transactions in reliance on Rule 144A ("**Rule 144A**") under the Securities Act to "qualified institutional buyers" ("**QIBs**") as defined in Rule 144A and who are also each a "qualified purchaser" (each a "**QP**") within the meaning of Section 3(c)(7) and as defined in Section 2(a)(51) of the 1940 Act and the rules thereunder, and who, as a condition to purchasing such Instruments shall enter into and remain in compliance with an Investor Representation Letter for the benefit of the Dealer, the relevant Issuer and the Guarantor (together with their respective affiliates and any persons controlling, controlled by or under common control with such Dealer, Issuer or Guarantor) ("**Investor Representation Letter**"). Consequently, except in the case of Rule 144A Instruments, any offer, sale, resale, trade, pledge, exercise, redemption, transfer or delivery of any Instruments issued by MLBV made, directly or indirectly, within the United States or to, or for the account or benefit of, a U.S. person will not be recognised. Any reoffers, resales, trades, pledges, transfers or deliveries of such Instruments, or any part thereof, offered and sold in reliance on Rule 144A will only be made in the United States and to, or for the account or benefit of, a U.S. person that is a QIB who also is a QP, and who, as a condition to any such reoffer, resale, trade, pledge, transfer or delivery, will enter into and remain in compliance with an Investor Representation Letter.

Instruments issued by MLBV relating to commodities and commodities futures may only be offered, sold or resold in the United States or to, or for the account or benefit of, a U.S. person pursuant to one or more exemptions and/or exclusions under the CEA. MLBV and the Guarantor reserve the right not to

make payment or delivery in respect of such Rule 144A Instruments to a person in the United States or a U.S. person if such payment or delivery would constitute a violation of U.S. law.

Instruments issued by MLBV may be offered and sold to non-U.S. persons (including dealers or other professional fiduciaries in the United States acting on a discretionary basis for foreign beneficial owners (other than an estate or trust)), in offshore transactions (as defined by Regulation S) pursuant to Regulation S. Any reoffers, resales, trades, pledges, transfers or deliveries of the Instruments issued by MLBV, or any part thereof, offered and sold pursuant to Regulation S will only be made outside the United States and to, or for the account or benefit of, a non-U.S. person in accordance with Regulation S.

The Instruments issued by MLBV may not be acquired or held by, or acquired with the assets of, any employee benefit plan subject to Title I of ERISA, or any individual retirement account or plan subject to Section 4975 of Code or any Similar Laws, or by any entity whose underlying assets include "plan assets" within the meaning of Section 3(42) of ERISA by reason of any such employee benefit plan's, account's or plan's investment therein.

Each purchaser of Instruments issued by MLBV acknowledges that the relevant Global Notes representing such Notes, the Global Warrants and/or Global Certificates will bear a legend substantially to the following effect unless otherwise agreed to by the Issuer:

"THE INVESTOR SHALL BE DEEMED TO REPRESENT BY ITS ACQUISITION AND HOLDING OF ANY INTEREST HEREIN THAT IT IS NOT ACQUIRING THIS [REGISTERED GLOBAL NOTE]/[GLOBAL WARRANT]/[GLOBAL CERTIFICATE] WITH THE ASSETS OF ANY EMPLOYEE BENEFIT PLAN SUBJECT TO TITLE 1 OF THE UNITED STATES EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974 ("ERISA"), ANY INDIVIDUAL RETIREMENT ACCOUNT OR PLAN SUBJECT TO SECTION 4975 OF THE UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED, OR ANY SIMILAR LAWS, OR ANY ENTITY WHOSE UNDERLYING ASSETS INCLUDE "PLAN ASSETS" WITHIN THE MEANING OF SECTION 3(42) OF ERISA BY REASON OF ANY SUCH EMPLOYEE BENEFIT PLAN'S, ACCOUNT'S OR PLAN'S INVESTMENT THEREIN; AND

BAC's objects and purposes are to engage in any lawful act or activity for which corporations may be organised and incorporated in the General Corporation Law of the State of Delaware, as specified in paragraph 2 of BAC's Restated Certificate of Incorporation. BAC filed its Restated Certificate of Incorporation with the Delaware Secretary of State on 27 December 2019, and last amended its Restated Certificate of Incorporation on 22 April 2022. BAC's most recent Amended and Restated Bylaws are dated 14 December 2022.

Business Segment Operations

Through its various bank and nonbank subsidiaries throughout the United States and in international markets, BAC provides a diversified range of banking and nonbank financial services and products through four business segments: (1) *Consumer Banking*, (2) *Global Wealth & Investment Management*, (3) *Global Banking* and (4) *Global Markets*, with the remaining operations recorded in All Other.

Financial Consequences to Unsecured Debtholders of Single Point of Entry Resolution Strategy

BAC is subject to the TLAC Rules, which aim to improve the resiliency and resolvability of U.S. global systemically important bank holding companies ("**covered BHCs**"), including BAC, in the event of failure or material financial distress. The TLAC Rules include the requirement that each covered BHC maintain a minimum amount of eligible LTD and other loss-absorbing capacity. The eligible LTD would absorb the covered BHC's losses, following the depletion of its equity, upon its entry into a resolution proceeding under the U.S. Bankruptcy Code or a resolution proceeding administered by the FDIC under Title II of the Financial Reform Act.

Under Title I of the Financial Reform Act, BAC is required by the Federal Reserve Board and the FDIC to periodically submit a plan for a rapid and orderly resolution under the U.S. Bankruptcy Code in the event of material financial distress or failure. BAC's preferred resolution strategy under this plan is its SPOE strategy, whereby only BAC (excluding its consolidated subsidiaries) would file for bankruptcy under the U.S. Bankruptcy Code. Under this strategy, and pursuant to existing intercompany arrangements by which BAC has transferred most of its assets to a wholly-owned holding company subsidiary, which holds the equity interests in BAC's key operating subsidiaries, BAC would contribute its remaining financial assets, less a holdback to cover its bankruptcy expenses, to this wholly-owned holding company subsidiary prior to filing for bankruptcy. BAC would then file for bankruptcy under Chapter 11 of the U.S. Bankruptcy Code. Pursuant to an order from the bankruptcy court under section 363 of the Bankruptcy Code, BAC, as debtor-in-possession, would transfer its subsidiaries to a newly-formed entity ("**NewCo**") that would be held in trust for the sole and exclusive benefit of BAC's bankruptcy estate.

Under BAC's SPOE resolution strategy, the obligations of BAC on its unsecured debt, including the BAC Notes, would not be assumed by NewCo; instead, the claims on such obligations would be left behind in the bankruptcy proceeding. After the transferred subsidiaries were stabilised, NewCo's residual value in the form of shares or proceeds from the sale of shares would be distributed to the holders of claims against the bankruptcy estate in accordance with the priority of their claims, including to holders of BAC's debt securities.

In 2013, the FDIC issued a notice describing its similar preferred "single point of entry" recapitalisation model for resolving a global systemically important banking group, such as BAC, under Title II of the Financial Reform Act. Under Title II, when a covered BHC is in default or danger of default, the FDIC

may be appointed receiver in order to conduct an orderly liquidation of such institution as an alternative to resolution of the entity under the U.S. Bankruptcy Code if the U.S. Secretary of the Treasury makes certain financial distress and systemic risk determinations. Pursuant to the single point of entry recapitalisation model, the FDIC would use its power to create a "bridge entity" for the covered BHC; transfer the systemically important and viable parts of the covered BHC's business to the bridge entity; recapitalise those subsidiaries using assets of the covered BHC that have been transferred to the bridge entity; and exchange external debt claims against the covered BHC, including claims of holders of BAC debt securities and other unsecured debt, for equity in the bridge entity. This strategy would allow operating subsidiaries of the covered BHC to continue to operate and impose losses on stockholders and creditors of the covered BHC, which could include the holders of the BAC Notes and the Guarantees.

ERISA MATTERS

Any discussion of United States federal tax issues set forth in this Offering Circular was written in connection with the promotion and marketing of the Instruments by BAC, BofA Finance, MLBV, the Dealers and the Managers (as applicable). Such discussion was not intended or written to be legal or tax advice to any person and was not intended or written to be used, and it cannot be used, by any person for the purpose of avoiding any United States federal tax penalties that may be imposed on such person. Each person considering an investment in the Instruments should seek advice based on its particular circumstances from an independent tax advisor.

BAC and certain affiliates of BAC may each be considered a "party in interest" within the meaning of the U.S. Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), or a "disqualified person" within the meaning of the Code with respect to employee benefit plans subject to Section 406 of ERISA and individual retirement accounts, Keoghs and other plans subject to Section 4975 of the Code (collectively, "**Covered Plans**"), or to have a similar relationship with governmental, church or non-U.S. plans that are subject to U.S. federal, state, local or non-U.S. laws that are substantially similar to Section 406 of ERISA or Section 4975 of the Code (collectively, "**Other Plans**"). Certain transactions between such a Covered Plan and a party in interest or disqualified person may result in "prohibited transactions" within the meaning of ERISA and the Code, and certain transactions between an Other Plan and a person with a similar relationship to an Other Plan may be similarly prohibited under other U.S. federal, state, local or non-U.S. laws, unless such transactions are effected pursuant to an applicable exemption.

In addition, certain regulatory requirements applicable under ERISA could cause investments by a Covered Plan in the Instruments (whether directly or indirectly) to be deemed to include not only the purchased Instruments but also an undivided interest in each of the underlying assets of the relevant Issuer. In the absence of an applicable exception to this general rule, the relevant Issuer could be considered to hold assets of the investing Covered Plan ("**plan assets**") such that the relevant Issuer and persons providing services in connection with such plan assets might be considered "parties in interest" or "disqualified persons" with respect to the investing Covered Plan and could be governed by the fiduciary responsibility provisions of Title I of ERISA and subject to the prohibited transaction provisions referenced above. If this were the case, certain actions taken by the relevant Issuer or service provider regarding those plan assets could be deemed to be a breach of such Issuer's or service provider's fiduciary obligations under Title I of ERISA or a prohibited transaction under ERISA or the Code. Similarly, investments by an Other Plan in the Instruments (whether directly or indirectly) may cause the relevant Issuer to be considered to hold assets of the investing Other Plan pursuant to other U.S. federal, state, local or non-U.S. laws and subject the relevant Issuer and persons providing services in connection with such assets to similar fiduciary and prohibited transaction requirements pursuant to such laws.

Under ERISA and various prohibited transaction class exemptions ("**PTCEs**") issued by the U.S. Department of Labor, exemptive relief may be available for direct or indirect prohibited transactions resulting from the purchase, holding or disposition of the Instruments by or on behalf of, or with the plan assets of, Covered Plans. Those exemptions include PTCE 96-23 (for certain transactions determined by in-house asset managers), PTCE 95-60 (for certain transactions involving insurance company general accounts), PTCE 91-38 (for certain transactions involving bank collective investment funds), PTCE 90-1 (for certain transactions involving insurance company pooled separate accounts), and PTCE 84-14 (for certain transactions determined by independent qualified professional asset managers). In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code provide statutory exemptive relief for certain arm's-length transactions with a person that is a party in interest solely by reason of providing services to employee benefit plans or being an affiliate of such a service provider. There may be similar exemptive relief under other U.S. federal, state, local or non-U.S. laws for transactions by or on behalf of, or with the assets of, Other Plans.

Because BAC and certain of its affiliates may be considered a party in interest or disqualified person with respect to many Covered Plans, or a person with a similar relationship to many Other Plans, the Instruments may not be purchased, held or disposed of by any Covered Plan or Other Plan, any entity whose underlying assets include plan assets by reason of any Covered Plan's investment in the entity or assets of an Other Plan by reason of any Other Plan's investment in the entity, or any person investing on behalf of or with plan assets of any Covered Plan or on behalf of or with assets of any Other Plan, unless such purchase, holding or disposition is eligible for statutory or administrative exemptive relief or such purchase, holding or disposition is otherwise not prohibited. Any purchaser, including any fiduciary purchasing on behalf of a Covered Plan or Other Plan, transferee or holder of the Instruments will be

deemed to have represented, in its corporate and its fiduciary capacity, by its purchase and holding of the securities that either (a) it is not a Covered Plan or Other Plan or an entity whose underlying assets include plan assets by reason of any Covered Plan's investment in the entity or an entity whose underlying assets include assets of an Other Plan by reason of any Other Plan's investment in the entity, and is not purchasing such securities on behalf of or with plan assets of any Covered Plan or on behalf of or with any assets of an Other Plan; or (b) its purchase, holding and disposition are eligible for exemptive relief or such purchase, holding and disposition are not prohibited by ERISA or Section 4975 of the Code (or in the case of an Other Plan any substantially similar U.S. federal, state, local or non-U.S. law). In addition, any acquisition, purchase or holding of the Instruments by or on behalf of any Covered Plan or Other Plan, or with the plan assets of any Covered Plan or assets of any Other Plan, may be conditioned on BAC and the relevant Issuer's obtaining comfort to its or their satisfaction that such acquisition, purchase or holding will not cause any assets of the relevant Issuer to be treated as plan assets for the purposes of ERISA or any regulation or other guidance thereunder (or in the case of an Other Plan, as assets of the Other Plan under any other U.S. federal, state, local or non-U.S. law).

A fiduciary purchasing Instruments on behalf of or with plan assets of any Covered Plan should determine whether the investment is in accordance with the documents and instruments governing the plan and the applicable provisions of ERISA and the Code relating to a fiduciary's duties to the plan including, without limitation, the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA and the Code. A person purchasing Instruments on behalf of or with assets of an Other Plan should make the same determination in light of any U.S. federal, state, local or non-U.S. laws applicable to such plan. Due to the complexity of the rules discussed in this section and the penalties that may be imposed upon persons involved in fiduciary breaches or non-exempt prohibited transactions, it is particularly important that fiduciaries or other persons considering purchasing Instruments on behalf of or with plan assets of any Covered Plan (or on behalf of or with assets of any Other Plan) consult with their legal and tax counsel regarding the potential consequences of the investment and the availability of exemptive relief. In this regard, each purchaser, subsequent transferee and holder of any Instrument hereunder will be deemed to make certain representations. See "Notice to Purchasers and Holders of Instruments and Transfer Restrictions". In addition, any purchaser, including any fiduciary purchasing on behalf of a Covered Plan or Other Plan, transferee or holder of the Instruments will be deemed to have represented, in its corporate and its fiduciary capacity, by its purchase and holding of the securities that none of the relevant Issuer or any of its affiliates are or will be deemed to be a fiduciary (under Section 3(21) of ERISA or under any similar laws) with respect to the decision to acquire, hold or dispose of the Instruments and that none of the relevant Issuer or any of its affiliates is undertaking to provide investment advice or give advice in a fiduciary capacity with respect to such decision.

TAXATION

The following comments are of a general nature and apply only to the jurisdiction stated, are based on the Issuers' understanding of current law and practice and are included in this Offering Circular solely for information purposes. These comments are not intended to be, nor should they be regarded as, legal or tax advice. The precise tax treatment of a holder of an instrument that is either a Note, Warrant or Certificate will depend for each issue on the terms of the Notes, Warrants or Certificates, as specified in the "Terms and Conditions of the Notes" or the "Terms and Conditions of the W&C Instruments" (as applicable), as amended and supplemented by the applicable Final Terms under the law and practice at the relevant time. Prospective holders of Notes, Warrants or Certificates should consult their own tax advisers in all relevant jurisdictions to obtain advice about their particular tax treatment in relation to such Notes, Warrants or Certificates.

UNITED STATES FEDERAL INCOME TAXATION

General

Except with respect to the discussion under "Instruments Issued by MLBV —Rule 144A Instruments", the following is a summary of certain United States federal income tax considerations applicable to an investment in the Instruments by holders who are United States Aliens (as defined in Condition 9 of the "Terms and Conditions of the Notes") who are the original purchasers of the Instruments and who have not purchased, and do not hold, the Instruments in connection with a United States trade or business. For United States federal income tax purposes, Notes issued by BofA Finance will be treated as if they were issued by BAC. Accordingly, throughout this tax discussion, references to "Notes issued by BAC" will also include Notes issued by BofA Finance. In addition, for purposes of the following discussion, it is assumed that no Instruments in bearer form are issued.

If an entity or arrangement treated as a partnership for United States federal income tax purposes holds the Instruments, the United States federal income tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. A partner of a partnership holding the Instruments should consult its own tax advisor regarding the United States federal income tax consequences to the partner of the acquisition, ownership and disposition by the partnership of the Instruments.

In addition, this summary is for general information only, and does not purport to discuss all aspects of United States federal income taxation that may be important to a particular holder in light of its circumstances or to holders subject to special tax rules, such as trusts, estates, controlled foreign corporations, passive foreign investment companies, personal holding companies, or the beneficiaries or shareholders of such entities.

Notes Issued by BAC

Notes Other Than Structured Notes

In respect of Notes issued by BAC other than Notes that are specified as "Structured Notes" in the applicable Final Terms, under the United States federal income tax laws as in effect on the date of this Offering Circular, and subject to the discussion below, payments of principal and interest (including original issue discount), if any, by the Issuer or any Paying Agent (acting in its capacity as such), to any holder of such Note who is a United States Alien holder generally will not be subject to United States federal income or withholding tax, in the case of interest (including original issue discount), provided that:

- (a) such holder does not actually or constructively own 10 per cent. or more of the total combined voting power of all classes of stock of the Issuer entitled to vote;
- (b) such holder is not a controlled foreign corporation for United States federal income tax purposes that is related to the Issuer (directly or indirectly) through stock ownership;
- (c) the interest is not received by a bank on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business;

- (d) the principal and interest is not effectively connected with the conduct of a trade or business within the United States; and
- (e) either (i) the holder provides the Issuer (or any paying agent) with a statement which sets forth its address, and certifies, under penalties of perjury, that it is not a United States person (which certification generally may be made on a United States Internal Revenue Service (the "**IRS**") Form W-8BEN or W-8BEN-E (or successor form)) or (ii) a financial institution holding the Note on behalf of the holder certifies, under penalties of perjury (which certification generally may be made on an IRS Form W-8IMY or W-8BEN-E (or successor form)), that it has received and will provide the Issuer (or the paying agent) with a statement described in (i) above (the "**Certification Requirement**").

Payments of interest to United States Alien holders not meeting the requirements set forth above are subject to withholding at a rate of 30 per cent. unless (A) the holder is engaged in a trade or business in the United States and the holder provides a properly executed IRS Form W-8ECI (or successor form) certifying that the payments are effectively connected with the conduct of a trade or business in the United States, or (B) the holder provides a properly executed IRS Form W-8BEN or W-8BEN-E (or successor form) claiming an exemption from, or reduction in the rate of, withholding under the benefit of a tax treaty. To claim benefits under an income tax treaty, a United States Alien holder must obtain a taxpayer identification number and certify as to its eligibility under the appropriate treaty's limitations on benefits article. In addition, special rules may apply to claims for treaty benefits made by holders that are entities rather than individuals. Under Section 871(h)(4)(A) of the Internal Revenue Code of 1986 (the "**Code**"), payments of certain types of contingent interest to a United States Alien holder (or any foreign partnership without regard to its status as a United States Alien) may be subject to United States withholding tax equal to 30 per cent. of each such payment (or such lower amounts as provided by treaty). If any Note not specified as a Structured Note in the applicable Final Terms bears contingent interest, the applicable Final Terms will specify if interest payments on such Notes are subject to any United States withholding taxes.

Structured Notes

Certain Notes issued by BAC will be specified as "Structured Notes" in the applicable Final Terms. The applicable Final Terms will indicate whether the Issuer will withhold or does not intend to withhold any United States taxes in respect of any payments on Structured Notes. Except to the extent specified in the applicable Final Terms, the Issuer or its agent generally intends to withhold on all payments designated as "interest" in the applicable Final Terms (and other amounts subject to withholding) on Structured Notes that are not treated as indebtedness for United States federal income tax purposes, without being required to pay any Additional Tax Amounts with respect to amounts withheld. Except to the extent specified in the Final Terms, while the United States federal income and withholding tax treatment of a Structured Note will generally depend on the particular terms of such Note, subject to the discussion below, the Issuer generally does not intend to withhold United States federal income tax with respect to payments on Structured Notes that are treated as indebtedness for United States federal income tax purposes, including payments of principal and interest (including original issue discount), if any, by the Issuer or any Paying Agent (acting in its capacity as such) to any holder of such a Note who is a United States Alien, provided that, in the case of interest (including original issue discount), the requirements of (a) through (e) under "Notes Other Than Structured Notes" above are met for all Notes. All holders should consult the applicable Final Terms as to the Issuer's intention with respect to withholding. Except to the limited extent set forth in the Terms and Conditions and the applicable Final Terms, the Issuer does not assume any liability for the payment of any tax which it withholds on Structured Notes or any additional amount in respect thereof.

Special rules may apply to the extent that any portion of a payment is treated as a dividend or "dividend equivalent" for certain United States federal income tax purposes. The Issuer (or an applicable withholding agent) will withhold on such payments to the extent required by law. A dividend equivalent payment is treated as a dividend from sources within the United States and such payments generally would be subject to a 30 per cent. United States withholding tax (or less under an applicable treaty, if any) if paid to a United States Alien holder. Under United States Department of the Treasury (the "**U.S. Treasury**") regulations issued pursuant to Code Section 871(m), payments (including deemed payments) with respect to equity-linked instruments ("**ELIs**") that are "specified ELIs" may be treated as dividend equivalents if such specified ELIs reference an interest in a United States "underlying security", which

is generally any interest in an entity taxable as a corporation for United States federal income tax purposes if a payment with respect to such interest could give rise to a U.S.-source dividend.

A specified ELI is an ELI that: (i) if it is classified as "simple," has a "delta" equal to 0.80 or greater with respect to a United States underlying security at the time it is issued, or (ii) if it is classified as "complex," meets a substantial equivalence test at the time it is issued. The regulations provide that the delta of an ELI is the ratio of the change in the fair market value of the ELI to a small change in the fair market value of the property referenced by the ELI. The regulations are extremely complex, and significant aspects of the application of the regulations to the Instruments are uncertain. Specified ELIs generally do not include (1) ELIs issued prior to January 1, 2025 that are not delta-one instruments, or (2) ELIs that are treated as referencing a "qualified index." However, it is possible that Instruments could be treated as deemed reissued for United States federal income tax purposes upon the occurrence of certain events affecting the reference asset or the Instruments, and following such occurrence the Instruments could be treated as subject to withholding on dividend equivalent payments.

A qualified index is a passive index that (1) is based on a diverse basket of publicly traded securities, (2) is widely used by numerous market participants, and (3) meets certain specified requirements set forth in the applicable Treasury regulations. The qualified index determination is made on the first business day of the calendar year in which the ELI is issued. If, in connection with the purchase of an ELI that references an index, a taxpayer enters into one or more transactions that reduce exposure to components of the index, the ELI is not treated as referencing a qualified index.

If any payments are treated as dividend equivalents subject to withholding, the Issuer (or an applicable withholding agent) would be entitled to withhold taxes at a rate of 30 per cent. on such payments without being required to pay any Additional Tax Amounts with respect to amounts so withheld.

If the terms of any Structured Note provides that all or a portion of the dividends paid in respect of United States underlying securities that are treated as U.S.-source dividends ("**Underlying U.S.-Source Dividends**") are reinvested in such underlying securities during the term of the Structured Note, the terms of the Structured Note may also provide that only 70 per cent. of any such Underlying U.S.-Source Dividends that are treated as a deemed dividend equivalent payment will be reinvested. The remaining 30 per cent. of any such Underlying U.S.-Source Dividends that are treated as a deemed dividend equivalent payment will be treated, solely for U.S. federal income tax purposes, as having been withheld from the gross dividend equivalent payment due to the holder and remitted to the IRS on behalf of the holder. In such case, the Issuer will withhold such amounts without regard to either any applicable treaty rule or the classification of a holder as a U.S. or a non-U.S. investor for U.S. federal income tax purposes.

Each holder acknowledges and agrees that in the event that a Structured Note references an index which includes any United States underlying securities, then regardless of whether the relevant index is a net price return, a price return or a total return index, the payments on the Structured Note (including any amounts deemed reinvested in the Structured Note) will reflect the gross dividend payments paid by the Issuer less applicable withholding tax amounts in respect of such gross dividends, which in the case of U.S.-source dividends, will be paid by or on behalf of the Issuer to the IRS in accordance with the withholding tax rules under Code Section 871(m).

The United States federal income and withholding tax consequences applicable to certain Structured Notes are uncertain. No statutory, judicial, or administrative authority directly addresses the characterisation of such Notes or notes similar to such Notes for United States federal income, withholding, or other tax purposes. All holders should consult their tax advisors regarding the United States federal income and withholding tax consequences to them of holding such Notes.

The IRS has released a notice (the "**Notice**") in which it sought comments on the taxation of financial instruments referred to as "prepaid forward contracts". According to the Notice, the IRS and U.S. Treasury are considering whether a holder of such an instrument should be required to accrue ordinary income on a current basis, regardless of whether any payments are made prior to maturity. The IRS and U.S. Treasury are also considering additional issues, including whether foreign holders of such instruments should be subject to withholding tax on any deemed income accruals. It is not possible to determine what guidance the IRS and U.S. Treasury will ultimately issue, if any, and whether any such guidance would be retroactive. Any such guidance may affect the United States federal income and withholding tax treatment of Structured Notes.

In general, United States backup withholding and information reporting may apply to payments on Notes issued by BAC and held by a United States Alien holder unless the United States Alien holder complies with applicable certification procedures to establish that it is not a United States person and BAC does not have actual knowledge or reason to know that the certification is false (or such holder otherwise establishes an exemption). The treatment of Notes for purposes of United States backup withholding tax and information reporting requirements will generally depend on the particular terms of such Note, the characteristics of the person or entity making a payment and the payee, and the circumstances of payment. Holders should consult their own tax advisors regarding the application of the backup withholding tax and information reporting rules.

Instruments Issued by MLBV

General

While the United States federal income and withholding tax treatment of an Instrument will generally depend on the particular terms of such Instrument, the relevant Issuer, except as otherwise indicated in the applicable Final Terms or as described below, generally does not intend to withhold United States federal income tax with respect to payments (other than payments treated as dividends or "dividend equivalents" pursuant to United States federal income tax law), including payments of principal and interest (including original issue discount), if any, by the relevant Issuer or any Paying Agent or W&C Instrument Agent (acting in its capacity as such) outside the United States to any holder of an Instrument who is a United States Alien.

Special rules may apply to payments treated as contingent interest or as dividends for certain United States federal income tax purposes.

As noted above, special rules may apply to the extent that any portion of a payment or deemed payment is treated as a dividend or "dividend equivalent" for certain United States federal income tax purposes. The relevant Issuer (or an applicable withholding agent) will withhold on such payments to the extent required by law. A dividend equivalent payment is treated as a dividend from sources within the United States and such payments generally would be subject to a 30 per cent. United States withholding tax (or less under an applicable treaty, if any) if paid to a United States Alien holder. Under U.S. Treasury regulations issued pursuant to Code Section 871(m), payments (including deemed payments) with respect to ELIs that are "specified ELIs" may be treated as dividend equivalents if such specified ELIs reference an interest in a United States "underlying security", which is generally any interest in an entity taxable as a corporation for United States federal income tax purposes if a payment with respect to such interest could give rise to a United States source dividend.

A specified ELI is an ELI that: (i) if it is classified as "simple," has a "delta" equal to 0.80 or greater with respect to a United States underlying security at the time it is issued, or (ii) if it is classified as "complex," meets a substantial equivalence test at the time it is issued. The regulations provide that the delta of an ELI is the ratio of the change in the fair market value of the ELI to a small change in the fair market value of the property referenced by the ELI. The regulations are extremely complex, and significant aspects of the application of the regulations to the Instruments are uncertain. Specified ELIs generally do not include (1) ELIs issued prior to January 1, 2025 that are not delta-one instruments or (2) ELIs that are treated as referencing a "qualified index." However, it is possible that Instruments could be treated as deemed reissued for United States federal income tax purposes upon the occurrence of certain events affecting the reference asset or the Instruments, and following such occurrence the Instruments could be treated as subject to withholding on dividend equivalent payments.

A qualified index is a passive index that (1) is based on a diverse basket of publicly traded securities, (2) is widely used by numerous market participants, and (3) meets certain specified requirements set forth in the applicable Treasury regulations. The qualified index determination is made on the first business day of the calendar year in which the ELI is issued. If, in connection with the purchase of an ELI that references an index, a taxpayer enters into one or more transactions that reduce exposure to components of the index, the ELI is not treated as referencing a qualified index.

If any payments are treated as dividend equivalents subject to withholding, the relevant Issuer (or an applicable withholding agent) would be entitled to withhold taxes without being required to pay any Additional Tax Amounts with respect to amounts so withheld.

Neither the relevant Issuer nor the Guarantor assumes any liability for the payment of any tax which it is required to withhold or any additional amount in respect thereof, except that in certain circumstances set forth in Condition 9 (*Taxation*) of the "Terms and Conditions of the Notes", Additional Tax Amounts may be paid with respect to a Note in connection with taxes. The United States federal income and withholding tax consequences of certain Instruments linked to Reference Item(s) are uncertain. No statutory, judicial, or administrative authority directly addresses the characterisation of such Instruments or securities similar to such Instruments for United States federal income, withholding, or other tax purposes. All holders should consult their tax advisors regarding the United States federal income and withholding tax consequences to them of holding such Instruments.

As noted above, the IRS released the Notice in which it sought comments on the taxation of financial instruments referred to as "prepaid forward contracts". According to the Notice, the IRS and U.S. Treasury are considering whether a holder of such an instrument should be required to accrue ordinary income on a current basis, regardless of whether any payments are made prior to maturity. The IRS and U.S. Treasury are also considering additional issues, including whether foreign holders of such instruments should be subject to withholding tax on any deemed income accruals. It is not possible to determine what guidance the IRS and U.S. Treasury will ultimately issue, if any, and whether any such guidance would be retroactive. Any such guidance may affect the United States federal income and withholding tax treatment of the Instruments.

A United States Alien holder generally will not be subject to United States federal income tax on any gain realised on the sale, exchange, or retirement of an Instrument (other than gains treated as dividends or "dividend equivalents" pursuant to United States federal income tax law), provided that (a) the gain is not effectively connected with the conduct of trade or business within the United States, or a permanent establishment maintained in the United States if certain tax treaties apply, (b) in the case of a United States Alien holder that is an individual, the United States Alien holder is not present in the United States for 183 days or more in the taxable year of the sale, exchange or retirement of the Instrument, (c) the Instrument is not a "United States real property interest" for United States federal income tax purposes, and (d) the United States Alien holder is not subject to tax pursuant to certain provisions of United States federal income tax law applicable to certain expatriates.

In general, United States backup withholding and information reporting should not apply to payments on the Instruments (except with respect to dividends or dividend equivalents) held by a United States Alien holder and received outside the United States through a non-United States bank or other non-United States financial institution. Proceeds of sales and payments on the Instruments received within the United States or through certain United States related financial institutions may be subject to backup withholding and information reporting unless the United States Alien holder complies with applicable certification procedures to establish that it is not a United States person and the relevant Issuer does not have actual knowledge or reason to know that the certification is false (or such holder otherwise establishes an exemption). The treatment of Instruments for purposes of United States backup withholding tax and information reporting requirements will generally depend on the particular terms of such Instrument, the characteristics of the person or entity making a payment and the payee, and the circumstances of payment. Holders should consult their own tax advisors regarding the application of the backup withholding tax and information reporting rules.

Rule 144A Instruments

The following is a summary of certain United States federal income tax considerations applicable to the acquisition, ownership, and disposition of certain Rule 144A Instruments (including Rule 144A Instruments that are represented by a Regulation S/Rule 144A Global Instrument). The following discussion is not exhaustive of all possible tax considerations. This summary is based upon the Code, regulations promulgated under the Code by U.S. Treasury (including proposed and temporary regulations), rulings, current administrative interpretations and official pronouncements of the IRS, and judicial decisions, all as currently in effect and all of which are subject to differing interpretations or to change, possibly with retroactive effect. No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of the tax consequences described below.

This summary is for general information only, and does not purport to discuss all aspects of United States federal income taxation that may be important to a particular holder in light of its investment or tax circumstances or to holders subject to special tax rules, such as partnerships (or entities or arrangements treated as partnerships for United States federal income purposes), subchapter S corporations, or other

pass-through entities, banks, financial institutions, tax-exempt entities, insurance companies, regulated investment companies, real estate investment trusts, trusts and estates, dealers in securities or currencies, traders in securities that have elected to use the mark-to-market method of accounting for their securities, certain accrual method taxpayers subject to special tax accounting rules as a result of their use of financial statements, persons holding a Rule 144A Instrument as part of an integrated investment, including a "straddle", "hedge", "constructive sale", or "conversion transaction", persons whose functional currency for tax purposes is not the United States dollar, persons holding a Rule 144A Instrument in a tax-deferred or tax-advantaged account, corporations subject to the corporate alternative minimum tax on adjusted financial statement income, and persons subject to the alternative minimum or medicare contribution tax provisions of the Code. This summary does not include any description of the tax laws of any state or local governments, or of any foreign government, that may be applicable to a particular holder.

This summary is directed solely to United States Holders (as defined below) that, except as otherwise specifically noted, will purchase a Rule 144A Instrument upon original issuance and will hold the Rule 144A Instrument as a capital asset within the meaning of Section 1221 of the Code, which generally means property held for investment.

Holders should consult their own tax advisor concerning the United States federal income tax consequences to them of acquiring, owning, and disposing of a Rule 144A Instrument, as well as any tax consequences arising under the laws of any state, local, foreign, or other tax jurisdiction and the possible effects of changes in United States federal or other tax laws.

As used herein, the term "United States Holder" means a beneficial owner of a Rule 144A Instrument that is for United States federal income tax purposes:

- a citizen or resident of the United States; or
- a corporation (including an entity treated as a corporation for United States federal income tax purposes) created or organised in or under the laws of the United States or of any state of the United States or the District of Columbia.

Rule 144A Instruments which guarantee the return of principal

The following is a summary of the material U.S. federal income tax consequences that will apply to United States Holders of Rule 144A Instruments that are not subject to a loss of principal ("**Rule 144A Return of Principal Guaranteed Instruments**").

The references to "interest" in this section mean "interest" as understood under the Code and related Treasury regulations promulgated thereunder. The statements do not take account of any different definitions of "interest" or "principal" which may be created by the terms and conditions of the Rule 144A Return of Principal Guaranteed Instruments or any related documentation. In particular, any premium element of the redemption amount of any Rule 144A Return of Principal Guaranteed Instruments redeemable at a premium and any additional amounts payable under the Rule 144A Return of Principal Guaranteed Instruments may constitute a payment of interest.

Payment of Stated Interest

Except as described below in the case of interest on a Rule 144A Return of Principal Guaranteed Instrument issued with original issue discount, as defined below under "—Original Issue Discount," stated interest on a Rule 144A Return of Principal Guaranteed Instrument generally will be included in the income of a United States Holder as interest income at the time it is accrued or is received in accordance with the United States Holder's regular method of accounting for U.S. federal income tax purposes and will be ordinary income.

Original Issue Discount

Some of our Rule 144A Return of Principal Guaranteed Instruments may be issued with original issue discount ("**OID**"). United States Holders of Rule 144A Return of Principal Guaranteed Instruments issued with OID, other than short-term Rule 144A Return of Principal Guaranteed Instruments with a maturity of one year or less from its date of issue (after taking into account the last possible date that the Rule 144A Return of Principal Guaranteed Instrument could be outstanding under its terms), will be subject to special tax accounting rules, as described in greater detail below. For tax purposes, OID is the

excess of the "stated redemption price at maturity" of a debt instrument over its "issue price." The "stated redemption price at maturity" of a Rule 144A Return of Principal Guaranteed Instrument is the sum of all payments required to be made on the Rule 144A Return of Principal Guaranteed Instrument other than "qualified stated interest" payments, as defined below. The "issue price" of a Rule 144A Return of Principal Guaranteed Instrument is generally the first offering price to the public at which a substantial amount of the issue was sold (ignoring sales to bond houses, brokers, or similar persons or organisations acting in the capacity of underwriters, placement agents, or wholesalers). The term "qualified stated interest" generally means stated interest that is unconditionally payable in cash or property (other than debt instruments of the issuer), or that is treated as constructively received, at least annually at a single fixed rate or, under certain circumstances, at a variable rate. If a Rule 144A Return of Principal Guaranteed Instrument bears interest during any accrual period at a rate below the rate applicable for the remaining term of the Rule 144A Return of Principal Guaranteed Instrument (for example, Rule 144A Return of Principal Guaranteed Instruments with teaser rates or interest holidays), interest payable at the lowest stated fixed rate generally is qualified stated interest and the excess, if any, is included in the stated redemption price at maturity for purposes of determining whether the Rule 144A Return of Principal Guaranteed Instrument will be issued with original issue discount.

A United States Holder of a Rule 144A Return of Principal Guaranteed Instrument with a maturity of more than one year from its date of issue that has been issued with OID (an "**OID Rule 144A Return of Principal Guaranteed Instrument**") is generally required to include any qualified stated interest payments in income as interest at the time such interest is accrued or is received in accordance with the United States Holder's regular accounting method for tax purposes, as described above under "— Payment of Stated Interest." A United States Holder of an OID Rule 144A Return of Principal Guaranteed Instrument is generally required to include in income the sum of the daily accruals of the OID for the Rule 144A Return of Principal Guaranteed Instrument for each day during the taxable year (or portion of the taxable year) in which the United States Holder held the OID Rule 144A Return of Principal Guaranteed Instrument, regardless of such holder's regular method of accounting. Thus, a United States Holder may be required to include OID in income in advance of the receipt of some or all of the related cash payments. The daily portion is determined by allocating the OID for each day of the accrual period. An accrual period may be of any length and the accrual periods may even vary in length over the term of the OID Rule 144A Return of Principal Guaranteed Instrument, provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs either on the first day of an accrual period or on the final day of an accrual period. The amount of OID allocable to an accrual period is equal to the excess of: (1) the product of the "adjusted issue price" of the OID Rule 144A Return of Principal Guaranteed Instrument at the beginning of the accrual period and its yield to maturity (computed generally on a constant yield method and compounded at the end of each accrual period, taking into account the length of the particular accrual period) over (2) the amount of any qualified stated interest allocable to the accrual period. OID allocable to a final accrual period is the difference between the amount payable at maturity, other than a payment of qualified stated interest, and the adjusted issue price at the beginning of the final accrual period. Special rules will apply for calculating OID for an initial short accrual period. The "adjusted issue price" of an OID Rule 144A Return of Principal Guaranteed Instrument at the beginning of any accrual period is the sum of the issue price of the OID Rule 144A Return of Principal Guaranteed Instrument plus the amount of OID allocable to all prior accrual periods reduced by any payments received on the OID Rule 144A Return of Principal Guaranteed Instrument that were not qualified stated interest. Under these rules, a United States Holder generally will have to include in income increasingly greater amounts of OID in successive accrual periods.

If the excess of the "stated redemption price at maturity" of a Rule 144A Return of Principal Guaranteed Instrument over its "issue price" is less than 1/4 of 1% of the debt instrument's stated redemption price at maturity multiplied by the number of complete years from its issue date to its maturity, or weighted average maturity in the case of Rule 144A Return of Principal Guaranteed Instruments with more than one principal payment ("**de minimis OID**"), the Rule 144A Return of Principal Guaranteed Instrument is not treated as issued with OID. The weighted average maturity is the sum of the following amounts determined for each payment under the Rule 144A Return of Principal Guaranteed Instrument other than a payment of qualified stated interest: (i) the number of complete years from the issue date of the Rule 144A Return of Principal Guaranteed Instrument until the payment is made, multiplied by (ii) a fraction, the numerator of which is the amount of the payment and the denominator of which is the Rule 144A Return of Principal Guaranteed Instrument's stated redemption price at maturity. A United States Holder generally must include the de minimis OID in income at the time payments, other than qualified stated

interest, on the Rule 144A Return of Principal Guaranteed Instruments are made in proportion to the amount paid (unless the United States Holder makes the election described below under "—Election to Treat All Interest as Original Issue Discount"). Any amount of de minimis OID that is included in income in this manner will be treated as capital gain.

Variable Rate Rule 144A Return of Principal Guaranteed Instruments

In the case of a Rule 144A Return of Principal Guaranteed Instrument that provides for one or more variable rates, special rules apply. A Rule 144A Return of Principal Guaranteed Instrument will qualify as a "variable rate debt instrument" under Treasury regulations if (i) the Rule 144A Return of Principal Guaranteed Instrument's issue price does not exceed the total noncontingent principal payments by more than the lesser of: (a) 0.015 multiplied by the product of the total noncontingent principal payments and the number of complete years to maturity from the issue date, or (b) 15% of the total noncontingent principal payments; and (ii) the Rule 144A Return of Principal Guaranteed Instrument provides for stated interest, compounded or paid at least annually, only at one or more qualified floating rates, a single fixed rate and one or more qualified floating rates, a single objective rate, or a single fixed rate and a single objective rate that is a qualified inverse floating rate.

Generally, a rate is a qualified floating rate if: (i) (a) variations in the value of the rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Rule 144A Return of Principal Guaranteed Instrument is denominated; or (b) the rate is equal to such a rate multiplied by either a fixed multiple that is greater than 0.65 but not more than 1.35 or a fixed multiple greater than 0.65 but not more than 1.35 increased or decreased by a fixed rate, and (ii) the value of the rate on any date during the term of the Rule 144A Return of Principal Guaranteed Instrument is set no earlier than three months prior to the first day on which that value is in effect and no later than one year following that first day. If a Rule 144A Return of Principal Guaranteed Instrument provides for two or more qualified floating rates that are within 0.25 percentage points of each other on the issue date or can reasonably be expected to have approximately the same values throughout the term of the Rule 144A Return of Principal Guaranteed Instrument, the qualified floating rates together constitute a single qualified floating rate. A Rule 144A Return of Principal Guaranteed Instrument will not have a variable rate that is a qualified floating rate, however, if the variable rate of interest is subject to one or more minimum or maximum rate floors or ceilings or one or more governors limiting the amount of increase or decrease unless such floor, ceiling, or governor is fixed throughout the term of the Rule 144A Return of Principal Guaranteed Instrument or is not reasonably expected as of the issue date to significantly affect the yield on the Rule 144A Return of Principal Guaranteed Instrument.

Generally, an objective rate is a rate that is (i) not a qualified floating rate, (ii) is determined using a single fixed formula that is based on objective financial or economic information that is not within the control of the issuer or a related party, and (iii) the value of the rate on any date during the term of the Rule 144A Return of Principal Guaranteed Instrument is set no earlier than three months prior to the first day on which that value is in effect and no later than one year following that first day. If it is reasonably expected that the average value of the variable rate during the first half of the term of a Rule 144A Return of Principal Guaranteed Instrument will be either significantly less than or significantly greater than the average value of the rate during the final half of the term of the Rule 144A Return of Principal Guaranteed Instrument, then the Rule 144A Return of Principal Guaranteed Instrument will not have a variable rate that is an objective rate. An objective rate is a qualified inverse floating rate if that rate is equal to a fixed rate minus a qualified floating rate and variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate.

A Rule 144A Return of Principal Guaranteed Instrument will also have a variable rate that is a single qualified floating rate or an objective rate if interest on the Rule 144A Return of Principal Guaranteed Instrument is stated at a fixed rate for an initial period of one year or less followed by either a qualified floating rate or an objective rate for a subsequent period, and the value of the qualified floating rate or objective rate is intended to approximate the fixed rate (which is presumed if (a) the fixed rate and (b) the qualified floating rate or objective rate have values on the issue date of the Rule 144A Return of Principal Guaranteed Instrument that do not differ by more than 0.25 percentage points).

In the case of a Rule 144A Return of Principal Guaranteed Instrument that provides for stated interest that is unconditionally payable at least annually at a variable rate that is a single qualified floating rate or objective rate, or one of those rates after a single fixed rate for an initial period of one year or less (as described above), all stated interest on the Rule 144A Return of Principal Guaranteed Instrument is

treated as qualified stated interest. In that case, both the Rule 144A Return of Principal Guaranteed Instrument's yield to maturity and qualified stated interest will be determined, solely for purposes of calculating the accrual of OID, if any, as though the Rule 144A Return of Principal Guaranteed Instrument will bear interest in all periods throughout its term (in the case of a single qualified floating rate or qualified inverse floating rate) at a fixed rate generally equal to the value of the rate on the issue date or, in the case of an objective rate (other than a qualified inverse floating rate), the rate that reflects the yield to maturity that is reasonably expected for the Rule 144A Return of Principal Guaranteed Instrument (the "**fixed rate substitute**"). A United States Holder should then recognise OID, if any, that is calculated based on the Rule 144A Return of Principal Guaranteed Instrument's assumed yield to maturity. If the interest actually accrued or paid during an accrual period exceeds or is less than the assumed fixed interest, the qualified stated interest allocable to that period is increased or decreased, as applicable.

If a Rule 144A Return of Principal Guaranteed Instrument provides for stated interest at (x) multiple qualified floating rates or (y) one or more qualified floating rates in addition to a single fixed rate (other than a single fixed rate for an initial period of one year or less (as described above)), the interest and OID accruals on the Rule 144A Return of Principal Guaranteed Instrument must be determined by (i) determining a fixed rate substitute for each qualified floating rate or qualified inverse floating rate provided under the Rule 144A Return of Principal Guaranteed Instrument (as described above), (ii) constructing the equivalent fixed rate debt instrument, using the fixed rate substitutes, (iii) determining the amount of qualified stated interest and OID with respect to the equivalent fixed rate debt instrument, and (iv) making appropriate adjustments to qualified stated interest or OID for actual variable rates during the applicable accrual period.

In the case of a Rule 144A Return of Principal Guaranteed Instrument that provides for stated interest either at one or more qualified floating rates or at a qualified inverse floating rate and also provides for stated interest at a single fixed rate other than at a single fixed rate for an initial period (as described above), the interest and OID accruals on the Rule 144A Return of Principal Guaranteed Instrument must be determined by using the method described above. However, the Rule 144A Return of Principal Guaranteed Instrument will be treated, for purposes of the first three steps of the determination, as if the Rule 144A Return of Principal Guaranteed Instrument had provided for a qualified floating rate, or a qualified inverse floating rate, rather than the fixed rate. The qualified floating rate, or qualified inverse floating rate, that replaces the fixed rate must be such that the fair market value of the Rule 144A Return of Principal Guaranteed Instrument as of the issue date approximates the fair market value of an otherwise identical debt instrument that provides for the qualified floating rate, or qualified inverse floating rate, rather than the fixed rate.

Acquisition Premium

If a United States Holder purchases an OID Rule 144A Return of Principal Guaranteed Instrument for an amount greater than its adjusted issue price (as determined above) at the purchase date and less than or equal to the sum of all amounts, other than qualified stated interest, payable on the OID Rule 144A Return of Principal Guaranteed Instrument after the purchase date, the excess is "acquisition premium". Under these rules, in general, the amount of OID which must be included in income for the Rule 144A Return of Principal Guaranteed Instrument for any taxable year (or any portion of a taxable year in which the Rule 144A Return of Principal Guaranteed Instrument is held) will be reduced (but not below zero) by the portion of the acquisition premium allocated to the period. The amount of acquisition premium allocated to each period is determined by multiplying the OID that otherwise would have been included in income by a fraction, the numerator of which is the excess of the cost over the adjusted issue price of the OID Rule 144A Return of Principal Guaranteed Instrument and the denominator of which is the excess of the OID Rule 144A Return of Principal Guaranteed Instrument's stated redemption price at maturity over its adjusted issue price.

Amortizable Bond Premium

If a United States Holder purchases a Rule 144A Return of Principal Guaranteed Instrument (including an OID Rule 144A Return of Principal Guaranteed Instrument) for an amount in excess of the sum of all amounts payable on the Rule 144A Return of Principal Guaranteed Instrument after the purchase date, other than qualified stated interest, such holder will be considered to have purchased such Rule 144A Return of Principal Guaranteed Instrument with "amortizable bond premium" equal in amount to such excess. A United States Holder may elect to amortize such premium as an offset to interest income using

a constant yield method over the remaining term of the Rule 144A Return of Principal Guaranteed Instrument based on the United States Holder's yield to maturity with respect to the Rule 144A Return of Principal Guaranteed Instrument.

A United States Holder generally may use the amortizable bond premium allocable to an accrual period to offset interest required to be included in the United States Holder's income under its regular method of accounting with respect to the Rule 144A Return of Principal Guaranteed Instrument in that accrual period. If the amortizable bond premium allocable to an accrual period exceeds the amount of interest allocable to such accrual period, such excess would be allowed as a deduction for such accrual period, but only to the extent of the United States Holder's prior interest inclusions on the Rule 144A Return of Principal Guaranteed Instrument that have not been offset previously by bond premium. Any excess is generally carried forward and allocable to the next accrual period.

If a Rule 144A Return of Principal Guaranteed Instrument may be redeemed by us prior to its maturity date, the amount of amortizable bond premium will be based on the amount payable at the applicable redemption date, but only if use of the redemption date (in lieu of the stated maturity date) results in a smaller amortizable bond premium for the period ending on the redemption date.

An election to amortize bond premium applies to all taxable debt obligations held by the United States Holder at the beginning of the first taxable year to which the election applies and thereafter acquired by the United States Holder and may be revoked only with the consent of the IRS. Generally, a holder may make an election to include in income its entire return on a Rule 144A Return of Principal Guaranteed Instrument (i.e., the excess of all remaining payments to be received on the Rule 144A Return of Principal Guaranteed Instrument over the amount paid for the Rule 144A Return of Principal Guaranteed Instrument by such holder) in accordance with a constant yield method based on the compounding of interest, as discussed below under "*Election to Treat All Interest as Original Issue Discount*". If a holder makes such an election for a Rule 144A Return of Principal Guaranteed Instrument with amortizable bond premium, such election will result in a deemed election to amortize bond premium for all of the holder's debt instruments with amortizable bond premium and may be revoked only with the permission of the IRS.

A United States Holder that elects to amortize bond premium will be required to reduce its tax basis in the Rule 144A Return of Principal Guaranteed Instrument by the amount of the premium amortized during its holding period. OID Rule 144A Return of Principal Guaranteed Instruments purchased at a premium will not be subject to the OID rules described above. If a United States Holder does not elect to amortize bond premium, the amount of bond premium will be included in its tax basis in the Rule 144A Return of Principal Guaranteed Instrument. Therefore, if a United States Holder does not elect to amortize bond premium and it holds the Rule 144A Return of Principal Guaranteed Instrument to maturity, the premium generally will be treated as capital loss when the Rule 144A Return of Principal Guaranteed Instrument matures.

Market Discount

If a United States Holder purchases a Rule 144A Return of Principal Guaranteed Instrument for an amount that is less than its stated redemption price at maturity, or, in the case of an OID Rule 144A Return of Principal Guaranteed Instrument, its adjusted issue price, such holder will be considered to have purchased the Rule 144A Return of Principal Guaranteed Instrument with "market discount". Any payment, other than qualified stated interest, or any gain on the sale, exchange, retirement, or other disposition of a Rule 144A Return of Principal Guaranteed Instrument with market discount generally will be treated as ordinary interest income to the extent of the market discount not previously included in income that accrued on the Rule 144A Return of Principal Guaranteed Instrument during such holder's holding period. In general, market discount is treated as accruing on a straight-line basis over the term of the Rule 144A Return of Principal Guaranteed Instrument unless an election is made to accrue the market discount under a constant yield method. In addition, a United States Holder may be required to defer, until the maturity of the Rule 144A Return of Principal Guaranteed Instrument or its earlier disposition in a taxable transaction, the deduction of a portion of the interest paid on any indebtedness incurred or maintained to purchase or carry the Rule 144A Return of Principal Guaranteed Instrument in an amount not exceeding the accrued market discount on the Rule 144A Return of Principal Guaranteed Instrument.

A United States Holder may elect to include market discount in income currently as it accrues (on either a straight-line or constant yield basis), in lieu of treating a portion of any gain realised on a sale, exchange,

retirement, or other disposition of the Rule 144A Return of Principal Guaranteed Instrument as ordinary income. If an election is made to include market discount on a current basis, the interest deduction deferral rule described above will not apply. If a United States Holder makes such an election, it will apply to all market discount debt instruments acquired by such holder on or after the first day of the first taxable year to which the election applies. The election may not be revoked without the consent of the IRS. United States Holders should consult with their own tax advisors before making this election.

If the difference between the stated redemption price at maturity of a Rule 144A Return of Principal Guaranteed Instrument or, in the case of an OID Rule 144A Return of Principal Guaranteed Instrument, its adjusted issue price, and the amount paid for the Rule 144A Return of Principal Guaranteed Instrument is less than 1/4 of 1% of the debt instrument's stated redemption price at maturity or, in the case of an OID Rule 144A Return of Principal Guaranteed Instrument, its adjusted issue price, multiplied by the number of remaining complete years to the Rule 144A Return of Principal Guaranteed Instrument's maturity ("**de minimis market discount**"), the Rule 144A Return of Principal Guaranteed Instrument is not treated as issued with market discount.

Generally, a holder may make an election to include in income its entire return on a Rule 144A Return of Principal Guaranteed Instrument (i.e., the excess of all remaining payments to be received on the Rule 144A Return of Principal Guaranteed Instrument over the amount paid for the Rule 144A Return of Principal Guaranteed Instrument by such holder) in accordance with a constant yield method based on the compounding of interest, as discussed below under "**Election to Treat All Interest as Original Issue Discount**". If a holder makes such an election for a Rule 144A Return of Principal Guaranteed Instrument with market discount, the holder will be required to include market discount in income currently as it accrues on a constant yield basis for all market discount debt instruments acquired by such holder on or after the first day of the first taxable year to which the election applies, and such election may be revoked only with the permission of the IRS.

Election to Treat All Interest as Original Issue Discount

A United States Holder may elect to include in income all interest that accrues on a Rule 144A Return of Principal Guaranteed Instrument using the constant-yield method applicable to OID described above, subject to certain limitations and exceptions. For purposes of this election, interest includes stated interest, acquisition discount, OID, de minimis OID, market discount, de minimis market discount, and unstated interest, as adjusted by any amortizable bond premium or acquisition premium, each as described herein. If this election is made for a Rule 144A Return of Principal Guaranteed Instrument, then, to apply the constant-yield method: (i) the issue price of the Rule 144A Return of Principal Guaranteed Instrument will equal its cost, (ii) the issue date of the Rule 144A Return of Principal Guaranteed Instrument will be the date it was acquired, and (iii) no payments on the Rule 144A Return of Principal Guaranteed Instrument will be treated as payments of qualified stated interest. A United States Holder must make this election for the taxable year in which the Rule 144A Return of Principal Guaranteed Instrument was acquired, and may not revoke the election without the consent of the IRS. United States Holders should consult with their own tax advisors before making this election.

Short-Term Rule 144A Return of Principal Guaranteed Instruments

Some of our Rule 144A Return of Principal Guaranteed Instruments may be issued with maturities of one year or less from the date of issue (after taking into account the last possible date that the Rule 144A Return of Principal Guaranteed Instrument could be outstanding under its terms), which we refer to as short-term Rule 144A Return of Principal Guaranteed Instruments. Treasury regulations provide that no payments of interest on a short-term Rule 144A Return of Principal Guaranteed Instrument are treated as qualified stated interest. Accordingly, in determining the amount of discount on a short-term Rule 144A Return of Principal Guaranteed Instrument, all interest payments, including stated interest, are included in the short-term Rule 144A Return of Principal Guaranteed Instrument's stated redemption price at maturity.

In general, individual and certain other United States Holders using the cash basis method of tax accounting are not required to include accrued discount on short-term Rule 144A Return of Principal Guaranteed Instruments in income currently unless they elect to do so, but they are required to include any stated interest in income as the interest is received, except to the extent already included under such election. However, a cash basis United States Holder will be required to treat any gain realized on a sale, exchange, or retirement of the short-term Rule 144A Return of Principal Guaranteed Instrument as

ordinary income to the extent such gain does not exceed the discount accrued with respect to the short-term Rule 144A Return of Principal Guaranteed Instrument, which will be determined on a straight-line basis unless the holder makes an election to accrue the discount under the constant-yield method, through the date of sale, exchange or retirement. Any gain in excess of this amount will be treated as short-term capital gain. Any loss recognised will be treated as a capital loss. In addition, a cash basis United States Holder that does not elect to include accrued discount in income currently will not be allowed to deduct any of the interest paid or accrued on any indebtedness incurred or maintained to purchase or carry a short-term Rule 144A Return of Principal Guaranteed Instrument (in an amount not exceeding the deferred income), but instead will be required to defer deductions for such interest until the deferred income is realised upon the maturity of the short-term Rule 144A Return of Principal Guaranteed Instrument or its earlier disposition in a taxable transaction. Notwithstanding the foregoing, a cash-basis United States Holder of a short-term Rule 144A Return of Principal Guaranteed Instrument may elect to include accrued discount in income on a current basis. If this election is made, the limitation on the deductibility of interest described above will not apply.

A United States Holder using the accrual method of tax accounting generally will be required to include accrued discount on a short-term Rule 144A Return of Principal Guaranteed Instrument in income on a current basis, on either a straight-line basis or, at the election of the holder, under the constant-yield method based on daily compounding.

Regardless of whether a United States Holder is a cash-basis or accrual-basis holder it may elect to include accrued "acquisition discount" with respect to a short-term Rule 144A Return of Principal Guaranteed Instrument in income on a current basis. Acquisition discount is the excess of the remaining redemption amount of the short-term Rule 144A Return of Principal Guaranteed Instrument at the time of acquisition over the purchase price. Acquisition discount will be treated as accruing on a straight-line basis or, at the election of the holder, under a constant yield method based on daily compounding. If a United States Holder elects to include accrued acquisition discount in income, the rules for including OID will not apply. In addition, the market discount rules described above will not apply to short-term Rule 144A Return of Principal Guaranteed Instruments.

Sale, Exchange, or Retirement of Rule 144A Return of Principal Guaranteed Instruments

Upon the sale, exchange, retirement, or other disposition of a Rule 144A Return of Principal Guaranteed Instrument, a United States Holder will recognise gain or loss equal to the difference between the amount realised upon the sale, exchange, retirement, or other disposition (less an amount equal to any accrued interest not previously included in income if the Rule 144A Return of Principal Guaranteed Instrument is disposed of between interest payment dates, which will be included in income as interest income for U.S. federal income tax purposes) and the United States Holder's adjusted tax basis in the Rule 144A Return of Principal Guaranteed Instrument. The amount realised by the United States Holder will include the amount of any cash and the fair market value of any other property received for the Rule 144A Return of Principal Guaranteed Instrument. A United States Holder's adjusted tax basis in a Rule 144A Return of Principal Guaranteed Instrument generally will be the cost of the Rule 144A Return of Principal Guaranteed Instrument to such United States Holder, increased by any OID, market discount, de minimis OID, de minimis market discount, or any discount with respect to a short-term Rule 144A Return of Principal Guaranteed Instrument previously included in income with respect to the Rule 144A Return of Principal Guaranteed Instrument, and decreased by the amount of any premium previously amortized to reduce interest on the Rule 144A Return of Principal Guaranteed Instrument and the amount of any payment (other than a payment of qualified stated interest) received in respect of the Rule 144A Return of Principal Guaranteed Instrument.

Except as discussed above with respect to market discount, or as described below with respect to Rule 144A Return of Principal Guaranteed Instruments subject to contingencies, gain or loss realised on the sale, exchange, retirement, or other disposition of a Rule 144A Return of Principal Guaranteed Instrument generally will be capital gain or loss and will be long-term capital gain or loss if the Rule 144A Return of Principal Guaranteed Instrument has been held for more than one year. Net long-term capital gain recognised by an individual United States Holder is generally taxed at preferential rates. The ability of United States Holders to deduct capital losses is subject to limitations under the Code.

Rule 144A Return of Principal Guaranteed Instruments Subject to Contingencies

Certain of the Rule 144A Return of Principal Guaranteed Instruments may provide for an alternative payment schedule or schedules applicable upon the occurrence of a contingency or contingencies, other than a remote or incidental contingency, whether such contingency relates to payments of interest or of principal. In addition, certain of the Rule 144A Return of Principal Guaranteed Instruments may contain provisions permitting them to be redeemed prior to their stated maturity at our option and/or at the option of the holder. Rule 144A Return of Principal Guaranteed Instruments containing these features may be characterised as "contingent payment debt instruments" for U.S. federal income tax purposes.

If the Rule 144A Return of Principal Guaranteed Instruments are properly characterised as contingent payment debt instruments for U.S. federal income tax purposes, such Rule 144A Return of Principal Guaranteed Instruments generally will be subject to Treasury regulations governing contingent payment debt instruments. Under those regulations, a United States Holder will be required to report OID based on a "comparable yield" and a "projected payment schedule", both as described below, established by us for determining interest accruals and adjustments with respect to the Rule 144A Return of Principal Guaranteed Instrument. A United States Holder that does not use the "comparable yield" and follow the "projected payment schedule" to calculate its OID on a Rule 144A Return of Principal Guaranteed Instrument must timely disclose and justify the use of other estimates to the IRS. No payments on a contingent payment debt instrument are treated as qualified stated interest.

A "comparable yield" with respect to a Rule 144A Return of Principal Guaranteed Instrument generally is the yield at which we could issue a fixed-rate debt instrument with terms similar to those of the Rule 144A Return of Principal Guaranteed Instrument (taking into account for this purpose the level of subordination, term, timing of payments, and general market conditions, but ignoring any adjustments for liquidity or the riskiness of the contingencies with respect to the Rule 144A Return of Principal Guaranteed Instrument). Notwithstanding the foregoing, a comparable yield must not be less than the applicable U.S. federal rate based on the overall maturity of the Rule 144A Return of Principal Guaranteed Instrument.

A "projected payment schedule" with respect to a Rule 144A Return of Principal Guaranteed Instrument generally is a series of projected payments, the amount and timing of which would produce a yield to maturity on that Rule 144A Return of Principal Guaranteed Instrument equal to the comparable yield. This projected payment schedule will consist of a projection for tax purposes of each non-contingent and contingent payment.

Based on the comparable yield and the projected payment schedule of the Rule 144A Return of Principal Guaranteed Instruments, a United States Holder of a Rule 144A Return of Principal Guaranteed Instrument (regardless of its tax accounting method) generally will be required to accrue as OID the sum of the daily portions of interest on the Rule 144A Return of Principal Guaranteed Instrument for each day in the taxable year on which the holder held the Rule 144A Return of Principal Guaranteed Instrument, adjusted upward or downward to reflect the difference, if any, between the actual and projected amount of any contingent payments on the Rule 144A Return of Principal Guaranteed Instrument, as set forth below. The daily portions of interest for a Rule 144A Return of Principal Guaranteed Instrument are determined by allocating to each day in an accrual period the ratable portion of interest on the Rule 144A Return of Principal Guaranteed Instrument that accrues in the accrual period. The amount of interest on the Rule 144A Return of Principal Guaranteed Instrument that accrues in an accrual period is the product of the comparable yield on the Rule 144A Return of Principal Guaranteed Instrument (adjusted to reflect the length of the accrual period) and the adjusted issue price of the Rule 144A Return of Principal Guaranteed Instrument at the beginning of the accrual period. The adjusted issue price of a Rule 144A Return of Principal Guaranteed Instrument at the beginning of the first accrual period will equal its issue price (as described above). For any subsequent accrual period, the adjusted issue price will be (i) the sum of the issue price of the Rule 144A Return of Principal Guaranteed Instrument and any interest previously accrued on the Rule 144A Return of Principal Guaranteed Instrument by a holder (without regard to any positive or negative adjustments, described below) minus (ii) the amount of any projected payments on the Rule 144A Return of Principal Guaranteed Instrument for previous accrual periods.

A United States Holder of a Rule 144A Return of Principal Guaranteed Instrument generally will be required to include in income OID in excess of actual cash payments received for certain taxable years. In addition to the accrued OID, a United States Holder will be required to recognise interest income equal to the amount of any positive adjustment for a Rule 144A Return of Principal Guaranteed Instrument for the taxable year in which a contingent payment is paid (including a payment of interest at maturity). A

positive adjustment is the excess of actual payments in respect of contingent payments over the projected amount of contingent payments. A United States Holder also will be required to account for any "negative adjustment" for a taxable year in which a contingent payment is paid. A negative adjustment is the excess of the projected amounts of contingent payments over actual payments in respect of the contingent payments. A net negative adjustment is the amount by which total negative adjustments in a taxable year exceed total positive adjustments in such taxable year. A net negative adjustment (i) will first reduce the amount of interest for the Rule 144A Return of Principal Guaranteed Instrument that a United States Holder would otherwise be required to include in income in the taxable year, and (ii) to the extent of any excess, will result in an ordinary loss equal to that portion of the excess as does not exceed the excess of (a) the amount of all previous interest inclusions under the Rule 144A Return of Principal Guaranteed Instrument over (b) the total amount of the United States Holder's net negative adjustments treated as ordinary loss on the Rule 144A Return of Principal Guaranteed Instrument in prior taxable years. A net negative adjustment is not treated as a deductible miscellaneous itemised deduction under Section 67 of the Code. Any net negative adjustment in excess of the amounts described above in (i) and (ii) will be carried forward to offset future interest income on the Rule 144A Return of Principal Guaranteed Instrument or to reduce the amount realised on a sale, exchange, retirement or other disposition of the Rule 144A Return of Principal Guaranteed Instrument .

If a contingent payment becomes fixed (within the meaning of applicable Treasury regulations) more than six months before its due date, a positive or negative adjustment, as appropriate, is made to reflect the difference between the present value of the amount that is fixed and the present value of the projected amount. The present value of each amount is determined by discounting the amount from the date the payment is due to the date the payment becomes fixed, using a discount rate equal to the comparable yield. If all contingent payments on the Rule 144A Return of Principal Guaranteed Instrument become fixed, substantially contemporaneously, applicable Treasury regulations provide that, with regard to contingent payments that become fixed on a day that is more than six months before their due date, United States Holders should take into account positive or negative adjustments in respect of such contingent payments over the period to which they relate in a reasonable manner. For purposes of the preceding sentence, a payment (including an amount payable at maturity) will be treated as fixed if (and when) all remaining contingencies with respect to it are remote or incidental within the meaning of the applicable Treasury regulations. A United States Holder's tax basis in the Rule 144A Return of Principal Guaranteed Instrument and the character of any gain or loss on the sale of the Rule 144A Return of Principal Guaranteed Instrument will also be affected. United States Holders should consult their tax advisors concerning the application of these special rules, including as to what would be a "reasonable manner" in their particular situation.

Upon a sale, exchange, retirement, or other disposition of a Rule 144A Return of Principal Guaranteed Instrument prior to maturity, a United States Holder generally will recognise taxable gain or loss equal to the difference between the amount realised on the sale, exchange, retirement, or other disposition and that holder's tax basis in the Rule 144A Return of Principal Guaranteed Instrument . A United States Holder's tax basis in a Rule 144A Return of Principal Guaranteed Instrument generally will equal the cost of that Rule 144A Return of Principal Guaranteed Instrument , increased by the amount of OID previously accrued by the holder for that Rule 144A Return of Principal Guaranteed Instrument (without regard to any positive or negative adjustments) and reduced by any projected payments for previous periods on the Rule 144A Return of Principal Guaranteed Instruments. A United States Holder generally will treat any gain as interest income, and will treat any loss as ordinary loss to the extent of the excess of previous interest inclusions over the total negative adjustments previously taken into account as ordinary losses, and the balance as long-term or short-term capital loss depending upon the United States Holder's holding period for the Rule 144A Return of Principal Guaranteed Instrument. The deductibility of capital losses by a United States Holder is subject to limitations.

United States Holders considering the purchase of Rule 144A Return of Principal Guaranteed Instruments with these features should carefully examine the applicable supplement and should consult their own tax advisors regarding the U.S. federal income tax consequences to a United States Holder of the purchase, ownership and disposition of such Rule 144A Return of Principal Guaranteed Instruments.

Rule 144A Return of Principal Not Guaranteed Instruments

Although there is no statutory, judicial, or administrative authority directly addressing the characterisation of a Rule 144A Instrument that does not guarantee the return of principal ("**Rule 144A Return of Principal Not Guaranteed Instruments**") , the relevant Issuer intends to treat each Rule

144A Return of Principal Not Guaranteed Instrument for all tax purposes as a single financial contract linked to the underlying index or shares. This discussion assumes that a Rule 144A Return of Principal Not Guaranteed Instrument constitutes a single financial contract linked to the underlying Reference Item for United States federal income tax purposes. If a Rule 144A Return of Principal Not Guaranteed Instrument does not constitute a single financial contract, the tax consequences described below would be materially different.

This characterisation of a Rule 144A Return of Principal Not Guaranteed Instrument is not binding on the IRS or the courts. No statutory, judicial, or administrative authority directly addresses the characterisation of a Rule 144A Return of Principal Not Guaranteed Instrument or any similar instruments for United States federal income tax purposes, and no ruling is being requested from the IRS with respect to its proper characterisation and treatment. Due to the absence of authorities on point, significant aspects of the United States federal income tax consequences of an investment in a Rule 144A Return of Principal Not Guaranteed Instrument are not certain, and no assurance can be given that the IRS or any court will agree with the characterisation and tax treatment described herein. Accordingly, holders are urged to consult their tax advisor regarding all aspects of the United States federal income tax consequences of an investment in a Rule 144A Return of Principal Not Guaranteed Instrument, including possible alternative characterisations.

As noted above, the IRS released the Notice in which it sought comments on the taxation of financial instruments referred to as "prepaid forward contracts". According to the Notice, the IRS and U.S. Treasury are considering whether a holder of such an instrument should be required to accrue ordinary income on a current basis, regardless of whether any payments are made prior to maturity or settlement. The IRS and U.S. Treasury are also considering additional issues, including whether foreign holders of such instruments should be subject to withholding tax on any deemed income accruals. It is not possible to determine what guidance the IRS and U.S. Treasury will ultimately issue, if any, and whether any such guidance would be retroactive. Any such guidance may affect the United States federal income and withholding tax treatment of a Rule 144A Return of Principal Not Guaranteed Instrument.

Holders are urged to consult their own tax advisor concerning the impact and the significance of the above considerations. The relevant Issuer intends to continue treating a Rule 144A Return of Principal Not Guaranteed Instrument for United States federal income tax purposes in the manner described herein unless and until such time as the relevant Issuer, the IRS or U.S. Treasury determines, that some other treatment is more appropriate.

Unless otherwise stated, the following discussion is based on the characterisation described above. The discussion in this section assumes that there is a significant possibility of a significant loss of principal on an investment in a Rule 144A Return of Principal Not Guaranteed Instrument.

The relevant Issuer will not attempt to ascertain whether any of the entities whose stock is included in an underlying index or the issuer of any underlying shares is a "passive foreign investment company" ("PFIC") within the meaning of Section 1297 of the Code or a "financial asset" within the meaning of Section 1260 of the Code. If any of the entities whose stock is included in the underlying index or the issuer of any underlying shares were so treated, certain adverse United States federal income tax consequences could possibly apply. Holders should consult their tax advisor regarding the possible consequences to them in this regard.

Although the United States federal income tax treatment of any additional amounts paid with respect to a Reference Item linked Rule 144A Return of Principal Not Guaranteed Instrument is uncertain, the relevant Issuer intends to take the position, and the following discussion assumes, that any such additional amounts constitute taxable ordinary income to a United States Holder at the time received or accrued in accordance with the holder's regular method of accounting.

Subject to the final sentence of this paragraph, upon receipt of a cash payment on the settlement date or upon a sale or exchange of a Rule 144A Return of Principal Not Guaranteed Instrument prior to exercise, a United States Holder generally should recognise capital gain or loss equal to the difference between the amount realised and the holder's basis in the Rule 144A Return of Principal Not Guaranteed Instrument. This capital gain or loss generally will be long-term capital gain or loss if the United States Holder held the Rule 144A Return of Principal Not Guaranteed Instrument for more than one year. The deductibility of capital losses is subject to limitations. For this purpose, however, the relevant Issuer can provide no assurance on the proper treatment of the portion of the cash settlement amount, if any, equal

to a fixed percentage p.a. of the issue price (the "**outperformance payment**") and the IRS may successfully assert that any amount attributable to the outperformance payment should be treated as ordinary income rather than as part of the amount realised.

Due to the absence of authorities that directly address the proper tax treatment of a Rule 144A Return of Principal Not Guaranteed Instrument, prospective investors are urged to consult their tax advisor regarding all possible alternative tax treatments of an investment in a Rule 144A Return of Principal Not Guaranteed Instrument. For example, the IRS could seek to treat a Rule 144A Return of Principal Not Guaranteed Instrument as a single debt instrument. If the IRS were successful in that regard, the timing and character of income on a Rule 144A Return of Principal Not Guaranteed Instrument would be affected significantly. In that case, if a Rule 144A Return of Principal Not Guaranteed Instrument has a term that exceeds one year, it would generally be treated as a contingent payment debt instrument, in which case, a United States Holder would be required to accrue interest currently over the term of the Rule 144A Return of Principal Not Guaranteed Instrument. In addition, any gain a United States Holder might recognise upon the settlement or upon a sale or exchange of the Rule 144A Return of Principal Not Guaranteed Instrument prior to exercise would be ordinary income and any loss recognised by a holder at such time would be ordinary loss to the extent of interest that same holder included in income in the current or previous taxable years in respect of the Rule 144A Return of Principal Not Guaranteed Instrument, and thereafter, would be capital loss. If the Rule 144A Return of Principal Not Guaranteed Instrument is treated as a single debt instrument that has a term of no more than one year, it would be treated as a single contingent short-term debt instrument, which would also result in tax consequences that are different from those described above. Other alternative United States federal income tax characterisations of a Rule 144A Return of Principal Not Guaranteed Instrument are possible, which, if applied, also could affect the timing and the character of a United States Holder's income or loss.

In general, backup withholding may apply in respect of the amounts paid to a United States Holder, unless such United States Holder provides proof of an applicable exemption or a correct taxpayer identification number, or otherwise complies with applicable requirements of the backup withholding rules. In addition, information returns will be filed with the IRS in connection with payments on the Rule 144A Return of Principal Not Guaranteed Instrument as well as in connection with the proceeds from a sale, exchange, or other disposition of the Rule 144A Return of Principal Not Guaranteed Instrument, unless the United States Holder provides proof of an applicable exemption from the information reporting rules. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against a United States Holder's United States federal income tax liability provided the required information is furnished to the IRS.

The Foreign Account Tax Compliance Act

The Foreign Account Tax Compliance Act ("**FATCA**") (Sections 1471 through 1474 of the Code) imposes a 30 per cent. United States withholding tax on certain United States source payments, including interest (and original issue discount), dividends (and dividend equivalents), or other fixed or determinable annual or periodical gain, profits, and income ("**Withholdable Payments**"), if paid to a foreign financial institution (including amounts paid to a foreign financial institution on behalf of a holder), unless such institution enters into an agreement with U.S. Treasury to collect and provide to U.S. Treasury substantial information regarding United States account holders, including certain account holders that are foreign entities with United States owners, with such institution. An Instrument may constitute an account for these purposes. The legislation also generally imposes a withholding tax of 30 per cent. on Withholdable Payments made to a non-financial foreign entity unless such entity provides the withholding agent with a certification that it does not have any substantial United States owners or a certification identifying the direct and indirect substantial United States owners of the entity. Under certain circumstances, a holder may be eligible for refunds or credits of such taxes.

In addition, under FATCA, "passthru payments" made by a foreign financial institution to "recalcitrant holders" or non-compliant foreign financial institutions are subject to a 30 per cent. United States withholding tax. A "recalcitrant holder" generally is a holder of an account with a foreign financial institution that fails to comply with reasonable requests for information that will help enable the relevant foreign financial institution to comply with its reporting requirements (an Instrument may constitute an account for these purposes). Pursuant to U.S. Treasury regulations, a passthru payment is any Withholdable Payment and any "foreign passthru payment", which has yet to be defined. Under the regulations, the 30 per cent. United States withholding tax on "recalcitrant holders" or non-compliant foreign financial institutions may be imposed on United States source payments (e.g. dividend equivalent

payments) made by an Issuer or any Paying Agent with respect to the Instruments and on non-United States source payments made after the second anniversary of the date of publication in the United States Federal Register of final regulations defining the term "foreign passthru payment" by an Issuer or any Paying Agent with respect to the Instruments.

If the relevant Issuer or any Paying Agent determines withholding is appropriate with respect to the Instruments, the relevant Issuer or such Paying Agent will withhold tax at the applicable statutory rate without being required to pay any Additional Tax Amounts with respect to amounts so withheld. However, the withholding tax will not be imposed on payments pursuant to an Instrument giving rise to Withholdable Payments solely because payments are treated as dividend equivalent payments if the Instrument is outstanding on or before the date that is six months after the date on which obligations similar to the Instrument become subject to the dividend equivalent rules. In addition, payments on an Instrument will not be treated as "foreign passthru payments" if such Instrument is outstanding on or before the date that is six months after the date on which final regulations defining the term "foreign passthru payment" are filed with the United States Federal Register. Foreign financial institutions and non-financial foreign entities located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules. Holders are urged to consult with their own tax advisors regarding the possible implications of FATCA on their investment in the Instruments.

THE UNITED STATES FEDERAL INCOME TAX DISCUSSION SET FORTH ABOVE IS INCLUDED FOR GENERAL INFORMATION ONLY AND MAY OR MAY NOT BE APPLICABLE DEPENDING UPON A HOLDER'S PARTICULAR SITUATION. HOLDERS SHOULD CONSULT THEIR OWN TAX ADVISERS WITH RESPECT TO THE TAX CONSEQUENCES TO THEM OF THE OWNERSHIP AND DISPOSITION OF THE INSTRUMENTS, INCLUDING THE TAX CONSEQUENCES UNDER STATE, LOCAL, FOREIGN AND OTHER TAX LAWS AND THE POSSIBLE EFFECTS OF CHANGES IN FEDERAL OR OTHER TAX LAWS.

DUTCH TAXATION

This summary solely addresses the principal Dutch tax consequences of the acquisition ownership and disposal of Notes, Warrants or Certificates (together referred to as "**Instruments**") issued on or after the date of this Offering Circular and does not purport to describe every aspect of taxation that may be relevant to a particular holder. Tax matters are complex, and the tax consequences of an offering under the Programme to a particular holder of the Instruments will depend in part on such holder's circumstances. Accordingly, a holder is urged to consult his own tax advisor for a full understanding of the tax consequences of an offering under the Programme to him, including the applicability and effect of Dutch tax laws.

Where in this summary English terms and expressions are used to refer to Dutch concepts, the meaning to be attributed to such terms and expressions shall be the meaning to be attributed to the equivalent Dutch concepts under Dutch tax law. Where in this summary the terms "the Netherlands" and "Dutch" are used, these refer solely to the European part of the Kingdom of the Netherlands.

This summary assumes that the Issuer is organised, and that its business will be conducted, in the manner outlined in this Offering Circular. A change to such organisational structure or to the manner in which the Issuer conducts its business may invalidate the contents of this summary, which will not be updated to reflect any such change.

This summary is based on the tax law of the Netherlands (unpublished case law not included) as it stands at the date of this Offering Circular. The tax law upon which this summary is based is subject to changes, possibly with retroactive effect. Any such change may invalidate the contents of this summary, which will not be updated to reflect such change.

The summary in this Dutch taxation paragraph does not address the Dutch tax consequences for a holder of Instruments who:

- i. is a person who may be deemed an owner of Instruments for Dutch tax purposes pursuant to specific statutory attribution rules in Dutch tax law;

- ii. is, although in principle subject to Dutch corporation tax, in whole or in part, specifically exempt from that tax in connection with income from Instruments;
- iii. is an investment institution as defined in the Dutch Corporation Tax Act 1969;
- iv. is an entity that, although in principle subject to Dutch corporation tax, is fully or partly exempt from Dutch corporation tax;
- v. owns Instruments in connection with a membership of a management board or a supervisory board, an employment relationship, a deemed employment relationship or management role;
- vi. has a substantial interest in the Issuer or a deemed substantial interest in the Issuer for Dutch tax purposes. Generally, a person holds a substantial interest if (a) such person – either alone or, in the case of an individual, together with his partner or any of his relatives by blood or by marriage in the direct line (including foster-children) or of those of his partner for Dutch tax purposes – owns or is deemed to own, directly or indirectly, 5 per cent. or more of the shares or of any class of shares of the Issuer, or rights to acquire, directly or indirectly, such an interest in the shares of the Issuer or profit participating certificates relating to 5 per cent. or more of the annual profits or to 5 per cent. or more of the liquidation proceeds of the Issuer, or (b) such person's shares, rights to acquire shares or profit participating certificates in the Issuer are held by him following the application of a non-recognition provision; or
- vii. is for Dutch tax purposes taxable as a corporate entity and resident of Aruba, Curaçao or Sint Maarten.

Withholding tax

All payments under the Instruments may be made free from withholding or deduction of or for any taxes of whatever nature imposed, levied, withheld or assessed by the Netherlands or any political subdivision or taxing authority of or in the Netherlands, except that Dutch withholding tax may apply (a) with respect to payments of interest made or deemed to be made by the Issuer if the interest payments are made or deemed to be made to a related party which (i) is resident in a low-tax or non-cooperative jurisdiction as specifically listed in an annually updated Dutch regulation, (ii) has a permanent establishment in any such jurisdiction to which the interest is attributable, (iii) is neither resident in the Netherlands nor in a low-tax or non-cooperative jurisdiction, and is entitled to the interest with the main purpose or one of the main purposes to avoid withholding tax of another person, (iv) is a hybrid entity, or (v) is not resident in any jurisdiction, within the meaning of the Dutch Withholding Tax Act 2021, or (b) where Instruments are issued under such terms and conditions that such Instruments are capable of being classified as equity of the Issuer for Dutch tax purposes or actually function as equity of the Issuer within the meaning of article 10, paragraph 1, letter d of the Dutch Corporation Tax Act 1969 and where Instruments are issued that are redeemable in exchange for, convertible into or linked to shares or other equity instruments issued or to be issued by the Issuer or an entity related to the Issuer (for example, the taxable basis for Dutch dividend withholding tax purposes may include (i) the par value of the shares issued upon exercise of the Warrants to the extent that it does not appear that a contribution, recognised for Dutch dividend withholding tax purposes, has been made or will be made or (ii) proceeds of any amounts paid in respect of a repurchase or redemption of Warrants or of a cash settlement of Warrants, and consequently, Dutch dividend withholding tax at a rate of 15% may be due in respect of (a part of) such par value or proceeds, subject to possible relief).

Taxes on income and capital gains

Resident holders of Instruments

A holder of Instruments who is resident or deemed to be resident in the Netherlands for Dutch tax purposes is fully subject to Dutch income tax if he is an individual or fully subject to Dutch corporation tax if it is a corporate entity, or an entity, including an association, a partnership and a mutual fund, taxable as a corporate entity, as described in the summary below.

Individuals deriving profits or deemed to be deriving profits from an enterprise

Any benefits derived or deemed to be derived from or in connection with Instruments that are attributable to an enterprise from which an individual derives profits, whether as an entrepreneur or pursuant to a co-

entitlement to the net value of an enterprise, other than as a shareholder, are generally subject to Dutch income tax at progressive rates up to 49.5%.

Individuals deriving benefits from miscellaneous activities

Any benefits derived or deemed to be derived from or in connection with Instruments that constitute benefits from miscellaneous activities by an individual are generally subject to Dutch income tax at progressive rates up to 49.5%.

An individual may, *inter alia*, derive or be deemed to derive benefits from or in connection with Instruments that are taxable as benefits from miscellaneous activities if his investment activities go beyond regular active portfolio management.

Other individuals

If a holder of Instruments is an individual whose situation has not been discussed before in this section "*Dutch taxation - Taxes on income and capital gains – Resident holders of Instruments*", the value of his Instruments forms part of the yield basis for purposes of tax on benefits from savings and investments. A deemed benefit, which is calculated on the basis of such holder's actual bank savings plus his actual other investments (including the value of the Instruments), minus his actual liabilities whilst taking into account a deemed benefit for each of these categories, is taxed at the rate of 36%. For the year 2024, the estimated deemed benefit rate for actual bank savings is 1.03%, the deemed benefit rate for actual other investments is 6.04% and the estimated deemed benefit rate for actual liabilities is 2.47%. The estimated deemed return percentages will be confirmed later. Actual benefits derived from or in connection with his Instruments are not subject to Dutch income tax.

Corporate entities

Any benefits derived or deemed to be derived from or in connection with Instruments that are held by a corporate entity, or an entity, including an association, a partnership and a mutual fund, taxable as a corporate entity, are generally subject to Dutch corporation tax.

General

A holder of Instruments will not be deemed to be resident in the Netherlands for Dutch tax purposes by reason only of the execution and/or enforcement of the documents relating to the issue of Instruments or the performance by the Issuer of its obligations under such documents or under the Instruments.

Non-resident Holders of Instruments

Individuals

If a holder of Instruments is an individual who is neither resident nor deemed to be resident in the Netherlands for purposes of Dutch income tax, he will not be subject to Dutch income tax in respect of any benefits derived or deemed to be derived from or in connection with Instruments, except if:

- i. he derives profits from an enterprise, whether as an entrepreneur or pursuant to a co-entitlement to the net value of such enterprise, other than as a shareholder, and such enterprise is carried on, in whole or in part, through a permanent establishment or a permanent representative in the Netherlands, and his Instruments are attributable to such permanent establishment or permanent representative;
- ii. he derives benefits or is deemed to derive benefits from or in connection with Instruments that are taxable as benefits from miscellaneous activities performed in the Netherlands; or
- iii. he derives profits pursuant to the entitlement to a share in the profits of an enterprise, other than as a holder of securities, which is effectively managed in the Netherlands and to which enterprise his Instruments are attributable.

Corporate entities

If a holder of Instruments is a corporate entity, or an entity, including an association, a partnership and a mutual fund, taxable as a corporate entity, which is neither resident nor deemed to be resident in the Netherlands for purposes of Dutch corporation tax, it will not be subject to Dutch corporation tax in respect of any benefits derived or deemed to be derived from or in connection with Instruments, except if:

- i. it derives profits from an enterprise directly which is carried on, in whole or in part, through a permanent establishment or a permanent representative in the Netherlands, and to which permanent establishment or permanent representative its Instruments are attributable; or
- ii. it derives profits pursuant to a co-entitlement to the net value of an enterprise which is managed in the Netherlands, other than as a holder of securities, and to which enterprise its Instruments are attributable.

General

If a holder of Instruments is neither resident nor deemed to be resident in the Netherlands, such holder will for Dutch tax purposes not carry on or be deemed to carry on an enterprise, in whole or in part, through a permanent establishment or a permanent representative in the Netherlands by reason only of the execution and/or enforcement of the documents relating to the issue of Instruments or the performance by the Issuer of its obligations under such documents or under Instruments.

Gift and inheritance taxes

No Dutch gift tax or Dutch inheritance tax will arise with respect to an acquisition or deemed acquisition of Instruments by way of gift by, or upon the death of, a holder of Instruments who is neither resident nor deemed to be resident in the Netherlands for purposes of Dutch gift tax or Dutch inheritance tax except if, in the event of a gift whilst not being a resident nor being a deemed resident in the Netherlands for purposes of Dutch gift tax or Dutch inheritance tax, the holder of Instruments becomes a resident or a deemed resident in the Netherlands and dies within 180 days after the date of the gift.

For purposes of Dutch gift tax and Dutch inheritance tax, a gift of Instruments made under a condition precedent is deemed to be made at the time the condition precedent is satisfied.

Registration taxes and duties

No Dutch registration tax, transfer tax, stamp duty or any other similar documentary tax or duty, other than court fees, is payable in the Netherlands in respect of or in connection with the execution and/or enforcement (including by legal proceedings and including the enforcement of any foreign judgment in the courts of the Netherlands) of the documents relating to the issue of Instruments, the performance by the Issuer of its obligations under such documents or under Instruments, or the transfer of Instruments, except that Dutch real property transfer tax may be due upon an acquisition, in connection with Instruments, of real property situated in the Netherlands, (an interest in) an asset that qualifies as real property situated in the Netherlands, or (an interest in) a right over real property situated in the Netherlands, for the purposes of Dutch real property transfer tax or where Instruments are issued under such terms and conditions that they represent (an interest in) an asset that qualifies as real property situated in the Netherlands, for the purposes of Dutch real property transfer tax.

LUXEMBOURG TAXATION

The following summary is of a general nature and is included herein solely for information purposes. It is based on the laws presently in force in Luxembourg, though it is not intended to be, nor should it be construed to be, legal or tax advice. Unless otherwise indicated, all information contained in this section is based on laws, regulations, practice and decisions in effect in Luxembourg at the date of this Offering Circular. Any changes could apply retroactively and could affect the continued validity of this summary.

This summary does not purport to be a comprehensive description of all potential Luxembourg tax considerations that may be relevant to a decision to invest in, own or dispose of the Instruments and is not intended as tax advice to any particular investor. This information also does not take into account the specific circumstances of particular investors. Prospective investors in the Notes, the Warrants and the Certificates (together referred to as "**Instruments**"), should therefore consult their own professional

advisers as to the effects of state, local or foreign laws, including Luxembourg tax law, to which they may be subject.

This overview assumes that each transaction with respect to the Instruments is at arm's length. It also assumes that the relevant Issuer or Guarantor is at all times not a tax resident in Luxembourg for Luxembourg tax purposes.

Where in this summary English terms and expressions are used to refer to Luxembourg concepts, the meaning to be attributed to such terms and expressions shall be the meaning to be attributed to the equivalent Luxembourg concepts under Luxembourg tax law.

The summary in this Luxembourg taxation paragraph does not address the Luxembourg tax consequences for a holder of Instruments who:

- (i) is an investor as defined in a specific laws (such as the law of 11 May 2007 on family estate management companies, as amended, the law of 17 December 2010 on undertakings for collective investment, as amended, the law of 13 February 2007 on specialised investment funds, as amended, the law of 23 July 2016 on reserved alternative investment funds, the law of 22 March 2004 on securitisation, as amended, the law of 15 June 2004 on venture capital vehicles, as amended, the law of 13 July 2005 on pension saving companies and associations, and the law of 15 June 2004 on venture capital vehicles, as amended);
- (ii) is, although in principle subject to Luxembourg tax, in whole or in part, specifically exempt from tax;
- (iii) owns Instruments in connection with a membership of a management board or a supervisory board, an employment relationship, a deemed employment relationship or management role; or
- (iv) has a substantial interest in the Issuer or a deemed substantial interest in the Issuer for Luxembourg tax purposes. Generally, a person holds a substantial interest if such person owns or is deemed to own, directly or indirectly, 10 per cent. or more of the shares or interest in an entity.

Withholding Tax

(i) Non-resident holders of the Instruments

Subject to the law of 23 December 2005 as amended (the "**23 December 2005 Law**") mentioned below, all payments under Instruments may be made free from withholding or deduction of or for any taxes of whatever nature imposed, levied, withheld or assessed in Luxembourg.

(ii) Resident holders of the Instruments

Under the 23 December 2005 Law, payments of interest or similar income made or ascribed by a Luxembourg paying agent to or for the benefit of an individual beneficial owner who is resident of Luxembourg will be subject to a withholding tax of 20 per cent. (the "**20 per cent. Withholding Tax**").

Taxes on Income and Capital Gains

(i) Non-resident Instrument holders

Non-resident Instrument holders, not having a permanent establishment or a permanent representative, to which the Instruments or income thereon are attributable, are not subject to Luxembourg income taxes on interest accrued or received, redemption premiums or issue discounts, under the Instruments nor on capital gains realised on the disposal or redemption of the Instruments.

(ii) Resident Instrument holders

Individuals

A resident individual acting in the course of the management of a professional or business undertaking must include any interest accrued or received, any redemption premium or issue discount, as well as any gain realised on the sale or disposal in any form whatsoever, of the Instruments, in its taxable income for Luxembourg income tax purposes.

A resident Instrument holder, acting in the course of the management of his/her private wealth, is subject to Luxembourg income tax in respect of interest or similar income received (such as premiums or issue discounts) under the Instruments, except if tax is levied on such payments in accordance with the 23 December 2005 Law.

Pursuant to the 23 December 2005 Law, Luxembourg resident individuals acting in the course of the management of their private wealth can opt to self-declare and pay a 20 per cent. tax (the "**20 per cent. Self-Declared Tax**") on interest payments made by paying agents located in an EU Member State other than Luxembourg or a Member State of the European Economic Area other than an EU Member State.

The 20 per cent. Withholding Tax or the 20 per cent. Self-Declared Tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth.

A gain realised by an individual Instrument holder, acting in the course of the management of his/her private wealth, upon the sale or disposal, in any form whatsoever, of Instruments is not subject to Luxembourg income tax, provided this sale or disposal took place more than six months after the Instruments were acquired. However, any portion of such gain corresponding to accrued but unpaid interest income is subject to Luxembourg income tax, except if tax is levied on such interest in accordance with the 23 December 2005 Law.

Corporations

A corporate resident holder of Instruments must include any benefit accrued or received, any redemption premium or issue discount, as well as any gain realised on the sale or disposal, in any form whatsoever, of the Instruments, in its taxable income for Luxembourg income tax purposes.

Net Wealth Tax

Corporate holders of Instruments resident in Luxembourg and non-resident corporate holders of Instruments that maintain a permanent establishment or permanent representative in the Grand Duchy of Luxembourg to which or to whom such Instruments are attributable are subject to annual net wealth tax on their unitary value (i.e., non-exempt assets minus liabilities and certain provisions as valued according to valuation rules), levied at a rate of 0.5% if the unitary value does not exceed EUR 500,000,000 and 0.05% on the portion of the unitary value that exceeds EUR 500,000,000, in respect of the Instruments.

Individuals are not subject to Luxembourg net wealth tax.

Inheritance and Gift Tax

Where Instruments are transferred for non-consideration:

- (i) no Luxembourg inheritance tax is levied on the transfer of the Instruments upon the death of a holder of Instruments in cases where the deceased was not a resident of Luxembourg for inheritance tax purposes;
- (ii) by way of gift, Luxembourg gift tax will be levied in the event that the gift is made pursuant to a notarial deed signed before a Luxembourg notary or is registered in Luxembourg.

Other Taxes and Duties

It is not compulsory that the Instruments be filed, recorded or enrolled with any court or other authority in Luxembourg. No registration tax, transfer tax, capital tax, stamp duty or any other similar documentary tax or duty be paid in respect of or in connection with the issue of Instruments, the performance by the Issuer of its obligations under Instruments, or the transfer of Instruments.

A fixed or ad valorem registration duty in Luxembourg may however apply (i) upon voluntary registration of the Instruments before the Registration Duties, Estates and VAT Authority in Luxembourg, or (ii) if the Instruments are (a) enclosed to a compulsory registrable deed under Luxembourg law or (b) deposited with the official records of a notary.

SWITZERLAND

The following is a summary based on legislation as of the date of this Offering Circular. It does not aim to be a comprehensive description of all the Swiss tax considerations that may be relevant for a decision to invest in Instruments. The tax treatment for each investor depends on the particular situation. All investors are advised to consult with their professional tax advisors as to the respective Swiss tax consequences of the purchase, ownership, disposition, lapse, exercise or redemption of Instruments (or options embedded therein) in light of their particular circumstances.

Swiss Federal Stamp Taxes

The issuance of Instruments to the initial holders at the original offering price (primary market) is not subject to Swiss federal issuance stamp tax (*Emissionsabgabe*) or Swiss federal securities turnover tax (*Umsatzabgabe*), although the issuance of Instruments classified as fund-like instruments may be subject to Swiss federal securities turnover tax of up to 0.3 per cent. on the offering price, but only if a Swiss securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and no exemption applies.

Dealings in Instruments (secondary market) classified as pure derivative financial instruments (such as pure call and put options, including low exercise price options with maturities not exceeding twelve months, pure futures with maximum pre-financings of 25 per cent., fully-funded Instruments which statically replicate an index or a basket of at least five different shares and with a fixed maturity or annual redemption right) are not subject to Swiss federal securities turnover tax. Dealings in other Instruments may be subject to Swiss federal securities turnover tax of up to 0.3 per cent. on the consideration paid if a Swiss securities dealer (as defined in the Swiss federal stamp tax act) is a party or an intermediary to the transaction and no exemption applies.

The physical delivery of an Instrument at exercise or redemption to the holder of such Instrument may be subject to Swiss federal securities turnover tax of (i) 0.3 per cent., in the event that a security issued by an issuer outside Switzerland is delivered and (ii) 0.15 per cent., in the event that a security issued by a Swiss domestic issuer is delivered, in each case, only if a Swiss domestic securities dealer (as defined in the Swiss Federal Stamp Tax Act) is a party or an intermediary to the delivery and no exemption applies.

Swiss Withholding Tax

Payments under the Instruments are currently not subject to Swiss federal withholding tax provided that the relevant Issuer is at all times resident and effectively managed outside Switzerland for Swiss withholding tax purposes.

After a previously proposed Swiss withholding tax reform by the Swiss Federal Council, which particularly aimed to introduce a paying-agent system, received negative responses in the consultation procedure, the Swiss Federal Council decided to abandon the reform of the Swiss federal withholding tax to a paying-agent based regime. Subsequently, the Swiss Federal Council in 2021 proposed a new draft bill to pursue a reform of the Swiss withholding tax regime. The key measure from a withholding tax perspective is the abolishment of withholding tax on most forms of interest payments, namely bond interest payments. This new legislation was, however, rejected in a referendum. While, as a result of this successful referendum, the existing system of withholding tax remains in place for the time being, it cannot be excluded that a paying agent-based regime could be implemented in the future. If in the future a new paying agent-based regime were to be enacted (as contemplated by the previously proposed withholding tax reforms) and were to result in the deduction or withholding of Swiss withholding tax on any payments of interest under the Instruments by any person in Switzerland, the holder of such Instruments would not be entitled to receive any additional amounts as a result of such deduction.

Income Taxation

Non-Swiss resident Holders

A holder of an Instrument who is not resident in Switzerland and who during the tax year has not engaged in a trade or business carried on through a permanent establishment or fixed place of business in Switzerland and who is not subject to Swiss taxation for any other reason, will not be subject to income tax in Switzerland in respect of such Instrument.

Instruments held as Private Assets by a Swiss resident Holder

(a) *Structured Notes*

If an Instrument is classified as a structured note, its income taxation depends on whether the bond and the derivative financial instrument(s) embedded therein are recorded separately from each other and whether the Instrument is classified as a structured note with or without a predominant one-time interest payment:

Non-transparent derivative financial instruments: If the embedded bond is not recorded separately from the embedded derivative financial instrument(s), the Instrument classifies as a non-transparent structured note and any return over the initial investment classifies as a taxable interest payment. Non-transparent derivative financial instruments generally include a predominant one-time interest payment and are taxed in accordance with the principles set forth below under "Transparent derivative financial instruments with a predominant one-time interest payment".

Transparent derivative financial instruments without a predominant one-time interest payment: If the embedded bond is recorded separately from the embedded derivative financial instrument(s) and the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time-interest-payment (see below "Transparent derivative financial instruments with a predominant one-time interest payment"), then any periodic interest payment and the one-time interest payment is taxed when paid to the holder of the Instrument. A gain, including interest accrued, or a loss, as the case may be, realised on the sale of an Instrument is a tax-free private capital gain or a non-tax-deductible private capital loss, as applicable (see below "Capital Gains Taxation - Instruments held as Private Assets by a Swiss resident Holder"). The same applies if the Instrument is redeemed except that interest accrued is taxed when paid.

Transparent derivative financial instruments with a predominant one-time interest payment: If the embedded bond is recorded separately from the embedded derivative financial instrument(s) and the yield-to-maturity predominantly derives from a one-time interest payment such as an original issue discount or a repayment premium and not from periodic interest payments, then any periodic interest payments and upon the sale or redemption of the Instrument, the difference between the value of the embedded bond at redemption or sale, as applicable, and its value at issuance or secondary market purchase, as applicable, converted, in each case, into Swiss Francs at the exchange rate prevailing at the time of redemption or sale, issuance or purchase, respectively (modified differential taxation method) constitutes taxable income. A value decrease on the embedded bond respectively realised on the sale or redemption of the Instrument may be offset against any gains (including periodic interest payments) realised within the same taxation period from all instruments with a predominant one-time interest payment. Any residual return realised on the embedded derivative financial instrument(s) is a tax-free private capital gain, and any residual loss is a non-tax-deductible private capital loss, respectively (see below "Capital Gains Taxation - Instruments held as Private Assets by a Swiss resident Holder").

(b) *Bonds*

Bonds without a predominant one-time interest payment: If an Instrument classifies as a pure bond without a predominant one-time interest payment (the yield-to-maturity predominantly derives from periodic interest payments and not from a one-time-interest-payment), Swiss resident private investors will be taxed on the periodic and any one-time interest payments,

converted into Swiss Francs at the exchange rate prevailing at the time of payment. A gain, including interest accrued, or a loss, as the case may be, realised on the sale of an Instrument is a tax-free private capital gain or a non-tax-deductible private capital loss, as applicable (see below "*Capital Gains Taxation - Instruments held as Private Assets by a Swiss resident Holder*").

Bonds with a predominant one-time interest payment: If an Instrument classifies as a pure bond with a predominant one-time interest payment (the yield-to-maturity predominantly derives from a one-time-interest-payment such as an original issue discount or a repayment premium and not from periodic interest payments), Swiss resident private investors will be taxed on any periodic interest payments and on any gains, including capital and foreign exchange gains, realised on the Instruments (differential taxation method).

(c) *Pure Derivative financial instruments*

Periodic and one-time dividend equalisation payments realised on an Instrument which classifies as a pure derivative financial instrument (such as pure call and put options, including low exercise price options with a maturity not exceeding one year, pure futures, static certificates replicating an index or a basket of at least five shares and with a fixed maturity or an annual redemption right) and which is held as part of their private assets constitute taxable investment income. Any other return will be classified as a tax-exempt capital gain or a non-tax deductible capital loss (see below "*Capital Gains Taxation - Instruments held as Private Assets by a Swiss resident Holder*").

(d) *Low Exercise Price Options*

According to the current practice of the Swiss Federal Tax Administration, low exercise price options are given if the underlying of an option has been pre-financed by at least 50 per cent. at the time of issuance.

For low exercise price options with a maturity exceeding one year the interest component of the low exercise price option (i.e. issue discount) constitutes taxable investment income. Any other return will be classified as a tax-exempt capital gain or a non-tax deductible capital loss (see below "*Capital Gains Taxation - Instruments held as Private Assets by a Swiss resident Holder*").

(e) *Fund-like instruments*

An Instrument classified as a fund-like instrument will be considered a pass-through instrument for Swiss tax purposes if dividend and interest income (less attributable costs) from, and capital gains and losses (less costs attributable) realised on, the underlying investments, are reported and distributed separately. Under such conditions, an individual holding a fund-like Instrument as part of private assets only receives taxable income (which he or she must report annually) over such portion of the distributions (if the fund is distributing the income realised on the underlying investments) or earnings credits (if the fund is reinvesting the income realised on the underlying investment) as derive from dividends and interest (less attributable costs) on the underlying instruments. Any distributions or credits deriving from capital gains realised on the underlying investments constitute a tax-free private capital gain and any respective loss on the underlying investments is a non-tax-deductible private capital loss. Any gain realised within a taxation period on the sale of a fund-like instrument (including accrued dividends and interest) is exempt from income taxation as a private capital gain, and, conversely, any loss realised a non-tax-deductible capital loss (see below "*Capital Gains Taxation - Instruments held as Private Assets by a Swiss resident Holder*").

Instruments held as Assets of a Swiss Business

Corporate entities and individuals who hold Instruments as part of a trade or business in Switzerland, in the case of residents abroad carried on through a permanent establishment or a fixed place of business in Switzerland, are required to recognise any payments on, and any capital gains or losses realised on the sale or redemption of, such Instruments (irrespective of their classification) in their income statement for the respective taxation period and will be taxed on any net taxable earnings for such period.

The same taxation treatment also applies to Swiss-resident individuals who, for income tax purposes, are classified as "professional securities dealers" for reasons of, *inter alia*, frequent dealing and leveraged investments in securities.

Capital Gains Taxation

Instruments held as Private Assets by a Swiss resident Holder

A gain or a loss, as the case may be, realised by an individual resident in Switzerland for tax purposes upon the sale or other disposal of an Instrument held as part of his or her private assets is a tax-free private capital gain or a non-tax deductible capital loss, as applicable, unless such individual is classified, for income tax purposes, as "professional securities dealers" for reasons of, *inter alia*, frequent dealing and leveraged investments in securities. If an individual is classified as "professional securities dealer" he or she will be taxed in accordance with the principles set forth below under "Instruments held as Assets of a Swiss Business". Concerning the bifurcation of a tax-exempt capital gains component or non-tax deductible capital loss component, as the case may be, from taxable income components of an Instrument see the bifurcation principles set forth above with regard to the different instruments under "Income Taxation - Instruments held as Private Assets by a Swiss resident Holder").

Instruments held as Assets of a Swiss Business

Capital gains realised on Instruments held as Assets of a Swiss Business are taxed in accordance with the taxation principles set forth above under "Income Taxation - Instruments held as Assets of a Swiss Business").

Gift, Inheritance and Estate Taxes

Subject to an applicable tax treaty in an international scenario, transfers of Instruments may be subject to cantonal and/or communal inheritance tax, estate tax or gift tax if the deceased person has had his or her last domicile in Switzerland, or the donor is resident in Switzerland, or, in the case of a foreign deceased or resident person, the transfer involves an unincorporated business in Switzerland and Instruments are held as part of such business or a cantonal/communal gift/inheritance/estate tax is levied based on movable property in its territory. No such taxes exist at the federal level. Tax rates depend upon the existing relationship (i.e. the relationship between the deceased and the heirs, or between the donor and the donee) and the size of the inheritance or gift and the relevant Swiss canton/commune. Interspousal gifts and gifts to descendants and inheritances collected by the surviving spouse and descendants are frequently exempt or taxed at very low rates (approximately up to 7 per cent.). Gifts and inheritances received from unrelated persons attract rates ranging from approximately 20 per cent. to 55 per cent. The taxable base is usually the market value of the property transferred.

Net Worth and Capital Taxes

A holder of Instruments who is an individual resident in Switzerland for tax purposes or is a non-Swiss resident holding Instruments as part of a Swiss business operation or a Swiss permanent establishment is required to report Instruments as part of private wealth or as part of Swiss business assets, as the case may be, and is subject to annual cantonal and/or communal private wealth tax on any net taxable wealth (including the Instruments), in the case of non-Swiss resident individual holding Instruments as part of a Swiss business operation or a Swiss permanent establishment to the extent the aggregate taxable wealth is allocable to Switzerland. Incorporated holders of Instruments are subject to cantonal and communal capital tax on net taxable equity, in the case of non-Swiss resident person holding Instruments as part of a Swiss permanent establishment, to the extent the aggregate taxable equity is allocable to Switzerland. No net worth and capital taxes exist at the federal level.

Swiss Facilitation of the Implementation of the U.S. Foreign Account Tax Compliance Act

Switzerland has concluded an intergovernmental agreement with the U.S. to facilitate the implementation of FATCA. The agreement ensures that the accounts held by U.S. persons with Swiss financial institutions are disclosed to the U.S. tax authorities either with the consent of the account holder or by means of group requests within the scope of administrative assistance. Information will not be transferred automatically in the absence of consent, and instead will be exchanged only within the scope of administrative assistance on the basis of the double taxation agreement between the U.S. and Switzerland. On 8 October 2014, the Swiss Federal Council approved a mandate for negotiations with the U.S. on

changing the current direct-notification-based regime to a regime where the relevant information is sent to the Swiss Federal Tax Administration, which in turn provides the information to the U.S. tax authorities.

Automatic Exchange of Information in Tax Matters

Switzerland has concluded a multilateral agreement with the European Union on the international automatic exchange of information (the "AEOI") in tax matters. The agreement became effective as of 1 January 2017 and applies to all 27 EU member states. Also on 1 January 2017 the multilateral competent authority agreement on the automatic exchange of financial account information (the "MCAA"), and based on the MCAA, a number of bilateral AEOI agreements with other countries became effective. Based on such agreements and the implementing laws of Switzerland, Switzerland collects data in respect of financial assets, including, as the case may be, Instruments, held in, and income derived thereon and credited to, accounts or deposits with a paying agent in Switzerland for the benefit of individuals resident in an EU member state or resident in a treaty state. In accordance with such multilateral agreements and bilateral agreements and the implementing laws of Switzerland, Switzerland has begun to exchange data so collected, and such data may include data about payments made in respect of the Instruments. Switzerland has signed and intends to sign further AEOI agreements with further countries, which, subject to ratification, will become effective at a later date. An up-to-date list of the AEOI agreements of Switzerland in effect or signed and becoming effective can be found on the website of the State Secretariat for International Financial Matters (<https://www.sif.admin.ch/sif/en/home.html>).

UNITED KINGDOM TAXATION

The following is a summary of the United Kingdom withholding tax treatment of payments under the Instruments, of certain other United Kingdom tax considerations relating to the acquiring, holding, exercising or disposing of Instruments and of certain aspects of the United Kingdom stamp duty and stamp duty reserve tax treatment of the issue, transfer and exercise of Instruments. It is based on current United Kingdom tax law and HM Revenue & Customs' ("HMRC") published practice. The comments only apply to Holders that are the beneficial owners of Instruments who acquire and hold Instruments as an investment and do not apply to certain classes of person (such as unit trusts, open-ended investment companies, persons connected with the relevant Issuer and persons carrying on a trade of dealing in financial instruments) to whom special rules may apply. The comments are intended as a general guide and should be treated with appropriate caution, particularly since the precise provisions of the Final Terms could alter the tax treatment of any given Instruments. This summary is not intended to be exhaustive and does not cover any issues or taxes not expressly covered; nor should it be considered legal or tax advice to any person. The summary does not take into account the effect of any overriding anti-avoidance principles or legislation that may apply to Holders in their particular circumstances or to any wider arrangements to which they may be a party. Each potential purchaser is advised to consult its own tax adviser as to the United Kingdom tax consequences attributable to acquiring, holding, exercising and disposing of Instruments and as to other United Kingdom and non-United Kingdom applicable taxes.

The references to "interest" in this United Kingdom taxation section mean "interest" as understood in United Kingdom tax law. The statements do not take account of any different definitions of "interest" or "principal" which may prevail under any other law or which may be created by the terms and conditions of the Instruments or any related documentation. In particular, any premium element of the redemption amount of any Instruments redeemable at a premium and any additional amounts payable under W&C Instruments may constitute a payment of interest.

Potential individual purchasers who are resident for tax purposes in the United Kingdom (or about to be so resident) but who are either not United Kingdom-domiciled or have been resident in the UK for only a relatively short period should consult their own tax advisers given the changes announced in the UK's Spring Budget 2024. In particular, such purchasers may want to consider which Instruments do or do not benefit from a non-United Kingdom situs treatment for the purposes of relevant United Kingdom taxes. In particular, such potential purchasers should be aware that Notes held through CREST in the form of CDIs are likely to be treated as UK situs assets for certain UK tax purposes.

United Kingdom Withholding Tax on Instruments

There should be no requirement for United Kingdom tax to be withheld on payments under the Instruments which do not have a United Kingdom source.

W&C Instruments

Holders not within the charge to United Kingdom corporation tax

The following applies to Holders who are resident in the United Kingdom, other than Holders who are within the charge to corporation tax. **Each potential purchaser of W&C Instruments is advised to consult its own tax adviser as to the United Kingdom tax consequences of acquiring, holding, exercising and disposing of W&C Instruments as the taxation of W&C Instruments is particularly complex and sensitive to the precise terms of the relevant W&C Instrument.**

Qualifying options

The United Kingdom tax treatment of W&C Instruments will depend upon the particular facts and circumstances of the Holder. The following paragraphs relate only to W&C Instruments which satisfy the following conditions:

- (a) there are no additional amounts payable under the terms of the W&C Instrument;
- (b) the W&C Instruments are not designed to produce a return equivalent to money invested at interest;
- (c) there is no floor or other minimum amount payable under the terms of the W&C Instruments;
- (d) the return on the W&C Instruments is calculated with direct reference to fluctuations in the value of an underlying Reference Item or Items; and
- (e) the W&C Instruments constitute either options or futures for UK tax purposes.

On the assumption that the Holder will hold the W&C Instruments as investment assets, the UK tax treatment will also depend upon whether or not they are "qualifying options". A W&C Instrument will not be a "qualifying option" unless either:

- (a) it is listed on a "recognised stock exchange" or a "recognised futures exchange" for the purposes of section 144(8) TCGA (as defined below); or
- (b) it is a "financial option" for the purposes of that section.

W&C Instruments which constitute "qualifying options" for the purposes of section 143 of the Taxation of Chargeable Gains Act 1992 ("TCGA") are generally assets to the disposal and exercise of which the TCGA applies. Accordingly, a disposal or exercise of such W&C Instruments by a Holder may give rise to a chargeable gain or allowable loss for the purposes of the United Kingdom taxation of chargeable gains.

In circumstances where a "qualifying option" is exercised and settled by Physical Delivery, generally the exercise will not be treated as a disposal giving rise to chargeable gains or allowable losses. Instead, the acquisition and exercise of the option is treated as a single transaction and the cost of acquiring the option is treated as part of the cost of acquiring the underlying asset acquired on exercise.

Any potential Holder should note, however, that, even if a W&C Instrument satisfies all of the conditions set out above it may in certain circumstances be subject to a different tax treatment from that outlined above for United Kingdom tax purposes. The United Kingdom tax treatment will depend on its precise terms and in certain limited circumstances income tax treatment may apply.

Other W&C Instruments

Where W&C Instruments do not satisfy the conditions for the treatment set out above different and complex United Kingdom tax considerations may apply. The W&C Instrument may be treated as a debt security, in which case potential purchasers should refer to the section below entitled "Notes", however further considerations may affect the analysis, depending on the terms of the W&C Instrument. Potential Holders should take their own UK tax advice.

Notes

Holders not within the charge to United Kingdom corporation tax

The following applies to Holders who are resident in the United Kingdom, other than Holders who are within the charge to corporation tax. **Each potential purchaser of Notes is advised to consult its own tax adviser as to the United Kingdom tax consequences of acquiring, holding and disposing of Notes.**

Interest

Any interest, discount or premium payable on the Notes will generally be subject to United Kingdom income tax by direct assessment even where paid without withholding.

Accrued Income Scheme

Holders that are UK resident individuals should have regard to the provisions of the Accrued Income Scheme (the "**Scheme**") which may apply to Holders transferring Notes that bear interest or to persons to whom such Notes are transferred. The charge to tax on income that may arise as a result of the Scheme will be in respect of an amount representing interest on the Notes which has accrued and has not been paid during the period they are held. This amount will be taken into account in determining any chargeable gain or loss arising on a disposal of the Notes.

However, where a Note constitutes a "variable rate security" for the purposes of the Scheme, the amount of accrued interest deemed to be received as income by a Holder upon transfer would be such amount as is just and reasonable in the circumstances, and the transferee will not be entitled to any credit under the Scheme to set against any actual or deemed interest that is received or is deemed received by the transferee after the transfer.

Taxation of discount and premium

Generally where the amount payable on maturity, or any other occasion when the Note can be redeemed (other than those which are ignored because they satisfy the "third party option condition" or the "commercial protection condition" for the purposes of section 431 of the Income Tax (Trading and Other Income) Act 2005 ("**ITTOIA**")), and ignoring any interest then payable, will or may exceed the issue price by more than 0.5 per cent. of the redemption amount for each year in the redemption period, up to a maximum of 30 years, those Notes will constitute deeply discounted securities, subject to certain exceptions. It is not considered that Notes would be regarded as deeply discounted securities merely by reason of the fact that they are denominated in a currency other than sterling. Where Notes constitute "deeply discounted securities", a Holder of such Notes may be liable to United Kingdom income tax on any profits (generally, the amount by which any sum payable on the transfer or redemption of the Note exceeds its acquisition price) made on the sale or other disposal (including redemption) of such Notes.

Where Notes are issued at a redemption premium as opposed to being issued at a discount, then where such premium does not constitute a payment of interest such Notes may constitute "deeply discounted securities" (as mentioned above).

Notes which are "deeply discounted securities" are qualifying corporate bonds and are therefore not subject to capital gains tax.

Notes which constitute "excluded indexed securities" for the purposes of section 433 ITTOIA, notwithstanding that they may satisfy the above requirements, will not generally be treated as "deeply discounted securities" and therefore any gain will, subject to the specific terms of the Notes and the Holder's personal circumstances, generally be within the charge to United Kingdom tax on capital gains. A security will only be an "excluded indexed security" for these purposes if both: (i) a number of anti-avoidance rules or other income tax rules do not apply; and (ii) the amount payable on redemption is determined by applying to the amount for which the Notes were issued the percentage change (if any) over the Note's redemption period in (a) the value of chargeable assets (within the meaning of section 433 ITTOIA) of a particular description, or (b) an index of the value of such assets. The fact that a Note may provide for a minimum amount payable on redemption not exceeding 10 per cent. of the issue price will not prevent it from satisfying this requirement and any interest payable on redemption is ignored in determining the amount payable on redemption for these purposes.

Capital gains tax

Where Notes (other than "deeply discounted securities") are denominated in sterling and are not capable of conversion into, or redemption in or by reference to any foreign currency they may be treated as qualifying corporate bonds so that no United Kingdom taxation on chargeable gains or allowable losses will arise on any sale, redemption or other disposal. This depends upon the Notes comprising "normal commercial loans" at all times (for the purposes of section 117(1) TCGA) which may not be the case where, for example, the Notes contain a right to acquire other shares or securities, or to a return which depends on the results of the Issuer's business or any part of it. A Note which carries a return expressed in sterling which is determined by reference to the value at any time of any other currency or asset will not be treated as being denominated in sterling for these purposes, and accordingly will not be a qualifying corporate bond.

Where Notes are denominated in a currency other than sterling or do not comprise normal commercial loans, then provided they are not deeply discounted securities they will generally be chargeable assets for the purposes of United Kingdom capital gains tax with the result that any gain or loss arising on a disposal may, depending on the Holder's personal circumstances, give rise to a charge to United Kingdom tax on capital gains or an allowable loss.

Holders not resident in the United Kingdom

Payments on the Instruments that have a United Kingdom source may be subject to income tax by direct assessment even when paid without withholding or deduction.

However, where such payments received without withholding or deduction for or on account of United Kingdom tax constitute interest or annual payments, such amounts will not be chargeable in the hands of a Holder (other than certain trustees) who is not resident for tax purposes in the United Kingdom unless that Holder carries on a trade, profession or vocation in the United Kingdom through a United Kingdom branch or agency or, in the case of a company, a permanent establishment in connection with which such amounts are received or to which the Instruments are attributable.

Where payments on Instruments have been paid under deduction of United Kingdom income tax, Holders who are not resident in the United Kingdom may be able to recover part of the tax deducted if that is provided for in an applicable double tax treaty between the country of residence of the Holder and the United Kingdom. Holders may also be entitled to a reduction in the rate of or exemption from tax on United Kingdom source payments if provided for in an applicable double tax treaty between the country of residence of the Holder and the United Kingdom.

Holders not resident in the United Kingdom will not be within the charge to United Kingdom tax on chargeable gains in respect of any Instruments save broadly where Instruments are held in or used for the purposes of a trade carried on by the non-resident through a branch or agency or, in the case of a company, a permanent establishment, and subject also to certain rules that apply in the case of (i) non-resident persons holding the Instruments in connection with certain types of UK real estate businesses; and (ii) individuals that are temporary non-residents.

United Kingdom Stamp Duty and Stamp Duty Reserve Tax ("SDRT")*Issue*

No stamp duty or SDRT should arise on the issue of Instruments.

Transfer

Stamp duty is chargeable on written instruments, and so if transfers of Instruments are effected through a Clearing System otherwise than by way of written instrument then no stamp duty should arise in respect of such a transfer. If a written instrument is used in respect of a transfer by way of sale, then any such instrument which is executed in the United Kingdom or which (if not executed in the United Kingdom) relates to any matter or thing done or to be done in the United Kingdom may be subject to stamp duty unless the Instruments constitute "exempt loan capital", that is they are exempt under section 79 of the Finance Act 1986. Stamp duty would be charged at 0.5 per cent. of the sale consideration. If the consideration paid for a transfer of such Instruments is £1,000 or less and the instrument transferring the Instruments includes an appropriate certificate the stamp duty payable will be reduced to nil.

The Issuers do not intend to keep or maintain any register of securities in the United Kingdom and on the basis that no such register is kept or maintained in the United Kingdom, no SDRT should generally (and subject to the following paragraph) be payable in respect of any agreement to transfer Instruments.

SDRT at 0.5 per cent. may be payable in relation to any agreement to transfer Instruments that provide for Physical Delivery either mandatorily or at the option of the Holder, or otherwise give the Holder the right to acquire stock, shares or loan capital (or interests in or rights arising out of stock, shares or loan capital) in certain bodies corporate incorporated in the United Kingdom or with a United Kingdom connection unless such stock, shares or loan capital would qualify as "exempt loan capital". A body corporate will have a United Kingdom connection for these purposes if (i) a register of the relevant stock, shares or loan capital is kept in the United Kingdom by or on behalf of the body corporate; or (ii) the shares are "paired" with shares in a United Kingdom incorporated body corporate within the meaning of s 99(6B) FA 1986. In addition, SDRT at 0.5% may apply to agreements to transfer certain Notes if those Notes satisfy all of the following three conditions: (i) they are held through in CREST in the form of CDIs; (ii) they are not listed on a "recognised stock exchange" within the meaning of section 1005 Income Tax Act 2007; and (iii) they do not constitute "exempt loan capital".

Where Instruments are issued in bearer form which (i) are denominated in sterling or in respect of which there is an option for repayment in sterling or in one or more other currencies (unless that option is exercisable only by the holder) and (ii) are not loan capital; a transfer by delivery in the United Kingdom of any such Instrument may attract a compulsory bearer instrument duty at 1.5 per cent. of the value of such Instrument.

Exercise and redemption

United Kingdom stamp duty may be required to be paid in relation to the transfer of an asset (such as stock or marketable securities) following the exercise of a Physical Delivery Warrant or Physical Delivery Certificate or following redemption of a Physical Delivery Note. SDRT may be payable in respect of the agreement to transfer an asset pursuant to a Physical Delivery Warrant or Physical Delivery Certificate following the exercise of the Warrant or Certificate or pursuant to a Physical Delivery Note in connection with redemption of the Note. However, any such liability to SDRT will be cancelled (or, if already paid, will be repaid) if the instrument effecting the transfer is chargeable with stamp duty (or is otherwise required to be stamped) and has been duly stamped within six years of the agreement being made or, in the case of a conditional agreement, within six years of all conditions being satisfied.

HONG KONG TAXATION – CMU NOTES

The following is a general description of certain Hong Kong tax considerations relation to the CMU Notes. As each Tranche of the CMU Notes may be subject to different tax treatment in Hong Kong due to the specific terms and conditions of such Tranche, the following is only a generic overview of Hong Kong tax aspects that may be of relevance with respect to the possible tax treatment of CMU Notes. It does not purport to be a complete analysis of all tax considerations relating to the CMU Notes, whether in Hong Kong or elsewhere. Prospective purchasers of CMU Notes should consult their own tax advisors as to which countries' tax laws could be relevant to acquiring, holding and disposing of CMU Notes and receiving payments of interest, principal and/or other amounts under the CMU Notes and the consequences of such actions under the tax laws of those countries. This description is based upon the law as in effect and applied on the date of this Offering Circular, as well as on the current tax practice, and is subject to any changes in laws and their interpretation that may take effect after such date, including changes with retroactive effect.

Withholding Tax

No withholding tax is payable in Hong Kong in respect of payments of principal or interest on the CMU Notes or in respect of any capital gains arising from the sale of the CMU Notes.

Profits Tax

Hong Kong profits tax is chargeable on every person carrying on a trade, profession or business in Hong Kong in respect of profits arising in or derived from Hong Kong from such trade, profession or business (excluding profits arising from the sale of capital assets).

Interest on the CMU Notes may be deemed to be profits arising in or derived from Hong Kong from a trade, profession or business carried on in Hong Kong in the following circumstances:

- (a) interest on the CMU Notes is derived from Hong Kong and is received by or accrues to a corporation carrying on a trade, profession or business in Hong Kong;
- (b) interest on the CMU Notes is derived from Hong Kong and is received by or accrues to a person, other than a corporation, carrying on a trade, profession or business in Hong Kong and is in respect of the funds of that trade, profession or business;
- (c) interest on the CMU Notes is received by or accrues to a financial institution (as defined in the Inland Revenue Ordinance (Cap. 112) of Hong Kong) (the "**IRO**") and arises through or from the carrying on by the financial institution of its business in Hong Kong; or
- (d) interest on the CMU Notes is received by or accrues to a corporation, other than a financial institution, and arises through or from the carrying on in Hong Kong by the corporation of its intra-group financing business (within the meaning of section 16(3) of the IRO).

Sums received by or accrued to a financial institution by way of gains or profits arising through or from the carrying on by the financial institution of its business in Hong Kong from the sale, disposal and redemption of CMU Notes will be subject to Hong Kong profits tax. Sums received by or accrued to a corporation, other than a financial institution, by way of gains or profits arising through or from the carrying on in Hong Kong by the corporation of its intra-group financing business (within the meaning of section 16(3) of the IRO) from the sale, disposal or other redemption of CMU Notes will be subject to Hong Kong profits tax.

Sums derived from the sale, disposal or redemption of CMU Notes will be subject to Hong Kong profits tax where received by or accrued to a person, other than a financial institution, who carries on a trade, profession or business in Hong Kong and the sum has a Hong Kong source unless otherwise exempted. The source of such sums will generally be determined by having regard to the manner in which the CMU Notes are acquired and disposed of.

In addition, the Inland Revenue (Amendment) (Taxation on Specified Foreign-sourced Income) Ordinance 2022 of Hong Kong (the "**Amendment Ordinance**") came into effect on 1 January 2023. Under the Amendment Ordinance, certain foreign-sourced interest on the CMU Notes accrued to an MNE entity (as defined in the Amendment Ordinance) carrying on a trade, profession or business in Hong Kong is regarded as arising in or derived from Hong Kong and subject to Hong Kong profits tax when it is received in Hong Kong. The Amendment Ordinance also provides for relief against double taxation in respect of certain foreign-sourced income and transitional matters.

In certain circumstances, Hong Kong profits tax exemptions (such as concessionary tax rates) may be available. Investors are advised to consult their own tax advisors to ascertain the applicability of any exemptions to their individual position.

Stamp Duty – Registered Notes

No stamp duty is payable on the issue of CMU Notes. Stamp duty may be payable on any transfer of CMU Notes if the relevant transfer is required to be registered in Hong Kong. Stamp duty will, however, not be payable on any transfer of CMU Notes provided that either:

- (a) such CMU Notes are denominated in a currency other than the currency of Hong Kong and are not repayable in any circumstances in the currency of Hong Kong; or
- (b) such CMU Notes constitute loan capital (as defined in the Stamp Duty Ordinance (Cap. 117) of Hong Kong).

With effect from 17 November 2023, if stamp duty applies to the transfer of CMU Notes required to be registered in Hong Kong and which are not otherwise exempt, it will be payable at the rate of 0.2 per cent. (of which 0.1 per cent. is payable by the seller and 0.1 per cent. is payable by the purchaser) normally by reference to the consideration or its value, whichever is higher. In addition, stamp duty is payable at the fixed rate of HK\$5 on each instrument of transfer executed in relation to any transfer of the CMU Notes if the relevant transfer is required to be registered in Hong Kong.

Estate Duty

The Revenue (Abolition of Estate Duty) Ordinance 2005 commenced operation on 11th February 2006. Estates of persons who pass away on or after the commencement date of that ordinance are not subject to Hong Kong estate duty.

KOREAN TAX CONSIDERATIONS

The following is a summary of the taxation treatment under current Korean tax laws as at the date of this Offering Circular. It relates only to the position of Korean residents or corporations who are the absolute owners of the Korean Notes and may not apply to certain classes of persons such as dealers, custodians or other third parties who hold the Korean Notes on behalf of other persons. It is a general guide, is not intended to be exhaustive and should be treated with appropriate caution. Prospective purchasers of Korean Notes who are in any doubt as to their tax position should consult their own professional advisers on the tax implications of an investment in the Korean Notes for their particular circumstances.

According to the tax laws presently in effect in the Republic of Korea, interest income earned by residents of the Republic of Korea or domestic corporations ("**Residents**") is generally subject to Korean taxation.

In the case of interest payments on bonds issued by a domestic corporation, 14 per cent. of the individual income tax or corporate income tax will be withheld, and local income tax, which is 10 per cent. of such individual income tax or corporate income tax, will also be withheld for both individual investors or corporate investors. In the case of interest payments on bonds issued by a foreign corporation such as the Korean Notes, if there is any paying agent of the foreign issuer in Korea, such paying agent would be obligated to withhold individual income tax or corporate income tax (both of which will be subject to the same withholding tax rates as above but net of any income taxes paid in a foreign jurisdiction) and the local income tax from the payments on the bonds such as the Korean Notes. Such withholding obligation may be delegated by a written agreement to another entity in the payment chain such as the KSD, or a securities company which as AMI of the Korean Notes receives the payment on behalf of its customers (i.e., ultimate owners of the Korean Notes) from the KSD, although there is uncertainty whether such delegation of withholding obligation is allowed under Korean tax laws.

Corporate investors may be entitled to foreign tax credit when they make tax filings. Individual investors may also be entitled to foreign tax credit, if they make annual tax filings.

The Dealers have further entered into a New York Law Program Agreement dated 15 May 2024 (as the same may be amended, supplemented and/or restated, from time to time, in accordance with the terms thereof, the "**New York Law Programme Agreement**" and, together with the English Law Programme Agreement, the "**Programme Agreements**" and each, a "**Programme Agreement**"), with BAC, in its capacity as Issuer and as Guarantor, and BofA Finance, which sets forth a basis upon which the Dealers may from time to time agree to purchase Notes to be issued by BAC or BofA Finance. The relevant Issuer and the Guarantor reserve the right not to make payment or delivery in respect of such Rule 144A Instrument to a person in the United States or a U.S. person if such payment or delivery would constitute a violation of U.S. law.

Prior to the delivery of the Entitlement in respect of a Physical Delivery Instrument (other than a Rule 144A Instrument) the holder thereof will be required to represent that, *inter alia*, it is not a U.S. person, the Instrument was not exercised on behalf of a U.S. person and no cash, securities or other property has been or will be delivered within the United States or its possessions or to, or for the account or benefit of, a U.S. person in connection with any exercise thereof.
